SCHOOL'S IN and enrollment is up - - but it's down. Opening Monday, a total of 830 are recorded. (That's 418 in the Elementary; 173 in Junior High School; and 239 in High School). The Elementary figure includes 26 kindergarten students. At the close of the last term, there were 817 students, s - 0 - 0 - 0, with the kindergarteners, we'd be down 13.

MRS. MIKE (Lou Ann) Collins will be featured soloist for the Men's Fellowship Bible Class Sunday, beginning at 9:45 a.m., Class spokesman Ed Sargent reports. The non denominational class meets at the Christian Church annex, and visitors are ALWAYS welcome.

A GOOD number of business men went directly from the luncheon meeting of the Lions Club Tuesday, to check their OSHA records. Speaker at the meet was Mike Culliver, safety officer for Lone Star Gas Co., and he outlined some of the problems in compliance, and told the Eastlanders some of the basic data about meeting at least the record - keeping requirements of the new Occupational Safety and Health Act laws, Herman Dempsey was program chairman and introduced the safety speaker. It was pointed out that most agree with the spirit of the new law, but some of the details leave a lot to be desired. Purpose of the law Culliver said, is to free workers from hazards on their job, but the interpretations of the standards seem to be what ever the compliance office decides. The w affects every employer whose business "affects commerce" - - "that's everybody who mails a letter, he said, "except, of course, federal and state agencies." Eugene Frost will have the program next week. President Darwin Miller presided. Guests were J.T. Carter and Mike Siebert.

## Mrs. Lillian Horton to **Celebrate 80th Birthday** Topeka until April, 1919, then

A happy toast will be the order of the day to LILLIAN HORTON on Sunday, Aug. 26th, as hundreds of friends gather to celebrate her 80th birthday! The happy occasion will take place at the Lone Cedar Country Club between 4 and 6 p.m. with an open invitation to all friends and acquaintances to come and join in.

Mrs. Horton's son Horace, and wife from Dallas; granddaughter and husband, Mr. and Mrs. James Harris of Houston. grandson, James Horton, and granddaughter, Mrs. Donna Lyles of Carrollton will host the reception.

Lillian Horton has been an active civic leader and church leader in Eastland for 52 years. She was born in Hope, Kansas, Aug. 29th, 1893, the first of twelve children - - eight girls and four boys. Eight sisters are still living. One brother, Bill Je

Lillian and her husband, Jim, were avid travelers from the early days (almost endurance tests) by automobile over many states and miles; sometimes the roads were cattle trails. Later they took train trips over the North American continent. In the last 15 years, the Hortons traveled extensively over the world, including over 65 countries.

Mrs. Horton has hundreds of beautiful slide films of their many trips and has given illustrated talks on her travels to church, club, and school groups

These latter years still find Mrs. Horton active, civic minded, an avid duplicate bridge player, an energetic gardener - to which her beautiful garden surrounding her home on Halbryan and Pershing is a testimonial.

Her son, Horace, is an investment executive with Kidder Peabody Inc. located in One Main Place Dallas. He owned and operated (and built) Horton Cermaics factory and retail shops in Eastland. Mrs. Horace (Geraldine) Horton is Distributive Education teacher at Lake

Joseph Housson, Cubmaster, and den leaders of Pack 23, sponsored by the First United Methodist Church and Richard Johnson, Scoutmaster of Troop 103, Lions Club, met with other Scout leaders from Cisco, Ranger, and Breckenridge Monday, Aug. 13th, at Eastland National Bank to make plans for the fall Roundup.

The Roundup is the program for inviting new boys to join Cub Scouting, Scouting and Exploring. This year Gov. Dolph Briscoe is the Honorary Chairman of the 1973 Fall L Roundup in our state. Gov. Briscoe has been identified with Scouting for many years in his local council and he heartily endorses Scouting as one of the most positive influences for youth today.

Each Cub Scout and Scout who recruits a new member for his Pack or Troop between now and Dec. 31st will receive a beautiful red, yellow, and blue Governor's Roundup patch which incorporates the seal of Texas. Explorers who recruit new members will receive a **Becky Jackson** 

## **To Enter Rice** August 27

Becky Jackson, daughter of Mr. and Mrs. Max M. Jackson, will be one of Rice University's 640 entering freshmen when the academic year begins Aug. 27.

The students are from schools in 42 states and 24 foreign countries. In the group are 116 high school valedictorians, 35 salutatorians, and 90 National Merit Scholars.

Rice seeks the student with a of scholastic record achievement, intellectual potential, and a wide range of talents and interests. The criteria used in an attempt to predict these qualities are (1) high school record, (2) scores on the Scholastic Aptitude and Achievement Tests administered by the College Entrance Examination Board, and (3) evaluation made by high school teachers and counselors and University representatives in personal interviews.

message titled "Kindness". His wife Dora played the piano for the songs selected by the residents. Mr. Fambrough surprised

the residents by asking for testimonies. They in turn surprised him by giving, and enjoying giving long heartfelt stories of thanks for the wonderful blessings they have enjoyed in the long life God has given them. One tiny grey haired lady ended her testimony by shouting. Mr. Fambrough said "I don't know why I haven't thought to ask for

testimonies before but you can be sure that will be a regular in any service I hold hereafter" The service ended with all singing "God be With You". Dave and Dora went home, and the residents went to lunch in the dining room. After lunch there was time for relaxation, writing letters, making quilt

tops, doing embroidery work and other odds and ends for the residents in the privacy of their room.

Supper as usual at 5:00 p.m. Immediately after supper they assembled on the front lawn for an ice cream social.

#### THE PEAR ON THE GROUND

Well, let's put it this way .... Suppose that instead of wrong. Man did not create this an apple, Eve had offered a shiny new sports car?

When we compare ourselves to Adam and Eve, we usually do not come out smelling like a rose either. We often find ourselves doing the same things they did.

I hear all along that it was not the apple in the tree, but the pair on the ground who fell.

Going back to the Garden of Eden we speculate and sav that we would never fall into the trap they did. "God means more to me than some fruit on a tree". Actually, the apple did not hurt them. What destroyed the soul of man, was his decision to be as God. They was right and that which was

world was made initially as a wrong. The crisis in their decision is found in the fact that they do not know right and world; man did not set up the

laws for nature to follow. Everything in God's creation has a natural cause and when it happens, there is a natural

that wants to be God of our own life. God is such a gentleman. He allows us to go against his will and even to be "God" of our own life if we so will. God does not steam open our secret mail and read our lives. No. He keeps hands off of our life until we get ready to give it to Him; however, natural consequences of sin often turn us to God. We shake our fist at God and vell. "why?" But let us not blame of all that is good. The Bible wanted to decide that which everything on God. There is a says that the devil may appear thing called sin that has per- as an angel of light; therefore,

blurred our looking glass into which we gaze to discover what is natural. People misuse sex and say, "It is only right to do that which is natural." Sex is natural in marriage. God in stituted marriage in the Garden of Eden. All that is natural is good, but just because it seems good, does not mean that is natural. From one standpoint sin is the perversion we must be careful when

determining if something is of God and good. It may be the Adam and Eve's sin was that

God, he can pray asking forgiveness of his sin and invite Jesus into his heart. With Jesus living inside, God - will open that person's eyes so that he can see that which is beautiful in a human person, even though sin is present. In the world around us Jesus will give us eyes to see how sin has black balled nature.

When you get tired of eating apples, let me suggest a new Gardener. You can reach Him by letting your heart to the

I remember when we were pointment. I decided to wear pastor at Stamford, the church my house shoes while driving at Baird where we had served earlier, asked me to come down on a Sunday afternoon and preach a special sermon for a

reunion day service. After lunch I rested a few minutes and then hurried to get off in time to keep the ap-

down and take my "Sunday shoes" in the car and put them on when we reached Baird. I asked our twin boys to put

my shoes in the car. They were about ten years of age, and sometimes a little careless. When we approached Baird I

told my wife I would turn the driving over to her and change my shoes. I told the boys in the back seat to hand me the shoes. Richard looked at Robert and visa - versa, and both faces blanched. Each had though the other had put them in, and neither had.

The house - shoes were felt and not appropriate in the pulpit. What to do? We drove around by the parsonage and I went in and rummaged in a closet and found a pair of pastor Davis' shoes. I put them on and went boldly into the pulpit

Brother Davis recognized the shoes and was anxious to know exactly what had happened. The time comes when we will be called upon to fill somebody's shoes: and the time will come for someone to fill ours.

Today - - 17 years to the day after the initial announcement - the last leg of Interstate 20 is now under construction through Eastland County.

The short strip from east of Eastland to west of Ranger is now being brought up to Interstate standards. Stop and go highway legislation and money has caused the delay. All other segments of Int. 20 through the county is complete, and the present project should be finished in about 18 months, it is reported.

#### DANGER CITED

The Highway Department Office here, contractors and law enforcement officers are especially asking for caution during the construction phase. One - way traffic will be maintained in both directions, but as the construction develops, various crossovers and openings will be changed, so it will be very important for local residents to observe and heed the various markings for their own safety and the safety of others.

Biggest danger is getting onto a one - way lane in the wrong direction. COST UP?

In the initial announcement in the Eastland Telegram on Aug. 23, 1956, the total cost for the county portion of the Interstate was estimated at \$15 million. The short segment now

under construction is pegged as a \$6 million job. It's interesting to note too, that in 1956, planning was very preliminary, and apparently there was some hope that the planned highway would go no further south of town, than perhaps Sadosa St. Today it's actually about four miles south of town. The August 23, 1956. interstate story said:

Plans for a 15 million dollar highway building program in

Eastland county were outlined this week for representatives of Eastland, Ranger and Cisco and members of the county commissioners court. District Engineer Bob

Milligan of the Brownwood office of the State Highway Department told city and county representatives in an executive meeting held in Eastland that all three cities would be bypassed by the new super freeway - - an eight -

lane, controlled access, coast to - coast lifeline of the nation. Milligan reportedly said that the route selected by the federal government would skirt the three cities on the south. He ruled out the possibility of continuing use of present routes through the three cities, saying, "That would mean we would

have to buy the courthouse in Eastland." The new super - highway will

be the first of its kind. It will mean that motorists can travel from coast to coast without having to stop except to refuel. The highway will bypass every city on the route, or "go over them", the engineer told the

group

Minimum speed limit on the freeway will be 50 miles an hour and the maximum speed limit will be 70 miles an hour. The highway will consist of a regular four lane divided road with two lane access roads on each side. Motorists will be required to gain the minimum speed limit on the access roads before getting on the main highway.

Completion of the coast - to coast network is due in 13 years. Milligan reported that he had just four more years with the department before he would retire, and said he planned to have considerable work done on the highway in Eastland County before then. The federal government has asked that the route through Texas be mapped in a one year period.

Three hundred feet of right of - way will be required for the new highway. The Federal government will pay 90 percent of the cost of right - of - way and actual construction. A one cent per gallon federal gas tax which became effective July 1 will pay for the cost of the project.

The proposed route for the highway, presented by Milligan, follows the old base line road all the way across Eastland county, except through the three cities. Milligan explained that there

would be no service stations. cafes or motels on the highway. To reach such facilities a motorist would have to get on the access road.

Under and overpasses will keep traffic from crossing at any point on the highway. Several different routes have

been proposed for coming through Eastland. One route follows Sadosa Street. Others go further south.

The project is a part of the \$37 billion which the federal government plans to spend on highway construction.

## HIGHWAY WEEK SEPT 23 29 1973

Terming the Texas highway system "the basic transportation resource in Texas," Governor Dolph Briscoe has designated September 23 - 29 as Highway Week in Texas. The event coincides with National Highway week which this year is under the honorary chairmanship of television personality Lorne Greene. Theme of the observance is "Better Roads - - Better Living"

It's an appropriate time to call attention to the dangerous construction between Eastland

## 14th Annual Cattlemen's Round-Up

Appointments of the area chairmen for the 14th annual Cattlemen's Round - Up for Crippled Children have been announced by Charlie Morris of Abilene, general chairman.

Area chairmen from Eastland County and the surrounding area are: Sam Kimmell and James Mc-Cracken of Cisco; Don Estes of Desdemona: Judge Austin McCloud of Eastland: and Bob Gilchrist of Thurber. These men play a key role in

the success of this unique fund raising event to support the non - profit West Texas Rehabilitation Center in Abilene, Texas. Over the past thirteen years

the Round - Up has raised well over one million dollars to help this multi - faceted treatment center carry on a comprehensive program of rehabilitation and diagnostic services for the handicapped of

Association and the Texas Highway Department.

Highways are important in the movement of goods and people between cities. Equally important are the thousands of miles of urban highways, freeways and major arterial streets which have been developed cooperatively between all levels of government. The travelways take most Texans to work, whether they drive their own cars or ride public transportation. And when work is done, they transport Texans and their visitors to recreation spots. They are essential to the health of business and industry. They are the carriers of police, fire and other emergency services. Streets and highways transport the bride to the altar,

the sick to the hospital, children to school and the family to church. Highways are basic. Indeed, better roads do bring better living.

Therefore, I, as Governor of Texas, do hereby designate the week of September 23 - 29, 1973, as Highway Week in Texas and urge all citizens to lend their support to the

development of better roads and to the Texas Highway Department.

Cattlemen's Round - Up for Crippled Children expected to raise \$130,000 of that amount. During the Round - Up, leading ranchers throughout Texas and other southwestern
