Texans Look At Russia Slides To Be Shown At EHS Monday Night

A benefit color slide presentation "Texans Look at Russia" will be shown, Monday, Sept. 23 at 7:45 p.m. at the Eastland High School Auditorium.

H.V. and Gay Nell O'Brien will show slides and tell of their summer trip with the Texas Press Association's People - to peopletour to two cities in Russia, one in Ukraine, East and West Berlin and to four other European cities.

Tickets are on sale now and may be purchased from members of E.H.S. Student Council or the Women's Clubs. Admission will be \$1.00 for adults and 50 cents for students. Tickets will be available at the door.

The 23 day tour included Amsterdam, Holland, Zurich

and Lucerne, Switzerland; Moscow, Leningrad, Kiev, USSR; East and West Berlin, and Madrid, Spain.

Proceeds from the presentation will be shared by the newly formed Eastland High School Student Council and the Eastland Women's Clubs for repair to the clubhouse.

This will be the first public showing of the films.

Doyle Maxwell Named Manager For New TESCO Department

C.D. (Doyle) Maxwell has been named as manager for a new department in Texas Electric Service Company's Eastland division area. Division Manager Frank N. Sayre has

DOYLE MAXWELL
...Manages New Dept.

announced. The department will be composed of the former customer service department and the utilization department. Maxwell will be responsible for all customer services in the division, including both inside and outside customer service representatives.

A graduate of Big Spring High School, he has been with TESCO for the past 22 years. He started with the company working part-time while in high school. Following graduation, he participated in the company's school-work program, working part-time and attending the University of Texas at Arlington part-time.

After receiving an associate electrical engineering degree from UT-A, he began full-time work at the Big Spring service center. He moved into the sales department there in 1966. Two years later he transferred to Fort Worth as a marketing specialist and later was named a utilization representative in the general sales department.

Maxwell is a member of the Institute of Electrical and Electronics Engineers, the American Petroleum Association and the West Texas Oil and Gas Association.

He and his wife, Rhama, have three daughters: Dena, 18; Debbie, 14 and Sue, 8.

BIRTHS

Mr. and Mrs. Audrey Tucker of Abilene announce the birth of a son Cory Lynn born Friday, Sept. 20, at 7:12 p.m. in Hendrick Hospital. Cory weighed 7 lbs. 1 oz.

Paternal grandparents are Mr. and Mrs. Joe Tucker of Nimrod. Maternal grandparents are Mr. and Mrs. Tommy Baker of Carbon.

Great Grandparents are Mr. and Mrs. J. Earnest Lindsey of Dallas and Mrs. Elva Baker of Eastland.

Congratulations to Mr. & Mrs. Emory Walton on the birth of a son, David Allen, at 1:00 p.m. Tuesday. David Allen weighed in at 6 lbs. 3 oz. The Waltons did not expect David to make his debut until the latter part of September and all was carried on as usual, with his father attending the Democratic State Convention in Austin. Although a call had been placed for him, he did not receive it, and called home to see if all was well. Expecting to hear the usual, all's well, he was told he had a son. Mr. Walton left the convention and hurried home to join Melinda 10 and Karen Sue 4 in the welcoming of David Allen. Maternal grandmother is Mrs. Lillie Hunt of Eastland and Paternal grandmother is Mrs. Lida Walton of Goldthwaite, Texas.

Following the set back and two ground plays by the Mavs, quarterback Wheat throws a pass which finds the arms of Maverick Brent Parker open and waiting, who then flies for 70 yards and the Mavericks first score. Morris extra point kick is good and the score stands Eastland 7 and De Leon 6.

Following the kick from Eastland the Bearcats down the ball at their 20 yard line after a fifteen yard run from their goal. The Bearcats then run a couple of plays before connecting a pass which brought up a 25 yard run. After three more plays by De Leon they are forced to kick. On the kick the Mavericks were penalized 15 yards for clipping, which gave the Bearcats yardage enough for a first down. On second down Smith

Mavericks Lose To Bearcats 26-20

A person should not expect to see a harder hitting or a more closely matched ball game than the one viewed by Maverick and Bearcat fans Friday night in Maverick stadium. Two ball clubs with differing power potentials, the Mavericks, lighter than most teams faced so far, but very quick and tough, and the Bearcats with a good size range, maybe slower but just as powerful as the Mavs. One would only have to guess that it would be a close scoring and deciding game, but after the two teams squared of the Mavs fell short of their goal to defeat the DeLeon Bearcats by a score of 26 - 20.

The Mavs differed somewhat from the way they looked in the two games preceding Friday night's game, in that they suffered more penalties and fumbled which made some difference, in the final tally. The penalties were mainly offsides, which dealt five yard blows to the Mavs at key periods in the game, and the fumbles were in rhythm to the ones the Bearcats made.

The game opened with the Mavericks winning the toss of the coin and electing to receive from the north end of the field. And after three plays on their first drive Maverick quarterback Gary Wheat is dropped behind the line of scrimmage, forcing the Mavs into a punting situation. If one thing stood out for the Mavs, Friday night it was the punting and place kicking of Tommy Morren, and it didn't take the Bearcats long to find this out also, because on Morren first punt the intended receivers stood and watched the ball go sailing over their heads, which didn't leave them much time for running the ball back.

But as De Leon took possession of the ball for the first time fans that became aware of the fact that this was going some ball game to watch. DeLeon took the ball and paraded down the field towards the goal, and in very little time had arrived at the Mavs ten yard line where Bearcat quarterback Craig Smith handed the ball to James Hodges weighing around 155 pounds who put the first points on the board, the extra two point conversion was no good, and the score Eastland 0, and DeLeon 6 was the way it looked at the end of the first quarter.

The second quarter opened with De Leon facing a second down and five yards to go at the Eastland 43 yard line, on the play Smith hands off to Hodge once again and he scrambles 30 yards into touchdown territory, but on a play from Smith the ball is fumbled and Eastland recovers and takes the ball at their five yard line.

The Mavs move about six yards before Morren has to punt, this time for 55 yards. The ball is recovered at the Bearcat 25 yard line, and the Bearcats after three plays are also in a punting formation.

On the punt Eastlands Mike Stuts and the Mavs specialty teams defensive line show their perfect execution, but to only have the ball brought back 15 yards on a clipping penalty against the Mavs.

Following the set back and two ground plays by the Mavs, quarterback Wheat throws a pass which finds the arms of Maverick Brent Parker open and waiting, who then flies for 70 yards and the Mavericks first score. Morris extra point kick is good and the score stands Eastland 7 and De Leon 6.

connects to split end Marney Wilkerson, for another Bearcat touchdown. And at the close of the half DeLeon 14, Eastland 7.

A half time performance which was equal to the ball game had spectators glued to their seats, and applause was often. But following the half time performance the fans were even more captivated by the pep talk the Bearcats must have experienced during the breather at the half.

The Bearcats took the kick off at their own 30 yard line, and then rolled down the field on passes and hard running from, full back Johnny Golden and Hodge to the Eastland 30 yard marker, where Smith and Wilkerson team up with another pass play which with the extra point no good, left the score board reading Visitors 20, Home 7.

After a couple of ball turnovers the Bearcats had the ball once again this time late in the third quarter. They moved the ball to mid field where several running and passing attempts proved fruitless, and were forced to punt.

On the punt return the Mavs went to work on their fine execution again, this time the return featured Randy Wharton, who scrambled 60 yards down the side lines for the Mavs second score of the night. At the end of the third quarter, Eastland 14, De Leon 20.

Most of the fourth quarter rambled on with the two teams exchanging the ball, and fumbles. Some of the fumbles and pass interceptions were slightly comical, one team would fumble then the other would recover only to have on the next play a fumble themselves.

Late in the fourth quarter the Mavs had regained possession of the ball following a punt at their 10 yard line. From the 10 Mavs quarterback Wheat under heavy attack fires a pass to an intended receiver to have it picked off by De Leons quarterback Smith, who read the play very well, for another Bearcat touchdown. With a little over one minute remaining in the game the score Eastland 14, De Leon 26.

At this stage of the game most ball clubs would have given up but not the Mavs. They took the kick off and moved with it to their own 33 yard line, utilizing the time outs they had remaining. Then on a third down play Wheat rifles a pass to end Brent Parker who trots for 50 yards before being brought down. This left the Mavs at the Bearcat 5 yard line, where a simple hand off to Morren was all that was needed for the Mavs final score. Eastland 20, De Leon 26.

This weeks outstanding players for the Mavericks were, Gary Wheat, Rex Morgan, Brian Haun, Tom Morren, John Marshall, Bryce Garrett, Brent Parker, Mike Stuts, Bert Elliot, John Hart, Isaac Orozco, Clay Wheat, Billy Daniel, Dennis Lopez, Mike Lewis, and Randy Wharton.

A 2 - 1 Record thus far is certainly nothing to be ashamed of and with the offensive line and defensive line ups for the Mavericks still healthy, a district 9 - AA title is not out of reach.

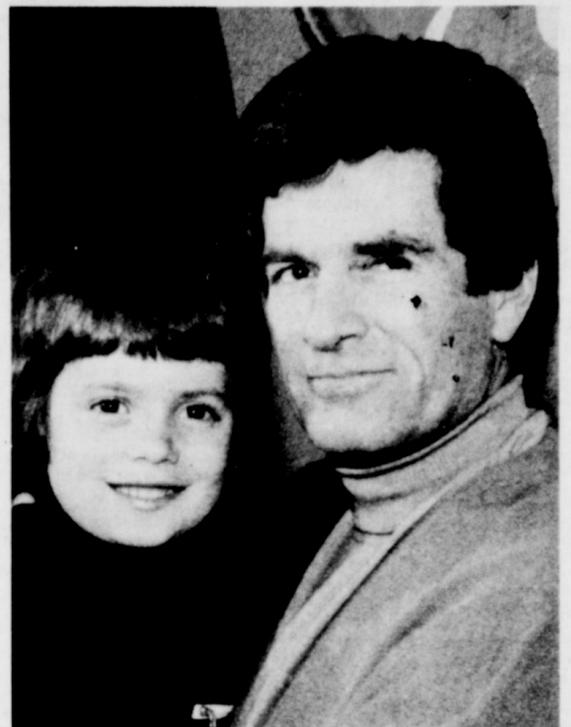

Don't forget the Eastland Mavericks host Albany next week in Maverick stadium starting time 8:00.

Williford Service Pend

Benjamin F. Williford, 86, of Eastland, died at 1:50 a.m. Thursday in Eastland Memorial Hospital after a long illness. Services are pending at a De Quency, La., funeral home.

Born Jan. 28, 1888, he married Alice Fuller March 20, 1968, in Eastland. Mr. Williford was a retired Pentecostal minister and a Bible teacher.

Survivors are his wife, five daughters and a son.

Cowboy Band Due Here Thursday For CF Benefit

Hugh O'Brien is the national chairman for the 1974 Breath of Life Campaign. Joining him are Doug Sanders, Texas Chairman, and Mary Bingham, Eastland chairwoman, in a campaign to educate the public about Cystic Fibrosis and to collect donations for the National Cystic Fibrosis Research Foundation's diagnosis, treatment, and research efforts. Centers throughout the United States with an affiliation with the National Cystic Fibrosis Research Foundation are treating over 25,000 young patients with diseases like Cystic Fibrosis, chronic bronchitis, bronchiectasis, faulty lung development, recurrent or persistent pneumonia, as well as other lung problems and gastrointestinal problems related to cystic fibrosis.

Cystic Fibrosis, an inherited disease, is believed to be the most serious lung - damaging disease. Of diseases that kill children, lung disease is second only to cancer. Cystic Fibrosis is inherited when both parents possess a recessive gene for the disease.

Ms. Bingham and the Hardin - Simmons Cowboy Band have planned a benefit concert for Thursday, September 26, 7:30 p.m. Ross Morgan has generously offered the use of his Majestic Theater for the concert, in lieu of running the first feature of the scheduled movie on the 26th.

The Cowboy Band and Mr. Morgan are giving generously to the Breath of Life Campaign. Our donation is the easiest of all; For a \$2.00 admission price - \$1.00 for children under 12 - we are privileged to hear the Hardin - Simmons Cowboy Band in concert. A small price to pay to help in the fight for lung - damaging disease and to hear the internationally acclaimed Cowboy Band.

Mr. Dickson replaces Store Manager Frank Murphy who has resigned to move to Carlsbad, N.M., where he and his family will open their own food service business.

Joining the goodyear Co. eight years ago, Mr. Dickson has been Commercial Sales Manager here, having come to the Eastland store in June of 1969. He and his wife Ann live at 1400 Ave J, in Cisco. They have two children, Lynette, 13, and Brent, 9.

Mr. Murphy came to East-

Glenn Dickson Named New Store Manager For Good Year

Mr. Glenn Dickson, veteran Goodyear Service Co. employee has been named manager of the Eastland Goodyear Service - Store at 406 E. Main St., according to an announcement this week.

Mr. Dickson replaces Store Manager Frank Murphy who has resigned to move to Carlsbad, N.M., where he and his family will open their own food service business.

Joining the goodyear Co. eight years ago, Mr. Dickson has been Commercial Sales Manager here, having come to the Eastland store in June of 1969. He and his wife Ann live at 1400 Ave J, in Cisco. They have two children, Lynette, 13, and Brent, 9.

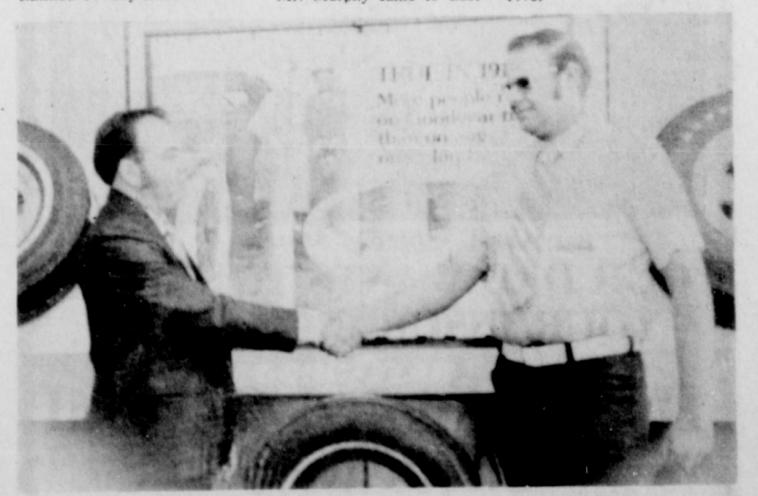

Mr. Murphy came to East-

land as manager in December, 1971. He and his wife Connie have lived at 514 E. Conner St. They too have two children, Frank Jr., 12, and Marjorie, 14.

The new management becomes effective Monday morning according to Goodyear District Manager, E.E. Douglas of Dallas, who made the announcement.

Other Eastland store employees are Mrs. Bill (Nancy) Pryor, credit and operations assistant; Everesto Jimenez, Incentive Salesman; Darby McCrary, Service Manager, and Joe Flores, Mechanic.

The Eastland store first opened in December of 1961, and moved to its present new store location in September of 1970.

Sam Kimmell Local Chairman For Cattleman's Round-Up

Rancher Sam Kimmell of Cisco is the local chairman for the annual Cattleman's Round-Up for Crippled Children in their fund raising project for the West Texas Rehabilitation Center in Abilene. He advises local cattlemen and citizens who have livestock or cash donations to call him at 442-1092 and he will arrange for a pick up. The Cattle Sale will be held at 1:00 p.m. Monday, Sept. 30, at the Ranchers and Farmers Livestock Commission in Abilene. Mr. Kimmell has been advised by Charlie Morris, general chairman of the project, that the pledges of livestock are running ahead of last year, but at this point they are not running ahead enough to make up the price differential from last year's market. Mr. Kimmell and Mr. Morris hope that those who have helped in the past will give an extra head or two this year and that those who have been unable to contribute in the past will be able to help them out this year in order to make up the price differential. The people working in the Round-Up realize that this has been a rough year on the cattman and that the livestock which is donated will be a real sacrifice.

The West Texas Rehabilitation Center is a private, non-profit treatment and diagnostic center serving the handicapped of the Southwest. The Center has served more than 21,000 individuals since it began operations on August 15, 1953. All donations are tax deductible.

West Texas Rehabilitation Center Awarded \$45,000 Contract By RMP Of Texas

West Texas Rehabilitation Center has been awarded a \$45,000 contract by the Regional Medical Program of Texas (RMPT) to develop a rural rehabilitation patient referral network for the West Texas Planning Region. The contract covers the 1974 - 75 fiscal year.

Staff of the rehabilitation center will initiate and develop an organized system for educating physicians and other health care personnel in identifying orthopedically and neurologically handicapped conditions in patients and the need for improvement in interim care and early referral for diagnostic and rehabilitation services.

This system is being reviewed and activities organized at planning conferences at the West Texas Rehabilitation Center. Participants include physicians, hospital and nursing home administrators and other public health officials within the West Texas Planning Region counties. Inservice

education workshops also will be held for health care personnel from hospitals and other health care facilities in Snyder, Sweetwater, Stamford, Breckenridge, Ballinger, Haskell and Eastland.

As part of continuing education activities, videotapes and slide presentations will be produced to encompass techniques of patient identification, methods of interim care and types of rehabilitative services that are available. A resource library of audiovisual materials for inservice education will be developed and maintained at the West Texas Rehabilitation Center. In addition, a monthly newsletter

will be produced and distributed for continuing education and professional communication and a directory of rehabilitation services will be provided to agencies in the referral network.

To perform ongoing evaluation of program effectiveness, a nurse trained in rehabilitation will make regular visits to each participating facility. The rehabilitation nurse will insure that home programs are being carried out and will assist in expediting referrals of the regional elderly, infirm and handicapped to rehabilitation facilities.

Should You Buy Your Home Now?

Dr. Arthur L. Wright

Research Division
TRERC

Most people are aware of the rising cost of housing, in addition to other necessities, such as food, clothing and transportation.

In deciding whether or not to buy your home now, several factors should be taken into consideration, including cost changes relative to your income, and possible future changes.

Market Value Trends

The current market value of a typical new single-family home built in the U.S. in 1974 is about 250% (or 2 1/2 times) greater than it was in 1958.

The 1958 dollar, however, had more purchasing power than the 1974 dollar has. If adjustments are made to allow for the rising price level of goods, so that the purchasing power of the dollar is the same for both years, the (constant dollar) housing cost is 155%, or about 1 1/2 times greater.

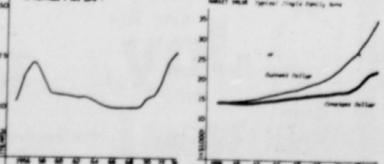

Although the trend, in current or constant dollars, has been upward since the mid-1940's, two other factors should be recognized.

First, today's houses are about 10% larger than the typical new house built in the 1950's and have several amenities not in the earlier homes. For example, it was a very rare house which had central air conditioning, a built-in oven, garbage disposal, automatic dishwasher and wall-to-wall carpeting. Today, these items are considered to be "standard equipment."

Second, the cost figures alone do not reveal the welfare of the property owner. The housing cost needs to be considered in relation to his income.

Market Value & Income

A comparison of the cost of a new home to the number

of years of total after-tax (disposable) income required to purchase. It shows a general decline in the 1960's with 1970 marking the beginning of a cost increase that has continued through the present.

It takes 20.6% longer to buy a comparable house today than it did in 1960. Slightly over 2 1/2 years of disposable income required for housing may or may not look good, depending on the point in history used as a reference. It took over 3 1/2 years to earn a house during the depression, but only a year and a half at the end of WW II.

In relation to income, the trend in current building costs again appears to be upward.

Then Why Buy?

Home ownership provides one of the few tax shelters available to a middle income family. For most families, the home constitutes the largest single investment they will ever make and the interest paid is a tax deduction. The magnitude of this feature is substantial. For example, a \$30,000 mortgage at 9% for 30 years would require principal and interest payments of approximately \$2,900 each year.

Approximately 93% of the first year's payment is tax deductible, and it is not until the 22nd year that less than half of the annual payment is a tax deduction.

The first year tax deduction amounts to \$2,691.90. The significance of this deduction depends upon the tax bracket of the individual. To someone in the 25% bracket, the benefits would amount to \$672.90. The higher the tax bracket, the greater the savings.

The cost of ownership can be considerable, but so is the alternative of renting. The total cost of the 30 year mortgage will be almost \$87,000, of which more than 65% will be a tax deduction. None of the rent payment is deductible. The tax advantage of home ownership, and forced saving due to the monthly payments and capital gains potential of the property, represents a major source of wealth for many families after a few years of ownership.

Buy Now or Later?

Some economists think that interest rates will decline in the near future, causing many people to wonder if they might not be better off to wait before buying or building. Two factors should be considered in this decision.

First, the interest rates generally referred to are short-term bank rates rather than long-term home mortgage rates. The conditions which determine short-term rates are considerably different than those determining long-term rates.

Inflation is currently eroding the value of the dollar by more than 10% per year and many economists expect an inflation rate of 7% to 8% for the next several years. In terms of real purchasing power (rather than current dollars), lenders are actually paying the mortgage for borrowing money. It is difficult to see how long-term mortgage rates can come down very much until inflation pressures are suppressed. Your wait may be a long one.

Second, even if mortgage rates should decline in the next few years, would it still be cheaper to wait? The answer depends upon the rate of appreciation of existing homes and the magnitude of the decline of mortgage rates.

The price of existing single family houses in the southern region of the nation has increased 10% or more every year for the past five years. The median price

of such houses in 1969 was \$20,830. The April, 1974, price was \$32,570. Considering materials and labor costs trends, a 10% appreciation rate in years to come does not appear unrealistic.

A house bought today for \$35,000 with a 10% down payment and an interest rate of 9 1/4% for 25 years would have a \$31,500 mortgage and monthly principal and interest payments of approximately \$270. If a person waited two years to buy the same house (which has been appreciating 10% per year), the price would be \$42,350. A 10% down payment would amount to \$4,235 and result in a mortgage of \$38,115. In the unlikely event that interest rates should drop to 7 1/4%, the monthly payments would be nearly \$276, or \$6.00 per month more than the mortgage with the higher interest rate but lower principal amount. If interest rates didn't drop, payments on the same house would run \$326 per month—nearly \$67 per month more than two years earlier.

| BUYING IN . . . | 1974 | 1976 | 1976 |
|-------------------------|-----------|------------|------------|
| Interest Rate | 9 1/4% | 7 1/4% | 9 1/4% |
| Sale Price | \$ 35,000 | \$ 42,350* | \$ 42,350* |
| Down Payment 10% | 3,500 | 4,235 | 4,235 |
| First Mortgage 25 Years | 31,500 | 38,115 | 38,115 |
| Total Cost | 84,428 | 86,938 | 102,158 |
| Monthly Payment | 269.78 | 275.50 | 326.42 |
| Difference | | | |
| Total Cost | -- | + 5,608 | + 17,730 |
| Monthly Payment | -- | + 5.74 | + 56.65 |

* Price Based on Est. 10% Building Cost Increase per Year.

Waiting Could Be Costly

The above example is an oversimplification and does not consider the owner's alternative uses of his time and money, his ability to make repairs, his net worth, or his future income expectations. However, it does illustrate the point that house appreciation rates would have to slow down considerably, or mortgage rates would have to fall much lower than they probably will in order to justify postponing the purchase of a home.

This doesn't mean that everyone should buy a house. It means that if you're going to buy, there appears to be little reason, outside of extenuating personal circumstances, for waiting until later.

Gordon Spot

The peanut outlook is much brighter than it was in July here in Eastland County. Some are predicting good yields, but all agree that PRODUCTION WILL NOT BE AS GOOD AS IT WAS LAST YEAR. Too many fields have poor stands. These poor stands were caused by Dry weather and blowing sand. It is estimated that over 2,000 acres of peanut allotment were never planted because of the weather conditions.

Leaf spot has not been a problem this year but conditions are now ideal for the disease to invade peanut fields. Growers are already applying fungicides to protect the leaves from this costly disease. The lesser cornstalk borer has been a big problem in peanuts, but with moisture in the soil this problem has lessened.

Seven Eastland County pecan growers received ribbons at the Texas Pecan Show held in El Paso last month. James Alexander whose orchard is at Pioneer, won three state ribbons. They include third place, John Garner, second place Texas Prolific, and third place Kincaid. The first place Kincaid ribbon was awarded to Terry Stacy of Carbon.

Dale Carlile of Cisco won second and third place ribbons

on variety seedlings. Warren Carlile of Cisco won first place in the state show with his entry of Texas Prolific.

Mrs. D. C. E. Smith of Rising Star won first place in the state show was exhibited by Le Roy Livingston of Rising Star.

The biggest honor won by an Eastland County grower was Reserve Champion Native. It was won by Jack Seter of Rising Star.

Many people are asking why their pecans are falling ever since the good rains. During the periods of extreme drought, pecan nuts begin to form an abscission layer at their point of attachment. This attachment layer is activated by moisture buildup in the stems, which builds up internal turgor pressure and consequently, causing the nuts to fall following a rain. Shedding is the delayed effect of the drought.

The Texas Pecan Producers Board will hold its first biennial election on September 23, 1974. The current terms of four board members will expire at that time. Any person living in the state of Texas who is engaged in the business of producing pecans for commercial purposes, is eligible to vote.

This board is dedicated to using grower funds for research, education, promotion and insect control designed to encourage production, marketing and use of Texas pecans.

Any person qualifying to vote in the election may place his name in nomination for membership on the Texas Pecan Producers Board by application to the above organization, signed by himself and at least ten other persons eligible to vote in the election, such applications must be filed at least 30 days prior to the election date in order to have his name placed on the ballot. Ballots will be mailed to producers.

Policy Development Meeting Monday Night

A Policy Development Meeting will be held Monday night, Sept. 23, at 8:00 p.m. in the Farm Bureau meeting room, according to J.R. (Jay) Grimshaw, of Desdemona, Chairman of the Eastland County Farm Bureau Policy Development Committee.

Mr. Grimshaw said this meeting is set up to study and discuss issues today, and that the Farm Bureau policies are built by the members, regardless if the policies are on County problems or on state and nation issues, they are based on majority vote.

This is the process that the Farm Bureau has developed to make it possible for farmers everywhere, who produce any kind of commodity any place, to meet, study, debate, decide and rally around a sound solution to

their problems, said Grimshaw. Grimshaw invites all farmers and ranchers regardless if they are Farm Bureau to attend this important meeting. Peanuts will be one of the main issues discussed.

The Light Touch

By Clint Bray

Who says executives don't get enough exercise? They jump to conclusions, dodge decisions, hit the ceiling and swing their weight around.

These days, one of the most frequent marriage vows is the vow not to get married.

Bank teller we know doesn't like the new checks with colorful pictures on them. Last month she almost cashed a postcard.

The world seems to have forgotten, in its concern with left and right, that there's an above and below.

You never get a second chance to make a good first impression.

Give us a chance to clue you in on the newest styles at BRAY'S in Eastland and Ranger.

WALKING TALL
The powerful and true story of two men...teamed up to tear 'em up.
Return Engagement
By Popular Demand 7:25 & 9:30 p.m.

SPECIAL NOTICE TO PARENTS:
"Walking Tall" is a deeply moving, contemporary film based on the true story of a young man who wouldn't surrender to the system. Although it has been Rated R because of the violence depicted in the motion picture, public comments indicate that the very powerful message of this film makes this a secondary consideration. Therefore, the management of this theatre feels that this picture should be seen by young people under the age of 17. If there is any doubt in your mind, we suggest you see it first, then decide for yourself.

Tours Of Peanut Fields Research A & M University At Yoakum

YOAKUM -- Tours of peanut field research, soybean variety tests, and newly established forage grass plots will be among highlights for visitors attending the annual Peanut Field Day at the Texas A&M University Plant Disease Station at Yoakum, Sept. 26.

Go

Among speakers for the general assembly that will follow the tours will be Ross Wilson, manager of the Southwestern Peanut Growers Association, and Wayne Eaves, executive secretary of the

Texas Peanut Producers Board, both of Gorman.

Groups will assemble at the headquarters building of the Texas Agricultural Extension Service. Field Day visitors are invited to bring any problem plant specimens they may have with them for the experts to analyze and discuss.

Six field stops are planned, along with educational displays, and a general assembly and discussion program following the field trip, Boswell added.

A popular feature of the

afternoon is expected to be a plant problem diagnostic booth, which will be manned by a panel of five experts with the Texas Agricultural Extension Service. Field Day visitors are invited to bring any problem plant specimens they may have with them for the experts to analyze and discuss.

In charge of the plant diagnostic booth will be Dr. Charles Cole, area entomologist; Dr. Carl Gray, soil chemist; Dr. Wendell Horne, plant pathologist; Don Parks, area economist

management; and Ben Spears, agronomist, all with the Extension Service.

Discussions at the soybean field stop will be led by Dr. John Sij, Experiment Station scientist in rice physiology from Beaumont. Leading discussions at the irrigation studies stop will be Dr. Darold L. Ketring, plant physiologist, cooperative, USDA, and Shelby Newman, associate professor in charge of the Experiment Station at Stephenville.

Discussions of breeding and varieties will be presented by Dr. Olin Smith, Experiment Station scientist in peanut breeding, College Station, and Dr. C.E. Simpson, Station peanut breeder, Stephenville. For the stop on soil borne diseases, discussions will be presented by Dr. R.E. Pettit,

Mr. and Mrs. H.A. Werley...Fiftieth Anniversary (Photo by James Dabney)

TRY PEANUT PIE—Peanuts have always been a popular snack food. Now Texas Department of Agriculture home economists have devised a new way to eat the high-protein favorite -- in a pie. For additional recipes write Agriculture Commissioner John C. White, Texas Department of Agriculture, P.O. Box 12647, Austin, Tex. 78711.

TEXAS PEANUT PIE

| | |
|-----------------------|----------------------------|
| 2 Tbsp. flour | 3 eggs |
| 1/2 cup sugar | 2 Tbsp. butter |
| 1/2 tsp. salt | 1 cup salted peanuts |
| 1/4 cup cold water | 1/2 cup coconut |
| 1 cup dark corn syrup | 1 unbaked 9-inch pie shell |

Combine flour, sugar and salt. Add water and syrup, blending well and boiling gently 3-5 minutes. Slowly pour mixture into slightly beaten eggs, stirring continuously. Add butter. Spread peanuts and coconut over bottom of pie shell. Pour filling into crust. Bake at 425 degrees 10 minutes. Reduce heat and bake at 350 degrees 20 minutes.

For additional recipes write Commissioner John C. White, Texas Department of Agriculture, P.O. Box 12647, Austin, Tex. 78711.

JOIN THE TEXAS CELEBRATION

OF OUR NATION'S BICENTENNIAL

We are pleased to announce that official Texas medallions issued in commemoration of the American Revolution are now available in this bank.

Sale of the handsome bronze and fine silver medallions—handled as a public service to customers and friends in our community—will help to finance exciting, statewide activities of the Bicentennial Association of Texas through 1976.

We hope you agree that this is a proud way to help our nation celebrate its 200th birthday.

EASTLAND NATIONAL BANK
EASTLAND, TEXAS

helping you change things for the better

Ten months ago you wouldn't have recognized this peaceful Texas pasture.

Ten months ago this pasture was a coal mine. The lignite coal found here is being used to generate electricity for Texas Electric Service Company in our Big Brown plant near Fairfield, Texas.

Our main fuels are natural gas and oil, and they will continue to be for several years. But new supplies of these fuels are increasingly difficult to obtain.

Using lignite, and by the 1980's nuclear fuel, will help us reduce our dependence on natural gas and oil.

One advantage of using lignite is that it isn't being used extensively for any purpose other than the generation of electricity.

After removing coal from the land you see here, it was reclaimed — the soil was replaced, tilled, fertilized and a variety of grasses planted — to make its productivity equal to or better than before. Now it is used for raising crops or cattle.

At Texas Electric, we're continuing the orderly development of our power system so that you'll continue having the electricity you need.

And we're doing it with full concern for the environment.

TEXAS ELECTRIC SERVICE COMPANY

Groups Gearing For Week Long 4-H Sales Days

COLLEGE STATION—Local 4-H groups throughout Texas are gearing up for a week long period of the "4-H Sales Days" to garner additional revenue for the completion of the new Texas 4-H Center at Brownwood.

In most counties the sales days will be held during National 4-H Week Oct. 6-12, points out Tom Davison, 4-H and youth specialist for the Texas Agricultural Extension Service.

"Although work on the new 4-H Center is making good progress and completion is expected by early next spring, additional revenue is needed to pay the total bill," notes Davison. "We're still about 25 percent short of our goal."

The sales days being planned over the state will take many forms and will include garage and auction sales, flea markets and sales of baked goods, livestock, farm equipment, and supplies, hardware, antiques and household items, to name a few. Some clubs are also planning chili suppers and barbecues.

"We hope the sales days will generate a lot of enthusiasm within counties and local 4-H clubs," notes Davison. "Because the new 4-H Center for training and educational programs will be a facility that everyone in the state can use and be proud of."

"The Center has been envisioned for a long time by Texas 4-H leaders and supporters and it is about to become a reality. It will provide a place where 4-H youth and adult leaders as well as other groups will be able to gather to participate in leadership training programs."

Appropriately, this year's National 4-H Week theme is "We Can Make It Happen". Texas 4-H "can make it happen" through a series of successful sales days, points out Davison. "We all have a common goal to work for, one that will pay untold dividends with the opening of the doors of the new Texas 4-H Center."

(9-15 to 10-14)

LEGAL NOTICE

CITATION BY PUBLICATION

THE STATE OF TEXAS

TO: L.W. Arnold, Clifford A. Leach and wife Velma Lee Leach; if living, whose places of residences are unknown to Plaintiff, and if dead, the unknown heirs, devisees, legal representatives, assigns and successors of the said L.W. Arnold, Velma Fay Leach and husband Clifford A. Leach, Defendant. Greeting:

YOU (AND EACH OF YOU) ARE HEREBY COMMANDED to appear before the 91st District Court, Eastland, Texas, of Eastland County at the Courthouse thereof, in Eastland, Texas, by filing a written answer at or before 10 o'clock a.m. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 4th day of November A.D. 1974, to Plaintiff's Petition Filed in said court, on the 21st day of August A.D. 1974, in this cause numbered 26,485 on the docket of said court and styled William Scott Adams, Plaintiff, vs. L.W. Arnold, et al, Defendant.

A brief statement of the nature of this suit is as follows, to-wit:

That Plaintiff have judgment against said Defendants for the lands and premises located in Eastland County, Texas, to-wit: 40 acres, more or less, out of the P.W. Jones Survey, Abst. 636;

Beginning on the S.B.L. of said Survey at the S.W. Corner of the A.J. Denton tract from which a black jack bears North 150 yards;

Thence West to E.B.L. of Wm. DeMoss Survey;

Thence North to N.W. Corner of P.W. Jones Survey;

Thence East to N.W. Corner of said Denton tract;

Thence South to beginning.

If this citation is not served within ninety days after the issuance, it shall be returned unexecuted.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Witness, Joe T. Gray, Clerk of the 91st District Court of Eastland County, Texas.

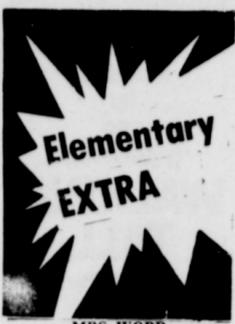

Issued and given under my hand and the seal of said court at Eastland, Texas, this the 17th day of September, A.D. 1974.

MRS. WORD KINDERGARTEN
The boys and girls have been busy in kindergarten this week learning some of their numbers and letters of the alphabet. We have been busy learning how to make the number 4, and how to make the letter B. We have also been practicing making our 2's and 3's, which we are supposed to have already learned.
The boys and girls have also been busy painting with their water colors which everyone enjoyed. Because the weather was bad and the boys and girls could not go outside to play, we have been playing musical

chairs for fun. This is always exciting for the boys and girls. We have also been learning how to jump rope, and this week our leaders of jumping rope were Gerald Ragland and Valerie Thompson.
Our leaders for the lunch line and canteen this week have been Amy Gann and Tony Carey.

MRS. ALLMAND FIRST GRADE
We are learning our short vowel sounds and reviewing our long vowel sounds. We are learning about "less than" and "greater than" in math. Some of us are doing real well in forming our letters and making them sit on the line. We have played and exercised inside this week because of the rain.

Lisa brought some puppies for show and tell last Friday. We saw a film on "Why Fathers Work". Jonathan moved to Fluvanna.

MRS. SIEBERT FIRST GRADE
This week we have been learning some of the short vowel sounds. We have learned to find the vowel sounds in small words.
Everyone received a spelling book and a handwriting book. We all enjoy using these books. In spelling we have been listening to rhyming words and looking for pictures that rhyme.
Dawn Littlejohn had a birthday Sept. 19. We sang to her and she was the leader on her special day.
Our leaders this week were: Tammy Rose, Leon Latham, Tonja Moore, Clinton Easter, Kendra Lindsey, Scott Payne, Angela Sanders, Bryan Kellar, Elaine Kleiner and Gerald Williams.

MRS. COOPER FIRST GRADE
We started our regular group work this week with different groups going to different centers in the room when they finished their work. We also had our first listening station which everyone enjoyed.
Everyone sure was glad to see the sun come out today so we could go outside and play. We've learned several new indoor games to play since it's been raining. Our favorite seems to be "7-Up". We also learned how to do various movements such as walking, running, skipping, hopping, skating, sliding and jumping to music. That was great fun, but we were ready to play outside in the warm sunshine!

MRS. TURNER THIRD GRADE
Mrs. Turner moved some desks Sept. 18, 1974. And the next day moved the rest of us.
We will have an annual this year. They will be 13.50 and can be bought from the annual staff later. We have done a few test this week and we have worked very hard. We have had science and spelling test today. Cynthia Dunn is our good citizen for the week.
Sheila Reed

MRS. YOUNG THIRD GRADE
Mrs. Young's third grade has been busy with our usual work. We had a spelling test today and will have a science and English test Friday. Suzan Funderburg moved this week and Tammy Johnson will check out tomorrow. We are sorry to lose them.

MISS HEARN FIFTH GRADE
We have been studying American Indian culture areas in our social studies. Several children brought Indian artifacts for display.
In reading class we memorized a poem called "You'll Never Walk Alone".
For our art project this week

THE EASTLAND TELEGRAM
Eastland, Texas 76448

MRS. LITTLE SIXTH GRADE
We are going to have a Social Study and science test Thursday. Yesterday we played a game in Mrs. Welch's class. She had four of us go to the front of the room and the rest of us asked them questions about early man. It has been raining this week so we had to stay in our room and play 7 up. In science we are in chapter 2. And in social studies we are ready to start chapter 3. In English we are studying about sentence elements.
Carole Ann Kidd

MRS. GREEN FOURTH GRADE
Hi! We have had a good time in school. It is fun. We have written sentences in Social Studies. That was fun, we also read in Health. In Language, we have learned to write and use conversation. School has been fun and good. Mark Mitchell broke his arm 3 weeks ago. That's all the news.
Lance Bailey

MRS. COATS SECOND GRADE
We had to play inside this week because of the rainy weather. Tuesday we water-colored fall trees and we learned to mix new colors. Wednesday we drew dragon pictures about our reading story.
This week we are learning alphabetical order.
Friday, we had our first big spelling test. We had to write 3 complete sentences. Two reading groups have finished their readers and they were given new books Friday.

MONDAY, SEPT. 23
Beef & cheese pizza

We made pencil holders by decorating tin cans.

On Thursday in language class, pupils brought some of their handcrafts and explained how these were made. We displayed them on the teacher's desk during the day. We especially enjoyed this.

MRS. LITTLE SIXTH GRADE
We are going to have a Social Study and science test Thursday. Yesterday we played a game in Mrs. Welch's class. She had four of us go to the front of the room and the rest of us asked them questions about early man. It has been raining this week so we had to stay in our room and play 7 up. In science we are in chapter 2. And in social studies we are ready to start chapter 3. In English we are studying about sentence elements.
Carole Ann Kidd

Dear Friends,
We have finished the toothpick sculptures. We are studying addition in math and in English we are studying elements of sentences. We have started a new chapter in science. We are taking a test in social studies. In art we drew pictures and handed them to our neighbor and kept on switching, until you got your picture back. Because of the rainy weather we have been staying in. Our room would like to give the PTO a big thank you for the checked material flowers they made for our room.
Jeff Bakker

MRS. GREEN FOURTH GRADE
Hi! We have had a good time in school. It is fun. We have written sentences in Social Studies. That was fun, we also read in Health. In Language, we have learned to write and use conversation. School has been fun and good. Mark Mitchell broke his arm 3 weeks ago. That's all the news.
Lance Bailey

MRS. COATS SECOND GRADE
We had to play inside this week because of the rainy weather. Tuesday we water-colored fall trees and we learned to mix new colors. Wednesday we drew dragon pictures about our reading story.
This week we are learning alphabetical order.
Friday, we had our first big spelling test. We had to write 3 complete sentences. Two reading groups have finished their readers and they were given new books Friday.

MONDAY, SEPT. 23
Beef & cheese pizza
Pinto beans
Buttered cabbage
Lettuce wedges
Corn bread
Ginger bread

TUESDAY, SEPT. 24
Lasagna
Green peas
Harvard beets
Cabbage slaw
Pineapple-coconut pie
Hot rolls

WEDNESDAY, SEPT. 25
Fried chicken
Whipped potatoes
Consumer Deposits
Green beans
Lettuce & tomato salad
Sliced bread
Oatmeal cookies

THURSDAY, SEPT. 26
Taco
Blackeye peas
Glazed carrots
Tossed salad
Corn bread
Cake squares

FRIDAY, SEPT. 27
Hamburgers
Buttered corn
Potato chips
Jello

Catherine Bach and Jeff Bridges notice the consternation of Clint Eastwood, as they take a breather between bank heists. "Thunderbolt and Lightfoot," in which Eastwood and Bridges play the title roles, will show thru Tuesday at the Majestic Theatre through release by United Artists.

Council Represented EHS

The Student Council represented Eastland High School in a workshop in Stamford on Monday, Sept. 16. The workshop lasted all day and was led by Mrs. Pat Kirschner, director of Student Activities at Ball High School in Galveston.

Those attending from Eastland were: Jerry Boles, president; Sharon McCloud, vice president; Victoria Wilson, secretary; Tom Morren, treasurer; and Ken Miller, parliamentarian. Mrs. Kenneth Payne, sponsor and Mr. Ray Pruitt, superintendent accompanied them. Even though the weather was bad, they still enjoyed the workshop to the fullest and brought home some ideas to try to make their Student Council one of the best.

Mr. and Mrs. Royce McKinon and Royce Jr. of Superior, Wisconsin, are visiting in the home of Mr. and Mrs. Walter Tucker.

NOTICE

The residents of Eastland Manor Nursing Home will have a Birthday Party Sept. 24, 1974 at 2:30 p.m. at the home. All relative and friends are invited to come and help celebrate the following patients having Birthday for the month of September are:

Mr. David Boney, Mr. Van Clark, Mrs. Anna Squires, Mrs. Sarah Harrell, Mrs. Mary Houseworth, Mrs. Ina O'Malley, Mrs. Sophie Harris, Mrs. Maudie McBeth and Mrs. Illene Keith

Telephoning Fish Bad Business

LIBERTY -- Think your home telephone rates are high? Just try phoning some fish and you'll find out just how expensive a "telephone" can be.

The play of using old crank telephones to generate an electrical charge is an effective -- and illegal -- means of stunning flathead catfish and then simply dipping them out of the water with a net.

Two recent "telephoning" cases were made by Liberty County game wardens of the Texas Parks and Wildlife Department which cost the illicit fishermen \$877.50 in fines. TP&WD wardens Jim Broughton and Jerry Chilton were advised that someone was telephoning fish in the Trinity River.

And, sure enough, when the wardens arrived, a man was using a battery - powered fence charger to stun catfish while two young boys dipped them out of the water.

The man was cited for fishing with an electrical device as well as violating the Texas Water Safety Act for failure to have life preservers on the two boys who were under 12 years of age.

His 65 pounds of fish were confiscated and he was fined \$616.50 in a local court.

In a separate case, warden Tom Johnson was informed that some suspicious activity was taking place on the Trinity. He found three men using the illegal fishing technique to collect fish.

The men, all of Beaumont, were fined \$261 in a local court and had their fish turned over to a charitable organization.

AUSTIN -- Archers may think they have plenty of time to prepare for the bow season, but they may find that it takes more than a couple of weeks to sharpen up their shooting eye to top efficiency.

The bow season for deer begins Oct. 1 in most of the counties which have a special archery season, Texas Parks

Audiences are standing up and applauding... WALKING TALL

A BCP Production In Color
A Service of Cinerama Releasing Co.

Walking Tall Returns At Majestic

"Walking Tall", one of the most popular films of all time, and Wildlife Department officials suggest that if your archery tackle has been sitting around idle all summer, a little preparation is in order.

First, inspect your equipment. Defects in fiberglass lamination, frayed strings and cracked arrows should not be overlooked since they are potentially dangerous.

If your equipment is in order, the next step is some practice. A clean kill is dependent upon, among other things, a well-placed arrow. When you can hit a paper plate consistently at 40 yards, you are ready to hunt, according to officials.

will reshoot at the Majestic Theatre beginning Wednesday. Throughout the country, audiences have been standing up and applauding "Walking Tall" as it continues to set long-run records in city after city. Manager Ross Morgan reports that it will reshoot here by popular request.

It has become a phenomenon generating critical acclaim and exceptional word-of-mouth. "Walking Tall" is the story of a young man who wouldn't surrender to the system and the girl who always stood beside him. It is based on the extraordinary life of Buford Pusser, a Tennessee sheriff who never

stopped walking tall in his determination to clean up a town that had become corrupt with gambling and vice.

Buford, who died recently, is portrayed by Joe Don Baker, most recently seen in "Junior Bonner" and "Charlie Varrick" and on TV in "Mingo's Back In Town". Elizabeth Hartman, an Academy Award nominee several years ago for "A Patch of Blue", plays his wife Pauline. Other key supporting roles are played by Rosemary Murphy, Noah Beery, Brenda Benet and Felton Perry.

"Walking Tall" was shot on location in McNairy County, Tennessee, where it actually happened.

The real-life Buford was not only a hero in his home state, but has become a hero to the thousands of people in the U.S. and Canada who are seeing "Walking Tall" each week. Few films in recent years have generated the thunderous reaction that "Walking Tall" consistently receives. Its reputation builds and builds, and it is "the movie your neighbors are talking about."

The BCP Production, distributed by Cinerama, was directed by Phil Karlson. Mort Briskin produced the film from his own screenplay. Charles A. Pratt was executive producer. BCP is a service of Cox Broadcasting Corp.
