The Water Board

The Water Board (above), composed of well-known Eastland and Ranger citizens, is the governing body for treasured Lake Leon, and upon its shoulders will rest the responsibility for its successful operation. The members: Guy Parker, Eastland, president; F. P. Brashier, Ranger, vice-president; C. B. Pruet, Ranger, past-president; Dr. P. M. Kuykendall, Ranger, past-president; Willon Guest, Ranger, treasurer; Dave Pickrell, Ranger, secretary; Grady Pipkin, Larry E. McGraw, M. H. Perry, all of Eastland.

DAVE PICKRELL

Gilliam Tells Rotary Club Of Water Safety

Hilton H. Gilliam of Brownwood, western water safety director for the Red Cross, guest speaker for Rotary Monday at the Connellee, congratulated this area on new Lake Leon but added that along with water pleasures come water hazards.

In listing a number of pointers for safety, he particularly urged people out boating to "wear your life preservers—instead of leaving them in the bottom of the craft."

Mr. Gilliam was introduced by Program Chairman Tom Lovelace, who had with him as guests Red Cross Chapter Chairman Stanley Webb and Eastland Water Safety Instructor Mrs. Tom Lovelace Jr. and Mr. Lovelace Jr.

Visiting Cisco Rotarians were W. P. Guinn, W. C. Hogue and Pete Nance; Janis Little, the club's Leon Bathing Beauty Revue representative, and Jeannie Pittman, club sweetheart.

Grady Pipkin, who had been vacationing several weeks, was welcomed back.

President Bernard Hanna expressed the wish that a barber-shop quartet be formed in the club.

Opening Horton Ceramics Unit In N. Texas Sat.

Saturday will mark the opening of Horton Ceramics Factory Salesroom on the highway midway between Denison and Sherman, which has been established by Horton Ceramics of Eastland, it was learned from Proprietors Mr. and Mrs. Horace Horton.

Mr. and Mrs. Ed Witttrup of Eastland are moving there to operate the business. The Witttrups, (Continued on Page Four)

Eastland Echoes

By Casey

THOUGHT FOR TODAY: "Too low they build who build below the skies." — (Young).

The enterprise and stick-to-it-iveness which resulted in the realization of that fond dream—a sizable lake, with water supply assured—indeed are things of which Eastland and Ranger may well be proud, as we approach that colorful season, the time of celebration of the grand opening of Lake Leon. It is a fine and effective spirit—and may it ever (Continued on Page Four)

Junior High Grid Call Is Set For Wed.

Dale Biggs, new coach of the Eastland Junior High School boys, has issued a call for all junior players to meet him at the high school gymnasium at 8 o'clock Wednesday morning.

A number of the players met Tuesday morning, but since the meeting was on short notice, word did not get around to all of them.

Coach Biggs has asked that all reporting bring with them some sort of track pants and their tennis shoes for the first workouts. Equipment will be issued at a later date.

EASTLAND, TEXAS, TUESDAY, AUGUST 30, 1955

VIRGIL SEABERRY JR.

CHARLES MILLIKEN

R. V. GALLOWAY

H. J. TANNER

CHAMBER OF COMMERCE chiefs in the area served by Lake Leon are: Presidents Virgil Seaberry Jr. and Charles Milliken of Eastland and Ranger, respectively, and Manager R. V. Galloway of Ranger, H. J. Tanner of Eastland. Commissioned by the Water Board, the chambers are sponsoring the celebration.

County Asks Lake Road Improvement

The Eastland County Commissioners Court Monday authorized a written request to the State Highway Commission for an im-

provement which will complete a hard-surfaced road around Lake Leon.

The request is for the hard-surfacing of a gravel road from where it connects with Highway 80 just west of Ranger, to Farm-to-Market Road No. 2214. This road, in turn, is linked with Farm-to-Market Road No. 570, which enters Highway 80 a short distance east of Eastland.

A delegation of Ranger and Eastland citizens recently appeared before the Highway Commission, in Austin, and upon their return reported that the commission indicated that it would include the proposed improvement upon written request from the county commissioners' court.

The letter is to ask that it be placed in the future farm-to-market program. A prediction as to the probable time the improvement (Continued on Page Three)

County Budget Hearing 6th

The County Commissioners Court has set 10 a.m. Tuesday of next week as the date for a budget hearing at the County Court Room.

At that time the tax rate will be set and the budget approved.

FRANK N. SAYRE

J. L. MCALEB

HEADING UP the Lake Leon celebration general committee are Chairman Frank N. Sayre of Eastland and Co-Chairman J. L. McCaleb of Ranger. They were profuse in their praise of co-operation from the many sources involved.

Lake Great Asset To This Vicinity

By FLOYD W. CASEBOLT
For a variety of reasons, 35-mile-shoreline Lake Leon will prove an asset of great importance to Eastland and Ranger, according to Water Board Pres. Guy

Parker. "Foremost," said the Water Board chief, "is the fact that this fine lake, about equi-distant between the two towns, will be a permanent water supply source—for drinking water, for industry, for lawns and gardens.

"Then we must give recreation its full share of emphasis. It will serve such pastime interests as fishing, boating, swimming, water-fowl hunting, relaxation in lakeside cottages, maybe water skiing."

Lone Cedar Country Club is projected for the area. Mr. Parker said recreationists from considerable distances will be drawn here by the lake.

"The Chambers of Commerce," he pointed out, "already are receiving numerous inquiries about the lake and its facilities, particularly from fishermen."

The Water Board executive called attention also to the attractiveness of the scene which is the environment for the lake.

"Last," he pointed out, "but certainly one of the most important considerations, is the fact that most of us are convinced that the lake will bring new industries to this area, for it is bound to prove a strong drawing card for such enterprises."

W. H. Boon Is Dead At Age Of 73 Years

Walter Hill Boon, 73, who died at his home at 1391 Bassett in Eastland at 1 a.m. Monday, was to be laid to rest in Eastland City Cemetery Tuesday afternoon.

The services were scheduled for 2 p.m. at Hamner Funeral Chapel, with the Rev. Richard R. Smith of the Methodist Church assisted by the Rev. Harvey Kimbler conducting.

Ill for twenty-four years, he had not walked a step in that time and had been bedfast twenty-three years. But people enjoyed visiting him, for he never discussed his illness and remained cheerful.

He was born Nov. 19, 1881, on the Leon farm at Jewel, between Carbon and Gorman. Mr. Boon had to Water Board President Guy famed much of his active life. (Continued on Page 2)

EVERYTHING ALL SET FOR CELEBRATION

Many thousands of celebrants are expected to gather in the Eastland-Ranger area for the grand opening of 35-mile-shoreline Lake Leon Sept. 3 and 4, according to the sponsoring Chambers of Commerce of the two towns.

Such a throng is anticipated for the lake region, the Eastland County Sheriff's posse will be present to assist with orderly parking of cars.

The festivities will start with a luncheon at 11:30 a.m. Saturday at the Connellee Hotel in Eastland honoring distinguished guests.

At the 2 p.m. the principal address of the dedicatory occasion will be delivered by Congressman Omar Burleson, who is to be introduced by Eastland C of C President Virgil Seaberry Jr. Immediately afterward, visiting personages will be introduced by Dist. Attorney Joe Nuesse.

The sports thrill of the celebration will present probably more than 100 professionals in boat races at 3 p.m., a feature which will consume the remainder of the afternoon. In the course of the afternoon period concerts will be

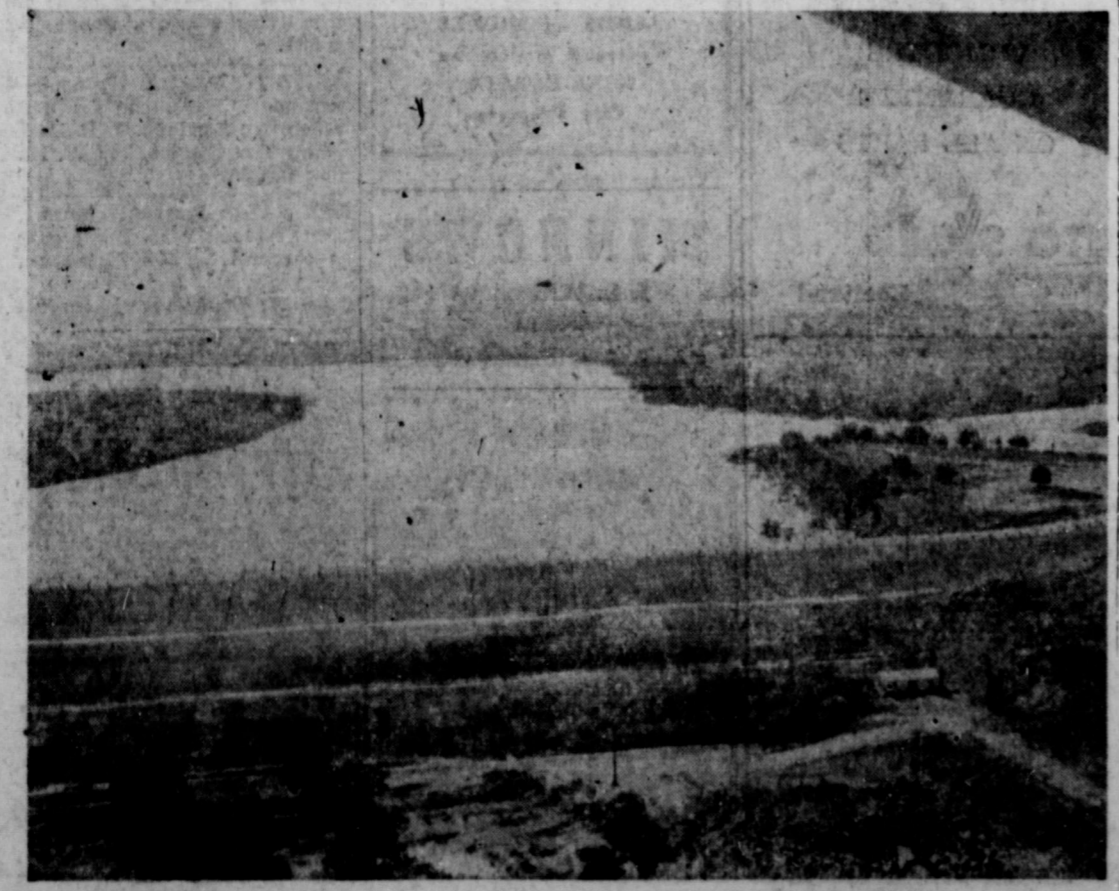

CONG. OMAR BURLESON

played by three bands—Moslah Temple Shrine Band of Fort Worth and the Rising Star and the Ranger High School Bands.

Lake Leon fishermen will come in for their best day bright and early the second day, Sunday. At sunrise, the fish rodeo will begin, with \$100 in prizes offered. The (Continued on Page Four)

JOE NUESSE

HERE'S THIS AREA'S pride and joy—Lake Leon . . . or, that is, a small portion photographed from the dam.

LOOK WHO'S NEW

Mr. and Mrs. Clovis R. Moore are the parents of a daughter, born at 7:17 p.m. Sunday, Aug. 28, at Eastland Memorial Hospital. They have named her Vicki Lynn and she weighed 8 pounds 10 ounces. Her grandparents are Mr. and Mrs. C. T. Harp of Eastland and Mr. and Mrs. F. D. Moore of Cisco.

The Rev. and Mrs. Eugene H. Surface, 217 E. Sadosa, have announced the arrival of a son, Philip Mark, born at 8:55 a.m. Saturday, Aug. 27, at Eastland Memorial Hospital. Mark weighed 8 1/2 pounds. His mother is the former Miss Meladoris Bantau of Abilene and his grandparents are Mr. and Mrs. O. M. Bantau of Abilene and the late Dr. and Mrs. E. B. Surface. Dr. Surface was pastor for 25 years of Central Presbyterian Church at Abilene and the Rev. Eugene H. Surface is pastor of the First Presbyterian Church, Eastland.

W. H. Boon -

(Continued from Page One) he had worked in a drugstore in Eastland with his brother, Dr. U. C. Boon. In 1906 he married Miss Lillian Matthews of Eastland. She survives him. He also leaves a daughter, Mrs. Artie Liles, and a granddaughter, Patricia Ann Liles, Eastland. He was a member of the Methodist Church.

Col. C. H. Scott Jr. and Family Visit Parents Here

Col. and Mrs. C. H. Scott Jr. and sons, Don, 10, and Mike, 6, left Monday after having visited five days with Colonel Scott's parents, Mr. and Mrs. C. H. Scott, 411 Pershing.

Colonel Scott is being transferred from Washington, D. C., to the West Point of the Air, Colorado Springs, Col.

HERE FROM FORT WORTH

Mrs. Gus Gavrel and children, Bobby and Gus Jr., of Fort Worth who have been visiting Mrs. Gavrel's parents, Mr. and Mrs. C. W. Hoffmann since Saturday, returned home today. Mrs. Hoffmann and son, C. W. Hoffmann Jr. took them home.

FORMER RESIDENT VISITS HERE

A. E. Herring of Fort Worth, formerly of Eastland, was here Sunday. He moved from here to Fort Worth in 1943.

Dogs of Wayne Pic 5 Canine Stars Spend Night At Eastland Motel

The Broadway of America — Eastland — the cross-roads of the Southwest, one might term it, or the center of a wheel with highways leading in every direction.

Another evidence of this fact occurred here the other night when five movie stars from Hollywood — dogs, with stand-ins and all — lodged here.

The five canine stars traveling from Hollywood to some place in Georgia, where John Wayne is producing a movie, traveled in true Hollywood style in a huge station wagon with a wire net division halfway in the back.

The two hunters, one bird dog and two small dogs stayed overnight in the two rooms occupied by Henry East and his assistant of Hollywood who were transporting them to their movie location in Georgia.

One of the small dogs was so vicious he had to be kept in an air-conditioned cage and he had already injured one of the men. He had a "double" exactly like him who was not vicious at all — just a regular pet.

The vicious dog, the men said, couldn't ever be turned out of the cage unless he was on a chain with a steel rod to hold him back — and if he should get loose they would "have to shoot him." He was vicious by nature, Mr. East said, but had also been trained to be much more vicious, and he growled at everyone who came near.

Mr. and Mrs. J. A. Doyle, in whose motel they spent the night, said the two men phoned in ahead for reservations from Sweetwater, arrived there about 1 a.m., walked all the dogs but the vicious one, divided them up and took them to their rooms with them for the night. The next morning they fed them and left, saying the movie production would be completed in about four months.

HANDY HOME HINTS

Give the kids a send-off breakfast on their first day back to school. Try these special pancakes: To the regular batter, add a small amount of toasted shredded coconut just before spooning onto the griddle. Serve as usual with butter and syrup.

If you toss a teaspoonful of moth crystals or a few mothballs into your garbage can during summer months you'll eliminate not only the odor but keep flies away as well. Of course you must replace the crystals whenever garbage is removed.

It's wise to follow a few simple rules, especially in the summer, for handling foods. Fish salads and sandwich fillings which are so popular for picnics should be refrigerated immediately after preparation. Never attempt to keep the preparation in the freezer. When salad has been chilled, pack in thermal containers or insulated bags. It's most important to keep this food cold until you eat. In fact fish salads should not be kept longer than 3 or 4 hours in the refrigerator!

KAY VAUGHN—Kay Vaughn, a 17-year-old Ranger High School student, will be one of Ranger's entries in the Bathing Revue at Lake Leon Sept. 4. Miss Vaughn, a majorette in the high school band for the past two years, is being sponsored by the Ranger Lions Club.

The purpose of a household brush is to gather and hold dust. To serve this purpose, it must be kept clean by frequent washing with hot water and soap. After rinsing, shake the brush well. If the bristles are twisted in wire, hang it to dry; if they're set in wood, dry the brush with the bristles down.

The start of the new school year warrants a reminder that lunch boxes must be scrubbed clean after each use. After all, the plastic liner in a lunch box is comparable to food dishes used at the table and should be kept as scrupulously clean. Anything that's connected with the handling or the serving of food must be sanitary. So wash that lunch box and liner in hot soapsuds and rinses along with the dinner dishes as part of your daily kitchen routine.

ACHING MUSCLES

Relieve pain of tired, sore, aching muscles with STANBACK, tablets or powder. STANBACK acts fast to bring comforting relief... because the STANBACK formula combines several prescription-type ingredients for fast relief of pain.

MOSLAH TEMPLE BAND—The Moslah Temple 50 piece band of Fort Worth has become a familiar sight in stock show parades and Texas streets within this area. The entire band will stage a concert at Lake Leon Saturday, Sept. 3 as a part of the Lake opening ceremonies.

National Showmen
Colorful Moslah Band To Perform

The Fort Worth Moslah Temple's 50-piece band, which will stage a four-hour concert at Lake Leon Sept. 3 from 2 p.m. until 6 p.m. has become one of Shrine-

dom's finest musical organizations. It has paraded throughout America on National Shrine trips and played to capacity crowds at Madison Square Garden.

Present leadership of the band is under the direction of Col. N. J. Whitehurst, a director of long professional musical experience, who is serving his sixth year as director.

A familiar sight in stock show parades, and ceremonial parades on Texas streets, "the Moslah band during its appearance Sept. 3, will strive to live up to its reputation as being one of the outstanding bands of the country," a spokesman said.

Officers of the musical organization are Ernest F. Hotopp, president; Kenneth O. Vaughan, vice-president; W. D. Bill Roberts, vice-president; William T. Palmer, secretary; and Marion B. Ethridge, treasurer.

Frank R. Rainwater is assistant director; Sprosser Wynn is drum major; Roy Bacus, is assistant drum major; and E. Morgan Townsen, a past Potentate of the Moslah Temple, is the 1955 sponsor of the band.

Following the musical performance at the lake, band members and their wives will be honored with a barbecue at the Ranger Country Club by the Cross Timber Shrine Club.

Visiting members of the Shrine band and their wives are expected to total more than 100.

AROUND the TOWN
By Fay

Taking pictures out at the Eastland County Farm Bureau picnic and coronation of the Farm Bureau King and Queen — DON JOBE of Seranton and JANIS LITTLE of Eastland — Friday night, we met many people from over the county ... the food was delicious, the royalty attractively dressed, the coronation ceremony impressive with MITCHELL CAMPBELL of Carbon, FB president, crowning QUEEN JANIS.

Orchids to MRS. J. C. COATES and MRS. JOHN LEVERIDGE, both of Cisco, chairman and co-chairman, respectively of the queen's committee, and to COUNTY AGRICULTURAL AGENT J. M. COOPER, who was barbecue chairman, and to all the others who had parts in making this meeting, attended by approximately 1,000 countians, a successful complete story of the "big event" appeared on page 1 of Sunday's issue of The Telegram and in today's issue is one of the pictures we took of the king and queen and Mr. Campbell.

Downtown Monday morning, cunning little KAY HOFFMANN, who will be 3-years-old Oct. 6, with her mother, MRS. W. H. HOFFMANN, ... MRS. HOFFMANN talking enthusiastically about the Beta Sigma Phi meeting at Ranger Tuesday night (tonight). ... The Ranger BSP sorority, which the Eastland chapters helped to organize, is about to get underway. ... MRS. HOFFMANN, president of the Xi Alpha Zetas and MRS. BILL ARTHUR is president of the Zeta Psi ... and they and MRS. DON HOFER and MISS INEZ HARBELL and others in the two local chapters were instrumental in organizing the Ranger chapter.

Let's all go out to Lake Leon Saturday and Sunday.

General Meeting Scheduled For Lake Committees

Representatives of each of the individual committees of both Eastland and Ranger will meet with the general co-chairman of the Lake Leon celebration tonight in the Ranger Chamber of Commerce building to confirm plans for the affair Sept. 3-4.

One member from each city on the various committees have been invited to represent their committees at the Tuesday night meeting.

BABIES LIKE

IT LIKES THEM

Double-Seven Club Will Open Pre-School Festivities Thursday

The Teen-age social whirl in Eastland will be ushered in with a dance at 8 p.m. Thursday at Legion Hall in the City Park.

All high school students and exes are invited, said a spokesman for the Double-Seven Club, whose members are hostesses for the occasion.

Sports clothes will be worn, announced Sue Stoker, president, and Jamie Stamey, vice president of the Double-Sevens, who are making elaborate plans for the pre-school festivity.

They are expecting about 400 guests.

The date for the dance was originally set for Friday, Sept. 2, but was changed to Thursday night because of conflicting dates.

Good Rains At Nearby Places

While only traces of moisture were received in showers Monday and Monday night in Eastland, rains Monday night at other nearby points included 1.50 inches at Ranger, 1.40 at Rising Star and .70 at Cross Plains.

VISIT IN DALLAS AND FORT WORTH

Mrs. H. E. Basham visited the past week in Dallas in the homes of Mrs. Sue Hill and Mr. and Mrs. W. N. Swinney and in Fort Worth as guest of Mr. and Mrs. M. C. Hickman.

County -

(Continued from Page One) will be made was not ventured but most sources doubted that it would be this year.

The strip is approximately 10 miles in length and, in its course, traverses the Leon dam. It is in Commissioner Tip Arthur's and Commissioner B. M. Bennett's precincts.

In a delegation which conferred with the county commissioners Monday were representatives of Ranger and Eastland Chambers of Commerce and the Water Board.

Dist. Highway Engineer Bo Milliken of Brownwood, who was in the meeting, stated that the Highway 80 four-laning for a distance of about 6 miles east of Ranger is in the "hopper" for letting in September.

FILTRATION PLANT—Eastland County's Water Supply District filtration plant, as new as Lake Leon itself sets majestically nearly half-way between the Leon dam and Ranger. From the plant and its water collection and purification units, comes the pure water that is fed into Ranger and Eastland, who have in the past drouth-stricken years, felt the pains of inadequate water supplies.

Celebration Committees Announced

The Ranger and Eastland Chambers of Commerce have listed the committeemen responsible for the Lake Leon Celebration:

Committeemen responsible for the celebration are:

General Committee: Frank Sayre, Eastland, J. L. McCaleb, Ranger, Co-chairmen, C. E. May, Dave Pickrell, Dr. M. E. Jolly, Rex Mitchell, Dr. W. P. Watkins, Charles Milliken, Ranger, From Eastland, Virgil Seaberry, Jr., Judge Milburn Long, Willy Smith Larry McGraw.

Traffic Committee: Jess Cole, Police Chief Pounds, Ranger, J. B. Williams, Eastland County Sheriff's Posse; Eastland Police Chief Ray Laney.

Finance Committee: O. C. Warden, Nick Crawford, Morris George, John Swinney, Joe Daskevich, Charles Eyley, J. E. Meroney, Ranger, From Eastland: Victor Cornelius, Hood King, Marene Johnson, Earl Lebrado.

Henry Pullman, Tom Wilson, Curtis Koen, Tom Lovelace, Guy Patterson.

Band Committee: From Eastland, Travis Wheat, Tom Lovelace, Carl Garner. From Ranger: Homer Coody, Sam Houston, G. B. Rush.

Bathing Beauty Contest Committee: Bill Arther, Eastland and Dave Pickrell, Ranger, co-chairmen. From Ranger, C. E. May, Mrs. David Norton, Joe Lenzini, Mrs. Homer Coody, Ranger. From Eastland, Wayne Jackson, M. r. a. Victor Cornelius, Hood King, Marene Johnson, Earl Lebrado.

Eastland Echoes—

(Continued from Page One) continue opening new vistas for our communities.

A certain mother one day told a neighbor that her son had been out "on the town" and as a result of his spree had lost his job. The neighbor said, "If he were my son, I'd run him off the place!" To which the mother calmly retorted: "I would, too — if he were yours." — (Tom Bailey, Victorian).

Deputy Game Warden Maurice Dry is getting all equipped for his work at Lake Leon. The state has already sent him a boat trailer, which he's been assembling, and it has promised him a boat, presently.

Everybody likes a nice lake, nearby. In this water-impoverished country, a body of water like Lake Leon is nothing short of a blessing. . . . It's certainly something to celebrate — in a big way!

To Janis Little and Don Jobe: Congratulations on being chosen County Farm Bureau King and Queen — honors which are deserved indeed.

Parents of '55 high school grads, be sure to give careful consideration to the two junior colleges our county is so fortunate as to possess.

Back to the lake theme, let's all journey out to the damsite this week-end and take in the rousing celebration, which will be enjoyable and at the same time enaose to help welcome the great number of anticipated visitors.

Mrs. Outward, Ex-Resident Of Eastland, Dies

Mrs. Carrie Outward, 72, of Ashland, Ohio, formerly of Eastland, died at her home there recently, it was learned by Mrs. Frank Castleberry of Eastland, in a letter she received from Mrs. Outward's daughter, Mrs. Robert Ellison of Ashland, formerly Miss Charlene Outward of Eastland.

Mrs. Outward was active in the First Christian Church, the Eastern Star, the Civic League and other organizations in Eastland. She and her husband, who was an oil man, lived in Eastland about 15 years during the oil boom, moving from here about 20 years ago.

Mrs. Outward died of a heart attack after having been ill only about 15 minutes just as her husband's death came about 10 years ago.

2 Vehicles In Hwy. 80 Crash

Billy Maxwell, professional golfer and former Abilene man, received slight injuries Monday afternoon in a truck-car collision 2 1/2 miles west of Cisco on U. S. 80.

The Texas Highway Patrol office at Abilene said Maxwell's 1955 Cadillac collided with a 1953 Ford pickup driven by Oral Clayton Rich, 45, of Eastland, reported apparently unhurt, at 5:05 p.m. Maxwell, who was headed east, received a bruised nose when his head hit the steering wheel, but he did not require medical attention, witnesses said.

Oil News Two Regular Projects Staked In County

Deeper of two regular field projects scheduled in Eastland County will be Irish Drilling Co., Inc., et al, of Eastland No. 1-F F. L. Johnson.

Slated for 1,850 feet with rotary, it spots 940 feet from the south and 2,550 feet from the east lines of Washington Mitchell Survey. Location is five miles south of Eastland.

W. H. (Bill) Hoffmann of Eastland staked No. 6 J. V. Harbin as a 1,300-foot rotary project four miles south of Eastland.

Site is 150 feet from the south and 1,600 feet from the west lines of the north half of Section 27, Block 2, H&TC Survey. It is slated for 1,300 feet with rotary.

Staff Cemetery Working Soon

Saturday, Sept. 10, has been set as the date for the Staff Cemetery working, it was announced today.

HERE FROM CROSS PLAINS

Mr. and Mrs. Fred Long of Cross Plains visited Sunday in the home of her brother and sister-in-law, Mr. and Mrs. L. C. Freeman and children, Shirley and Tommy, and attended the morning service at the First Baptist Church here.

THANKS

We want to join everybody in extending you a welcome to the opening of Lake Leon.

At the same time we wish to express our sincere thanks for the wonderful cooperation we have had from every one we have called on in our planning for the opening celebration.

We have a lake to be proud of!

EASTLAND CHAMBER OF COMMERCE

Two Abilene Teachers Hurt In Car Accident

Two Abilene women were hospitalized Sunday in Ranger General Hospital following an automobile accident 10 miles east of Ranger on U. S. Highway 80.

Injured in the accident were Elizabeth Jane Lusk and Carolyn Kearley, both teachers in the Abilene School District.

Miss Lusk was released from the hospital Monday to return to her home in Dallas with her parents. She had sustained an injured vertebra and Mrs. Kearley is still in the hospital suffering from facial lacerations.

VISIT RELATIVES IN TEMPLE: MIKE LeFAN IMPROVING

Mr. and Mrs. Jack Lusk and son and daughter-in-law, Mr. and Mrs. Dwain Lusk, spent the week-end in Temple with the Jack Lusks' son-in-law and daughter, Mr. and Mrs. James LeFan and children, Mike, Lorin and Kevin.

Mike, who was stricken with polio a year ago in this month, will return to Jeff Davis Hospital, Houston, in October. He still must rest in his iron lung most of the day, and of course he sleeps in it! In fact, he can breathe only thirty minutes a day without his Monahans (jacket which substitutes for the iron lung when he goes places) or his iron lung; however, with his Monahans jacket he can go to church and to movies and recently he has gone to church twice.

Opening —

(Continued from Page One) in the floral business here many years, have been active in community life in this city.

While the property is described as somewhat prettier than the Horton Ceramics Pottery Sales-room here, situated on Highway 80 east, it is the same architecture. Trees and other vegetation surrounding it give it an attractive setting.

Throng —

(Continued from Page One) weighing in of the rodeo fish is to take place at 4 p.m. at the station at the north side of the dam.

Pulchritude will go on parade at 5 p.m. when the Bathing Beauty Revue is to be staged, with visiting newspapermen as the judges. Between 20 and 25 curvaceous Texas girls will take part, in this colorful conclusion to the two-day program.

THANKS-THANKS

Frankly, we have been amazed with the results we have had in advertising for 100-Tons of Scrap Iron in the Eastland Telegram. WE HAVE PASSED THAT MARK! We have always enjoyed the confidence of our customers, and they BELIEVE US when we advertise that we PAY TOP PRICES for Scrap Iron and Metal.

The price of scrap is STILL HOLDING UP, and we want you to continue to bring us every pound you can get. We will continue to pay you the best prices since the war!

We want you to know we appreciate the business you have given us and we look forward to seeing you again.

MR. AND MRS. DEAN SUTTON

Lubbock Pair, Former Eastland Girl and Ex-Ranger Man, Marry

In a setting of white gladioli in white floor baskets, white tapers in Swedish candelabra and palm trees, Miss Margie Aline Lane became the bride of Dean Sutton at 3 p.m. Sunday at First Baptist Church, Eastland.

The bride is the daughter of District Clerk and Mrs. Roy L. Lane of Eastland and her husband's parents are Mr. and Mrs. Charlie Sutton of Ranger.

The double ring ceremony was read by the Rev. Harvey Kimbler, pastor of the church, and Miss Helen Taylor, organist, provided pre-nuptial music as the candles were lighted by Bobby and Richard Lane, brothers of the bride. Miss Taylor also accompanied Miss Jana Weaver, who sang "Always" (Berlin) and "Because" (Guy d'Hardelot) prior to the ceremony and Malotte's "The Lord's Prayer" at the close of the rites. For the professional Miss Taylor played "The Bridal Chorus" by Wagner from Lohengrin, and Mendelssohn's "Wedding March" for the recessional.

Bride Wears Gown Of Lace and Tulle

Mr. Lane gave his daughter in marriage. Her white wedding gown of lace and tulle over satin was designed with a strapless bodice covered with a lace bolero jacket which had a Peter Pan collar and long sleeves that tapered to points over the hands. The bouffant skirt was waltz-length and a small lace cap held her fingertip-length veil of illusion. She carried a colonial bouquet of white feathered carnations.

Mrs. Charles Lane of Lubbock, sister-in-law of the bride, was her matron of honor. Her gown of pale yellow net over taffeta, fashioned with bouffant skirt and strapless, fitted bodice, was worn with a matching yellow net stole and half-hat of yellow net fluting. She carried gold carnations framed in green leaves on a simulated fan of red yellow net.

Miss Genevieve Lewis and Margie Franklin were bridesmaids. Their gowns were of aqua net over taffeta styled with bouffant skirts, strapless bodices and stoles. Their headresses were of fluted aqua net and they carried pink feathered carnations, encircled with pink satin leaves on fans fashioned of fluted aqua net.

Flower girls were Ernie Mae and Wanda Lou Lane, small sisters of the bride. Their ballerina-length dresses were of white organdy; their headresses of fluted white net and as they preceded their sister down the aisle they scattered rose petals from white baskets which had been embellished with tinted blue carnations.

Eugene Sutton of Ranger attended his brother as best man. Ushers were Charles Sutton of Fort Worth, another brother of the bridegroom; Charles Lane, Lubbock; Bobby Lane, Eastland,

and Richard Lane of Camp Pendleton, Calif., brothers of the bride.

Mrs. Lane, mother of the bride, wore a corsage of white carnations and Mrs. Sutton, the bridegroom's mother, wore pink carnations. Both wore navy blue frocks accented with white.

Reception Held in Fellowship Hall
At the reception which followed

in Fellowship Hall of the church, the bride's table was laid with a lace cloth and bore an elaborate centerpiece of white gladioli. The three-tiered wedding cake, embossed with tiny white spun sugar rosebuds, was topped with a miniature bride and bridegroom.

Presiding at the crystal punch bowl at one end of the table was Mrs. Charles Sutton of Fort Worth, sister-in-law of the bridegroom, while Mrs. G. L. Weatherford of San Angelo and Mrs. L. A. Feist of Comanche, aunts of the bride, served the cake, assisted by Mrs. Bertha Jesse and the bride's attendants. Miss Jana Weaver was in charge at the table where the guests registered.

Will Live in Lubbock

As Mr. and Mrs. Sutton left for their wedding trip she was wearing a pale pink suit, pink shoes, white velvet hat and corsage of white carnations.

They will be at home at 2224 24th street, Lubbock, where Mr. Sutton is employed by the Lubbock Public Independent School District. After graduating from Ranger High School he attended John Tarleton State College and spent four years in the United States Air Force prior to his discharge in 1954.

The bride was graduated from Eastland High School in the spring and was treasurer of the senior class. She was sponsored by the Ladies Auxiliary of the American Legion to represent her school at Girls State last year in Austin and was honored with the annual Good Citizen Award by the Charles Crawford Chapter of The Daughters of the American Revolution this spring.

Among the out-of-town guests from Ranger, San Angelo, Comanche, Priddy, Lubbock, Carbon and Fort Worth were Mr. and Mrs. Charlie Seal of Comanche maternal grandparents of the bride, and Mr. and Mrs. H. J. Lane of Carbon, her paternal grandparents.

HAMNERS HOME FROM AUSTIN AND KILLEEN

Ben Hamner went to Austin the past week on a business trip and Mrs. Hamner visited relatives in Killeen.

Mrs. W. T. Ruthrford Feted By Children on 86th Birthday

Children and grandchildren of Mrs. W. T. Ruthrford met in the home of her daughter, Mrs. L. C. Harlow of 205 S Walnut, Sunday, to celebrate Mrs. Ruthrford's 86th birthday anniversary.

A buffet dinner was served from a lace-covered table centered with a three-tiered pink birthday cake, which was baked by Mrs. R. L. Foster of Fort Worth.

Attending the dinner were her five daughters, some with their families, as follow: Mrs. L. C. Harlow, Eastland; Mrs. I. H. Ellis, Fort Worth; Mrs. R. L. Foster and son-in-law and daughter, Mr. and Mrs. Joseph Graham and son, Jody, Fort Worth; Mr. and Mrs. Bryan Clinton, Dan and Don Jobe, of Putnam, and Mr. and Mrs. B. B. Brummett, Denton. Others who called were Miss Janis Little and Miss Alice Joyce Cushman.

Other recent visitors in the Harlow home to see Mrs. Ruthrford and Mrs. Harlow were Dr. and Mrs. R. C. Ferguson, the Rev. and Mrs. Joe Black and son, Eddie, Dallas; Mr. and Mrs. Henry Jones of Longview, son-in-law and daughter of Mrs. Harlow; R. D. Boland, grandson of Mrs. Ruthrford, and his father, Felix Boland, both of Scranton.

The Rev. Mr. Black is pastor of the Methodist Church at Putnam and Scranton, going out there weekends from Dallas, where he is attending the Perkins School of Theology, SMU.

From her sons, Olen and Lee Ruthrford and their families of California, Mrs. Ruthrford received a telephone call of congratulations; and also one from her daughter, Mrs. O. A. Bruton of Manahans.

Among the many flowers she received was a blue vase of sweetpeas from Mrs. Ida B. Foster who has been ill and recently was taken home from Eastland Memorial Hospital.

You Have Reason to Relax

... on these hot summer days if you have adequate insurance on your automobile, home, household equipment and business properties or against what can happen to you at home or abroad including Polio, theft on or off the premises, burglary and many other coverages vital to your protection and welfare. If you are soon to start your vacation be sure you are protected against financial loss from the hazards of the open road. See us today for the best in vacation insurance.

EARL BENDER & COMPANY
Eastland (Insurance since 1924) Texas

RETURNS TO HOUSTON

Karen Castleberry has returned to her home in Houston after spending the weekend with her grandparents, Mr. and Mrs. Frank Castleberry. She had been visiting in Abilene in the home of Mr. and Mrs. B. F. Gilchrist and their daughters, Dee Ann and Linda, formerly of Eastland. Prior to that Karen had visited in Midland and earlier had a longer visit with her grandparents here.

HERE FROM ATHENS

Winston Boles and family of Athens is visiting his mother, Mrs. C. W. Boles and family of Eastland, Highway 80 East.

Miss Davis Back From California

Miss Yvonna Davis, a senior at Eastland High School, has just returned from a month's visit with friends at Travis Air Force Base in California.

Miss Davis accompanied, as far as California, her sister, Mrs. Roy B. Smith and daughter, Candy, who were en route to Guam to join their husband and father.

After Mrs. Smith and children sailed, Miss Davis remained at Travis Base a while and participated in local activities at the

Base Youth Center and sang solos for the Base Chapels.

She has been a member of the Eastland High School Choir for three years. She is the daughter of Mr. and Mrs. S. A. Davis, who live northwest of Eastland.

THE HAKES HAVE GUESTS FROM ILL.

Mr. and Mrs. Truman L. Brandt and daughters, Marilyn, of Nashville, Ill., visited Mr. and Mrs. E. A. Hake several days the past week.

From here they went to El Paso to visit their son and daughter-in-law. Their son, Alan Brandt, is in the service and is stationed there.

Mary Lee Harlow and Robert N. Jones Marry At Corinth Church

The marriage of Miss Mary Lee Harlow and Robert N. Jones took place at 6:30 p.m. Saturday at Corinth Baptist Church, Highway 80, between Eastland and Cisco.

The bride is the daughter of Mr. and Mrs. C. A. Harlow, 306 W. Plummer, Eastland, and her husband's parents are Mr. and Mrs. S. P. Jones, 202 N. Ammerman, Eastland.

The Rev. Benny Hagen, pastor of the church, read the double ring ceremony against a background of white chrysanthemums in Swedish steel baskets, which decorated the church altar.

For her wedding the bride chose an aqua blue fallie frock fashioned with bolero, a white velvet brimless hat and other accessories of black. She carried a bouquet of gardenias and white feathered carnations on a white Bible.

Miss Marsha Tuggle, her maid of honor, wore a brown frock with white trim, white hat and brown accessories. Her corsage was of gold chrysanthemums framed in white tulle and white satin leaves.

Tim Fambrough attended the bridegroom as best man. Mrs. Flo Clark, pianist, played "O Promise Me" (deKoven) prior to the ceremony and Wagner's "Bridal Chorus" from Lohengrin for the procession.

Only parents of both the bride and bridegroom and other immediate relatives were present.

After their wedding trip, the couple will live at an apartment on South Walnut until they move to Lubbock in about three weeks.

The bride was graduated from Carbon High School in 1950, and for the past two years has worked for Southwestern Bell Telephone Company here. She soon is to be transferred by the company to Lubbock.

The bridegroom was graduated from Cisco High School in 1947 and from Cisco Junior College in 1949. He attended Texas Technological College a year and a half and then served four years in the Air Force, receiving his discharge in January. Since then he has been attending Texas Tech, from where he is to be graduated in February.

GUESTS FROM DALLAS AND FORT WORTH AFTER VISIT IN OKLA. CITY

Mr. and Mrs. Carl Johnson visited her brother-in-law and sister, Mr. and Mrs. E. R. Buchanan and daughter, Alice Ann, of Oklahoma City, several days the past week.

The Johnsons have as their guests this week their grandson, John Carl Beatty of Fort Worth and Mrs. Johnson's niece, Nancy Carolyn Grubb of Dallas.

VISITING IN STAMFORD

Mr. and Mrs. Hubert Westfall and daughter, Betty, will return home Wednesday from Stamford, where they have been visiting several days with relatives.

THE VICTOR CORNELIUSES HOME FROM NEW MEXICO; MRS. PETTIT FROM SLATON

Mr. and Mrs. Victor Cornelius arrived home Friday night from New Mexico. While there they visited their son-in-law and daughter, Mr. and Mrs. Charles Meeks of Carlsbad.

Mrs. C. W. Pettit accompanied them as far as Slaton where she visited her son-in-law and daughter, Mr. and Mrs. Boyd Meeks, returning home Thursday.

See how your cash outlay goes down—as Mercury's popularity goes up!

NO OTHER CAR OFFERS YOU BIGGER REASONS FOR BUYING IT. Mercury's styling is exclusive—shared by no other car. Every model offers you now SUPER-TORQUE performance (188-hp in Customs and

Monterey, 198-hp in Montclair). And Mercury consistently leads its field for resale value. Shown above, the Montclair hardtop Coupe. This same Montclair styling is also now available in a 4-door Sedan.

- Mercury offers you beauty and power you can afford. You'll find that prices for the Mercury Custom 2-door start below 13 models in the low-price field.*

- You get a top allowance for your present car. Mercury's record-breaking sales let us give you a far better deal than we have ever offered before.

- Easy terms. We tailor them to fit your personal budget (as low as \$11.51 per week). If you can afford any new car you can afford a big, new Mercury.

*Based on comparison of manufacturers' suggested list or factory retail prices.

DRY DOCKS—Frank Williamson is rapidly bringing his commercial boat docks to completion on the North side of Lake Leon. However, the docks will not be ready for use by the time the Lake is opened Sept. 3. Cabins and other camping facilities, not shown in the picture are being constructed near the boat docks.

Deputy Game Warden Dry Gives Migratory Game Birds Seasons

From Deputy Game Warden Maurice Dry, this paper is in grateful receipt of open season rules concerning migratory game birds:

"Open seasons — Except on State Game Preserves, Statutory State Wildlife Sanctuaries, U.S. Wildlife Sanctuaries and on public roads and highways within the state, the open season for taking each of the herein named migratory game birds in the State of Texas or in that portion of same later referred to herein shall be as follows:

"Ducks and coot: November 2 to January 15, both days inclusive; shooting hours shall be from one-half hour before sunrise to sunset. No open season on black-bellied tree ducks.

"Mourning doves: In Val Verde, Kinney, Uvalde, Medina, Bexar, Comal, Hays, Travis, Williamson, Milam, Robertson, Leon, Houston, Cherokee, Nacogdoches and Shel-

Former Metropolitan Ballerina To Receive 1955 Neiman-Marcus Award

The Metropolitan may have lost a great ballerina, but American fashion gained a great designer in Vera Maxwell, who will receive a 1955 Neiman-Marcus Award at the 18th annual Fashion Exposition in Dallas September 5th and 6th. Her famous signature on classic, timeless clothes has been more important in the lives of American women than any stellar ballet role.

From her comfortable office on New York's Seventh Avenue, Vera Maxwell can look diagonally across the street and see where her career in fashion began — the Metropolitan Opera House. Here, at 16, she was a member of the famous "Met" ballet, after falling under the spell of the beautiful Pavlova.

The satin shoes, the footlights and the applause lasted only a few years, but the discipline, exercise and training of the ballet is projected in her elegant clothes. Cut with a feeling for motion rather than insistence on static line, she designs for perfect comfort and fit as well as fashion.

Born in New York of Viennese parents, Vera Maxwell expressed an early interest in fashion design when she was taken to Vienna as a child. While she possesses the faculty to steep herself in a foreign atmosphere and to recognize the qualities of European fabrics, there is probably no other designer who better understands and interprets the needs of the

American woman. She believes that fashion must meet the requirements of many activities and be adaptable to all occasions.

In the accepted and authoritative Maxwell technique, dresses are smoothly fitted and flattering, suits and coats are deftly and gently tailored — all lines and proportions are planned for graceful easiness. Her sleeves, for example, usually have the turnback cuff, or a push-up fullness. Vera Maxwell's famous wrapped blouse, a standard for many fashionable wardrobes, came about by accident when she wrapped an old cashmere sweater to the side and fastened it with a handsome silver pin. Now the design has been translated into jersey, Italian shirting, print cottons and even lacy wool boucles.

Miss Maxwell divides her time between a New York apartment and relaxed week-ends at her Bucks County farm. This same combination of city-country sophistication and ease is found in the clothes she creates. There is about them a certain aristocratic simplicity that makes them unique.

It is this classic quality in a Vera Maxwell coat, a new edition of the Maxwell coat — dress, or a suit for travelling for which women return again and again — much as they would for a "repeat performance" of their favorite ballet.

The foregoing rules were laid down by the Texas Game and Fish Commission.

"Geese: The daily bag limit on geese and brant is five; provided such limit shall not contain more than two Canada geese or its subspecies or two white-fronted geese, or one of each. Possession limit is one day's kill."

Super-Film's Development Is Explained

When Cecil B. de Mille recently made his announcement that his "Ten Commandments," now in production, would run three hours and thirty minutes in its finished form, the news started Hollywood off on a discussion as to whether de Mille's Biblical super-movie would start a trend. The consensus was that this long feature would start no marathon movies in the three-hour bracket.

But out of these discussions came the facts that pictures as a whole are getting longer, with the average "A" type picture running approximately one hour and forty-five minutes, and with more "special" films being produced each year that hover around the two-hour mark, a little under, or a little over.

A number of explanations have been found for the longer pictures — the studios are today making fewer films than they did in previous years, and are increasing the budgets, the production values, the story value and the quality of the films they do make.

In 1944, there were 430 pictures out of Hollywood. In 1954, there were only 232. But these 232 were wider, brighter, deeper; some of them bigger, containing more in the "spectacular" group; many of them were made on location trips throughout America and a whole bevy of foreign lands. Producers and directors had more money to spend on longer shooting schedules, casting, story properties, location trips, and the general dressing up of the films.

Above all, they had the benefits of the new technocracy of motion pictures; they had the new electronics, they had the various methods of miracle presentation — Cinemascope, VistaVision, Super-scope, stereophonic sound, the plain giant screen; these new mediums of putting their creations before the public energized their enthusiasms, made them more careful, more selective, and more discriminating.

And the new care, the new foresight and new methods gave them license to make their pictures a little longer. But, it is agreed, the running time of the film in itself is not the important factor in the new trend; the major factor is the entertainment value of the picture, for this, more than anything, is the measuring stick. With the allowance of a little running time, though, the average producer feels that he can put a little more specialized work into his newest movie — it gives him an incentive.

The belief now general in Hollywood is that an occasional three hour and a half production like "The Ten Commandments" will come along in the next ten years or so, and there will be a slight annual increase in the two hour picture, but that the average length of picture will remain in its current category of around one hour and forty-five minutes.

Of course, they all agree in the film capital that this is current talk, and that it is hard to foretell accurately just what Hollywood will do — that depends on technical developments, trends of public desire, and many other things. But they do concur that the number of pictures running around 2 hours is increasing; there were around a dozen of them in 1954, and in 1955, from present indications, it looks like there will be between fifteen and twenty.

In addition to the over-three-hour production of "The Ten Commandments," there will be quite a few in the two hour category, including "The Cobweb," "The Interrupted Melody," "The Scarlet Coat," "Ulysses," "Not As A Stranger," "Pete Kelly's Blues," "Land of the Pharaohs," "To Hell and Back," "Moby Dick," "Helen of Troy," "The Conqueror," "The

Kentuckian," and probably a half dozen others.

The "super-film"—the longer productions — are becoming more commonplace on the Hollywood production charts, according to statistics, and are becoming more popular with the fans, according to box office results.

Don't let your face be over-drawn, girls, if you want it to be your fortune.

Hoboken, N.J., police chief says that the boys in the station henceforth must keep their feet off the desk and stop listening to music on the radio. A fellow can pick up all kinds of ideas, watching those TV sleuths.

Man in Detroit, Mich., took tube of the television set to work with him every morning to save electricity. That was bad. Forbade his wife to have visitors because it wore out the rug. That was worse. Also, said guests used up all the coffee. That was too much. Judge found she had grounds for divorce.

Life Fashion Editor, Sally Kirkland, To Receive Neiman-Marcus Award

From an Army post in El Reno, Oklahoma, by Paris, to Texas was no trip at all for Sally Phinney Kirkland.

Fashion's great reporter, interpreter and analyst, Sally Kirkland, associate editor of Life, receives the Neiman-Marcus Award for "distinguished service in the field of fashion" at the store's 18th annual Fashion Exposition, September 5th and 6th in Dallas.

The daughter of an Army family, Sally was born in El Reno and she says they moved so often she cannot call any place her home town. She went to school at Holton-Arms for two years when she lived in Washington and then to Vassar where she majored in history. Perhaps it was this absorption in history that leads Sally to contend that "fashion has been news since Eve left Eden."

Avenue Montaigne, locale of the famed Dior Salon, is but one of thousands of spots, likely and unlikely, that has been a stop for Sally in her years of fashion reporting. After five years of fashion experience in the retail field, Sally became associate fashion editor of Vogue in 1938 and covered the fashion fronts of the world. As fashion editor of Life since 1947, she has done the same thing, only more of it.

Sally Kirkland's fashion reporting has a dig - to - the bottom technique backed up by versatile photographers who can picture petticoats as expertly as they shoot politics or parties in Paris. Her initial and follow-up reporting on the Italian fashion industry was a factor in the opening of a

large, new potential for American fashion buyers. Sally selects styles that fit the pocketbook as well as the shape and way of life of Miss and Mrs. America. When she reports news of high fashion, it is also news for budget wardrobes because she knows that fashion sifts through all price ranges.

Married for 17 years to Frederick McMichael Kirkland, a successful New York businessman, she is a prototype of a busy, capable, American woman. They have a charming 13-year-old daughter, Sally, who inherited her mother's bright blue eyes and avid interest in clothes. Mrs. Kirkland wears handsome, understated clothes, and wears them beautifully with a completely American look, whether they be French, Italian or American. Her favorites are casual clothes in her far-from-casual life as one of fashion's foremost reporters.

Four other coveted Neiman-Marcus awards will be presented during the annual fashion exposition to: Henry Dreyfuss, of the world's most versatile industrial designers; Florence Elsmann of Milwaukee, who designs clothes of distinction for the tricycle set; Pierre Balmain of Paris, eminent French haute couture designer; and Vera Maxwell who designs classic, city - country clothes for women.

NEWS FROM DESDEMONA

By Anell McMasters

Mrs. Fuqua, mother of Mrs. Bina Abernathy, passed away Wednesday, and the community's sympathy goes out to the bereaved family.

Mrs. Chisman is doing as well as can be expected after losing her husband, Will Chisman.

Wesley Lewis is in a somewhat worsened condition, in his illness.

Mrs. Willhigh has been on the sick list but feels some better now.

Mrs. J. B. McDonald is in a Fort Worth hospital for treatment.

Mich Bailey, who is ill, is doing fairly well.

Mrs. Molly O'Rear is improving and would come home from the hospital, if there were someone to

In the United States a defendant
in a criminal action is presumed
to be innocent until his guilt is
established beyond a reasonable
doubt. His guilt or innocence is
established at his trial — not when
he is arrested.

With this concept in mind it is
not hard to see why the right to
bail in criminal cases is guaran-
teed by the Constitution of the
United States, with the exception
of capital cases. A capital crime is
one which the punishment may be
death. In Texas murder, treason,
rape and robbery with firearms
are capital offenses.

All prisoners are bailable in
Texas except where the proof is
evident that a capital offense has
been committed and it is probable
that a jury will assess the death
penalty.

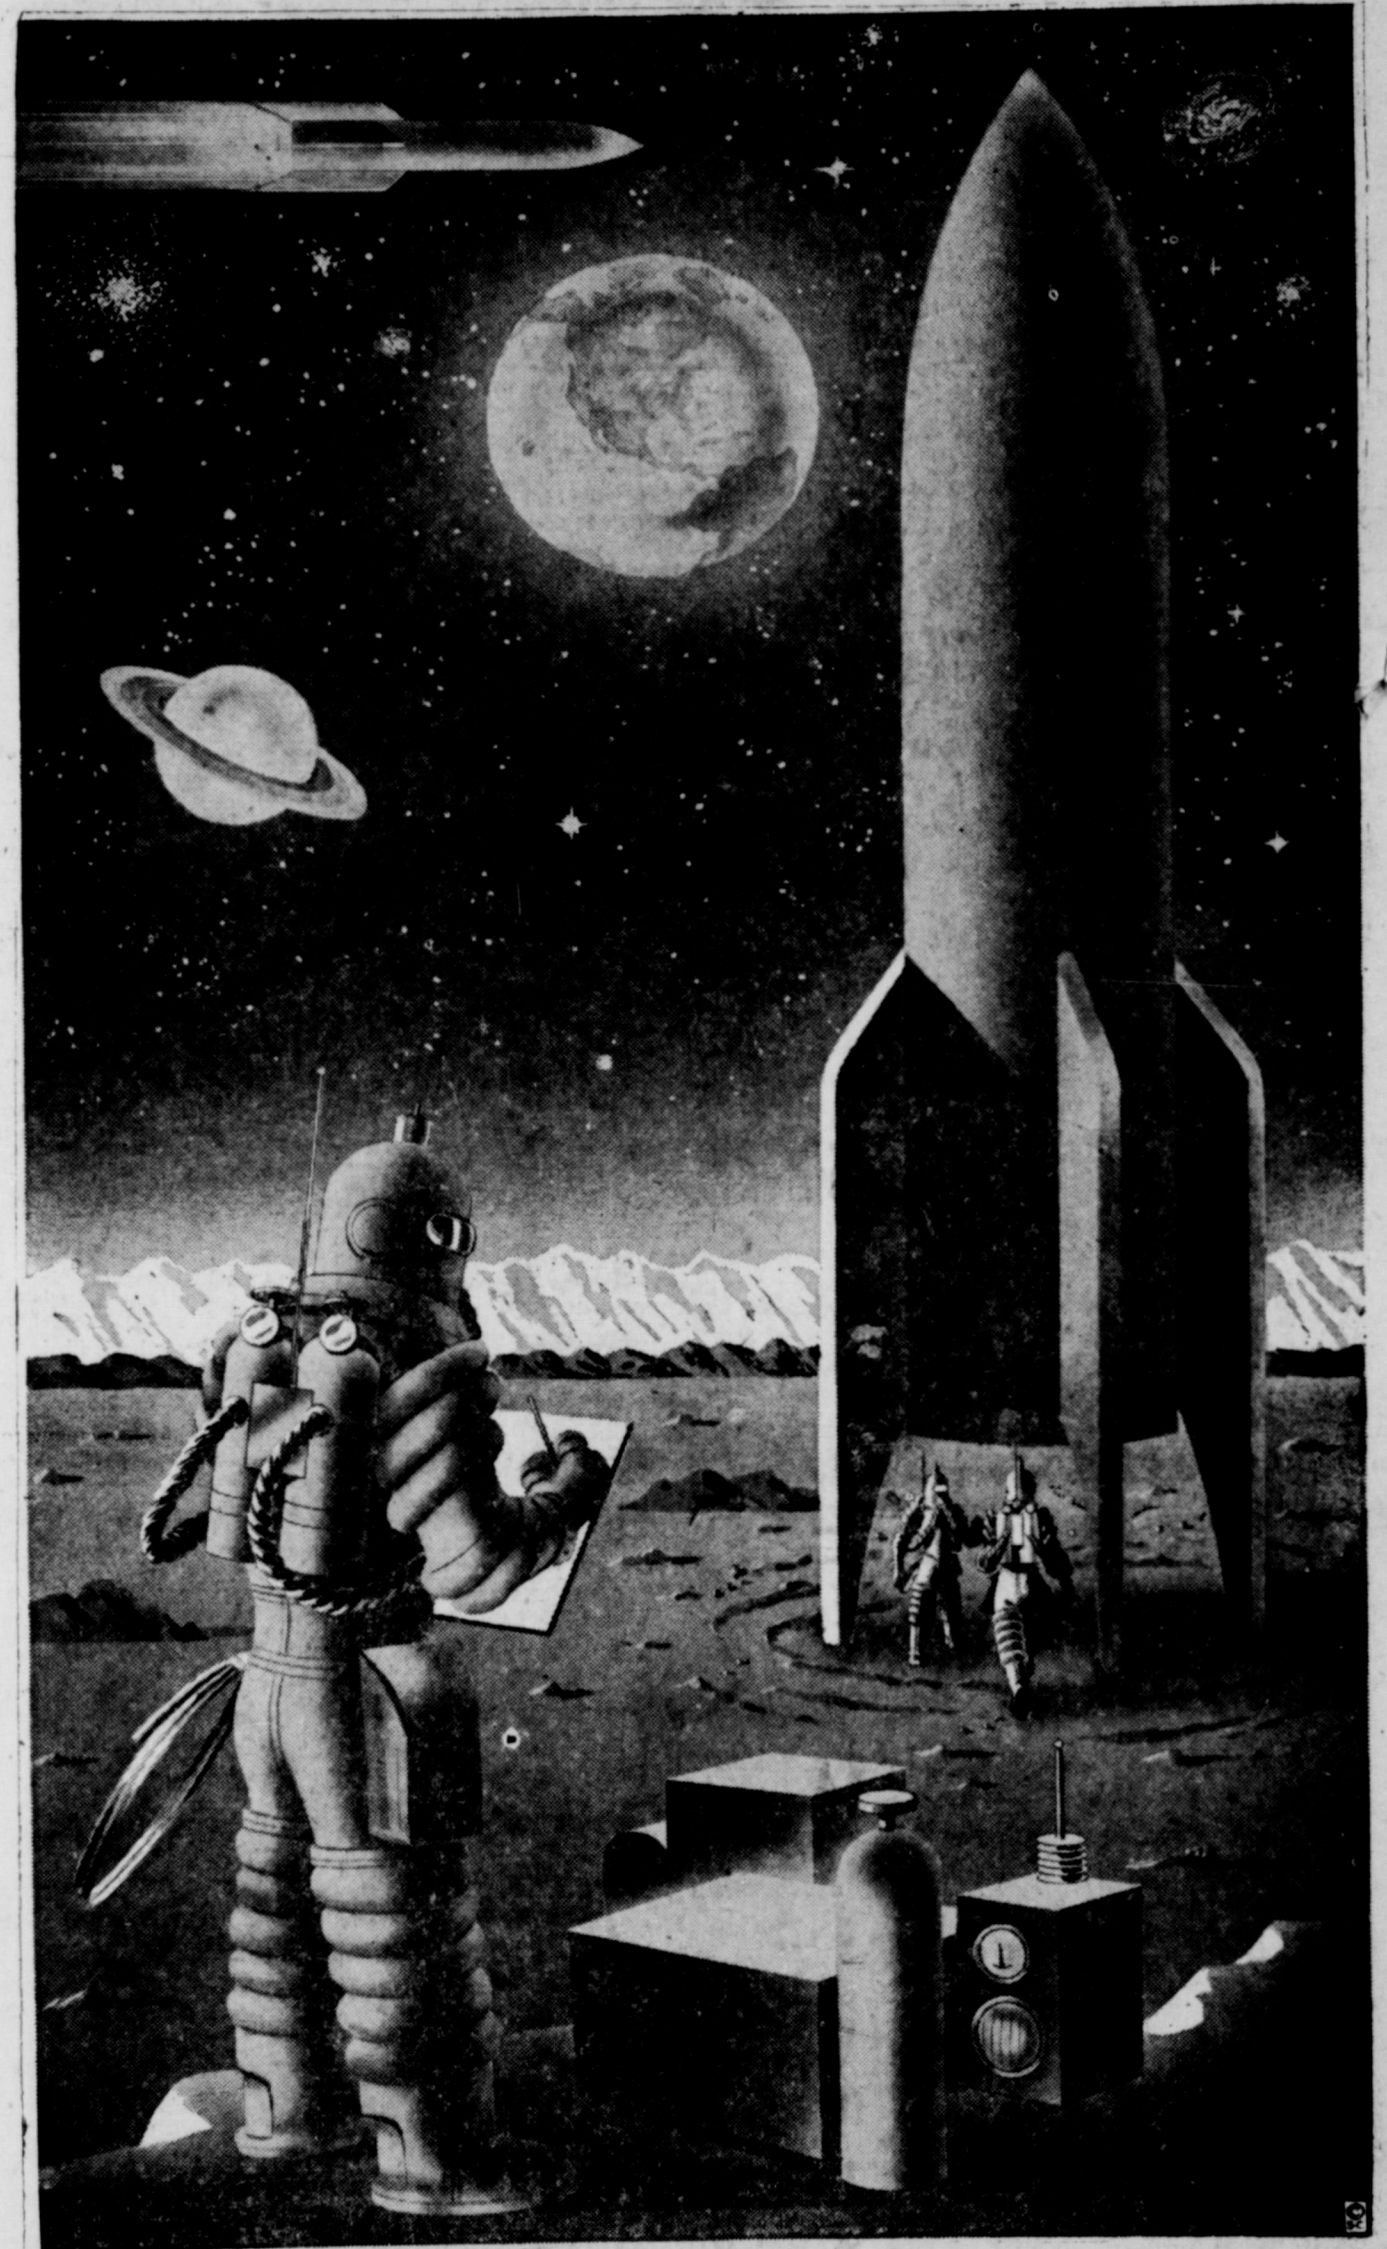

An officer making an arrest is
required by law to take the ac-
cused promptly before a magis-
trate. It is the duty of the magis-
trate to examine into the truth of
the accusation made. He deter-
mines whether the accused should be
discharged or bailed or held with-
out bail. If bail is set for the de-
fendant, the magistrate must de-
termine the amount. The law pro-
vides a procedure for reviewing
these decisions before the Court of
Criminal Appeals.

When an accused is on bail
when his trial commences he has
the right to remain on bail during
the trial of his case. Where the
punishment of a defendant has
been assessed at confinement in
the penitentiary for fifteen years
or less the defendant has the right
to remain on bail pending the ap-
peal of his case. If the penalty is
more than fifteen years the de-
fendant is kept in custody from
the moment the jury returns its
verdict.

The Constitution also says that
bail may not be set in excessive
amount. What is considered a re-
asonable amount depends largely
upon the circumstances and the
risk involved. Bail must be set
high enough to assure the court
and the state that the person will
not run away, but will return and
submit to trial on the date set.

The judge usually will ask the
prosecuting attorney for a recom-
mendation as to the amount of
bail. The accused's attorney may
then ask that the amount recom-
mended be reduced, giving his
reasons. The judge will settle on
an amount he believes reasonable
to assure the accused's presence
at the trial.

Occasionally we read of some-
one "skipping bail." This means
that he failed to show up in court
at the required time. In such cases
the court can order his bail for-
feited. The person is still subject
to re-arrest and prosecution how-
ever.

State Drownings Avoidable If Proper Precautions Taken

There were 397 drownings in Texas last year according to figures released by the Texas State Department of Health. Over half of these deaths were among those under 25 years of age. Drownings dropped sharply after age 45, but occurred in each age bracket up to 90 years.

Dr. Henry A. Holle, Commis-

ONE LONG, ONE SHORT—Paratrooping rings the bell with these two "end men" of the 82nd Airborne Division, Fort Bragg, N. C., recent graduates of the basic jump course. Master Sergeant Richard H. Brady, Mount Gilead, Ohio, is an even five-foot tall; Private Mel R. Johnson, Calumet, Mich., is six-foot-five-inches.

sioner of Health, stated that most of these deaths could have been prevented if sensible precautions had been taken. This is the season of the year when many of us like to take to the water for a cool swim, for week-end boating or fishing trips. These are all healthful forms of recreation, if you follow common sense rules, don't get cocky about your ability in the water and don't take chances.

The safest place to swim is the municipal pool where a life guard is on duty. The water is treated to kill disease germs and is kept fresh by a continuous change of water. Also there is no danger of wading into unexpected deep holes such as there are in ponds, lakes and rivers.

If you go boating and do not know how to swim always take along a life preserver. See that each child is so equipped. Be careful not to overload the boat. Changing seats or standing up in a small boat is dangerous business. If you should capsize, stay with the boat.

Watch children carefully while they play around small pools or even buckets of water. Small children often drown in stock tanks, fish pools, ditches and drainage canals. They even drown in bath tubs, because thoughtless mothers leave them there to play without supervision.

Consciously practice safety precautions and soon avoiding accident hazards will become second nature to you. Swimming, boating and fishing are healthful exercise if you do them safely.

Speaking of smart shopping, any mother should hesitate to add an item to her child's school wardrobe if it isn't easily washable.

Helpful Home Eye Treatment Hints Given

If Johnny should come home crying, "Mom, I got something in my eye!" — what would you do? The sensible thing would be to follow this 3-step procedure recommended by the State Department of Health for just such emergencies:

Lift the upper lid and pull it down over the lower lid. This will allow the tears to wash out the offending speck. Tears are nature's own eye wash.

If this doesn't work, wash the eye with drops of luke warm tap water, using an eye dropper and holding Johnny's head so the water will flow away from the nose, toward the side.

If the speck still doesn't dislodge, bandage the hurt eye lightly to prevent Johnny from rubbing it, and take him to a physician.

"Remember," the Department cautions, "trying to rub the speck loose can cause infection that may scar the cornea, resulting in partial blindness."

Ever heard someone remark their eyes were "simply worn out"? That's sheer nonsense, says the Department. It's impossible to "wear out" healthy eyes by over-use.

Then why do your eyes feel strained? It could be because you need glasses or are wearing improperly fitted glasses. Or it could be that you are failing to follow the rules of good lighting and proper eye use. Or the strain could be due to an eye or body disease.

Under correct conditions you should be able to use your eyes as much as you want to without strain. Healthy eyes give the best and most comfortable service when you sit erect with your work arranged at 45 to 70 degrees from the horizontal and from 14 to 16 inches from your eyes. Tilt-top desks or book easels are best for children.

Reading in bed is perfectly all right, providing you stick to the rules of good lighting and good

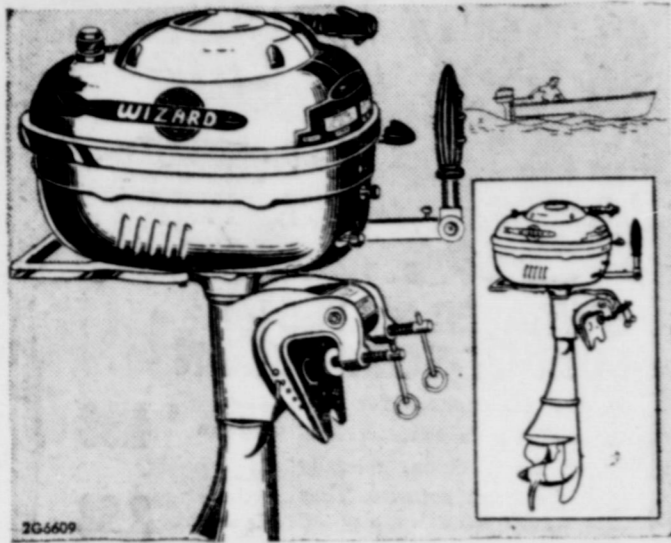

posture. But it's never wise to read in sunlight, even if your book or magazine is shaded. What about television? It doesn't harm the eyes if the picture is clear and steady, and if there is enough light in the room to prevent too great a contrast with the screen. Avoid sitting off-center or too close to the set. It's smart, the Department says, to protect your eyes from long exposure to bright sunlight. But don't make the mistake of wearing sun glasses just to look Hollywoodish. Indiscriminate wearing of colored glasses reduces your tolerance to light.

"Man," the health agency concludes, "is normally a far sighted creature. So from time to time as you read or do close work, give your eyes a break by closing them for a moment or by looking into the distance."

To one cup of fresh applesauce,

add one cup light cream, 1-3 cup sugar and 1-4 cup lemon juice. Stir until sugar is dissolved. Then reeze in the freezing unit of your refrigerator, and when firm, turn into a chilled bowl and beat. Re-freeze. You'll be delightfully surprised.

Piper Sets 'Family Of Man' Theme

The photograph of this merry fellow, piping a cheerful tune when snapped by the camera in his native Peru, sets the theme for "The Family of Man," gigantic photographic exhibition to be shown in the Dallas Museum of Fine Arts as a feature of the 1955 State Fair of Texas, October 7-23. The theme photograph is used at intervals throughout the exhibition, which is made up of 503 photographs from 68 countries. It has been termed "the greatest photographic exhibition of all time."

2-Car Trend Is Picking Up About Texas

Texas' wives and teen-agers, tired of being stranded when their breadwinner drives the family car to work, are sparking a statewide two-car boom, according to a special survey by Universal C.I.T. Credit Corporation, the nation's largest independent automobile financing firm.

The survey was conducted by the heads of the company's 40 division offices throughout the nation. Thirty-five of the company's branch offices are in Texas. In addition to observations of these experienced executives, the firm said, the survey included interviews with the hundreds of automobile dealers served by Universal C.I.T.

"Our survey disclosed that the major reasons behind the purchase of a second car," said assistant vice president Lee R. Mosley of Abilene, "are the trend to suburban living and the need for a second car for shopping and taking children to school when the husband uses the other car to get to work."

Another important reason, he

said, is that millions of teen-agers are attaining driving-age and an increasing number are able to afford automobiles. This factor will become even more important, he pointed out, when the huge "war baby" population reaches driving age in the 1960's.

There are about 4,500,000 two-car families in the United States. The credit executive estimated that about 10 per cent of Texas' car-owning families have more than one car. The percentage probably will double over the next five years, he declared.

Most of the state's two-car families are white collar or professional workers and farmers, although two-car ownership is widespread among skilled workers, the survey showed.

Average annual income of two-car families is about \$7,000 in Texas, the survey showed.

About two-thirds of the new

cars bought by two-car families are bought on instalment credit, the survey showed, and more than three-fourths of the used cars are purchased on credit. The Universal C.I.T. executive rated the credit standing and financial responsibility of the state's typical two-

car family unusually high. In general, the state's families "graduate" into the two-car class by keeping their "old" car instead of trading when they get the new one. A smaller proportion buys a used car as a second car. Another result of the trend is a

surge in the popularity of station wagons, "small" cars and convertibles, the survey showed.

The first grasshoppers of summer are like the little kids who have fun wrecking the family lawnmower.

Davy Crockett Influence Abounds In Camps Operated by Scouting

The influence of Davy Crockett has been tremendous all over the nation. But one place it has been most noticeable is in the 38 camps operated by the Texas Boy Scout Councils.

"We have always had a great number of youngsters attending our camps during the summer months, but this year the uptrend has exceeded our highest expectations," says Hal Lewman of Dallas, regional Scout executive. "I'm sure Davy Crockett had something to do with the increased popularity of the camps."

In 1954, a record 28,716 Scouts attended the camps for six or more days. This record number has already been broken in 1955, by how much isn't known now. Mr.

Lewman says final figures on attendance won't be available for several more weeks. "But we do know that well over 30,000 youngsters will enroll in the camps this summer," Mr. Lewman said.

According to a recent census, there were 165,000 youngsters in the Texas scouting movement. These youngsters range from Cubs (eight to 10 years), to Boy Scouts (11 to 13 years) and finally to Explorers (14 and older). These Scouts are divided into 6,400 units, mostly sponsored by churches.

In 1956 Scout officials are looking for a big increase in the number of Texas youngsters in the movement. And right now a number of prominent Texans are

SWIMMING—At Boy Scout camps thousands of young Texans learn swimming, water safety rules and artificial respiration.

working on a statewide campaign to raise funds to support this increase in membership. Among those working on the campaign are Governor Allan Shivers; Howard Tellepsen and Frank Watts of Houston; W. W. Lynch and Angus Wynne Jr., of Dallas; H. H. Coffield of Rockdale; John F. Shields of San Antonio; John F. Lynch of Corpus Christi; George W. Pirtle of Tyler; O. P. Leonard of Ft. Worth and Jack C. Vowell of El Paso.

Scout officials report that the camps are equipped to help the youngsters camp out, make trails, hike, swim, and do almost anything Davy Crockett did, except kill bears. In fact, the youngsters develop a resourcefulness and self reliance during their life in the open that would have won the highest admiration of the "king of the wild frontier."

And, Mr. Lewman says, the coon-skin hat hasn't been adopted as a part of the official Scout uniform, but it is being seen in increasing numbers in Scout camps this summer.

Usually the 38 Scout camps open in June, shortly after the school term is completed. There are 24 Scout councils in Texas; some of the councils operate more than one camp but each Council operates at least one. This permits a Scout or Explorer to attend a camp within reasonable distance from his home. Weekly enrollment at these camps vary from 100 to 350 Scouts.

Before the camps opened this year, Councils were deluged with applications, Mr. Lewman said. There were so many youngsters interested in going to Scout camps that additional periods had to be scheduled. "The camps usually close in July, but we can't do it this year. There are still many youngsters on the waiting list and we try to offer to every Scout desiring to go to camp the opportunity to do so," he added.

Usually a Scout goes to camp with members of his own troop and with his own Scoutmaster. There, with his friends, he enjoys high adventure in the out-of-doors by participating in the many sched-

uled activities. Before attending Scout camp, Scouts are required to have physical examinations and upon arrival at the camp they are given a recheck. Every precaution is taken to protect the health and insure the safety of the campers. In event of an emergency, arrangements have been made by all local councils for needed services of a hospital and physician.

Oil Scouting Qualification Is Explained

A nose for news and a knack of getting information "that just isn't there" are essentials for newspaper reporting — and also for oil-field scouting, according to Petroleum Week, McGraw-Hill publication. A scout must get not only all facts on every well drilled or set to be drilled in his territory, but also future drilling plays, lease prices, and general trends in his district as a whole.

As an oil-field scout, Wiley Wagner Wiggins, representative of a major oil company in its East Texas district, is considered "on the ball," the magazine says. In the scouting business for 19 years, his acumen gained added emphasis recently when he was honored with the presidency of the National Oil Scouts & Landmen's Association, at its 32nd annual convention at Banff, Alta.

"Scouting is the best job in the oil patch," Wiggins declares, although he admits that the pay is not as high as for some of the highly specialized jobs in the business. Moreover, it is a hectic type of work, subject to 24-hour call, and requiring an average of 2,700 miles driven per month.

Because an oil scout must cover a large territory (Wiggins' dis-

trict consists of 46 counties in Texas), and often requires him to be "in three places at once," he "cooperates" with other scouts in his district, trading his information for that of scouts from other oil concerns. All scouts in Wiggins' district meet once a week for a "check-meet," where information is swapped on field trips taken during the previous week.

This trade of information is accepted by everyone in the oil business, the magazine points out, since oil companies know their scouts can't possibly be everywhere at the same time, and drilling operations move fast.

Typical work-week for an oil scout, according to the magazine, is three days of "making" his district — talking to drillers, checking records for leasing information, and trying to get a whiff of trends in the area; one day for a weekly checkmeet, and one day for office work (detailed well reports to be sent to the home office).

Getting information on some drilling operations can be a tough problem; however, it can be gotten provided a little ingenuity is employed. Once for example, local scouts got their information on a particular series of tests by sending small boys, who had access to the operations which were conducted on their land, to the rig floor to check the various gauges.

The juvenile espionage worked for a while, the magazine reports, but finally was halted by the driller, who threatened to cut off the supply of natural gas from the well to the farmhouse, which would mean "back to the woodpile" for the boys.

It's a wise kernel of corn that knows its own pop!

Fair Honors To 'Texan Of Distinction'

The fourth annual "Texan of Distinction" award of the State Fair, of Texas will be presented to Bill Cunningham, one of the nation's most widely known journalists, State Fair President R. L. Thornton has announced.

Cunningham is celebrated as a star reporter, radio news commentator, author, raconteur and dean of American sports columnists. His full name is Elijah William Cunningham, and he was born in Blossom Prairie, near Paris, Texas, in 1896. His parents were both school teachers. For the past 32 years he has made his home in New England, but has literally

"covered the world" on news assignments.

The State Fair award is presented each year to a native Texan who has distinguished himself in industry, science or the arts on a national scale. Cunningham will receive his award and make the principal address at the State Fair annual banquet Oct. 11. The award is a \$3,000 Steuben crystal vase specially designed for the Fair.

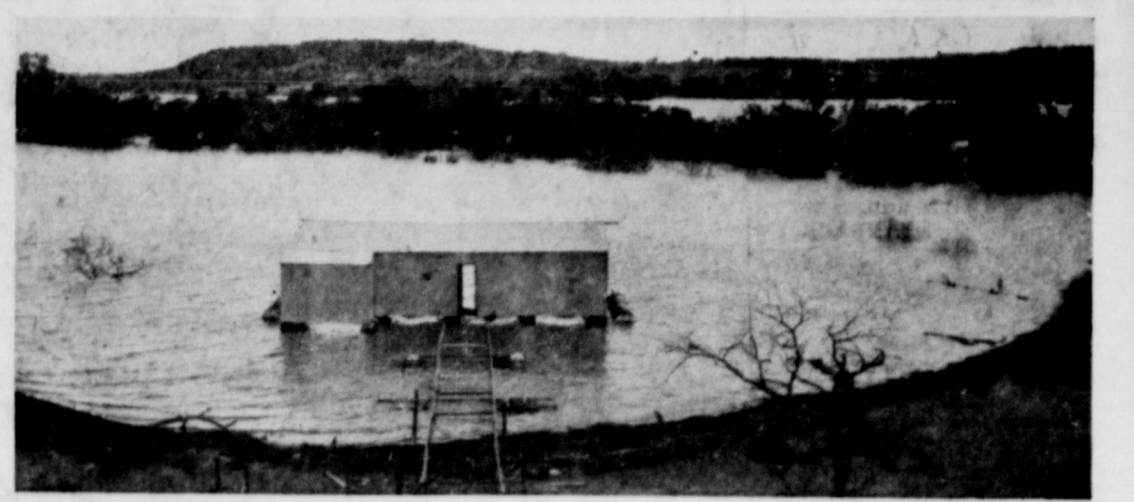

Cunningham attended school in Dallas and won a scholarship to Dartmouth College, where he was an All-American football player in 1919-20. After service in World War I and graduation from college, he got his first reporting job in 1921 on the Dallas Morning News, where his work in connection with the fight waged by The News against the Ku Klux Klan, attracted national attention.

After two years on The News, he joined the staff of the Boston

Post, where he remained for 19 years, covering major sports events. In 1941 he became a special writer for the Boston Herald in the wider field of political issues and world affairs. Since 1944, he has also been top-rated news commentator of the Mutual Broadcasting System.

Cunningham's career is considered one of the most colorful in the history of American journalism. Rated as a truly great reporter and a master stylist, he has won many awards. He has written for the movies and for national magazines and is the author of several books.

He has covered every major sports event since the Dempsey-Carpentier fight. Although big-time sports were his specialty for years, he frequently moved into other fields. He interviewed Mussolini in Rome, Goering in Berlin, the Prince of Wales in London and Al Capone in Florida.

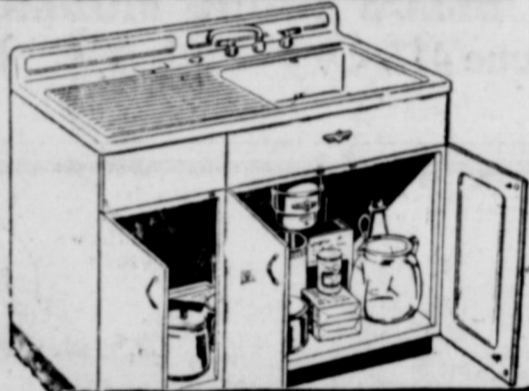

COULD THIS BE?—Surrounded by trees, the completely covered commercial boat dock belonging to Roscoe Hopper and Raymond Lingle seems to be sitting in a stock tank. Actually it is nestled in a nook on the lake that was cut by the mighty force of the elements.

Lower Labor Day Week-End Toll Is Due

The lowest nationwide traffic fatality estimate for the Labor Day weekend since 1950 was announced here by the Association of Casualty and Surety Companies.

The lowest nationwide traffic fatality estimate of Casualty and Surety Companies.

The Association, which attributed the reduction to the current "Slow Down and Live" traffic safety campaign, estimated that 410 persons will die on the highways during the coming 78-hour holiday weekend.

Specifically, the association forecast ascribed the 410 expect-

ed deaths to these causes: 135 fatalities due to excessive speed; 65 deaths from driving on the wrong side of the road; 42 from reckless driving; 39 from failure to yield the right-of-way; and 29 from falling asleep at the wheel.

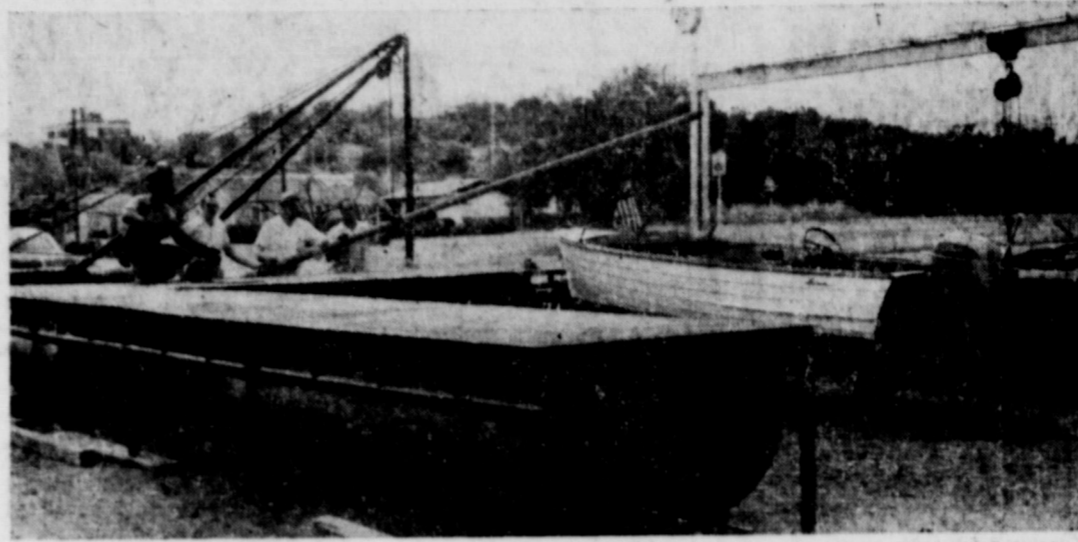

The remaining 100 deaths will include 25 pedestrians who attempted to cross the street between intersections, 10 who stepped into the street from behind parked cars and 55 fatalities from miscellaneous actions of drivers and pedestrians.

In addition to these traffic deaths, over 22,000 drivers and passengers, plus some 3,200 pedestrians, are feared likely to suffer personal injuries. At least one out of every four drivers or pedestrians involved in a fatal accident will have been drinking alcohol immediately before the accident, the association said.

Concerning the holiday fore-

cast, Thomas N. Boate, manager of the association's accident prevention department, said: "The expected reduction directly reflects the reduced traffic toll experienced during this summer's nationwide 'Slow Down and Live' campaign. While slight, the decrease is significant. It gives motorists added hope that their cooperation with mass, coordinated safety programs can lower the traffic toll."

"Labor Day begins officially at 6 a. m. Friday, September 2 and ends at midnight on the following Monday. It is the nation's third three-day holiday this year and there is every reason to believe that with the help of motorists, it can also be the safest. Courtesy, caution and cooperation should be the watch-words for safe Labor Day weekend driving."

READY FOR THE HOUSING—To be placed in Lake Leon before the opening date, Sept. 3, a private boat dock belonging to E. F. Arterburn will be covered with a metal structure. The house will cover half the walk on the right side and front, providing room for fishermen to fish from the dock.

Capitol Building Eventual Finishing Burleson's Subject

Arrangements for the eventual completion, as planned, of the Capitol building at Washington, D.C., are outlined by Congressman Omar Burleson in a release received by this paper:

Like most of the great buildings in the world, our Capitol building has grown in size considerably since George Washington laid the cornerstone on September 18, 1793. The beginning of the building was a grand affair. General Washington presided at the Masonic Ceremonies, and after a formal procession to the Capitol, the President placed an inscription, a silver plate, on the cornerstone and made an appropriate address.

To enliven the proceedings, a company of Virginia volunteer Artillery gave an exhibition of maneuvers with salvos from their guns. An old-fashioned barbecue completed the program. After the foundation was laid, the north wing was erected first. In the summer of 1801 a one story temporary brick structure with an arched roof was built on the foundation of the south wing for the House of Representatives.

It is said when the hot summer Washington sun beat down on the one story building, that the heat was "well-nigh" unbearable. Its shape somewhat resembled that of an old-fashioned brick oven, and as a result, it was popularly known in those days as "the oven."

About six o'clock in the evening on August 24, 1814, the British Admiral Cockburn occupied Washington and took possession of the Capitol. This British admiral ascended the rostrum in the House of Representatives, sprang into the speaker's chair in his muddy boots and called his troops who occupied the chamber to order. In mock parliament, he shouted to them, "Shall this harbor of Yankee Democracy be burned? All for it will say Aye!" There was not a dissenting vote among the occupying troops. Upon the admiral's orders, the troops then began to set fire to the building and it was soon in flames.

The building seemed doomed, but miraculously a terrific thunderstorm arose accompanied with torrents of rain which extinguished the fire in time to save the walls of the old Capitol building.

It was 1819 before the building was sufficiently restored for Congress to assemble there again. In 1864 the old wooden dome was replaced with the present massive cast iron dome which weighs eight million pounds, and the external appearance of the building became much as it is today. The total cost of the building up to 1870 was

approximately twelve and one-quarter million dollars.

Through the years there has been much discussion about bringing the front part of the building out so as to complete it, as has been planned for many years. This Congress passed an appropriation for money to actually finish the Capitol as it was planned. It will probably be several years before one who has seen the United States Capitol will notice any difference but eventually it will be done. Architectural plans will be called for in the late fall and probably it will take two years to get started.

The Capitol is the most spacious building I have ever seen to have as little room. In other words, there is a lot of wasted room—but this addition, although in keeping with the architecture, will be modern and with none of the lost space which is now to be seen most every place in the Capitol.

BRIDGE OVER THE LAKE—Here's the scene when, in February, the Staff Road Bridge, over what is now part of Lake Leon, was dedicated. Little Kimberly Ann Hailey, daughter of Mr. and Mrs. W. H. Hailey of Staff, snipped the ribbon, as those pictured (l. to r.) looked on interestedly: Virgil Seaberry Jr., president, Eastland Chamber of Commerce; Charles Milliken, Ranger C of C president; Rip Galloway, Ranger C-C manager, and Herb Tanner, manager of the Eastland C-C.

Georgia Tech Lists Results Of "Easy" Drown Proofing Tests

Georgia Institute of Technology Drowning ranks second only to traffic deaths as a single cause of accidental deaths, yet a technique developed at Georgia Tech has proven that nearly anyone can be easily drownproofed for extended periods of time, certainly long enough to be rescued under ordinary circumstances.

To give an idea of the effectiveness of the Georgia Tech method, an interesting experiment was conducted at Tech with sixty POOR swimmers. A third of this group had their wrists tied behind their backs, another third had their legs tied in a half bent position, and the remaining third were free. Average quitting time of these POOR swimmers was four hours and forty minutes, and sixteen of them reached the objective of EIGHT HOURS. It seems as though these folks approach "drownproofing."

"Drownproofing" is fundamentally the development of a technique of breathing while swimming in deep water with such an absolute minimum of energy expenditure that terrifying complications like multiple cramps, heavy clothes, disabling injuries, high waves, rough water, and long immersion have little or no effect on survival. Many of our NON-SWIMMERS who have never swum one length of our pool, have stayed up one hour in the crowded deep end of our pool, using this technique, which most of them learned in about a dozen lessons.

As a beginner, would you rather have a pretty stroke, or still be on the top an hour after an accident in the water?

Hunters, fishermen, boaters, swimmers, picnickers — anyone who uses the water for recreation or work — owe it to themselves AND THEIR FAMILIES, to learn how to protect themselves in the water. This technique is cheaper and better than any insurance gadget you can buy, and it is quite easily self-taught with a little practice.

The new technique has its basis in physics. Specific gravity of the average human body is about .97; thus only about five pounds of

der water, more than out of water there is practically no strain. The best swimmers at Georgia Tech and at Emory University cannot hold 15-pound weights out of water using legs alone for more than three minutes, although they can easily stay up for hours and swim miles, with their hands tied behind their backs. How silly it is for poor swimmers, or any swimmers, to try to hold a 15-pound head out of water for any time.

The Georgia Tech procedure makes air do all the work of flotation, minimizes choking, and really produces relaxation. It works equally well on big or small — old or young — fat or skinny — tall or short, smart or dumb.

TECH PROCEDURE

1. With lungs full, float face down with back of neck on the surface.
2. Get ready for a downward thrust using arms, legs, or both. Be sure mouth is empty.
3. Exhale through nose while raising head so that mouth is in the air, shoulders under.
4. With head vertical, thrust downward for support during mouth inhale.
5. With lungs full, drop head forward, immediately thrust downward and backward.
6. Relax with head, arms and legs dangling, holding all air, while floating forward and upward. Learners rest three seconds here, experts rest ten seconds.

Advantages of the Tech procedure are many. First, air provides all buoyancy needed, after putting the face back in the water, thus eliminating many tiring, unnecessary movements. Second, the possibility of choking is minimized by not tipping the head back. Third, real relaxation and long rest periods are obtained by proper spacing of the arm and leg movements. Fourth, the method works nearly as well with arms or legs alone, or using only one of each — folks DO get cramps, disabling injuries, etc., while swimming.

One of the principal reasons for drownings is panic. Panic causes poor swimmers to flail about and waste energy until they sink. It causes them to try to swim too fast, then tire and sink. Distance without speed means literally nothing to a TRAINED swimmer. As long as the swimmer stays un-

From Filtration Plant Comes Pure Water In Abundance

Between Eastland and Ranger, near to Ranger, is an installation which performs a service which makes the water from Lake Leon safely drinkable for Rangerites and Eastlanders.

It is an ultra-modern filtration plant, serving the Eastland County Water Supply District.

Attractively housed, the plant is in a buff brick building, 33x39 feet, one floor and basement, with the majority of the machinery in the basement. Filter beds, 27x33, are connected at the rear of the building.

A sixteen-inch supply pipe brings the water in, forced by pumps at the lake. It is settled

with aluminum sulphate and lime and chlorine is used in the "clear well," after flocculators mix chemicals and water to settle out the solids.

The lime and aluminum sulphate feeders are powered by electric motors. In fact, there are in all 9 motors at the plant and 2 at the dam.

Equipment and processing are of the very latest type.

Two men are employed at the filtration plant — Jesse White, superintendent, and Cyrus Miller, assistant.

Water travels from the plant in a 12-inch pipe to Ranger and a 14-inch pipe to Eastland.

The plant is capable of handling 3 1/2 million gallons.

"Thus," said Mr. White, "our plant has a capacity which would take care of about double the present populations of Eastland and Ranger."

While the newsman was at the plant talking with Supt. White, Dean Mathew of Fort Worth, representing the State Health Department, dropped by, his services having been requested

Water Board Lists Regulations Governing Leon Boating, Fishing

The Eastland County Water Supply District recently released a group of regulations governing the fishing and boating practices at Lake Leon in a booklet entitled, "Laws, Rules and Regulations Governing Lake Leon."

Ingredients of the booklet that are being distributed over the county follow:

AN ORDINANCE ENACTED BY THE BOARD OF DIRECTORS OF EASTLAND COUNTY WATER SUPPLY DISTRICT, UNDER THE POWERS AND PROVISIONS OF CHAPTER 8, TITLE 128 OF THE LAWS OF THE STATE OF TEXAS; DECLARING IT TO BE UNLAWFUL TO CATCH OR TAKE ANY FISH OR TO POSSESS ANY FISH TAKEN BY ANY METHOD OR MEANS OUT OF LAKE LEON PRIOR TO THE THIRD DAY OF SEPTEMBER, 1955; REGULATING FISHING EQUIPMENT IN AND TO BE USED IN LAKE LEON AFTER SEPTEMBER 3, 1955; PROHIBITING COMMERCIAL FISHING IN THE WATERS OF SAID LAKE LEON; REGULATING THE USE OF FIREARMS IN, ON, OR ALONG SAID LAKE LEON; REGULATING HUNTING IN, ON OR AROUND SAID LAKE LEON; PROVIDING FOR THE ESTABLISHMENT OF PEACE OFFICERS FOR THE DISTRICT, FIXING THEIR QUALIFICATIONS FOR SUCH SERVICE, DEFINING THE POWERS OF SUCH OFFICERS, AND PROVIDING FOR THEIR COMPENSATION; PROVIDING CERTAIN PENALTIES FOR THE VIOLATION OF THIS ORDINANCE; AND PROVIDING FOR LAWFUL PUBLICATION OF NOTICE OF THE ENACTMENT OF THIS ORDINANCE AND FIXING THE TIME AT WHICH THIS ORDINANCE SHALL BE IN FULL FORCE AND EFFECT, AND MAKING FULL AND LAWFUL PROVISION FOR ADVICE TO THE PUBLIC AS TO THE TERMS AND PROVISIONS THEREOF.

BE IT ENACTED AND ORDAINED BY THE BOARD OF DIRECTORS OF THE EASTLAND COUNTY WATER SUPPLY DISTRICT:

ARTICLE I

The provisions of this act shall apply to Lake Leon in Eastland County, Texas.

ARTICLE II

It shall be unlawful to catch, take or attempt to catch or take any fish or to catch or take any fish or to possess any fish taken by any method, means or device out of Lake Leon prior to the third day of September 1955.

ARTICLE III

It shall be unlawful in said Lake Leon to catch, take, or attempt to catch or take any fish, or to possess any fish taken by any method, means or device, except by ordinary pole and line; rod and reel; fly rod, throw line equipped with no more than two (2) hooks, and trotline of not more than thirty (30) hooks. The use of trotlines is limited to one trotline per person, or not more than two (2) trotlines per party of two or more persons and no metallic trotlines shall be used. No two trotlines, or more, shall be connected together in any manner and no trotline shall be within two hundred feet (200') of any boat, dock or pier, bathing pier, or beach, or any place commonly used as a swimming area. Further, it shall be unlawful for any person or persons to fish for, take, catch, or attempt to catch any fish in the waters of Lake

Leon, by any net, seine, snag line, trap, or any other device not herein authorized, and the possession of any tackle not authorized by this act within two hundred (200) yards of said Lake Leon, shall be facie evidence of violation of this act.

ARTICLE IV

It shall be unlawful for any person to sell or buy, or to offer to sell or buy, or to take or possess for commercial purposes fish from the waters of said Lake Leon.

ARTICLE V

It shall be unlawful to use any game fish or fresh water rough fish, including fish commonly known as Gold Fish as bait in Lake Leon, except that such fish may be cut up and used as cut bait.

ARTICLE VI

It shall be unlawful for any person to shoot, fire or discharge any pistol or rifle in, on, along or across said Lake Leon, provided, however, the provisions of this section shall not apply to Peace Officers, Game Wardens, or other representatives of the Game and Fish Commission in the lawful discharge of their lawful duties, nor shall same be construed to prevent any person from hunting waterfowl with a shot gun in the manner and during the time when it is lawful to hunt in said Eastland County.

ARTICLE VII

It shall be unlawful for any person to take, catch, or have in his possession from the said Lake Leon during the months of March, April and May of each year any frog or frogs commonly known as bullfrogs.

ARTICLE VIII

It shall be unlawful to use bottles, cans or floats of any kind to fish with unless tied stationary or held by the fisherman using same.

ARTICLE IX

Any net, seine, snag line, or any other device found in the waters of Lake Leon, in violation of this ordinance are hereby declared to be a nuisance, and it shall be the duty of the Peace Officers of the Eastland County Water Supply District to destroy same whenever found, and no suit shall be maintained against them therefore.

ARTICLE X

The doing of any act forbidden to be done by this ordinance, or the failure to do any act required by the provisions of this ordinance, shall be deemed to be a misdemeanor, which, in case of a lawful conviction thereof, shall be punishable by the infliction of a penalty to be a fine of not more than \$200.00, together with the costs of court; provided the fine and costs of court may not exceed \$200.00. The fines collected hereunder, insofar as may not be required for payment of the costs of court, shall be payable to this District and shall be credited to its recreational fund. In case of the assessments of a fine hereunder and the refusal or inability of the guilty persons to discharge any such fine, together with the court costs incurred by reason of the prosecution of the offense, upon order of the Board of Directors of this District, any such person shall be committed to the County Jail to serve out any such penalty at the same rate of credit as would be done to him in case of conviction of a misdemeanor under the laws of Texas. It, however, is provided that no such imprisonment shall be ordered by the court of Jurisdiction unless this District makes provision to reimburse the County for the confinement and maintenance of any such at the same rate per day as would prevail in the case of the confinement of a County prisoner, or upon any other basis of a compensation which may be agreed upon between the County Commissioner's Court and the Directors of this District. The penalty hereby authorized shall be in addition to any other penalty provided by the laws of Texas, or by the laws of the United States of America, and may be enforced or imposed under complaints filed by the District, its Peace Officers, or any other interested person, in any appropriate court of jurisdiction, in Eastland County, Texas. It further is provided that the provisions of this ordinance shall be in full force and effect five (5) days after the second publication of the notice of this ordinance as required by Chapter 8 of Title 128 of the Laws of the State of Texas, and ignorance of any provision of this ordinance, after such publication, shall not constitute a defense to the prosecution for the enforcement of a penalty by this ordinance; and, the provisions hereof, after such publication, shall judicially be known to the Courts and shall be considered of a nature like unto that of valid penal ordinances of a city or of the state.

ARTICLE XI

It is hereby provided that the General Manager of this District, without further order of this board, shall be directed, authorized and empowered to employ one or more peace officers who shall be peace officers of this District.

The compensation of any officer and the duration of service shall be fixed by the Board of Directors, by appropriate orders. Any such peace officer shall be required to give a good and solvent surety company bond, the premium thereon to be payable by the District, in the penal sum \$1,000.00 payable to this District, which shall

be conditioned, insofar as in appropriate in the same manner as is, or may be, provided by the laws of Texas with respect to the Sheriffs of counties, but, such bond may contain such other and further conditions as may be deemed by the District to be appropriate. Upon approval of any such bond by the Board of Directors of this District, any such peace officer, insofar as may be appropriate, shall be required to take the oath of office prescribed, or to be prescribed, by the laws of Texas, for sheriffs of the State. The duties of any such peace officer shall be only those authorized by provision of subdivision (c) of Section 22 of said Chapter 8 of Title 128 of the laws of Texas, and this District shall have no liability for any act of any such peace officer, whether within or exceeding the scope of his lawful authority, save in cases where said officers may be acting under express recorded authorization, by this Board of Directors. Every peace officer employed under this ordinance shall be furnished with a commission and a badge to give evidence of his authority to act for the District.

Each such peace officer shall have the authority and duty to enforce the provisions of this and other ordinances and all reasonable rules and regulations adopted thereunder, in like manner as would be the duty of a sheriff enforcing the laws of the State of Texas; provided, however, that such peace officer may make arrests only when necessary to prevent or abate the commission of any offense against the provisions of this ordinance, or any amendment thereof, when any such offense, or threatened offense, occurs upon any land, water, easement, or other property owned or controlled by this District. Any such peace officer, in any event, shall have the power and duty to file specific complaints concerning offenses committed in violation of any laws of the United States of America, or in violation of any laws of the State of Texas.

AN ORDINANCE

AN ORDINANCE enacted by the Board of Directors of Eastland County Water Supply District setting up rules and regulations for Lake Leon; (1) affording protection of the physical properties and improvements of the District; (2) safeguarding the purity of the water stored in the reservoir owned and controlled by

the District; (3) regulating the use of the lands forming the margin of said waters, in order to preserve the purity of the water stored by the District; (4) preventing the waste or unauthorized use of waters controlled by the District; (5) regulating camping, residence, hunting, fishing, boating, and all recreational and business privileges, when done, occurring or taking place, upon the water stored or retarded by the dam owned by the District, and as well as to provide such regulations with reference to any land owned by the District, under easement to it, or controlled by it, under any right whatever; (6) setting out methods of leasing lots and acreage adjoining said lake; (7) setting out method of construction of roads; (8) setting out requirements of construction on leased property and requiring approval of construction; (9) requiring certain standards for safety, size, construction, equipment and occupancy of boats and requiring inspection thereof; (10) providing for removal of boats not in a safe and usable condition; (11) requiring certain standards for boats having overnight accommodations; (12) defining certain types of boats and docks; (13) requiring permits for commercial boats and docks; (14) providing for concession areas; (15) prohibiting firearms on District property, except shot guns using shot no larger than number 4 in size permitted in certain areas; (16) providing for certain permits and the fees to be charged therefor by the District; (17) providing that Federal and State hunting and fishing laws shall apply to Lake Leon; (18) providing certain penalties for the violation of the terms of this ordinance; (19) providing for the establishment of peace officers and defining the powers of such officers; (20) providing for the suspension or cancellation of permits in the event the holder of same shall be guilty of violating the terms of such permits; (21) also, providing for the forfeiture of any fees which may have been paid by the permittee as consideration for the granting of the permits, as to which any such violation may occur; (22) providing for the lawful publication of notice of the enactment of this ordinance and the time at which this ordinance shall be in full force and effect, making full and lawful provision for advice to the public as to the terms and provisions thereof. This ordinance shall apply to all lands, adjacent to Lake Leon,

owned or leased by the District, an all land in the Lake Leon area under Elevation 1385 feet.

Section 1 RULES AND REGULATIONS

The following rules and regula-

tions concerning the leasing of lots on land adjacent to Lake Leon, owned by the District, to individuals, companies, groups, clubs, associations or corporations, are hereby adopted:

(a) Certain areas, all adjacent to, Lake Leon, shall be set aside and regarded by the District as recreation areas and picnic areas for use of the public. Other areas shall be divided into lots and may be leased to persons desiring locations for the construction of build-

ings, docks, and other improvements. Areas that are not suitable for parks and lots will be leased for grazing and farming property.

(b) Acquisition of lots owned by the District at Lake Leon shall be made on an annual rental basis as follows: An appraisal shall be made of the footage and value of each lot offered to the public use, depending upon the size, location and desirability of the lots. A (Continued on page 3, Sec. 1)

WATER BOARD LISTS—

(Continued from Page 2, Sec. 1)

rental value will be placed upon these lots by the Board of Directors after considering recommendations of a special Land Committee.

(c) Each lease may be renewed automatically by lessee by the payment in advance of each annual rental; providing, however, that lessee shall not have the right to renew such lease unless lessee has at all times conformed to the rules, regulations and provisions of this ordinance and to such rules, regulations and ordinances as may be promulgated from time to time by the District. Violation of any rules or regulations or any provision of any such ordinance by lessee shall authorize the District to cancel the lease of the lessee so violating such rule, regulation or provision; every lease shall be printed or typewritten in a form to be approved by the District.

(d) Lots shall be leased from maps prepared by the Engineering Department of the District and maintained in the office of the General Manager in Texas.

e) Main dirt roads on property

owned by the District, and subdivided into lots for lease purposes, shall be built and maintained by the District; if roads leading to lots are desired by lessees, then such roads may be constructed at lessee's expense with the consent of the District.

(f) No transfer or assignment of a lease of land owned by the District, by lessee, shall be valid without consent of the District in writing first hand and obtained.

(g) Commercial areas shall be set aside by the District for commercial purposes such as the rental of boats and motors and sale or rental of baits and supplies. Any person to whom such concession area or areas are let shall be responsible for observances of all rules and regulations promulgated by the District. No commercial activities shall be carried on in any residence lot.

(h) The service spillway and normal water line are at Elevation 1375; the lower emergency spillway is at Elevation 1382; the top of Dam is at Elevation 1398. All leases shall include or be accompanied by an approved release of the Eastland County Water Supply District of liability for damages due to floods or other dam-

ages caused by water. Any construction located below Elevation 1385 must be authorized specifically by the District.

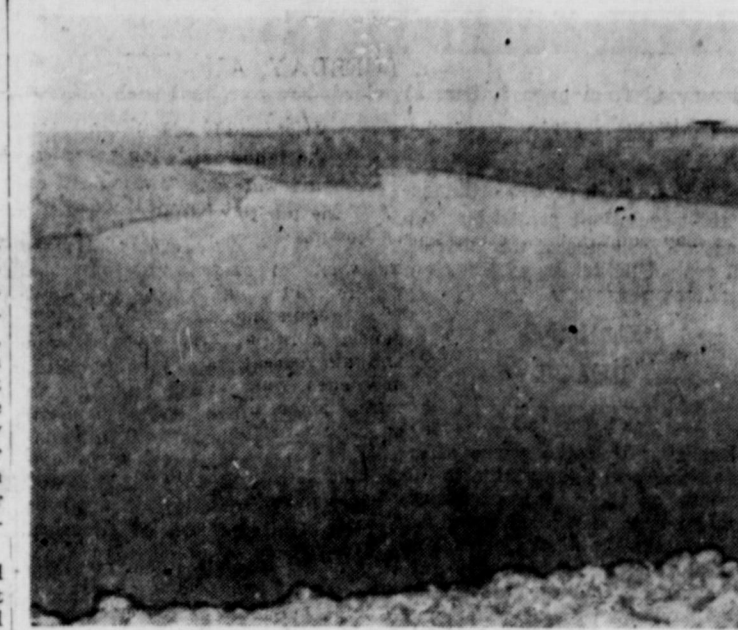

Section 2 SANITATION AND SEWAGE DISPOSAL

(a) No habitations will hereafter be permitted to be constructed within 75 feet measured horizontally from normal water elevation 1375 feet, except boat houses, piers, and docks. Construction located under elevation 1385 must be authorized specifically by the Eastland County Water Supply District. In such instances, owner will furnish the District with an approved release of liability for damages due to floods or any other damages caused by water.

(b) All habitations located along the marginal lands adjacent to Lake Leon shall be provided with a septic tank having sufficient and properly constructed sub-surface disposal facilities, or shall have approved type toilets. All septic tank systems and toilets shall be constructed and installed in accordance with plans and specifications approved by and available through the District.

(c) No swimming will be permitted within 0.5 mile of any water intake. No fishing, boating, hunting, picnicking or other recreational activities will be permitted within 0.5 mile of the water intakes. All water intakes will be kept plainly marked by the District at all times.

(d) If industries are contemplated to be established within 30 miles upstream from the dam belonging to the District, approval of the proposed project by the Texas State Department of Public Health concerning the treatment of wastes is deemed necessary to prevent undesirable conditions from occurring. No slaughter houses, markets, or meat shops where hogs, beefs, or other animals or fowls are slaughtered shall be located where any refuse, discharge or contents thereof of any

WHEN WATER WAS LOW—This shot, taken by Gene Rhodes of Eastland—from the Lake Leon dam—was made before the spring's torrential rains nearly filled the 35-mile shoreline lake. It's quite a different, and better, scene today.

nature whatsoever shall be discharged into the lake, its drains, streams, or tributaries.

(e) All garbage and trash shall be collected and removed from the lake shore by lessees at least once weekly; provided, however, that all trash susceptible of being burned may be incinerated so long as such trash is not allowed to enter the lake. No dead animals, or any part thereof, fish, decayed vegetable, food, ashes, garbage, off-fal, rubbish, or filth of any kind by which its decay or putrefaction could or would become offensive, shall be placed or permitted to be placed or situated in such a manner that it will drain toward or reach the body of water owned and controlled by the District.

(f) It shall be unlawful for any person, group, company, association or corporation to keep, maintain or confine any livestock or fowls, except cats or dogs, on the lots leased from the District or others bordering the lake.

Section 3 BOATS AND DOCKS

(a) Classification of boats:
1. Private Boat—Any boat or boats, raft, or device used and operated upon the waters of Lake Leon for pleasure purposes only and producing no revenue, either direct or indirect, to the owner.

2. Commercial Boat—Any boat or boats, raft or other device used or operated upon the waters of Lake Leon by a person, persons, firm or corporation for the purpose of deriving revenue, direct or indirect, from the use of same.

(b) Classification of docks:

RULES GOVERNING BOATS, RAFTS AND DEVICES

1. It shall be unlawful for any person to use or place upon Lake Leon, any boat, raft, or device prior to payment of a launching fee. Launching fees shall be as follows:

Individual Launching
Fee 50c per day
Annual Launching
Fee \$5.00

2. All boats shall, at all times, be equipped with one life preserver for each occupant. Life preservers shall be of an approved type, adequate to sustain afloat any occupant of the boat.

3. It shall be unlawful for any person to cause, suffer, permit, or allow any boat to be occupied by more persons than the rated capacity of the boat.

4. It shall be unlawful for any person to use or operate on Lake Leon for a protracted period of time any boat having overnight accommodations, if same is used as a domicile or place of abode. No boat or craft having overnight accommodations shall be placed upon or used in Lake Leon unless the same is equipped with approved sanitation facilities.

5. All boats, rafts, and other devices operating upon the waters of Lake Leon after sunset and before sunrise shall be equipped with lights as prescribed in Appendix A to these regulations.

6. All boats, rafts, and devices, operated on Lake Leon, shall, at all times, observe the rules of the road as set forth by the Bureau of Navigation.

A. Right-of-way of boats, rafts and devices shall be as follows:

(1) Rowboats, rafts, and canoes shall have the right-of-way over all other craft.

(2) Sailboats shall have the right-of-way over all power boats.

(3) Outboard power boats shall have the right-of-way over inboard power boats.

B. Reckless driving, driving while under the influence of intoxicants and driving at speeds greater than is prudent for the conditions are strictly prohibited.

C. All operators of power boats shall, upon approach to other boats, reduce speed and pass in such a manner as to prevent damage from wake. All operators of power boats shall be directly responsible for any damages, whatsoever, caused by the wake of their craft.

D. All other rules of the road, as applicable to Inland Waterways, shall be observed at all times.

7. All boats, rafts, and devices used on Lake Leon, shall be self-sustaining, either by patent meth-

ods, air tanks, compartmentation or composition. All inboard power boats shall be excepted from this regulation.

8. All power boats, inboard and outboard, used upon Lake Leon, shall be equipped with an approved underwater exhaust, or with the manufacturer's original type exhaust equipment. This regulation may be waived for a specified period of time upon written application to the District, by an organized unit, for special racing events, water shows, and carnivals.

9. A lake patrolman may require the removal of any boat, raft, or device from the waters of Lake Leon if:

A. Said boat, raft, or device is in an unsafe operating condition.

B. Said boat, raft, or device is in violation of any of the applicable provisions of this ordinance.

Any person refusing to remove any boat, raft or device when so ordered under the provisions of this section shall be deemed guilty of violation of this regulation.

Section 4 FIREARMS

The firing of any rifle or side-arm over the waters of Lake Leon

and on the land around the water's edge is strictly forbidden. No shotgun using larger than number 4 shot shall be fired over the waters of Lake Leon and on the land around the water's edge. It is forbidden that any person shall hunt upon the waters of said lake, upon islands therein, or upon marginal lands thereof, which are under control of this District, in any manner or at any time which may be prohibited either by the laws of the State of Texas or the Laws of the United States of America, whichever may be controlling at the particular time, and in a given instance of hunting.

WATER BOARD LISTS—

(Continued from page 3, Sec. 1)
The same are or may be amended, save and except as specifically provided through proper ordinances and regulations passed by the Board of Directors of the District, will control the taking of fish from Lake Leon.

Section 6 PEACE OFFICERS

Realizing that the peace officers of Eastland County, due to the pressure of their other duties, should not be depended upon for the enforcement of the provisions of this ordinance, it is hereby provided that the General Manager of this District, without other and further order of the Board of Directors, shall be directed, authorized and empowered to employ and establish one or more peace officers of this District. The compensation of any such officer and the duration of service shall be fixed by the Board of Directors, by appropriate orders. Any such peace officer shall be required to give a good and solvent surety company bond, the premium thereon to be payable by the District, in the penal sum of \$1,000.00, payable to this District, which shall be conditioned insofar as is appropriate, in the same manner as is, or may be provided by the laws of Texas with respect to the Sheriffs of counties, but, such bond may contain such other and further conditions as may be deemed by this District to be appropriate. Upon approval of any such bond by the Board of Directors of this District, any such peace officer, insofar as may be appropriate, shall be required to take the oath of office prescribed, or to be prescribed by the laws of Texas as for Sheriffs of counties of this State. The duties of any such peace officer shall be only those authorized by provision of the act of the Texas Legislature creating this District, and this District shall have no liability for any act of any such peace officer, whether within or exceeding the scope of his lawful authority, save in cases where said officer may be acting under express recorded authorization, by this Board of Directors. Every peace officer employed under this ordinance shall be furnished with a commission and a badge to give evidence of his authority to act for the District. Each such peace officer shall have the authority and duty to enforce the provisions of this ordinance and all reasonable rules and regulations adopted hereunder, in like manner as would be the duty of a sheriff enforcing the laws of the State of Texas; provided, however, that such officers may make arrests only when necessary to prevent or abate the commission of any offense against the provisions of this ordinance, or any amendment hereof, or any offense against the laws of the State of Texas, when any such offense, or threatened offense, occurs upon any land, water, easement, or other property owned, or controlled by this District. Any such peace officer, in any event, shall have the power and duty to file specific complaints concerning offenses committed in violation of this ordinance, or in violation of any laws of the State of Texas, or in violation of any laws of the United States of America.

Section 7 IMPROVEMENTS

It is prohibited that any person shall construct, place or maintain any habitation, wharf, dock, boathouse, or pumping station on any lands adjoining Lake Leon, without having first procured from the District a written permit insofar as health and sanitation facilities are concerned. It is provided that the District before issuing any such permit shall approve the plan for the construction of any such improvement and be satisfied that the same will not constitute a violation of any standard of health and sanitation as herein set out, nor a menace to navigation or to persons or to the property of others.

Section 8 PERMITS

No person, persons, firm or corporation shall hunt, fish, or have, use, operate, or maintain a craft or boat in or on the waters of Lake Leon, without having first procured a recreation license from the District. Fees for said recreation license shall be:

- Individual Annual Permit—
Includes Wife \$5.00
- Daily Permit—
Individual 50c

No fee shall be charged for children under 17 years of age. Daily permits shall be considered to be in effect from midnight to midnight. Annual permits shall be considered to be in effect September 1st to September 1st.

"The Socialists will never take over this country. They couldn't afford to pay the taxes!"

Section 9 PENALTIES

The doing of any act forbidden to be done by this ordinance, or the failure to do any act required by the provisions of this ordinance shall be deemed to be a misdemeanor, which, in case of a lawful conviction thereof, shall be punishable by the infliction of a fine of not more than \$200.00, together with the costs of court; provided the fine and costs of court may not exceed \$200.00. The fines collected hereunder, insofar as may not be required for payment of the cost of court, shall be payable to this District and shall be credited to its recreational fund. In case of the assessment of a fine hereunder and the refusal or inability of the guilty persons to discharge any such fine, together with the court costs incurred by reason of the prosecution of the offense, upon order of the Board of Directors of this District, any such person shall be committed to the County Jail to serve out any such penalty at the same rate of credit as would be done to him in case of conviction of a misdemeanor under the laws of the State of Texas. It is provided that no such imprisonment shall be ordered by the court of jurisdiction unless this District makes provision to reimburse the County for the confinement and maintenance of any such person at the same rate per day as would prevail in the case of confinement of a county prisoner, or upon any other basis of a compensation which may be agreed upon between the County Commissioners' Court

and the Directors of this District. The penalty hereby authorized shall be in addition to any other penalty provided by the laws of the State of Texas, or by the laws of the United States of America, and may be enforced or imposed under complaints filed by the District, its peace officers, or any other interested person, in an appropriate court of jurisdiction.

Any person, persons, firm or corporation found guilty of violation of any section or sections of this ordinance shall upon request of the District, surrender his permit or lease for suspension or cancellation by the District. In the event of such suspension or cancellation by the District, any fees which may have been paid by the permittee for such permit, shall automatically be forfeited, and the District shall not, in any event, be liable for the return or refund of any part thereof.

Section 10

It is provided that the provisions of this ordinance shall be in full force and effect five days after the second publication of the notice of this ordinance as required by law.

As evidence of the enactment hereof on this 12th day of July, 1955, witness the signing hereof on this day by Guy Parker, as President of the District, and the attesting hereof by David D. Pickrell, as Secretary of the District, with the imprinting of the District's Seal.

Guy Parker

Attest :
David D. Pickrell

APPENDIX "A"

Prescribing lights for boats, rafts, and devices on Lake Leon.

(1) Rowboats, canoes, and rafts shall carry a lantern, readily accessible, to be displayed upon the approach of other craft. The lantern shall be equipped with a white lens and shall be plainly visible for a distance of one hundred fifty (150) feet.

(2) Sailboats shall carry a fixed white, all around light at its masthead. This light will be plainly visible for a distance of one hundred-fifty (150) feet and shall be displayed from sunset to sunrise. Fixed running lights, red to port, green to starboard, shall be carried and displayed from sunset to sunrise. Running lights shall

be so screened as to be visible only from a point dead ahead to two points abaft the beam on the appropriate side.
(3) Power boats shall carry affixed white, all around light on a staff located near the stern. This light shall be not less than 3 feet or more than 10 feet from the water line and shall be plainly visible for a distance of one hundred fifty (150) feet and shall be displayed from sunset to sunrise. Fixed running lights, red to port, green to starboard, shall be carried and displayed from sunset to sunrise. Running lights shall be so screened as to be visible only from a point dead ahead to two points abaft the beam on the appropriate side.

Planning And Preparation Insures Wonderful, Safe Summer Vacation

The anticipated delight of a family vacation in the country can be marred by numerous mishaps.

What can you do about seeing that it turns out to be the wonderful time you and your family are hoping for? How can you avoid the pitfalls that the vacationer occasionally encounters on the road or while swimming, fishing, canoeing and hiking in the woods? And what can you do toward fulfilling a holiday's ultimate aim of coming back a really refreshed new person?

Prepare for it safety-wise and health-wise as well as pleasure-wise. This is the advice of accident prevention specialists of Employers Mutuals of Wausau, Wis. They offer this list of vacation suggestions because their business is safety, on and off the job.

Careful planning before leaving will help eliminate many common vacation dangers that can occur after you and your family gaily start off for your holiday.

Here are vacation preparation suggestions:

1. Have tires and car checked. A day or two of being without the car is better than getting a flat tire or mechanical trouble on the trip.
2. Pack proper fishing clothes

for protection against wind, sun-burn and insects. Also put a pair of heavy duty cutting pliers in your husband's tackle box to remove fishing hooks which somehow seem to always catch on other things than the fish.

3. Plan for gloves, long sleeves and leggings for hikes in the woods or ward off poison ivy, oak or sumac poisoning. (Incidentally, you can recognize poison ivy by its oval-shaped leaves. They grow in groups of three and the mature plants have white, waxy berries.)

4. Get sunglasses, sun hats and protective sun burn ointments.

5. Take along a complete first aid kit.

6. Put aside some books and games to keep the children from getting restless on the trip.

The auto trip to your destination shouldn't be the part of the vacation you want to get over with in a hurry, say accident prevention specialists. Observe the following to make it an enjoyable part.

1. Take your time and stop a while at scenes that take your fancy such as parks and waterfalls.
2. Avoid fatigue by stopping for regular and light meals, and refreshments. Don't try to drive day and night.
3. Don't distract the driver. If you need his help in studying the map, ask him to pull up at the side of the road.

During a bad storm, get off the road and stop if it's difficult driving, but remember that you're safe from lightning in a car with a metal top.

Once you've settled in your vacation cottage, it's a good idea to establish a restful schedule for your family to avoid "dog days" fatigue, according to accident prevention specialists. Get adequate sleep, follow a diet rich in fruits and vegetables, drink plenty of cool water. Also follow these rules:

1. Sunbathing: Don't bask in the sun more than 5 minutes or so the first day. Avoid sunbathing between 10 a.m. and 3 p.m. when the sun is the hottest.
2. Swimming: Wait two hours after eating. Never swim alone. Don't jump into cool water when overheated. Dive only when you're sure the water is deep enough and free of obstructions.
3. Fishing: Keep the children from fidgeting in the boat. (Water deep enough for fishing is deep enough for drowning.) Bring along a flask of drinking water; don't permit the children to drink lake or stream water. Always sterilize wounds, scratches and punctures suffered from hooks and fish teeth.
4. Boating, Canoeing: Watch out for overloading; have the weight evenly distributed. Non-swimmers should don life preservers.
5. During a Storm: Stay indoors whenever possible; keeping away from the chimney, fireplace and all metal objects. If you are out in a boat, head for shore and run

1954 Baby Crop Hits New High

AUSTIN — Texas' 1954 baby crop turned out to be the biggest on record, the State Health Department's Bureau of Vital Statistics reported Thursday.

The 240,209 live births registered for the year was an all-time high rate of 28.4 births for every 1000 population, bureau statisticians said.

Most of the new babies were boys—104 for every 100 girls—the summary said, but 881 more male babies than females died during their first year.

"The attrition against the male sex goes on steadily through infancy, childhood, adolescence, maturity, and old age," a statistician commented.

How many mothers of 1954 babies were residents of Texas at the time of blessed event is not yet known, but every one of the babies are bona fide Lone Star citizens by virtue of state law.

While birth rates were soaring to unprecedented high levels, deaths from selected causes were being cut to the lowest points in history.

"Last year saw the total death rate (7.7 per 1000 pop.), the infant mortality rate (31.0 per 1000 live births), the maternal mortality rate (0.6 per 1000 live births) and the stillbirth ratio (17.3 per 1000 live births) at new all-time lows," the report indicated.

In addition to the reductions posted in infant and maternal deaths, the report said the past two decades have witnessed drastic reductions in deaths from diseases affecting the general population.

There were 99 percent fewer deaths from each of typhoid fever, diphtheria, malaria, and pellagra last year than in 1934. Scarlet fever rates have been cut by 98 percent from the rate 20 years ago. Ninety-six fewer deaths from each of whooping cough and measles are occurring today than occurred in 1934.

Influenza is claiming 90 percent fewer victims today than it did 20 years ago, while tuberculosis is killing 84 percent fewer people than the 1934 rate. Syphilis rates have been cut 81 percent.

Pneumonia, including pneumonia of the newborn, and intestinal disease, including diarrhea of the newborn, are both 66 percent less of a threat to human life than they

are for a valley or thick grove of trees when lightning starts. Assuring you and your loved ones a safe vacation does entail some planning and preparation but, remember, it's worth the effort.

Exhibits From 9 Nations For Fair of Texas

Nine foreign countries will exhibit at the 1955 State Fair of Texas, Oct. 7-23, imparting a world's fair spirit to America's largest annual exposition.

The nations which have reserved space in the fair's new International Center are Japan, Belgium, India, Egypt, Sweden, France, Great Britain, Finland and the Federal Republic of Germany (West Germany), Fair General Manager James H. Stewart has announced.

Many of the foreign governments are making elaborate plans for their exhibits. Products for which their countries are best known will form the nucleus of most of the exhibits.

For example, Sweden plans to

display business machines, sewing machines, high-powered rifles, hand tools, clocks, and gift items made of glass, copper, brass and ceramics.

Belgium will show a wide variety of goods ranging from delicate table crystal and kitchenware to electric motors and barbed wire.

Japan will feature its new pre-

"Sign of Life" For Pedestrian Is Explained

"Stop on the red, go on the green. Don't sneak through on the in-between!"

This bit of rhyming advice was given today to Texas pedestrians by Mr. E. C. McFadden of Dallas, vice-president of Employers' Casualty Company and president of the Texas Safety Association, Inc.

Mr. McFadden reminded walkers that the Signs of Life program which the Texas Safety Association and Department of Public Safety is sponsoring in cooperation with the National Safety Council this month applies to pedestrians as well as motorists.

"Too many walkers expect drivers to accept all the responsibility for traffic safety," he said. "They ignore the traffic signs and signals provided for their protection, and very often their carelessness costs them their lives."

Mr. McFadden said that last year alone 7,900 pedestrians were killed in traffic accidents. It is his belief that many of these persons might be alive today if they had heeded the Signs of Life.

According to Mr. McFadden, some of the unsafe practices indulged in by these unfortunate walkers were: crossing against the signal at intersections, crossing intersections diagonally, and crossing intersections diagonally, and crossing between intersections.

"Such careless actions invite disaster," he said, "and our pedestrian death toll will remain high as long as walkers have so little regard for their own safety."

Mr. McFadden urged all Texas walkers to make it a habit to obey traffic lights at intersections and signals at railroad crossings, to cross only at intersections whenever possible, and to use crosswalks when they are provided.

Leon Due To Frove Angler's Paradise

Fisherman's paradise—that's what Lake Leon probably will become.

Fish, in sizable quantities, have been put into the lake over a period of a year and a half and conditions have been favorable in the extreme for their welfare.

They're bass and catfish, totalling around 250,000. Some were put in as late as May of this year.

And the State Game, Fish and Oyster Commission has advised the Water Board that it will restock as often as necessary.

However, the lake is considered as most adequately stocked, for a good while.

It is believed that some of the fish stocked in the first ground will weigh up to 3 pounds or more.

And it is possible that a number of much larger fish abound in the lake, as there were some sizable ones in the Leon River when the dam was built and, also, when water in times of heavy rainfall is let through the gate at the Leon Plant of the Texas Electric Service Company, a few fish come through from the long-established lake there.

About the time the first batch was put in the lake some good rains came and the same favorable circumstance developed in May, this year, the month in which the latest stocking of the lake took place.

As fishermen know, this spread the lake and thus brought into it much additional food for the fish.

When Sept. 3—the opening day for fishing at Leon rolls around—there'll be plenty of fishermen on hand... and especially on Fishing Rodeo Day, the 4th.

Many of them then, and later, will be from distant points, it is predicted by lake authorities, for anglers get a great kick out of migrating afar to try their luck.

Des Moines, Iowa, city fathers announce that the city's new dog tags will be shaped like fire plugs. No word as yet about marriage licenses printed on ball-and-chain-patterned paper.

British firm tells the International Atomic Conference at Geneva it will sell atomic reactors for about \$210,000 each. American firm says its models will go on sale for about \$200,000. Fission for business?
