A BIBLE THOUGHT FOR TODAY

GOD'S RESPONSE: If my people, which are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land.—2 Chronicles 7: 14.

"WHY A TEXAS CENTENNIAL?"

Cullen F. Thomas is president of the state centennial commission. He has favored the press of the state with a written argument of why the Texas centennial. Among the telling points are: "It will celebrate one hundred years of unexampled progress, from barren wilderness to modern commonwealth. It will foreground the marvelous products of Texas' brawn and brain in every field of human endeavor. It will turn toward Texas the attention of the people of many tongues and lands beyond the sea. It will repay Texas for all outlay from her treasury, from our uncounted millions dropped within her borders by unnumbered hosts who will come by rail and road to procure her resources and applaud her strides. It will be an epochal event in which the nation will claim the right to share, since in secession 1836 was followed by 1845, San Jacinto by Chapultepec and American domain and destiny pushed forward from the Sabine river to the Pacific ocean. It will seal and tie bonds of unity through contact and understanding, Texas citizenship of every type, from pines to plains, from the river to the Gulf.

It will rid our State of the spectre of sectionalism, to the end that Texas may remain in territory, ideas and destiny forever undivided and indivisible. It will rekindle the dying flame of patriotism in decadent days and as we renew our faith at Texas' sacred shrines put to shame a leadership of noisy pretense and little deeds."

Yes, the Centennial year is on its way. Happy days are coming again. Why not vote for the Centennial celebration amendment and remember or recall the heroic deeds of mighty men and the shrines of Goliad and the Alamo and San Jacinto.

BUSINESS LEADERS 'FULL OF HOPE AND CONFIDENCE'

A hundred business leaders of America wired the private banking house of Lehman Brothers, Wall Street, "that the low point was passed in the summer," speaking of business conditions the nation over and that "the large majority were definitely of the opinion that the bottom had been seen, while the small number who voiced no definite convictions, were at least hopeful that this was the case." Business inventories were reported by nearly all as ranging from normal to very low. A majority looked to increased business the coming spring. Incidentally, the Iowa farmers have figured that 10 acres of corn will heat their houses through the coming winter and cut down the staggering crop surplus.

The annual crop of June brides was smaller this year. Many of the girls are out of work.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

The statements of the Peace pacts between countries we hear so much about are ideal, but they have no practical value without some power to enforce them. Without such power they amount to no more than a string of pious platitudes.

To use power in the economic sense, to punish a nation who does not agree word for word with the idealists would be just as cruel and probably far worse than war, as we know it today, inasmuch as it would mean in a way the starvation of an entire nation, the majority of whom would be innocent sufferers in any event.

We cannot see the justice in an ideal that would cut off trade supplies to possible millions of women and children who know nothing of the politics of their government and who must within themselves abhor war just as much, and with perhaps better reasons, than those who have formulated the Pacts.

No Peace Pacts, no matter by whom drawn or how skillfully worded, will be of any value while injustices between nations exist. The nation put down by force nurses not only a grudge, but nurses its remnants back to strength again, and then when they are strong they start it over again.

A single agreement between nations which allows time for consultation would be worth all the Pacts so far made. No nation would refuse to allow time for consultation provided that unbiased machinery were established for that purpose because a government that would deliberately refuse such an agreement would, in these democratic days, very soon cease to exist.

No raw tobaccos in Luckies - that's why they're so mild

WE buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes. "It's toasted" That package of mild Luckies

BULLDOGS ARE READY FOR WEATHERFORD

Ranger's Bulldogs, after taking the heavy end of a 55 to 9 victory over Warner Memorial earlier in the week are ready today for the first home game of the season Friday when they meet the strong Weatherford high school team at Lillard field.

The game will be called at 3 o'clock. A few injuries will keep some of the Bulldogs from getting into action, but on the whole the team has been crippled but little this season. Udell Duvall, who has begun workouts, will not be able to play this week and Ray Adkins, big tackle for the Bulldogs, will probably not be used in the game, though his injury is healing rapidly.

The Weatherford school has a team that is light in places and heavy in others. One end and one tackle are as large as anything the Ranger squad can produce, but the remainder of the team will be lighter than their opponents. Like the Bulldogs, the visitors are rated as a speedy team that is capable of taking care of any breaks they may receive in the game and may prove dangerous at any period of the game.

The roster of the Weatherford club follows: No. Player Pos. TRAVEL CLUB

The Travel club of the Ranger high school held its second regular meeting of the year on Wednesday, Oct. 12. Our sponsor, Mrs. Wagner, took charge of the meeting and explained the features of the club to the new members, and told how each member, old as well as new, would be expected to take part in our programs in order to receive their club points.

After Mrs. Wagner gave her discussion, our president, Jim Hicks, took charge of the meeting. He appointed various committees that will be instrumental in carrying on the work of our club. The committees appointed were two program committees, and a social committee. The members of the first committee were Frances Strong, Katherine Barker and Eva Littlejohn, and the second, Fred Hughes, Laverne Lee, and Jimmie Kidwell. These committees will be responsible for the programs presented in our club.

Those appointed to the social committee were Neva May Richardson, Laverne Lee, Forrest Lyon, Sammy Matthews, and Ge-

hope they will visit us often. Three of our members, Lois Shelling, E. M. Bowen, and Forrest Lyon gave talks. Neva May Richardson volunteered to tell of a trip she made to Colorado, but our time was limited and she put her speech off until our next meeting.—Forrest Lyon, Reporter.

HERE-- AND THERE

By ELVIE H. JACKSON

Young America! They are just a happy little bunch of boys, three in the crowd, and careening up the street from the South Ward school, chasing each other, chatting with playmates, and fishing in pockets for the spare nickel or few pennies to finance a keenly desired bunch of stick candy...

So off the street set with the big tree limb valiantly tugged and the biggest boy acting as captain of the "ship," the imaginative name they dubbed the load they were dragging, sailed it through the driveway, and around the house in grand order reaching their port without mishap.

The little captain ran for his hatchet, and did as deadly work as George Washington ever did on the famous cherry tree.

Working like little beavers, they soon had the dead branch reduced to a scrumptious pile of short ticks, which they surveyed with weeping faces and bright eyes.

"Just wait a minute, I have something for you," said the lady of the house, as she put down on the well curbed, a plate of enticing read, butter and jam sandwiches.

"Oh no, ma'am," they hastily answered, "Don't take that bother or us." But the sandwiches soon disappeared, and the dame appeared, but unusual as it may seem to those who do not know the modern boy of young America, they firmly and modestly declined to accept the coin.

"But the lady insisted that she could not be comfortable, if they didn't accept the dime, because she would never feel that she could ill upon them again, unless they could take what they had agreed upon."

"Dear Sirs: For 3 months I've been using your salts and am very much pleased with results. I've lost 45 lbs., 6 inches in hips and waist measure. I've taken 3 bottles one lasting 5 weeks. I had often tried to reduce by dieting but never kept it up, but by cutting down and taking Kruschen I've had splendid results. I highly recommend it to my friends."

"Mrs. H. Wilson, Mantion, Mich. To lose fat SAFELY and HARMLESSLY, take a half teaspoonful Kruschen in a glass of hot water the morning before breakfast don't miss a morning. To hasten suits go light on fatty meats, tattoos, cream and pastries—a title that lasts 4 weeks costs but a trifle—but don't take chances—sure it's Kruschen—your health measure first—get it at any drug store in America. If not joyfully satisfied after the first bottle—money back."

STAN BENT over an open fireplace shaped of rock slabs with a smoke deflector to send the fumes out through a crevice in the ceiling. He set the wood on end, Indian fashion, and applied a match. Beside the fireplace was a little collection of cooking utensils. Stan produced a piece of bacon and sliced it. He shoved a tin of water near the flames to heat, then he uncovered four speckled mountain trout. Soon a savory odor began to permeate the air of the cave. Dona sniffed disdainfully. She was not sure she would eat.
Stan Ball sat back on his heels and watched the trout sizzling in the pan with the bacon. When the water began to simmer and boil he pulled it back from the flames and sifted tea into it. After turning the trout several times he arose and pruned a wide slab of stone over beside the cot. Producing two tin plates, he laid out a knife, a fork and spoon, his entire stock of silver. Two tin cups were added to the table and a tin can of sugar.
The trout were done brown by this time and he dumped two of them on the plate before Dona. Three slices of crisp bacon were added. He shoved the plate toward

"Tom Brown of Culver" Good Film
Novelty rules this season's pictures and here is one of the most unusual of them all. What is said to be one of the most interesting and novel screen plays of the current season has been booked for the Arcadia theatre, Ranger, Thursday and Friday. The picture is "Tom Brown of Culver," the Universal production which presents Tom Brown and Slim Summerville in the leading roles, and was filmed partly at Universal City and partly at the famous Culver Military academy in Indiana. The entire story is told against the background of this well known institution, and is said to tell a most dramatic story of a boy whose father was erroneously credited with being a hero of the World War.
A noteworthy feature of "Tom Brown of Culver" is the fact that not a girl appears in it—and yet, it is said, the story is not lacking in intense "heart interest." The list of players appearing with Brown, Warner and Summerville includes Richard Cromwell, Sidney Toler, Russell Hopton, Andy Devine, Kit Guard, Willard Robertson, Ben Alexander, and other screen favorites. The picture was directed by William Wyler.

DERRICK SHADOWS

By V. MARIE STEPHENS

This column is used as a feature and should not be construed as representing the editorial views of the paper. The expressions contained in the column are the views of one individual and do not reflect the policy of the paper.

What do they mean to you, these tall, armless forms standing guard about Ranger? Are they outlines of better things to come or do they appear to be ghostly skeletons of dead days when streets ran with flowing gold and strangers came and went to the jingle of the elusive dollar? Are derricks, after all, mere man-made structures, serving the purpose for which they were constructed and immediately fading into the background of their surroundings? Somehow they seem to live on, hiding the secrets of a city they once knew and forever grazing silently upon a passing world. Gradually one learns to love the gaunt symbols of the

town, finding in their eternal consistency a silent companionship.

Baylor university at Waco drapped her doors in black Tuesday mourning the death of Prof. J. H. Simmons of the English department. It is inexplicable, life and death. Death is an impartial reaper, claiming souls from all extremes of life: Tuesday he, the author of numerous educational books, was torn rudely from an admiring student body and grief-stricken family...

Someone, a sage perhaps, has given to the world a phrase to think about. "People of inferior intelligence talk about people, people of normal intelligence talk about things, people of superior intelligence talk about ideals." Isn't it upsetting to look back over a lifetime of conversations and find to find one sentence concerning ideals? It lowers one's personal morale, no doubt.

According to an outstanding professor in an equally important university in Texas, an amateur poet may be cited by his subject matter which usually consists of life, love and death. If such a fact be true, existence in its self must necessarily be young and untried, for it seems humanity insists on living, loving, and finally ending it all. And that reminds me of an anonymous little something I read not long ago:

"Eat, drink, and be merry, Dance the long night through, For tomorrow we must die; But, alas, we never do."

There you are! The poet must have been an American; dwelling on the futility of things, never satisfied, and sighing with hopeless fervor that the fates will it man cannot name the date for his own individual extinction.
