

Man Burns In Pipeline Fire

The body of a man was believed to be in flames which followed a pipeline explosion at Flower Grove community, seven miles southwest of Ackerly, shortly before noon today.

American employee on the farm, was brought to Cowper Hospital, suffering from burns. Extent of his injuries was not known immediately.

Contracts Let For New Church Building Here

Contract has been awarded for the construction of the New Baptist Temple Church plant.

Ground breaking ceremonies, said the Rev. James Parks, pastor, will be held on the site on Eleventh Place between Nolan and Gollad at 7 p.m. Tuesday.

Baker Willis is to be builder of the brick-veneer structure which will cost between \$140,000 and \$150,000. No working days have been specified, but the Rev. Parks said it was hoped that the congregation, now meeting in the high school auditorium, could move into the sanctuary by Oct. 1.

Polio Claims Three Victims

Texas recorded three more polio deaths Thursday and at Houston one hospital put out the "full up" sign as the caseload mounted.

THE WEATHER

BIG SPRING AND VICINITY: Partly cloudy with afternoon showers and thunderstorms.

Russell Arrives For Convention

Sen. Richard B. Russell of Georgia, accompanied by his sister, Mrs. J. K. Stacy, of Washington, D.C., and the inevitable banner, lands at Chicago airport for the Democratic national convention scrap.

SHIVERS DUE TODAY

Maverick Gets In First Lick At Scene Of Demo Convention

By The Associated Press Texas Democrats have opened their show in Chicago. Maury Maverick, white-haired veteran of political battles from San Antonio, arrived in the convention city late Wednesday and immediately called a press conference.

Murray Waits While Settlement Rumored

By JOHN MOODY PITTSBURGH (AP) — Philip Murray, president of the striking CIO United Steelworkers, waited today for the White House or industry to take some step toward breaking the paralyzing 46-day-old dispute.

Old Settlers Ready For Friday Reunion

Friday is reunion day for hundreds of old settlers of Howard and Glasscock Counties. The old timers—600 or 700 are expected—will assemble in City Park Friday morning for their annual get-together.

Truman To Fight Creed 'Betrayal' At Demo Parley

Bill To Benefit Vets Of Korea Gets Signature

WASHINGTON (AP) — President Truman has signed a bill to help G. I.'s released since the start of the Korean War to re-establish themselves in civilian life.

Demand Made For 'Fair Deal' Okay

CHICAGO, (AP)—President Truman's fighting declaration against any convention "betrayal" of his political creed paced a new trend among Democratic Presidential aspirants today.

Without any apparent advance knowledge of Truman's blunt demand for endorsement of his "Fair Deal" program, at least two candidates moved to put themselves in a position — if they get the nomination — to lead a fight against what they called "Republican reaction."

Sen. Richard B. Russell of Georgia, plagued by his designation as the anti-Truman candidate of the South, made a bid for Northern labor and "Fair Deal" support with a denunciation of the Taft-Hartley Law, which he helped enact.

Oil Allowable For August Is Given A Boost

AUSTIN, July 17 (AP)—The Railroad Commission today boosted the Texas crude oil allowable for August to 2,924,306 barrels per day, a whopping increase of 187,392 barrels over the current rate of flow.

Jack Porter of Houston, the state Eisenhower leader whose side won at last week's Republican national convention in Chicago, had said he couldn't make the Dallas meeting.

Foreign Aid Appeal Due To Be Repeated

By EDWARD E. BOMAR WASHINGTON (AP)—A reshuffle of slashed foreign aid funds and a possible new appeal to the next Congress for more money were forecast today by administration officials.

HCJC Enrollment Is Holding Up Well

Enrollment at Howard County Junior College for the second six weeks of summer school is holding up well.

'HOOT OWL' IN AN UGLY MOOD

Anybody lost a hoot owl? One of the critters—with a good-sized wingspread—is roosting on the ridgepole of the Estel Petty residence, 707 Abrams.

Sen. Estes Kefauver of Tennessee, self-titled peoples' choice for the nomination, called for a fight on what he labeled "Republican isolationism and reaction."

Man Pleads Guilty To Impersonation

ALBUQUERQUE, N. M. (AP) — A 36-year-old man has pleaded guilty to a charge that he collected dependent's allowance for more than a year while posing as the wife of an Air Force sergeant.

CONSERVE WATER

Withdrawals during 24-hour period ending at 8 a.m. Thursday: 2,250,000 gallons. Maximum safe sustained withdrawal rate under existing conditions: 3,000,000 gallons per day.

TWO IN THIS AREA

First Draftees Get Their Discharges

Bulk of the men drafted by the local Selective Service Board in its first induction call after the outbreak of hostilities in Korea should be receiving their discharges in the next few weeks.

In fact, two of the 11 men in the first group of draftees called from Howard, Martin and Mitchell Counties already have returned to civilian life. Back at home are Gilbert Hernandez, rotated from Korea,

and Alfred Robert Dean Herroon. The other nine men making up the local board's first post-Korea induction quota are Chase M. Casart, Roland J. Masters, James T. Randall, Curtis G. Flanagan, Charles R. Shanks, Thurman U. Moore, Oscar P. Givens, Winifred M. York, and Connie C. Hatliff.

Many of the servicemen have seen overseas duty since their induction in September, 1950. They, as well as men in subsequent draft calls, were inducted for two-year terms of service.

Slim Whitman Is Due Here Tonight

Slim Whitman, western singer who styles himself the "Smiling Starfighter," will appear in Municipal Auditorium at 8:30 p.m. today.

Whitman will be accompanied by Root Hains, a steel guitar artist, and other members of his western band.

The cowboy-singer appears regularly on the Louisiana Hayride, program aired over a Shreveport radio station each Saturday night. Folk music fanciers probably will recognize Whitman as the vocalist for such recent hits as "Love Song of the Waterfall," "China Doll," "Bandera Waltz," and "Indian Love Call."

A former Florida shipyard employe, Whitman has become one of the top western vocalists in the Southwest in the past few months. He also is a guitar player and operates the stringed instrument with his left hand.

Earth Tremors Jolt Tennessee Section

LOYERSBURG, Tenn. (AP)—Two earth tremors, about 20 minutes apart, shook this corner of West Tennessee late yesterday.

Dishes rattled and houses creaked, but there was no report of damage.

On receiving their discharges, they will become members of the various reserve components of the armed forces.

In all, 389 men have been sent for induction from Local Selective Service Board No. 71 since the start of the Korean War. In addition, 204 registrants with the local board have volunteered for military service.

Twenty men from the tri-county area served by the board have been discharged since the first induction call for the Korean conflict. Most of these were persons who enlisted prior to start of the war, however. All discharges, whether of draftees or volunteers, are recorded in local board files.

The induction process is continuing with the local board sending 12 to 15 men per month to an induction center in Abilene for entry into the Army and Marine Corps.

Board No. 71 will forward 12 men for induction in August. The quota is expected to be larger in subsequent months as the national quota will be 30,000 in September and 34,000 in each of the next three months.

Okays Danish Aid

WASHINGTON (AP)—Averell Harriman, Mutual Security administrator, reportedly has recommended to President Truman that U.S. aid to Denmark not be cut off because the Danes sold a tanker to Russia.

Pennsylvania Delegates Are Still Undecided

By CHARLES WELSH

PHILADELPHIA (AP)—A week in advance of the Democratic National Convention's first presidential ballot, Pennsylvania delegates still are waiting for a decision on whom they will support.

That decision may not come until the first caucus of the 10-vote delegation in Chicago Sunday evening, or later. At of today, an Associated Press poll shows 35 votes scattered among seven presidential possibilities, with the other half of the delegation unwilling even to express a preference at this time.

Pennsylvania will send 60 district delegates with one vote each and 20 delegates-at-large with one half vote each to Chicago. Here's the way they lined up in the AP poll:

For Sen. Estes Kefauver, 13 votes; Gov. Adlai Stevenson 11½; Averell Harriman, 5½; President Truman, 2; Vice President Barkley, 1½; Chief Justice Fred Vinson, 1; Sen. Robert Kerr, ¾.

Twenty-nine district delegates and 12 delegates-at-large, a total of 35 votes, said they do not now have any preference.

Thirty district delegates said they thought President Truman definitely has removed himself from the picture, and only two thought he might yet be persuaded to be the nominee. Among delegates-at-large the ratio was 10 to 1 on the negative side.

Nevertheless, two district delegates said flatly they are continuing to support Truman, will vote for him and believe he will be nominated.

Prize Schedule Set For State '52 Fair

DALLAS, July 17 (AP)—Prizes totaling \$77,624 will be awarded in the stock judging of the 1952 Texas State Fair, it was announced yesterday.

The fair runs from Oct. 4 to 18. W. L. Stangel, dean of agriculture at Texas Tech College at Lubbock, will be the general superintendent of the stock shows.

Demo Show Will Differ Sharply From Version Put On By GOP

By WILLIAM J. CONWAY

CHICAGO (AP)—The Democrats will put a new—and different—political show on the road to history next week.

Their national convention, at casual glance, may look pretty much like last week's Republican convention. But it won't be—not for long, anyway.

Take, for instance, the most important business—the naming of a candidate for President.

The GOP battle pitted Dwight D. Eisenhower against Robert A. Taft. It was, in a realistic sense, a duel.

The Democrats have five avowed contenders. Unlike Taft or Eisenhower, none claims to have 500 or more votes lined up for the first ballot. And as many as a dozen names may be placed in nomination. Thus, the Democratic fight shapes up as a free-for-all.

The convention opens Monday at 11:30 a.m., Eastern Standard Time. Other day sessions will start at noon. All evening sessions will begin at 8 p.m.

Let's look over the program, as it is tentatively drafted today, and take up the high points, day by day.

Two Illinoisans who have been much in the news—Gov. Adlai E. Stevenson and Sen. Paul H. Douglas—will speak at the first session Monday.

Gov. Paul A. Dever of Massachusetts will deliver the keynote address Monday night.

The Credentials Committee, the group that decides conflicting

Education Is Still Best For A Lawyer

SAN FRANCISCO (AP)—A four-year survey by more than 200 experts on how to improve the nation's legal profession came up with this: There's no substitute for a thorough college education and good character.

The newly-released book of findings came out against private study — Abraham Lincoln's method — and correspondence school training. It advocated at least three years of college pre-legal training.

claims to delegate seats, will report its decisions in the Mississippi and Texas contests at the third session on Tuesday.

The contests, simply stated, are between anti-administration or States Rights groups on one side and party loyalists on the other. A convention vote in these contests should show the strength and solidarity of the States Rights bloc of Southerners.

Rep. Sam Rayburn, the permanent chairman, will speak at the fourth session Tuesday night.

The Resolutions Committee will submit the 1952 party platform at

the fifth session Wednesday.

Republicans adopted their platform quickly and quietly. But the Democratic plank on civil rights may set off an explosion. If either the Southerners or Northerners who wear the liberal label don't like it, there will be a rousing brawl on the floor.

Voting on the presidential nomination is expected to begin Thursday.

Frank E. McKinney, the party's national chairman, figures the nominee will be chosen in less than 10 ballots. The Republicans needed only one.

If you've tasted today's SCHENLEY

... you know it's the best-tasting whiskey in ages!

BLENDING WHISKEY 86 PROOF. 65% GRAIN NEUTRAL SPIRITS. SCHENLEY DISTRIBUTORS, INC., NEW YORK, NEW YORK

Another Swimming Instructor Added

Another instructor has been added to the YMCA swimming school staff.

She is Sally Smith, who helped with the classes last year, said

Tolly Baker, program secretary. Grover C. Good, general secretary, said that an outing for the 20 instructors and staff members, was planned soon. They have been working with approximately 300 youngsters in the related but annual summer learn-to-swim program of the YMCA.

Man Confesses To Slaying Of Columbia University Employee

BOSTON (AP)—Police Capt. Francis Wilson said a 29-year-old Back Bay man confessed orally last night to the shooting of pretty Elizabeth Fahey of New York on the Columbia University campus early Monday morning.

Miss Fahey, a bookkeeper for the American Physical Society, was shot to death while sitting at her office desk reading a letter from her office Marine boy friend in Korea.

Wilson said Bayard Peaks, a Boston meat-packing plant employee, told him he went to New

York "to kill someone" in the society because the group had refused to accept a scientific paper he wrote on a theory of life.

The paper was entitled "Applied Electronics to Medicine With the Aim to Prolong Life."

Peaks is a former Northwestern University student.

Wilson said Peaks told him he fired three shots at Miss Fahey when she confronted him as he entered the society's office at Columbia University.

He told police Miss Fahey said to him, "You're just standing

there," as she crumpled to the floor.

Peaks told Wilson he then reloaded the .22 automatic pistol, fired three more shots at Miss Fahey and fled.

Miss Fahey's alleged killer told several persons in the university building to call police because "I just killed a girl" as he fled.

Peaks, an Air Force veteran, waived extradition and will be turned over to New York authorities and taken back to that city early today, Wilson said.

Peaks was traced by a description given to police by a university professor and an elderly woman confronted by the girl's slayer.

Two Boston detectives, accompanied by two detectives from New York, arrested Peaks at his Back Bay rooming house.

Marine Pfc. Ronald Leo, 26, of New York City, the slain girl's boy friend, has been granted a 30-day leave and is flying back to the United States to attend Miss Fahey's funeral Saturday.

In New York, Chief of Detectives George A. Lounsbury said Peaks will be questioned at the office of District Attorney Frank S. Hogan before "any action on his possible arrest is taken."

Riding

THE GRUB LINE

With Franklin Reynolds

The accuracy of a story in the July issue of Field and Range, our farm and ranch supplement, was challenged when it recited in error that 250,000 acres of Oklahoma land and 1,000 head of Oklahoma cattle had been sold to a Texas for \$1 million.

How that figure of 250,000 acres got into print is one of the mysteries of the printing business, and certainly it was wrong. There is no Oklahoma land that cheap and no Oklahoma cattle that can be bought for such a price.

At the time the accuracy of the story was questioned the notes from which it had been written had been destroyed. We then undertook to get in touch with the man who had supplied the story, and by then he wasn't sure what he had been told and referred us to the county clerk at Pawhuska, Oklahoma. The clerk replied that no deed had been filed but did supply the name of the Pawhuska Abstract and Title Company which had handled the transaction.

Just now, about two weeks after the story was published, we have received the facts from the Pawhuska Abstract Co., and receipt of these facts reveals that the original story should have said, and was intended to say "15,000" acres which would still have been 1,000 acres of deeded land too many.

Here is the correction: Dr. H. H. Mundy of Pawhuska said his ranch and some cattle to W. L. Moody of Galveston for \$1 million or approximately that.

The ranch consists of 14,000 acres of deeded land and about that has headed out in spite of the Osage pasture country of Osage County. This ranch was originally divided into two ranches, one of which was the Mundy home ranch and the other was known as the West Wall Ranch.

Dr. Mundy is reported to have sold 1,000 head of cows, 300 of two-year-old heifers and this year's calf crop, Moody did not buy all the cows but did take most of them.

This was one of the finest Hereford herds in Oklahoma and Dr. Mundy had spent 30 years in building it up through selective breeding. He has ranched in Osage County most of his life, but is a native Texan and a graduate of Baylor. He has developed quite a racing stable and is now devoting nearly all his time to this activity, and this was his reason for selling the ranch and Herefords.

Osage County has more than one million acres of rolling hills carpeted with natural Bluestem pastures over which nearly 250,000 head of beef cattle are grazed annually and these cattle are reported to have been almost 100 per cent sprayed with DDT for fly control. There are almost 100,000 cows kept on Osage County ranches to produce market calves. The annual agricultural income of the county grosses approximately \$14,300,000 and it is estimated that 84 per cent of this comes from the sale of livestock.

Another Martin County farmer planting Guar both as a soil-building, soil-protecting and cash crop, is Mrs. Nell White one of the most progressive and efficient farmers in the area, who is drilling in 100 pounds of the seed in cooperation with Martin-Howard Soil Conservation District and the Soil Conservation Service.

As more and more West Texas farmers learn the many advantages of this quickly germinating and fast-growing crop the demand for seed has increased until a possible shortage threatens. Farmers who are interested, but who have not obtained their seed, should communicate with the nearest SCS office as soon as possible.

Guar planting has also increased in tempo elsewhere over the area as farmers have welcomed the recent rains. D. F. Bigony, who lives one mile west of Fairview and Kirk Pitts of Ackerly recently planted 50 and 14 acres respectively. Big Spring SCS technicians, who have been assisting with the inoculation and planting of the seed report many other farmers have gotten their seed and are ready to start planting as soon as the fields dry up enough so they can get in there with tractors.

Like "The Man Who Came to Dinner" Blue Panic grass dropped in on Texas for what might have been a visit but now definitely it is here to stay, and it would be mighty hard to convince Dick Sampson, who farms and ranches northwest of Vealmoor, that there is a better introduced grass. Right now he is planting 229 acres to provide good grazing for his good cattle.

He says he plans to harvest a seed crop or two each year and had indicated that he may plant his entire cultivated acreage to Blue Panic. Being a cowman at heart he believes more profit can be realized by having plenty of green pastures to supplement his

range grasses at a time when native pastures are receding themselves.

Sam Buchanan, who stock farms northeast of Big Spring, has a 40-acre patch of Weeping Lovegrass that is making a good growth and that has headed out in spite of the drought.

He says he doesn't know how it has managed to grow without rain, but that it also has a pretty good crop of seed on it. This is another introduced grass and is highly recommended for this area.

Three and one-half inches of rain fell on C. H. Hyden's farm in the Gay Hill Soil Conservation group Monday and Hyden still has that water on his place. He held it with large-size terraces with ends blocked. These terraces were built last winter. He also helped keep the water from running off by throwing up a ridge around his field.

Across the road, Hyden's neighbor, Ed Simpson, also saved all his rain with terraces with ends blocked. Simpson's field looked like a lake as water was backed from terrace to terrace.

There's a lot of precious soil moisture on these two farms today.

LOS ANGELES (AP)—Sound men for Howard Hughes strung up amplifying systems so the hard-of-hearing RKO Studio boss could hear testimony yesterday in the \$250,000 damage suit trial against him by Jean Simmons and her husband Stewart Granger.

But Hughes, scheduled to testify himself, didn't show up and reports circulated that there might be an out-of-court settlement in the case. Miss Simmons and her husband allege that RKO refused to sign a contract with her, yet seeks to prevent her employment in other studios.

Hughes' lawyers maintain the only agreement with Miss Simmons was oral and that Granger tried to rig a contract with a capital gains clause allowing income tax exemptions. Granger, however, has accused Hughes of proposing the capital gains deal.

Melody Maids On Trip To Europe

NEW YORK, July 17 (AP)—Twenty-two of the Beaumont, Tex., "Melody Maids" left by plane last night for a two-week singing tour of American military hospitals and bases in England and France.

Mrs. Heloise Milam, director of the group, said they were leaving New York \$325 wealthier than when they arrived here last Thursday, as a result of television quiz programs.

The money, Mrs. Milam said, was used to pay the way for several friends who otherwise would have had to borrow money to make the trip.

Mrs. Milam said they also won \$50 worth of lingerie, 24 pairs of stockings, a vacuum cleaner, a set of sheets and towels and a five-piece set of luggage.

The 22 girls making the trip range in age from 15 to 22. They are part of the 70 girls who make up the amateur singing group.

Mrs. Milam said that after they return here Aug. 2 the girls will sing at various military bases in this country before going back to Beaumont.

Hughes Is Absent For Trial's Start

LOS ANGELES (AP)—Sound men for Howard Hughes strung up amplifying systems so the hard-of-hearing RKO Studio boss could hear testimony yesterday in the \$250,000 damage suit trial against him by Jean Simmons and her husband Stewart Granger.

But Hughes, scheduled to testify himself, didn't show up and reports circulated that there might be an out-of-court settlement in the case. Miss Simmons and her husband allege that RKO refused to sign a contract with her, yet seeks to prevent her employment in other studios.

Hughes' lawyers maintain the only agreement with Miss Simmons was oral and that Granger tried to rig a contract with a capital gains clause allowing income tax exemptions. Granger, however, has accused Hughes of proposing the capital gains deal.

Kidney Slow-Down May Bring Restless Nights

When kidney function slows down, many feel a complaint of nagging headache, backache, dizziness and loss of pep and energy. Don't suffer restless nights with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent peeing.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 coiled kidney tubes and filters flush out waste. Get Doan's Pills today!

Visits Health Unit

Visiting the Big Spring-Howard County Health Unit Wednesday was Annie Edwards, technical clerical assistant for the Texas State Health Department. The state official was here for a periodic check of health statistics and other records.

Way Is Cleared For Youth To Rejoin AF

DALLAS, July 17 (AP)—A dark-skinned, handsome Iranian youth got word yesterday he can apply for United States citizenship and re-enlist in the Air Force he once had illegally joined.

George Bandarian, 22, was officially immigrated into the United States, he learned, when a private bill pushed through both houses of Congress was signed by President Truman.

Bandarian left his native Iran on a ship over two years ago. Once here, he jumped ship, falsified a birth certificate and joined the Air Force. This year he confessed his adventures to a chaplain at Sheppard Air Force Base.

Texas Ranks Second In Defense Projects Value

DALLAS, July 17 (AP)—Texas ranks second only to Pennsylvania in the value of defense or related projects given certificates of necessity by the National Production Authority.

The certificates, which give special tax benefits to builders of industrial facilities helpful to the defense effort, are a good barometer of industrial expansion.

Ernest Tull, regional NPA director, said today Texas has received 486 certificates since the program began, amounting to \$1,678,801,000. This is 11.5 per cent of the national total.

Under the hustled-up tax write-off program permitting tax erosion on facility depreciation in five, instead of 25 years, Houston

received 111 certificates amounting to \$224,680,000; Dallas, 33 for \$29,431,000; the Beaumont-Port Arthur area, 31 for \$116,915,000; Corpus Christi, 24 for \$185,410,000, and Fort Worth, 21 for \$37,318,000.

Other cities, their number of certificates, and amounts approved include: San Antonio, nine for \$13,346,000; El Paso, six for \$15,771,000; Amarillo, four for \$23,662,000, and Lubbock, two for \$7,773,000. Balance of the state received 231 certificates amounting to \$818,183,000.

For many years, mammoth tusks found in the Arctic regions of Russia, furnished a source of ivory.

Arcands Return Home

LL and Mrs. Andy Arcand, Tommy and Cecilia of Houston returned today to their home in Houston after visiting her parents, Mr. and Mrs. Tom Rosson. Mrs. Arcand's sister, Maxine Rosson, returned to Houston with the visitors.

Hospital Blames AF For Three Murders

HOUSTON, July 17 (AP)—The trustees of Memorial Hospital blame the U. S. Air Force for three murders and a suicide in the hospital July 10.

The accusation was made yesterday in a letter to Thomas K. Finletter, Secretary of the Air Force. The letter requesting a full investigation to determine who was directly responsible was sent by George M. Irving, trustee chairman.

Sec. Finletter said in Washington that a thorough investigation is being made.

An Air Force Captain, Renard

F. Haywood, forced his way into the room of a student nurse at the hospital, shot and killed two guards and the nurse and then committed suicide. He was stationed at Ellington Air Force Base.

Those killed were: Miss Carroll Cooper, the nurse who tried to break an acquaintanceship with the captain; Guards Jesse Clyde Fair and Clyde Peterson; and the captain.

Irving's letter said: "It is the contention of Memorial Hospital . . . that the responsibility for the three murders and upon a person or persons within your organization."

"This responsibility, which your official investigation should determine, rests at Ellington Field, commanded by Col. William Lee, who should have been fully informed as to the chain of events which led to the carnage of July 10th."

The letter reviewed the circumstances leading up to the shooting, telling how Captain Haywood had on several occasions created disturbances at the hospital as he tried to see Miss Cooper.

Sec. Finletter said in Washington: "I deeply regret the tragic incident in which three innocent people were killed. The Air Force is conducting a thorough investigation. Until it is completed, I cannot comment further."

Texarkana Airport

TEXARKANA, Ark. (AP)—The Texarkana airport took a beating yesterday from two tornadoes. The first struck the airport at 2:18 p.m., bashed in an empty hangar and littered the place with debris.

The second, whirling in an opposite direction, struck almost two hours later. This one tore down power lines and scattered uprooted trees on the landing field.

C. H. Newton of the U. S. Weather Bureau here said the second twister dipped into the Rondo community eight miles to the northeast, wrecked a few houses and heavily damaged stands of timber, but apparently injured no one.

Long Time, No See

It's been a long time since Big Spring has seen a resident Chinaman, half a century in fact, although in the days of railroad construction there were thousands of them either here or passing through. Now these men from San Francisco are here to give the city the first real Chinese restaurant it has ever had. Left to right they are Oom Keong Mar, Jing Teong Homs, Robert Lee, Jake Mar (who discovered Big Spring), King Min Mah and Chee Art Mar.

DEAL IS CLOSED

Big Spring Due To Get Its First Chinese Restaurant

By FRANKLIN REYNOLDS
Big Springers may now what their appetites for Chinese dishes because the city has gotten 11's first Chinese restaurant, and in a few more days this eating place will be open for business.

Shine Phillips, Big Spring's biographer and student of West Texas history, says this will be the town's first "real" Chinese restaurant, although about 50 years ago a Chinaman opened a little hamburger joint down on First Street. "But he didn't last long," Shine recalls in remembering that at about the same time there was a Chinese laundry near the "hamburger joint."

Four months ago Jake Mar of San Francisco just happened to be passing through Big Spring and

he wondered about our Chinese population, or perhaps yearned for the companionship of one of his own ancestry. He looked around and was surprised—there wasn't a Chinaman or a Chinese restaurant in this otherwise very modern-up-to-the-minute and progressive West Texas city.

Jake hurried back to his native West Coast city and called five of his friends together. He told them what he had found—the most wonderful city in all West Texas and one in which the people were starving to vary their diets with the delicacies of the finest of Chinese culinary arts.

What a wonderful opportunity, the six of them decided, and so they sent Jake back to scout the town and find a good location for a place where the finest of Chinese foods, prepared by the finest of Chinese cooks and served by the finest of Chinese waiters could be provided for a starved-for-Chinese foods populace.

A suitable location couldn't be found so these men concluded the next best thing would be to find a place already established and cen-

trally located that they could buy. They found such a place in the Western Grill, 106 East 3rd, and bought it. Today they're cleaning up and have speeded an order to their friends on the West Coast to rush them a special range and the ingredients they will need to prepare the tasty dishes, and the other things that go into creating the well appointed Chinese restaurant.

The partners in the new Big Spring enterprise are Robert Lee, Jake Mar, Jing Teong Homs, Oom Keong Mar, Chee Art Mar and King Min Mah.

But the fact that there hasn't been a Chinese business man in Big Spring for the past 50 years doesn't mean that Chinese have never lived here. Thousands of them came with the railroad construction in the early days and in the main they were numbered among the most highly respected and well-behaved citizens. In many Southwestern towns lots of them remained long after the railway construction crews had pushed on into the West, to open restaurants and hand laundries, and otherwise engage in business. Big Spring was one of the few towns where some didn't stay to build a reputation for that high integrity which is so characteristic of their race.

In many an old cowtown "The Chinaman's" described the community's favorite eating place for the range riders and the men of the area, and "I'd meet you at the Chinaman's" was a frequently-heard and familiar expression.

But these new arrivals aren't going to confine their business to the serving of Chinese foods, there will also be all the usual American dishes and doubtless they are just as highly skilled in preparing the Mexican dishes that are such favorites with West Texans.

So it is that Big Spring's progressive growth takes on still more of a cosmopolitan air, thanks to the fact that Jake Mar decided to stop and look around to see if he could find another Chinaman.

Air Attacks Hit 1,000 Targets

TOKYO (AP)—The Far East Air Forces said today about 1,000 Communist military installations were destroyed or damaged July 11 in the biggest air strike of the Korean War at Poyongyang, Sariwon and Hwangju.

The report was made after evaluation of air photographs of the blasted areas.

The Peiping radio claimed more than 2,000 persons were killed and 4,170 injured.

The Air Forces said the strike by United Nations land and carrier-based planes was directed against 29 specific military target areas in the three cities. A communications center, transportation parking and repair areas, and factories manufacturing machine tools, munitions and other war-making supplies were the main targets.

More than 30 buildings in three Red munitions factories were blasted, photos showed. A direct bomb struck the Communist communications headquarters building in Poyongyang, demolishing 60 per cent of the structure.

GOP Gave Sample Of Their Tactics, Kerr Suggests

WASHINGTON (AP)—Sen. Kerr (D-Okla.) said today Republicans at the Chicago convention gave the nation a sample of what could be expected in Washington if they should be elected next November.

"They proved beyond all doubt, and in full view of the TV eye, that they, themselves, are the greatest living experts on confusion, corruption and connivance," Kerr said in a news letter.

The Oklahoman, a candidate for the Democratic presidential nomination, added:

"When it became apparent that the Republican leaders were just as bankrupt morally as they were politically, the delegates chose a nominee who was the least Republican they could find."

Crowded Trains Bump In Station

NEW YORK (AP)—Two subway trains crowded with 2,500 perspiring passengers bumped at a station during the rush hour yesterday afternoon, pitching hundreds into tangles on the floor.

Police said today that 183 persons had reported injuries most of them minor—in the collision and near-panic which followed.

Mexican Railroad To Build Branch Line

MEXICO CITY, July 17 (AP)—A branch line from Matamoros to San Carlos will be built by the Mexican government railroads.

The new spur, announced yesterday, will move cotton to gins at Matamoros. It will also carry workers into the center of the cotton region.

Russell Stands Pat On 'Rights' Views

By EDWIN B. HAAKINSON

CHICAGO (AP)—Sen. Richard B. Russell ran up a no-surrender flag today on a key civil rights issue after retreating from his five-year-old position on the Taft-Hartley Act.

"I will never be for any jail-sentence, compulsory FEPC," the Georgia senator told this reporter as he laid plans for the stretch drive in his bid for the Democratic presidential nomination.

Russell set off something of a political bombshell late yesterday by declaring:

"The Taft-Hartley Act must be supplanted by new legislation in the field of labor relations."

That sounded a lot like President Truman and other stalwarts of the New Deal and "Fair Deal" who bitterly fought the labor-management act produced by the Repub-

lican 80th Congress. Russell voted for the T-H Act along with most other Southern Democrats when it went through the Senate. Then he voted to override Truman's veto to write it into law.

Did his shift in this field signal a new stand on the touchy issue of whether Congress should undertake to ban discrimination in the hiring and firing of Negroes by setting up a Fair Employment Practices Commission (FEPC)?

Russell quickly pointed to a sentence in his statement on Taft-Hartley.

"I am eternally opposed to punitive legislation of any kind," it read.

And, he added in the interview,

Income Increases, But Prices Ahead

WASHINGTON (AP)—The average American family made more in 1951 than it did the year before—but it was worse off because rising prices and climbing taxes more than wiped out the gain in income.

The Federal Reserve Board said yesterday its survey of consumer finances showed that average total income of "spending units"—mostly families—rose from \$3,520 in 1950 to \$3,840 in 1951, a rise of about 9 per cent.

But consumer prices also went up 9 per cent, wiping out the income gain. And increased taxes upped the scales against the average family, cutting buying power below the previous year.

McCarthy Is Unable To Make Speeches

WASHINGTON (AP)—Sen. McCarthy (R-Wis.) will be unable to do much—if any—public speaking for about six weeks.

A spokesman at the Naval Medical Center at nearby Bethesda, Md., where McCarthy is expected to remain a week after yesterday's minor operation for sinus trouble, said the senator probably wouldn't be able to make speeches for some time.

any FEPC bill with enforcement powers would be punitive legislation.

In his T-H statement Russell said that if he were nominated and elected he would call in "the best minds of the country" among labor and management leaders to frame a replacement.

Border Patrol Changes Plans

SAN ANTONIO, July 17 (AP)—A border patrol plan to keep Mexican aliens from surging north of the Rio Grande Valley area has been thrown out, an immigration director said yesterday.

The so-called "strategic withdrawal" plan, announced two weeks ago, will give way to a new system of patrol operations which will try to catch aliens nearer the Texas-Mexico border, District Director John W. Holland said.

Originally the plan was to back up most of the patrol to a line crossing from near Laredo to Kingsville. Now he said "we feel like we will be able reasonably to cope with the situation without withdrawing."

Forces will be increased at Hebbronville, Kingsville and Fallurrias to bolster road block teams. He said about 60 patrol recruits, new trucks and buses will help in the job.

The change was caused by reports of wetback arrests in Valley communities, he said. Two inspectors caught 74 aliens on Edinburg's main street during a two-hour period last Saturday night and a three-man patrol netted 150 wetbacks crossing into Texas near Hidalgo Sunday, according to his report.

Planning Merchandising Program

Plans for a stepped-up campaign of merchandising and advertising for Lone Star Beer were discussed at a meeting here Wednesday of Lone Star Brewing Co. officials with Munson Compton, local representative. In the photo, looking at one of the Lone Star ads scheduled in The Herald are (l. to r.) H. C. "Ham" Harrison, territory sales manager; Floyd O. Schneider, general sales manager; Compton; R. M. "Bob" Darden, administrative assistant, and Jack Keasler, director of advertising.

Newsman Ask Their Own Platform Plank

By ARTHUR EDSON CHICAGO (AP)—What this country needs is a political platform that is far-reaching, sincere and that looks after the interests of newspaper men assigned to cover political conventions.

It could be done simply. The plank could read:

"In the interest of those wonderful newspaper men who cover our convention, we will keep our speeches short, we will begin our meetings on time, we will end them promptly, we will hold no midnight powwows and we will keep everything quiet at night so that these splendid fellows can sleep."

In the long run, it would help a lot of other people, too, including politicians.

With this in mind, I dropped by yesterday to see how the Democrats' Resolutions Committee was making out.

Well, the committee members were fretting over civil rights, the farmer, the laborer, the producer, the consumer, public housing, health, social security.

"They listened to a man from the

Young Pianist Plays For Lions

A young pianist, tackling some difficult compositions, scored a hit with the Lions Club here Wednesday.

Jim Bob Farmer, son of Mr. and Mrs. J. R. Farmer, played "Nalaguena" by Lecuona, then turned to Chopin's famous "Polonaise." He was greeted with such a round of applause that he was obliged to favor with an encore. He did Liszt's "Liebestraum" with considerable understanding and mastery.

Harold P. Steek was in charge of the program, arranged especially to give us relief from the stress and strain of political convention arguing.

Guests included Joe Blum, Dallas, former active member of the club; and Ed Fisher, who urged entries in the annual rodeo parade.

CAUSED BY GROWTH

Many Texans Are Confused On Congressman-At-Large Post

(Editor's Note: This is the second in a series on candidates for major office in the July 26 Texas Democratic primary election. Tomorrow: Governor's race is bitter.)

By TIM PARKER Associated Press Staff

Roy Selman, one of the seven candidates for Texas congressman-at-large, stopped alongside a highway near McKinney recently to talk to a farmer he had spotted working in his field.

Selman introduced himself and began a little campaign talk. The Crockett lawyer and stockraiser had said only a few words, however, when the farmer interrupted—and threatened violence.

"He very near gave me a whipping before I convinced him I was not opposing Mr. Rayburn," Selman explained. Sam Rayburn of Bonham, dean of the Texas congressional delegation and speaker of the House, is up for re-election from the Fourth District. He is opposed by Reagan Brown, 32, of Terrell.

Selman's experience typifies voter confusion over the new congressional seat. One farmer near Edna told Selman the new seat in the U. S. House was just another excuse to spend money.

Texas was granted a 22nd seat in Congress because of its population growth in the decade preceding the 1950 census. Until the Texas Legislature re-districts the state—reshuffles the present 21 districts to add another and adjusts district lines to account for population shifts—Texas will have one congressman-at-large.

He will reside and function in Washington just as do other Texas Congress members. But he will represent the entire state, not a specific district.

Names prominent in Texas political history, names that are recognized vote-getters, are included in the list of seven candidates.

Here are the candidates:

Roy Selman, 53, Crockett, Houston County judge and a lawyer and stock raiser. Selman announced early (Jan. 28) and has pitched his campaign to the small income group, veterans, farmers and wage earners. He has pledged to work for Texans whose income is under five thousand dollars a year—the group which he says pays 86 per cent of the taxes.

Charles Martin Dickson, 62, San Antonio lawyer, who announced Jan. 23 and simultaneously urged a bi-partisan national ticket of Gen. Dwight D. Eisenhower for President and Senator Richard Russell (D-Ga) for vice president.

John Lee Smith, 58, Lubbock attorney, lieutenant governor from 1942 to 1946, previously a state senator, and an unsuccessful candidate for governor in 1948.

Smith announced Aug. 25 of 1951—almost a year ago, a conservative, he has accused the Truman administration of corruption, socialism, high taxes and consorting with Communists.

Martin Dies, 50, Lufkin attorney who became nationally known for his work as chairman of the House Un-American Activities Committee from 1938 to 1945. An orator of the old school, Dies is also bitterly anti-administration on many issues. He is the only former congressman in the race.

Phil Hamburger, 41, Houston city councilman. A World War II veteran, Hamburger counts on getting many votes from home-town-ers who make up the state's largest population center. A former president of the League of Texas Municipalities, he has called for government economy to reduce taxes, wants the tidelands back, and has charged the administration in drifting toward socialism.

Edwin O. Nimitz, 34, Orange insurance agent and real estate man. Nimitz is a member of the Texas Legislature and a World War II veteran. Calling for younger men in government, he has toured the state in 1924 model "T" Ford. He predicted Wednesday he will be in the Aug. 23 run-off primary.

Herb Petry Jr., 34, Carrizo Springs attorney and ranchman. A prominent civic and club worker, Petry is a former president of Lions International. He also has served as former Dimmit County attorney, director of the Texas Good Roads Association, and Texas Economy Commission. Petry has called for more government economy, strong national defense, and further soil and water conservation measures.

With seven candidates in the race, it is extremely unlikely that any one will poll a majority of the votes. That will throw the top two men in the July 26 primary into a run-off race in the Aug. 23 second primary.

Texas Towns In Line For Federal Help To Schools

WASHINGTON, July 17 (AP)—Sixty-seven million dollars has been allocated by the government to build schools in federally-affected defense areas. Of this, \$4,303,704 is slated for Texas projects, it was announced yesterday.

The federal security agency's office of education announced that funds have been set aside to provide grants to local school districts for 279 school buildings needed in over-crowded boom towns throughout the nation.

The actual grants will be made after the government completes engineering and other surveys. An FSA spokesman said, however, that in most cases grants are made for projects for which funds have been earmarked.

Congress appropriated 395 million dollars for such school construction between now and June 30, 1953. That leaves nearly 128 million dollars still to be allocated.

Several hundred other applications are being considered and FSA said that others will be approved within a few weeks.

Eligible areas are those where the school population has increased far beyond normal because of Military or other federal projects.

The Texas breakdown of projects for which funds have been reserved follows:

Crosby \$46,726; Texarkana \$933,789; Birdville \$275,000; Kennedale \$33,676; Edgewood \$496,290; Brookside \$30,900; Azle \$201,326; Harlandale \$450,000; Nash \$40,718; Granbury \$47,280; Roma \$47,091; Fort Worth \$300,000; Mineral Wells \$212,041; East and Mount Houston Independent School Dist. \$100,000; Irving \$473,715; Queen City \$78,117; Alvarado \$58,774; Mansfield \$96,246; Atlanta \$130,130; Devine \$100,000 and West Oso \$152,845.

Midland Man Sued By AF Commander

TYLER, July 17 (AP)—The commanding officer of Biggs Air Force Base, El Paso, has sued a Midland man for \$75,000 charging libel.

Col. James Young Parker filed in District Court here yesterday against F. R. White, Midland manufacturer's agent. Col. Parker charges White wrote a libelous letter following the April 16 conviction of Lt. Verne Goodwin for refusing to fly.

Lt. Goodwin was court-martialed at Biggs and sentenced to two years. He later was allowed to resign from the Air Force.

Col. Parker's petition charges that White sent Sen. Lyndon Johnson a letter containing libelous remarks. Copies also were sent to Col. Parker and to Goodwin, the petition charges.

Gasoline Truck Is Divided By Train

CHANDLER, Ariz. (AP)—The Southern Pacific passenger train, the Imperial, plowed into an empty gasoline tank truck at a crossing 14 miles southeast here yesterday, derailing a section of the train and injuring nine persons.

None of the injured was reported in serious condition.

The fast-moving westbound train, powered by two locomotives, sliced the truck in two and continued almost a half mile past the crash scene before a damaged cowcatcher ripped up 100 feet of track and flipped both engines over on their sides.

The driver of the truck, Glen L. Shorter of Salmons, Ariz., was unhurt. He said he did not see the train.

Lana's Heart Throb Planning A Divorce

LOS ANGELES (AP)—Lana Turner's lawyer says that Fernando Lamas, her current heart interest, has reached an oral settlement on plans for divorce from his wife Lydia.

Stanley Fox, representing Miss Turner, says Lamas is to sign an agreement soon for the support of Mrs. Lamas and their 5-year-old daughter Alexandra, and that the divorce probably will be filed in California.

Miss Turner now is establishing her six weeks' residence requirement at Lake Tahoe for a Nevada divorce from her third husband, Bob Topping, sportsman and heir to a tiptop fortune.

LONE STAR

Its popularity GROWS and GROWS*

Oh Boy, What a Wonderful Beer!

ENDLESS SEARCH goes on among thousands of people who try one brand of beer after another — looking for the taste they like best of all. Luckily for us, most people stick to LONE STAR once they try it... That's made LONE STAR the fastest growing brand of beer in the U. S.!

P. S. Sales of LONE STAR have grown 886% faster than sales of the next fastest growing brand of beer in America — from 1941 through 1951. In 11 years — LONE STAR'S sales have grown 1403%! And its popularity grows and grows! Lone Star Brewing Company, San Antonio, Texas.

There is a technique in healing prayer. If several join in the same prayer the effect is multiplied and the prayer must be firmly held in complete faith, not wavering.

Super-Sonic Speeds Attained, But The 'Plodding' Speeds Still Pay

The secret is out at last, if it really was a secret—man has flown at a rate of speed almost twice that of sound. It happened last Saturday at an air show over the Mojave Desert near Edwards Air Force Base, Calif.

'Fair Trades' Bill Approved, So Texas May Face Fresh Attempts

Contrary to what some had expected, President Truman approved the McGuire bill restoring the so-called "fair trade" law in the 45 states where it had been effective before it was knocked out last year by the Supreme Court.

Editors Roundtable—James Galloway Press Differs With Hoover Idea On Defense For Western Europe

Herbert Hoover's idea, set forth again in his speech to the G.O.P. convention, that America's contribution to West European defense should be limited mainly to air power is still opposed by the large majority of editors.

WASHINGTON (D. C.) STAR (Ind.): "Hoover thinks the policies to which we are committed in Europe will impose upon us an economic burden we cannot carry."

CHICAGO TRIBUNE (Ind.): "Big Gen. Bonner Fellers, former war plans officer for Gen. MacArthur in the Pacific, asserts that it is absurd to think that 25 Atlantic Pact divisions, with another 25 supposed to spring to arms within 30 days, could stop a Russian force of 175 divisions, supported by 80 divisions from Communist satellites."

TAMPA (Fla.) TRIBUNE (Ind.-Dem.): "It is quite clear, as Hoover implied, that there is no hope of matching the Russian bayonet for bayonet. But Western strategy is not based on any such program."

The Big Spring Herald

Published Sunday mornings and weekly afternoons APPLICATED NEWS PAPER, INC. Entered as second class matter July 18, 1924, at the Postoffice at Big Spring, Texas, under No. 481 of March 3, 1919.

turbo-jet engine plus a rocket engine which gives it the extra thrust required to move it into supersonic flight. The practical application of such a dizzy speed probably awaits a lot of research and development, but it should be fairly obvious that planes like this would be invaluable as pilotless rockets over long distances.

to abide by the set price. No more bargain sales in those items. Revival of the law on a national scale undoubtedly will lead to fresh attempts in the next Legislature to fasten the law upon Texas.

ers have worked for is the mobilization of enough of a collective force to hold up a Russian advance until such time as our bombers could blast the attackers and demolish communication and supply lines.

NASHVILLE (Tenn.) TENNESSEAN (Dem.): "Though Hoover doubts the will of European countries to resist, it is a fact that their army divisions are on hand and that in the case of France and Britain they are actively fighting communism in other parts of the world."

RICHMOND (Va.) TIMES-DISPATCH (Ind.-Dem.): "Hoover is right in saying there is a 'lack of will in preparedness' in Western Europe which is genuinely disturbing. He speaks accurately of the projected West European force as a 'phantom army.'"

WASHINGTON (D.C.) NEWS (Ind.): "Some of our Allies have not been doing their fair share in Korea or in Europe, as Hoover said. But that is no excuse for withdrawing from Europe. American foreign policy and military strategy must be global, as the Red threat is global."

WASHINGTON (D.C.) NEWS (Ind.): "Some of our Allies have not been doing their fair share in Korea or in Europe, as Hoover said. But that is no excuse for withdrawing from Europe. American foreign policy and military strategy must be global, as the Red threat is global."

World Today—James Marlow

MacArthur May Have Really Started Fade-Away From American Public Life

WASHINGTON (W)—When Gen. MacArthur disappeared into the applauding platform crowd after delivering his keynote speech at the Republican National Convention he may really have begun his fade-away from American public life.

Neither his appearance nor his speech was a sensation. He got an ovation but the following night former President Hoover got a bigger one. And there were yawns as MacArthur picked his way through his long and carefully prepared address.

Variety Of Gifts Received By Woman

DALLAS, July 17 (W)—Mrs. A. C. Lowry of Dallas is being showered with gifts, but they're all collect. Such things as roses, rabbit food, chicken feed, a wrecker, yesterday came ten pounds of tea, a clothesline pole, a bundle of diapers.

Notebook—Hal Boyle

March At Quitting Time Is A True Human Parade

NEW YORK, July 17 (W)—Everybody loves a parade, but the one I like best to watch is the one out of the office at quitting time each day.

It is then the human parade looks most human. And you can tell something about each inmate by the way he starts the long voyage home.

The average worker will recognize at least some of the following standard office types: 1. The clock watcher—This reluctant beaver has developed a size 14 neck from raising his head to study the clock.

Socialist-Labor Candidate Has No Truck With Soviet Policies

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald—Editor's Note.

Soviet Russia has violated everything Karl Marx stood for, claims Eric Haas, Socialist Labor Party candidate for the presidency of the United States. That's a deviation from what most people think. It is generally accepted that Marx is the "father" of Communism.

Merry-Go-Round—Drew Pearson

Once A Conservative, Harriman Now A Pulpit-Pounding Liberal

WASHINGTON.—The most surprising of all the candidates in the Democratic stable is William Averell Harriman, former polo player, millionaire stockholder of the Union Pacific Railroad, ex-ambassador to England and Russia, and Mutual Security Administrator.

When Harriman first started campaigning nobody took him seriously. A few of his friends were kind enough to observe that he might make a pretty good vice president. But that was all.

Probably the most surprised of all at the emergence of Averell Harriman as a crusading liberal would be his father, one of the toughest highlanders ever to milk the stock of a public utility. It was Edward Harriman who built the Union Pacific, then engaged in the famous battle with Jim Hill to control the Northern Pacific, a battle which did not end until it caused a crash in Wall Street.

Some of Averell's old friends have been unkind enough to say that if he hadn't been born with a silver spoon in his mouth he wouldn't have been able to feed himself. They have also made wisecracks about his lack of business ability and the lucky break for the Harriman fortune that Averell chose to go into government rather than business.

Uncle Ray's Corner

Field Hockey Is An Old Sport

There are two main kinds of hockey. One is known as ice hockey, the other as field hockey. In North America, field hockey is chiefly a sport of women, but in Europe it is followed widely by men. It is an older form of hockey than ice hockey.

Cheerio Circle Entertained By Church Of God Women

Stormy Weather Is Churning Into Gulf

By The Associated Press More drenching rain peppered the water logged Texas coast Thursday as an area of squally weather continued churning in the Gulf of Mexico. The rain hit Orange the hardest. The showers had dumped 9.48 inches of rain on that Gulf Coast city in two days, 7.43 inches in 24

Takes Issue With Account Of Altercation

Buck Owens, 1335 E. 6th, Odessa, one of three persons involved in an altercation with a Glasscock County Commissioner two months ago, has taken issue with a news account of the incident. In a letter to the Herald, he said that he had read "with a great deal of interest Mr. Ross Hodges article in the Big Spring Herald in regard to the fight in Garden City over settlement of fence building."

Yarborough To Talk

Judge Ralph Yarborough, candidate for the Democratic gubernatorial nomination has scheduled a special campaign address over Station KBST at 8 p. m. Friday night. It was announced here this morning by his local campaign headquarters.

Machine Operator Suffers Injury

Harold Graves, operator of a hole digging machine for Cap Rock Electric Co-operative, sustained a minor hand injury on the job Wednesday.

Cycle In Collision

Frederico A. Madine, 20-year-old Big Spring man, escaped injury Wednesday afternoon when the motorcycle he was riding was in collision with three parked automobiles. The mishap occurred in the 300 block of Rannels. Damage was light.

Bicycle Recovered

A bicycle stolen from Gene Adams E. 13th, Wednesday night was recovered early today by city police. Officers found the bike abandoned at the rear of a downtown store. It had been stolen from the Ritx Theater between 10:15 and 10:45 p. m.

Belew Named Manager Of Settles Hotel

Carter Belew, to whom West Texas is certainly no stranger, has assumed his duties as manager of the Settles Hotel. He succeeds Ray Manning. A varied experience is back of Belew, who has 18 years in hotel operations with the Affiliated National Hotels. This is his first assignment with the Associated Federal Hotels, which he joined recently. Belew was reared in West Texas and his father, J. B. Belew, now a businessman at Phillips, was a school superintendent. The family moved about considerably in this general area. Starting is as a bell boy at the Clovis (N.M.) Hotel, Belew later was transferred to the Laguna Hotel in Cisco, then to Lubbock, and later to the Pinehurst Hotel in Laurel, Miss. for 2 1/2 years. Returning to Texas, he went to the Bucanese Hotel in Galveston, then back to Cisco as manager of the hotel there. He had three years experience in the U. S. Marine Corps during World War II, being assigned to the personnel classification at San Diego. After the war, he re-entered hotel service at Galveston, returning to Lubbock about a year and a half ago. Belew is married and he and Mrs. Belew have three daughters, Donna Jean, 14, Sandra Ann, 10, and Deborah Sue, 8 months. He is a Mason and a Methodist, "owns a set of golf clubs but can hardly be called a player." He is happy with his new assignment because "Mrs. Belew and I have a number of friends here and have always enjoyed visiting in Big Spring over the years." No personnel or major plant revisions are contemplated at this time, he said. Some physical improvements may be scheduled later after he has a chance to become familiar with the operation.

Hottest Plane In World Travels At 1,238 MPH

By BILL BECKER
LOS ANGELES (AP)—The hottest plane in the free world, the D558-2

Skycrocket, holds a new speed record of 1,238 miles an hour, says the Navy.

And the hottest test pilot, lanky Bill Bridgeman, says zooming at that speed is "no different than flying 750 miles per hour."

The real trick comes, Bridgeman said in an exclusive interview last night, when the rocket-propelled hummingbird runs out of power at a record altitude of 78,494 feet and swoops down 15 miles for a dead-stick landing on the desert.

Both the speed and altitude marks were confirmed here by Secretary of the Navy Dan A. Kimball. Bridgeman flew the Douglas-built rocket ship to unprecedented heights last Aug. 7 and set the speed record Aug. 15 in tests at Edwards Air Force Base, Calif.

The Navy previously had admitted only that the research plane had "climbed at 1,000 miles an hour."

In all, Bridgeman made six rocket flights last summer. The Skycrocket was launched each time at 35,000 feet from a B-29 mother ship.

Each time, the 35-year-old Douglas test pilot said, the needle-nosed 40-foot ship rammed smoothly through the sonic barrier—which is reached at about 660 miles an hour at 35,000 feet and above. In pressurized suit and cockpit, Bridgeman says he was "not especially conscious of speed."

"You notice the high speed only when you make a mistake," the ex-Navy bomber pilot said. "Then she really jumps and gets hard to control. Generally, though, there's

too much blue sky and so many things to do that the speed isn't noticeable."

The record speed was made in level flight after the Skycrocket had reached the apex of her climb. It was measured by instruments in the plane and radar-ground readings carefully checked by the Navy Bureau of Aeronautics.

The moment that sends "your guts into your shoes," Bridgeman declares, comes when the last of the four rockets used by the plane loses its thrust.

"Then you have to bend 'er over fast, level off and start gliding for home."

"Home is Murco Dry Lake, a shiny eight-mile expanse of 'real friendly desert that you can't miss.'"

It isn't exactly a slow glide, either. Bridgeman lands without power at 160 miles per hour. (The average jet plane lands at 110 mph.) The entire flight, from the moment of release from the bottom of the B-29 to the landing, takes only 11 to 15 minutes.

"The sonic barrier isn't a problem any longer," the ace tester said. "Theoretically, man might someday fly 10,000 miles an hour if he can lick the aerodynamic barrier. Heat is the problem now, and the question is can we go higher and faster without having to use an impossibly bulky cooling system."

Bridgeman said he did not have special refrigeration equipment on his record flights.

"The plane is soaked in cold at 65 degrees below zero while the B-29 cruises at 35,000 feet," he explained. "So far that has been all the conditioning I've needed."

The officials records Bridgeman cracked: Speed—670.961 miles an hour, set in 1948, by a North American F-86.

Altitude—72,394 feet, in 1953 by U. S. Army Capt. Orvil Anderson and Albert Stevens in a balloon over Rapid City, S. D.

Kefauver Tells Strategy He Plans To Use In Race

CHICAGO (AP)—Front-running Estes Kefauver today disclosed the strategy he hopes will keep him ahead in the wide-open race for the Democratic presidential nomination.

The tall senator from Tennessee outlined a simple plan—the same

Truman Recovering From Virus Attack

By ERNEST B. VACCARO
WASHINGTON (AP)—President Truman patiently submitted today to the medical tests his doctor ordered while Mrs. Truman hurried to his hospital bedside from Missouri.

Presidential Secretary Joseph Short said Truman was improving steadily, and a slight temperature he ran yesterday afternoon had been anticipated. The President was free of fever when he entered the hospital earlier in the day.

Short said the President had virtually licked the virus infection which forced him to cancel all engagements this week, including his usual Thursday news conference. He said Truman went to the big Army medical center, Walter Reed Hospital, merely for a general checkup.

Mrs. Truman decided to come home to have a look for herself and to keep the President company.

Mrs. Fred Wallace, a sister-in-law, said in Independence, Mo., "The family is not alarmed over his (Truman's) condition," and that Mrs. Truman was returning "because the family thought Harry might be lonesome."

It was the 68-year-old President's first hospitalization since he entered the White House April 12, 1945.

Short said that although Truman had almost completely recovered from the infection which first developed Sunday, his doctor, Maj. Gen. Wallace H. Graham, ordered him to the hospital, which has facilities for a complete checkup "with all the works."

Between medical tests and periods of rest yesterday, the President was up much of the afternoon working on legislation passed by Congress just before it adjourned. The White House listed 37 bills he signed during the day.

Cannon Holding To A Thin Lead

HELENA, Mont. (AP)—Lt. Gov. Paul Cannon held a razor-thin lead over Justice Lee Metcalf today in the fight for Democratic nomination as U. S. representative from Montana's 1st Congressional District.

Primary election votes still trickled in from remote mountain precincts, but nearly complete, unofficial returns gave Cannon 13,915 and Metcalf 13,608, with 374 of 390 precincts reporting.

Wellington D. Rankin, GOP national committeeman, won the Republican nomination by 2,000 votes over State Rep. Winfield E. Page.

State Sen. J. Hugo Aronson took the GOP nomination for governor by beating Railroad-Public Service Commissioner Leonard C. Young, 52,024 to 20,244.

Gov. John W. Bonner was unopposed for Democratic renomination.

The nominations for U. S. Senate also were taken by unopposed candidates. Rep. Mike Mansfield will be the Democratic nominee in November. Sen. Zales N. Ecton the Republican choice.

In Montana's other congressional district, the second, Rep. Wesley A. Ewart was renominated without opposition. His Democratic opponent in the general election will be Willard Fraser, also unopposed in the primary.

Aly Kahn May Visit Rita In Hollywood

HOLLYWOOD (AP)—Aly Khan may come to Hollywood soon to visit his estranged wife, actress Rita Hayworth, and their daughter Yasmín.

Miss Hayworth said yesterday, through a Columbia Studio spokesman, that the Moslem prince told her recently by telephone from Europe that he plans to come to this country in August.

About rumors of a possible reconciliation, Miss Hayworth said: "I have not changed my plans." Her plans, the spokesman said, are to obtain a divorce in Nevada, where she has already established residence.

New Men Are Ones Needing Protection

LONDON (AP)—Women officials who patrol London's railroad stations to guard young girls from vice and white slave racketeers have been told to quit.

The reason: a 1953 miss arriving in the big city is quite capable of looking after herself, according to the National Vigilance Association. The association hired the morality patrol.

"In fact," commented dowager Lady Nunsborough, chairman of the association, "if anything it's the young men who need protecting and looking after today."

Servicemen Allowed Tax-Free Profits

WASHINGTON (AP)—Members of the armed forces who sell their homes—and make a profit on the deal—need not pay income tax on the profit if they invest the money in a new home within four years.

President Truman signed a bill yesterday authorizing this benefit.

Pilot Fails In Try To Avoid Houses

SANTA ANA, Calif. (AP)—A Navy pilot, who apparently could have bailed out, tried to fly his disabled jet fighter away from a populous residential district and died when it crashed into a home.

Witnesses said the twin-jet Banshee lost a wing tip at about 15,000 feet. The pilot, whose name was withheld, attempted to keep the ship under control. But it swooped low, grazing tree tops, and finally plunged through the roof and front wall of the Ray Stedman home, demolishing it.

Mrs. Hazel McCallom, sitting in the living room of her home across the street, was seriously injured by flying wreckage.

Police Are Injured

TOKYO (AP)—Sixteen police were injured Wednesday when Communist demonstrators clashed with police at a Red peace rally in Nara, near the ancient capital of Kyoto.

Buffelgrass Thriving At Water Valley

STERLING CITY, (SC)—If any man doubts the ability of Buffelgrass, a native of South Africa, to become a fully acclimated and perfectly-at-home West Texan, all that man needs do is go to the Sterling City office of the Soil Conservation Service and mention the grass to Harry Lawson, work until conservationist.

Lawson's answer will likely be, "Come on. Get in the car and I'll show you."

The conservationist will then take the visitor to Water Valley and all the way there the guest will probably hear nothing but Buffelgrass. Arriving at their destination Lawson will pull up before the home of C. G. Parsons, superintendent of the Water Valley School, who is growing the relatively new grass on a four-acre plot next to his home. Parsons hand-planted the first patch of the two acres of grass on April 29. He has already hand-stripped about 200 pounds of seed and has more to go. His present grass crop is being grown for seed only and his best grass is already 30 inches high.

Lawson and Parsons will both explain to the visitor that the grass is scheduled to keep up a substantial growth and increased seed production until the frost hits it. Currently Buffelgrass seed is selling for about \$6 a pound and Parsons estimates his production is costing him about \$1.50 for a profit of \$4.50. SCS men say that through hand-stripping after the grass has attained a good stand and growth the seed production should run from 600 to 1,000 pounds to the acre.

It is probably as near a drought-resistant grass as is available to West Texans. Neither Parsons nor Lawson will say it is the most drought resistant, but both will point out that Parsons has produced his crop on very little moisture. With an aluminum pipe system from a well, the school man watered the grass several times right after he planted it, and has only watered it a few times since. Parsons is getting the seed hand-stripped for 50 cents per pound, and that incidentally is the way the three Parsons children, Lynda Kay, 13; Don, 9, and David, 7, are

Navy Constructing Mathematical Man

SAN DIEGO, Calif. (S)—There has been talk of mechanical men and robots—but now the Navy is building a mathematical man.

The work is being done by scientists at the Naval Electronics Laboratory here aided by a battery of electronic computers—the so-called electronic brain. When completed the fellow will have no arms, legs, eyes or ears. He will be a Navy man without a uniform. Formally, he's known as Human Operator Mark I—Homi, for short.

John M. Stroud, research psychologist at the electronics laboratory and one of Homi's designers, says that Homi has saved lives by anticipating human errors before they were committed. Machines have been redesigned when the model showed that a human being would react in a dangerous way to the machine's controls or performance.

"Homi," Stroud says, "is the nearest thing to a general purpose mathematical model of a man now in existence as far as we know."

Marines Announce Food Preferences

WITH THE FIRST MARINE DIVISION IN KOREA (S)—Members of the 1st Battalion, 1st Marine Regiment, prefer "heat-and-serve" food, dehydrated soups and pre-cooked preparations over sweets and other confections, according to a recent survey.

Cans of chili, soups, tuna, sardines and meat sandwich-spreads were rated high on the preferred list. Pepperoni was listed as favorite among meat items.

Other cherished gifts from home are sharp cheese and cheese spreads, "instant" cocoa, tea bags and bouillon cubes.

Poor Speller Has No Chance Today

MILWAUKEE (S)—George Lapham was arrested because he couldn't spell "pheasant." Lapham entered a bank yesterday and wrote out a \$50 check. But Assistant Manager Edward Jung noticed Lapham had written "Pheasant Lane" instead of "Pheasant Lane" as his address.

Jung, a much better speller, summoned police and Lapham was booked on a charge of forgery.

Loot Is Found In Refuse Cart

PENANG, Malaya (S)—A robber's loot—\$200 in cash wrapped in tin foil—was recovered from a refuse cart on its way to the incinerator after police answered the victim's call for help.

The police, noticing a fleeing man, chased and caught him. The culprit probably had thrown the cash into the refuse heap in a bid to free himself.

Thirty-Eight Doctors Serve Seven Counties

Thirty eight to 55,000. That's the ratio of medical doctors to the population in a surrounding seven-county area. What makes it even more startling is the fact that the area covers 6,941 square miles.

And for the caring of people in Andrews, Borden, Glasscock, Howard, Martin, Mitchell and Sterling Counties, only 37 of them are practicing.

Taking into consideration that most of the area is ranching country and that the population is sparse except in a few communities, this is still a small figure.

Doctors estimate to adequately care for their patients, a doctor is needed for every 1,000 people in communities, or in rural areas, one for every 800 people.

Even at the former rate, the seven-county area is vastly short of doctors. It figures one doctor for every 1,500 population or about half of the accepted average.

Howard County, with Big Spring supplying all the doctors, leads the county check of practicing physicians. Twenty-five medical doctors are listed as practicing in Big Spring. Howard also leads in Big Spring, with five—all in Big Spring.

Mitchell County, with Colorado City, claims six doctors and also one hospital.

Martin County has four practicing doctors—all of them in Stanton. A retired doctor resides in Lennar.

Two doctors are practicing in Andrews County, in the county seat, Andrews. The one remaining practicing physician is in Sterling City, in Sterling County.

This leaves three counties—Mitchell, Glasscock and Borden without a doctor.

The trend away from the so-called country or rural doctor is not a recent movement. Doctors comment that the area has been sparsely populated with doctors for many years.

The prime reason is advancement. A young physician will have more chances to advance and get better positions in the larger cities and hospitals than in a small town. Thus, the young doctors remain in the cities and large hospitals.

Years ago, when towns in this area had oil booms, doctors saw fit to practice in the communities but after the booms subsided, they saw fit then to move on to "greener pastures."

Thus, the situation of 37 practicing physicians serving over 55 thousand people resulted.

LeTourneau Hopes To Win Liberians

VICKSBURG, Miss., July 17 (S)—Industrialist R. G. LeTourneau hopes to move African natives to Christianity by replacing Liberian jungles with fields of grain.

LeTourneau bought a 200-foot war surplus landing ship from a Pittsburgh junk dealer, reconditioned it at the R. G. LeTourneau, Inc., plant here, had it checked at a New Orleans drydock and is now loading it here.

It will leave Saturday with a cargo and a staff of 20 "technical missionaries" for Africa. Rev. Billy Graham, the evangelist, will speak at dedication ceremonies Saturday morning.

LeTourneau thinks he can hurry Christian missionary work by transplanting American machines and the know-how for better living.

"If we can show them a field of grain and a combine, they'll listen to us about God," he said.

LITTLE AUTHORITY City Building Code Fits Another Era

Big Spring's archaic building code may be a handicap to the city building inspector.

F. W. Bettie, the inspector, says the code gives him little authority to require builders to meet any kind of engineering standards outside the city's fire limits.

E. L. Killingsworth, city engineer for the past seven years, agrees to a certain extent with Bettie, although he claims the building inspector has limited power to regulate types of construction outside the fire limits.

The engineer's principal criticism of the code is that it is seriously outmoded and fails to recognize new building materials and processes. As an example, he points to the rigid requirement for 12-inch masonry walls for buildings inside the fire limits.

"The State Fire Insurance Commission has agreed that such a standard can be deviated from through the use of certain materials and processes," Killingsworth declares. He says many of these materials and construction methods have been developed in the two decades since the Big Spring building code was adopted in 1929.

Killingsworth believes the Pacific or Southern Building Code, both generally accepted as good standards, could be adopted by Big Spring with only slight modifications to make them fit local conditions. The engineer also favors passage of a sidewalk ordinance here to regulate construction of walkways.

He says a good sidewalk ordinance would permit the city engineering department to establish all walk lines and grades, and would have eliminated many of the present situations where walks fail to conform with street grades and are often located on public instead of private property.

As far as building inspections are concerned, Bettie confines practically all of his activity to the issuance of permits, making sure that builders locate structures the specified distances away from property lines, and seeing that construction requirements are met within the fire limits. Much of his time is used for the clerical task of processing building permit ap-

plications and issuing the necessary certifications for start of construction.

Builders here apparently are satisfied with a limited building inspection program, contrary to the attitude of home builders in the Midwest. In Des Moines, Iowa, builders have proposed more adequate inspection which would be financed through an increase in building permit fees. That's something local contractors haven't requested.

Big Spring probably would have to increase its permit fees sharply to finance a more extensive inspection program. Total of building permit fees collected here during the past fiscal year was \$2,714.50—not enough for one inspector's salary, let alone pay for clerical help, an assistant, or other expenses.

The fee charged locally is 50 cents for the first \$1,000 of construction and \$1 for each additional \$1,000 or portion of that amount.

In contrast to the building code, Big Spring's electrical and plumbing ordinances are considered among the best. From a technical or engineering standpoint, Killingsworth says both are good. However, he criticizes enforcement provisions of the ordinances, claiming they are difficult and sometimes impossible to enforce due to weakness of legal terminology they employ.

Wolves Snap Finger Off Child's Hand

BRISTOL, England (S)—Two-year-old Roderick Downs is used to his family's Alsatian dogs.

So when he found himself in front of the wolves' cage at the Bristol Zoo yesterday, he stretched a friendly hand through the bars to pet them.

The wolves snapped a tip off a finger. Roderick, not realizing just what had happened, ran off, exclaiming, "Naughty how-wow."

The same wolves snapped the tip off a finger of another child, 4-year-old Graham Davis, later in the afternoon.

AFTER 15 YEARS Andrews Girls Still On Speaking Terms

By JAMES BACON
HOLLYWOOD, July 15 (AP)—The Andrews Sisters are one of the most unusual sister acts in show business—they still speak to each other after 15 years in the big time.
They kid themselves unmercifully about their movie career. Some years ago the girls made 15 low-budget movies which won them a 1940 award from the Harvard Lampoon as the "most frightening" film figures of the year.
"No wonder," comments Maxene. "The guy who made us up also worked on Boris Karloff for 'Frankenstein.' He was always getting us mixed up."
Patty, the one in the middle, added:
"We laugh at it now, but, brother, it was heart-breaking at the time."
The movies never did anything for the Andrews Sisters except earn them a million dollars and their studio millions more. All their pictures were made for around \$150,000 to \$200,000 each and released during the lucrative war years.
The girls are no Elizabeth Taylors when it comes to beauty but they are far from frightening. All three have large dark eyes with heavy black lashes, nice figures, pretty legs and loads of personality.
They are natural comediennees. They recently played three weeks at the Coconut Grove, their first Los Angeles public appearance. That engagement, witnessed by many television producers, probably did more than any other to dispel the notion the girls were just three girls in front of a mike.
Although the sisters have played movies, theaters and nightclubs for years, their great following is still among the record buyers.
Over at Decca, only one artist commands more respect and he is one of the financial backers of the firm. He also sells more records than anybody else—Bing Crosby.
Fifteen years ago, the three sisters burst upon an unsuspecting public with a strange harmonic version of a Yiddish love song called "Bei Mir Bist du Schoen."
The girls themselves are of Greek and Norwegian descent.
In 15 years, the girls have sold more than 25 million records for Decca. They own eight gold records—awarded whenever a recording passes the million mark.

German War Dead Are Transferred

NI DEGENEN, Germany (AP)—The last of the German Wehrmacht's World War II fallen soldiers have found their final resting place after seven years. They had been lying in temporary graves hastily dug during the desperate battles of early 1945 by the retreating Germans.
The German War Dead Cemetery Organization has now moved them to new cemeteries in the Rhineland. One of these is the largest military cemetery in Western Germany. It lies in the Huerstgen Forest—site of one of the war's bloodiest battles. The bodies of the Allied soldiers killed in the "Devil's Forest" as it was called by the American GIs were moved to large military cemeteries in Belgium and Luxembourg shortly after the end of hostilities.
The Huerstgen cemetery will be dedicated in a solemn ceremony late in August. Three thousand Germans are interred there. Their crosses. But one third of the 3,000 graves are filled by unknown soldiers.

Mortality Is High For Tax Collectors

HONG KONG (AP)—The mortality rate among Communist grain-tax collectors was alarmingly high last year in South China, where farmers had a way of resisting the exactions with force.
So this summer, say Canton reports, the Communist government will send high school students into rural areas to gather the tax harvest.

Dutch Are Planning Big Drive For Scrap

AMSTERDAM (AP)—A Dutch scrap-collecting campaign, intended to raise the national scrap-output will start shortly.
The Dutch scrap-output must be stepped up to feed a new steel plant to be opened soon in the little Dutch town of IJmuiden—gateway to Amsterdam harbor.
The scrap-collecting campaign is intended to make the Dutch people, who ordinarily consider waste metals worthless, more scrupulous. To advertise the campaign "Pietje Schroot" (Pete Scrap) will show up in Dutch streets to stress the importance of scrap for their country's economy.

Railroad Signal Device Improved

CENTRALIA, Ill. (AP)—Ever been stopped by automatic railroad crossing gates only to see the train just idling down the tracks. This can be corrected by a new device.
Illinois Central Railroad has rewarded one of its signal testers, Clay Owens, 22, of Effingham, for the improvement. Owens got \$50 and a citation for the device which permits gates to stay open if a train stops within the signal area. Only when the train resumes movement do the gates close.

Cost Is Estimated For World War III

SAN DIEGO, Calif. (AP)—A Navy economics expert estimates it would cost the United States almost four trillion dollars to fight an all-out third World War.
Comdr. John W. Seager of the Navy Supply Corps, who is a member of the Industrial College in Washington, said in a recent interview here that each major war the United States has fought has cost roughly 10 times more than the previous one. World War II cost \$33 billion dollars, Seager says.

The first Queen Elizabeth of England and the ladies of her court wore mourning during Lent and the custom was continued until well into the 19th Century.

Ike's Visit To Cause No Stir

FRASER, Colo. (AP)—The impending visit of Gen. Dwight Eisenhower to this Colorado mountain town 70 miles west of Denver didn't cause much stir today.

The Republican presidential nominee is due here tomorrow for some fishing and a rest at the ranch of a Denver friend, Aksel Nielsen.

The ranch, called the Lyons Peaks Ranch, is barely two miles west of this community of 250 persons. The altitude of the town is 8,568 feet.

Eisenhower has visited the Nielsen place before and has fished in St. Louis Creek, 200 yards north of the ranch buildings.

Basel Teller, 47, who leases the ranch from Nielsen and his partner, Carl Norgren, said:

"Sure, we expected Ike to come up. But we didn't know when it would be."

Teller said no food has been stocked for the candidate's projected seven-day stay.

"Mr. Nielsen usually brings beef with him from Denver," Teller explained.

He didn't know just what there would be to eat but of previous experience with the Eisenhower appetite said: "He's hell on mulligan stew."

Belgian Has Way To Make Beer Tablets

By ALFRED CHEVAL
BRUSSELS (AP)—A young Belgian biochemist claims he has found a way to reduce any beer to tablet form.

The beer tablets, Robert Mouton says, can be turned back into a true foaming brew simply by adding water, alcohol and carbon dioxide.

He sees the future for his tablets in the opening of a world-wide beer market. Beer would be concentrated into tablets wherever raw material and manufacturing is the most economical. The concentrate then could be exported anywhere.

Mouton says "there'll be no water to transport, no bottles. Just an easy to handle concentrate, cheap to pack, and transport. It could be stored for years even under tropical climate."

He asserted the process was demonstrated before the U.S. quartermaster general representative in Washington, who said "it yields a beverage which very closely resembles the regular type of American beer."

Mouton said he has applied for patents for his process, in which the beer's gas, alcohol and water are extracted through combined

vacuum and deep freezing. What is left is a powder which can be pressed into any shape and size for transportation and easy storage.

The young scientist came across the process by accident while he was working on an apparatus of his invention to realize drying under vacuum and deep cold and substituted beer for lack of a solution of barley proteins.

Mouton spent two years at Harvard studying human plasma fractionation. He is a graduate of Brussels University and currently is involved in protein biochemical research.

New Type Screens

NEW YORK (AP)—Movie screens at modern outdoor drive-in theaters are being made of steel.

Screens used to be made of wood, anchored to telegraph poles, or of cinder block masonry. Often the soil settled and cracked the screen or termites moved in.

The new steel screens have a concave surface to keep actors in perspective and they are guaranteed to resist any wind under 100 miles an hour.

Kefauver Men Study Ike Plan

By JACK McDONALD
WASHINGTON (AP)—The successful tactics used by Dwight D. Eisenhower's supporters in winning the Republican presidential nomination for the general may be influencing the backers of Sen. Estes Kefauver of Tennessee in his quest for the Democratic nomination.

There appear to be four instances of successful Ike moves which are cropping up in Kefauver maneuvers:

1. The appeal for support from party governors.

2. The protest against alleged control over the conventions by an opponent's "machine."

3. The plea for full radio and TV coverage of the conventions and their important side meetings.

4. The charge of illegal moves to win delegates.

Tennessee Gov. Gordon Browning, who will nominate Kefauver, has wired all Democratic governors, soliciting their support in a drive for a "free, unrammed convention."

Gael Sullivan, Kefauver's manager, has charged that backers of

unnamed Democratic candidates were trying to gang up and stop Kefauver—a "machine" in the form of a coalition.
Sullivan has urged that all meetings be open to radio and TV as well as the press.
The Kefauver delegate issue was raised by his camp's report that someone is trying to bribe away some of Kefauver's California delegates.

Here Are Summer Short Cuts For Cooking Meat

Summer is the season for yea how are 2-24 ni food reast Summer is the season for lazy living. It's the time of year to reduce the household chores to a minimum and enjoy yourself.

While many household tasks of ten can be postponed, feeding a hungry family is a daily assignment. Now's the time to gather together some summer meat cooking short cuts to help reduce these hours spent in the kitchen.

One of the best ways to get summer emancipation from the kitchen is to make full use of your pressure cooker. The body's requirement for protein remains the same year 'round, so you don't want to cut down on the amount of meat you serve your family. But you can reduce the time required to cook it.

Pointers On Pressure Cooking Meats

- Pressure cook only those meats which are suitable for moist heat cooking—such as pot, roast, Swiss steak, meat balls, horribles, pork chops, pork shoulder steaks and smoked shoulder butt.
- Do not pressure cook meats which require dry heat, such as rib roast, ham slice, T-bone steak, etc.
- Before cooking any meat (except smoked and cured meat) brown slowly in hot fat.
- Place all meats, except those used in soups and stews, on a rack in the pressure cooker. This prevents a water-cooked flavor.
- For a browner exterior, after pressure cooking, place meat in a hot oven (400-450 F.) or under the broiler for a few minutes.

Make Italian Sauce For Spaghetti

Here is an easy way to make Italian Spaghetti Sauce.

Ingredients:
 2 tablespoons olive oil
 1 pound ground meat
 1 clove garlic
 1 No. 2 can tomatoes
 1 can tomato paste
 1/2 cup parsley
 1 teaspoon salt

Method:
 Heat olive oil in frying pan. Brown meat in oil. Mince garlic fine and add to meat. Add tomatoes and tomato paste. Chop parsley fine and add. Add seasonings and simmer slowly one hour or until sauce becomes thick. Serve with hot, cooked spaghetti. Serves six.

Cheese Rounds Are Tempting With Tea

Even without an official proclamation you've probably decided for yourself that there's nothing quite like a frosty glass of iced tea for a mid-summer afternoon's perk-me-up. Some like it sweet, some like it with lemon or lime, but however you like it, you're bound to feel cooler with a long, tall glass of sparkling, clear iced tea in one hand and one of these tempting Cheese Tea Rounds in the other.

Cheese Tea Rounds
 1/2 cup cream cheese
 1 tablespoon light cream
 1 teaspoon currant jelly
 8 slices enriched yeast-raised bread rounds. Every slice of enriched yeast-raised bread has had the three important B vitamins, thiamine, niacin and riboflavin added—the mineral iron too for good red blood. So toast slowly every precious scrap until completely dry all through, and store in a container in use when a recipe calls for dry bread crumbs.

Combine cream cheese, cream and jelly. Cut a round from the center of each bread slice with a 3-inch cookie cutter. Toast on both sides. Spread each round with cream cheese mixture. Dip cheese side in fine bread crumbs. Brush with melted margarine or butter and place on broiler pan three inches from heat. Broil till toasty brown—about 4 minutes. Makes 4 servings of 2 each.

A n d remember—don't throw away those trimmings from the

Capri Pitchers Add Charming Touch
 A charming touch for any table are three Capri pitchers, hand-painted with grape and lemon designs. They come in graduate sizes to hold cream and syrup on the table and iced tea on the terrace.

Key-Losing Screwball
 Are you a key-losing screwball? Then you need a gold-plated, flexible snake chain that holds more than a dozen keys just unscrew the tiny balls to make an addition.

It's Good Mommy

Morgan Heirs Vouch For Mother's Recipes

A war romance which began in Milwaukee, Wis., resulted in marriage and started a family in Big Spring is the life, in a nutshell, story of Mr. and Mrs. J. C. Morgan, 112 Cedar Rd.

Bonus attractions of the family are the three sons, Mike, 4, Ricky, 10, and Billy Carl, 1.

The Morgans have lived here five years, although Big Spring is the original home of the head of the house. He is a safety engineer at Cuden.

Mrs. Morgan, a golfing enthusiast, would like to join her husband more often in his favorite sport.

"But I enjoy playing golf too much to do so without the proper amount of time," she smiles.

Originally from Minnesota, the mother of three devotes much of her little leisure time to trying new recipes and most meet with the instant approval of the men.

One of the latest additions to her recipe file is a recipe for Cherry Chocolate Cake. And to vouch for the popularity of the dessert are the boys who cry "More, Mommy, more."

CHERRY CHOCOLATE CAKE

Ingredients:
 1 cup sugar
 1-3/4 cup butter
 1 egg
 1 square chocolate
 1 teaspoon soda
 1/4 cup chopped Maraschino cherries
 2 tablespoons cherry juice
 Sour milk
 1 1/2 cups cake flour

Method:
 Cream sugar and butter, add egg, chocolate that has been melted, and cherries. Put cherry juice in measuring cup and add sour milk until it makes one cup. Add alternately with flour. Bake at 350 degrees until done.

FROSTING
Ingredients:
 1 cup powdered sugar
 1/2 cup milk
 1 whole egg
 1 tablespoon melted butter
 2 squares chocolate
 Vanilla

Method:
 Melt butter and chocolate together. Cool. Put all ingredients into bowl and beat with electric mixer, for best results, until blended. Be sure all ingredients are cool before beginning frosting.

Raisin-Bran Is One Of Most Versatile Cereals

Raisin-bran is one of the most versatile of all the cereals on the pantry shelf. Here are a few recipes to try in your own kitchen.

Skinner's Raisin-Bran Recipes

Raisin-Bran Muffins
 1/4 cup sugar
 2 tsp. shortening

Add Gourmet Touch By Serving Soup

Add a gourmet touch to a meal with Minestrone, Italian Bean Soup.

Ingredients:
 1 cup navy beans
 5 cups cold water
 1/2 teaspoon salt
 1/4 cup margarine
 1 clove garlic
 1 tablespoon onion
 2 tablespoons parsley
 1/4 cup celery
 1/2 teaspoon salt
 1/4 teaspoon pepper
 1 cup tomato pulp
 1 cup chopped cabbage
 1 cup macaroni shells
 1/2 cup Parmesan cheese

Method:
 Soak beans overnight. Drain. Pour water over beans, add salt and simmer until tender. Add more water if needed. Melt margarine in frying pan and sauté chopped vegetables until brown. Chop celery, add salt, pepper and tomato pulp. Chop cabbage coarsely and add to other vegetables and bring to boil. Combine with cooked beans. Add macaroni and simmer 30 minutes. Sprinkle cheese on top of each serving.

Clean Handkerchiefs

To clean a handkerchief in a hurry, wash, rinse and blot in a towel, then pull the hems straight, square the corners and paste flat to dry against a mirror or over the edge of the bath tub.

BROILER MEALS

Broiled dinners are good choices for summer because the main course can be cooked quickly all at the same time. For instance, ground beef patties require only 15-20 minutes to broil. Tomato halves topped with grated cheese and cooked potato slices brushed with butter (or patties made from leftover mashed potatoes) can be popped into the broiler when the meat is partially cooked and ready to turn. The entire meal comes out hot and savory after only fifteen minutes total cooking time.

Other budget class broilable meats are frankfurters, canned or precooked sausage and lunchmeat steaks.

TOP OF THE RANGE MEALS

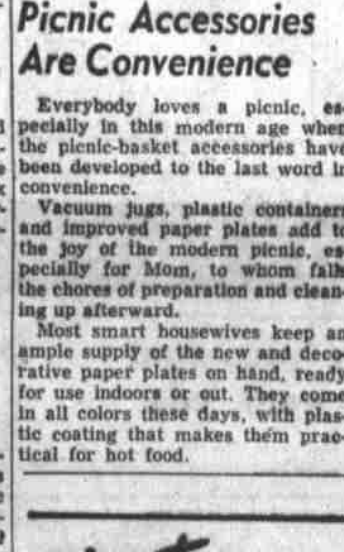

Top-of-the-range meals are favorites in the summertime. For these,

Picnic Accessories Are Convenience

Everybody loves a picnic, especially in this modern age when the picnic-basket accessories have been developed to the last word in convenience.

Vacuum jugs, plastic containers and improved paper plates add to the joy of the modern picnic, especially for Mom, to whom falls the chores of preparation and cleaning up afterward.

Most smart housewives keep an ample supply of the new and decorative paper plates on hand. Ready for use indoors or out. They come in all colors these days, with plastic coating that makes them practical for hot food.

Thirsty or Not YOU'LL ENJOY Grapette

MOST BEAUTIFUL SOFT DRINK BOTTLE IN AMERICA

... containing a delicious blend of wholesome ingredients including soft sparkling soda, sugars from the core belts and the Sunny South, ester, delightful aromes, U. S. certified color — all generously fortified with real juice from ripe Concord grapes. Join the countless millions who enjoy Grapette, America's Thirsty-Or-Not drink!

WHAT WAS YOUR OBJECTION TO THE FIRST CONVENTION, POGO?

WELL, IT WAS STUFFY AN' CROWDED AN' EVERYBODY HAD HORNS AN' HOLLERS.

HOW'S THAT?

MOSTLY "MOO."

YOU GOT INTO THE WARDEN'S CONVENTION, SON—THAT WAS THE STOCKYARD CROWD.

WELL—THEY'LL NEVER WIN IN A BEESSE.

DONALD DUCK

ARE YOU SURE YOU'LL KNOW THE TURN-OFF TO THE SWIMMING CLUB?

SURE! I NEVER FORGET A ROAD I'VE DRIVEN ON!

ARE YOU SURE? IT'S NOT MARKED?

AH, THIS IS IT!

SURE, I'VE GOT A PHOTOGRAPHIC MEM...

TREPPASSER!

THAT'S FUNNY—NO SWIMMING TRUNKS!

BRIDE PATH IS ALONG CLUB NO CAR!

THE SPRINGBOARD

News From Webb Air Force Base
By A-3C FERD J. BORSCH

"BOOTSTRAP"
Twenty-nine officers and airmen signed up for the second summer session courses at Howard County Junior College under the "Operation Bootstrap" program offered by the Air Force.

Although the number of students is under the first summer session figure, late applicants are expected this week. HCJC opened its second summer session Wednesday night. Sixty-nine students from the base completed courses under the first "bootstrap" program offered on the base at HCJC Monday.

Typing and Spanish classes drew top attention from base personnel. Each class drew six students. Five signed up for trigonometry and four registered for business law. **LT. COL. BROWN**

Lt. Col. William Brown, Wing Comptroller, departed Webb early Tuesday morning with Mrs. Brown and their two children, Philip and Michele.

A recalled reservist, Col. Brown completed his present tour of duty Thursday, and will revert to reserve status. Lt. Col. Brown has indicated he will return to his former civilian position as Commercial Personnel Supervisor for the Illinois Bell Telephone Co. in Chicago.

Recalled in February, 1953, Lt. Col. Brown's previous tour of active duty, from July, 1941 to February, 1946 included service in the Hawaiian Islands, and on Saipan and Okinawa, in the Pacific Theatre of Operations.

A determined budget watcher, Lt. Col. Brown is credited by staff officers with the knack of being able to wring the ultimate value out of the various funds allocated to Webb.

PROMOTIONS
The next promotion list of non-commissioned officers and airmen at Webb will be released in August according to Capt. Ralph C. Skinner, officer in charge of Airmen's Section of Wing Personnel.

ECONOMY
The two economy programs in progress at Webb gained in momentum last week.

Many new posters in the Air Training Command-wide MacTorchy economy campaign were distributed to every operational department on the base. These posters give helpful hints on how to economize on any job at the base.

"Look About You" is the present theme of the "little day-by-day-economies" campaign being sponsored by the Manpower and Management office. Only by observing present methods of operation can a person formulate ideas of improvement and savings at his job. It was pointed out.

ACCIDENT
The second auto accident within ten days involving Webb personnel took the life of A-3c Jonnie Lee Cochran in a mishap 25 miles north of Del Rio, Texas, Saturday night. S-Sgt. Charles Hannah and Eugene Croft, passengers in the Cochran car were treated for cuts and bruises in the Del Rio hospital. Five aviation cadets from Webb were injured July 3, when an auto crashed into a concrete abutment near Sterling City, Texas.

TOUR
Plans were completed this week for a tour of Carlsbad Caverns being arranged by Personnel Services. The tour, to start July 18 and end July 20, offers free transportation to airmen making the trip. Personnel selected by squadron commanders for meritorious duty will receive three-day passes and be recommended for the trip.

NCO WIVES
Webb's NCO Wives Club held election of officers recently. Newly elected officers include Mrs. Mary Jane Chaffin, president; Mrs. Helen Johnson, vice president; Mrs. Dorothy Alford, secretary; Mrs. Trinitie Johnson, treasurer; Mrs. Socorro Wilson, social chairman; Mrs. Katherine Shoemaker, welfare chairman; Mrs. Lavelle Palmore, reporter; Mrs. Jeanette McCary, membership; and Mrs. Mary Singletary, parliamentarian.

Club members are urged to attend the next regular meeting at the NCO Club lounge Monday, July 21, at 7:30 p.m.

OFFICERS' WIVES
The Webb Officers' Wives Club held its monthly bridge and canasta party at the Academic Building Thursday.

In a "States Luncheon" staged at the Settles Hotel last Thursday, a table representing the deep south states of Florida, Alabama, Mississippi, South Carolina, Georgia and Louisiana won first place in a centerpiece display.

ROTC
Six ROTC students from Good-fellow AFB learned some first hand lessons about jets as they toured Webb Saturday as part of their summer course.

Ghost Writer For Presidents Quits

WASHINGTON (AP)—The "ghost writer" who handled the correspondence of the late President Franklin D. Roosevelt and President Truman resigned yesterday.

William D. (Bill) Hassett, 71, quit his post as White House secretary after 37 years — and more than 500,000 presidential letters. He has been in poor health.

Truman accepted the resignation regretfully, saying he felt he was losing his right arm.

Hassett is one of the last of the early New Deal figures, having joined Roosevelt in 1935 after a long newspaper career.

the Dusters trimmed Stanton, 14-7, at Stanton.

The third annual state football tournament scheduled at San Angelo this week was canceled. The Dusters were entered in the tourney which was slated to open Monday.

Wing Headquarters continued to dominate the Wednesday Bowling League while Field Maintenance and Supply shared honors in the Friday League.

Wing, Air Base Headquarters and Food Service were deadlocked in first place with 1-0 records as the base Squadron Softball League opened the second half of its 1952 schedule the past week.

Piano Tuners Holding Parley

PHILADELPHIA (AP)—Piano tuners, like a man listening for a good word about himself, should have sharp ears, and like the saints in heaven, a love for children even though the latter drop toy boats and sealing wax into the baby's hand.

To encourage such qualities, as well as to trade tuning experiences and techniques, 249 men and one

woman, all members of the National Association of Piano Tuners, are hobnobbing in Philadelphia this week.

"We're not so young, most of us, but young men don't seem to go in for piano tuning any more," mused Laben A. Nichols, one of the association officers.

"Too bad, too, because ours is a good profession: pleasant surroundings, steady work, and, for the most part, an appreciative audience."

Here is the consensus on children: "We like them and, despite what most mothers think, don't mind having them around when we're

tuning an instrument. We forgive them for the chewing gum, gum drops, crayons, toys and assorted keepsakes they hide in the family piano."

Against The Law To Dig On Dam

CAIRO, Ill. (AP)—Fishermen who find Cairo's high earthen river levees are fine for digging worms will be fined, police warned.

U. S. engineers said serious damage to levees could result from digging holes in them. Bait-hunting in levees breaks out anew each fishing season.

4-H Members Will Discuss Farm Safety

One of the main subjects to be discussed at the county-wide meeting of the Howard County 4-H Club at the Lomax School tonight will be plans for the observance of National Farm Safety Week, Sunday through July 26.

Other business before the meeting will be plans for the Howard County 4-H Club and FFA Rodeo to be held in Big Spring the last week in August or the first week in September. The evening's program will also include recreational features and refreshments.

Sonny Choate, who won a bond as a participant in the national 4-H Farm Safety campaign last year has also entered the 1952 contest.

The theme of the 4-H program will be to make Farm Safety Week last all the year. Figures released by the National Safety Council indicate that 14,500 farm people were killed in accidents last year and that 1,250,000 others suffered lost time from injuries.

Home accidents, according to the same report, are costing the American people over \$600,000,000 annually in lost wages, medical expense and insurance overhead.

"The safest for farm home family members and for children to grow up in, is one where the parents are safety conscious and where hazards are corrected," says County Agent Durward Lewter.

Girl Goes To Jail For Walking Home

SAN FRANCISCO (AP) A 20-year-old girl went to jail because she chose the wrong spot to exercise a woman's prerogative of walking home.

Pat Phillips, a waitress, said she left the car of a man she met in a tavern when he made offensive advances yesterday.

Unfortunately for Pat, the car in the middle of the San Francisco-Oakland Bay Bridge — where pedestrians are strictly prohibited.

Municipal Judge John B. Molnar set bail at \$100 on a misdemeanor charge of trespassing on state property. Pat couldn't raise it.

ROYAL YOUTHS MEET Chats May Affect Six Million Arabs

By ROBERT JONES

HARROW, England, July 17 (AP)—Two studious looking youngsters with a lot in common occasionally meet in the narrow winding streets of Harrow.

They stop and chat for a while before waving a cherry goodbye and parting on.

Experts in Arabic affairs think that before long the chats may lengthen into talks affecting six million Arabs in the Middle East.

Both the youngsters are royal; both are aged 17. One is a king—Feisal II of Iraq; the other is his cousin, Crown Prince Hussein of Jordan, a youngster on the threshold of a throne.

Both are studying at Harrow, one of Britain's most fashionable schools, while 2,500 miles away political rulers of their two countries are mulling over whether to merge the two kingdoms into one.

Feisal has been King of Iraq—four times as big and with four times as many inhabitants as Jordan—since 1929, when his father King Ghazi was killed in an automobile accident. Hussein has been crown prince less than a year, since the assassination of his grandfather, King Abdullah, in Jerusalem last summer.

Both have the same great grandfather—Hussein of the Hejaz, with whose help the British freed what dullah took over Iraq and Jordan, from Turkish domination at the end of World War I.

In the Middle East carve-up that followed the Turkish collapse, Hussein's two sons Feisal I and Abdullah took over Iraq and Jordan.

It's probably no coincidence that brings Feisal and Hussein from the semi-arid deserts of their own

Use Cold Cut Tray For Informal Way Of Entertaining

Cold Cuts Supper Tray—A gay and informal way to entertain your evening guests is with a cold cuts supper tray. With rye bread and a tossed salad, it's a meal all in one. On one side of the platter, arrange alternating slices of summer sausage and liver sausage.

Next to these, place cornucopias of pimiento loaf or bolognas filled with chive cottage cheese. Complete the array with rye bread and ham rolls made by rolling "boiled" ham slices around sticks of processed American or Swiss-type cheese. Center the tray with a shallow bowl of salad made from mixed greens, tomato wedges, sliced cucumbers and sliced hard cooked eggs. Just before serving, toss with French dressing.

Automatic Sterilizer

If there is a bottle baby in the household, the Hanksraft automatic sterilizer is an easy way out for handling the task of sterilizing daily bottles. This instrument holds six bottles and nipples, sterilizes them in steam, then turns itself off.

Man Taking Quick Lesson In Diving

HUNTSVILLE, Ala. (AP)—Charles McBride is learning about diving in a hurry.

His false teeth popped out and fell into the Tennessee River at the boat harbor near here.

McBride borrowed a diving rig and began searching the river bottom. He found the lower plate Monday. He's still diving for the uppers.
