BYRD FINDS NEW REGION

NEW YORK, Feb. 21 — The New York Times, the St. Louis Post - Dispatch and their associated newspapers announced last night that Commander Richard E. Byrd, in an extensive air plane flight made with two planes Monday, discovered a vast new territory in the Antarctic which he claimed for the United States and named, for his wife, Marie Byrd

Commander Byrd also had discovered a second new mountain range, east and south of the first discovered by him recently and named the Rockefeller range. That range is within territory claimed by the British and known as the Ross dependency.

The new range discovered Monday is larger han the first and contains peaks between 8,000 and 10,000 feet high. It is outside the limit of the British claim and is in New Marie Byrd Land, which lies between Ross sea and Graham

About 40,000 square miles of anterctica have been explored from the air by the Byrd expedition. In the last flight, the Rockefeller range was mapped by earo cameras, the entire new section was sketched and the uncharted coastline east of the Bay of Whales was mapped by Captain Ashley McKinley of the army air service, who was in the second of the two airplanes that made the flight.

HOW TO FIGHT

There are hard ways, like starvation, but fewer and fewer employ them. There is a pleasant way, modern and scientific, which combats the cause. A vast number of people now use it. And the slender figures now seen everywhere are largely due to that.

That method is embodied in Marmola prescription tablets. People have used them for 20 years—millions of boxes of them. And everybody, in almost every circle, sees the change. New beauty, new health, new vitality.

Each box of Marmola contains the formula, also the scientific reasons for results. So users have no fear of harm. Learn the facts about Marmola, because of the good it has done. Ask your druggist—now—for a \$1 box with the book. Then decide.

little one is at case. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. Perfectly safe to give the youngest infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most. Some night when constipation must be relieved—or colic pains—or other suffering. Never be without it; some mothers keep an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.
