**KEEP SHAKING!**

Peanut rows around Carbon have a reputation of being long, and back in the days when farmers hired hands to pick up the vines, shake as much dirt and clods off them as possible and stack them in neat piles so they could later be picked up and taken to the thrasher, the exhortation to KEEP SHAKING was of ten heard.

There were undoubtedly days and lesser pays, but the days many of us remember were \$3 per, and that was from daylight 'til dark - and like we said those rows got long, and that sun got hot, but still if you got your pay, you KEPT SHAKING.

Times have changed. They don't shake anymore. The threasers pick up the vines off the rows, but still there's shaking to be done.

And now in the midst of a flu plague, a dough and a general first- of- the- year "blah" seize, guess we all need to keep shaking.

Mothers soothing fevered forebreds; teachers trying to teach above hacking coughs and oh- so- sudden attacks of nausea: that's shaking. Offices virtually stripped of staff and stand- ins attempting to keep the wheels of commerce turning. That's shaking.

Best inspiration for all of us has to be School Supt. Wendell Siebert - a community leader in health and in illness.

Last word we had is that he is recovering satisfactorily following surgery at Hendrick Memorial Hospital Tuesday. Best guesses, and certainly sustained by hopes and prayers here, are that he'll be back and functioning before long. Everybody here is mighty glad that 'Sieb' was on a good physical fitness program when he got sick.

And so with that kind of inspiration, it's no real hill for us, even though we all might be momentarily weakened by strange flu bugs and dry weather.

It'll rain, and medical science aided by concerned mothers will whip any bug afloat.

MAYBE WE all could use a good dose of good news; there's some nice things brewing hereabouts. Let's see, there's chances for another major apartment complex, and would you believe, maybe a peanut butter plant. These are the kinds of things that make us feel better.

MOTHER BELL, when we ring up and ask for Stephenville information, please don't tell us "You can dial that yourself," and hang up. It certainly doesn't do anything for your public relations.

MASTONS ARE putting together a beautiful Home Improvement firm, headquartered on the west side of the square. We'll show you pictures and tell you more soon. It's next door o their excellent tropical fish and gift shop.

DON'T LET us forget to wish you a Happy Valentines Day.

As of Wednesday afternoon, the Thursday Afternoon Club needed only \$1399 to pay off their note on the new Centennial Memorial Library. All donations to help pay off this final expense will be greatly appreciated.

Basham Beauty Bar, owned and operated by Mrs. Harvey Basham, will note its 18th Anniversary on February 28.

Mrs. Basham states that in all these years of operating a beauty shop she has thoroughly enjoyed her work and her customers.

## Quarterback Club Sets Volleyball Tourney

The Eastland Quarterback Club will sponsor an Outsiders Volleyball Tournament to be held March 4, 5, 6, 7, 8, and 9th, at the Eastland High School Gym. It is open to men's and women's teams.

Entry fee for the tournament is \$12.00 per team and the fee should be included with the entry application. Deadline for

Mail entry to: Emmett Lasater  
509 South Bassett.

TEAM TEAM NAME.....  
TEAM CAPTAIN.....

entries is Thursday, February 21, 1974.

There will be a door charge for non- players of 25 cents for children and 50.0 cents for adults.

Six individual trophies will be given to the teams winning first place, second place, and consolation. To be sure to play, enter early as possible as entries will be limited.

## Mystery Books Identified

The books used in the recent Mystery Contest were presented to the Centennial Memorial Library by an anonymous donor, in honor of Marene Johnson- Johnson.

The Contest was designed to promote and encourage the use of research materials found in the Library. Fifty dollars in prizes were offered to the students who discovered the most accurate facts about the books.

The contestants discovered that the books were 257 years old, having been printed in 1716, making them the oldest books we have in the Library.

The old books were bound in vellum and were printed in modernized ancient Roman letters. The subject was Canonical Law and the books were written in Latin on "Chain- laid" paper. The mark of the wire chain on which the wet rag pulp was laid is plainly visible on the pages. The books were printed in sections of 8 pages with the "catch" word at the bottom of the page, showing the printer which page came next. Each section is tied off and fastened in the binding.

The Watermark for identification in these books were in the form of three circles topped by a cross. A Hapsburg crest is also significant in the forepages. The boys and girls did good work in discovering some of the clues about the books with no information other than what they searched out. There is plenty more information to be found out; how about some of you adults giving it a try? We welcome you to come and use our facilities and research.

## Is 'Tomorrow in West Texas' Today?

TOMORROW IN WEST could be today!

Mr. J.R. Beadle's excellent talk here last week extolling the assets of Wonderful West Texas, flipped a switch and recalled a book we'd been exposed to in years past. A quick search of the library shelf turned it up.

It's called "tomorrow in west texas" - and it's got more Eastland connection that it might seem immediately.

### Cycle Club Meets Sunday At Leon

The Eastland County Cycle Club will hold a meeting Sunday February 17, at 1:00 at the Staff fish hatchery at Lake Leon, it was decided Tuesday night at a meeting in the Eastland National Bank Conference room. Anyone wishing to ride is welcome to come you do not have to be a club member.

Also discussed was the upcoming Turkey run which will be held at Tingle Lake in Eastland on March 3, entry fees will be \$1.00 for club members and 2.00 for anyone else wishing to ride.

Further preparations were made concerning the Line Run which will be held on March 31.

The book was published in 1956 by the Texas Tech Press. Researched and written by Sidney L. Miller, Ph. D. of the School of Business Administration, University of Pittsburgh, it was a joint project of Texas & Pacific Railroad Co. and the West Texas Chamber of Commerce.

Dr. Miller spent five years researching and writing. In his introduction, he said, "On Feb. 8, 1947, as a result of an extensive action program for the economic and industrial development of West Texas in the post- war period, the Board of Directors of the West Texas Chamber of Commerce announced adoption of a plan for more intensified work on economic surveys for area development within the region."

"Committees were appointed to work on separate phases of the program with each of the railroads serving West Texas. Frank H. Kelley of Colorado City was appointed chairman of the committee to work with Texas and Pacific Railway."

The late Mr. Kelley was the father of Mrs. Austin McCloud of Eastland was president of the West Texas Chamber. Mrs. McCloud remembers that Dr. Miller stayed in their home in Colorado City.

The majority of the book is a survey of resources and the final chapter entitled "Miscellaneous Opportunities" has two subhead topics, suggesting the exploitation of colleges and universities and tourism. He may have missed in suggesting that Mineral Wells might be the hottest tourist prospect.

What said about Eastland County? Well, not enough, but specifically he hits hard on the annual Eastland County Orchard Field Day (peach and apple), started by then County Agent J.M. Cooper.

Dr. Phillips tells about his attempt to organize the Heart of Texas Fruit Growers Association under the leadership of then Cisco Chamber Manager Ben Butler.

And there's a brief mention of an effort in Eastland County promote sheep raising with an "Eat More Lamb" project.

Nearly 20 years later, it makes interesting reading.

## County Employees Receive Raise

Eastland County employees will enjoy a seven percent pay increase as the result of action by the County Commissioners Court this week.

Meeting in regular session with all commissioners present, the court passed the raise unanimously with no opposition being raised.

The court also discussed but took no formal action on an informal request for additional assistance to the Volunteer Fire Departments in the county. C. W. Guthrie of Cisco, Collin Campbell of Carbon, Bud Carmack of Eastland, and Bill Griffin of Olden appeared before the court.

The Rising Star volunteers are attempting to rig a new truck and are asking help from the court.

It was discussed that perhaps the court could set up the regular assistance for the seven departments from \$50 a month to maybe \$75. Right now the county is paying an additional \$50 (for a total of \$100) a month to each during the dry, high grass fire period through May.

Judge Scott Bailey pointed out that additional requests from librarians in Ranger and Rising Star have come for the special assistance voted recently by the court, which allocated \$3,000 to be divided annually by the five libraries in the county.

Commissioners discussed briefly the confusion that exists regarding the boundary lines on voting precincts since the recent redistricting of the county. It was pointed out that a master map in the tax collector office and that voting precinct judges will have maps by primary election time.

The court also authorized the Sheriffs office to advertise for bids for a new sheriffs car.

## Services Pending

Dee Rose of Midland passed away suddenly Tuesday, Feb. 12. He is the brother of Mrs. Fred Maxey of Eastland and Mrs. John Love of Alameda. Funeral services for Mr. Rose are pending.

Red, a delivery boy is portrayed by Larry Courtney, makes a delivery as Assistant Mark Parsons looks on in another exciting scene in "Don't Take My Penny" Friday night at EHS, starting time 8:00.

To a dear Dad, says Dale Minchew at left to David Baze seated at right, while Mother, Tena Sanders looks on. An action packed scene from "Don't Take My Penny" Friday night at 8:00 p.m. in the Eastland High School Auditorium.

### America's Prestige Is Theme For Meet

"The true wealth of a nation lies not in its gold or silver, but in its learning, wisdom and in the uprightness of its sons." Quotation from Kohil Gribam, set the theme of the Thursday Afternoon Study Club, as it met in the Club House, Feb. 7, 1974, at 3 p.m. for its guest day program entitled "America's Prestige."

The president Mrs. Dan Childress presided over a short business meeting and gave a warm welcome to all present. Members introduced their guests.

Since the slogan at the beginning of the New Centennial Memorial Library was "Thirty Women for Thirty Thousand Dollars" and since the balance now due on the library note amounts to eighteen hundred dollars that a new slogan "180 people for

\$10.00 each "would be appropriate, and anyone who had not given or who had delayed in giving would come forward and help our community to have a debt free, public library.

The club is making plans to have a "flea market" along with a bake sale in March, proceeds of which will go to the library fund.

Mrs. Herman Hassell was program leader for the afternoon and presented Mrs. Joseph M. Perkins who gave a very interesting and informative talk on the subject, "Old Glory and the New Yap". Along with her explanation of yap its people and culture a very small island among several chains of islands in the Pacific, near Wake and Guam Islands, she had a large display of articles, that she had purchased while visiting on

Dear friends,

The members of our medical profession, be they doctors, dentists, nurses, bring a great deal of dedication as well as knowledge to their work.

A conscientious concern for the patient is as necessary to healing as are the medical skills. When the need arises, they serve long and late and they merit the high esteem that our community feels for the medical profession.

# STATE CAPITAL Highlights AND Sidelights

by Bill Boykin

AUSTIN, Tex. — A total of 332 separate proposals have been submitted to the Constitutional Convention.

Last day for filing the recommendations for individual or wholesale revisions of the constitution brought the expected outpouring.

Each has been referred to an appropriate committee for study and processing before consideration on the convention floor.

Delegates who wish to submit proposals in the future must get permission of two-thirds of their colleagues.

Meanwhile, the convention has progressed through preliminary approval of the preamble and Bill of Rights — with no changes over the old constitution.

Next article to get floor consideration this week will be rights and suffrage.

At least two controversial items in that article are a provision allowing a property ownership requirement for voting in bond elections and denial of voting rights to felons.

Another recommendation of the rights and suffrage committee would provide a constitutional requirement for a secret ballot. There is now no such requirement in Texas although courts have held secrecy must be maintained.

**TAX FORMULA APPROVED** — The Legislative Property Tax Committee approved a modified version of the Texas

Research League's proposal to gather data for a new school finance formula.

House Speaker Price Daniel Jr. had urged rejection of the plan, which El Paso Rep. Luther Jones charged was slanted in favor of big business.

Jones later asked Daniel to order an investigation of the Research League.

He objected to state reliance on the privately-financed League for assistance in tax studies. Seven such studies have been done by the organization since 1964.

**ELECTION RULES CHANGED** — As the Monday filing deadline for candidates neared, Secretary of State Mark White Jr. reminded of new election requirements.

He told candidates they must designate campaign managers before they accepted any political contributions or make any election expenditures, including filing fees.

Designations of the managers must be filed with the Secretary of State for candidates seeking offices involving more than one county. County clerks receive the designations for one-county positions or those within a county.

**DREDGING POLICIES APPROVED** — The Parks and Wildlife Commission under a new regulation can cancel licenses of shell dredgers who cause silt over live oyster reefs.

Another recently-approved policy to protect coastal and inland wetlands expands control over spoil dumping from dredging.

**COURTS SPEAK** — Attorney General John Hill sought a stay of a single-member district plan ordered by a three-judge federal court for seven Texas counties, pending appeal.

The court reversed an earlier decision to allow filing in the districts until February 18 and left the deadline at February 4. It also eliminated residency requirements in the districts for this year's election in Tarrant, Travis, Jefferson, McLennan, Nueces, El Paso and Lubbock counties.

The State Supreme Court held that, once a couple signs a sales contract on their home, they must go through with the deal.

**APPOINTMENTS** — Governor Dolph Briscoe appointed Jerry Spencer Davis of Campbell as 196th district attorney in Hunt

County.

Other recent Briscoe appointments include: Dr. J. R. Maxfield Jr. of Dallas and Dr. Ben Dubilier of Austin to the Radiation Advisory Board; W. Clyde Freeman Jr. of Bryan to the Texas State Board of Public Accountancy; Mrs. Joe DeWitty of Dallas and Dr. Harry George-Henricks of Beaumont to the Governor's Energy Advisory Council;

Dr. Morris E. Bloodworth of Bryan and Dr. Harold E. Dregne of Lubbock to the State Seed and Plant Board; Alvin G. Davidson of Fredericksburg to the State Board of Public Accountancy; Edgar H. Burton of Lufkin and Jack M. Dubose of Gonzales to the Egg Marketing Advisory Board;

Gus T. Canales of Prentiss to Nueces River Authority; C. E. Knolle of Sandia and Byford W. Bain of San Antonio to the Dairy Advisory Board; Hayden A. Albert of Austin to the Polygraph Andrews of Houston and Richard Reyes of San Antonio to the Texas Southern University Board of Directors.

Briscoe appointed 61 to standing committees of the Interstate Oil Compact Commission for 1974.

Attorney General Hill reappointed Stuart Long of Austin to the School Land Board.

**STUDY VIA TELEPHONE** — Wonders never cease in the modern world of communications. A Texas university professor conducts regular classes via the conference telephone call. A recent class lecture on migraine headaches was heard over the telephone by 58 persons and the class lasted 2½ hours.

**SHORT SHORTS** — A consulting firm has been hired on a \$55,000 contract to help reorganize and streamline the 600-employee State Board of Insurance.

A number of state agencies have moved Austin offices to a new block-square Stephen F. Austin building north of the capitol.

Texas Water Rights Commission approved a \$55,000 bond issue for Cameron County Water Control and Improvement District 10.

State Rep. John W. Bryant, 26, is the legislature's newest member. He won a special vacancy election, and is now installed as a delegate to the Constitutional Convention.

All members of the State Board of Education must run for election this year from congressional districts, Attorney General Hill held in a recent opinion.

**A house full of ways to save on your gas bill....**

There are many ways you could be adding to your gas bill, and not be aware of it. Take a few minutes and check:

- Insulation weather stripping and or caulking around doors and windows.
- Fireplace damper for tight fit.
- For holes and leaks around window air conditioning units and roof-top ventilators.
- For clean filters regularly.
- Gas appliances periodically for proper adjustments.

Do:

- Close drapes on sunny days and open them on dark ones, when using gas air conditioning. Reverse this process when using gas furnace.
- Leave thermostat at comfortable setting.
- Drain approximately one gallon of water per month from water heater to prevent mineral deposits from building up.
- Repair leaky hot water faucets.
- Use lids for pots and pans to reduce need for higher flame.
- Don't run partial loads in dryers, washing machines or dishwashers.
- Block air conditioning vents, or in the case of heating, the hot air vents.
- Cool or heat unused rooms.
- Use higher flame on range than required.
- Pre-heat the oven any longer than necessary.

These tips will not only help you to reduce your gas bill, but help you to conserve our country's energy too.

# Chamber Banquets

CISCO, February 14

Be sure to make your reservations for the annual Chamber of Commerce dinner meeting before Thursday, and be sure to bring your valentine for a steak dinner.

Normally 200 people attend the banquet that will be held at 7 p.m. in the Corral Room of the College Annex, said CC manager Gene Abbott.

He emphasized that those attending to make their reservations early, so there will not be too few steaks or too

many. All patrons of the event will pay at the door.

### HIGHLIGHT

The highlight of the yearly meeting of the complete chamber will be the presentation of the community service award and the Over Due award.

The community service award goes to the citizen who thru the year has devoted his time and effort in an outstanding manner to make Cisco a better place in which to live.

### Rising Star

Walter Richburg of the Department of Agri-Business at A & M College will be the guest speaker for the annual Chamber of Commerce Banquet on Thursday evening, February 21, in the Rising Star High School gym.

This announcement was made at the noon luncheon on Tuesday, February 12, in a regular meeting of the local Chamber. Officers for the coming year were elected as follows: Pres. Arley Bibby, Vice President Jim Rutherford, Sec. Treasurer, A.H. Jenkins, C.C. Rutherford, Lane Wells, Gene Rhodes, Ralph LKiser, and Bill Medley, directors.

The program for the evening: Invocation - Owen Aiken

Dinner - Served Cafeteria style

Welcome - James Rutherford

Introduction of Speaker - Jim Rutherford.

Address - Walter Richburg

- Department of Agri-Business - A & M

Introduction of New Officers - C.C. Rutherford

Benediction - Don Hosh

Master of Ceremonies - James Rutherford

Mr. s. B.A. Butler will provide dinner music.

Decorating Committee - Mr. and Mrs. Bill Medley, Mr. and Mrs. George Steel and Mr. and Mrs. Robert Butler.

### Ranger

The annual Ranger Chamber of Commerce banquet has been set for February 28, at 7:00 p.m. at the Lone Cedar Country Club.

Speaker for the banquet will be Don Newberry, director of Community Relations at Tarrent County Junior College District in Ft. Worth.

In the past ten years, Newberry has made hundreds of addresses to chamber of commerce and sports banquets, conventions, civic clubs, youth groups, church dinners and at various other functions.

He has been a college administrator for the past decade and has been a sports and news reporter for a daily newspaper, editor of a country weekly, sports director for a radio station and sports editor of the college newspaper during undergraduate study at Howard Payne College, where he was twice named to "Who's Who Among Students in American Colleges and Universities."

Since college graduation, he has served as Assistance Director of College Information at Howard Payne.

# Cisco Mayor Speaks For New Charter

Cisco Mayor John Webb declares he is definitely in favor of the adoption of a new city charter.

"The one main reason I ran for Mayor once again was to get a city manager for Cisco and turn back the government to the people", stated Webb emphatically.

Some friends of the outspoken Cisco Mayor have expressed concern that he is being eased out of his office by the proposed new charter. Webb reassures them that he has been working for the modernization of the city government since 1959 and he feels that the city manager system is the only way to go.

Upon the acceptance of the charter, six new councilmen and a mayor will be chosen in April city election. Why is Mayor Webb working himself out of a job?

"I don't stammer around", admitted Webb, "I believe in pushing for what is best for Cisco."

### BEST FOR CISCO

He would like to see a city government elected that would get down to work and see what it can do for the community.

For Cisco to progress, Webb believes that the city has got to have a good city manager. He has visited communities that do and have seen the efficient results.

"He will have to be twice as tough as me and a lot smarter".

And Cisco citizens have to go to elect a council that will back the manager and together work for the good of the city.

"We must have a broad

mind manager and commission, who can give and take a little and be able to compromise."

True, Ciscoans fight among themselves at times, but they don't stay mad, Mayor Webb stressed. "Cisco is a damned fine town."

He again re-emphasized that Cisco needed good people to select a city manager. And Cisco needs a city manager that will lead the town toward growth and development.

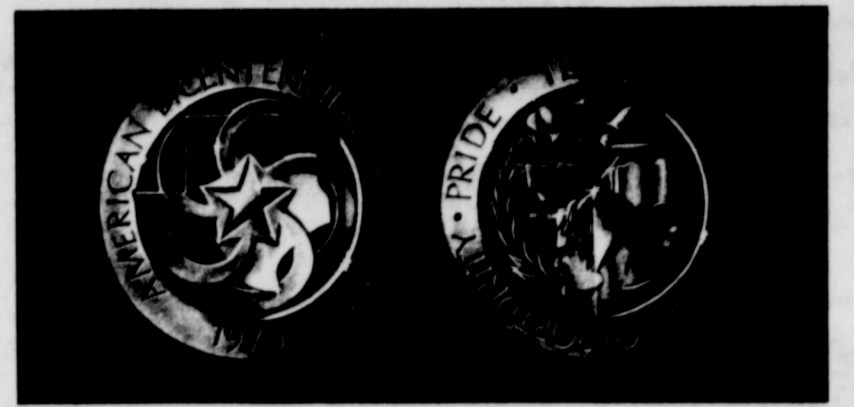

### PRESENT GOVERNMENT PROGRESS

After discussing his hopes and wants for Cisco's revised government under the new charter, Webb talked about his hopes for the rest of his term of office and about the accomplishments of the city's present government.

"I talked to a man the other day that said he wanted to retire in Cisco, because the city had springs up and down its main street", said the mayor jokingly.

However, he said the problem with the city water system is steadily being brought under control, partly with the installation of new hydrants.

The mayor said the city government had been occupied with the new land fill program and has about accomplished bringing Cisco's sanitary standards up to date. They are in the process of purchasing new equipment that will serve the city far into the future.

Official Texas medallion commemorating the United States Bicentennial

# Bicentennial Texas Medallion Unveiled

Arlington—Mrs. Bill Hobby, president of the Bicentennial Association of Texas, Friday unveiled the official Texas medallion and logo for the United States Bicentennial observance at a news conference at the University of Texas at Arlington.

The obverse side of the medallion features the official emblem of Texas' Bicentennial observance. The converging arrows represent the ethnic groups that have come together for 200 years and longer to form the Lone Star State.

The reverse side of the medallion is a montage, dominated by a two-headed figure of man.

One face looks to the past and the heritage of a bountiful land. A shaft of wheat, a boll of cotton, a Longhorn steer and a derrick represent Texas' richest products . . . her natural resources.

Pride in the present is reflected in a gear for booming industry and commerce, a book for education and unlimited opportunity.

Man's forward face looks through an astronaut's helmet, with the land's bright future represented by an airliner and spacecraft.

Proceeds from the sale of the Texas medallion will go toward the production of "Texana," a major stage production authorized by a concurrent resolution passed during the 63rd session of the Texas Legislature. "Texana," our state government's contribution to the Bicentennial, will symbolize the 26 ethnic and national cultures represented in Texas.

Of the planned stage production, Governor Dolph Briscoe has said: "This will be a major production depicting the history, the accomplishments and the dreams of Texas and its people. It will

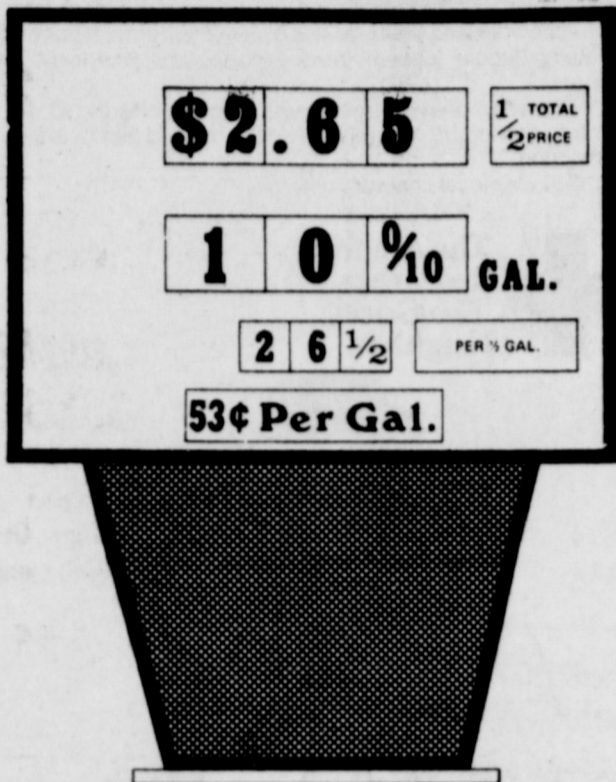

be produced through the cooperative efforts of the outstanding talents we have available in our academic and professional communities."

Dr. Joe B. Frantz, a member of the American Revolution Bicentennial Commission (ARBC) of Texas, will be in charge of preparations for "Texana."

The Bicentennial Association of Texas, a non-profit private corporation, is an adjunct to the ARBC of Texas. The Association will be responsible for funding of "Texana."

A limited edition of the Texas medallion, in both fine silver and bronze, will be available this spring. Marketing will be by Century II, Ltd. of Austin under authority of the Bicentennial Association of Texas.

The medallion was designed by Jerry Tokola, Bob Stewart and Steve Parrino.

# Gas By Half-Gallon? It May Happen Here

AUSTIN—Buy gasoline by the half-gallon and multiply for the correct price?

It may happen in Texas if gasoline prices go over 50 cents a gallon.

State regulations issued in January will allow gasoline pumps unable to indicate a price over 49.9 cents a gallon to display the price per half-gallon. Sale price registered on the pump will be half the actual total which can be computed by multiplying by two.

The new regulations, which apply to retail dealers, will go into effect only if gasoline exceeds 50 cents a gallon.

They will be enforced by the weights and measures section of the Texas Department of Agriculture. Department inspectors are responsible for checking gasoline pumps to certify that meters are accurate.

According to Ed Whitesides, director of the Department's Consumer Services Division, pumps manufactured before 1965 do not have enough digits to register higher prices anticipated for automotive and truck fuels.

Later models are equipped with additional numerals for possible conversion to the metric system.

Only one company in the nation manufactures petroleum meters for retail pumps. A spokesman for the company, Veeder-Root, estimates it will be late 1975 before enough equipment can be produced to meet national demands.

Regulations require that dealers inform customers of the changes in large type affixed to the pumps. Labels must read "1/2 total price" and "per half gallon" by the unit price. Beneath the unit price another label must state the price per gallon.

A foot-square weatherproof sign must be placed on top of the dispenser to warn buyers of the changes.

Advertising petroleum fuel products will continue to be done in gallon values.

If the regulations go into effect, Whitesides warns consumers to be on the look-out for dealers whose advertising or labeling is misleading.

"Our inspection work will be intensified now that gasoline prices are going up," Whitesides said. "We can't control the price of gasoline but we can help to assure that the customer gets what he is paying for—whether gas is 36 or 60 cents a gallon."

# SOME THINGS ARE BETTER

THAN WATCHING T.V.

# LIKE READING THE WANT ADS.

Looks like an ordinary story? It shouldn't be because aside from each other, young lovers need the goods and services offered in the Want Ads more than anything else. Smart modern couples know the down-to-earth value of reading the classified section every day. They know they can find better deals on the used-but-usable necessities of the day: furniture for the apartment, washers, dryers, ranges, refrigerators and many other household items. Not to mention a second-hand auto for a second car, or the many services like home repair, home loans, appliance repair, auto services, etc., offered in the classified. And as they stroll through life together and acquire their own storehouse of no longer-needed items — they know they can sell any excess and make extra money quickly and easily with their own Want Ads.

# Rise 'N' Shine . . . Care About the Land

Be good to the land and the land will be good to you. Replenish the soil . . . replant the trees. Respect all living things . . . keep waterways pure and clear. Today it's more important than ever to see that nature's delicate balance continues its life-giving cycle. There are more people to feed, clothe and house . . . that's more reason to conserve farm lands, forests, lakes and brooks. By taking less from the environment we assure ourselves more for tomorrow. So please . . . let's all think twice before we take.

## Lieutenant Governor's Report

**Bill Hobby**  
 AUSTIN - Ironically, the energy crisis may prove to be a blessing in disguise for Texas. For the past few years, Arab nations have been selling oil to the United States at a price so low as to restrict exploration for new oil in this country, and to retard recovery of oil here by the more expensive secondary methods.

With the Arab oil boycott and substantial increases in price of other imported crude, we are seeing a boom in the oil fields of Texas.

Suddenly, there is economic incentive to go out again and find oil. In many parts of the state, this boom is having a very beneficial economic effect.

The majority of Texans will benefit primarily because this new activity will result in greater tax and royalty payments to the state. In fact, income to the state from oil and gas production is the only reason Texans have been spared from onerous corporate and personal income taxes so far.

Before the Arab nations shut off their oil, this country was using about 17 million of oil and its gas equivalent. Ten percent of this was imported from the Middle East.

Through new incentives for exploration, producing known reserves in Alaska, the Gulf of Mexico, Atlantic and P P P Pacific Oceans, and cutting back our very extravagant use of energy, I believe we can make this country virtually independent of Middle East crude in a few years.

One of the most hopeful developments in working out a solution to the energy problem is Simon as director of the Federal Energy Office.

With a strong background in investment banking and a thorough understanding of our free enterprise system, Simon is one of the ablest people in government today.

The first step in solving any problem is to put the best talent you can find on the job. I think this very important first step has been taken with the appointment of Simon.

Last week Simon visited in Texas, meeting with oilmen and state officials. He spoke to a special meeting of the Governor's Energy Advisory Council, of which I am chairman.

Later, he met with members of the Railroad Commission

and with the Governor and other state officials.

I think he left Texas with a much clearer understanding of the peculiar problems that face our state, which produces one-third of this nation's domestic oil and gas.

From visiting with him I know Simon is aware of the vast contributions which can be made only by the states in solving this national crisis.

### Lone Star Foods Is Theme Of Foods Show

"Lone Star Foods" was the theme for the 1974 Eastland County 4H Foods Show held last Saturday morning in the Cisco High School Cafeteria. Twenty two 4H rs participated in the show. The four categories of dishes judged were main dishes, side dishes, snacks and beverages, and breads and desserts.

**From The Living Bible**  
 Before anything else existed, there was Christ, with God. He has always been alive and is himself God. He created everything there is — nothing exists that he didn't make. Eternal life is in him, and this life gives light to all mankind. His life is the light that shines through the darkness — and the darkness can never extinguish it. God sent John the Baptist as a witness to the fact that Jesus Christ is the true Light. John himself was not the Light; he was only a witness to identify it. Later on, the one who is the true Light arrived to shine on everyone.

# FARM BUREAU

The Texas Farm Bureau is urging President Nixon and Congress to resist any efforts to place restrictions on farm reports.

A resolution adopted by the TFB Board of Directors this week and sent to the President and members of the Texas delegation in Congress states that "agricultural exports are absolutely essential to farmers

and ranchers and are vitally important to the nation as a whole."

The resolution said that "embargos placed on any commodities are invitations to economic disaster."

Text of the resolution continues:

"Loss of our farm export market would force us to cut production by one-fifth.

Thousands of rural people would flock to cities. Workers in industries related to agriculture would flood the labor market looking for jobs.

"On the other hand, if we can maintain our strong export market all segments of the economy will reap the benefits.

"Full production, which is dependent upon exports, enables us to cut per unit costs. This is reflected in lower prices in supermarkets and clothing stores. The consumer is the ultimate and major

beneficiary. Full production in agriculture assures jobs in businesses related to agriculture. Nearly 40 per cent of our work force is involved directly or indirectly in agriculture.

Farm exports are a principal source of this Nation's foreign exchange, and have helped give us a favorable balance of trade for the first time since 1970.

"Because of the importance of our overseas markets, the Texas Farm Bureau strongly urges that the President and Congress resist any efforts

# Miss Vickie Lynn Haley Honored At Bridal Shower

Miss Vickie Lynn Haley, bride-elect of James Clark Hankins of Rocksprings, was honored at a bridal shower Thursday, February 7, in the home of Mrs. Jack Germany, 1900 Blair Dr.

Hostesses with Mrs. Germany were Mmes. Dale

Langlitz, Douglas Burns, Myrel Ford and Bryan Lee Johnson.

A Valentine motif, which will be used in the wedding, was carried out at the refreshment table where a statuary Cupid held an arrangement of red and white carnations, forming the centerpiece.

Milk Glass appointments were used on a white crocheted tablecloth over red. Two white heart-shaped cakes were inscribed in red with the names of the honored couple.

Receiving guests along with the bride were her mother,

Mrs. Jack Haley of Clyde, formerly of Eastland, her sister, Mrs. James L. Massey of Eastland, and Mr. Hankins' mother, Mrs. J.O. Hankins of Rocksprings.

The wedding will be Thursday, February 14, at 7 p.m. in the First Baptist Church. Friends of the couple are invited to attend.

# The Bell Ringer Drive

Mrs. Tom McCoy and Mr. L.E. Clark have been designated Bellringer Chairpersons for Carbon and Desdemona by Tom C. Caldwell, Jr., President of the Texas Association for Mental Health.

The Bellringer Drive is sponsored by the Texas Association for Mental Health, a citizens voluntary

organization working on behalf of the mentally ill and to promote mental health.

Mrs. McCoy and Mr. Clark will be organizing workers for the drive, which will take place in May, Mental Health Month.

Funds collected for mental health will be used for children's services, mental health education and information, and to stimulate community mental health services.

The Texas Association for Mental Health has taken on its first state-wide education program for new parents. The Association is working with the Office of Early Childhood Development in sending out the newsletter series "Pierre the Texas Pelican" to all new parents in the state. The newsletter, sent out periodically until the child is six, deals with the mental and emotional development of children. Over 7,000 new parents are added to the growing list each month.

The Texas Association for Mental Health does not provide direct services. Rather, it works with state and local governments to see that tax dollars for mental health are used wisely. The Association also works with the state legislature supporting Com-

community Mental Health and Mental Retardation Centers and other mental health related legislation.

There are over 20 Mental Health Association Chapters in cities and towns throughout Texas. Volunteers provide information on mental health services, conduct clinics and seminars and monitor school programs. Members also do volunteer work in state hospitals and hold workshops on mental health topics.

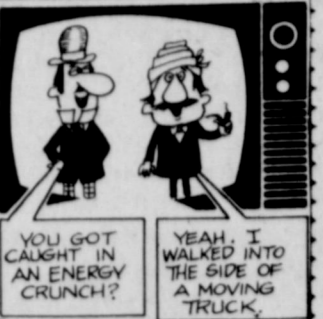

During the current year the Mental Health Association is especially interested in the needs of emotionally disturbed children. It is estimated that there are over a half million children in Texas needing some kind of mental health care, but only 6-7 percent are receiving treatment.

# Many persons suffering with flu

During this weather season, many of us are suffering the consequences of a cold, flu, or respiratory infection even though we may try to avoid or prevent it.

Since the chances are good to have a bout with the "cold bug" this year, it might behoove each of us to know more about what a cold is and what to do with it when you have it, say state health officials.

What is a cold? The common cold is a name given to any of a number of short-lived infections of the nose and throat. All of them are highly contagious. They have similar symptoms. Sometimes they are called by other names, which simply tell you what part of the upper respiratory tract is particularly affected: rhinitis, affecting the nose; pharyngitis, affecting the throat; or laryngitis, the voice box.

What causes a cold? The Texas State Department of Health points out there are many different viruses which cause a cold. A virus is a disease-producing agent so small that it goes right through the very fine filter that stops bacteria. These cold-causing viruses are present in great numbers in your nose and throat when you have a cold. They are carried on the droplets you expel when talking, coughing, or sneezing.

How do you catch a cold? Though a virus causes your cold, a number of conditions seem to increase your susceptibility (science does not yet know why or how.) People appear to catch colds mainly indoors. They get more of them during the colder months. Fatigue, chilling, and poor physical condition seem to give the virus a better foothold.

What's the course of a cold? From one to three days after the virus takes hold in your body, the symptoms appear. (But other people can catch your cold even before your symptoms appear— one reason why colds are hard to prevent.) The first hint is usually scratchiness in the throat. Within a few hours, your nose gets stuffy and you have vague feelings of discomfort and illness. Usually your start sneezing, too.

Within 48 hours, your cold is in full bloom—eyes teary, nose running, voice husky, breathing obstructed, and your senses of taste and smell dulled. You may feel lethargic and achy. It's common to have a moderate headache, especially at the beginning (but a severe one may be a sign of some complication.) You may also have some fever, although that's unusual in adults.

Once the cold has fully developed, it usually continues at its peak for several days. Then there is a gradual letting up. An uncomplicated cold commonly lasts from seven to fourteen days.

Can a cold be dangerous? In itself, no. But it can open the door to other illnesses. And it's hard to know when the door has opened, because all the viruses that cause the common cold have not yet been identified. It's very difficult to say where the simple, unperilous cold leaves off and complications, which may be dangerous, begin.

Other—non-cold—viruses may complicate matters by getting in their licks when you are already felled by a cold. Or bacteria—many of which live in your body harmlessly during times of good health—may grow strong when your defenses are down. Or sometimes your body is allergic to the cold virus or the activated bacteria.

Then the severity of the cold symptoms increases, and the inflammation and mucous discharge may spread to other parts of your respiratory system. For some people, these complications may be dangerous.

Can you cure a cold? No, you can't. There is no drug known today that can cure the common cold. Antibiotics, the "wonder drugs," are effective against bacteria, not against ordinary respiratory viruses. Doctors may prescribe these drugs for the complications—the secondary, bacterial infections—but not for the cold itself.

## Stamey Talks On Education

O.L. Stamey, and educator in Eastland County for some 51 years, discussed education for members of the Eastland Lions Club at noon Tuesday at the Ramada Inn.

There's a lot of talk about youngsters being unruly, etc., he said, "but I sometimes think that some kids make a bad choice in their choice parents."

"I believe we've got the best generation of young people right now that this nation has ever seen."

Mr. Earnest Sneed was program chairman and introduced Mr. Stamey, who also took opportunity to tell about the Crippled Children's Camp at Kerrville, where a recent board of directors meeting was held. Mr. Stamey is on the board of the diabetics camp, and urged Eastlanders to make application for any local youngster who is a diabetic who might benefit from the summer camp program there.

A total of \$31,000 was donated to the camp at the recent Kerrville meeting, he reported.

President Darwin Miller presided and guests included Kenneth Payne and Joe Cauble, and New Member James Workman.

Mr. Stamey is retiring after this year as county school superintendent, and he stated that although a lot of responsibility has been taken from the office, he has seen the administration of some \$100,000 a year for several years on the Title I program, and about a half million dollars annually to this area on the Neighborhood Youth Corps, which he credits with keeping some 200 youngsters in school who might

## Mrs. Cooper reviews For Las Leales Club

Mrs. Betty Cooper reviewed "P.S. You're Not Listening" by Fanny Kimbel for Las Leales Club Monday night. C Mrs. Cooper was introduced by Mrs. Thera Keifer.

Mrs. Rudolph Little, vice-president, conducted the business meeting. Mrs. Charlie Marshall, secretary, read minutes of the previous meeting.

Members answered roll call with "What was that you said?"

Attending were Betty Cooper, Thura Taifor, Sally Kinnaid, Sandra Reese, Ruth O'dell, Alma Hassell, Marie Boney, Verna Johnson, Lois Marshall, Kathy Swift, Karen Green, Carol Church, and Opal Little.

The Club will meet at the Women's Clubhouse February 18 with Karen Green hostess. Mmes. Floyd Robertson and Bert Herridge will present the program "Fashion as we see it."

## Trophies Given At Racing Pigeon Meet

The Eastland Racing Pigeon Club met Sunday afternoon, February 10, in the home of Mr. and Mrs. Ed Sargent. The main purpose of the meeting was to present trophies to the winners of the young bird races that were held in the fall of 1973.

Floyd Frady took top honors with two first place trophies from Ardmore, Oklahoma, a first from Bowie, and a trophy for best average speed.

Charles Bode of Breckenridge won a first place trophy flying from Bowie. Thad Kelley, also of Breckenridge, took a first place trophy flying from Ardmore.

Ed Sargent had a second place win from Ardmore and Curtis Young had a second place win from Oklahoma City. Mike Collins said he closed the watergate and watched his birds come in on the end.

Officers were chosen for 1974. Ed Sargent was elected President, Floyd Frady was chosen as Vice-President, Mike Collins was selected as Secretary-Treasurer, Curtis Young as Race Secretary and Thad Kelley was appointed Publicity Chairman.

Plans were made for the old bird races to begin April 6 from Bowie, and to continue through May 18, with the final race to be flown from Oklahoma City. An "old" bird is one that is wearing a leg band with any year number prior to the year in which he is racing. Even
