### WE SHOULD ELECT W. B. COLLIE

Honorable Wilbourne B. Collie of Eastland, in the run-off for State Senator from this district, which is composed of 12 West Texas counties, is entitled to the undivided and solid support of every voter in Eastland county and should run well ahead of his opponent, Senator Oliver Cunningham, of Abilene, in the other counties of the district, with the possible exception of Taylor County, where Collie received a splendid vote. Mr. Collie received overwhelming majorities in Eastland County in the first primary, and it is our prediction that he will receive the solid support of the people of his home county in the election August 27th.

Mr. Collie, a native of Eastland County, has a clean record, both in private and public life, and against which nothing could be said. He possesses innate ability, is absolutely honest, energetic and trustworthy. He is a tried and true Democrat, as the people well know, and against whom the charge can not be truthfully made that he ever bolted the ticket. He has never aligned himself with any political organization or clique other than the democratic party, he does not follow the attributes of small bore politicians by advocating measures to arouse the prejudices of men. On matters affecting public welfare he lends an undaunted influence for the right and in the Senate chamber at Austin he could be found with his visor down. This young man inspires confidence and makes friends upon acquaintance, but the district is so large his friends should help him in the other counties of the district. With some assistance he will be elected the next State Senator from this district, and be one in which the people may justly be proud.

### NATHAN ADAMS AND THE HOME LOAN BANK PROJECT

President Hoover appointed a five-man bipartisan board headed by Franklin W. Fort, a New Jersey banker and insurance man, to begin establishing from eight to 12 district home loan banks in various parts of the nation. Nathan Adams of Dallas, a banker widely known the country over, is one of the two democrats named. Each bank will have 11 directors and will be capitalized at a mirimof \$5,000,000. Franklin W. Fort is a lame duck politician of New Jersey. He led the pro republicans in a desperate battle for a seat in the senate but was overwhelmed by a wet republican and snuffed out of the political picture. He is a man of large wealth, his character is of the highest brand and his conservatism is said to be beyond question. He has ever been a thick and thin supporter of the policies of the Hoover administration. It is designated as a bi-partisan board, but is composed of three republicans and two democrats.

Nathan Adams flew from Texas to Washington. He is of the opinion that it will take a month to locate the member banks and possibly longer to select the 11 directors for each bank. Bascom N. Timmons, a widely known Washington correspondent, furnishes the information that "it is not considered likely that either Dallas, Houston and San Antonio would obtain one of the regional banks." Why not Austin? It is the capital seat of the empire of the Southwest. It is the central point of all communication. It is the ideal location for the home loan bank. Housed in the state buildings of the Southwestern empire are departments of state which deal largely with all the functions and purposes outlined for this reconstruction measure enacted by a democratic house, a coalition senate and signed by President Hoover.

### PLACE GOVERNOR MURRAY IN THE PICTURE

National Chairman James A. Farley has let it be known that most of the speech-making would be done by the prominent democratic leaders in their respective states. This is as it should be. Thousands of Texas democrats who are stalwarts are ready to go down the line for the national standard-bearers after the campaign bell has been sounded. Another item of news of importance to the democrats of the Southwest should not be overlooked. Chairman Farley said to the press representatives that so far no money had been solicited and that the only contribution received was \$1600 from Gov. William H. Murray of Oklahoma. Alfalfa William is one of the fighting democrats of the Southwest. He is one of the colorful democrats. He has his party behind him in Oklahoma.

He is for the sane conservation of the natural wealth treasure of the Southwest. He is aggressively opposed to oil and gas waste in the Oklahoma commonwealth. He is one of the democratic governors who stabilized the oil industry and won a top notch place as a real friend of the people by his very courageous acts. Murray did not hesitate to use his national guardsmen. He protected the rights of all. There is another democratic governor in the Southwest, Ross S. Sterling, who took the bit in his teeth, and made it possible for 9-cent oil to go to 90 cents; he curbed the irresponsible; he placed a million dollars a day or \$365,000,000 a year in the pockets of the independents and the revenue fund; he assumed all responsibility, and he should be given the sincere thanks as well as the ballots of all voters who believe in a public official doing the right thing at the right time.

Hypocrisy is one of the curses of modern politics. Ingratitude is another curse that hovers about many voters. After they have been saved, after their pockets and their rights have been protected, they damn the man who flew to the rescue and saved the day for all concerned—just as Sterling saved the day in the richest oil field in the civilized world.

### SPEAKER GARNER ON THE ATLANTIC SEABOARD

Speaker John Nance Garner, without a flourish of trumpets or a local band playing "Hail to the Chief," slipped out of Uvalde and landed on the North Atlantic seaboard. He went there to confer with the New York governor and together they planned for one of the most vigorous campaigns of history. Things are happening these balmy August days. Herbert Hoover has evolved into a state's rights champion of personal liberty. Ye gods! What a flop!

A lot of fellows nowadays seem to be intoxicated with the sound of their own voices and, to make matters worse, most of them never say anything worth saying.

### If This Duelling Idea Spreads!

### PEEPING THRU THE KNOTHOLE with BILL MAYES

Political minded people of this entire section are invited to a rally to be held in Ranger on Monday night, a complete story of which will be found in another column of this paper. All voters are invited to attend regardless of their political affiliations.

The other day Rev. Gid J. Bryan dropped into the office and the question of prohibition came up. He said that the main trouble with prohibition was that an educational campaign was started years ago, and as soon as prohibition became a fact instead of a theory the educational program was dropped, just when it should have been doubled.

And now another columnist expresses this same view in this manner:

"The prohibition question is not and never will be solved by law or politics. No hard and fast law is necessary to control the sale of carboic acid, because so few people want to buy it. Everybody knows how dangerous it is, and the people avoid it. When everybody learns how dangerous liquor is, and avoid it for their own welfare, the bootlegger will go out of business and the prohibition laws will cease to be the major interest in politics. There is the job waiting for the attention of the W. C. T. U. and of every similar organization. They should stick to their subject and pin white ribbons on their converts instead of republican or democratic campaign buttons."

Hon. C. C. McDonald, who is reported to be a very able speaker, is to speak tonight at Eastland in the interest of the candidacy of Mrs. Miriam A. Ferguson. We have never heard Mr. McDonald speak, but we have been told that he delivers a wonderful address. At about the same time the Ranger Lions club will be sponsoring a county-wide political rally at which they expect something like 1,500 people to be present. The rally will be held at the Willows and will be combined with a swimming and diving contest. The swimming and diving, however, have been scheduled for the earlier part of the evening so that they will not interfere in any way with the political rally.

County candidates, and we presume that the candidates for representative, have been invited to attend and to make their announcements. A loud speaking instrument will be installed and used.

The Boston Red Sox and the Chicago Cubs gave the customers, if any, their money's worth the other day. The two teams played a 19-inning game that resulted in a 2 to 2 victory for the Sox. A total of 69 times at bat, 15 hits, 56 putouts and 31 assists were made by the Sox while the Cubs were at bat 60 times, made 13 hits, 57 putouts and 28 assists. About the only thing missing from the game was a three-bagger, as singles, doubles and one home run were made. The game lasted four hours and 13 minutes. Several were reported late for supper that night.

Which reminds us that talk of football was resumed, or rather it flared up a little more, this week when Eck Curtis came back from a trip to the Olympic games. He was around town telling about the football game he saw played under the new rules.

### Floyd Gibbons Now Writes Ads

Floyd Gibbons, famous war correspondent and radio announcer, has turned advertising writer in the Goodrich Rubber company's campaign for safety. Starting in today's paper is a series of signed ads written by Gibbons in which the public's attention is called to the number of accidents caused by unsafe tires and a remedy suggested.

The copy is in true Gibbons fast running style and is interesting reading besides it quotes some facts concerning accidents in an impressive way.

Lucas Service station of Eastland is a distributor of Goodrich tires.

Charley Lucas has received many compliments from the Goodrich officials for his success in organizing a safety league in Eastland and co-operating with car owners in tire inspection and service.

Many a good gain will be lost that way, is the prediction at this time.

### PEOPLE'S FORUM

Signed letters to this paper will be carried in this column, but names will be left off where requested. No anonymous letters can be printed, however. These letters express the views of the writer and may not be construed as the policies or beliefs of this paper.

### Will the Voters of Eastland County Think Seriously About Their Own Welfare Before Casting Their Ballot for Governor on Aug. 27?

The most important state political question is relief from the burden of taxation. All other questions should be secondary. Mrs. Ferguson proposes to set aside 10 million dollars of the state gasoline tax each year, to reduce the state ad valorem tax. This plan could not possibly reduce the tax on the small homesteads, because a constitutional amendment will be adopted at the November election, providing that every homestead in the state, both farms and town homes, not assessed at more than \$3,000, shall be exempt from state taxes, and if assessed at more than \$3,000, that state taxes shall be paid on the part in excess of \$3,000.

Governor Sterling has called a special session of the legislature for Aug. 30, to pass a law setting aside enough of the state gasoline tax each year to pay the road bond tax of every county in the state for 1932, and each succeeding year, until the road bonds are paid.

These are plain, blunt facts about the most important issue of the campaign. Which plan do you favor? What are you going to do about it when you vote?

Are you going to say to Governor Sterling, by your vote, that you don't want the legislature called to relieve the tax-payers of the burden of the road bond tax, but that you want the tax-payers of Eastland county to continue to pay the road bond tax, while 10 million dollars of the state gasoline tax is being set aside each year for the benefit of the larger tax-payers in the payment of their state taxes?

THE cop who pinched poor Duncy seemed to know that he was ahead. "I'll climb in and we'll drive ahead. The station isn't far from here and it won't take us long. "I dislike pinching lads like you, but that's the only thing to do. You made that monkey speed and you should know that that is wrong. "Oh, no I didn't," Duncy said. "In fact it scared me when we sped along the bumpy street. Why, I was sure that I'd fall out. "I simply hung on good and tight and maybe 'twould have been all right, but you came running up to us and then I heard you shout. "THE cop, by now, had crawled inside the cart, all ready for a ride. "Giddap," exclaimed poor Duncy. "We are heading for the jail. "And then he thought, gee, who can tell? The judge may throw us in a cell. The very thought of that made little Duncy turn real pale. The monkey they were driving, though was rather smart and seemed to know that he was ahead. It started to run. If I can throw the cop I'll run away and won't. The cop then shouted speed! It simply must shames! Please stop take the blame. Perhaps good, we'll settle all court. "We'll say we're sorry. Just leave the talking. The monkey promptly thinking Duncy was a "They shortly reached where the monkey said don't care, I'll wait right in the street and prod budge." "Oh, no you won't," Duncy said. # "Joy Ride or DEATH RIDE" this 'footprint' may make the difference"

HELLO everybody, Floyd Gibbons speaking. This ought to be happy vacation time. We'll be tuning up the old bus. We'll ramble. So will 20,000,000 other car owners. Will ours be a Joy Ride—or a Death Ride? Thirty-four thousand were killed last year in automobile accidents—nearly a million injured. Remember! When we're out there on the road, our only contact with this old earth is through the four points where our tires touch the pavement! When we slam on the brakes, it's those few square inches of rubber that have to stop the car! Otherwise—BAM! Tragedy. It's the DESIGN of those few square inches of rubber which determine whether we stop—or skid! That's responsibility—responsibility that chills us! That's why I'm all steamed up about Goodrich SAFETY Silvertown tires. They often represent the difference between a Joy Ride and a Death Ride. I've seen Safety Silvertowns tested. And I can't help believing what I see. I saw skid tests on wet asphalt roads. Car running 42 miles an hour around a sharp angle. She didn't skid an inch. That's where the DESIGN of the new Safety Silvertown—the FOOTPRINT of the tire—gets in its work. They've increased the sharp, gripping, skid-fighting edges on this tread 33%! It hangs on to a slick road surface like a fly on a windowpane! That's the kind of tire I want to be riding on this vacation trip—but here's the tragic fact: A SURVEY SHOWS THAT 57% OF THE CARS ON THE ROAD ARE RIDING ON AT LEAST ONE BALD-HEADED, TREACHEROUS TIRE. A DEATH TIRE! Just one is enough to cause an accident—to turn that joy ride into a death ride! With 34,400 killed last year—almost a million injured—we've had PLENTY of death rides. I like that name SAFETY Silvertown. I love to ride—but I want to get back home and not in an ambulance. Another thing—this Safety Silvertown—with the footprint that stamps out death—doesn't cost a cent more than any standard tire. That's a BARGAIN in safety!

**Pythian Sisters Entertain Notables.**  
The Pythian Sisters, Temple No. 72, entertained a number of out of town guests, and two notables, at their regular meeting Thursday night, in the Knights of Pythias hall, with session opened by Most Excellent Chief Abbie Slaughter.  
All officers were at their stations. Only routine business was transacted, according to Mrs. J. A. Ross, temple deputy for Eastland, who presented Mrs. Glen Gill of Longview, until recently of Breckenridge, who is the grand protector for the state of Texas.  
The chief feature of the evening was the address by the grand protector who stated this was her first visit here in 1932, and that she found the Eastland temple showing more interest in their work than she had found evinced in any other temple she had visited in some time.

Mrs. Etta Mathias of Breckenridge, district deputy, also made a short and pleasing address.  
Handsome bouquets were placed on stations, which brightened the setting, with their mingled shades and hues.  
At close of an interesting meeting, the committee on refresh-

ments, Mrs. Glen Liles and Mrs. Slaughter, provided a daintily prepared plate of iced watermelon.  
There were eight visitors present from Breckenridge, in addition to the notables, and the Eastland temple had a full attendance of members.

They are both popular and charming young people, and have a host of friends who will extend their hearty congratulations.

There were no divisional groups for this hour, the children meeting in assembly, opened by Mrs. Drago with a musical program of songs, beginning with "The Weather Song" followed by the "Flag We Love," and closing with "Summer."

This delightful children's hour closed with ensemble singing of "America."

**SWALLOWED HALF DOLLAR.**  
PORTLAND, Ore. — Eugene Stewart, 25, had a broken leg. To pass time while it healed, he flipped coins. Someone distracted his attention. A 50-cent piece fell into his opened mouth and he swallowed it. Doctors pondered whether to operate to remove the coin.
