Remember the old nursery rhyme: "To market to market to buy a fat pig ... -and home again, home again dancing a jig!"

There's a reason for that nursery rhyme! Since our pre-historic ancestors laid in the day's provisions by hunting the dinosaur, meat has been the foundation of the housewife's menu.

But dinosaurs are out of date, and we no longer are forced to hunt for meat. Our meat shops offer a variety of fresh meats every day. Those meats have been prepared, by sanitary methods, for your table.

Eastland housewives can be assured that they are getting fresh meat the year around—in warm days as well as cold, from any Eastland grocer who handles meats.

Our meat markets are unusually modern and up-to-date. As provisioners for your table, they are giving you conscientious service.

Something sensible. "Better to light a Lucky whenever you crave fattening sweets." It brings to men the health and vigor that come with avoiding overweight. To women it offers a slender, fashionable figure.

20,679 physicians have stated that Lucky Strike is less irritating to the throat than other cigarettes. Very likely this is due to toasting which removes impurities. This same process, toasting, improves and develops the flavor of the world's finest tobaccos. This means that there is a flavor in Luckies which is a delightful alternative for the things that make you fat. That's why "It's Toasted" is your assurance that there's real health in Luckies-they're good for you!

Keep fit-reach for a Lucky instead of a fattening sweet. That's what many men have been doing for years. They know the evidence of prominent athletes whose favorite cigarette is Lucky Strike and who say Luckies steady their nerves and do not impair their physical condition.

A reasonable proportion of sugar in the diet is recommended, but the authorities are overwhelming that too many fattening sweets are harmful and that too many such are eaten by the American people. So, for moderation's sake we say:-

> "REACH FOR A LUCKY INSTEAD OF A SWEET."

It's toasted No Throat Irritation-No Cough.
