OUR CARS PULLED FROM LEON LAKE

AUTOS FOUND UNDER WATER BY JOHN FEHL

Two Had Been Stripped But Two In Good Condition.

Four automobiles, two of them in perfect condition and two stripped, have been found under nearly 60 feet of water in Leon lake, near Olden, within a mile of the Texas Electric Service company power plant, it was learned Saturday.

The cars were discovered by John Fehl of Eastland, who helped to recover the cars from the water. One truck has been located but has not as yet been removed from the water.

Two of the cars have been identified as cars reported stolen, one in Cisco and the other in Eastland. A 1931 model Pontiac belonging to Francis Jones of Eastland was one of the machines pulled out of the lake. It was stolen three weeks ago and there was evidence that the car had been driven quite a distance on the rim. One tire was still missing from the wheel that had been running on the rim, but the other tires were still on the car.

A 1931 model Chevrolet sedan, stolen from Judge F. D. Wright of Cisco, was also removed from the lake. It had been driven about 14,000 miles. Five more tires were still on the car and all the tires were fully inflated and had plenty of air in them. There was no evidence that the car had been damaged in any way before it was driven into the lake.

Two Ford coupes were also found. They had been pretty thoroughly stripped and no identification of the cars had been made Saturday.

No attempt has been made, as yet, to pull the truck from the lake, though it will be removed soon, it was learned. The truck and the car were found by John Fehl, who reported his find and showed where they could be located under the water.

The race had a net value to the winner of \$50,375, a capacity crowd of 40,000 watching the struggle.

Clint Small Will Support Sterling

ABILENE, May 14.—When informed that Governor Ross Sterling had announced for re-election, State Senator Clint C. Small of Wellington, said here he planned to support Sterling during the coming campaign and predicted Sterling would win.

Small said he never was really interested in the race himself, this year, but was insistent on Sterling's announcement because he believed the Ferguson's (James E. and Miriam A.) should have active opposition now.

He said he believed Sterling's delay in announcing was "muzzling and disappointing" to the people, but believed, also, that Sterling is entitled to the traditional second term.

Sailor Clings to Akron Cable as Mates Fall 200 Feet to Death

Charles (Bud) Cowart, navy young sailor from Sand Springs, Okla., clung to a cable until he was drawn aboard the Navy dirigible Akron at Camp Kearney, near San Diego, Calif., after being swept aloft in a sudden plunge of the ship just as it was nearing the mooring mast. Nigel M. Hinton, Fresno, Calif., and Robert Edsall, Elkhart, Ind., who also swung aloft on the cable, fell 200 feet to death. E. G. Walkup, another sailor, dropped a short distance and escaped with a broken arm. Picture shows dirigible with Cowart and Edsall clinging to cable just before Edsall let go. Hinton, already had fallen. In set is closeup of nose of dirigible showing bow gangway and sketched figures illustrating the way Cowart was taken aboard the ship.

'BEER FOR TAXATION' PARADES ARE HELD IN NEW YORK, DETROIT

NEW YORK, May 14.—Thousands of New Yorkers today demanded legalized beer as a means of taxation when Mayor James J. Walker stepped out in front of his big beer parade on Fifth Avenue.

A bright, warm sun beat down as the first of the marchers gathered and started down Fifth Avenue in their demand for "beer for taxation." Bands played "How Dry I Am," and there were shouts from the sidelines and from the marchers.

Baylus Hicks, Ranger youth now serving in the Navy, has written a letter to his father, F. D. Hicks, manager of the Ranger Times, in which he tells of his part in the landing of the dirigible Akron.

Young Hicks, along with some 200 other men, went to the airport. When they got into the dirigible, in which he tells of his part in the landing of the dirigible Akron.

"We were all under it holding ropes and all of a sudden the main cable broke and the dirigible shot like a comet to the ground. I was loose except four men, who were tangled in the ropes. One turned loose when about 40 feet in the air and fell and broke his arm and shoulder. That left three hanging on the ropes. Another fell at about 250 feet in the air. When he hit all of his bones were crushed. Another fell when the dirigible was about 300 feet in the air and he was killed.

"The remaining man hung on for one hour and 35 minutes and was finally hauled into the dirigible. When they got him up into the ship he collapsed. Just one strand of rope was holding him when they pulled him in."

Hicks enlisted in the Navy in Abilene and was sent to the west coast to the training station, where he is now stationed.

WILBUR HAWK IS PRESIDENT OF W. T. C. C.

SWEETWATER, May 14.—Wilbur C. Hawks (general manager of the Amarillo News-Globe, today was elected president of the West Texas Chamber of Commerce.

The vote was by acclamation at the directors' breakfast.

Hawk, widely known in Southwest newspaper circles, succeeds a fellow publisher, Houston Hart, who has presided at this year's annual meeting.

Spencer Wells of Lubbock, was elected first vice president and Walter D. Cline of Wichita Falls, second vice president.

A. J. Swenson, Stamford, was re-elected treasurer and D. A. Bannend, manager, was re-elected to office.

Delegates in closing session today adopted three resolutions which called for revision of state and local governments, which were described as the means for saving at least \$2,000,000 annually.

The first, a resolution calling for reorganization of state departments, was described as being possible by consolidation and elimination of offices.

Another \$500,000 could be saved by reorganization of the Texas judiciary system, a resolution said. The third called for favoring immediate enactment of "any home bills" to permit consolidation of city and county government and the consolidation of two or more counties. It was described as an economy measure.

The principal address was delivered today by President H. G. James of the University of South Dakota, a former professor of government at the University of Texas.

The South Dakota educator made a plea for efficiency and economy in government as a means of saving democracy.

Houder Harte presided at the morning session, which will adjourn at noon, after selecting Big Spring for the next meeting place.

State Patrolmen To Spend Week Checking Lights

State Highway Patrolmen Myers and Daniels visited the Times office Saturday afternoon and asked this paper to announce through its columns that these officers will be working in Ranger during the evenings next week.

Many complaints have reached them recently with reference to cars operating with only one headlight or without tail light and the officers will direct their efforts this week toward enforcing the headlight provision of the highway law.

"It assists us greatly for the paper to issue a warning in these matters. Not only does it make it easier on us, but it makes it easier on those who are operating their cars with improper lights and don't realize it," said the patrolmen.

Planes Aiding In Kidnaping Search

By BATES RAINEY, United Press Staff Correspondent. HOPEWELL, N. J., May 14.—Seventy-five coast guard vessels swept the north Atlantic coastal waters today in an intensive search for a vessel on which the Lindbergh extortions, possibly the actual kidnapers and murderers of Charles A. Lindbergh Jr., are believed to be hiding.

Supplementing this force a fleet of three amphibian planes and 13 cutters attached to coast guard base No. 9 at Cape May, N. J., were engaged in the manhunt.

The planes favored by excellent flying weather covered an area of several hundred miles and at one time were reported to be 200 miles out at sea.

THIEVES STEAL A TRUCK LOAD OF GROCERIES

Thieves stole a truck belonging to the Waples-Platter Grocery company Friday night, drove it 76 miles, unloaded the groceries that were stored in the truck and then left it at the city dump grounds, where it was found Saturday morning.

As has been the custom, the truck was loaded with groceries to be delivered to dealers early the next morning and was placed in the garage. The thieves removed a section of the wall, entered the garage and drove the truck out.

A check-up Saturday showed that the following articles had been stolen: One case lamp chimneys, one case rolled oats, four cases bran flakes, one case two-quart bottles vinegar, four boxes Hershey bars, one case canned tomatoes, two cartons Prince Albert tobacco, one carton Beechnut tobacco, one case Concho vase vinegar, one case oatmeal, one case Karo syrup, one case gelatine, one case lye, one case tea, one tire, 32x6, one model AA Ford wheel, and some car tools.

The groceries stolen from the truck were valued by the company at \$53.09.

Judge Explains Transfers to Other District Courts

To the Citizens of Eastland County: For the past few years Judge Been of the 88th District Court and I have been called to the various parts of the state to assist other courts with congested dockets, and have devoted considerable time to this work.

My attention has been called to the fact that some are laboring under the impression that counties where this work has been done have received the benefit of our services at the expense of Eastland county. In this connection I desire to make a full explanation.

In 1927, by an act of the legislature, the district judges of the State were authorized to organize into Administrative Judicial Districts. This was done the same year and the State divided into nine (9) Administrative Judicial Districts, the courts of Eastland county having been placed in the Eighth (8th) district.

In keeping with the provisions of the above law the governor appointed a judge from each of the nine (9) respective Administrative Districts as presiding judges, who have supervision over their districts and are clothed with authority to transfer any judge within his district to any part of the State where his services are needed, such a judge when transferred being clothed with the same authority as if presiding in his own district, receiving no compensation therefor except his salary which is paid by the State. However, the law provides that his actual expenses shall be paid by the court (outside of his own district) receiving his services.

Under this law the whole procedure for the exchange of judges and for their transfer from one district to another has been simplified and made more practical, so that now, when the dockets of any particular district becomes congested prompt relief may be obtained, and in this way avoiding the necessity of creating new courts. This law, so far as I am advised, has met with universal approval from the bench and bar.

To this relief work the judges of the Eastland county courts have contributed as much of their time as their own dockets would permit, and will be expected to continue so long as present conditions exist.

There has been some agitation of late as you know to abolish some of the courts, and at the last session of the legislature an effort was made to restrict the entire State with the contention on the part of some that by doing so, the number of courts might be reduced. This may be possible and I feel at the next session of the legislature such action will be taken as the facts then justify.

Our own court dockets are still heavy with a large number of cases to be tried, but on account of depressed conditions, many of the litigants are unable financially at this time to have their cases tried, and personally I doubt if it would be fair to such litigants, many of whom reside in our county, to arbitrarily dismiss their suits.

GEO. L. DAVENPORT, Judge of the Ninety-first District Court.

GRIPINGS

This column is published as a daily feature and may not be construed as representing the editorial views of this paper. What follows is merely what one man thought at the time it was written, and the writer reserves the right to change his mind concerning any subject, without notice, explanation or apology.

The writing of a column today is a pleasure I assure you. My hand wanders from pink tissue paper to broken shoe-strings and I don't seem to be able to find much interest. It's time like this that distinguishes a genius from a ham and egger. If I were Bobby Campbell I could sit here and compose some sort of a linguistic sonata on my imagination... but it seems that thoughts will not press themselves.

Roy Gilbreath is nursing a bad case of sunburn. He returned from the West Texas Chamber of Commerce by way of some fishing near or lake and fished quite a well. When I tried to get a story from him about the convention he succeeded with a bunch of fish stories.

Bill Paschall was fixing to write a letter the other day telling about what a whale of a fisherman he was and about the 21 fish he caught. Before he got the letter written he received one from him showing the gentleman holding a string of fish 22 inches long. Bill figured he should have written his letter first, but rather than tell a lie to catch more than 22 fish with the result that he didn't even catch a fish.

Jimmy Matthews was up on the sidewalk this morning telling about the big fish that got away. He was whole town talking about fishing and haven't wet a hook in more than 10 years.

Henry Nottingham is mad at me because I never put his name in his column. The reason I don't is because I never tell him my name. I run his restaurant and I figure he oughtn't to tell me how to run his column. I may not run as good a column as he does a restaurant, but... what of it? Henry and I got into a squabble a few years ago over my trying to tell him what to charge for his food. He won the argument by reason of the fact that the food belonged to him instead of me. But seeing is how I believe it will get him in a good humor and make him put a little extra gravy on my plate. I mention his name, I'll just do it. And have done it.

And now that the hour is becoming late and anything I might put in here would be less worth reading than what I've already put in, if possible, I'll just turn it over to the boys in the shop and if they can think of anything to add I'm sure they will do it.

Mr. and Mrs. Jackson New With Telegram

Arrangements have been completed whereby Mr. and Mrs. K. Jackson will be connected with The Telegram. Mr. Jackson will have charge of the circulation department as well as cover the news uptown and at the courthouse.

Mrs. Jackson will be society editor and will also write a column under the heading of Here and There.

The Jacksons have been in Eastland for more than 15 years and are probably better acquainted with any couple here. Mrs. Jackson has been one of the leaders in women's club work all the time. Mr. Jackson was with the Prairie Oil and Gas company.

The Telegram will be endeavored to keep in closer touch with Eastland happenings under the arrangements.

THE PRICE OF CARS

Price of cars is dropping. The price of a new car is now about \$1,000 less than it was a year ago. This is due to the fact that the price of steel has fallen and the cost of labor has decreased.

A NAVY THAT WILL SWEEP THE SEAS

A navy "as big as treaties will allow" has been voted by the senate. By 44 to 21 the Hale bill to authorize building up the United States navy to the limit set by the Washington and London conferences was approved and sent to the house. Those who opposed its enactment described the bill as militarism, and "a program of national suicide." If enacted by the house the program it would authorize involves approximately one billion dollars and the president would be authorized to suspend it upon the conclusion of any new disarmament agreement. Senator Hale of Maine put it over. Senator Hale is for peace and preparedness. He would build a navy that would sweep the seven seas, if the sweeping of the seas became necessary for the protection of American interests the world over as well as here at home. Great Britain is not going to disarm. France refuses to disarm without a security pledge. Soviet Russia is watching and waiting, and "Japan and China have signed a treaty pact." Manchuria has been taken over by the Japs. They have the loot tied to their chariot wheels and the loot is the richest of all the provinces is Manchuria. Great Britain has an Indo-Chinese empire. France has an Indo-Chinese empire as well as an African empire. Italy has regal possessions far from the land of the Romans. Little Belgium has its Congo possession, rich in rubber and ivory. "To grab and to hold" has been the slogan of European powers down the ages. Human nature does not seem to change.

CALIFORNIANS DEFEAT OIL CONSERVATION ACT

California is one of the leading petroleum producing states. A referendum proposing control of the state's oil resources by a commission which would regulate production and storage went down under an avalanche of opposing votes May 3. As far as counted 823,295 ballots were cast against the so-called Sharkey act and 236,190 in favor of it. Gov. Ross S. Sterling on the eve of the election wired Gov. James Rolph of California that the Sharkey proposal if adopted would be certain to stabilize the petroleum industry in the commonwealth of California. Now what was the argument against it? Why, the independents declared the adoption of the Sharkey act would place the control of the petroleum industry in "the hands of the giants and forever obliterate the little fellows." A referendum measure to prohibit the leasing of state owned lands for oil and mineral developments won out by a safe majority. Conservation of oil resources and state regulation was given a very black eye in the silver strand state by the voters while Speaker John Garner was rolling up his plurality for the delegate prize.

RAIL HOLDING FIRMS TO BE CONTROLLED

And now the senate interstate commerce committee has given its approval to legislation to place railroad holding companies under the interstate commerce commission. Moreover the bill would permit the interstate commerce commission to supervise the operations and issuance of securities by railroad holding companies. It would prevent the further acquisition of stock by holding companies in a railroad if the commission found acquisition might interfere with its own consolidation plan. Rep. Sam Rayburn of Texas is chairman of the house interstate commerce committee. He is committed to legislation along the lines given the approval of the senate committee. Are the American rails headed in the direction of government control and in the last analysis government operation? If it ever happens the people, the taxpayers of America, will have a fancy bill of cost to settle every year. Bus and freighter competition on the highways of America are taking the cream of the traffic from the steam rails as well as the electric lines.

ERLANGER AND HIS MILLIONS

Abraham Erlanger more than 40 years was one among the great theatrical producers of America. He was reputed worth \$100,000,000. Death called him and an actress claimed to be his common law wife. She battled for her rights in the courts of the Empire state of the East. She claimed her share of his millions. After years of litigation the executor filed in the surrogate court a report. Now what did the report show? The \$100,000,000 Erlanger estate had a cash value of \$124,200. Erlanger died 10 years ago. Now if his common law wife wins her suit her interest will be \$41,400. There are many estates the country over which had high values in the not remote past that are as valueless today as the stock in a mining company that was exploited and exploded 50 years ago. "Sock it to the rich" legislation will not pinch the pockets of many American Erlangers in the year of our Lord 1932.

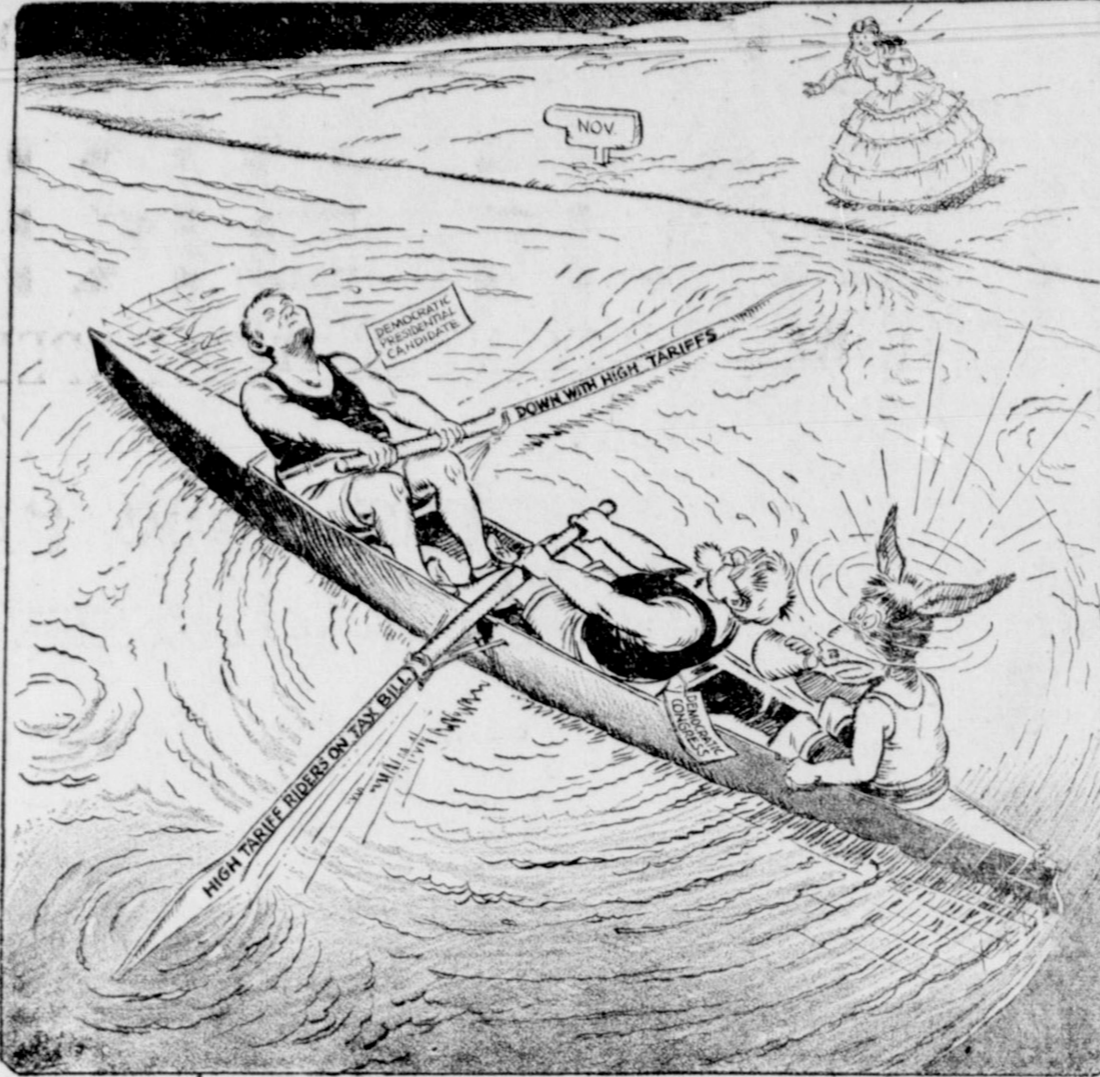

ADVISE SLASHING SALARIES OF TEACHERS

Texas has a state board of education. This board of education, in session in the city of Dallas, voted to reduce the salaries of approximately 11,500 teachers of rural and small schools \$5 to \$10 monthly. It is said the cut affected 3991 schools. Furthermore the board announced that trustees in making contracts with teachers shall determine salaries to be paid, but the maximum salary which may be paid out of state and county funds receiving rural aid will be in accordance with a fixed schedule. A reminder that slashing of salaries is on the way in cities and towns and rural districts. Income of the farmer has been given a terrific dressing down and wage workers, including the white collar men, have been accepting salary reduction for months. This republic is getting down to bedrock. It is for the people now on earth to face the issue and do the best they can.

ROUND ROCK ALONE IN THE PICTURE

This is an interesting news feature that is going the rounds of the Texas press: The Round Rock visitor to Banker Tom Nelson usually is asked, 'How many cities in Texas can you name that have no vacant store buildings?' 'None,' is the usual response. 'You're in one now,' Banker Nelson answers triumphantly. Why not some research work? New Braunfels is a Texas city. Why not permit a New Braunfels banker to return a verdict? Thus far Round Rock is sitting on top of the little world. "No vacant buildings" is a record.

Dallas Good Will Trippers Stop for Visit In Ranger

Approximately 150 members of the thirtieth annual good will tour of the Dallas Chamber of Commerce, visited for 30 minutes in Ranger Saturday afternoon. A delegation of Ranger men met the special when it arrived at the station and marched with the good will trippers into the heart of the business section. Headed by a band, the trippers marched up Main street to Marston and back to Austin, where a short concert and several short talks were given. H. C. Anderson, representing the Ranger Chamber of Commerce, welcomed the men to Ranger and expressed appreciation of the visit and said that he hoped it could be returned by every citizen of Ranger in the near future. After the concert and speeches the delegation left for Strawn, the next stop on their tour. They left Dallas Wednesday and were to return Saturday night. While on the trip they stopped off for one night at the West Texas Chamber of Commerce convention at Sweetwater.

Eastland Juniors Give Banquet For Senior Class

Friday night the roof garden of the Connelley hotel, Eastland, echoed with the merry voices of 140 young people on the occasion of the banquet tendered by the juniors to the seniors of Eastland high, from 7:30 to 9:30 p. m.

Gay balloons bobbed over the banquet tables and hung in clusters from the electrolights. Latticed panels placed between window embrasures, formed a background for flowers and ferns, with floor baskets filled with larkspur, roses and poppies, masking corners of the ballroom, separated from the entrance by a latticed partition covered with trailing roses.

The carnival idea was carried out in all details, and serpentine papers, paper hats and confetti made a veritable mardi gras.

The 500 balloons in varying shades, purple, silver and pink, combining the two class colors, formed a shifting scene of beauty.

Entertainers during courses were from the sophomore class, and the four boys and six girls, gave a snappy series of skits with songs and dances.

Toastmaster, president of the junior class, Jack Grubbs, had opening address responded to by Happy Hightower, president of the senior class.

Introductions were made of the representative guests, Mr. and Mrs. K. B. Tanner of the school board; Mrs. J. M. Perkins, president of High School Parent-Teacher association; the ex-student representative, George Brogdon Jr., and members of the faculty.

Sophomore representative, Randolph Bailey, was followed by freshman representative, Miss Ray Denison.

Plate favors were charming Dresden doll girls for the boys and boy dolls for the girls.

The delightful menu was of fruit cocktail, Virginia baked ham with string beans, waffled potatoes, with third course of salad and coffee, and last course of crushed strawberry ice cream.

Sponsors of the banquet were Miss Verne Johnson, assisted by co-sponsor, George Taylor. Committee on arrangements, personnel, J. Grubbs, Lee Taylor, S. J. Arthur, Ed Pritchard, Conrad Reeves, Corinne Harris, Barbara Ann Arnold, Florence Perkins.

THIS CURIOUS WORLD

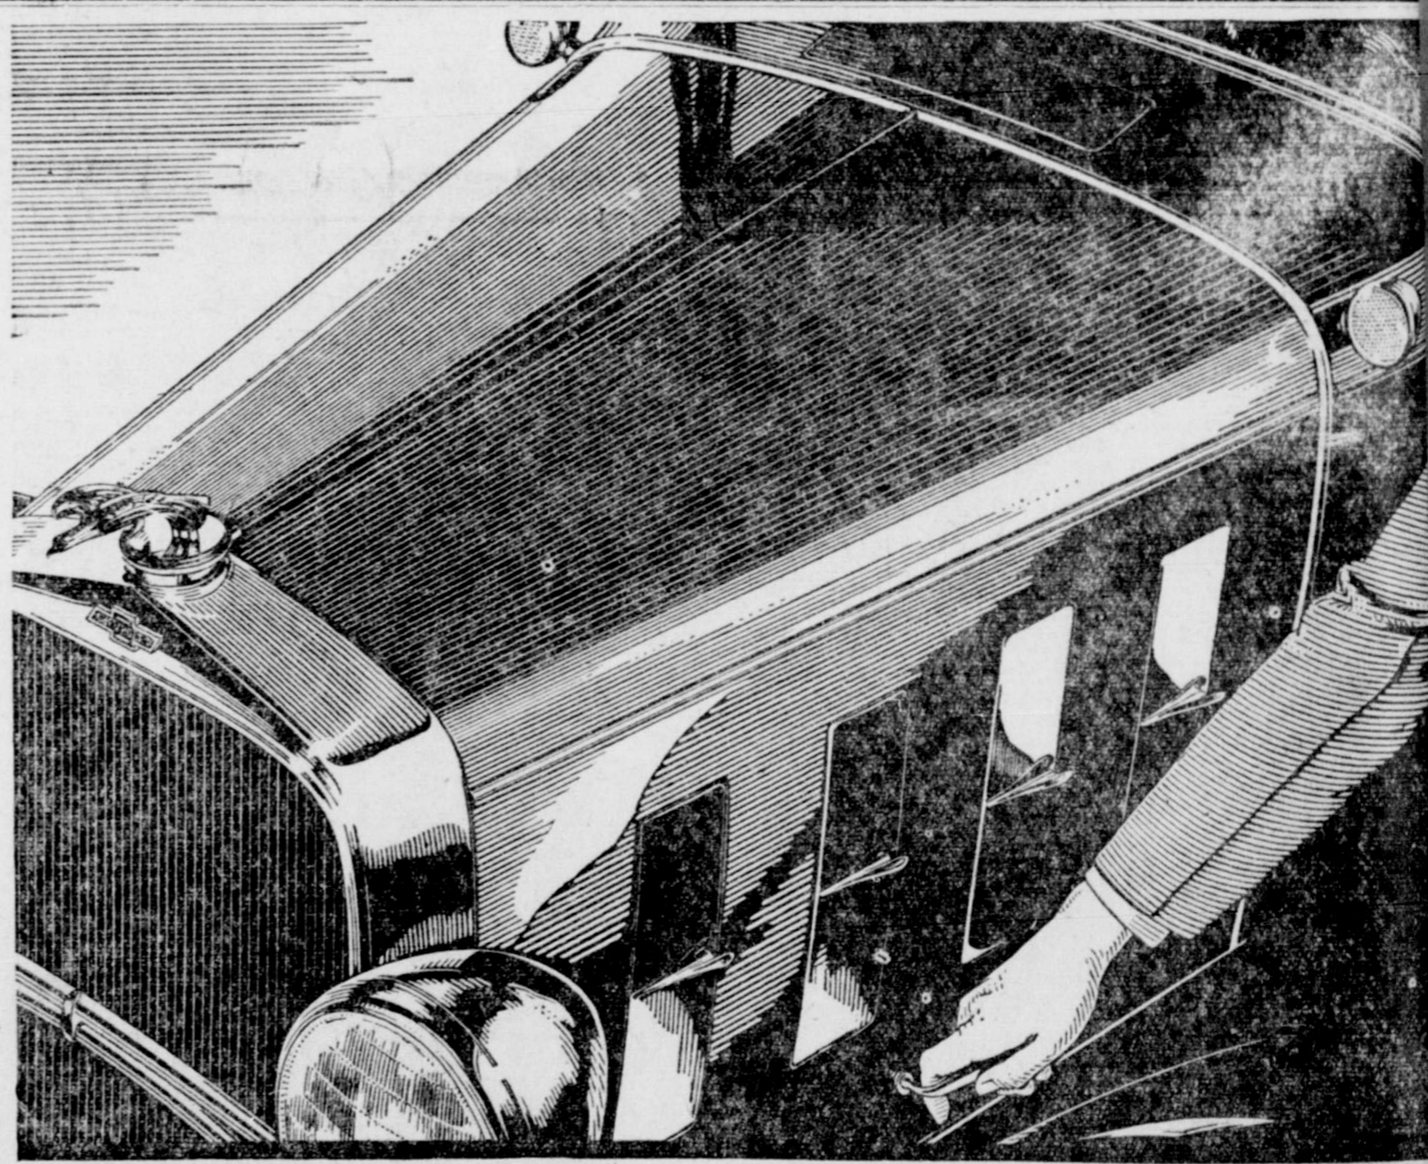

FOR YEARS NATURALISTS BELIEVED THIS SHELL-FISH USED ITS FLAT ARMS AS SAILS. MODERN SCIENCE DISCOVERS THEY MERELY HELD THE DETACHABLE SHELL OFF.

IT IS AGAINST THE LAW TO DRIVE OVER A WOODEN BRIDGE AT A SPEED OF MORE THAN FOUR MILES PER HOUR. THE PAPER-NAUTILUS, or Argonaut, was an inspiring tale to poets, who wrote many poems about this graceful animal being over the waves under full sail. But modern science describes it as a home, and only floats on the surface when ill. Its two flattened arms are used to keep the detachable shell from being off.

MANY OUT-OF-DATE LAWS, passed in the early days, remain on the statute books of the various states. In Nebraska it is unlawful to picnic on the same spot twice within 30 days, or not within three miles of that place.

NEXT: What peculiar condition exists around the planet Mars? Agnes Odum, and Margaret Belle Wynne. Mothers chaperoning and entertaining the banqueters at the party following the feast were Mesdames L. A. Hightower, R. L. Perkins, J. Leroy Arnold, A. J. Campbell, Grady Pipkin, Frank Lovett, Will Wood, Henry Ferrell, Dan Childers, J. F. Little, E. S. P. and Mrs. J. M. Perkins, and the vocational games, the ment feature of the event, assisted by Miss Ruth Rammer. The Hunt orchestra from her played at intervals during the banquet and throughout the night.

Miss Dixon Present Pupils Of Piano in Pretty Recital.

In a setting of bright color and artistically arranged to display a stage of spring splendor, Miss Elyva Dixon, daughter of Mr. and Mrs. Ed Dixon, presented her piano students in a recital given at the Young school auditorium Friday evening at 8 o'clock.

Miss Dixon has proven her efficiency as an instructor of piano prior to this successful season of training. Miss Dixon is a former student of C. I. A. and has taught here for several terms.

Aiding to a pleasant degree of entertainment were those of extra numbers composing the program.

Gaston Dixon and little Miss Dolores Imogene, sister and brother of the teacher, were well received when they gave vocal numbers accompanied at the piano by Miss Dixon, as were others among whom were the Melody Maids, Dorothy Marie Henry and Sue Yonker, young but decidedly talented tap dancers. The harmonica band was exceptionally good in their feature number.

Mrs. J. Pearson's room of small students entertained with a choral club number given under the direction of little Billie Gorman.

The program was attended by parents and a host of friends.

Going Vacationing This Summer? Yes, to Monterey. Yes, that's just what the contestants are thinking who have entered this Monterey Vacation Trip contest.

A group of very much alive and enthusiastic young ladies have entered this contest and each merchant co-operating are more than delighted with the manner in which they are working.

Each contestant is a popular and well known lady anticipating the free trip someone is going to get this summer. In talking with the group of wide-awake young ladies each express personal pleasure thus far and each have manifested splendid interest with the true appreciation of such a rare offer to acquire new friends and again renew acquaintances each day.

True sportsmanship is noted that quality by which we are so often judged. SOMEONE IS GOING TO WIN THE MONTEREY TRIP AND SOMEONE IS GOING TO BE INVITED AS A COMPANION. How many of you are giving your votes received from the merchants for your contestant who sincerely appreciates your support?

Mrs. E. D. Townsend Sr., who spent three weeks in the Baylor hospital recovering from a serious operation, has been steadily improving the two weeks of her convalescence, and is now able to enjoy the visits of her friends.

FRIENDS:
Eastland is interested in the welfare of those who become associated with the paper starting with today's issue. We have in our midst some 15 years, have proven our interest in the welfare of our foster home. You may be interested in the life and success of our undertaking, and we are glad to give you all the news, whether of a business, social, civic, personal, or character. We pledge our undivided attention to you, your family, and the interests of this paper.

BEGIN HERE TODAY
SUSAN CAREY, 20 and beautiful, has become engaged to EDWARD HEATH, 45, her former employer. She has done so partly to provide for the future of her aunt who is ill and partly because she despairs of ever winning a husband who will love her as she loves him.

colored satin breeches and waistcoat of the same color with lace frills at his wrists and buckled shoes on his feet awaited her. He, too, was masked.
"Come along. We're late," the girl said petulantly. The well-modulated tips of the young courtier curved in what seemed to be ill humor.

THE tempo of the music quickened and the girl's heart beats with it. "This was magic--dancing like this. Her partner was a complete stranger, someone she would never see again probably. She gave herself up to the enjoyment of the moment."

W. K. (Elvie H.) JACKSON
Sincerely yours,
W. K. (Elvie H.) JACKSON

Denise sat before her taffeta-skirted dressing table, intent on the arduous business of making up. Her costume for the George Washington ball foamed over a chair and her powdered wig lay on the brocade bed spread.

"Everything's poisonous," muttered her escort, slamming the door.
"Thank you very much," she eyed him suspiciously.

Ed Simmons of San Saba has been the recent guest for several days of Dr. and Mrs. E. Roy Townsend.
Eastland welcomes the newcomers, Mr. and Mrs. David Carter, formerly of Midland, Texas. Mr. Carter is associated with the Muirhead Motor company.

Club favors for members and their high score, two pastel emerald guss towels for each, awarded.
dainty tea of frozen fruit sandwiches, cheeses, sandwiches, salted nuts, cake, and iced tea, was served on flower centered tables.

FOR answer the boy reached into the pocket of a constrictor coat slung over the back of the seat. He was an inconspicuous figure at the wheel of the big car, with his powdered wig and trappings of a blood of the late eighteenth century.

"I'm willing to bury the hatchet if you are, Denise went on. "If you like we needn't have a big wedding but just gallop away some place and have a justice marry us. That would be fun."

Miss Elizabeth Perkins, who is spending three months with her grandmother, Mrs. Albert H. Gleason, in Gleasondale, Mass., arrived safely, in company with the parents of Walter Clark, who were returning to Boston after the winter and spring in Eastland with their son's family.

South Ward School
Enjoys Picnic Party
Miss Leora Huggins and Miss Edna Day of the faculty of the South Ward school, assisted by Mrs. J. M. Armstrong, incoming president of the South Ward Parent-Teacher association, entertained their class members, about 100 children, Thursday, at the tourist camp, when each child took some article of food, and a delicious picnic supper resulted.

THE man in the driver's seat threw her an annoyed glance, "I thought you missed that," he muttered.
"Me? I never miss anything," Denise told him airily. "I think I know what's gripping you."

THE cavaller in biscuit-colored satin untied Susan's mask with strong, purposeful fingers. She dared not--indeed, she never even dreamed of opposing him.
"Ah!"
The monosyllable roused her to realization of what was happening. Rich color flooded her pale cheeks. She clasped her hands in a sudden tragic gesture.

Chevrolet Builds 55,432 Cars and Trucks in April

DETROIT, Mich., May 14.—Chevrolet built 55,432 cars and trucks in April. W. S. Knudsen, president and general manager, announced today.

This compares with 28,890 built in March and is the highest month's output so far into 1932, Mr. Knudsen said.

Total production of the new 1932 line of Chevrolet sizes since its introduction last winter is now in excess of 260,000 units, the Chevrolet head announced.

He stated that the April schedule was stepped up several times during the month, as commitments for cars were increased over the original estimates, and that Chevrolet dealers reported the sale at retail of 98.2 per cent more cars during the first 20 days of April than in the corresponding days of March.

Cotton Week to Start On May 16

The coming week has been designated as National Cotton Week by the manufacturers of cotton goods in co-operation with the merchants of the United States.

The purpose of the week is to impress upon the minds of the people the importance of cotton in the general economic scheme and to encourage the use of cotton materials in order to reduce the surplus of cotton in the world and permit a possible increase in price to the cotton farmer this fall.

The above information was given The Times by John Hassen, Ranger merchant, who is pushing the sale of cotton materials during the week.

J. E. Meroney, postmaster of Ranger, announced Saturday that beginning Saturday, May 21, the Ranger postoffice would be closed at noon each Saturday, but that mail dropped in the box would be worked and would be sent out on the first train.

This movement has been made in order to curtail expenses, it was announced.

The postoffice of Ranger has been using a substitute in order to comply with the five and one-half day week law that was passed last year, Mr. Meroney said, but now it was found that the substitute must be discontinued on account of a lack of funds with which to pay for such services.

MELLOWED 80 MILLION YEARS

While the Brontosaurus browsed in OKLAHOMA

Millions of years ago—even before the ancient Brontosaurus lived—Nature formed the Cambro-Ordovician oil pool in Oklahoma. Today this oldest of Mid-continent crudes is piped to the great Sinclair refineries where it is refined, blended, de-waxed, freed of petroleum jelly and made into Sinclair Opaline—a product resulting from 80 million years of filtering and mellowing. Try a crankcaseful of Sinclair Opaline—note how it stands up in the heat of fast driving. Note especially at draining time how little oil has been used up—positive, visible proof of protection for the last mile as well as the first!
