Mrs. Maude Long Is Given New Trial On Poison Charge

By United Press.

AUSTIN, March 30.—The court of criminal appeals today reversed its former decision and ordered a new trial for Mrs. Maude Long, given a 25-year sentence in Kleberg county on conviction in the poison slaying of her husband, Jim Long, in September, 1929. Special stress was laid on the trial court having permitted the sheriff to testify to Mrs. Long's reputation when it was not shown that he was acquainted with her reputation for peaceableness.

SPEAKING OF THE HUNGRY MAWS OF WAR AND WASTE"

An economic program for the development of the resources of Texas is on the way. It will be worked out by the business planning leaders of the conference held under the auspices of Texas university and state and federal research agencies, very successfully engineered by Dr. A. B. Cox of the university faculty. All the sessions were very interesting, very informative, very inspirational, and a credit to the research workers of the commonwealth.

President H. Y. Benedict made a vigorous attack on war and waste. He held the two big items in public expenditures and the causes of perhaps half of the total of all taxes. Those who read and think should enjoy his comparisons. Those who fail to read and think, or who read and refuse to think, should be made to sit up and think.

For instance, President Benedict said Waste we have, both public and private, both obvious and insidious, and all the world is groaning under the cost of war. A battleship which lives about 15 or 20 years costs more than an average good state university, and paying for past wars plus preparing against the next war costs more than all the schools, upper and lower, public and private

In bygone years a Texas governor declared that the people of Texas had "gone hog wild" on the subject of education. President Benedict is of the opinion that the people have gone hog wild in more ways than one, in more fields than one, on more subjects than one. He asked and

answered his own questionnaire when he said: "How much of the income should one generation spend on schools mainly for the future and how much on other things mainly for the present? Is the one per cent of all our wealth which we are now spending annually on all our schools \$3,200,000,000 too much? Is the four per cent of the annual income which we are now spending for all our schools too much? CALVIN AND A CAUSTIC CRITIC

Former Representative Frank Baldwin is the editorial director of the Waco News-Tribune and the Times-Herald of that city. He read the Calvin Coolidge article on "how to get out of the ditch." This former president had written "the only relief from high taxes is a reduction of public expenditures." Editor Baldwin's comment was tart, to say the least. He declared that Calvin had been kept in public office by taxpayers from early manhood until he retired from the presidential chair. And-there was no place in the Coolidge record where the Texas writer was able to find evidence of a Coolidge advocacy of lower taxes or sweeping cuts in expenditures while he held public place at the cribs provided by the American taxpavers. Now in private life the former president is a newspaper and magazine contributor and takes down a dollar a line for the output of his literary workshop. Dismissing the distinguished put of his literary workshop. Dismissing the distinguished the most impudent prisoner of the son of New England as well as the versatile newspaper war is being sought by Orts-Kom? writer of Texas, the reader is directed to the remarks of the president of Texas university as well as the high cost of "other things" in this merry old world of ours.

Interscholastic League Has Over 6,000 Public Schools On Roster

By ROY BEDICHEK, Chief, Interscholastic League Bureau, University of Texas.

AUSTIN .- The university interscholastic league is an association of 6,000 Texas public schools which chooses to repose in a bureau of the University of Texas extension division certain judicial and administrative responsibilities. This work was begun 20 years ago as a result of a suggestion made by John A. Lomax to the late Dr. Mezes, then president of the university. It seems that Mr. Lomax returned from a visit to interest of the seems of th

He communicated his enthusiasm to Dr. Mezes, and Dr. Mezes transmitted his to Dr. E. Dr. Mezes transmitted his to Dr. E. Dr Shurter, then professor of public speaking in the university. Nat-urally, Professor Shurter thought first of public speaking contests and organized at the State Teachers association, meeting that year (1910) in Abilene what amounted to a debating league among 28 affiliated high schools. About the same time Dr. C. W. Ramsdell or same time by and field meet for ganized a track and field meet for high schools, an invitation affair, along the usual lines. The public speaking league and the track meet were merged into one organ-ication in 1912 with its adminisization in 1912, with its adminis-trative head in a division of what was then called the extension de-
