Looking For 'Saucers' In The Sky

Watching the radarscope at National Airport, Washington, are (left to right) Walter Faison, John Matthias and Paul Peterson, airway operation specialists at the CAA air route traffic control center. It was here that mysterious flying objects—"saucers, whizzits or leaping light"—were recorded the past several days in the skies over the nation's capital. Air Force officers said the phenomenon may be mere layers of cold air and emphasized that the Washington area is not menaced by any aerial objects. (AP Wirephoto).

Civil Rights Pot Kept Boiling By Republicans

By The Associated Press
Republicans kept the civil rights pot boiling today for the purpose of cooking the Democrats' goose. Sen. Henry Cabot Lodge of Massachusetts, chairman of Gen. Dwight D. Eisenhower's campaign advisory committee, said the selection of Sen. John J. Sparkman of Alabama as the Democratic vice presidential nominee shows the Democratic party intends to do nothing constructive about civil rights.

Democratic leaders in the South are unhappy about the party's 1952 stand on civil rights and have not yet decided whether to support the Democratic ticket of Gov. Adlai Stevenson and Sen. Sparkman. Chairman Arthur Summerfield of the GOP National Committee rubbed more salt in the wounds yesterday with the assertion that Stevenson and Sparkman are "hand-picked candidates of President Truman" and will be "expected to carry on the Truman tradition."

Stevenson also said he believes the Taft-Hartley labor law, a prime target of union labor leaders needs substantial revision but not necessarily repeal. He said he views the Democratic platform pledge of repeal as merely a method of accomplishing the same result through an entirely new law. Commenting on Eisenhower's expressed goal of an eventual 40 billion dollar annual cut in federal spending, Stevenson said he hoped "neither candidate or party would offer hopes that are forlorn and at the same time be demanding a defense establishment to accomplish our common objective."

Economic Troubles Plague NATO Plans

By JOHN M. HIGHTOWER
WASHINGTON, July 31 (AP)—A fresh crop of economic troubles among the Atlantic Allies raised questions today as to their ability to carry through plans for the build-up of defense forces under Gen. Matthew B. Ridgway's command in Western Europe.

The aim is to increase the output of goods for export. In the case of France, the situation is that the French government has urged the United States to underwrite a much larger quantity of French arms production by increasing from a total of about \$186 million to \$625 million its orders for arms and equipment manufactured in France. The United States has replied in effect that it is unable to do this.

Secretary of State Acheson told a news conference yesterday that the American government has no money available with which to make such commitments. He explained that Congress had cut by about 25 per cent President Truman's proposed appropriation for foreign aid funds. The overall effect of the cut by Congress, Acheson said, will be the stretching out or slowing down on the production side of the military strength of the West.

The goal for this year, as laid down in a meeting of the North Atlantic Treaty Organization (NATO) council at Lisbon, Portugal, last February, is 50 divisions in being or available for immediate mobilization. It is by no means certain now, according to the best information here, that this goal can be reached.

A later goal for the buildup during 1953 was set tentatively at Lisbon but never made public. The expectation now is that it very likely will have to be revised downward. Controversy between the United States and France over the use of American dollars to finance arms production through purchases in France has focused attention on the situation. But officials here are also concerned about the ability of other countries, notably Britain, to come through with their share of contributions to the joint army which has the task of defending Western Europe.

Statements of British officials this week emphasized Britain's determination in coming months to live within its income by taking a series of trade and production measures which includes a "new pattern" for the British defense effort.

Secretary of State Acheson told a news conference yesterday that the American government has no money available with which to make such commitments. He explained that Congress had cut by about 25 per cent President Truman's proposed appropriation for foreign aid funds. The overall effect of the cut by Congress, Acheson said, will be the stretching out or slowing down on the production side of the military strength of the West.

THE WEATHER

BIG SPRING AND VICINITY: Partly cloudy and continued rain this afternoon tonight and Friday. Some thundershowers Saturday and Sunday.

High today 101, low tonight 70, high tomorrow 102.

Lightest temperature today 100, low tonight 68, high tomorrow 102.

Original plans for an autopsy were stymied when officers discovered Oklahoma University Hospital's two pathologists were out of town.

Steel Increase To Cost Family \$100 Per Year

Arnall Fears Boost May Touch Off New Round Of Inflation

By WILLIAM O. VARN
WASHINGTON (AP)—Price Stabilizer Ellis Arnall predicts the new steel price boost will cost the average American family about \$100 a year in higher prices. Arnall said in a television (NBC) interview that the \$3.20 per ton price boost he signed reluctantly yesterday would touch off a new round of inflation.

He made it clear the steel increase was not his own choice, but was ordered by Acting Defense Mobilizer John R. Steelman. Arnall said last night it was "a very, very bitter pill for me." Earlier in the day price control officials had said the cost of living, already at a record high, is almost certain to climb even higher because of "inevitable increases" in some major industries.

A top official said the higher steel ceilings probably will force the government to drop its hold-the-line price policy and center efforts on keeping apparently inevitable increases as small as possible. He said it was hoped "some semblance of stabilization can be salvaged."

Officials were reluctant to discuss the new policies being considered, but they said the situation may call for a complete revision of stabilization standards. This decision, however, probably will await President Truman's return to Washington Aug. 5. Any drastic changes probably will have to get his approval, an official said.

Some of Arnall's close associates said the former Georgia governor may decide to quit as price chief in the wake of the steel price hike, because he considers some of his main weapons for controlling prices broken.

Arnall and his aides fought bitterly to hold the steel price hike to \$2.84 a ton permitted under the law and the existing price standards. Arnall has said that anything above that figure would break the price line.

SURELY THEY ARE PEACEFUL

DALLAS, July 31 (AP)—The president of the Texas Astronomical Society, E. M. Brewer, said today he believed the flying saucers "may be some sort of space ships from another planet."

But, the Dallas man added, "if there is life on some other planet, sure it is that far advanced scientifically, then surely they're far enough advanced to have learned to live peacefully."

Two Burned In Explosion

HOUSTON, July 31 (AP)—Two technicians were badly burned early today in an explosion and fire in the testing laboratory of the Eastern States Petroleum Company's No. 2 plant.

Burned were Marvin Sharpe, 21, and J. C. Lee, 24. One fireman was overcome by smoke, and another burned on the head and hands in the blaze.

The plant is located on the Houston Ship Channel. L. C. Nobles, 32, a third man in the laboratory, was not burned. He said he was running a one-cylinder motor used for making octane content tests and the other two men were making specific gravity and distillation analyses.

"I started for the door to get a drink of water," Nobles said, "and I remember there was an explosion. I saw fire everywhere and it seemed the whole building was falling in on me. The next thing I remember when I woke up outside and in a few seconds someone was telling me to get in an ambulance."

No cause of the explosion was immediately determined.

MacArthur Takes Post With Firm
NEW YORK, July 31 (AP)—General of the Army Douglas MacArthur today accepted the chairmanship of Remington Rand Inc., manufacturers of business machines and electronics equipment.

Bombers Destroy Plant In War's Biggest Raid

63-Plane Armada Makes Safe Return

By ROBERT B. TUCKMAN
SEOUL, Korea (AP)—U. S. B-29s leveled a huge Communist aluminum plant near the Manchurian border early today in the biggest overnight raid of the Korean War. The 63 unescorted bombers braved Red anti-aircraft fire and fighter opposition which American pilots described as "the heaviest in months." But all returned safely to their bases in Japan and Korea.

The 12½-acre factory of the Oriental Light Metals Co., 10 miles southeast of Sinuiju, went up in smoke and flame after the B-29s hurled 630 tons of bombs on it and an adjacent troop buildup area.

Five other Superforts hit other North Korean targets. The 63-plane armada which blasted the metals plant was the biggest Superfort raid of the war against a single objective. Pilots reported flak from the Manchurian as well as the Korean side of the border.

Col. Winton R. Close, Los Angeles, who directed the raid, said almost every other bomber was attacked by Communist fighters. A bombardier, Capt. Ralph R. Searle, 3546 Griggs Road, Houston, Tex., said "it was like high noon all of a sudden," when "eight searchlights locked on us at the start of the bomb run and kept with us for the longest five minutes I've ever spent."

Brig. Gen. Wiley D. Ganey, head of the U. S. Fifth Air Force Bomber Command, predicted the blow would have a psychological impact on the Communists. An Air Force statement called the raid a calculated effort to force the hand of stalling Communist truce negotiators.

The target was saturated with 500-pound bombs, some of which will not explode for hours or even days. The plant area had been showered with leaflets for almost two months, warning non-combatants to stay away because it would be bombed.

Original plans for the raid called for the barracks area to be spared for fear civilian workers might be living in the troop barracks, the Air Force said. But in the darkness it was possible some of the Allied bombs might have struck the barracks.

On the ground, Allied infantrymen Thursday wrested an outpost from Chinese troops in a two-hour fight in driving rain northwest of Yoncheon on the Western Front. The Reds had taken the position Monday.

The chances of the Republican Party "cracking the solid South" are the best since 1928. There has been some talk among Democrats that the nomination of Sen. John Sparkman of Alabama will heal the breach in the Democratic Party. They fall to realize that the only man who could have held the South solidly in the Democratic column was Sen. Richard Russell of Georgia. Sen. Sparkman is known as a Truman man and what we want to do is to prevent another four years of Trumanism."

The senator was met at the airport by Dallas Republican leaders.

MIDGET IS CONVICTED

DALLAS, July 31 (AP)—Horace Mosby, 4 feet 4 and 29 years old, was under three-year suspended sentence today for stealing \$91.61 worth of toys.

He told the judge yesterday he stole the toys to raise money to entertain his girl friend, a five-footer.

TWO GET LIFE Six Swedish Reds Are Found Guilty

By KAI MYRING
STOCKHOLM, Sweden, July 31 (AP)—Six Swedish Communists were convicted of selling vital defense secrets to Russia today and two were sentenced to life imprisonment at hard labor. A seventh was acquitted.

The Swedish government charged them with turning over to the Russians full details of their country's northern defenses against any Russian attack across neighboring Finland.

Fritiof Enbom, 33-year-old confessed mastermind of the Soviet spy ring, and his chief accomplice, Jugo Gjerovold, both drew life terms at hard labor. The ringleader's younger brother, Martin Enbom, drew a seven-year sentence.

Others convicted and sentenced were: Arthur Karlsson, 42, a Communist member of the town council of Halmstad in South Sweden. Karlsson, who arranged the elder Enbom's contact with Soviet embassy officials, received one year and eight months imprisonment.

Fingal Larsson, 40, a railway worker, whose government accused of sending regular reports to Enbom on railway security measures. He drew five years at hard labor.

Lillian Ceder, 31, Fritiof Enbom's girl friend, whom police charged operated a shortwave transmitter Enbom received from the Russians. She was given eight months but the court ruled the three months she has spent in custody since her arrest would count in this period.

The seventh accused member of the ring, acquitted for lack of proof, was Tage Wickstrom, 37, a clerk in the Army Fortification Construction Bureau.

The Enbom brothers and Gjerovold confessed. The elder Enbom, an editor and agitator, said he had collected military and industrial information for the Russians for six years, turning it over to Soviet embassy officials in return for cash.

He admitted giving the Soviets data on Sweden's strongest modern fortress, near Boden, 75 miles from the Finnish border. Other information collected included maps of secret military roads, forts and field fortifications, locations of transformer stations, ammunition and fuel dumps, and up-to-date lists of armaments and military equipment.

Neel Has Vans, Help To Move Everything

No matter whether you plan to move across the street or across the country, the number to telephone is 632, because that is the number of Neel's Big Spring Transfer & Storage at 104 Nolan.

Neel's has the vans, the skilled help and everything needed to save

you the concern and worry of packing and wondering how in the world you're finally going to get the job done. All you need to do is call 632 and give them the address to which you want to move, and the crews from Neel's will do the rest. It's all just as simple as that, and what could be simpler when you're faced with a moving problem?

Barrow-Phillips Has Items For All Shoppers

No matter whether you are buying a complete new set of furniture or just shopping for a lamp, the pieces you are looking for can be found at Barrow-Phillips Furniture Company in Ranch Oak.

Barrow-Phillips, on the corner of Gregg and 4th Streets, is exclusive Big Spring dealer for Ranch Oak furniture, made by A. Brandt of Fort Worth. And in the leisure-looking Ranch Oak, over 100 different pieces of furniture are available, including living room and bedroom suits and pieces for dens, children's rooms, studies, offices, and recreational rooms.

The employees of Neel's Big Spring Transfer & Storage are trained in moving fine furniture and they have an abundance of the wraps that are needed to protect it during handling and transportation. No matter whether the household piece is a large grand piano or a delicate and fragile china cup prized as a family heirloom, you may safely entrust it to Neel's Big Spring Transfer & Storage at 104 Nolan. Just telephone 632.

But moving isn't the only service Neel's Big Spring Transfer & Storage has to offer. Remember the word "Storage" in the company's name?

That word "Storage" means that Neel's Big Spring Transfer & Storage also has a modern fireproof storage warehouse where your belongings are insured against loss and where they will be kept in perfect condition free from damage by insects, rodents, the elements or other causes, and just as this modern fireproof warehouse is arranged for safety and cleanliness it is also arranged for convenience.

So no matter whether your problem is one of moving or storage, the telephone number for you to call is 632 because that is the telephone number of Neel's Big Spring Transfer & Storage at 104 Nolan in Big Spring.

No matter whether you're moving across the street or across the nation Neel is best prepared to handle the job for you.

Windows For You

Here are a few of the many windows available for your building project immediately at Engle Mill and Supply Company, 705 E. 2nd. The concern is equipped to furnish windows, doors and sash, along with various types of hardware, to you promptly. Moreover, the items can be turned expressly to your specifications. There's no guesswork about design or quality when the job is done at Engle's.

Ross Prepares Barbecue Over Real Wood Fires

Real pit barbecue, with emphasis and weights do not include sits on the "real," is served up from the old-fashioned wood fires at Ross' Barbecue Stand, 904 E. 3rd.

There is no boiling, no soaking in sauce during or prior to the preparation of pit barbecue by L. M. Ross, master of the art who has nearly 30 years of barbecuing experience.

Ross places the choice cuts of meat over the pit fires. Outside of the meat is seared, sealing in all natural juices, flavors and food elements.

Natural goodness of the meats is cooked through and through after 12 to 15 hours over the burning wood. All sauces are applied to the exterior and are not boiled into the meat to make a heavier, soggy product. All barbecue purchased by the pound is weighed after bon-

Loaf Makes 16 Sandwiches

How many slices in a loaf of bread?

Well, in Mead's famous sandwich loaf here are 32 thin slices, enough for 16 delicious sandwiches. Maybe that's not the most important question in the world, but it's pretty important to Mama when she starts stirring up sandwiches that for summer evening's outing.

It's more important, to, that each of those slices is packed with Mead's famous double heart goodness and quality—bread fortified with the heart of the wheat and the heart of milk. Thus, sandwiches made with Mead's fine bread carries the tops in nourishment as well as flavor and enjoyment.

Another summer popularity winner is Mead's honey-crusted whole wheat bread. It's ideal for serving with salads, cold cuts and other summer plates when jaded appetites can be tempted with something tasty and vitamin-rich.

Honey-crusted whole wheat is made with pure honey. Roiled wheat is used in the roll itself, and the loaf is rolled in wheat bran to give it that special crisp and nourishing crust. Scientists have long since proven that genuinely whole wheat bread contains the

best in vitamin and minerals that nature produces.

Not a few people really go for honey-crusted bread when it is used for toast. It gives a special crispness and flavor that can't be approached with conventional breads.

Nalley Ready For Service At Any Time

At a time when most people relax for a holiday or a week end, personnel of the Nalley Funeral Home, located at 905 Gregg Street in Big Spring, has to maintain constant vigil.

Nalley's keep men and equipment ready to act in any sort of emergency 24 hours a day seven days a week. Experience has taught them that many automobile mishaps are apt to happen on such occasions, when motorists clog the roads going to and from holiday outings.

Nalley's employees are also trained to handle all details for arranging last rites when tragedy strikes a family, at a time when such assistance is most needed.

The concern maintains a fine chapel, complete with organ, for such services and personnel boasts long experience in the handling of every little detail connected with such a ceremony.

Coy Nalley, owner and operator of the concern bearing his name, is a licensed embalmer and funeral director and has several capable assistants similarly commissioned.

The Nalley plan for funeral insurance can be adapted to fit any size income and payments can be arranged to suit the purchaser. Such eases the financial load on the bereaved.

Nalley's prides itself on providing a friendly counsel in hours of need.

Business telephone number of the concern, and it's available to the public at all hours, is 175.

New Liquid Kills Roaches And Ants

Scientists recommend that you control roaches and ants the modern way—with Johnson's NO-ROACH. Brushed just where you want it, (not a messy spray) the colorless, odorless coating kills these pests. It's effective for months, sanitary, and easy to use. 8 oz. 85c; pint \$1.69; quart \$2.99. Available at Cunningham & Phillips Drug, Big Spring Hardware, Piggy Wiggly, Collins Drug and Furr Food Stores.

New Crop Of Lamps Fits Needs Of Modest Budgets

By ELIZABETH HILLIER
Some of the best advance home furnishings fashion news for fall is about lamps. Nearly ready now is a bumper crop of well-designed lamps that fit modest incomes.

much less. The lamps will be wrought from linen over parchment shades, hand-turned pottery bases with shades in matching colors and special pottery lamps with textured and patterned shades designed by name designer Angelo Testa.

Nell Looney Visits Lodge; Circles Meet At Church

STANTON. (Sp) - Nell Looney, district deputy supervisor of District 12, of the Kermit Rebekah Lodge 134 was a guest of the Stanton Lodge Monday evening at the IOOF Hall.

Other guests included Carnie Holt of Kermit and Thelma Fred of Artesia, N. M.

Refreshments were served to 20. Mrs. W. H. Yater brought the devotional when the circles of the First Baptist Church met Monday afternoon for a business session.

The Blanche Grove Circle served refreshments to 16. Twelve attended Larry Haggard's party on his fourth birthday recently.

The Adult Training Union of the First Baptist Church will have a social at the church Thursday night.

Mrs. J. R. Sae had out-of-town guests over the week end. The Rev. and Mrs. R. A. Stanton of Abilene were in Stanton

Dinner Fetes Cunninghams; Presbyterians Have Program

GARDEN CITY. (Sp) - Mr. and Mrs. E. M. Teele entertained with a dinner Sunday in honor of her nephew and his family, Mr. and Mrs. Phelps Cunningham and Albert Joe, of Englewood, Calif. Attending the dinner were Mr. and Mrs. Gordon Cox and Barry Steven and Korren of Andrews; Mr. and Mrs. George Amos and Vickie, John Paul, and Georgia June, Mrs. Clyde Johnston and Don and June Ann, Mr. and Mrs. John Chaney, and Bo Bowen all of Big Spring; Mrs. Phil Smith and Philip and Pamela of Eunice, New Mexico; Mr. and Mrs. Sam Cox of Tarrant; Jo John Hall of Stanton; Mr. and Mrs. Phineas Cox of Coahoma; Mr. and Mrs. Jack Newland and Jimmy of Crane; and Mr. and Mrs. Max Fitzhugh and Max Bryans and Anelle, Mr. and Mrs. Jay Cunningham and Jay Michial, Mr. and Mrs. A. J. Cunningham, Mr. and Mrs. E. B. Bryans and Eddy and Jenny Lynn and Mr. and Mrs. Slim McWhorter all of Garden City.

Mrs. W. C. Underwood led the program Monday afternoon when the Missionary Society of the Cumberland Presbyterian Church met at the church. "Step Aside: A Look Ahead," was the subject of the study. Mrs. Virgie Roberts gave the devotional and Mrs. Targe Lindsey gave a talk, "Fate Beyond Expectations." Special music was given by Mrs. Dick Mitchell.

Mrs. Ray Hightower spoke on "Lift Up Your Eyes and Look on Fields." "For They Are White Unto Harvest," was presented by Mr. and Mrs. Phelps Cunningham and son left for their home in Englewood, Calif. Tuesday after visiting relatives here. They will stop in Kermit for a few days to visit a sister of hers.

Bible School Is Being Held; Family Night To Be Observed

WESTBROOK. (Sp) - Joyce Moore of Palo Duro and Flora Frazer of Falfurrias are conducting a Bible School at the First Baptist Church for the Latin-American children of this community. Nineteen have enrolled for instruction. The school starts each day at 9 a. m. and the classes will continue through Friday.

Family Night will be observed Monday at 8 p. m. at the First Baptist Church. The different organizations of the church will meet for an hour's study and following this home made ice cream and cake will be served.

Mr. and Mrs. Raymond Evans

Pretty Girl Engineer Knows Her Slide Rule

By JOE BRADISH
PITTSBURGH—Pretty Sara Ann Lance is the first woman to receive a Bachelor of Science degree with a major in Civil Engineering from Carnegie Institute of Technology.

Sally's career came naturally. Her father was an engineer and Sally was raised on a diet of columns, trusses and beams. Unlike most girls Sally found "inker toys" and "erector sets" under her Christmas tree rather than baby dolls and carriages. By the time she finished high school and was ready for college there was no doubt in her mind what course she wanted to pursue.

Sally began her studies at Purdue University—her father's Alma Mater. In her junior year, she transferred to Carnegie Tech after completing general engineering at Purdue, including foundry, welding and surveying. "At times it was a bit rough," reminisces the 23-year-old blonde, but it was a lot of fun too." She explains: "The men in my classes were ever ready to lend a helping hand when I found a foundry mold too heavy and obligingly poured a bucket of water over my head when a spark from gas welding flew into my hair."

She's been granted her engineering-training certificate by the State Board of Registration for Professional Engineers and intends to take her examination for registration as a professional engineer as soon as she has acquired four years of experience. In addition to her engineering work, Sally enjoys swimming, dancing, playing golf and studying French.

Guests Return Home After Visit Here

Mrs. M. H. Davies and daughter, Mrs. Wallace Price, have returned to their home in Texarkana after a visit here with Mrs. H. W. Smith, Mrs. A. L. Tamplin and Mrs. W. G. Wilson.

Mrs. Price will remain with her mother in Texarkana until September when she will join her husband, who is in Officer's Candidate School in Virginia.

Mr. and Mrs. J. W. Wooten, 500 Gollard, are vacationing this week in Marlin.

Blanche Simpson Circle Has Meeting

Members of the Blanche Simpson Circle of the Phillips Memorial Baptist Church met at the church for a workday recently.

Mrs. Roy Worthley gave the devotional from Matthew 24 and the meeting closed with a session of prayer. Six attended.

Orange Frosting Is Good On Muffins

Orange Butter Frosting
1/4 cup butter
2 cups sifted powdered sugar
2 tablespoons orange juice
1 tablespoon grated orange peel

Cream butter and sugar until light and fluffy. Gradually mix in orange juice and grated orange peel. Stir until well blended and spread on cooled cup cakes. Decorate if and as desired.

The Middy Look

In a fitted cardigan jacket of nubby gray wool with slim skirt.

466 Sewing Set

Made of goldenrod-yellow felt, the knitting or crochet bag has a navy blue wool handle; the handsome, easy-to-make sewing apron is of the same color felt with dark gold strip used for the sewing appearances, pockets and purple, fuchsia and light blue for big, lower pockets. Sounds perfectly wild but it really is stunning! Any bold color arrangements will work out handsomely! Simplicity itself to sew, inexpensive and makes a grand gift.

Send 25 cents for instructions on how to make the SEWING APRON and KNITTING BAG (Pattern No. 466) YOUR NAME, ADDRESS, PATTERN NUMBER to CAROL CURTIS

Big Spring Herald Box 229, Madison Square Station New York 10, N. Y.

Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.

For A Treat Try Golden Cup Cakes

Golden Cup Cakes
3/4 cup shortening
1-1/4 cups granulated sugar
3 eggs, separated
3 cups sifted flour
Dash of salt
4 teaspoons baking powder
1/2 cup orange juice
1/2 cup water
Thoroughly cream shortening and sugar; add well-beaten egg yolks and mix well. Add sifted dry ingredients alternately with orange juice and water. Fold in stiffly beaten egg whites. Bake in greased cup cake pans in moderate oven (350F) for 25 to 30 minutes. Makes 18 (3-inch) cup cakes. Frost with Orange Butter Frosting.

Now Is Season To Make Jams To Add Pep To Meals Ahead

Now is the season to make your homemade jams, marmalades and preserves that will add zest throughout the year to every meal.

PEACH AND CANTALOUPE MARMALADE
2 cups peaches, diced
2 cups cantaloupe, diced
4 tablespoons canned lemon juice
3 cups sugar
Method: Combine the diced peaches, cantaloupe, sugar and lemon juice. Cook until mixture is thick and clear to desired consistency, pour into sterilized jars and seal while hot.

7 cool dishes for hot days

Here's Ann Batchelder's own way to take the bite out of the dog days! Seven cool, cool dishes to spur jaded appetites. You'll want to try the Ham Rolls with ColeSlaw, Sour Cream Fruit Mold, or Orange Refrigerator Cake (no baking) tonight! You'll save the special Antipasto recipe for company! You'll clip all seven and keep them in your cookbook. You'll find them in the August Ladies' Home Journal—now on sale—along with the finest fiction, the most interesting articles. Get your copy on the newstand today.

Mr. And Mrs. Westmoreland Are Feted At Housewarming

Mr. and Mrs. J. A. Westmoreland were honored at a surprise housewarming in their new home, 709 W. 7th, Tuesday evening.

Hostesses were Mrs. H. D. Drake, Mrs. Clarence Proctor, Mrs. H. D. Bruton, Mrs. W. D. Rowland, Mrs. Harry Montgomery and Mrs. W. L. Clayton.

The guests met in the Clayton

home and went to the Westmorelands' home in a group.

Mrs. Westmoreland was presented a red carnation corsage by Barry Clayton.

Gifts were opened and displayed and refreshments were served in the backyard of the Clayton home. Mrs. Roy Spivey assisted the hostesses in serving.

Vacation slides were shown by Herman Jones of Midland.

Approximately 70 attended including Mr. and Mrs. Albert Westmoreland and Gary of Snyder. Mr. and Mrs. Richard Jones, Edwin and Herman of Midland and Ralph Wickler of Bonham.

Gloria Lawdermilk Is Party Honoree On Fifth Birthday

AREA OIL

NE Howard Shallow Discovery Makes 189 Bbls. In 12 Hours

Coronet No. 1 Brookhage, prospective northeast Howard County discovery in the San Angelo lime, flowed 189 barrels of oil in 12 hours and was continuing to flow Thursday.

Austral No. 1 Ellwood, northern Sterling exploration, flowed oil at the rate of five barrels per hour from the Ellenburger top but on the breakthrough the tool contained 1,900 feet of salt water.

Seaboard staked location for its No. 4 Mildred Jones, an outpost on the southwest side of the Vealmoor pool.

Standard No. 1 Snyder, four miles southeast of Coahoma, had salt water in the Ellenburger and will plug and abandon. Standard No. 1 Simpson picked top of the reef but it was running structurally low to a nearby dry hole.

El Tee No. 1-29 Classen kicked off before being acidized but there were no gauges on this latest Mungerville Pennsylvania prospect in northwest Dawson.

Chicago Corp. of Abilene No. 1-A Huddleston will be a Smith Spraberry location 600 from the south and 1,200 from the east lines of section 1-1, EL&RR, rotary to 8,000. It is to be seven miles west of O'Donnell.

Fred Shield No. 1 Galbraith, C SE SE 70-M, EL&RR, progressed to 6,897.

Lavton Oil Corp. No. 1-A G. W. Martin will be located 600 from the south and east lines of section 41-34-4a, T&P, three miles southwest of Coahoma, rotary to 8,000. This location was reported previously and is now confirmed by the filling with the railroad commission.

Crane Oil of Texas and Newman Bros. No. 1 Heale Clanton, C NE SE 35-32-3a, T&P, a mile and a half of nearest production in the Vealmoor pool, drilled to 2,600.

Standard No. 1 Modesta G. Simpson, C SW NW 21-33-3a, T&P, was at total depth of 3,987 in Pennsylvania reef. Operator is taking a drillstem test. The reef was topped at 3,905 on an elevation of 2,783. This would put the top 190 feet low to the same marker in Sunray No. 1 Lester, which is a dry hole 1 1/2 miles to the east.

Seaboard No. 4 Mildred Jones will be 1,023.9 from the south and 1,979.3 from the east lines of section 32-32-3a, T&P, Vealmoor pool, rotary to 8,000.

Crane Oil of Texas and Newman Bros. No. 1 Heale Clanton, C NE SE 35-32-3a, T&P, a mile and a half of nearest production in the Vealmoor pool, drilled to 2,600.

Cosden No. 1 Read, C NE NE 23-30-3a, T&P, was at 3,650, preparing to take a drillstem test.

Cosden No. 1 Jones, C SW NE 5-25, H&TC, two miles east of Vincent, had progressed to 5,590 in lime.

Deep Rock No. 1 Raekler drilled past 8,610 in shale.

Standard No. 1 Cowden, C SE SW 30-40-3a, T&P, was drilling at 13,108 in basal Simpson and looking for top of the Ellenburger. It has found no signs of production yet.

Standard No. 1 Flynn, C SW SE 11-315 in lower Pennsylvania lime and shale. So far it has had no shows of possible production.

Phillips No. 1-C Schar, section 324 LaSalle CSL, was swabbing above plugged back depth of 3,463. It swabbed 12 hours and recovered 18 barrels of load oil. There are still 97 barrels of load oil in the hole.

Gulf No. 1-P Glass, C SE NW 12-30-1a, T&P, drilled to 7,991 in lime.

DeKalb No. 1 Knox, C NW NE 253 Ward CSL, drilled to 11,832 in shale, lime and chert.

Austral Oil Exploration No. 1 Ellwood Estate, C SW SW 75-15 SPRR, 12 miles north of Sterling City, took a drillstem test from 8-152-4b in the Ellenburger top. Tool was open two hours and gas surfaced in 15 minutes, oil in one hour and 34 minutes. The test headed oil for 28 minutes through a 2-4 choke. No gauge or estimate of the oil produced in that period were available. Operator changed to a quarter inch choke and flowed 10 minutes at the estimated rate of five barrels of oil per hour. Flowing pressure was 38 pounds. No gas-oil ratio or gravity of oil were reported. When the tool was pulled, recovery was 155 feet of oil and gas-cut drilling mud and 1,600 feet of salt water. Operator is not taking an electric log and will wait on orders. Probably it will run a stratigraphic test in the Mississippi, which had some shows.

Tex Harvey Employees No. 1 Chappell, C SE SE 43-15, SPRR, flowed 98.1 barrels of oil through 24-64th choke in 24 hours. It is now flowing on a 28-64th choke. Operator will test a few more days and then take a potential and complete in the Mississippi.

Humble No. 1 Daywalt, C NE NE 13-15, H&TC, perforated from 7,820-24 and from 7,930-34 in the Ellenburger. It is preparing to swab and test.

Tennessee Production No. 25 L. C. Clark, 330 from the north and 4,573 from west lines section 11-A TC&RR, Clark San Andres pool, pumped 24 hours after 1,100 gallons acid and made 29 barrels 30-gravity oil. Gas oil 10-L elevation 2,176, top pay 4,538, total depth 4,538, and the 7-in. at 4,670.

Here to vote in the Missouri Democratic primary Aug. 5, he is dividing his time between his home in Independence and his offices in the Hotel Muehlebach penthouse.

The President is observing a strict diet imposed by his physician, Maj. Gen. Wallace H. Graham, after he suffered a minor virus infection recently.

He has been sleeping and resting more since coming here than at any time since he entered the White House.

Typical of the modern street signs going up in new residential areas of Big Spring are the ones at Eleventh Place and Birdwell Lane, shown above. The markers are large enough to be read easily. You can read 'em from both sides, too.

Mrs. McFerrin Succumbs Here

Mrs. Dove Pilgrim McFerrin, 67, died today at 10 a.m. after taking ill at 6:30 a.m. in her home, 1005 Runnels. She was rushed to a local hospital.

Mrs. McFerrin was born in Bonham County February 14, 1885 and has been a resident of Big Spring for over 10 years, moving here from Colorado City.

Funeral services are pending. The arrangements are being handled by Nalley Funeral Home.

She is survived by her husband, R. R. McFerrin; two daughters, Mrs. Homer Bibby and Mrs. Joe Whitehead; four sons, John McFerrin, Odessa, Bruce McFerrin, Silver, and Carl McFerrin, Honey Grove; and 15 grandchildren.

Truman Continues His Easy Routine

KANSAS CITY (AP) — President Truman pursued today the easy-going routine which he adopted from the time he flew here last Saturday from the Democratic National Convention at Chicago.

He passed up his usual Thursday news conference.

State Business Prospects Good

AUSTIN, July 31 (AP)—Business prospects in Texas appear excellent for the remainder of 1952, a retailing specialist in the University of Texas Business Research Bureau said today.

The Southwest for the most recent 12 months had retail sales ahead of the national average and the overall results for 1952 should be better than those shown in 1951.

'Quo Vadis' Is Scheduled For Ritz Showing

'Quo Vadis,' the spectacle filmed by MGM, will be shown at the Ritz Theatre here next Tuesday, Wednesday and Thursday.

This colorful epoch with its setting in the days of the Roman empire during degenerate Nero's reign and the rising influence of Paul and the new Christian movement required perhaps the largest cast ever assembled for any production.

Besides the 29 leading characters, which include Robert Taylor and Deborah Kerr in featured roles, there were 110 players in speaking parts and 20,000 extras. In one scene alone, there are 6,500 people.

To provide authentic touches, a total of 15,000 costumes were required. With the exception of a few worn by the two key performers, all were made in Italy, where the picture was filmed.

Statistically, some 52,000 yards of material went into costumes; there were 15,000 pairs of sandals, 4,000 helmets, 4,000 breastplates, 2,000 shields, 2,700 military water bottles and 13,000 items of jewelry.

No less than 115 sets were required to give the historical backdrop. Among these were four blocks of ancient city of Rome and a replica of the huge Circus of Nero. Against this backdrop went 63 lions, seven fighting bulls, 30 white horses as well as a large number of other animals and fowls were supplied.

'Quo Vadis' is the story of the power of Rome, as conqueror of the world and apparently invincible. Into this is injected the idealist who died on a cross in Judea just 30 years before.

Stimulated by Paul, the burning missionary, a "radical cult," the young Christian movement, comes into being. In time, these Christians came to be central figures in the famous Circus of Nero. Nero had them used as live bait for lions in the arena.

Everything about the show is lavish and pitched on an extraordinary scale.

Farouk Says He No Longer A Rich Man

By ALBURN D. WEST ISLE OF CAPRI, July 31 (AP)—Egypt's ex-King Farouk declared today "I am no longer a rich man." He denied he had sneaked out a fortune when he was ousted from Egypt and declared he had none tucked away in foreign banks.

Nevertheless, he added, "I am still to be envied." Addressing more than 100 newsmen and photographers in the first public statement since he was toppled from his ancient Nile throne in a military revolt last Saturday, Farouk said he had made no plans about where to live out his life.

"Anyone who says I am going to the United States, England, Switzerland or Southern France, knows more than I do," he declared. For the time being, he told reporters, he intends to stay on this romantic island off Southern Italy.

During the news conference in his hotel lobby, the playboy ex-monarch, now 32, got in a dig at General Mohamed Naguib and others who engineered his ouster. He said he wished the men who threw him out "good luck, because they'll need it."

Farouk, who arrived here Tuesday, asked that he, his wife, Queen Nazli and their six-month-old son, Egypt's newly-proclaimed King Ahmed Fouad II, be allowed to live here in peace. Three daughters by a former marriage are also here with him.

He said he "wanted to make it clear that it is I alone who am exiled. My wife, and children are free to return to Egypt. Neither my wife nor her parents are exiled. "But my wife has chosen to be with me and so has each of my three daughters."

Farouk said that even on his honeymoon through Italy and France last year, "I was constantly busy with state affairs."

Observers here recalled that he found enough free time from state affairs to win and lose huge sums at gaming tables along the Riviera.

three daughters and this has made me very proud and happy." Farouk has taken the title of Prince Farouk Fouad for his life in exile. The Fouad is in honor of his father, the late King Fouad I.

Referring to his reputed vast wealth, Farouk said at one point in his lengthy written statement: "I am no longer a rich man. It is untrue that I have taken a fortune out of Egypt. Nor is it true that I have a fortune hidden away."

"My wife, baby, three daughters and I will live very simply." Estimates of Farouk's wealth have ranged from 150 to 500 million dollars. Much of this, however, was in Egyptian real estate. It is understood the new Egyptian government plans to seize these holdings.

Referring to his immediate plans, Farouk said he and his family intended to take "a little holiday."

"It will be the first one since I became king, in spite of what has been said of me," he asserted.

Farouk said that even on his honeymoon through Italy and France last year, "I was constantly busy with state affairs."

Observers here recalled that he found enough free time from state affairs to win and lose huge sums at gaming tables along the Riviera.

Local Hog Market Strong Wednesday

The hog market was strong at the Big Spring Livestock Auction's sale Wednesday, when porkers brought up to 23.00.

Bulls went for 21.50, cows from 14.00 to 17.00, fat butcher yearlings from 25.00 to 31.00, stocker steer calves from 24.00 to 29.00, with a few light calves going higher.

Header cows sold for 26.00 to 28.00, cows beside calves 16.00 to 20.00.

An estimated 700 cattle and 50 hogs went through the ring.

C-C Course Is Set In Abilene

An annual short course for managers of West Texas Chambers of Commerce was approved in Abilene Wednesday by 23 chamber managers attending a meeting of the Community Services Committee of the West Texas C.C.

The course this year will be held in Abilene, Sept. 12 and 13.

Recommendation for establishment of the course came from a Community Services sub-committee which met prior to the full committee session. J. H. Greene, Big Spring chamber manager, is a member of both groups.

The Community Services Committee, of which Bill Collyns, Midland, is chairman, also discussed the united fund plan for community fund-raising projects. An awards system to recognize success of local chambers in carrying out their programs of work was the proposal of James Milton, chairman of the WTCC Taxation and Legislation Committee. The proposal was tabled until next meeting of the group.

A motion by Greene to the effect that the managers clinic be divided into sessions for different sections of West Texas was also tabled. Greene proposed the "local" clinics as a means of increasing attendance at the training program.

Other Big Spring area chamber officials attending the Abilene meeting were Mrs. Matt McCall and Tim O. Cook, Lamesa; A. L. McSpadden, Colorado City; Henry Morris, Lamesa; Dub Oliver, Colorado City; DeWayne Davis, Lamesa; Delbert Downing, Midland.

More Deaths Added To State Polio List

By The Associated Press

Killer polio—in one of its deadliest rampages—stalked Texas unmercifully Thursday.

The disease's tragic trail left four dead—three in Dallas—Wednesday as State Health Officer George W. Cox announced grim new figures in the disease.

Dr. Cox reported 259 new cases for the week ending July 26, second only to the all-time record of 298 cases recorded the week ending July 12.

The Dallas deaths brought polio fatalities there to eight for July, a record for the month, and Dr. Cox's new count pushed the year's total to a tragic 2,097, more than three times the year-ago figure.

Wednesday's deaths included:

Bobby Vaclavik, 8, son of Mr. and Mrs. Joe Vaclavik, Route 4, Austin.

Mrs. Chalie Watson, 27, wife of Rev. Joe Watson, pastor of the Pleasant Mount Baptist Church near Dallas' eastern outskirts.

Sharon R. Smith, 6, daughter of Horton Smith of Sherman.

Don Edward Carter, 23 months, infant son of Mr. and Mrs. Carl W. Carter, Dallas.

The last three victims named died in Dallas. The Vaclavik boy was the third polio fatality in Austin and Travis County this year. Five new cases, one from Austin and four from Central Texas points, were reported in Austin's Brickensridge Hospital Wednesday.

Polio continued to hit Houston hard with 16 new cases reported,

including five from Houston proper, Wednesday. There were six Harris County cases and five non-county cases.

Harris County also had the most new cases during last week—31. The total surged to 304 Houston cases for the year Wednesday with 11 deaths. There have been 123 Harris County cases and seven deaths to Houston for treatment, with eight deaths. That makes a total of 672 cases treated in Houston during the year.

Polio plagued 62 counties the past week, eight suffering their first incidence of the year. Touched for the first time were Robertson County, four cases; Knox, two; Childress, Coryell, Cottle, Freestone, Mills and Titus, one each.

Dallas County reported 26 cases for the week; Nueces and Tarrant 12 each; El Paso and Jefferson, 11 each; Bexar, 9; Pottawatomie, 8; Harrison, 5; Tom Green, 5; Anderson, Hidalgo, Lubbock, McLennan, Nacogoches, Travis, Wharton and Young, 4; Brown, Cameron, Ector, Lavaca, Smith, 3 each; Bowie, Dawson, Galveston, Guadalupe, Henderson, Hunt, Jim Wells, Kleberg, Martin, Runnels, Stephens, Taylor and Wood, 2 each; Ellis, Gonzales, Gregg, Hardeman, Hopkins, Howard, Kaufman, Kerr, McCulloch, Morris, Navarro, Orange, Rusk, San Patricio, Upton, Wilbarger, and Williamson, 1 each. VA hospitals reported two cases.

Farm Program To Emphasize Conservation

WASHINGTON, July 31 (AP)—The government's aid-to-farmers program next year will emphasize long-term conservative practices, Secretary of Agriculture Brannan said today.

Brannan called it a "farm-by-farm, first-things-first" approach. He said the Agriculture Department will make every effort to see that assistance given under the 1953 Agriculture Conservation Program (ACP) is directed to soil and water conservation practices that farmers on their own likely would not carry out to the extent needed.

"Emphasis will again be put on shifting away from those practices that—thanks to the success of previous programs—are now becoming established as standard operations on well-run farms, so that the funds assistance may be used to carry out conservation measures that are over and above what farmers might be expected to carry out on their own resources and on their initiative," Brannan said in a statement.

He added that farmers who cooperate in the 1953 ACP will be offered assistance only on those practices that will help them meet current farm production goals and at the same time help them keep their land in condition to meet the larger demands that a larger population will put on them in the years ahead.

Under the ACP, financed by a 250-million-dollar appropriation financial assistance is given to farmers who carry out approved conservation practices on their farms.

The program in recent years has been under some criticism because payments were made for practices which normally would be carried out on a well managed farm.

Drouth Is Spreading To South And Midwest Areas

By The Associated Press

The great drouth of 1952—felt months ago in Texas—was reported spreading over large areas of the South and Midwest Thursday.

Federal officials in Washington prepared to enlarge "disaster areas" to help hard-pressed farmers get needed financing. Large parts of Mississippi and Kentucky were expected to be designated disaster areas Thursday or Friday.

Tennessee was so designated Tuesday night. Previously all of Texas had been classed as a disaster area. All or large parts of Georgia and Alabama expect the classification soon.

Drouth conditions, meanwhile, are being reported in New Mexico, the Carolinas, Louisiana and Massachusetts.

While crops in the eastern third of Texas held up well under good moisture conditions, the U. S. Department of Agriculture reported in Austin that feed crops and pastures deteriorated over the western two-thirds of the state.

Only scattered showers, barely beneficial if at all, interrupted the drouth in Texas. Clear skies let a blistering, burning sun shine down mercilessly. Mineral Wells and

Presidio reported 105-degree thermometer Wednesday.

The torrid 104-degree temperature at Wichita Falls, however, dropped 22 degrees in an hour when a rain shower struck. Measurable rain in the North Texas city was light, but the Weather Bureau said the Red River area had some heavy rain.

Showers also fell at Beaumont, Galveston, Texarkana and Lufkin. Dust blew in far West Texas and the 82-degree weather in Wichita Wednesday.

As the drouth was off to a new, running start, there was little hope Thursday of any real relief. Late forecasts predicted only scattered showers and little temperature change.

Campaigns To Cost Millions Of Dollars

By EDWIN B. HAAKINSON

WASHINGTON (AP)—One thing appeared certain today about the national political races this year: the campaigns will be the costliest and best financed of any ever staged in the United States.

Total expenses probably will run into the millions of dollars, because (1) the price of campaigning, like everything else, has soared, and (2) the campaigns themselves will be elaborate.

Chairmen of both the Republican and Democratic National Committees already have made it clear they are out to win—regardless of costs.

Technically, federal laws fix a top limit of three million dollars upon the spending of a major political party. But the laws are full of loopholes.

For example, there is no limit upon the number of national committees that may support a presidential candidate. And each such

Search Made For Four 'Teen-Agers

SAULT STE. MARIE, Mich. (AP)—Four teen-agers—two girls and two boys—were sought today along heavily wooded borders of the Marquette national forest and the Mackinac state forest in Michigan's rugged Upper Peninsula.

They vanished at 2 p. m. yesterday. An overnight search of state troopers and volunteers failed to find any trace of them for miles around.

The vacationing quartet disappeared on a hike, which they announced to their families they were taking at the end of a picnic lunch on the Black Creek trail, 45 miles southwest of Sault Ste. Marie.

Missing are Dorothy Klingler, 14, daughter of Chester Klingler of Hinsdale, Ill.; Shirley Kasur, 13, of Chicago, and Frank Grasscott, 17, and Edward Kenyon, 14, both of Dearborn, Mich.

State police called a plane into the search today and sent fresh troopers in to relieve those who hunted in vain through the night.

Bank Robbery Charge Filed

OKLAHOMA CITY, July 31 (AP)—Federal bank robbery charges were filed at Oklahoma City last night against Glenn Whitt, a 42-year-old Sapulpa man suspected of robbing the First National Bank of Luther, Okla., yesterday afternoon.

Whitt was identified by bank employees as the gunman who walked into the bank and out \$2,000 richer. He was arraigned before U. S. Commissioner Paul Showalter and held in Oklahoma County Jail in lieu of \$50,000 bond. He made no plea at the arraignment.

State Trooper Loyd Francisco and Bristow Police Chief H. T. Gay said Whitt confessed when a sack of money labeled "Bank of Luther" was found in his automobile. He was captured at a roadblock five miles west of Sapulpa at the intersection of U. S. Highway 90 and State Highway 67.

"I don't know what I was thinking about," sobbed Whitt as he was led handcuffed back to the bank. "I don't care for myself but I have a wonderful family. What will my two daughters think?"

He said he had girls 11 and 20 years old.

Whitt said he became desperate for money to save his business.

Worry of FALSE TEETH Slipping Or Irritating?

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just apply a little VANTREX to your false teeth. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, sticky taste or feeling. It's a shakedown. Get VANTREX TEETH at any drug store. (ADV.)

Leaves State Farm For Federal Term

HOUSTON, July 31 (AP)—A three-year respite from time in a Texas prison—although to be spent in a federal penitentiary—was welcomed yesterday by a convict here.

Gene Gerald Theodori, 23, was sentenced by Federal Judge Allen B. Hamay for driving a stolen car across state lines.

Asked if he had anything to say before sentence was passed, Theodori answered, "I'd like to get some federal time, your honor. There's some pretty rough treatment on the state farm."

Theodori, who escaped Ramsey Prison Farm, May 13, still will have to complete a 12-year burglary sentence he was serving when he fled.

One of the three men who escaped with Theodori, Robert A. Chick, 27, is still a fugitive.

Hearing Postponed On Gas Export Plan

WASHINGTON, July 31 (AP)—The Power Commission postponed yesterday until Sept. 15 a hearing on proposals to export natural gas to Eastern Ontario.

The Tennessee Gas Transmission Co., Houston, Tex., has asked authority to export gas from the Gulf area to Toronto, Canada.

FASHIONABLY CORRECT

OUT-DATED OUT-MODED

The abysmal moral degradation of the world when this child was born is beyond our comprehension. Even heroes like David would shock the Christian world today. He made morality commonplace. "Thou shalt call his name Jesus, for he shall save his people from their sins." — Matt. 1:21.

Candidates Must Subject Selves To Time-Worn Picture Nonsense

Ike has finished his ten days of relaxed trout fishing and is preparing to address the VFW convention in Los Angeles early next week. Dick has come back to his California home town to receive a warm welcome from his fellow townsmen, after receiving instruction in fly casting from his principal. Adlai is clearing away his desk debris, and John returned to Washington for a tumultuous welcome.

We simply must get Adlai off on a fishing, hunting, biking or mountain-climbing enterprise of some kind, to offset the long lead Ike enjoys in this department of candidatorial activity. It is practically against the law for any presidential aspirant to go through a campaign without doing something to identify his kinship with the great outdoors. Remember Cal Coolidge's appearance in hair pants in the Black Hills? Herbert Hoover's trout-fishing in the California mountains, attired in a high white collar and Homburg hat? Remember FDR's sailboat skill, or TR's horsebacking and bear-shooting?

Clubs And Communication Media Can Conduct Voting Education

Before we leave the subject of voting until nearer the time for the second Democratic primary, it seems to us that various agencies could join in an educational campaign on how to vote. We don't mean instruction on what candidates to support, but on the new mechanics of voting. Election judges are unanimous in saying that ballot marking was generally messed up Saturday.

did not want to vote and left blank the name of the person obviously for whom they wanted to vote. Naturally, this sort of vote didn't count. Then there were those who used the "X" method partially, and finished up with the "scratch" method. To make doubly sure, a few used both.

Merry-Go-Round—Drew Pearson

U. S. Relations With Argentina Hit All-Time Low In Eva's Day

WASHINGTON.—Shortly before Evita Peron died, U. S. relations with Argentina had reached such an all-time low that eventual withdrawal of the American ambassador was under consideration. The low point occurred July 10, with the bombing of the Abraham Lincoln Library in Buenos Aires, an official U. S. Library operated by the State Department's cultural division.

been in circulation since 1935. Senator Williams, who looked into the matter, found that the only bank failure in which Lockhart was involved occurred in 1931, about 15 years after he claimed he had started to accumulate a cash hoard. Furthermore, the failure occurred to the bank in which Lockhart claimed to have had a safe-deposit box, which would have meant that he would have had to transfer his funds to another bank when the first bank closed.

This Day In Texas

Executed at Chihuahua on this day in 1811 was Miguel Hidalgo, one of the earliest standard raisers and leaders for the liberation of Mexico. Just a decade after the martyr's death Mexico, and, of course the province of Texas, were free of Spanish rule.

Naturally, he will turn his invention over to the American government, as he did with all his earlier inventions. Right now, he's just having a little fun with the thing. Some of one of these days a tall, elderly man, not unhandsome despite his greying temples, will stride into Air Force headquarters in the Pentagon, lay a bundle of blueprints on the desk and say: "Here are the plans for my flying saucers. I give them to you as a patriotic service."

"Not Yet! I Need A Rest"

World Today—James Marlow

Both Parties Think They Have Picked Candidates Who Will Win In November

WASHINGTON (AP)—The two political conventions of 1952 will be analyzed and interpreted for years, helped by leaks on what happened behind closed doors. That's the custom. But, although there were some subtle and some not-so-subtle struggles in Chicago, everything that happened there was secondary to the main point which already is clear enough: The overwhelming desire of both parties to win the November elections. This meant subordinating everything else to the selection of the two men who looked like the best vote-getters.

WASHINGTON (AP)—The way will be opened today for declaring Mexico free of foot-and-mouth disease and removing a five-year ban on shipment of Mexican cattle and meat products into this country. A joint Mexican-U. S. commission will work out the details in a two-day session opening today

credited with cleaning up a good part of the mess left by the Illinois state Republican machine which he succeeded. The selection of Stevenson was only part of the twisting and turning the Democrats had to do to keep the party from flying apart. For example, the struggle and compromises over the loyalty pledge and civil rights. But when the convention ended the Democratic party was still intact, which it would have to be if it hoped to win at all this year, and with a candidate who seemed best able to get the most votes.

Notebook—Hal Boyle

Tom Swift, Boy Scientist, May Be Flying Saucers Now

NEW YORK, July 31 (AP)—It must be Tom Swift. Yes, who else could it be but Tom Swift, flying those flying saucers around? You remember Tom, the all-American boy inventor. He took up where Thomas Edison left off. The Horatio Alger heroes were scheming opportunists, the Rover Boys were juvenile hoboos, and Frank Merriwell was a tramp athlete compared to Tom Swift, the dedicated youthful scientist.

Conrad Completes Second Round Trip WASHINGTON (AP)—Max Conrad, Minneapolis flier, completed his second round trip to Europe in his Piper Cub airplane yesterday and got a cool reception from customs officials here. Returning from a good-will trip to the Scandinavian countries on behalf of the Minneapolis Aquatennial, Conrad arrived unannounced and had to circle Washington National Airport for a while until arrangements were made with the customs office. Conrad said customs officials were not pleased to see him, since they had not expected an arrival from abroad. But difficulties were cleared up in an hour or so.

Many Hoaxes Removed, But New York Still Has Big One

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald.—Editor's Note.

It's been a good while since phony stock peddlers and manipulators of financial fignments cut any very expansive capers in the American economic whirlpool. Such rugged individualists as the fictitious J. Rufus Wallingford have virtually disappeared, due to tighter reins (some still call it socialism) on stock-swapping operations, registration of legitimate securities, and similar measures to assure something for the investors' money. A few bogus investments, such as in the international oil "development" field, still are palmed off on the unwary, but for the most part such cheats and hoaxes have been nailed to the wall. Con men have been forced to turn, for every minute's sucker, to such occupations as bookmaking, the dope racket, and allied enterprises.

Century when the Edwards family gained title to that portion of Manhattan which now is clustered around Wall Street. The Edwards apparently thought little of the land; their title lapsed, and in 1704 the New York governing body vested ownership of the land in the hands of the Trinity Church Group. Later, New York State legislatures also granted title to the church and its heirs in spite of the previous Edwards claim. When New York started to become a big town, increasing value of the land precipitated a court fight which resulted in 1848 in a ruling that Trinity Church had acquired title by adverse possession. Subsequent decisions upheld the ruling and the Edwards claimants got nowhere. The court fight is just so much history today, with parallels in the contention over ownership of filled-in land along Lake Michigan in Chicago, and similar situations in other cities. But for decades, ruthless entrepreneurs have continued to take money from prospective Edwards "heirs" with the suggestion that a calculated sum will cover legal fees and other expenses of establishing the new ownership. The approach usually are made by mail, and while victims are being convinced that title to Wall Street is just around the corner, postal inspectors have taken up the trail. Probably a few more years will find Wall Street as hard to peddle as the Brooklyn Bridge. —WAYLAND YATES.

Editors Roundtable—James Galloway

Editors Like Primary, But Not To Replace Convention

The large majority of editors, while favoring some system of nation-wide presidential primaries, feels that such primaries cannot replace national party conventions, and that primary candidate preferences should be binding on convention delegates for only so long as a delegate's state may provide. A rather large minority, fearing federal control through federal aid, argues that the separate states can provide a satisfactory system of primaries without federal legislation. But the majority view is that at least some form of federal coordination is required to achieve the uniformity necessary for effective primaries. ST. LOUIS (Mo.) POST DISPATCH (Ind.-Dem.): "Most of the proponents of this major reform apparently favor the plan submitted to Congress by Senator Douglas and Representative Bennett. This would have Washington help each state to meet the expenses of a popular pre-convention vote. Such a test would not be binding on the party conventions, but it is hard to imagine the delegates going against the expressed preference of a majority of all the Republicans or all the Democrats in the country. Senator Smathers wants to go even farther and submit a constitutional amendment calling for binding, direct presidential primaries."

ed in many quarters, would be a vast improvement over the prevailing arrangement... Primaries probably could not be made a complete substitute for the national conventions. Preferential voting by states probably would not indicate a clear majority for any candidate in many cases. Conventions would be necessary, too, to adopt the party platforms and to maintain the party identity." WICHITA (Kans.) EAGLE (Ind.): "Senator Douglas backs a bill to permit the Attorney General to make financial agreements under certain conditions with states willing to hold presidential primaries... Under the Douglas plan the primary would be financed by the federal government up to 20 cents for each voter. An objection to that would be that the federal government would then want to make all the rules, cutting the states out. There are plenty of problems to be ironed out in connection with such a primary." PENSACOLA (Fla.) JOURNAL (Ind.-Dem.): "A step to encourage presidential primaries was taken by a Senate committee when it reported favorably a bill making federal funds available for presidential primaries in states which adopt them. The bill calls for the attorney general to certify candidates' names on petition by 500 qualified voters in each of three-fourths of the states. The states could settle other details, such as how long a favorable vote for a candidate should be considered binding on the delegates." CLEVELAND (Ohio) PLAIN DEALER (Ind.-Dem.): "The Constitution leaves to the individual states the power to determine how the elections in each shall be conducted. We believe direct participation of voters of every state in selecting presidential candidates can be achieved without constitutional amendment or federal legislation, if both major parties will openly and squarely declare themselves in favor of presidential primaries and call upon legislators in the states that are deficient in this respect to pass the necessary legislation."

Uncle Ray's Corner

Holstein Calves Are Larger

Among the babies of the farmyard are calves. These will grow into cows and bulls. It is rare for cows or bulls to be counted as pets, but there are many cases in which calves have been dear to the hearts of children on farms. Calves are fairly large, even at the time of birth. A newborn Jersey calf weighs about 34 pounds. A Guernsey calf is likely to weigh 65 pounds, and a Holstein probably will tip the scales at 91 pounds. The height of a newborn Jersey calf averages about 36 inches. A Guernsey is almost the same height, but a Holstein calf usually is three inches taller at the start of life. If they are fed properly, the calves grow quickly in weight, as well as height. A Jersey will reach about 250 pounds at the age of six months, and 400 pounds when it is a year old. The heavy young Holstein can be expected to weigh 365 pounds at six months and 650 pounds at the age of a year. The average height of a one-year-old Jersey is 42 inches, and a one-year-old Holstein should be 46 inches tall. Not long ago, a reader asked me whether cows drink milk. The answer is that they always drink milk while they are young calves. Almost anything can happen in this world, but in my visits to farms I never have observed a farmer supplying milk to full-grown cows! A thirsty cow might be glad to drink milk, but farmers value their milk too highly to send it back to the cow. Farmers differ in their feeding programs for calves. Sometimes they separate the calf from the mother within a day or two after birth. Then they must supply milk in another fashion. The milk must be warm at the outset of a calf's life, but later the calf can be taught to drink cold milk. Many farmers supply whole milk (that is, milk with the cream in it) until a calf is from seven to 10 weeks old. Later they usually give skimmed milk, and some

start the skimmed milk in less than seven weeks. Early in its life, a calf is fed with calf meal as well as milk. One good formula for this meal is 24 pounds of yellow cornmeal, 37 pounds of ground oats, 12 pounds of wheat bran, 12 pounds of linseed meal, 12 pounds of fish meal, one pound of steamed bone meal, one pound of ground limestone and one pound of salt. There are farmers who stop giving milk to calves after they are a month old. Instead, they supply calf meal, hay and water. For GENERAL INTEREST section of your scrapbook. Irvin May Get Back In Lineup Friday Night

By JOE REICHLER
NEW YORK (U)—Monte Irvin, pronounced fit for return to duty, will get his first starting chance of the 1952 season tomorrow night when the New York Giants engage the Pittsburgh Pirates.

In making the announcement, manager Leo Durocher said he was yielding to Irvin's plea to "get back in there."

"What are you going to do with Irvin?" asked Durocher. "Since I let him pinch-hit last Sunday and he came through with a hit, he's been after me to let him play every day. Any other guy would have been out for a full year with what he had, and maybe forever. But here it is, only three months later, and he's raring to go."

"What can I do? I've got to let him play. So he goes Friday."

It was on April 2 that Irvin suffered a multiple fracture of his right ankle while sliding into third base in an exhibition game in Denver. At the time they despaired of Monte ever playing again. At best, they said, he might be able to resume his playing career next season.

"I heal fast," said the undismayed Irvin as he lay in a hospital cot with his encased right leg supported by pulleys. "I got good bones. I'll be ready to play by Aug. 1."

Even Irvin didn't realize then that a crystal gazer he was turned out to be. For that is the exact date Monte is slated to make his first start. His pinch-hit appearance last Sunday against Cincinnati was the first time he had seen action since his mishap. He also went in as a pinch-hitter against the Chicago Cubs last night but was called out on strikes.

What prompted Irvin to ask for a starting chance was the announcement made by Dr. Harrison L. McLoughlin of Medical Center following an examination of the injured leg.

"The broken bones have knit perfectly," the doctor announced. "And in all respects Irvin has made a highly satisfactory recovery."

Lions To Have Golf Tourney

Another golf tournament has been added to the August Big Spring schedule—a Lions Club meet.

The Lions voted to sponsor a membership tourney at the municipal course at a date yet to be set.

Ray Snyder was appointed director of the meet.

The club will furnish the trophy for the winner.

In addition the club voted to challenge and play surrounding Lions Clubs in intercity matches. These matches will begin later, Snyder noted.

Black Hawk Club Is Taking Shape

Moore Mullins crashed his motorcycle into a burning wood wall at the Big Spring-Sweetwater ball game Wednesday night in a pre-game stunt.

Mullins noted it was the first time he had crashed such a barrier.

Donations from the fans went toward buying club uniforms for members of the Black Hawk Motorcycle Club of Big Spring.

ESTRADA GETS WIN

Steeds Get Run In Tenth To Defeat Braves, 6-5

The Big Spring Broncs pulled themselves together after a ragged start to nip the Sweetwater Braves, 6-5, in a ten-inning battle here Wednesday night.

In a contest marred by nine misplays, the Steeds spotted the visitors four runs and then closed with a flourish to maintain the blistering pace being set by the Odessa Oilers.

Two had throws to second base by Pitcher Gil Grajeda led to his own undoing in the first extra round. After walking Witty Quintana, he accepted Pat Stacey's ground ball and then pulled Johnny Morris off second in an attempted force.

He later tried to pick off Quintana and threw the ball away, allowing both runners to advance. Buddy Grimes, one of the heroes of the night, followed by dispatching a ball down first base way that Warren Siler could not return in time to arrest Quintana's dash in from third. Sterling relief pitching by Bert Estrada, who looked better than he has in a month, saved the night for Big Spring. The visitors hit Bert Baez hard in the three innings he worked and Estrada came on in the fourth to pitch two-hit ball and strike out 11.

It was Estrada's seventh win of the season against nine losses. The loss, of course, was hung on Grajeda, who spelled Dean Higgins in the sixth, when the locals were in the midst of a three-run uprising.

Higgins was mowing the Cayuses down but his wildness led to his own undoing. He walked nine before departing.

Each side managed only seven hits but it began to look like a Sweetwater run-away in the early innings, when they counted two in the first, two in the third and one in the fifth.

DIAMOND DUST — Numerous rhabarbs between Umpire Al Sample and the Sweetwater team helped stretch out the game to two hours and 56 minutes. Big Spring left a season's record total of 15 runners stranded. The locals loaded the sacks four times during the ball game but could not score.

The contest was the second straight extra-inning go-between the two teams played in Steer Park. Last time out, the Steeds defeated the Braves in 12 innings. Estrada struck out David Mier three times. He retired the side on strikes in the fifth and again in the sixth. He ran his strikeout total to an even 100 for the season, one of the eight men in the league who can claim such a distinction.

Stacey drove in Rick Gonzalez in the sixth for his 87th RBI of the season. Sweetwater got its first two batters on base as the result of errors in the tenth but could not bring them around.

Doak's Arm In Shape

Trainer Hugh Burns (left) examines the repaired right arm of Doak Walker as the professional Detroit Lions opened their 1952 training session at Ypsilanti, Mich. Walker suffered a severe cut on the arm six weeks ago when it went through the window of a car he was pushing at the National Open Golf Tournament in Dallas, his hometown. Walker, a backfield ace of the Lions, reported he was ready to play and he is expected to be a starter for Detroit. (AP Wirephoto).

LOOKING 'EM OVER

With Tommy Hart

If the Roswell Rockets had opened the 1952 Longhorn League season with the ball club they brought in here last week, they quite possibly would have lived up to the rosiest promises made for them back in April.

More than one observer looked for the Rockets to move through the league's campaigns with seven-league boots and break the tape in front with yards to spare.

The Rockets were heavy with talent, true, but some of the hands in camp were not inclined to hustle. Impatient Al Monchak made a change here and there, though, got rid of some deadwood and finally came up with a winning combination.

His pitching staff still isn't top-drawer but is much improved over what it was earlier in the campaign.

The Rockets will probably more than hold their own against the field from here on down the wire.

Incidentally, Stubby Greer and Elwood Grantham played ball against each other in the Southern Association a few years ago. Greer was at Mobile, Grantham with Nashville.

TOO MANY PLAYERS FIZZLED FOR BONURA

Zeke Bonura was drawing a fabulous salary (\$7,500 per annum) at Midland and club officials, when it came time to laying the can to him, said one of the things that influenced the decision was that they wanted to pare expenses.

That isn't exactly true. The front office felt that Bonura was bringing in too many high priced ball players who fizzled in Class C competition. He was causing a drain on the Midland club's bank balances for that reason.

GONZALES MAY PULL OUT OF SWEETWATER

Prospects are poor that Vernon or Sweetwater will line up in the Longhorn League race in 1953.

Business has been bad up Vernon way all season, and attendance has taken a nose dive in Sweetwater in recent weeks.

A. C. Gonzales, owner of the Sweetwater club, reportedly has said he'll consider himself lucky if he loses no more than \$15,000 there this year. Judging from that, the Braves must have had some high priced talent this year.

Snyder can probably get a franchise within the league just for the asking.

Here's a rundown on the batting averages of Longhorn League exes now doing business in the Class B Gulf Coast League.

Danny Concepcion, Lake Charles, .325; Jorge Lopez, Laredo, .313; Juan Izaguirre, Texas City, .308; Felix Gomez, Texas City, .282; Wayne Wallace, Corpus Christi, .280; Tony DiPrimo, Corpus, .277; Charley Lofland, Laredo, .275; Ted Squillante, Harlingen, .262; and Kenney Peacock, Brownsville, .245.

Wallace was with San Angelo, DiPrimo and Peacock with Odessa, and Squillante with Angelo. The others were with Big Spring.

Yanks Playing Catch-Up Today In Olympics

Helsinki (U)—An American woman and a Japanese man set new Olympic swimming records today as the swimmers continued the practice of smashing a record in nearly every event.

After Japan's Shiro Hashizume had wrecked the old Olympic mark for the men's 1,500 meter free-style swim with a time of 18 minutes, 24 seconds, Evelyn Kawamoto of Hawaii won her heat in the women's 400 meter free-style in 5:18.5 for another new Olympic record.

Three other men also bettered the old record for the 1,500 of 19:12.4, set in 1932 by another Japanese star, K. Kitamura, but none could come close to Hashizume's time.

Miss Kawamoto broke the women's record of 5:17.5 set by Ann Curtis of the United States in 1948.

Second-fastest heat winner in the 1,500 was Brazil's Tetsuo Okamoto in 19:08.1. Jimmy McLane of New Haven, Conn., the defending champion, won his heat in 19:09.2.

France's Jean Bottez, winner of the 400-meter free-style title in record time yesterday, was timed in 19:12.3.

Only four of the six trial heats in the 1,500 were run off this morning with two more scheduled for this afternoon. The eight best times will qualify for the final, leaving the second American, 17-year-old William Woolsey of Honolulu on the ragged edge. Woolsey's time of 19:24.6 in finishing second to Bottez was the eighth-best in four heats.

Carylyn Green of Fort Lauderdale, handicapped by the loss of her swim cap at the start, placed second in another heat of the women's 400 in 5:23.3 while Deliana Neulstam of Hill Valley, Calif., was fourth in another.

The fastest 16 times qualify for the semi-finals.

Still another Olympic record fell in eyeing—the first of the games in that sport. Australia's Russell Mockridge won the gold medal in the 1,000 meter time trials in 1:11.1.

Going into the day's program Russia had 23 1/2 points, the United States 463. Twenty-eight finals, including 10 in boxing, remain before this gigantic sports carnival closes Sunday night.

Although a little short on finals, the day's schedule provides plenty of intermediate action.

Boxing moves into the quarter-finals in all 16 divisions. The United States and Russia each have seven men still going while Italy is leading the field with nine.

Basketball opens its final two round robin series—one to determine the first four places between the United States, Argentina, Russia and Uruguay, and the other to determine the last four between France, Brazil, Bulgaria and Chile.

The windup games will be played Saturday.

Yesterday the United States picked up 14 points in the women's springboard diving when Mrs. Pat McCormick, a 22-year-old Long Beach, Calif., housewife, finished first and Mrs. Zoe Ann Jensen of Oakland, Calif., third. Jean Bottez of France won the men's 400 meter free style with Ford Koano of Honolulu second as the first seven men bettered the Olympic record. The winning time was 4:30.7.

The Hungarians won the team sabre competition in fencing to nobody's surprise since they haven't been beaten in the Olympics since 1928, but the U. S. joined the experts by finishing fourth.

Riley Winner At Los Angeles

LOS ANGELES, July 21 (U)—The old and esteemed Women's Western Amateur Golf Tournament enters the quarterfinal stage today, and the heroine of the affair is still a 15-year-old from West Virginia, Berri Long.

The field of eight still listed golfers of wider fame and past achievement, notably Polly Riley of Texas, Mary Ann Downey of Baltimore, Pat Lesser of Seattle and Mary Lena Faulk of Georgia.

But merry Berri retains the fancy of the gallery at the Los Angeles Country Club. It started when she dethroned defending Champion Marjorie Lindsay two days ago, and it reached the sensation stage yesterday when she defeated favored Mrs. Lyle Bowman of Richmond, Calif., the former Carol (Babe) Frazee of Portland, Ore.

Miss Riley, the lone Curtis Cup player left out of three starters, trimmed Peggy Rutledge, Los Angeles 3 and 2.

Rocky Castellini Faces Saxton

CHICAGO, July 31 (U)—Johnny Saxton, a muscular, power-punching 23-year-old Negro from New York, will risk his undefeated record against Rocky Castellini, a classy middleweight, on Sept. 3.

PHILLIES ROMP

Roberts Achieves 16th Mound Win

By JACK HAND
Associated Press Sports Writer
Robb Roberts is proving his right to the title—best pitcher in the National League.

While Philadelphia leads the rest of the nation in going wild over little Bobby Shantz of the A's, Mr. Roberts quietly piles up wins for the Phillies.

Shantz probably will beat him to the 20-win goal for he goes after No. 19 today in Detroit, but Roberts won't be far behind. He leads the National with 16 wins after last night's 7-3 success against Cincinnati.

The Phils continued their surge in the National with a sixth straight win over the Reds on a wild six-inning rally in the eighth. Willie Jones' three-run homer featured the attack. Willie also hit a homer in the seventh.

Brooklyn snapped its five-game losing string, shading Pittsburgh

4-3 in the 10th on Carl Furillo's first hit in 16 times at bat. The victory added a half game to the Dodger lead, now measuring 4 1/2 games, after the runnerup Giants split a two-night double header with Chicago. The Giants won the opener, 10-6, taking advantage of three Club errors to score four in the eighth, but Hank Bauer's 25th homer helped Johnny Klippstein take the second, 6-2.

Warren Spahn cooled off the sizzling St. Louis Cards as Rookie Ed Mathews hit a two-run homer off Joe-Prezko for a 2-1 Boston triumph. Stan Musial's 14th homer was one of the Cards' seven hits.

The New York Yankees lost, 7-0, to Chicago but their American League lead remained at three games because Cleveland also fell before Boston, 5-4. The Red Sox's triumph over Bobby Feller left them in third place only 3 1/2 games off the pace.

Washington ended a four-game losing streak, whipping St. Louis, 9-2, on Bob Porterfield's five-hitter, to pull within 5 1/2 games of the Yanks. Alie Clark's two doubles drove in all the runs for Philadelphia in a 4-3 squeaker with Detroit.

BRONCS, BRAVES MEET IN DOUBLE HEADER

Sweetwater and Big Spring, tonight's game and that one begins Sept. 7, the day before the season ends.

Big Gil Guerra will probably hurl one of the games tonight for Big Spring. He'll be seeking his 17th win of the season. Oscar Reguera will probably toil for the locals in the other one.

It could be Marcelano Solis, a southpaw, in one of the contests. Solis has shown much improvement in recent starts.

Big Spring needs a win in one of the games to gain an edge in the series, having won last night's game, 6-5.

Artesia moved in Friday night to begin a two-game series.

The Steeds have now won four of five home games but have not gained on the pace-setting Odessa Oilers, who continue to tell all comers.

Coahoma Seeks 2nd Triumph

COLORADO CITY—Coahoma will be out to make it two in a row and Col-Tex will be out to even the series in the second contest of the championship series of the Jaycee Softball loop tonight.

Coahoma, first-placer in the regular season, slipped by the Col-Tex nine 3-1 Tuesday night in the first game of a best three-of-five series.

Jimmy Ward will probably start on the mound for the Coahoma club.

Coahoma advanced into the final playoffs by beating Sun Oil while Col-Tex, who was second over the season, blasted Cuthbert in the preliminary playoffs.

BRONC GAMES OF THE WEEK:

THURSDAY—Sweetwater here
FRIDAY—Artesia here
SATURDAY—Artesia here

Mize Pitches, Bats Cook's To Victory

Cotton Mize pitched and batted the Cook's Appliance Company team to a 13-12 victory over Webb Air Base in a YMCA Industrial Football League game played here Wednesday evening.

Mize crashed out a two-run single in the seventh and then rode out a Duster rally in the last half of the frame that netted four runs.

Jimmy Tidwell hit a triple and a single for the winners while Ben Kirkland came through with a triple and a home run.

For Webb Air Base, Spozey kept Webb's chances alive with a last inning home run while Patterson collected a four-master and a triple.

Windy Cunningham and James Hollis scored ahead of Mize's base hit in the seventh for Cook's.

Franchy Melancon and Tex Heyerman divided time on the mound for the losers.

In the other game, Brook's won a 17-11 slugfest over Henderson Plumbing Company.

HC Workouts Open Tonight

Basketball workouts for the Howard County JC cagers will begin tonight at Coach Harold Davis begins his work with the Jayhawks.

The group will hold a workout at 7:30 p.m., another Friday at 7 p.m. and two drills Saturday—8:30 a.m. and 2:30 p.m.

Davis will have four starters from last season's club—Charles Warren, Bobby Malines, Dallas Williams and Casey Jones. Williams towers 6 feet 4 inches while Warren is the "shorty" at 5-10.

Also joining in the HCJC workouts are Richard Gilmore, Ross Word and Jack Lee.

In addition to the Jayhawk squad, a group of Big Spring, Lamesa, Levelland, Coahoma, Odessa and possibly Dallas cagers will be working out. They are all high school graduates and will be playing in college basketball next season.

Eddie Houser, former Big Spring HS and Texas A&M cager, will assist Davis with the coaching.

Gold Sox Record Win Over Tribe

The Gold Sox added another win to their record Wednesday night with a 4-0 shutout victory over the Indians.

Wayne Fields pitched for the victors and Mike Sublate was the losing hurler.

Jimmy Tucker hit a home run for the Gold Sox.

The club now boasts a 6-3 record.

Thanks

Dear John: Take me to the American Drive Inn for a piece of that delicious Home-made pie and all is forgiven.

Thanks A Million

For the fine support you gave me in the recent election. Due to a recent spinal operation, I've been unable to circulate among you as much as I would like. I intend to stay as active as possible in the run-off campaign, however, and I solicit your help at the polls.

Golfdom's Top Show Begins At Tam O'Shanter Today

By JERRY LISKA
CHICAGO (U)—Golf's greatest show on earth, George S. May's \$120,000 Tam O'Shanter marathon, opens today with 186 pros, amateurs and women teeing off in the \$300,000 All-American tourney.

The All-American, a 3-in-1 medal play event over 72 holes, actually is just a gay overture before the curtain lifts on Tam's \$90,000 "world championship of golf" starting a week from today.

Although 126 American and foreign pros are swinging for the All-American top prize of \$3,420, they'll be swinging even harder for the \$25,000 first, \$12,000 second, and \$5,500 third "world" prizes.

In the All-American amateur division are 29 contenders, headed by defending Champion Frank Stranahan of Toledo, Ohio, while

28 gals, among them 11 pros, will shoot for the All-American women's open crown vacated by ailing Babe Zaharias. The winning female pro collects \$1,000.

Promoter May has rounded up a field he deems complete without the presence of Ben Hogan and British Open champ, Bobby Locke.

May, in effect, told Hogan and Locke to stay away when they asked for appearance money in the All-American. But it's possible, when the lads start parlaying pars and birdies for the big "world" dough, Locke and Hogan may be in the thick of the fray.

Gary Middlecoff, 1952's leading money-winner with \$13,506, is defending All-American champion. He won last year with 374, topping Tam's par by 14 strokes.

Without saying he would back the National convention's nominees, Shivers had some reserved praise for them. He said he felt the combination of Stevenson and Sen. John Sparkman was a good one, generally speaking. He qualified this by his questions on Stevenson's tideland views.

Negro Stopped In Suicide Attempt

LOS ANGELES (AP)—"I'd rather kill myself than go back to San Quentin Prison," shouted Roscoe S. Collins, Negro ex-convict. With that, he leaped through a window on the seventh floor of the Hall of Justice yesterday.
