HEAR THE LORD: O earth, earth, earth, hear the word of the Lord .- Jeremiah 22: 29.

### AMERICAN STEEL MEN SHUT OUT OF CANADA

John Bul knows how to play the business game. Canadians prominent in the steel industry predict that a large amount of the Canadian steel purchases hitherto made in the United States will be diverted to Great Britain under the new tariff regulation. Furthermore, two of the heads of the largest steel companies in Canada say that the concessions granted to British iron and steel products will make possible a huge increase in Canadian imports from the United Kingdom. This is the verdict of A. T. Enlow, one of the kings of steel under the skies of Canada: "The United States is practically cut out from the steel trade.' Well, for years and years republican presidents and national lawmakers of the G. O. P. faith predicted that the tariff was the thing, and the higher the better. Now Mr.

Bull and his colonial sons and daughters are going to give their beloved Uncle Samuel large portions of his economic medicine.

# The Eyes of Texas Are Upon You

Unarmed and helpless, 390 Texans, prisoners of war, were shot down in cold blood, massacred, at Goliad, March 22, 1836. They died for Texas as truly as if they had laid down their lives on the battlefield.

We enjoy freedom and security in Texas today because brave and devoted men were willing to sacrifice everything, even life itself, to obtain them

One hundred years of freedom and independence in Texas will be rounded out in 1936. And a long era of freedom and independence stretches before us in the future. All of this has been the fruit of the sacrifices of the men of 1836.

We are now facing the question of whether we shall pay due homage to the memory of those men in 1936. Can there be any doubt about the answer to that question? You will be called upon to answer it by your vote on the Texas Centennial Constitutional Amendment.

Vote with the knowledge that "the eyes of Texas are upon you," and you will vote as a Texan who knows what he owes the past, and who is proud of the heroic traditions of Texas.
