Moore...

ABOUT Eastland

By Virgil E. Moore

Eastland pays tribute to Henry Pullman this week. And we at The Telegram want the world to know that we are mighty proud of old Henry — even if he is a Rotarian.

Henry has been a mighty good friend of Moore About and of the Telegram too. We just hope he has 30 more years just as good as the past 30.

Cecilia Copeland, nine-year-old granddaughter of Justice of the Peace Jim Boggs, was acting like a big girl Thursday. Boggs had to leave the office a while and Cecilia to answer the phone. She answered she said she was of the Peace office. When asked who was speaking she quickly replied, "Mr. Boggs' secretary."

Mrs. Johnny Aaron phoned in to say she was out of puppies. We mentioned four she had to give away in our Thursday's column, and Mrs. Aaron said they were all gone 15 minutes after she got home. Looks like there is a good market for pups, so if you have some you want to give away, phone us and we will slip it in the column free gratis. That's to give away, remember. If you want money for 'em you can buy your own ad.

And speaking of dogs. We had a phone call this week asking that we mention the danger of dog poisoning. Actually we have had some first hand experience in the matter this time, two of the neighbors' dogs have died in the street right by our house. We don't know how likely it is that a child will get the poison instead of a dog, but we do know that we have two young boys that will eat anything they can get their hands on. It would be hard for us to understand if one of them were to get poisoned. Frankly we are against poisoning a dog.

Now calm down there! We know there are two sides to this question. Despite the efforts of dog owners to have their dogs vaccinated and licensed, and despite the good work done by our police department, there are still a lot of stray dogs around. That was true around our house, where a gang of six dogs were roving. Some of the dogs were good pets though, and they should not have to die because of what some other does. Let's be fair about this thing. If a dog gets after your chickens, your stock or what have you, it's far from us to say you don't have a right to kill him. Don't pick on all of them though. Just the ones that bother you.

Mrs. Alice Speer and Mrs. Herbert Eckert have birthdays today, according to the Band Boosters' Birthday calendar, and D. B. Aston will celebrate Monday.

Remember, Monday is the last day to get those old coins in. We have seen a lot of them, but would like to add your name to the list.

Never did thank Mrs. L. E. H. for bringing by a Band Boosters' calendar for us. We do not say thank.

Speaking of fish stories. There was a guy in here this week who was claiming that he dropped a bottle of hair tonic by accident into Lake Leon. Soon, he said, all the fish began to grow long beards. Anglers simply sat in their shacks, planted red and white barber poles at the edge of the water, and hollered next.

James Wright, veterans' service officer, was in this week to tell us he now has a few copies of the Texas Veterans' Land Program information and procedures booklet. James said anyone who was really interested and needed a booklet was welcome to one.

See where someone else besides Bob King is having bee trouble. Don't know who it was, but some lady had the misfortune of having a whole swarm of bees land on her car in the vacant lot across from Texas Electric. We are ashamed to admit it, but we were just afraid to get close enough to get the woman's name.

That's it for now. See you Tuesday.

HOBO PARTY—Members of the Eastland High School Class of 1956 are pictured as they appeared this week at their Hobo Party. We could name them for you, but it will be more fun if you try to figure out who is who. The party consisted of going from house to house getting food for a genuine hobo supper. Eastland County Wildcat Staked Near Carbon

Irish Drilling Co. of Eastland is swabbing oil from perforations at 1680-85 feet in their No. 1 Wadell, 1 1/4 miles northwest of Scranton in Callahan County, and in an attempt to bale dry oil couldn't be lowered.

The well is in the process of completion.

The Eastland company is also drilling ahead in the Williams A-21, and are now at 2050 feet.

New locations in the area also include an Eastland County wildcat. It is the No. 2 L. J. McAfee being drilled by Fox and Ransdell of Abilene. Location for the well is two miles northeast of Carbon. Proposed depth is 1200 feet with rotary.

In other area oil news, Pryor Lester Jr. of Abilene has staked the No. 1 N. M. George as a wildcat in Callahan County. The well spots 330 feet from the north and west lines of Section 71, 4 1/4 miles east of Baird. Proposed depth is 4400 feet with rotary.

In Stephens County, Leo Vesemir Jr. has staked the No. 1 Mabel Wood Baker 14 miles northwest of Breckenridge. Proposed depth is 4550 feet with rotary.

A Shackelford County try has been located 2 1/2 miles east of Albany. It is the No. 1 Vernon A. and Alvin W. Powers, and operator is E. E. Swink, et al. Proposed depth is 1000 feet with casing tools.

Also in Shackelford County is Gates Royalty Co.'s No. 4 J. A. Matthews. The regular field try is staked three miles north of Albany. Proposed depth is 1250 feet with casing tools.

Entertainment for the evening was furnished by Jimmy Duncan of the Dublin FFA chapter.

Ranger Woman Faces Two Liquor Charges

Surprise Charge Is Filed By DA In Eastland

Two charges were filed against a Ranger Negro woman, Mrs. Lola Harris, in Eastland Friday following a raid on a house owned by the Negro by State Liquor Control officers and Ranger City Police earlier this week.

District Attorney Joe Nuesse said that he had filed charges of "possession of whiskey and gin for the purpose of sale" and in addition charges of "maintaining or assisting in maintaining a common nuisance in a house owned by her where whiskey and gin was stored in violation of Texas Liquor Control laws."

The District Attorney also said that he expects to file identical charges against the woman's son-in-law, Charlie Warren.

Mrs. Harris earlier this year beat charges of maintaining liquor for purpose of sale following another raid by officers, and the storing charges were viewed as an attempt by the DA to avoid defense tactics used in the first trial.

In the raid Tuesday afternoon officers netted 18 half pints of whiskey, three half-pints of vodka, three half-pints of gin, five pints of whiskey, two-fifths of wine and 16 quarts of beer. The whiskey and wine was confiscated from a house at 305 Marston, in Ranger.

HENRY PULLMAN
30th anniversary

KENRY PULLMAN CELEBRATES THIRTY YEARS IN BUSINESS

One of Eastland's oldest business firms, Eastland Iron and Metal Co., this week celebrates its 30th anniversary under management of one individual.

Founded in 1926 by Henry Pullman, Eastland Iron and Metal remains under Pullman's management today. Pullman has selected this week to celebrate the company's "birthday."

The company was first located just across the tracks from the freight depot. Four years later, in 1930, it was moved to its present location on east Highway 80.

Pullman, a native of Lithuania, came to the United States July 25, 1913. He joined the Army in 1917, just 25 days after the declaration of war of Germany. May 5, 1920 he received his discharge at Dallas and remained there until 1923.

While in Dallas Pullman married in 1932. The Pullmans have two children, Mozelle, who is now Mrs. Jack Katz of Hialeah, Fla., and Saul, a sophomore at Eastland High School.

In 1923 he moved to Eastland. He recalls that his coming here was quite by accident. He intended to go to Amarillo, but his father-in-law asked him to come to Eastland to sell some land for him. He agreed to do so and when he got here he was so impressed with the town that he bought the property himself and went into the grocery business.

He remained in the grocery business until 1926 when he first established Eastland Iron and Metal Co.

During the 30 years Henry has been in business, car load after car load of scrap has been shipped from Eastland. The metal comes from a large surrounding area, and in one year alone the company shipped 275 car loads, totaling 12,370 tons.

During World War II Pullman was one of 14 dealers in the state who were presented the War Production Board Scrap Producer Merit award for shipping scrap tonnage for the benefit of the war effort.

Jack Blackwell Wins County FFA Tractor Contest

For the second consecutive year, Jack Blackwell won the County FFA tractor driving contest in Eastland Thursday.

The junior student, who has been driving a tractor since "he was four," according to his father, Curtis Blackwell, edged past opponents from Eastland, Olden, Cisco and Rising Star, in sweeping to his second victory.

He will now represent the county in the district meet to be held sometime in May at an undetermined site.

Winners of the 12 districts in the state, that are sponsored by Ford tractor dealers, will compete in the tractor driving contest at the State FFA convention in Dallas sometime this summer.

Winner of the meet will be given a new tractor.

The county meeting in Eastland was sponsored by the Perkins Implement Co.

Blackwell won a place in the county show by edging other members of the Ranger Chapter when competition first began.

Country Echoes

Mrs. Bill Tucker

Did you know that an old steel cultivator wheel makes the nicest kind of mud-scraper at the door?

We have a special sticky textured soil here when it rains. Saturday's precipitation was around six-tenths inches in the rain gauge.

Farmers are busy in this neighborhood, some are planting, others preparing land for planting.

One of our special hobbies is meeting and getting to know people.

On Friday, we chanced to meet Mr. and Mrs. Rolfe Whittaker, of Los Angeles, California. They were en route to New York City to meet their daughter and her family, Mr. and Mrs. E. R. Reynolds and three children, who are arriving in the States soon from Pakistan, where they have been serving as missionaries.

Mr. Whittaker is a native son of Indian Mountain Community, attending the school when a youngster, while living on the farm adjoining our present location. He took a picture of our washpot, filled and heating in preparation for the week's wash.

This recalled memories, he said, of his mother's mode of washing. He also took a snapshot of the dirt tank where the family used to get their water supply.

Mr. Whittaker moved to the Rio Grande Valley in his early youth and later to California, where he has been an established businessman since 1943.

The Whittakers visited in Gorman with old-time friends and school mates before resuming their journey, and who knows, perchance these jolly people may pass our way again.

Thanks to Jerry Iley for the plants and cuttings for our yard.

The Saint Jo Home Demonstration Club met Friday, April 20 in the club house, on the Desdemona-DeLeon Highway, with eight members answering roll call. Mrs. W. W. Sadberry presided over the business session.

The club is adding a new two-burner electric hot plate to the kitchen equipment, through percentage sales of a local dealer's household items.

Mrs. Clyde Wall gave a demonstration on making and decorating hot plate mats of cork. This craft is simple to do and inexpensive.

This writer was the recipient of the Birthday Gifts. This is being done for each member as her birthday passes.

The hostess, Mrs. Newton, served lemonade and cookies during the refreshment period.

REV. RABURN R. HOLTON

Guest Speaker To Preach At Baptist Church

Rev. Raburn R. Holton will be the guest speaker at the First Baptist Church Sunday. He is representing the Texas Alcohol-Narcotics Education, Inc. with headquarters in Dallas.

Rev. Holton was born in Ennis, moving to Wellington at the age of one. He attended the Wellington public schools, graduating from the Wellington High School.

He served three years in the Air Corps. After his discharge from the Air Corps, he was a wholesale gas distributor for the Continental Oil Company in Muleshoe for a number of years before entering the ministry. He is a graduate of Wayland Baptist College, Plainview. He has studied at the Institute of Scientific Studies for the Prevention of Alcoholism at Loma Linda, California. He is at present doing graduate work at Southwestern Baptist Seminary, Fort Worth. He now serves as chairman of the Speaker's Bureau of TANE.

Alpha Delphian Club Speaker Is Mrs. J. C. Day

The members of the Alpha Delphian Club met in the Woman's Club Thursday at 3 p.m. for their regular meeting.

The meeting was opened with the group reading the club woman's creed. Mrs. D. J. Fiensy, president, presided over the business session.

Mrs. J. C. Day, who was presented by Mrs. O. M. White, program chairman, gave a talk on "Music Appreciation." Mrs. Fiensy spoke on the subject "A Career and Music Therapy."

Mrs. E. A. Beskov gave a piano number "The Morning Song," and Mrs. R. L. Carpenter presented a solo titled "Face to Face" accompanied by Mrs. Beskov.

Members present were Mesdames Fiensy, Day, Carpenter, Beskov, White, Roy Lawson, O. L. Hooper, Ina Bean, Clyde Young, Guy Quinn, Sr., Marvin Hood and B. O. Herrell.

The next meeting of the club will be the closing of the club year program at the Woman's Club May 10 at 7:30 p.m. at which time new officers will be installed.

Mrs. Elizabeth Butler is visiting her son and family in Pecos this week. She will remain there for several days.

Mr. and Mrs. C. S. Stambrough of Lubbock are visiting in the home of L. P. Stambrough and family.

CELEBRATE 30 YEARS—The Henry Pullman family is pictured above. From left to right are Mrs. Pullman, Saul, Mr. Pullman and Mrs. Mozelle Katz. This week the family celebrates their father's 30th year in the scrap iron and metal business here.

Wedding Date Set By Miss Sandra Harrell and Mr. Durward Smith

The Olden Baptist Church will be the scene of the wedding of Sandra Harrell, daughter of Mr. and Mrs. J. D. Herrell of Olden and Durward Smith, son of Mr. and Mrs. Wesley Smith of Cisco, Saturday, May 26 at 7:30 p.m. Rev. Otis Strickland, president

of Decatur Baptist College will officiate at the double-ring ceremony.

Patsy Turner of Tarleton State College, Stephenville, will be the bride's only attendant and Bill Smith of Cisco will serve as his brother's best man.

Bob Black of Texas Tech, Lubbock and David Pippin, Hardin-Simmons University, Abilene, cousins of the prospective bridegroom, will usher.

Jimmy Everett will sing, accompanied by Thelma Edwards.

"No formal invitations are being sent and the parents of the bride-elect wish to cordially invite the relatives and friends of the families to attend the wedding and reception," it was announced.

Duet Is Played By Two Eastland Piano Students

The Brownwood District Music Teachers' Association presented two members of their classes at the Denman Music Hall Monday, at 7:30 p.m.

Chester Parks, director of the high school orchestra at Brownwood, presided and Dr. Mae Brannon, professor at Howard Payne College, received the guests and students.

Mrs. A. F. Taylor presented Linda Huckabay and Jan Robertson in a piano duet, "Morning Mood" by Greig and Phyllis Phillips played "Moonlight Sonata" by Beethoven.

Eight teachers from Brownwood and two from Goldthwaite presented students from the 7th to 10th grades in school to a full house.

Others attending from Eastland were Mr. and Mrs. L. E. Huckabay.

Look Who's New

Mr. and Mrs. Harold Everett, 1474 Mockingbird Lane, Abilene, are the parents of a baby girl, Shelley, born April 27. Grandparents are Mr. and Mrs. Austin Cawyer of Orange and Mrs. E. O. Everett of Eastland. Great-grandparents are Mrs. H. E. Everett of Santa Anna and Mrs. Edna Dwyer of Brownwood.

June Glibreath, of San Antonio was here this week visiting his parents, Mr. and Mrs. G. R. Glibreath.

County Home Demonstration Council To Meet Wednesday In Eastland

The Eastland County Home Demonstration Council will meet Wednesday, May 2 at 2 p.m. in the Texas Electric Conference Room, Eastland, in observance of National Home Demonstration Week which will be April 29 through May 5.

All home demonstration club members in the county are urged to attend this meeting, at which time there will be a special report

on the Texas Home Demonstration Association meeting held April 23 and 24 at Hillsboro. Eastland County women attending this meeting were Mrs. Cecil Bostick and Mrs. Ernest Schaefer, Mrs. Buelah Turner, Mrs. Clint McCain, and Mrs. Minnie Mae Hart, Eastland County Home Demonstration Agent, as visitors.

A special feature on the council agenda will be a book review, recreation by the clubs, and refreshments.

Christian Science

The unflinching, supreme justice of God, which brings freedom and peace in the measure that it is understood and adhered to, will be brought out at Christian Science services Sunday in the lesson-sermon entitled "Everlasting Punishment."

Scriptural passages will include the following from Proverbs (3: 11, 12): "My son, despise not the chastening of the Lord; neither be weary of his correction: For whom the Lord loveth he correcteth; even as a father the son in whom he delighteth."

Selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include the following (542: 19-21): "Let Truth uncover and destroy error in God's own way, and let human justice pattern the divine."

The Golden Text is from Proverbs (13:21): "Evil pursueth sinners; but to the righteous good shall be repayed."

All women interested in participating in the Home Demonstration Club Choir are asked to meet at 1 p.m.

"There will be window displays in the different towns in the county, special programs, and a radio program in observance of National Home Demonstration Week. Any support received at this time, will be greatly appreciated," stated Mrs. Hart, county Home Demonstration agent.

TELEPHONE TALK

by W. H. McNally, Manager

Sun Power

Probably all of us can remember flashing messages with a mirror on a bright, sunny day. Or maybe you burned holes in dry leaves.

Well, we were all using "sun power." A simple form of it, yes. But it was still power from the greatest source of energy man has ever known—the sun.

For years, we've been reading about how men have been trying to capture and put to work the sun's energy. And telephone scientists, just in the past few months, have come up with the first workable device to the job. It's called the Bell Solar Battery.

Believe it or not, the heart of the Bell Solar Battery is common ordinary sand. From this sand, silicon disks are made which can convert sunlight into electrical power.

How will the Bell Solar Battery affect your telephone service? Really, we don't know yet. But right now, an experimental installation of solar batteries is supplying power on rural telephone lines in another part of the country. This experiment may give us some answers.

Regardless of the future of the Bell Solar Battery, it is already proof of one thing. Telephone scientists will go to any lengths to find ways of improving your service.

This time they've even brought the sun into the act.

The Miles Flash By

When you pick up the receiver of your telephone to make a Long Distance call, you're turning hours or days into seconds.

That's because a Long Distance call puts you in touch almost instantly with friends or relatives in a distant city.

As well as being the best way to keep in touch any time, a Long Distance call is also a happy thought for a special occasion—such as a birthday, anniversary, wedding, or just family get-together. You can talk as long as you like because Long Distance rates are low, especially if you call station-to-station. Remember, also, to call by number. Your calls will go through twice as fast.

Welcome Mat Is Out

From time to time, individuals or groups stop in at the telephone company to learn how we do things—and to see what's behind their telephone service.

If you'd like to do the same with friends or a business or social group, just call me. I'll be happy to plan a visit for you.

Texas Federation of Women's Clubs To Present 9 Resolutions

"Nine Resolutions will be presented to the Convention Body of The Texas Federation of Women's Clubs at their 59th Annual Convention, Dallas, May 7-10, in addition to reaffirming two resolutions heretofore acted on," stated the organization president, Mrs. L. E. Dudley, Abilene.

Important among these is a resolution calling for support of House Joint Resolution 588 by Congressman Rogers which seeks approval of the principle of reserving to the several states the power to conserve and regulate the exploration, production and distribution of their petroleum products, water, sulphur and other minerals and natural resources. Another relates to the inequalities of separate property by married men and women and calls for petition to the 55th Legislature to pass legislation that will remove the disabilities arising from women's marital status.

The principal amendment being offered calls for increased representation for clubs whose membership is greater than the basic fifteen member requirement and will allow an additional delegate for each unit of fifteen members.

Morning and afternoon sessions will be devoted mainly to business and reports, with luncheon and dinner programs featuring key speakers.

Convention entertainment will include the Denton Civic Boy Choir, music by talented members of the Federation, an exhibit of Second District as hostess and a final reception honoring the incoming officers.

Presbyterian Sermon Topic: 'Yoke of Christ'

Morning worship at the First Presbyterian Church, the Rev. Eugene H. Surface, minister, is at 11 o'clock. The title of the sermon is "The Yoke of Christ." The text is Matthew 11:28-38. Sunday church school convenes at 10 o'clock. Plans are under way for Vacation Church School, to be held soon after public school is out. Mrs. Carl Johnston is the director, and under her are a capable staff of teachers and other helpers. More definite announcements will be made next week. The Women's Association meets at the church on Tuesday, May

first, at 9:30 o'clock. At this meeting, besides Bible lesson on the book of Ephesians, and discussion of business and service projects, reports will be given of the meeting of the Abilene Presbyterian Society held in the Matthews Memorial Church at Albany on last Friday, which some four women of the local Presbyterian Church attended.

King Paul of Greece has called for the right of self-determination for the Greek residents of the British-held islands of Cyprus, swept in recent weeks by the flames of nationalism. Reports from Great Britain state that she will become the first nation to set off a hydrogen bomb from an aircraft. The bomb will be released from a high-altitude jet somewhere east of Christmas Island in the South Pacific during tests in 1957, according to one London newspaper.

In order for a cow to get the most out of her feed, it is necessary to feed the bacteria in the paunch. These bacteria act with greatest efficiency when the cow's feed supplies the nutrients for maximum activity. These needed types of nutrients are: a quick source of energy, a slow source of energy, vitamins, proper proteins and minerals. The best quick source of energy is molasses. The best slow source of energy is cracked or rolled grains. RED CHAIN feeds furnish these, plus the vitamins, proper proteins and minerals.

Monday evening at 7:30 a cabinet meeting of the chairmen of the functional committees, and chairman and vice chairman of the board will be held in the annex of the Christian Church.

Monday evening at 7:30 in the home of Mrs. H. R. Garrett, will be a meeting of the Business and Professional Women of the church, Group 5, to discuss their plans for the coming new fiscal year in CWF. All women in this group are urgently needed to make some vital decisions.

Tuesday at 9:30 a.m. will be the Prayer Workshop. The character of this group has changed somewhat, it being more of a study group of prayer, using intercessory prayer as a supplement.

Wednesday at 7 will be choir rehearsal, preparing for Mother's Day music with Howard Gill directing.

There will be a Christian Women's Fellowship workshop for all officers, present and in-coming, at Abilene, Thursday, at Abilene. The meeting starts at 9:30 and ends at 2:45, at the Second Christian Church. A nursery is available. Program ideas, "know how" for officers, and inspiration for all will be offered. Those going are guests at a luncheon.

Reservations are to be in at the parsonage by Monday night at evening service, so they may be mailed to Abilene. Dr. Nina Calhoun, state service chairman, Mrs. R. O. Pearson, state study chairman, and Mrs. C. F. Bailey, worship leader, will be resource leaders for this workshop. All officers of the CWF of the First Christian Church are urged to attend. Transportation will be available for all at 8:30 a.m.

CANDIDATE FOR

United States Congress, United States Representative

17th Congressional District, Texas Democratic Ticket

PLATFORM

1. Oil and Gas

40% depletion allowance instead of 27%. With the ever growing move by Eastern self-interest groups toward reducing the depletion allowance to 15% or even less, the whole economy of the 17th Congressional District is being placed in jeopardy. A large portion of our district's population depend directly and indirectly on some phase of the oil business. A reduction in the depletion allowance will cause drilling contractors to go bankrupt, throwing hundreds of families into debt and without livelihood. Risk money will vanish. Marginal oil operators will be forced to shut their wells down. Service companies will go broke. Independent geologists and engineers will be out of work. Landowners, farmers, and ranchers will be without money from lease rentals and bonuses. Landowners will not get their lands tested. It is a certainty that foreign oil imports will increase and the independent oil operator will be squeezed out of business. The 17th Congressional District, composed of Taylor, Jones, Eastland, Stephens, Comanche, Palo Pinto, Erath, Nolan, Fisher, Hamilton, Callahan and Shackelford counties, is the independent oil man's territory. Small fields and marginal production, is the main stay of our district's economy. Farmers and ranchers depend on oil royalties when there is no rain and when the market is low on crops and cattle. Merchants depend on the oil man's payroll, and the oil man in this district depends on the depletion allowance and control of foreign oil imports. Lowering the depletion allowance means only one thing to us, the people of the 17th Congressional District—a depression in the middle of abundance, with hundreds of thousands of barrels of oil laying untapped and unused while our foreign friends grow richer and richer on the oil brought into this country while we are growing poorer and poorer in our district.

It is axiomatic that with ever continuing depletion of domestic reserves, greater risks, higher exploration costs, we need more depletion allowance, not less. We need vigorous representation in Congress, someone who can represent the best interests of the people of the 17th Congressional District and who will not be pigeon-holed. I offer you that representation, and rest assured that the case of the people of the 17th Congressional District against self-interests groups and intellectual do nothings will be presented forcefully.

2. The "Raw" Deal the Farmer and Rancher Is Getting

A solid noncompromising solution must be forthcoming. As you know, when it takes two (true barter) \$50 cows to buy one \$60 suit (parity) something has got to give. The farmers and ranchers are sick and tired of conversation and all of the muddled plans and solutions offered them. As the agricultural economy goes, so goes our entire social order. A depletion allowance based on 100% parity can be worked out for the farmer and rancher. No fancy talk is necessary.

We are slaves of a democracy that is bent on giving the fruit and labor of our blood, tears, and sweat away freely to our foreign friends. I say we better start giving ourselves some help first. I am looking to every farmer and rancher to vote for me at the July 28th primary. This is your battle. You can speak your piece and be confident in the fact that Dan Kralis is with you all the way. As an ex-rancher, I speak sympathetically. The farmer and rancher, the cog in the wheel that injects breath in the economy of the whole nation, is being abused and mistreated. We are going to put a stop to this nonsense—You, the people of the 17th Congressional District, and I as your representative. We are going to give courage and hope to all the peoples of this land and bring back into our government the dynamic qualities of our founding fathers.

3. States Rights, The Harris Gas Bill

The constitutional issue is very much prevalent in the fight to remove unwarranted federal utility regulation of gas production. When the price of Texas products can be determined entirely by forces and self-interest groups outside of our state, it is only a short step to completely centralized government, the nationalization of the oil industry, collectivization of the rancher and farmer, and finally a total welfare state. We must have vehement and outspoken representation on this matter in Congress. We must unashamedly keep our convictions. To you, the people of the 17th Congressional District, federal regulation of gas pro-

Gather around me every woman, man, and child throughout this Congressional District and we will make the first step toward regaining our liberties and voicing the opinion of the man in the street, the bread earner, the employer, the employee, the farmer and the rancher. All of our interests in the 17th Congressional District are common and like interests.

I pledge myself before GOD to represent you uncompromisingly and defend our United States Constitution as a living document meeting the needs of a great growing, powerful, technologically advanced, self-governing republic. We cannot and will not allow the liberties and self government provided in this great document to be endangered by the intellectual "do gooders" who would have us give our lives blood, our money, our freedom, and our way of life in exchange for a lifeless philosophy and socialist economy which only the bees and ants seem to enjoy.

duction means that those of you with marginal gas lands and potential gas lands are not going to get your lands developed. It means that gasoline plants will not be developed. It means that we are ever nearer becoming a slave state when we will be told what we can do and what we cannot do at any given hour of the day. This is supposed to be a government by the people and for the people, not a government ever increasing its own power and rendering the people voiceless and without recourse. Every Congressional District in our country must awaken to the fact that we, to safeguard our individual liberties and freedom, must choose those who will represent we the people and bring the Federal Government back to we the people, by us and for us. I pledge this representation to every man, woman, and child in the 17th Congressional District.

4. Abolishment of the Evil Progressive Income Tax

We must have an all-out battle to do away with the progressive income tax. Provide for a flat rate tax income with a top limit of 22½%, plus a Federal Sales tax (housing, rent, and food exempt). The progressive income tax fulfills the prophecies of Karl Marx. Former Collector of Internal Revenue, T. Coleman Andrews, describes this income tax as "politically unsound." It is right out of the Communist Manifesto which declares that a "heavy and progressive income tax" is the first step in destroying a free and competitive economic system. We, the people, were duped when this income tax law was passed. We were told it would put the burden of taxes on the rich and relieve the poor. But the poor are getting poorer, and the rich are getting richer. A man with five million dollars when this law was passed had his five million. He could loan it out at 5% interest and make \$250,000 per year. The poor man got stuck. The more money the poor man made, the more he gave the government. During good years, the poor man gives practically everything he makes to the government. During lean years, the poor man doesn't get help from the government. The rich man, who had all his capital intact when this silly income tax law passed, steps in and forecloses on the poor man in lean years. There are no real millionaires except those who were millionaires before this evil income tax law was passed, and they are getting richer and richer while the poor man has no opportunity to make and save money and enjoy some of the finer things of life.

Such a tax system is directly opposed to the first principles of the American form of government under the Constitution. It is a completely unlimited tax arbitrarily graduated to discriminate against the successful and against the forgotten man of the middle and low income groups who pay most of the government's bills. Have confidence in me. Believe me. I will have a good deal more to tell you about this before July 28th and I know each and everyone of you will want to do away with this unforgivable law that caught we the people with our guard down.

5. Foreign Policy—The Give-Away Race

The "big bribe" to keep our foreign friends from going communistic is one of the saddest situations in American history. The Senate International Security Committee found that it wasn't poverty and hunger that made Communists, but a thirst for power among demagogues and a deluded idealism among intellectuals. The Russians are not giving anything away. They are making loans and barter deals and getting a ruble's worth for every ruble they put out. There is something craven in the spectacle of our "rich" and powerful government which thinks it must scatter candy around the world lest it find itself alone and friendless. The facts seem to be that our largess bought no friends and earned us more resentment than good will.

AMERICAN PRIVATE CAPITAL is willing and even eager to seek investment abroad and under private management it would produce results. You and I do not have to give the government money so it can throw it away for us. With our give-away program and lack of assurance that private investment would be secure against confiscation or nationalization in the name of socialist progress, private capital has a rough time. I do not deny that a shortage of capital is the great handicap to industrial development in the countries of our aid list, but why can't it be obtained on the same terms that America obtained funds that developed this country? Are we selling democratic capitalism or socialism? Let us stop this nonsense for once and for all.

Note: My platform is presented at this early date in the campaign to give those of you who favor my stand an opportunity to form your own campaign groups in my behalf to carry the message to every man, woman and child in the district. This is not a political campaign. It is a crusade to bring us back our self-respect and strong representation in Congress by the people and for the people.

What Is A Scrap Man ?

A scrap man is one of the most important cogs in the great wheels of the Iron & Steel Industry. He is the "gathering point," the middle man, between the small scrap collector and the largest scrap brokers in the country.

The scrap man sells nothing to the general public and does not clamor for distinction, yet he renders a service that the nation can not do without.

Generally speaking, the scrap man does not do business with a large section of the people in his area, and therefore little is known of him. But his business extends by highway, rail, water, and every other kind of transportation, into the very heart of the industrial life of the country. The scrap man pays cash for what is generally considered as worthless materials, and contributes substantially to the economic well being of the area over which he operates.

For the past 30 years (and a little more) I have been doing business in the Best Town in the Best County in the Best State of the Best Country in the world, and with the BEST PEOPLE ON EARTH! During this time I have met thousands of people and made thousands of customers out of them. Whatever small measure of success I have achieved, I owe it to these fine people, who have chosen to patronize me in the Junk Business.

For 30 years our motto has been "square dealing" the year round, and we have tried to live up to it. To us, a customer is not an outsider to our business — he is an important part of it, and we are dependent upon him. We constantly bear in mind the fact that if our customers can not make money by dealing with us they are not going to be satisfied, and for that reason we leave no stones unturned to give them the break of every market advantage that our business offers.

We are engaged in the business of buying junk — it is not a glamorous business but it is one of the most important in America. Literally millions of tons of valuable scrap metal are salvaged every year and returned to the industrial channels of this nation to be used in the manufacture of the finer things of life. During our 30 years in business here we have paid out hundreds of thousands of dollars to the people in this area for materials which they have brought us, and we have shipped thousands, and thousands of tons of this material to smelting plants all over the nation. There is no telling how many hundreds of car loads of "junk" we have shipped from Eastland.

Yes, it has been a pleasant and profitable business for all of us, and the demand for scrap iron and metal is greater now than ever before — even greater than it was in the war years. The price of scrap iron and metal is strong and steady, and we invite any and all of you from any and every where to bring us your scrap if you have any scattered about your place. Whether it is a wheelbarrow load or a truck load, we are glad to get it, and we're always glad to see you at Eastland Iron & Metal Company.
