Rule - Valley Mills Bi-District Playoff In Eastland Friday At 8

Eastland will be the site for a Bi-District clash Friday night at Maverick Stadium between the Rule Bobcats and the Valley Mills Eagles.

Kickoff time will be 8 p.m. The Eastland Chamber of Commerce and local school officials are cooperating in providing location for this important Class B post-season game

Rule beat Rochester last Friday, 28-6 to win the 5-B title and Valley Mills which defeated Eden 33-0 last week, for the 6-B championship.

DEER HUNTING stories abound ... Vassarette Manager Gene Johnson honestly tries to tell a good one, but by the time his friends (?) get through re - telling it, you would believe that the deer jumped into his pickup after having been shot and pointed to the zipper where it could be field - dressed...Really the test of a seasoned deer hunter is the one who looks at many deer before deciding on just the right tack. Our commercial printer Hale Dunson (who looked at a dozen or so without shooting), and Harold Hendricks, now of Cisco, fall into this category.

LET'S ALL remember to wish Mrs. Don (Sally) Nicholas happy birthday. Understand she received a special perfume from thoughtful Don. Is there really one called "Atomic Bomb?" ... Be it recorded that the big, black hearse driving the streets of Eastland Monday night was not, repeat not, from either of the local funeral homes. Folks out at the Eastland Auction Co. and a Hillcrest resident couldn't quite make out, we understand, who their visitor was

County Historical Committee Chairman, Mike Collins, has passed this letter along asking help for a good historial project!

I would like information encompassding all stage line routes in Eastland county and the surrounding areas. Depot, way - stations, owners, drivers, and incidents involved in the dispensation of the duties of the ines are vital.

I would like to learn the name of the first stage company to operate in this area and the ensuing ones and their owners' names. As I wish to work this information into an atlas type format, I will need the location of the routes, depots and way - stations

Were there ever any stagecoach robberies? Were there any Indian attacks? Did they carry payrolls as well as mail and passengers? Were they horse drawn, or were mules used?

Any information from anyone, however slight or vague will be appreciated very much.

Sincerely. Mrs. Harold Prescott 609 West 4th St. Cisco, Texas

Bridal Shower

A bridal shower honoring Mrs. Tom Fox III, nee Dollie Moseley, was held on Nov. 9, in the Eastland National Bank Conference Room. Mrs. Bobby Boyd of Well-

born, Texas, sister of the bride, presided at the registration table which was covered with a beautiful crocheted tablecloth and carnations in a crystal bud

vase. The refreshment table had a white cloth edged with lace and a lovely centerpiece of gladio-las, carnations and other flowers in pastel hues. White petit fours, each decorated with a daisy, rose or other flower,

and pink punch carried out the honoree's rainbow colors. Thirty-five friends and relatives attended the shower. Hostesses were: Mrs. Robert Kincaid, Mrs. Harold Price, Mrs. R.P. Haun, Mrs. James E. Wright, Miss Milta Kincaid, Mrs. Homer Smith, Mrs. Jim Krantz, Mrs. Alvin Kincaid, Mrs. Ellen Justice, Mrs. Floyd Williams, Mrs. Jerry Wilson and Mrs. Larry Terrell.

The 4-H Clubs in Eastland County will be selling Worlds Finest Chocolate between Saturday, Nov. 23, and Monday Dec. 2, in an effort to raise money for the construction of the State Center.

The Eastland County 4-H'ers have pledged to raise a total of \$3,000 over a three year period to assist in the building costs. These young people and their leaders believe that Texas 4-H members need a permanent home where many educational programs and activities can be nducted throughout the year Youth and leaders of Eastland County are joining with others throughout Texas to help bring about a 4-H center for the State.

The Educational Training Center includes an administrative building and ten dormitories, each containing a conference room and sleeping area for twenty people. The administration building will include an assembly room, dining room, food preparation facilities and offices. The center will be able to accomodate 200 people. It will be used for training of 4-H members and 4-H Adult leaders throughout the year. Because the center will be located so near to us, we feel that we will be able to benefit greatly from

Food Stamp Increases

Food stamp allotment for a family of four will increase on January 1 from \$150 to \$154, based on August food price statistics, according to an announcement today by Under Secretary of Agriculture J. Phil Campbell

The Food Stamp Act, as amended by the Agriculture and Consumer Protection Act of 1973 ? Public Law 93 - 86), requires that coupon allotments be adjusted semiannually to reflect changes in the prices of food as published by the Bureau of Labor Statistics. Allotment adjustments are based on the cost of the Department of Agriculture's (USDA) economy food plan as it is computed from Bureau of Labor Statistics food prices. The law requiring semiannual adjustments specified that the January 1974 adjustment reflect changes in food prices through August 1973. A similar procedure was used for the July 1974 adjustment and is being used for the January 1975 increase in the value of the couponullotment, which is based on the cost of the economy food plan in August 1974.

Cost of the economy food plan for August was \$153.40 for a family of four with school children. Accordingly, USDA will raise the value of the coupon allotment from \$150 to \$154 for a family of four and make appropriate adjustments for other household sizes. The maximum income eligibility standard for the four - person household will increase from \$500 to \$513.

The following tables giving coupon allotments, income eligibility standards and purchase requirements for all household sizes in the 48 contiguous states and the District of Columbia are scheduled for publication in the Federal Register of Monday, Nov. 18, 1974. Separate tables for Alaska, Hawaii, Puerto Rico, the Virgin Islands and Guam will be announced shortly. Maximum income eligibility standards by household size starting Jan. 1 are: One \$194 Two .280

Martin, Gregory Exchange Vows In Candlelight Ceremony

In an evening candlelight ceremony. October 26, in the Northside Church of Christ. Vickie Kae Martin became the wife of Robert Neil Gregory. The double ring ceremony was performed by Ralph Starling. minister of the Graham Street Church of Christ.

The bride is the daughter of Mr. and mrs. John G. Martin. Parents of the groom are Mr. and Mrs. Truman Gregory of Carbon.

Given in marriage by her father, the bride wore a gown of white peau de soie fashioned with a yoke and full bishop sleeves of Cluny lace. Vertical bands of pearled lace accented the A-line skirt. A ruffle of lace encircled the skirt and attached sweep train. Her veil was of tiered white illusion flowing from a coif of ruffled lace accented with tiny seed pearls and a satin bow. The bride carried a small white Bible adorned with miniature white roses, white carnations and baby's breath.

Attending the bride as maid of honor was Miss Laura Kirby of Kermit. Serving as flower girl was Miss Cheri Canon of Garland, cousin of the bride. The attendants wore identical formal length gowns of pink crepe, accented at the empire waist and neckline with pink and olive green floral trim. Their headpieces were of pink net with an olive green velvet crown accented with floral trim. They carried nosegays of miniature pink roses, pink carnations, and baby's breath.

Understanding Of Wild Animals 1,000 Deer and water are the three

principal ingredients of wildlife

production. Every animal has his own habitat requirements. If

they are present in the right combination and condition, he

thrives. If they are scarce, he

struggles for existence. If

absent, he dies. No creature can

exist without food and water,

certainly, but equally important

is proper cover-for nesting or

reproduction, for escape, for

protection from the elements,

for harboring other creatures

which constiture his food

supply. There are other factors

which control animal abundance

too, such as fire, rainstorms, or

other violent disturbance by

man or nature during critical periods, but the chief factors

are food, cover and water which

provide the right balance and

any wildlife species will pros-

per. Destroy any of these three

elements, singly or in combina-

tion, and the species is doomed. Your local Soil Conservation

Service people can provide you with information to help you in

your wildlife program. Their

Bank building in Eastland.

Everyone appreciates wild animals, but few people under-stand them. Wild creatures are featured stars in nature's drama. They are leading characters in outdoor story and legend. Yet, wildlife species are almost universally misunderstood. This misunderstanding has led to their destruction, to overprotectiveness, to needless waste, to scarcity or over abundance, even to extermination.

Man is the only animal that deliberately alters or controls his own environment. Beavers build ponds through an instinc-tive urge rather than reasoned engineering. But man, in addition to changing his own habitat, is the dominant force in controlling the habitat of other animals as well. He is the key to wild animal abundance or scarcity. He is master of all game. It is the habitat or environ-

ment which determines largely where wild animals will be and in what numbers. Food, cover

Eastland County To View Art Collection

People of Eastland County are now able to view a beautiful collection of art at the Cisco Chamber of Commerce. The paintings are red and blue ribbon winners from the Big

Country Art Association Show held Oct. 5, at McMurry College. Three-hundred-sixty paintings were in the original show Twenty-one paintings are on display in Cisco until Dec. 31. The artists come from Abilene,

Anson, Snyder, Ovallo, and Sweetwater. A complete list of artists, division of blue and red ribbon winners, and price tages for the paintings are available from the Cisco Chamber of Commerce.

Blue ribbon winners will continue on circuit and then travel to Austin for final judging in competition for state citations. Some may then be chosen

for a national circuit tour. Officers of the Big Country Art Association for the coming year include Mrs. Willis Parker, president; Mrs. Frank Sayre, director; Mrs. Arlin Bint, secretary; Mrs. Winston Heidenheimer, treasurer; Mrs. Herman Reimer, second vice president; and Mrs. Esme Glenn, first vice president.

In Current Harvest

Deer season opened Saturday, Nov. 16, and will remain open until Jan. 1. For those of you who want to hunt and have not got your license they cost \$5.25. Leases will run from about \$100 to \$150.

Game Warden Kenneth . Payne estimates that there will be approximately \$2,000 to \$3,000 spent on hunting viola-tion fines in Eastland County this year.

There will probably be about 750 to 1000 deer killed this year. The deer will probably be hiding a lot more this year since there has been plenty of food for them. They will not be out looking for food so they should be fairly still. There are about 100,934 acres of deer range with about one deer to every 20 acres. This year there were about 2,500 doe permits issued. You are allowed two deer of either sex.

For you turkey hunters Eastland County has no open this year. Quail season is open from December 1st thru February

16th The average hunter is likely to spend around \$100 for clothes and another \$125 for food and beverages. Hunters spend about \$75 for shells. That is if they are hunting deer and quail.

Are Natural Gas Curtailments **Going To** Affect Me?

During cold days in the winter, when the demand for natural gas is really high, some industrial users are asked to cut back their consumption of natural gas. But we want to assure our residential and other high priority customers that it's highly unlikely their natural gas service will be interrupted.

The pipelines used to deliver natural gas can only hold so much gas. And during extremely cold winter days, there's sometimes more demand than we can supply. Some people ask, "Why not build bigger pipe-lines?" But that would be like building a church for the Easter or Christmas attendance, rather than the weekly congregation. The cost would be tremendous and gas rates would be

much higher. Instead we developed a "curtailment" program many years ago. Our industrial customers have signed contracts agreeing to "curtail" their use of natural gas during these peak times. And in return, they pay a lesser rate reflecting the probability of being interrupted.

If you were considering replacing an existing gas appliance or purchasing a new one, be assured that Lone Star can provide the energy. We have the natural gas, and our residential and other high priority customers may continue to rely on Lone Star's dependable service now as in the past.

Record High Attendance In Sunday School Last Sunday

A record 614,000 Texas Southern Baptists attended Sunday School last Sunday.

A first High Attendance Day goal of 600,000 had been set by the Sunday School Division of the Baptist General Convention of Texas for 4,200 Sunday Schools around the state.

'This record high is perhaps the greatest single achievement n the history of the Sunday School program", said Dr. John Sisemore, director of the Texas Baptist Sunday School Division. He alluded to many larger denominations who are experiencing plummeting attendance in their Sunday morning programs.

This was the first statewide attempt at a large scale attendance promotion says Dr. Sisemore
