New Venire Is Summoned For Murder Case

Ten Jurors Chosen From First Group At Philadelphia

PHILADELPHIA, Jan. 5 (AP)—A new panel of ventremen was drawn today to complete a jury which will try Frank A. Craven, 38-year-old former deputy warden of the Philadelphia county prison, on murder charges in the "baking deaths" of four convicts last summer.

The prosecution and defense spent the entire day yesterday and exhausted a panel of 47 in picking the first 10 jurors—six men and four women. They include four negroes—two men and two women—a bride of six months, a junk

dealer, waiter, printer, paint merchant and housewife.

Assistant District Attorney John A. Boyle prepared to make his opening statement and call the first witness immediately after selection of the two remaining jurors.

Craven, first to go on trial of 10 former officials and guards indicted in the deaths, returned to the courtroom with the court's assurance that a first-degree conviction would not be sought.

There was no formal ruling, but Judge Robert E. Lamberton commented yesterday during questioning of a prospective juror that "there is no question of capital punishment involved in this case."

Craven is being tried specifically on murder and manslaughter charges in the death of Frank Comodora, who perished with three companions in a steam-heated punishment cell block known as the "Klondike."

Mr. and Mrs. J. B. Hodges have returned to their home in Odessa after spending the holidays with relatives here.

Dishes That Are Easy On Budget But Satisfies Hearty Appetites

Good tasting and rich in important minerals and vitamins, too, is a combination dish of bacon, liver, tomatoes and lima beans served with toast, macaroni, or rice. This is one of those January dishes that satisfy hearty winter appetites and are, at the same time, easy on the budget.

There's a story back of this recipe. A retired army colonel was running the house one winter while his wife was vacationing at the coast with the children. One evening the colonel invited two army officers home for dinner, and found to his dismay that the colored cook had prepared for him a simple supper consisting of liver and bacon, a tomato salad, and a bowl of rice-cooked fluffy and dry in the good old southern way. The colonel saw at once that this meal needed "stretching," color, and improved interest. After a search through the emergency chest, this resourceful gentleman gave instructions for the combination meal which met with such success that it has become a family special. Here is the recipe as given to me:

LIVER SPECIAL

1-2 pound sliced liver
Seasoning
Flour
1-2 pound bacon
2 cups cooked tomatoes
2 cups cooked lima beans
Rice

Cut liver in 1-inch pieces. Season. Roll in flour. Pan fry bacon cut in 1-inch pieces. Remove bacon and keep hot. Pan fry liver in bacon drippings until well-browned. Add lima beans, tomatoes and bacon. Season and heat thoroughly. Serve on toast, cooked macaroni, or rice.

LIVER EN BROCHETTE

Metal skewers strung with pieces of sliced calf liver alternating with pieces of sliced bacon make delicious individual brochettes served on buttered toast. Season. Broil on a broiler rack placed 3 inches from the flame. When brown on one side, turn, brush with melted butter, and broil until browned. Other combinations are:

1. Liver, fresh mushrooms, bacon.
2. Liver, veal steak, bacon.
3. Liver, beef sirloin, bacon.

BRAISED LIVER

Parboil a whole liver. Clean, make a pocket in the liver and fill with bread dressing or pork sausage. Fasten together with picks. Cover with strips of bacon or thin salt pork. Place in casserole, add 1 cup broth, tomato juice, or water. Cover. Bake in a moderate oven (325 degrees F.) 2 hours. Remove cover and brown bacon topping. Diced vegetables may be added 1-2 hour before liver is done.

LIVER LOAF

1-2 pounds beef liver
1 teaspoon salt
2 tablespoons flour
2 tablespoons bacon fat
1 clove garlic
1 stalk celery
1 onion
1 cup bread crumbs
2 tablespoons bacon fat
1 teaspoon salt
1 egg

Wash and remove veins in liver. Season. Dredge with flour. Brown in hot fat. Add garlic, celery and water to cover. Simmer slowly about an hour. Cool. Grind liver and onion. Brown bread crumbs in 2 tablespoons bacon fat. Combine with liver, onion, salt, egg and 1 cup broth in which liver was cooked. Form into a loaf. Cover with strips of bacon. Bake in a moderate oven (350 degrees F.) about 30 minutes or until bacon is well browned.

SAVORY CALF'S LIVER

1 calf's liver
1 onion, sliced
1 clove of garlic
2 tablespoons flour
2 tablespoons celery, chopped
2 tablespoons parsley, chopped
3 tablespoons poultry or bacon fat

Wash the liver. Remove the skin. Cut 6 pockets from the top, 1 inch wide and nearly to the depth of the liver and fill these pockets with the parsley and celery and, if desired, bits of garlic—all trimmed with salt and paprika. Tie string all around the liver, to keep in the filling, making small grooves at side to hold the string in place. Dredge with flour.

Place fat in heavy iron kettle that has close fitting cover, add onion. When slightly browned add the prepared liver, brown all over, then cover and let simmer very slowly from 3-4 to 1 hour, until tender. The long cooking will make it tough and dry. Add a little water at a time, and only if necessary. If gravy is not thick add more flour.

SAYS TROTSKY IS A MAN TO BE WATCHED

SAN ANTONIO, Jan. 5 (AP)—Michael M. Fortnes, professor of political geography at the University of Pennsylvania, considers Leon Trotsky, called Russian, "the most dangerous man in the world."

Professor Fortnes, noted authority on world politics, sounded a warning to watch Trotsky and Mexico, where the Russian is now domiciled, in an address before the membership meeting of the chamber of commerce here yesterday.

Civil Service For WPA Is Opposed

Move Seen As Step Toward Making The Agency Permanent

WASHINGTON, Jan. 5 (AP)—Clear-cut opposition developed in congress today to placing the WPA employees under civil service.

Opponents interpreted the move as a trend toward making the WPA a permanent agency, and declared it would give a preferred job-holding status to many administrative employees they consider incompetent.

Proponents replied that it was a step toward eliminating the "politics in relief" for which the WPA has been criticized.

Under an executive order issued last June 24 by President Roosevelt, 35,000 WPA administrative employees will be blanketed into the civil service February 1.

"It's a marvelous perversion of the ordinary American process," commented Senator Vandenberg "ordinarily, the result of such an indictment as was filed by the Sheppard committee against the WPA would mean the wholesale evacuation of the 'gangsters.' Instead, they are to be rewarded by life tenure in their rocking chairs."

Vandenberg referred to a report of the senate campaign expenditures committee which criticized instances of political activity by WPA officials and exertion of political influence on some WPA workers.

QUASHING OF CHARGE AGAINST R. ALFRED TO BE APPEALED

HOUSTON, Jan. 5 (AP)—An appeal of Federal Judge T. M. Kennerly's decision to quash an indictment against Renne Alfred, Jr., brother of Gov. James V. Alfred, and Neal Powers will be taken to the United States supreme court, special assistant attorneys general said here today.

Henry A. Schweinhaut and Walter E. Gallagher who came here to prosecute the indictment charging Alfred and Powers, former Texas assistant attorney general, with conspiracy to violate the Connally hot oil act, said they would take this appeal to the higher court on a special act which allows the government to appeal decisions that involve validity of an act of congress.

H. E. Hines, Texas oil man also named in the indictment, was not mentioned in the court's order entered yesterday. Hines is a fugitive, the federal marshal said.

After him came four more who were not natives—Charles A. Culberson, an Alabamian; Joseph D. Sayers, a Mississippian; S. W. T. Lanham, a South Carolinian, and O. B. Colquitt, a Georgian, who served two terms until 1915.

Only two signers of the Texas Declaration of Independence from Mexico were born on the soil that later became Texas—Francisco Ruiz and Jose A. Navarro of San Antonio, then a part of Mexico.

Alleged Fraud In Texas Oil Industry Being Investigated

DALLAS, Jan. 5 (AP)—Forrest Tancer, attorney for the Securities and Exchange commission, left work here today the SEC was investigating "a great deal of fraud" in operations of the Texas oil industry.

Unnamed operators, he said, were running hot oil and filing false reports on holdings and production.

Tancer, who was here yesterday at a hearing by the SEC at which the G. W. A. Oil company of Texas agreed to sell no more stock until it has filed a new registration statement and has the statement approved, declared the Texas investigation was part of a nationwide attack by the SEC.

Tancer left upon conclusion of the hearing here for San Francisco where he is to take part in some hearings for California oil companies.

He pointed out that he was not speaking about the hearing for the General American Oil company, which he said was held to determine whether the registration statement and prospectus of the company was complete.

Policemen And Firemen Are Honored

40 Attend Appreciation Dinner At The Fire Station

Big Spring firemen and policemen were honored by an appreciation banquet at the city hall fire station Wednesday evening, at which there were over 40 in attendance, including city officials and invited guests. The affair, presided by E. D. Merrill and assisted by many individuals and business concerns of the city, was given as a goodwill gesture for the municipal employees.

Chief Wiley presided as master of ceremonies. The West Texans, composed of Miss Ruby Bell, Mrs. R. E. Blount, Mrs. Willard Read, rendered two musical numbers. E. B. Bethell, who spoke briefly, also rendered two vocal solos, accompanied by Miss Helen Duley.

City Manager Spence made the principal talk, followed by Fire Marshal Bethell, who, on behalf of the municipal employees, expressed thanks to the public spirited citizens who made the banquet possible. Special thanks went to Merrill for his leadership in the affair. The banquet was broadcast over KBST from 6:45 to 7:15 p. m.

Merrill announced Thursday that some \$8 remained after expenses of the dinner were paid, and that this sum would go into the treasury of the Volunteer Firemen's organization.

READING AND WRITING

"WHY HITLER CAME INTO POWER," by Theodore Abel (Prentice-Hall: \$2.75).

The many who have distrusted the gib and whirling pronouncements of John Strachey can do no better than go through Theodore Abel's "Why Hitler came into Power."

They will find that Strachey's hand-me-down reasoning (if such it can be called) has very little more weight than has the equally facile writing of the psychoanalytical school on the German question.

Strachey insists that Hitler and Hitlerism is the result of a capitalist plot to save capitalism—putting it briefly, perhaps too briefly. Professor Abel claims this is not true. The psychoanalytical school, reasoning back from the fact accomplished, explains Hitler with equal positiveness and equal lack of logic.

Professor Abel had an intelligent idea five years ago. When the redoubtable Adolf took over, Abel tried to get someone to put up money for a thorough inquiry into the reasons for his success. But our great foundations and so forth couldn't see it, preferring to spend money encouraging second rate poets and such. So Abel took over himself.

He went to Germany, posted a prize of 400 marks at Nazi headquarters, and asked for biographies by Hitler followers telling why they were following. Even with the prize so low, Abel got 683 manuscripts, from every sort and class of Nazi. As many have suspected from the first, the obvious reasons for Hitler's success are the true ones.

That is to say, Abel's inquiry indicates that Hitler came as the answer to the people's prayer. The people, defeated in war, robbed at Versailles, impoverished by the inflation period, hamstrung in the matter of securing raw materials in the later 1920's, looked above themselves and found a government which did little or nothing, which had no answers.

It was not quite so simple as the foregoing, of course, but that's the main course of events. Abel does not say that the capitalists have not used Hitler since his accession, or that all the conclusions of the psychoanalysts are wrong. He only says what actual research on the home grounds has taught him.

Oil Men Keep Eyes On The Law Makers

Regulatory, Tax Laws Bring Industry New Worries

AUSTIN, Jan. 5 (AP)—The nation's oil men have an additional worry this month—what the new congress and state legislative bodies may do to them in the way of more regulations or taxes.

In Texas, which produces nearly 40 per cent of the nation's petroleum, the legislature convening next Tuesday will be faced with requests for tax levies to raise many more millions for old age pensions, education and aid to the state's unfortunates.

The oil industry often has been the target of Texas revenue-raisers and another controversy is certain over increasing the production tax from its present 2 3/4 cents a barrel or 2 3/4 per cent of value which ever is larger. Retiring Gov. James V. Alfred was unable to boost the levy even slightly, however, during his last term.

A question which most oil leaders are asking is whether the new Illinois legislature will act to halt the production increase in that state. Illinois output has been gaining rapidly in recent months and promises to pass that of Kansas in the very near future. Texas, Oklahoma, Kansas and New Mexico are chafing under the rigid restrictions they are forced to impose on their producers because of a lack of market outlet.

With congress again in session, talk of federal oil control has been revived. Texas officials strongly oppose such control, holding that the Interstate Oil Compact, particularly if California and Louisiana, can be induced to join, is sufficient to handle the situation.

The Interstate Compact commission must have the sanction of the new congress in order to continue functioning after next September 1. Legislatures of the compacting

Farmers Start New Year With Prices Up 23 Pct. From Last Year's Low

CHICAGO, Jan. 5 (AP)—Farmers start 1939 with prices of important commodities averaging 23 per cent higher than they were at the bottom of the 1938 slump, an analysis of Chicago markets showed today.

Prices have risen the past few months despite substantial surpluses of most grains, increasing supplies of some livestock and heavy storage stocks of butter.

This circumstance, market experts said, added weight to government forecasts that farm income would improve. Income was estimated to have dropped about 12 per cent in 1938 from the 1937 total, which was the best since 1926. However, the bureau of agricultural economics forecast 1939 income, including funds from non-farm sources and benefit payments, would be larger than last year.

Comparison of prices quoted on various commodity markets here with the low points reached by these products during 1938 showed grains have increased in value from 14 to 30 per cent. Quotations for choice and prime steers have risen 40 per cent, hogs 5 per cent and eggs 50 per cent.

Most important farm items except cattle, however, are priced lower than a year ago when commodity values were on the downward swing from the recovery peaks reached in 1937. Losses compared with a year ago ranged from 3 to 33 per cent. Compared with the low levels farm prices reached in 1932-33, however, current quotations were more than double, in most cases.

Higher prices received for grain, fruit, truck crops and dairy products have accounted for part of the recent rise in the general level of commodity values.

LOCAL MAN INJURED IN AUTO COLLISION

Dewey Woods was injured and members of his family shaken in a car collision on South Scurry street Wednesday evening.

A man was being questioned by officers in connection with the mishap. Mrs. Woods was driving at the time of the crash and told officers that another car veered across the street and collided with the Woods machine.
