EASTLAND, TEXAS, THURSDAY, APRIL 21, 1955

Jeanette Caton To Girls' State

MISS JEANETTE CATON

Miss Jeanette Caton, daughter of Mr. and Mrs. Wayne Caton, of Eastland, has been elected delegate to attend Girls' State to be held in Austin, beginning June 6. Miss Caton is being sponsored by the local American Legion Auxiliary.

Girls attending Girls' State must be chosen from the Junior Class in High School and be one of the three girls from that class rating highest in leadership, character, courage, honesty, scholarship, cooperativeness and physical fitness. The three girls are recommended by the High School Principal, assisted by the entire High School faculty, and the individual selection is made by the members of the American Legion Auxiliary from those recommendations.

The purpose of Girls' State is to teach our form of government realistically to those attending. They have competent instructors along this line, hear talks made by various state officials, visit the offices and officials in the State Capitol, form themselves into groups and elect their own city, county and state officers, thereby learning government first hand as it exists in our country today. Miss Caton is a popular member of the Junior Class, participates in the various school and class activities, and was recently elected 2nd vice president of the local Tri-Hi-Y.

Eastland Echoes

By Casey

Thought for Today: "Trouble is a sieve through which we sift our acquaintances. Those who are too big to pass through are our friends."—(Cheer Mag.)

Herman Hassell's miniature replica of Lake Leon is attracting considerable interest in the Chamber of Commerce window, where it was placed—beside other Made-in-Eastland products—after being displayed at the district TPWC convention here. The detail and all surely required a lot of time and effort and Mr. Hassell (of Lone Star) is to be congratulated on a good and interesting job with it.

Clyde Garrett— at the recent singing convention here—came up with one about the man who was troubled with "syncopation." "You see," Mr. Garrett told the musically inclined, "he was troubled with jumping too frequently from bar to bar."

Oftimes a "friend-in-need" is never forgotten by a person with motoring difficulties. It was thus with two Dallas women who, journeying this way, found ready assistance in a tire situation, which, gratefully, they describe in this letter:

Dallas, Texas.

Editor, Eastland Telegram, Eastland, Texas.

Dear Sir: We wish to express appreciation for the helpfulness and friendliness of the men who changed a tire for us last week when we were caught in your busiest intersection. We were pretty much embarrassed to be holding up traffic, but they handled the whole thing with such dispatch that we were soon out of the way.

If these three people are representative of your whole town, then your town must be a nice place to live. And we've decided we just must have picked up that nail in our tire in some other place.

Very truly yours, Mary Rattan Lois Longbridge

Just another example of Eastland's neighborliness—and the appreciative way in which it's received.

Cisco Lad Who Died From Car Mishap Buried

Funeral services were held Wednesday afternoon at Cisco, with Dr. H. M. Ward officiating, for 9-year-old Sammy Dean Webb, son of Mr. and Mrs. C. L. Webb, who died from effects of being struck by an automobile.

Sammy Dean was struck by a car while he waited for a school bus near his home a quarter mile west of Cisco on Highway 80. He was dead upon arrival at the hospital.

According to State Highway Patrolman Alfred White, who investigated the mishap, the boy was with a group of other children waiting for the school bus beside the highway some 100 yards south of his home at the time of the accident. One of the girls in the group opened her notebook and a paper blew out across the highway. The Webbs child attempted to retrieve the paper and was struck by the car as he crossed the highway, witnesses said.

The driver of the car was James Stacey Arnold, 18, Abilene college student who lived at Abilene. He told investigating officers that the (Continued on Page 2)

2nd Polio Shots Anticipated By Tuesday, May 3

Second polio shots in Eastland County are anticipated for Tuesday, May 3, except in the case of Cisco, where the two weeks would end Monday, May 2.

In the inoculation here for Eastland, Seranton and Olden, 142 out of 198 eligible were vaccinated, according to County Health Officer Dr. L. C. Brown.

Dr. W. B. Barrow, city health officer, chairman of local arrangements, said "fine co-operation was given—by doctors, nurses, Eastland Memorial Hospital, P-TA groups, 1st and 2nd grade teachers particularly, bus drivers, school authorities and the secretary, and the children cooperated well. Joe Manning of Foremost Dairy treated all the kids to ice cream.

The third shots are to be obtained in 6 or 7 months from private physicians. Several children were sick when the inoculation was given Tuesday and, it was announced, they will be given shots by Dr. Brown or Dr. Barrow when able to be out again.

"The children co-operated fine," Dr. Barrow said. "Incidentally, there isn't a bad reaction from this inoculation."

Dr. Brown had asked for additional serum and, Tuesday night, 20 shots earmarked for the project here were flown into Abilene. The highway patrol brought it in.

Other vaccination points in the county include Ranger and Gorman.

Rock Crushing Grows Sizable For Eastland

Guy Quinn's forty-acre near town, to the north east, is the busiest place here these days. Collins Construction Company is operating a sizable rock-crushing project which employs about 18 persons, all of whom live here. Chamber of Commerce Manager H. J. Tanner and the editor visited the site yesterday.

It is reported that four months will be required for filling the contract, with the firm busy on Morton Valley Farm to Market Road No. 101, and a double-lane highway from Cisco to the Callahan County line.

Five hundred yards of rock is being moved, with new equipment, per day by this firm. The owner of the property figures there is enough rock to last 35 to 40 years.

Meanwhile Eastland Sand and Gravel Company, a smaller commercial operation, is proceeding with its day-in-and-day-out operation on the same tract.

Dr. L. Harris Is Speaker For Baptist Men

MAYOR'S Proclamation

Whereas warm, gentle zephyrs are prevailing much at the time nowadays in these parts, and whereas the men of Eastland find, in such season, straw hats both modish and comfortable, and whereas far be it from this community not to keep abreast of the times—especially in so important a matter,

Therefore I, as mayor of Eastland, do hereby proclaim Friday, April 22, Straw Hat Day in this city and recommend that Eastlanders so observe it by donning such attire.

Cancer Drive Pushed Here

Eastland's part in the American Cancer Society's 1955 educational and fund-raising crusade got off to a flying start Wednesday. The "neighbor-to-neighbor" workers met for coffee at 9 o'clock at the home of Mrs. Joseph M. Perkins, vice president of the Texas Division of the American Cancer Society and a member of the national board of directors. Immediately after receiving final instructions from Miss Katherine Daniels of Dallas, field representative, and talks by Mrs. Perkins and by the Rev. Jackson C. Oglesby, 1955 Cancer Crusade chairman for Eastland, they left with their material to begin their neighbor-to-neighbor canvassing.

Mrs. Travis Wheat is chairman of the neighbor-to-neighbor crusade in Eastland and assisting her are the following workers, who were present at the coffee: Mrs. H. E. Denny, Mrs. H. T. Weaver, Mrs.

J. H. Hart, Mrs. B. Howard Green, Mrs. E. H. Culbertson, Mrs. Johnson Smith, Mrs. J. R. Lusk Jr., Mrs. W. M. Crow, Mrs. Art Johnson and Mrs. E. E. McAllister. They were to take the small educational pamphlets to one home each block, ask the homemaker to read it and then pass it to her next-door neighbor and so on until it had gotten around the block. Each worker took door tags to be placed on the doors of the business division, Mrs. Janie Wilson, secretary of Eastland National Bank, is treasurer, and donations may be taken to her during banking hours or to the Eastland Telegram by those who wish to give and are not contacted by one of the workers, it was announced.

Present at Mrs. Perkins' home for the kick-off, besides the workers mentioned above, were Clara June Smith, mascot and daughter of Mr. and Mrs. Johnson Smith; Mrs. Bill Walters Jr., secretary of the society's branch office in Eastland, located in the Little Red School House, 1021 S. Seaman, and Mrs. Floyd W. Casebolt.

It was announced that Mrs. O. M. White had notified those in charge that the hours, 2 to 4 p.m. each Wednesday, had been set aside by the First Methodist WSCS to work on cancer dressings. Mrs. Walters said that the National Beta Sigma Phi sorority was giving \$16,000 to the American Cancer Society and announcement would be made of this on a TV CBS program at 12:30 p.m. April 21 on the Welcome Travelers program. It was suggested that workers contact the clubs of the city for donations as they usually give to the Cancer Crusade.

past seven years, having managed several teams. He will serve as Eastland's commissioner along with one from Cisco and one from Moran. The first league game will be played May 23 in Eastland at Fireman's Field, where the Don Pierson Rockets will play the Eastland National Bank Greenbacks.

Secretary of State A. M. Muldrow has announced that he will reappoint all persons who now hold Notary Public Commissions and that all such persons must qualify by filing an oath and bond with the county clerk of their residence between June 1, 1955, and June 10, 1955. The law specifically requires county clerks to approve notary bonds and individuals should not send money or requests for commissions direct to the Secretary of State. All notary matters can only be received by the Secretary of State after the county clerk acts thereon. Johnson Smith is county clerk of Eastland County.

Any person who has not heretofore been a notary public should apply to his county clerk between May 1, 1955 and May 23, 1955, if he desires to have this application given prompt attention in the State Department, as the rush of reappointing all old notaries may slow up the ordinary process of making new appointments and issuing commissions, it was pointed out.

Secretary of State Muldrow said, "Each person applying for a commission as a notary public must be at least 21 years of age and a resident of the county for which he is appointed; exact names and permanent addresses should be given to the county clerk in applying for a commission, as location of the notary may be necessary long after he has notarized a particular instrument."

Minutes After Alert

Machine Guns Protect
City Water Supplies

Within the first minutes of "Operation Minuteman," The Ranger National Guard threw an armed iron ring around the city's valuable water supply last night.

No sooner had the national alert been broadcast over radio and television, when guardsmen began arriving at the armory for their issue of weapons and to take assigned posts at Haganam Lake and around the water tower in town.

Most heavily guarded site was the tower where two machine guns commanded approaches to the site. Nearly ten guardsmen patrolled the area surrounding Lake Haganam.

The great value of the National

Guard to the community, state and nation was strikingly demonstrated during the alert.

Local residents watched with interest as officers and men of the unit were alerted and quickly assumed their assigned duties with the unit.

The excellence of their Guard training was shown in the efficient manner in which they assembled their arms, and were ready to operate their equipment and move out in a remarkably short space of time.

Headquarters for the battalion as it rolled to strategic positions in full battle dress, was established in the armory building where coordination checks by the mobilized unit broke the humdrum pace set by men who were preparing themselves for emergencies that could crop up in the time of disaster.

Precise radio contact was maintained with each of the patrol units, replacements and additional strength was poised to answer disaster signals as if the city was in the grip of some civil disaster or the danger of an atomic explosion.

No details were omitted and nothing was left unchecked.

Responding to praise from civil officials and National Guard Commanders, Capt. Cecil C. Carr, commander of the local battalion, said that officers and the men of the unit appreciated the many fine comments on the ability of the battalion to mobilize quickly to be of any possible service to our community, state or county in peace or war.

"The fine cooperation of community officials and area residents in helping us mobilize also is deeply appreciated. We feel that

we have again shown our fellow citizens in a convincing manner the important mission of the National Guard," he added.

Local guardsmen were alerted with a special pre-arranged signal of the fire siren. Others living in surrounding cities or farm areas were mustered by phone or accumulated by private automobiles.

Capt. Carr who resides in Rising Star arrived only 40 minutes after the first sound of the alert.

"Fortunately this is only a test alert. There might be a time, however, when we would mobilize to protect the community against an armed enemy, or to assist civilian agencies cope with fires, floods, storms or other disasters. "We wish to emphasize these things because they are the principal mission of the National Guard," he concluded.

Jury Service

(Continued From Page One)

qualifications of the jurors or the immunities differ in different states, and jurisdictions, it is essential to our way of life that jury duty be recognized and accepted as a democratic challenge and all of us should be anxious to do our part. I personally, am happy that our great state now joins the group of jurisdictions which provide for women jurors. I feel that the result will generally improve justice." The speaker added, "When serving as a juror don't be sidetracked or distracted by possible 'Herrings led across the path,' but always search for the truth. It is always present in a case and is anxiously rearing its head for acknowledgement. Fit it and render your verdict accordingly."

Mrs. Dudley invited all at the convention to attend the state convention May 2-4 in Galveston. She expressed appreciation to the district for the work it is carrying on and for the cooperation she receives from its personnel.

Mrs. Shoemaker expressed her appreciation to all who had helped make the convention successful, enjoyable, helpful and inspiring and the Fortieth Annual Convention of Sixth District, TFWC, was adjourned.

Help Fight Cancer!

Cancer has been called "the cruelest of all killers." And those of us who have watched its ravages know full well that it is rightly named!

This editor watched his publisher-employer die, little by little, for a period of several months, some years ago, as cancer gnawed away at his life.

As all familiar with the malady know, it was a horrible experience for the victim and a terrible thing for his friends and loved ones to know and see.

Everyone who has been brought into touch with such a tragic circumstance knows how tremendously important it is that the battle to conquer the dread Cancer be given the fullest support possible.

It is hoped — and believed — that our own Eastland will give liberally to the cause. The fact that not so long ago scientific research gave man the upperhand over polio should encourage us to loosen our pursestrings for the battle on Cancer!

One day—we truly believe—the fight will be won. Let's speed it!

When you purchase a new sewing machine, you're making a lifetime investment. Its selection should not be a spur-of-the-moment thing.

If you've been thinking of replacing your older machine, you will want to give careful consideration to buying one of the many

new types. For plain sewing, patching or mending, a straight sewing machine is satisfactory. This type is also preferred for dress-making and tailoring, if no fancy effects are required.

Newer, "zig-zag" type machines are designed to handle specialty jobs like decorative stitching and embroidery. These machines cost more and also require a lot of practice to manipulate successfully.

Whether you choose a cabinet or portable machine might depend on the amount of space in your home, and the use to which you put your machine. If you choose a cabinet, for comfort, sturdiness and convenience. If space is limited or if you need to move the machine often, a portable may be the answer.

Specialists add a word of caution about buying second-hand or rebuilt machines. Knowing your dealer is of the utmost importance here. Many second-hand machines are of the foot-treadle type which have been motorized. Beware of the "bait" ads of fly-by-night concerns who seem to offer tremendous bargains. Often these machines do not stand up and repair service is not provided by the dealer.

Lamb is one of the most delicious meats on the market and can become a family favorite if properly selected and prepared. High quality lamb has a smooth covering of clear white, firm fat. The flesh or lean is firm, fine grained and velvety pink. The bones are dark, porous and comparatively soft.

If the food shopper knows the various cuts of lamb, a selection can be made that best suits the pocketbook. The more expensive lamb cuts are loin chops, rib chops, crown roast, and leg-of-lamb. Less expensive and less tender cuts come from the shoulder, shank, neck and breast, and should be cooked with moist heat as braising or simmering.

Lamb should be served either hot or cold — never lukewarm. Hot lamb should be served on warmed plates. Mint jelly and mint sauces are delicious with lamb, but many tart jellies and fruits are equally good accompaniments. Fruits such as pears, pineapple and peaches, are a treat when browned in the pan with roast lamb.

With Billy Graham Radio Program Comment Stirs Wrath of Scottish Animal Lovers

By GEORGE BURNHAM
 Chattanooga News-Free Press Staff Writer

GLASGOW, Scotland — Billy Graham apparently barked up the wrong tree in a BBC broadcast this week. He offended animal lovers throughout the United Kingdom and is now in the process of ducking dog biscuits, fish food and other assorted garbage thrown by supporters of "man's best friend."

significance of his remarks when he said in illustrating a point that "fishes belong to the sea, animals belong to the jungle and human beings belong to God."

Then the animal kingdom began to roar, bark, bellow, meow and scratch.

"Shocking and disgraceful," were the cries at the annual meeting in London of the League Against Cruel Sports. Mrs. M. Dudley Ward of South Harrow asked animal lovers to support an open letter to Billy challenging him on this remark.

"We should tackle him on his own ground," she said, "for he never says a single word about our cause."

At the same meeting there were shouts of "good" when Lord Grey de Ruthyn announced that two of the jockeys riding in Saturday's Grand National were hurt.

The lord reported that out of the

Rules of Cisco Calf Show For May 21 Listed

With the affair set for the show grounds on the Albany Highway May 21, the Registered Beef Calf Show sponsored by the Cisco Livestock Association has announced its rules and regulations.

Officials also were announced: Sutton Crofts, Cisco, president; T. G. Caudle, Cisco, general show superintendent; Ed Huestis, Cisco, grounds superintendent; J. M. Cooper, Eastland, secretary.

31 horses which started 13 fell, 13 finished and five were pulled up exhausted.

Regarding the criticism, Billy was placed in good company. Mrs. G. Horsfall, a lady with the most appropriate name of the year, said she hoped that the queen and queen mother would adopt a different attitude in the future and be on the side of mercy rather than take pleasure in attending anything so cruel as the Grand National.

Lord Ruthyn said the Queen Mother's horse pulled up exhausted after completing one round.

Beseiged in his hotel room, Billy announced that it had not been his intention to offend anyone and he pointed out that his dog, "Belshazzar," was probably one of the biggest animals in North Carolina. All the Grahams, he asserted, are very good to their pets.

Billy wasn't at all prepared physically for the onslaught. He had just had to cancel an engagement to address the Glasgow Rotarians because of a cold and fever. In an effort to fight off the ailment he had taken five different kinds of cold pills — red ones, blue ones, green ones, pink ones and brown ones. The doctor after examining him said, "You don't have any white pills."

So he gave him some white ones.

"There are thirty-five breeders of registered Hereford and Angus cattle in the country, which is quite large for a diversified county," said Mr. Cooper, who is county agricultural agent.

Following are the rules and regulations:

Hereford And Angus Breeds
 1. The registered beef calf show is open to all breeders of Hereford and Angus cattle in Eastland and adjoining counties.

2. All calves in the show must be purebred and subject to registration.

3. Calves must have been dropped on or after Sept. 1, 1954, to be entered for competition.

4. Calves must be shown in pens of three and must be of the same sex to be judged for competition. (Example — 3 bull calves in a pen or 3 heifer calves in a pen).

5. Each breeder may show two pens of calves. (Example: a pen of heifers and a pen of bulls or two pens of heifers or two pens of bulls). He may also exhibit individual animals of any age or sex, haltered and tied but not penned. Such individual animals will not be judged for competition.

6. A pen of calves of mixed sex may be exhibited but not shown for competition.

7. All animals must be in their places by 9 a.m. on the day of the show. They will be released to be taken home by 4 p.m. of the same day.

8. There will be no public sale or auction. Breeders may sell at private treaty if they wish.

9. Exhibitors will compete for ribbons only. The judges' decision is final.

10. Each exhibitor is to be responsible for panels for his pen or pens of calves. For each pen of calves exhibited two panels 8 feet long and 4 feet high is needed. Panels to be made out of six rough boards.

11. It is suggested that the panels be brought in the day before and set up.

12. The Cisco Livestock Show Association will not be responsible for lost, sick, strayed or stolen animals or for the loss or injury to any person or vehicle at or during the show.

13. The calves may be fed any

way the breeder desires so long as the calf suckles its own dam. Nurse cows will not be used by the calves to be shown in competition.

Pens of Calves to Be Judged
 Hereford heifers, first pen, second pen, third pen.
 Hereford heifers, grand champion pen.

Hereford bulls, first pen, second pen, third pen.
 Hereford bulls, grand champion pen.

Angus heifers, first pen, second pen, third pen.
 Angus heifers, grand champion pen.

Angus bulls, first pen, second pen, third pen.
 Angus bulls, grand champion pen.

Entry Fees of \$1.00 per each pen and \$1.00 per separately shown individual animals should be mailed or sent to Ed Huestis, grounds superintendent, Cisco, by May 1.

Showers Possible Here Thursday, Friday Afternoon

Possible late afternoon showers Thursday and Friday exist for the Eastland County area after showers brought scattered rain in some portions of the state Wednesday.

Abilene, Ballinger and Winters showed slight traces of moisture while San Angelo reported rain from .20 to .60 of an inch.

Dust from one of the worst storms in Colorado history blanketed the Texas Panhandle and parts of Oklahoma, Kansas and western Missouri.

Severe thunderstorms threatened an area of Central and East Texas yesterday and lightning killed one man.

A railroad inspector was killed near Waco by lightning as he ran for shelter under a bridge.

The area around Waco was also pelted with large hail stones and at least one funnel was spotted in the vicinity.

Exchange Student To Austria Is Speaker On Convention Program

Bob Ross of Willis, TFWC exchange student, appeared on the Tuesday morning program at the Sixth District, TFWC, convention in Eastland.

He told of his four months of study in Austria, illustrating his talk with colored slides. Mrs. James A. Bennett of San Angelo presided at this International Affairs program.

The First Baptist Church, convention headquarters, was decorated throughout the convention with black wrought iron stands of white chrysanthemums and large pot plants in white containers at the altar; a pink geranium in an antique black iron teapot on the rostrum and yellow chrysanthemums in the foyer.

A flower arrangement of white gladioli and purple heather used at the altar was a memorial to the late Ione Perry (Mrs. John J.) of Sweetwater.

Mrs. Art Johnson led the songs when the convention reassembled Tuesday morning, accompanied at the organ by Mrs. D. L. Kinnaird. Mrs. John Berry of Clyde, par-

liamentarian, and Mrs. James Wheeler of Abilene, chairman of Public Speaking Division reported, followed by the scholarship reports.

Mrs. Shoemaker read a report on the Frances B. Fisk Art Loan Fund telegraphed to the convention by Miss A. M. Carpenter of Abilene, chairman. Mrs. W. P. Brightwell of Baird, reported on the Virginia Brightwell Music Scholarship, saying that the exchange student, Miss Jean Wallace of Lampasas, student at Trinity University, San Antonio, will graduate this spring with a major in public school music and plans to teach. She said she had been the scholarship student four years.

Mrs. James Horton, chairman of the Ione O. Perry Memorial Scholarship Loan Fund, reported the fund's balance and, as previously announced, that Joy Lynn Robinson of Eastland had been selected to use it to enter the school of her choice in the fall.

Mrs. M. H. Hagaman of Ranger, chairman of the Latin American Scholarship, urged that all club members donate \$1 per member to this fund. Mrs. R. L. Clinton of Putnam, chairman of Headquarters Maintenance, reported the financial status of this fund.

Mrs. R. O. McWilliams of San Angelo, District publicity chairman, presided when the delegates for the junior clubs in the district made their reports.

In Memoriam Service For Deceased Members of Dist.

An impressive memorial service was led by Mrs. Claude Huffman of Abilene, who made appropriate comments concerning the beloved, deceased members of the district, stating that all through life sorrow is mingled with joy. The devotional was by Mrs. J. Royal Headrick of Sweetwater and the memorial theme was dramatized in music by Mrs. J. Frank Sparks, who sang the Twenty-Third Psalm, accompanied at the organ by Mrs. D. L. Kinnaird.

Reports then turned in were by Mrs. E. G. Hampton of Clyde, chairman of friendship; Mrs. L. L. Blackburn of Baird, historian, who reported that 54 clubs had sent in their club histories. Mrs. Richard Moseley of Rochelle, chairman of USO Scrapbooks, reported and Mrs. Brightwell, chairman of Texas Composers, told of increased interest in composers in this state.

The courtesy resolutions were read by Miss Eudora Hawkins of Abilene and were adopted by the assembly.

Mrs. Cecil Collings, chairman of the registration, committee, reported 208 registered officers and delegates. Besides these there were numerous program guests and other visitors from Eastland and throughout this section at various meetings. Mrs. Collings' committee included Miss Eunice Nall, Mmes. Turner Collie, George Lane, N. N. Rosenquest, O. L. Hooper, Don Parker, R. L. Carpenter and E. H. Culbertson.

72 Is Important Number In Old-Age Insurance

Certain numbers bring immediate mental associations with them when heard or read.

"Number one" causes most persons to think of a leader, or top quality.

"Seven," to many, means a lucky number.

"Thirteen" brings thoughts of bad luck or at certain times of the year, reminds folks of our original 13 states.

"Twenty - one" may remind many of voting age.

One could list other numbers with widespread, common associations, but R. R. Tuley, Jr., district manager of the Social Security Administration in Abilene, wants the rest of this space to talk about the number "seventy-two."

He reports that some residents of this area may have overlooked the importance of age 72 in the 1954 Amendments to the Social Security Act. At that age, there are no longer any sort of earnings restrictions placed on a person's eligibility to receive monthly Social Security Payments. In other words, the employee or self-employed person over that age can receive his old-age and survivors insurance payments regardless of the amount of his earnings.

Insured persons between 65 and 72 are eligible to receive all twelve months' checks for years their earnings are \$1200 or less, and from one to eleven months' checks if annual earnings are be-

tween \$1200.01 and \$2080. Regardless of earnings amounts, they can also be paid for any month they earn wages of \$80 or less and in which they do not render substantial services in any self-employment activity.

Persons 72 years of age or over, who have at least a year and a half of Social Security credit, should contact the Social Security office about their rights.

Mrs. Gordon Is Hostess At H-D Meet, Cheaney

Mrs. R. W. Gordon, president, was hostess when the Cheaney Home Demonstration Club members met for the regular meeting, in her home.

Members repeated the club motto, pledge and prayer in unison, followed by the devotional, read by Mrs. Gordon, who presided over the business session. Each member will make aprons to be sold to finance the club's share of the County Council budget, an amount equivalent to two dollars each.

Plans were made to place exhibits in Ranger during National Home Demonstration Week, May 1 through 7, a nation-wide observance.

Mrs. Bill Tucker, leader Demonstrator, presented a lesson on the care of wool rugs and floors. Emphasis was stressed on frequent cleaning and care of cleaning equipment, to prolong its usage and efficiency. Cleaning upholstery of spots and stains, using simple cleaning solution that can be made at home, also may be used for floors and wood-work, was a part of the afternoon lesson.

After the reading of the April H. D. Council report, the members answered roll call from suggestions listed in year book. A poem, "Our God and Home, the Source of Freedom," was read by its author, Mrs. Bill Tucker. The poem, dedicated to Home Demonstration club women, had been used by Mrs. Tucker, for adjournment of the recent District 8, THDA, meeting in Temple.

Coffee and orange cake slices were served during the social period to six members, Mesdames. Gene Ferrell, Bill Reid, Lena B. Jones, Bill Tucker, Miss Betty Tucker, and the hostess Mrs. Gordon.

Next meeting is scheduled for April 28, with Betty Tucker as hostess.

Here are the Three Greatest New-Car Values in America!

THE FABULOUS STAR CHIEF—It's luxury-sized. The roomy body is mounted on a 124" wheelbase. It's luxury-powered. The Strato-Streak V-8 puts 200 horsepower up front. It's luxury-styled. Fabrics and interior appointments match those of the highest-priced cars. It's beautifully distinctive—way out front for future-fashion smartness. And it's a Pontiac—which means top reliability, thrift and resale value.

THE FUTURE-FASHIONED 870—Here's a car outstanding in every way. Outstanding in performance with exclusive Strato-Streak power. Outstanding riding ease with a long wheelbase unmatched at the price. Especially outstanding in the wonderful way it handles and responds with passing power. For luxurious driving at modest cost you simply can't do better.

THE SPECTACULAR 850
Here's a king-sized car with a 122" wheelbase, and 200 horsepower, for less than many models of the lowest-priced lines and much less than stripped economy models of higher-priced makes. Beauty? Just look! And remember—you can choose from 4 luxurious interiors and some 36 modern color combinations.

All with the history-making 200-H.P. Strato-Streak V-8 Engine!
Every Pontiac has the Strato-Streak V-8, one of the most efficient power plants ever developed. Here's more take-off punch, more passing drive and more years of smooth performance than you have ever enjoyed in any car within hundreds of dollars of Pontiac's low price range. And that applies whether you decide on 180 horsepower or specify the optional power-package for 200 horsepower. Either way you get topmost power per dollar.
