Moore... ABOUT Eastland

By Virgil E. Moore

"I'm not like Will Rogers, I've met some men I didn't like." That statement was made by Sen. A. M. Aiken Jr. when he spoke at a joint meeting of Eastland Lions and Rotarians Tuesday. The statement comes as close to being typical of the man as we know of. We found Sen. Aiken, who is a candidate for lieutenant governor, a most sincere and likeable man. We believe he will make the State an excellent second-in-command.

The Senators speech before the civic clubs here was greatly appreciated in that it did not deal with politics. We will try to do the same in our column today.

Bob King has been told, he is trimming up a tree in his yard when he discovered a swarm of bees. A brisk chase resulted, with Bob beating the bees to the back door by a nose. Looks like a job for Wendell Siebert to us.

Kenny Coghurn celebrates his birthday today, according to the Band Boosters' Birthday calendar. Mrs. E. H. Culbertson and Wayne Peel will have birthdays Friday and Mrs. Hazel Campbell and Edward Quarles will be a year older Saturday.

James Reid is a quick thinker, no doubt about it. James was presented with a pin for 10 years service as scout master here this past week, and after the presentation he quickly asserted, "Of course I started out at a very young age."

The old coins are still coming in. Looks like just about everyone has one put back somewhere. We have received some old ones, but can tell you that there are still older ones that could be brought in. Ready to monogram that stationery for you, so bring that old one in.

J. D. Hanson, who was setting records for Eastland High School when we were here before, is doing okay for himself at Ranger Junior College. A Tarleton State publicity man, Stuart Chilton, had this to say about J. D. recently: "J. D. Hanson, fleet sprinter for Ranger, stands a good chance of setting a new record in the low hurdles as he ran a 24.1 at the April 19 meet. This compares to the conference record of 24.2. Hanson also turned in a 9.7 in the 100-yard dash, which is only one-tenth of a second off the record."

We were beginning to wish we were a senior again Tuesday night. The 29 members of the graduating class were really having a time of it on their Hobo Party.

Want a puppy? We know where you can get your pick of four. Mrs. Johnny Aaron was in Wednesday and said she had four to give away. You can take your choice of brown and white or black and white. The pups are somewhere between a fox terrier and a collie and are yours for the asking. Just phone 566 after 5 p.m. or any time Saturday and Sunday.

Ad Weldon Broussard, son of Mr. and Mrs. W. J. Broussard, celebrated his birthday Tuesday in the Eastland Memorial Hospital. Weldon was king for a day at the hospital, and one of his presents for feeling a little better.

It beats us how it happened, but somehow we turned the Methodist Young People's Department pancake supper, which will be held Friday night from 6 until 7:30 p.m. in the Fellowship Hall of the First Methodist Church, into a barbecue party in our headline Tuesday. We are sorry, but you won't be if you attend the supper. You get all you can eat for just half a dollar.

Hungry Youths End Run-A-Way In Eastland

A pair of hungry El Paso teenage boys ended their run-away in Eastland Tuesday afternoon with 15 cents in their pockets and an empty gas tank in the stolen car they were driving.

The two, driving a 1951 Nash stolen in El Paso, ran out of gas near Eastland and walked in to a service station where they tried to buy gasoline. The boys had only 15 cents and the station manager notified City Police when he became suspicious.

Patrolman Neil Seabourn and Highway Patrolman Les Strawn investigated and the boys admitted the car they were driving was stolen and that they had run away from home.

After telling the officers their reason for running away—one of the boys had been expelled from school—the youths were fed and held over for El Paso juvenile officers.

Dolores Warden Secretary For Writing Day

Two of Texas' best-known authors, Madison Cooper of Waco and Dr. Arthur Sampley of Denton, will speak during Texas Christian University's annual "Creative Writing Day" May 10. Cooper is author of The Haunted Hacienda and Sironia, Texas which headed the best-seller list for 11 weeks in 1952.

Dr. Sampley, vice president of North Texas State College, has won many awards for his poetry and plays.

Miss Mabel Major, professor of English at TCU, is director and Miss Dolores Warden, junior English minor from Eastland, is secretary of the writing event which sees prizes awarded to students for their creative efforts during the year.

The awards include the Walter E. Bryson Poetry Prize, the Margie B. Boswell Poetry Award for ex-students, the Agnes Johnson Literature for Children Contest, the Southwest Literature event, as well as awards for best short story, drama and nonfiction prose. In addition, freshman students compete for prizes in four divisions. Awards are made at a campuswide convocation.

Assault Charges Filed Following Knife Skirmish

Charges of aggravated assault have been filed against an Eastland man following a knifing in Eastland.

Coe Garrett is being held in county jail in lieu of \$2500 bond. He is charged with knifing D. W. Burns Sunday night.

Former Eastland Man Seeks 17th District Seat

A former Eastland man, Dan Kralis, has announced that he will be a candidate for United States congressman from the 17th Congressional District, which includes Eastland County.

Kralis, who lived in Eastland from 1947 until 1950 when he moved to Abilene, is a geologist. He moved to Eastland County from Denver, Colorado, and at present is a petroleum consultant in Abilene.

He has a degree from Indiana University and studied law at Denver University and Baylor University. Kralis is married and the father of three children. He and his family are members of the Second Christian Church in Abilene and Mrs. Kralis is active as an officer in the Christian Women's Missionary League.

Kralis, who is 37, served as geologist on a joint project with Imperial Oil and the U.S. Army Engineers during World War II in the Arctic Circle region. His brother, Frank, was killed in action with the 36th Texas Division in France during World War II.

In the past he has engaged in ranching. Kralis' candidacy is subject to the Democratic primary election.

Son of Eastland Woman Buried In Abilene Tuesday

Funeral services for Oscar Rutherford were held at 2:30 p.m. April 24 at Black-Burn Shaw Memorial Chapel in Amarillo.

Mr. Rutherford's death occurred after a lengthy illness.

A member of the First Methodist Church in Canadian and the Old Fellows Lodge, he is survived by his wife, Hattie Rutherford of Amarillo, two sons, Clifford of Big Spring and Paine of Holtville, California; two daughters, Mrs. M. F. Boller of Amarillo and Mrs. John Robinson of Lubbock; his mother, Mrs. Billy Rutherford of Eastland; and sisters, Mrs. Etta Harlow of Eastland, Mrs. B. B. Brummett of Denton, Mrs. Ina Ellis and Mrs. R. L. Foster both of Fort Worth, Mrs. Bryan Clinton of Cisco and Mrs. Ollie Bruton of Monahans; two brothers, W. L. of Browley, California and Olen of El Centro, California and seven grandchildren.

Charges Against Mrs. Lola Harris Expected Today

Charges of possession of alcoholic beverages for the purpose of sale were to be filed against Mrs. Lola Harris, Ranger Negro this afternoon in Eastland, Ranger Chief of Police W. G. Pounds said this morning.

The charges resulted from a surprise raid by Liquor Control officers and Ranger city police Tuesday afternoon on three dwellings owned by Mrs. Harris.

Mrs. Harris was acquitted of the same charges March 29 in the 91st District Court at Eastland.

Tuesday's raid netted the officers 18 half pints of whiskey, three half-pints of vodka, three half-pints of gin, five pints of whiskey, two-fifths of wine and 16 quarts of beer. The surprise raid, the second in the last two months, netted far less than the first raid Feb. 13.

An estimated \$2,000 was taken in the initial raid.

The contraband liquor was taken from a rent dwelling belonging to Mrs. Harris. Officers listed the house at 305 Marston, two houses away from the Little Gem Hotel which is owned and operated by Mrs. Harris.

CIVIC CLUBS SPEAKER—Sen. A. M. Aiken, Jr. of Lamar County spoke at a joint meeting of Eastland Lions and Rotarians Tuesday, and urged support for nine constitutional amendments to be voted on this year.

SCOUTS FROM THREE CITIES TO HOLD CAMP AT LAKE LEON

The boys will spend the night at the lake, and Friday night at 8:30 there will be an Indian show and council fire stunts. Each post will have a stunt and the public has been urged to attend. They can park on the road opposite the lake and watch the stunts, Boone pointed out. The road to the camp will be marked.

Nine Amendments Favored By Aiken

Senator A. M. Aiken, Jr. of Paris, candidate for lieutenant governor of Texas, addressed a full house of Lions and Rotarians at a joint meeting of the two clubs Tuesday at the First Methodist Church, and spoke on the nine constitutional amendments that will be presented to the voters of the state in the November general election.

Not once did Senator Aiken mention the fact that he was a candidate for the second highest office in the state.

In discussing the amendments Senator Aiken said he hoped the people of the state would give them serious consideration because any time anything was offered to change or alter the constitution it was time to step in and take an interest.

In general, the Senator said he was in favor of all the amendments, and touched on seven of them only lightly. They were amendments which would allow judges to deny bail to professional criminals; to allow the commissioners courts to re-allocate certain county funds; to permit the Board of Regents of the University of Texas to invest money in safe, listed stocks; to allow the state to give financial assistance to totally and permanently disabled citizens; to allow the state to grant aid to persons who had been confined to the penitentiary and later found innocent; to effect certain changes in the official oath of office for state office holders; and to provide another \$100,000,000 for continuation of the Veterans Land Program.

Then the Senator said he wanted to touch on two amendments that he considered most important of all, and he implored his listeners to support them. The first of these two was HJR No. 11 which would require that no person be

committed to a state hospital for the insane without competent medical and psychiatric testimony. Aiken cited numerous cases that had come to his attention where people were railroaded to state institutions by relatives or by jurors picked up from the street to pass on their sanity, and told of the horrors and unfairness that had developed from the practice.

He said this amendment should be passed by all means and better men and women into the teaching profession which, he said, was one of the most important in the state.

The other amendment which the senator said he wished to see

passed was SJR No. 5 which would provide higher retirement benefits for school teachers and which would make the benefits available to more members of the system. This amendment would allow teachers to contribute more from their own salaries toward their own retirement, with supplemental benefits being supplied by the state. Senator Aiken said he thought this amendment would attract more and better men and women into the teaching profession which, he said, was one of the most important in the state.

Two pleas of guilty were heard this week in County Court.

Clyde Pool pleaded guilty to first offense driving while intoxicated charges and was fined \$50 and given a three day jail sentence by County Judge John Hart. His driver's license was automatically suspended for six months.

The second case involved second offense speeding. Armon Dean Tindall was fined \$100 for the offense on a guilty plea. Under state law speeding cases can be transferred from Justice Court to County Court when the person charged has been found guilty of speeding in the same month.

Lyndon Johnson's Boom For Presidential Nomination Grows

(Editor's Note: Statement of the Honorable Tom Miller, Mayor of the City of Austin, Co-Chairman of the "Johnson for President" Committee.)

One of the great obligations of citizenship in a country like ours is to work to get the best public servants possible to occupy the positions of trust in our government, on every level. We have a duty not only to elect the best man from the field of candidates offered but, also, we have a duty to see that an able, qualified man who represents our views is on the ticket.

Four years ago, many individuals within the Republican Party set out against great odds to put General Eisenhower on the Presidential ticket as their party's nominee because they believed his views were views they could support sincerely. Many Texans joined in that effort and were enthusiastic supporters of General Eisenhower because he was born in Texas.

General Eisenhower's broad support and election in 1952 ended forever the myth that a man born in Texas could not be elected President. The people of this great nation are going to judge men by their record and by what they believe, not by where they are born.

If I were a Republican, I would be working now for General Eisenhower's re-nomination and re-election because I think he is the best man that party has to offer as a candidate.

I am a Democrat, and my main interest is in seeing the Democratic Party nominate the best man our party has to offer. Texas is a Democratic state, much more so than any of the other states from which it is suggested that our party choose a nominee. Much of the strength of the Democratic Party through the years has come from Texans. I think it is time to quit standing on the outside looking through the window-pane at our party's national convention. In 1956, Texas Democrats ought to have—and can have—the opportunity to "Vote Texan by Voting Democratic" with Senator Lyndon B. Johnson as the standard-bearer on our national ticket.

No Texan in the history of the state has ever had a better opportunity of being nominated for President on the Democratic ticket than Senator Johnson. If he is nominated, it will be convincing evidence that the factionalists and narrow partisans are not in control of our party and Americans in every region will return eagerly to the Democratic Party to assure Lyndon Johnson's election as President next November.

Texans know that Lyndon Johnson wears no man's collar. They know that he has risen to the highest pinnacle of full-time leadership in the Democratic Party over the powerful opposition of the factions which have tried to dictate party affairs. Texans know, too, that Lyndon Johnson is loyal to his friends and to his principles, and no man has been more instrumental than he in winning the hardest part of the battles. Texans have wanted to be won. He is a front-line soldier for Texas, and Texans know it.

Texans have indicated again and again that they want their state to have its rightful voice of influence in national affairs. Certainly there is no better way to achieve that goal than to put a real Texan in the top position of the Democratic Party. Those who want the Texas voice to be heard with respect nationally will certainly not turn around now and fight to keep a Texan off the national ticket.

Many Texans have protested factional groups trying to take over the Democratic Party. We can't fight factions by becoming a faction or championing a fractional candidate. Lyndon Johnson is not a factional candidate. He is the ideal Texas candidate and the ideal national candidate for the Democratic Party. As the nominee of our party, he would bring to that high position of leadership a voice of reasonable, courageous

moderation which would unite Democrats of the nation as it has united Democrats in the U. S. Senate.

I believe it is time for Texans to put up or shut up about seeking proper recognition in the Democratic Party. By electing Lyndon Johnson our first choice and the favorite son of our delegation to the national convention and fighting for his nomination by that convention, we can follow a course of strength, unity, and influence which will win for us the victories which past divisions and dissensions have denied. I am proud to accept the co-chairmanship of the Johnson - for - President Committee, and I call on all Texas Democrats to unite in this effort to achieve a truly worthwhile victory. This is the golden hour for us. We must not let this great opportunity pass by us.

Mr. and Mrs. Clyde Horner and son, Mickey of Sweetwater were visitors Friday night and Saturday in the home of Mr. and Mrs. Harlin Denny, 710 Broughten.

In order for a cow to get the most out of her feed, it is necessary to feed the bacteria in the paunch. These bacteria act with greatest efficiency when the cow's feed supplies the nutrients for maximum activity. These needed types of nutrients are: a quick source of energy, a slow source of energy, vitamins, proper proteins and minerals. The best slow source of energy is cracked or rolled grains. RED CHAIN feeds furnish these, plus the vitamins, proper proteins and minerals.

DAN KRALIS

CANDIDATE FOR

United States Congress, United States Representative

17th Congressional District, Texas Democratic Ticket

PLATFORM

1. Oil and Gas

40% depletion allowance instead of 27½%. With the ever growing move by Eastern self-interest groups toward reducing the depletion allowance to 15% or even less, the whole economy of the 17th Congressional District is being placed in jeopardy. A large portion of our district's population depend directly and indirectly on some phase of the oil business. A reduction in the depletion allowance will cause drilling contractors to go bankrupt, throwing hundreds of families into debt and without livelihood. Risk money will vanish. Marginal oil operators will be forced to shut their wells down. Service companies will go broke. Independent geologists and engineers will be out of work. Landowners, farmers, and ranchers will be without money from lease rentals and bonuses. Landowners will not get their lands tested. It is a certainty that foreign oil imports will increase and the independent oil operator will be squeezed out of business. The 17th Congressional District, composed of Taylor, Jones, Eastland, Stephens, Comanche, Palo Pinto, Erath, Nolan, Fisher, Hamilton, Callahan and Shackelford counties, is the independent oil man's territory. Small fields and marginal production, is the main stay of our district's economy. Farmers and ranchers depend on oil royalties when there is no rain and when the market is low on crops and cattle. Merchants depend on the oil man's payroll, and the oil man in this district depends on the depletion allowance and control of foreign oil imports. Lowering the depletion allowance means only one thing to us, the people of the 17th Congressional District—a depression in the middle of abundance, with hundreds of thousands of barrels of oil laying untapped and unused while our foreign friends grow richer and richer on the oil brought into this country while we are growing poorer and poorer in our district.

It is axiomatic that with ever continuing depletion of domestic reserves, greater risks, higher exploration costs, we need more depletion allowance, not less. We need vigorous representation in Congress, someone who can represent the best interests of the people of the 17th Congressional District and who will not be pigeon-holed. I offer you that representation, and rest assured that the case of the people of the 17th Congressional District against self-interest groups and intellectual do nothings will be presented forcefully.

2. The "Raw" Deal the Farmer and Rancher Is Getting

A solid noncompromising solution must be forthcoming. As you know, when it takes two (true barter) \$50 cows to buy one \$60 suit (parity) something has got to give. The farmers and ranchers are sick and tired of conversation and all of the muddled plans and solutions offered them. As the agricultural economy goes, so goes our entire social order. A depletion allowance based on 100% parity can be worked out for the farmer and rancher. No fancy talk is necessary.

We are slaves of a democracy that is bent on giving the fruit and labor of our blood, tears, and sweat away freely to our foreign friends. I say we better start giving ourselves some help first. I am looking to every farmer and rancher to vote for me at the July 28th primary. This is your battle. You can speak your piece and be confident in the fact that Dan Kralis is with you all the way. As an ex-rancher, I speak sympathetically. The farmer and rancher, the cog in the wheel that injects breath in the economy of the whole nation, is being abused and mistreated. We are going to put a stop to this nonsense—You, the people of the 17th Congressional District, and I as your representative. We are going to give courage and hope to all the peoples of this land and bring back into our government the dynamic qualities of our founding fathers.

3. States Rights, The Harris Gas Bill

The constitutional issue is very much prevalent in the fight to remove unwarranted federal utility regulation of gas production. When the price of Texas products can be determined entirely by forces and self-interest groups outside of our state, it is only a short step to completely centralized government, the nationalization of the oil industry, collectivization of the rancher and farmer, and finally a total welfare state. We must have vehement and outspoken representation on this matter in Congress. We must unashamedly keep our convictions. To you, the people of the 17th Congressional District, federal regulation of gas pro-

Gather around me every woman, man, and child throughout this Congressional District and we will make the first step toward regaining our liberties and voicing the opinion of the man in the street, the bread earner, the employer, the employee, the farmer and the rancher. All of our interests in the 17th Congressional District are common and like interests.

I pledge myself before GOD to represent you uncompromisingly and defend our United States Constitution as a living document meeting the needs of a great growing, powerful, technologically advanced, self-governing republic. We cannot and will not allow the liberties and self government provided in this great document to be endangered by the intellectual "do gooders" who would have us give our lives blood, our money, our freedom, and our way of life in exchange for a lifeless philosophy and socialist economy which only the bees and ants seem to enjoy.

duction means that those of you with marginal gas lands and potential gas lands are not going to get your lands developed. It means that gasoline plants will not be developed. It means that we are ever nearer becoming a slave state when we will be told what we can do and what we cannot do at any given hour of the day. This is supposed to be a government by the people and for the people, not a government ever increasing its own power and rendering the people voiceless and without recourse. Every Congressional District in our country must awaken to the fact that we, to safeguard our individual liberties and freedom, must choose those who will represent we the people and bring the Federal Government back to we the people, by us and for us. I pledge this representation to every man, woman, and child in the 17th Congressional District.

4. Abolishment of the Evil Progressive Income Tax

We must have an all-out battle to do away with the progressive income tax. Provide for a flat rate tax income with a top limit of 22½%, plus a Federal Sales tax (housing, rent, and food exempt). The progressive income tax fulfills the prophecies of Karl Marx. Former Collector of Internal Revenue, T. Coleman Andrews, describes this income tax as "politically unsound." It is right out of the Communist Manifesto which declares that a "heavy and progressive income tax" is the first step in destroying a free and competitive economic system. We, the people, were duped when this income tax law was passed. We were told it would put the burden of taxes on the rich and relieve the poor. But the poor are getting poorer, and the rich are getting richer. A man with five million dollars when this law was passed had his five million. He could loan it out at 5% interest and make \$250,000 per year. The poor man got stuck. The more money the poor man made, the more he gave the government. During good years, the poor man gives practically everything he makes to the government. During lean years, the poor man doesn't get help from the government. The rich man, who had all his capital intact when this silly income tax law passed, steps in and forecloses on the poor man in lean years. There are no real millionaires except those who were millionaires before this evil income tax law was passed, and they are getting richer and richer while the poor man has no opportunity to make and save money and enjoy some of the finer things of life.

Such a tax system is directly opposed to the first principles of the American form of government under the Constitution. It is a completely unlimited tax arbitrarily graduated to discriminate against the successful and against the forgotten man of the middle and low income groups who pay most of the government's bills. Have confidence in me. Believe me. I will have a good deal more to tell you about this before July 28th and I know each and everyone of you will want to do away with this unforgivable law that caught we the people with our guard down.

5. Foreign Policy—The Give-Away Race

The "big bribe" to keep our foreign friends from going communistic is one of the saddest situations in American history. The Senate International Security Committee found that it wasn't poverty and hunger that made Communists, but a thirst for power among demagogues and a deluded idealism among intellectuals. The Russians are not giving anything away. They are making loans and barter deals and getting a ruble's worth for every ruble they put out. There is something craven in the spectacle of our "rich" and powerful government which thinks it must scatter candy around the world lest it find itself alone and friendless. The facts seem to be that our largess bought no friends and earned us more resentment than good will.

AMERICAN PRIVATE CAPITAL is willing and even eager to seek investment abroad and under private management it would produce results. You and I do not have to give the government money so it can throw it away for us. With our give-away program and lack of assurance that private investment would be secure against confiscation or nationalization in the name of socialist progress, private capital has a rough time. I do not deny that a shortage of capital is the great handicap to industrial development in the countries of our aid list, but why can't it be obtained on the same terms that America obtained funds that developed this country? Are we selling democratic capitalism or socialism? Let us stop this nonsense for once and for all.

Note: My platform is presented at this early date in the campaign to give those of you who favor my stand an opportunity to form your own campaign groups in my behalf to carry the message to every man, woman and child in the district. This is not a political campaign. It is a crusade to bring us back our self-respect and strong representation in Congress by the people and for the people.
