Reds, Indians May Provide Some Thrills

Both Teams Look Stronger Than Last Year When They Led Their Leagues For a While.
By GEORGE KIRKSEY
United Press Staff Correspondent
NEW YORK—Two ball clubs hard to classify are the Cincinnati Reds and the Cleveland Indians. They have all the earmarks of "dark horses."
Both clubs got away fast last season, actually leading the major leagues at one time but they finished poorly—the Reds in fifth place with a percentage of .513 and the Indians in seventh place with a percentage of .403 due to a series of unfortunate breaks during the first two months.
Although the Reds are generally regarded as a second division club this season, Jack Hendricks may get his team "up there" on pitching and defensive strength.
The Indians probably have been strengthened more than any other American League club and may crowd their way into first division in a wide-open race.
Most baseball fans apparently have forgotten that the Reds were leading the National League race last season until Red Lucas broke his left arm. Adolfo Luque went down with tonsillitis and Jackie May became useless for the remainder of the season.
It is conceded that the Reds have one of the best defensive clubs in baseball—perhaps the best in the National League—and, if the pitching staff functions as Hendricks expects it to, Cincinnati is not going to be a "softy" for the Giants, Cubs, Cards and Pirates.
Hughie Critz and Horace Ford, the National League's leading double play combination, are working together better than ever this spring. The outfield looks better than last season with Evar Swanson considered a "find." The catching will be good even without Val Pichnis, who is still a hold-out.
The Reds have six able pitchers in Lucas, Luque, May, Donohue, Rippey and Kolp.
It appears that the Indians have the makings of a formidable baseball machine. The millionaire owners are making earnest efforts to build up a winner at Cleveland and they seem to be on the right path.
The Indian outfield is perhaps 50 per cent better than it was last season. Earl Averill, the San Francisco rookie, is far superior to Langford as a fielder and hitter, and Dick Porter, the \$45,000 Baltimore boy, is apt to prove a better player than Homer Summa. Bib Falk who was dissatisfied with the White Sox, promises to help

WHEN A CHILD IS FEVERISH, CROSS, UPSET

Colic, gas, sour belching, frequent vomiting, feverishness, in babies and children, generally show food is souring in the little digestive tract.
When these symptoms appear, give Baby a teaspoonful of Phillips Milk of Magnesia. Add it to the first bottle of food in the morning. Older children should be given a tablespoonful in a glass of water. This will comfort the child—make his stomach and bowels easy. In five minutes he is comfortable, happy. It will sweep the bowels free of all sour, indigestible food. It opens the bowels in constipation, colds, children's ailments. Children take it readily because it is palatable, pleasant-tasting.
Learn its many uses for mother and child. Write for the interesting book, "Useful Information." Address: The Phillips Co., 117 Hudson St., New York, N. Y. It will be sent FREE.
In buying, be sure to get genuine Phillips Milk of Magnesia. Doctors have prescribed it for over 50 years.

Expert Sums Up Outlook In Both the Major Leagues

Thinks Giants Are Team That Must Be Beaten in the National and Yankees Lead in the American.

By GEORGE KIRKSEY
United Press Staff Correspondent
NEW YORK, April 9.—Sizing up the sixteen major league teams a week before the opening of the 1929 baseball season, we expect no radical reversals from last year's form in the two pennant races beginning next Tuesday.

The New York Yankees and Philadelphia Athletics may have slipped a little, yet that remains to be seen, for training camps evidence sometimes proves misleading. They are quite likely to battle for the pennant again.

The New York Giants and Chicago Cubs are favorites in the National League race, with the St. Louis Cardinals possibly figuring importantly in a close race.

The American League teams in a nutshell follow:
Yankees—Same old tough team to beat. Possibly improved pitching with Pennock back. Catching will be weak until Bengough returns. Spirit of club good as players really want to set a new American League record of four straight pennants.

Athletics—No better than last year, with a patched up infield and a crippled pitching staff. Inferiority complex of A's when they play the Yankees turned the tide of race last year and Philadelphia can hope for no better than second place unless it does better than six out of 22 against the Yanks this season.

Washington—A dangerous club under Walter Johnson's leadership. Myer at third and Blosie at shortstop have strengthened the infield. Pitching good. Will have to be watched all the way.

Browns—Failure of a rookie third baseman to make good hasn't brightened Browns' prospects. Gray and Crowder will have to repeat last year's records to keep Browns up there.

Detroit—A good team but can't play for Moriarty to play for him? Plenty of punch but pitching rather doubtful.

Cleveland—Completely reorganized and may spring a surprise. Too many left handed hitters in lineup but if all changes pan out well, the Indians may go some place.

White Sox—Stronger in outfield but pitching and infield about the same. Blackburn will have trouble trying to keep disension from cropping out again. Red Sox—Many changes and likely to get out of cellar if White Sox flop.

The National League teams in a nutshell follow:
Giants—Greatly improved team over last season. Moys and Walker figure to strengthen pitching staff. Welsh, Ott, Hogan, O'Farrell all look better than last season. Leach will add strength. Looks like a club to beat.

Cubs—Are the Cubs stronger with Hornsby or aren't they? McGuire played a great defensive game at second last season and the Cubs may miss him, although Hornsby will add power. Third base is a weak spot and pitching staff is no stronger.

Cards—Showing of Cardinals likely to depend on what veteran pitchers do. Revamped infield uncertain. Outfield stronger than last year.

Pittsburgh—A great offensive team but defensively none too strong. Traynor's hip injury and Paul Waner's holdout tactics have retarded the Pirates. Petty will strengthen pitching staff.

Cincinnati—Have no punch but may be troublesome if veteran pitchers function properly. Third base is a weak spot. Kelly slipping at first base.

Brooklyn—Not as good as last year. Pitching staff weaker and injuries to Wright, Flowers and other players have weakened team.

Braves—Worst looking ball club in either league.
Phillies—Thevenow's injury cost Phillies' chance to climb to sixth place and maybe higher. Young, hustling club but can't go any place without pitching.

ing pains would start in my left side, and extend up into my shoulders, and many a time I had to sit down, or go to bed, until the "spells" had passed.

"Then, I commenced to suffer with stomach trouble. After eating, hard pains would come in the pit of my stomach, and everything I ate disagreed with me. I had taken so many medicines without any lasting relief, and was so tired, worn and distressed with pain, that I was on the verge of despair. But I will never cease to be thankful for giving Sargon a chance, and I am still marveling at the relief this wonderful medicine gave me. If it had done nothing but end my neuritis, that would have been enough, but it helped me in every way, and I am feeling better than I have in years. My appetite is back, I eat and enjoy hearty meals, and nothing disagrees with me. Every ache and pain is gone, my strength and energy have returned, and I feel like a different woman in every way.

"While the Sargon tonic was building me back my strength, Sargon Soft Mass Pills cleansed my system of poisons, by stimulating my liver and regulating my bowel action. I can never say too much in praise of this wonderful new treatment."

The above statement was made recently by Mrs. Gertrude McDonald, highly esteemed resident of 737 Melba St., Dallas.

MAY SOLVE OLD CRIME

FALL RIVER, Mass.—Police awaited the report of Dr. F. W. Boos, Harvard medical school pathologist, to determine whether a stained and rusty axe, found in a barn here Saturday, was the weapon used in a double murder committed nearly 37 years ago.

The axe was discovered by workmen razing the old Borden barn, which stood near the house where Andrew J. Borden and his wife were slain on Aug. 1892. The murders never have been solved.
