# County Labor Survey Would Ask Questions; Evaluate Work Force

and who are available to go to work?" or some such question, a concrete answer could be given.

Such a survey was conducted recently in Midland, with 21,000 forms mailed out, and 2,539 returned, showing that 998 of these were employed and 1,541 were not.

Officials, who will want to make sure that everyone completely understands the purpose of the survey, will probably include paragraphs in the accompanying letter to this effect:

"Your assistance and cooperation in completing the enclosed form is urgently needed — THIS IS NOT A JOB APPLICATION — but a confidential survey questionnaire for information only.

"Your help in completing and returning the enclosed survey — AT ONCE — is very important in helping to determine the information which is necessary to interest future industrial prospects in locating their plant in Eastland County."

As soon as arrangements have been worked out between the various participating towns, forms printed, the questionnaires should be going into the mail.

**FORMS MIGHT ASK**

Included in the forms will be such questions as: Name; Age; phone number; address; male; female; how far do you live from the county seat; how long have you lived in this area; married; single; engaged; widow(er); divorced; separated;

how tall are you; weight; right-handed; left-handed; how many children do you have at home; their ages; how many people are depending on you for their living; partially; totally; is your wife (or husband) working now; where; what kind of work; how long; approximate salary; schooling completed; any special training; have you ever worked in a factory or plant; what kind; what was your job and what kind of machines did you operate; would you rather work full time or part time; could you work night shifts from 4 p.m. to 12:30 a.m.;

do you own your home; rent; other; do you wear glasses; do you have physical handicap; what is the nature of your handicap; are you presently employed; list different types of work you have done.

From this, as can be seen, accurate records can be compiled of the county's work force.

## County 4-H Food Show Will Be June 16 In Eastland

The Eastland 4-H Food Group met May 31 in the home of Mrs. Troy Cross at 10 a.m. After planning a menu for dinner, the group prepared and served the meal. They worked in groups of two and prepared the following food:

MEMBERS OF the Eastland County 4-H Food Group who met recently in Eastland are, from left to right: Vicki Houghton, Suzanne Harbin, Sherry Carey, Sharon Harbin and Robert Harbin.

Sherry Ruby and Vicki Houghton prepared scalloped potatoes and apple-celery salad; Sherry Carey and Susan Harbin, hamburger dish and orangeade; and Sharon Harbin, junior leader, and Robert Harbin, banana pudding, drop biscuits and english peas.

Mrs. Gene Harbin and Mrs. Cross discussed plans for the Eastland County 4-H Favorite Food Show which will be held from 9 until 11 a.m. on June 16 in Eastland. A bake sale will follow the food show. 4-H'ers always look forward to the Favorite Food Show each year and would like to invite everyone to stop by and be informed of things they have learned to prepare.

All states now have stringent laws against dueling.

## Interest Seen In Deep Oil Test Near Cisco

An oil test of considerable interest in this region was underway this week seven miles north of Cisco as the W. M. Jarrell-Reynolds Drilling Co. No. 1 T. E. Davis.

The project was to test a granite wash formation at about 5,700 feet in a hole that was started three years ago. The original hole went to 5,432 feet in 1962. Last year, Jarrell of Houston and Reynolds of Cisco re-entered the hole and deepened it to 5,465 feet.

The new project will utilize new drilling bits that will cut the granite wash. Tools were rigged up early in the week, and operations were shut down Wednesday and Thursday due to trouble in the hole.

Charles Clark, vice president of the Reynolds company, said the Davis hole is near a cable

well that went to 5,600 feet with a good show in 1929. Completion methods at that time were not good enough to make a producer.

Location was 2,250 feet from the north and 910 feet from the east lines of Section 54, Block 4, H&TC Survey.

Elsewhere, a completion report had been filed for a new wildcat producer — the Lovera Oil & Gas Co. No. 1 James Beard et al, three miles south of Eastland. Daily production was 45 barrels on pump from 3,060-3,100 feet in sand.

Shanghai Pierce, a giant Texas cattleman known for his unusually loud voice, could stand on the front porch and bellow orders to the men at work at the cattle pens, a mile away.

Get a new NO-FROST refrigerator-freezer that never needs defrosting

You can say goodbye to defrosting—one of the most tedious kitchen chores—once you install a no-frost electric refrigerator-freezer. Because frost never forms—either in the refrigerator or freezer sections—there's no layer of ice to take up storage space. You can store more packages of frozen food. The packages won't stick together... and there's no need to make labels hard to read. Ice trays come out easily without pounding, pulling or hammering. See the new no-frost electric refrigerator-freezer at your dealer's soon.

Now, That It's Spring Again -  
... It is time to rejoice for the Season ushers in a period of new life, renewed hope and pleasant memories of Eastertime. But Spring, all too often, may bring memories of hail and windstorms, too, which are neither joyous nor pleasant. And sometimes they cause death and much destruction of property, without warning. If you are not carrying insurance against these hazards, and others just as destructive, better give us a call today. Tomorrow may be too late.
