### Eastland Echoes

By Casey

THOUGHT: "Killing time isn't murder, it is suicide." — (Cheer)

Have you written or wired Congressman Omar Barleson your protest about a reported move which would serve only false economy in closing the internal revenue office here? Our Congressman has already kicked about it to the proper authorities but we know that he would appreciate the added support for his protest of an avalanche of mail and telegrams. Governmental departments are not always deaf to such a wave of sentiment, you know.

Asked a lady of her physician: "Do you think raw oysters are healthy?" "Oh, yes," he replied. "I never knew one to complain."

Today is the closing phase of a very successful 6th District, Texas Federation of Women's Clubs, Convention here in Eastland. To all who have had parts in it go our hearty congratulations — especially Local Arrangements Chairman Vice-President Lillian (Mrs. James H.) Horton, for it has been a sizable task and one most ably performed.

Life is like a cafeteria: There are no waiters, to bring success to you. You must help yourself. — (Selected)

While he feels just fine these days, C. J. Germany underwent a very serious operation just a few short months ago. Talking with him the other day we learned that it was one in which a weak and inflating artery was replaced with a synthetic one (of plastic). Wasn't that something? Well, his approach to life helped a lot toward his recovery. "As the surgeon prepared to do the work," he recalled, "I told him: 'You'd better be a good pipe-fitter, for this plumbing job'." When a fellow has that much self-control, it's hard to floor him.

One of our most-appreciated visitors (strolled into the office with daddy Sunday), little blond Ann Barrow, daughter of Dr. and Mrs. W. B. Barrow — a year and a half old bundle of sweetness.

He has been serving in his present capacity as director of research and records at TSTA for the past four years," said Mr. Garrett.

### Request Is Made For Additional Supply of Serum

Eastland County is in the midst of Salk polio inoculations. The first inoculations were at Cisco Monday, followed by those of Eastland, Ranger and other communities Tuesday afternoon.

Dr. L. C. Brown, county health officer, apportioned serum to the communities Sunday — excepting Rising Star, which received its serum Monday morning — after it was brought in from Austin Sunday by a National Guard airplane through arrangements made by Sgt. Jess Cole of Ranger, March of Dimes activities chairman.

"The shipment contained 681 CCs," said Dr. Brown. "When the vaccine was flown into Texas, it was found that the plane brought 1,400 fewer doses than anticipated."

"As a result, we are having to make out on just exactly the amount signed for; however, I have written the state health officer asking him for additional serum."

He said that the inoculations — offered free to children of the first and second grades — may still be requested.

The second inoculations are due to take place a week hence.

"We are told," said Dr. Brown, "that the third shot, scheduled for seven months after the second dose, will be given at the discretion of the family physician and at the expense of the parents."

Here in Eastland the inoculations were given by local physicians at Memorial Hospital, with City Health Officer Dr. W. B. Barrow as chairman of arrangements, starting at 1 p.m. Tuesday in the following order: The Eastland White Ward schools, the colored school, Seranton, Olden.

Dr. Brown estimated that about 150 youngsters would be vaccinated here Tuesday afternoon.

"It should be borne in mind," said Dr. Brown, "that no child will be inoculated with the serum without the written consent of the parents and for this reason it is imperative that parents wishing to have free service return the written permits to qualify for inoculations for their children."

"A record high was reached in attendance," said Mr. Pipkin. "It was 460 this year, whereas the highest figure previously had been 400."

Mr. Pipkin said that the next meeting of the region will be held in April, 1956, in the new Starler Hotel in Dallas.

Besides the Eastland couple, Comanche Trails Scouting personnel who attended the San Antonio meeting included President Dr. C. P. Graves of Goldthwaite, Commissioner Rio Cox of Brownwood and Council Member Weinbrenner, also of Brownwood.

wood, second vice president; Mrs. James Horton of Eastland, first vice president and Mrs. Shoemaker of Abilene, president. Mrs. Horton announced that two new clubs had been affiliated with the district — the Leti Club at Junction and the junior club at Winters. Mrs. Jess Pyeatte of Clyde, hospitality chairman, brought greetings to convention "first-timers," pinning each with a blue ribbon.

Following club reports, Mrs. Roby Miller of Cisco, chairman of Epsilon Sigma Omicron, reported on this plan of study for clubwomen for college credit that is available. Mrs. Shoemaker read the Texas Heritage report of Mrs. Brian C. Brooks of Abilene, who was absent. Miss Eudora Hawkins of Abilene gave the Safety report on the TFWC - sponsored Driver Education Program, in the absence of the chairman, Mrs. P. H. Patton of Clyde.

Mrs. L. E. Dudley of Abilene, TFWC president and GFWC board member, urged all clubs to enter the GFWC Community Achievement Contest; Miss Ethel Foster, of Sterling City, chairman of Council of International Clubs of GFWC, chairman of the Department of Education, stressed the need for more scholarships to be set up for training teachers and nurses.

**Presidents Luncheon**  
Honoring club presidents throughout the district, the traditional Presidents Luncheon was held at the First Methodist Church with the Women's Society of Christian Service as host and Mrs. Ina Bean as chairman. Luncheon appointments and decorations were by the Eastland Civic League and Garden Club and featured Ceramic heads of women filled with varicolored pasties to form their hats, used down the center of the tables.

Mrs. James A. Bennett of San Angelo, executive committee member, presided; Mrs. Donley Stephenson, Abilene, board member, offered the invocation; Mrs. Frank

Sparks of Eastland, soloist, sang "Break of Day" (Sanderson) and "Love Went A-Riding" (Bridge), accompanied by Mrs. D. L. Kinaird.

"Be Glad for Little Things," the convention theme, was the subject of Mrs. Shoemaker's talk, stressing that single deeds, little by little, collect together, make big things — and the importance of a pat on the back or a chance word. "Keys to Good Citizenship" was Mrs. Dudley's topic for the luncheon program. She emphasized the importance of cooperation in club work; the American home, which she said is the most important and oldest social institution; spiritual values; juvenile delinquency, and said that not a veneer of education nor temperament and will, truth, beauty and goodness were keys to good citizenship. "Faith in God, ourselves, our fellowman and in freedom are necessary to maintain good citizenship," she added. She recognized Mrs. Ben Boyd of Denton, a visitor from Second District and a state board member.

**Public Affairs Program**  
After lunch, the convention reassembled at the First Baptist Church for club reports, followed by a program on Public Affairs, with Mrs. Frank Castleberry, president of Eastland's Thursday Afternoon Club, presiding.

Virgil T. Seaberry, Jr., Charles Freyschlag and Jack Frost, Eastland lawyers, were the speakers and their subjects were "Estate Laws, Tax Laws, Insurance and Investments," topics of vital importance and interest to every family.

**Outstanding Clubwoman Chosen**

**Another Great Need**

While we're thinking about and rejoicing over the apparent victory over polio let's keep a proper sense of values and remember this:

"Nearly fifty per cent of all hospital beds are occupied by patients with mental illness."

For this we have the word of Dr. Henry A. Holle, Texas state health officer.

Fast progress has been made in reducing insanity from organic causes. But only in very recent years have extensive strides been made to cope with that which is due chiefly to psychological factors.

Early childhood experiences are vastly important. Experts declare that youngsters need consistent, warm mothering, particularly in the first three years of life.

"In our high-speed modern society," says Dr. Holle, "they need guidance in the home and school in learning to handle their feelings effectively and in building healthy resistance to pressures of daily living."

There's nothing mysterious about the requirements: understanding and conscientious care—by both parents and teachers. Rededication to such a responsibility is important indeed.

**Cadillac**

**What The Doctor Ordered... For Himself!**

The doctor had owned his new Cadillac for about a month—and he was talking to a friend.

"About the only recreation I get," he said, "is at the wheel of my motor car—driving to and from the hospital, my office, and the homes of patients."

"Other doctors, of course, have the same situation—and some of them kept telling me what a big 'lift' they were getting out of their Cadillacs."

"I decided to see for myself—and they were certainly right. I actually approach the day with a lot more zest—knowing that I am going to spend a couple of hours driving my Cadillac."

The doctor is experiencing, of course, what so many other professional and business men are experiencing—the wonderful lift to the spirits that a Cadillac brings a man.

Try it sometime—and see for yourself. You'll find there's something about the way you feel as you take the wheel. You know there's a car under you! Solid, substantial, capable and protective. Just to sit there gives you a wonderful feeling of confidence and well-being.

And when you start to move, the thrill is continuous. You almost never hear the great engine, except when it answers a smart touch to the throttle. Steering is little more than the response to your thought. You just ride and relax.

We hear it every day: "I drive my Cadillac for rest and relaxation."

Why not come in today—and make the test yourself. We'll give you the keys and a Cadillac—and the "rest" is up to you!

P.S. It's only fair to warn you: You probably won't find it easy to give up the keys. Some people simply refuse!

**Want to feel like a pilot feels?**

**HOTTEST BUICK IN HISTORY**

No wonder you see so many '55 Buicks on the highways — they're rolling up bigger sales than ever before in history — topping the popularity that has already made Buick one of the "Big Three" of America's best sellers.

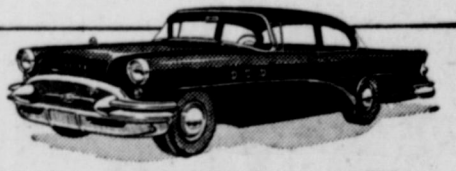

Today's the day to "Join The Test Pilot Club" and see what a thrill you get when you try Variable Pitch Dynaflow\*

We're not kidding. When you try a '55 Buick with Variable Pitch Dynaflow, you'll feel like a pilot does when he heads his plane down a runway for take-off. For you, in the driver's seat, are doing what that pilot does—you're changing the pitch of your propellers—one way for instant response on getaway—another way for better gas mileage in cruising. Your propellers are whirling in oil, deep inside the Dynaflow unit. When you press the pedal in the normal way, you hold those propellers in their economy angle—and you enjoy plenty more miles from your gasoline. But when you want instant acceleration—for quick getaway, or for a sudden safety-surge of emergency power—you just press the pedal way down, and—with absolute smoothness—you get

the action you want, and split-second quick. It's the thrill that's the talk of the industry—performance unlike anything you have ever known before on the ground. And so many folks have been asking to try it that we Buick dealers across America have set up April as "Test Pilot Club" Month. All it takes to join the "Club" is a test drive at the wheel of a new Buick. That's all. So we cordially invite you to win your "wings"—to try the spectacular performance of Variable Pitch Dynaflow—and to feel the mighty V8 power that puts the whip to these gorgeous new Buick beauties. Drop in this week.

\*Dynaflow Drive is standard on Roadmaster, optional at extra cost on other Series.

**Local Delivered Price of the 1955 Buick SPECIAL Sedan, Model 48 (illustrated) is less than some models of the best-known smaller cars! Come in and check it!**

Said a sleuth: Ah! The mystery's unraveled!—About cars that "take off like a javelin." But with Dynaflow's switch Of its Variable Pitch—You were here. Now you're there. Boy, that's travelin'!

(Why don't you try a Buick?)

**Announcing — America's newest, lowest smartest 4-door Sedan**

Newest model in Mercury's Montclair Series lets you enjoy "hardtop" beauty with 4-door convenience

It's the newest Mercury of them all—the Montclair 4-door Sedan, and the photograph shows you that not one bit of the original Montclair hardtop beauty has been lost. It has the same dramatic lowness—only 58 3/4 inches from road to roof.

And see how convenient it is to get in and out. Everyone who admires hardtop styling, but wants the roominess and convenience of a 4-door model, can now eat his cake, and have it too!

198-hp Super-Torque V-8 with dual exhausts

Seldom has an engine caused as much enthusiastic comment from auto editors. And once you drive a Montclair, you'll see why. It gives you instant, on-the-spot pickup at every speed—

from zero to super-highway limits. A four-barrel carburetor, unique new high-compression spark plugs, and dual exhausts are yours at no extra cost. Features like these are usually extra on medium-priced cars.

Exclusive new power lubrication gives Mercury widest choice of power features

The Mercury Montclair offers a new optional power feature—power lubrication. And it's exclusive with

Mercury in the medium-price field. You push a button on the dashboard and vital parts of your car are automatically lubricated. You can also choose optional power steering, power windows, power brakes, 4-way power seat and Merc-O-Matic Drive.

Why not come in and see this newest Mercury? It costs a lot less than you think. And right now your present car is worth a lot more than you might think on a trade-in at your Mercury dealer's.

**Beware of the Spring Months—**  
... when we usually have hail and wind both destructive elements that we can do little about except to expect and prepare for. The No. 1 cost to property owners in this season of the year is hail damage to residence and business properties but windstorm damage to plate glass is a close second. One city in Texas last year reported a half million dollar loss on plate glass. Guard against these hazards with adequate insurance coverage. Now is the time to see us before it is too late.

**'Down on Farm' . . .**

As a climax to their study of agriculture and of the unit on contour plowing and soil erosion, the seventh grade of Eastland Junior High School made a field trip recently to the farm of one of the students, Richard Connell, who lives two miles west of Morton Valley.

Fifty boys and girls, along with their mothers and teacher, saw Texas-Geography at work. After a picnic lunch they hiked three miles over hill and dale, over and under fences, and finally to the terraced field, and to the farm house and barns where they enjoyed the livestock and other typical farm life.

Those who transported the students were: Mesdames Neil Day, E. H. Culbertson, Howard Green, Clyde Young, Wayne Dodson, R. B. White, John Lively, J. R. Lusk, H. S. Lewis, H. A. Cogburn, and their teacher, Mrs. Joe Stephen.

PRIOR TO THE FORMAL OPENING of Sixth District, TFWC, convention in Eastland Monday and Tuesday, delegates from the 26 counties in the district registered at the Woman's Club. Shown above are Mrs. Horace Horton (left) president of the Civic League and Garden Club of Eastland, and Mrs. Gordon Bennett, incoming president of the Abilene Federation of Women's Clubs, making luncheon and dinner reservations with Mrs. B. W. Brewer of Eastland, reservations chairman.

**Search Begins For State's Youngest Sheriff**

Publisher W. B. Crossley of the Madisonville, Tex., Meteor, former Eastland newspaperman, who is a brother of City Manager R. L. Crossley of Ranger, writes back that a quest is on for Texas' youngest sheriff.

Not only that, but the searching organization — the Madisonville Sidewalk Cattleman's Association — also is hunting the oldest sheriff in the state, too. Says Mr. Crossley, a member of the Sidewalk Cattleman:

Who's the youngest sheriff in Texas nowadays?  
That question occurred to mem-

bers of the Madisonville Sidewalk Cattlemen today when the boot-wearing gentry were talking about plans for the annual reunion on June 2, and someone recalled that their president, Rodney Chambless once held that distinction among the lawmen.

Chambless, recently elected president of the Sidewalk Cattlemen, hadn't been long out of Texas as A & M College — just long enough to have spent 3 years teaching vocational agriculture — when the "politics bug" bit him and he ran for office of Madison County Sheriff. He won, too, at the age of 26. Youngest sheriff in Texas? He made a lot of news during his gun-totin' days — but that's another story.

"Why not find the youngest sheriff in Texas this year and bring him to Madisonville as our special honor guest for the reunion and barbecue?" was an immediate question.

"Let's honor the oldest sheriff in Texas also," was suggested.

So now the search is on. Who is the oldest, and who is the youngest Texan wearing the badge of sheriff?

Besides the youngest and oldest sheriffs — both of whom will be presented a pair of beautiful handmade cowboy boots, and otherwise honored while guests of the Sidewalk Cattlemen — all other Texas sheriffs are invited to come to Madisonville on Thursday, June 2, as guests of the Sidewalk Cattlemen, and take part in the festivities.
