German Politicians Talk Tough To West

FRANKFURT, Germany, April 25. (AP) — West German politicians are talking tough again to the western allies. They are threatening to fold up their government — to resign and turn the running of the West German republic back to the allies.

Why these sudden anti-allied outbursts, these rumors of allied-German crises, in the American, British and French zones?

It's election time.

In a month or two voters in several of the western states will elect state legislatures. You get votes in Germany if you stand up against the allies.

The allied story last summer before West Germany elected its first parliament. Every politician blasted the occupation powers then.

Leading the anti-allied statements now, and leading the defiant stinging of "Deutschland Ueber Alles," is Chancellor Konrad Adenauer himself.

His main anti-allied complaint is a good vote-catcher — the income tax. The allied high commission vetoed provisionally a German law that would reduce the levies.

The West did so because savings for the German taxpayers would mean more taxes for the Americans, British and Frenchmen. The extra cash would come out of their pockets. Over the week end, Adenauer dropped hints that he might resign because the allies had vetoed the tax reductions and another German-passed law.

The chancellor's attitude is causing resentment among western officials in Germany. They feel he is putting personal politics above the security of Germany and western Europe.

But allied officials do not take Adenauer's resignation hints seriously. They do not think he is likely to quit. The main thing he wants, they figure, is votes for his Christian Democratic Party.

East Germany's Communists have branded the chancellor's party as an "instrument of Anglo-American imperialism." Adenauer's chief political opponent in West Germany, Social Democrat Chairman Kurt Schumacher, has called him the "chancellor of the allies."

So Adenauer, say American officials here, is showing the voters he is independent — a good German who does not take orders from the allies.

Find Infant Reportedly Kidnapped

NEW YORK, April 25. (AP) — Police today found a month-old Negro girl identified as the incubator baby kidnaped 25 days ago from a Bronx hospital.

The young mother, Mrs. Clifford Holden, took one look at the child and said:

"Yes, that's her."

Hospital authorities tried immediately to confirm the identification by matching footprints.

The infant was found in a baby carriage in the storeroom of a small midtown hotel near Pennsylvania Station. Police took an 18-year-old Negro girl, identified as Mrs. Evelyn Jane Jordan, into custody and questioned her at length.

They said she has identified by four witnesses as the mysterious woman they saw carrying a Negro child in various parts of the city a few hours after the kidnaping.

No motive ever was advanced for the child's seizure. The young parents were as bewildered as hospital authorities.

Crude Oil Hits 1950 High Mark

TULSA, Okla., April 25. (AP) — The country's crude oil production hit its 1950 high in the week ended April 22, with a daily average production of 4,900,125 barrels, the Oil and Gas Journal reported today.

This was an increase of 37,935 barrels over the previous week's production.

A large part of the net gain was attributable to a Kansas increase of 22,105 barrels to 254,050 barrels. Other sizeable increases were in Wyoming, up 7,000 barrels to 159,100, a new 1950 record for that state and Mississippi, up 2,850 to 27,500; Oklahoma, 2,600 to 435,700. Arkansas gained 450 barrels to 80,000 and California was up 800 to 328,000.

The only two losses for the week were in Illinois, down 2,700 barrels to 175,500, and the eastern fields, off 275 to 60,425.

Production was unchanged in Louisiana, 513,300 barrels; New Mexico, 125,900, and Texas, 1,982,550.

GRAIN ELEVATOR BLAST STARTS SMOULDERING FIRE, INJURES ONE

PERRYTON, April 25. (AP) — A terrific blast at a grain elevator here yesterday fatally injured one man, hurt another, and started a smoldering fire in the big structure.

Don Herring, 28-year-old father of five children, died early today of injuries suffered in the blast, which apparently was a dust explosion.

Jim Woodward, 21, who was injured, was in fair condition today.

The fire died out during the night and apparently did not damage the 700,000 bushels of wheat stored in bins. The fire apparently attacked

Gray Announces Candidacy For Court Of Appeals

AUSTIN, April 25. (AP) — Associate Justice Raymond Gray has announced his candidacy for a regular six-year term on the Third Court of Civil Appeals.

The San Saba judge filed with Travis County Democratic Chairman J. M. Patterson.

He was appointed to the third court in November, 1947, by the late Gov. Beauford H. Jester, following the death of Judge James Harvey Baugh.

Gray ran for the remaining two years of Baugh's term in the election of 1948, and was unopposed. He is now seeking his first full elected term.

LUCKY HE'S SUCH A BUSY SOLDIER

TOKYO, April 25. (AP) — Capt. Robert Cranston of Fort Worth is lucky he's such a busy man.

He was on the original passenger list of the Air Force C-54 from Manila which crashed southwest of Tokyo Friday night. Thirty-five Americans, all aboard, were killed.

Cranston arrived in Tokyo last night. He missed the ill-fated plane, he said, because of "a lot of last-minute business."

Western Electric Workers Walk Off Austin Exchange

AUSTIN, April 25. (AP) — Approximately 50 Western Electric Co. installers left their jobs in Austin this morning, a spokesman for Southwestern Bell Telephone Co. said.

The action halted all installation work at the 2-million-dollar North Austin telephone exchange now being built and at the downtown telephone building.

U. S.-MEXICO SQUABBLE

Seizures May Bring Problems To Head

PORT ISABEL, April 25. (AP) — Mexican seizure of five Texas shrimp boats may bring to a head U. S. and Mexican differences of opinion on territorial waters.

A Mexican gun boat seized the five craft about 125 miles south of here Sunday. Two other shrimpers escaped.

In Washington, Rep. Tolleson (R-Wash.) and Rep. Thompson (D-Tex.) protested and called on the State department to take appropriate action. Tolleson called the seizure "piracy."

Mexico claims the boats were fishing Mexican territorial waters. Mexico claims its territorial waters extend nine miles at sea. The U. S. recognizes only three miles offshore as Mexican territorial water. The boat captains say they were 7 1/2 to 10 miles offshore, Mexico says they were only 5 1/2 miles from shore.

Mexican Federal Judge Bernardo Jimenez of Tampico, where the seized shrimpers were taken, was expected to receive the cases today.

Capt. "Babu" Jenkins of the Faith, one of the boats which escaped, told by shortwave radio how his craft outran the gunboat Virgilio Uribe in a 10-minute chase. He said the Mexicans had ordered him to be ready in 10 minutes to pull anchor and get underway for Tampico, or be sunk. He said the Southerner, the other shrimper which escaped got away before the patrol boat even got near it.

Instinct Points Out Shoplifter To Policemen

DETROIT, April 25. (AP) — It's been a long time since police Supt. Edwin Morgan and Deputy Supt. Kennedy Lawrence walked a beat.

But they keep their hand in. Instinct and a bulging overcoat told them all was not proper about a man ahead of them on the sidewalk yesterday.

So they moved up, one on each side, and collared the chap.

Sure enough, a shoplifter. Tucked inside his coat were three boxes of men's socks. Headquarters was the next stop.

Young Girl Dies, Follows Six Family Deaths In 8 Years

STOUGHTON, Mass., April 25. (AP) — Helen Smithell, 14-year-old junior high school girl, has gone voluntarily to death, which in violent form had claimed six members her family in eight years.

Yesterday her body was found in the home of her uncle and aunt. She was lying on a couch. Four gas jets were open on the kitchen range. She left a note but police declined to reveal its contents.

Dr. A. C. Woodward, assistant medical examiner, called her a "suicide because of despondency."

In 1942 Helen's father, Henry Smithell, Jr., was killed in a fall from a window.

Since then she had lost her stepfather, Clarence A. Voss, in the war and her mother, grandmother and a sister and brother in fires.

RIBBON KAMBLINGS

By Mildred Young

Don't know whether it's possible to organize a group to death or not, but if it is the great American people must be getting rather close to the grave, not just in government but in all sorts of divisions.

For example, noticed the other day that someone had counted the various agencies in Texas and they had finally tallied the figure at 146. They ranged from the Pink Bollworm commission to a board to select an auditor for the state prison system.

Twenty-two agencies, such as the Board of Equalization were reported as having no duties for years. What a wonderful way to draw a pay check! Also listed as inactive—was the Mining Board, the Board of Managers for the State Iron Industry and the Bureau of Child and Animal Protection.

Doris H. Connerly, legislative reference librarian of the Texas State Library, who revised the list of state agencies only last week, says that active agencies include boards to license people in such varied occupations as embalming, land surveying, hair-dressing and plumbing.

Texas governors must appoint 337 officials to keep these agencies staffed. And that total does not include river authorities or agencies without statutory basis.

That gives the Governor of Texas a chance to make somebody happy nearly every day. But if an old political saying holds true, it also costs him a lot of friends.

"You make one friend and lose three everytime you make an appointment," is how the political sages word it.

Mrs. C. T. Clay Is Devotional Leader Monday

Mrs. C. T. Clay brought the devotional, "These Things Write We," during the monthly business meeting of the Woman's Missionary Union at the First Baptist church Monday afternoon.

In her talk, Mrs. Clay stressed christian fellowship among Christians that wherever they might meet each group will feel fellowship with God and abundant love for each other.

Mrs. R. D. Ulrey directed the group singing, "Blest Be The Tie That Binds," accompanied by Mrs. Hammons Mobley. The Lord's Prayer was repeated in unison. Mrs. Clay presided during the business session. Mrs. Inez Lewis reported \$280 in the Annie Armstrong offering treasury.

Other reports were given by Mrs. B. T. Falkner, Mrs. W. F. Taylor and Mrs. S. Marie Haynes. Announcement was made that the Vacation Bible school clinic and Worker's Conference will be held at the First Baptist church in Midland, Thursday, April 27. A group from the local church will attend. R. B. Hood Announces Candidacy

R. B. Hood, long time resident of Howard county, announced today that he would be a candidate for the office of tax assessor-collector of Howard county.

In the primary two years ago, Mr. Hood came within only two votes out of a total of 5,056 votes, of winning the nomination.

"Even though I didn't get the office," he said, "I always will remember that fine vote with much appreciation."

In announcing, Mr. Hood said that he had no promises to make except to fulfill the duties of the office to the maximum extent of his abilities, and to devote all of his time to serving in the office.

Closeness of the last contest and succeeding events had led many people to encourage him in making the race for the nomination this year, he said.

Mr. Hood came to Howard county about 20 years ago and was head of the schools at Coahoma. During World War I he had a record of service overseas, and when World War II came on he became chief clerk of transportation at the Big Spring Bombardier school. In addition to other experiences, Mr. Hood pointed out that this background was most helpful in the type of work that would fall his duty to perform as tax assessor-collector. He is married and he and Mrs. Hood have one son.

6,408 FAMILIES HOMELESS

Snows Bring Woe To Flooded Areas

By The Associated Press
North Dakota and Minnesota, fighting the worst floods in some 50 years, were blanketed by fresh falls of snow today—measuring up to 15 inches in some areas.

The snow whipped across the flood-ravaged areas of the two states adding new hardships to the thousands of homeless. The Red Cross had reported flood conditions "are becoming steadily worse." It said 6,408 families were homeless in the flood of the Red River, which flows between the two states.

The current rampage of the Missouri River and its tributaries has caused about \$2 billion in flood damage in North Dakota, Army engineers estimated.

The snowfall at Minot, N. D., measured 15 inches and it was more than eight inches at Crookston, Minn., which was inundated from the Red Lake River.

The snow spread over parts of south Dakota and northwestern Wisconsin.

A storm in northern Illinois caused rains and thunderstorms over the Great Lakes-region, the upper

Mississippi Valley eastward into the Alleghenies and southward into the Ohio Valley.

Czech Defense Minister Relieved

LONDON, April 25. (AP)—Czech Minister of Defense Ludvik Svoboda has been relieved of his key cabinet post, the official Czech news agency announced today.

The news agency said in a broadcast heard here that Svoboda has been "relieved by his own request."

The agency reported that Dr. Alexei Cepicka, son-in-law of President Klement Gottwald, had been named to succeed Svoboda as minister of defense. Cepicka gave up his post as justice minister and head of the state office for church affairs to take the new post.

Vice Premier Zdenek Fierlinger was named to succeed Cepicka as the boss of church affairs. Dr. Stefan Vals, department head of the president's chancellery, has been named minister of justice, the agency said.

Eyes Play Funny Tricks When Lost In A Dark Cave

KINGWOOD, W. Va., April 25. (AP) — Your eyes play funny tricks on you... the beating of a bat's wings sends shivers down your spine when you are lost in a pitch-dark mountain cave.

Ask the three 'teen-agers who spent a rough 24 hours in Cornwell Cavern, a partially unexplored limestone cavern abounding with bats and rats.

They were rescued yesterday by a search-party which kept in touch with the outside by mile-long lengths of twine.

When found, the three young explorers were huddled together in prayer.

They are Robert Shrou, 16, his half-brother, Eugene Shrou, 14, and James Shrou, 15, their cousin. They started their journey of exploration Sunday. Soon, their only flashlight went out and they were left in total darkness.

They wandered around, trying to find the hole-in-needle slit in the ground through which they had entered. It only made them more confused.

Then they decided to stay put until help came.

The boys said they were finding it hard to stay awake when they heard a carbide lamp carried by a man in the searching party explode.

A short time later, they were blinking in the sunlight.

MEMORANDA DUE TODAY IN PLEA TO ALLOW HOUSTON NEGRO VOTE

HOUSTON, April 25. (AP) — Precedent memoranda was to be submitted today in connection with an injunction plea that would permit Negroes to vote in the May 6 "white man's primary" in Fort Bend County.

Judge T. M. Kennerly asked for the memoranda after hearing oral arguments here yesterday. He is expected to hand down a ruling before May 6.

Plaintiffs in the injunction suit contend the "white man's primary," sponsored by the Jaybirds Democratic Assn. of Fort Bend County, is unconstitutional. They also contend the primary is a conspiracy to deprive Negroes of their right to participate in the election of local officials.

Three of the plaintiffs are members of the National Assn. for the Advancement of Colored People.

Their attorneys contended in court yesterday the winners in the association's primaries usually are unopposed on the Democratic primary ballots.

Most of the defense centered around testimony of D. R. Pearson, 80-year-old Richmond resident who has been active in the Jaybird Assn. since it was organized in 1889.

He said the association was formed to secure economical and honest county government by com-

petent officials at a time when the preponderant Negro vote of the county was controlled by "bad white people."

Oil Pipeline Crew Faces Gun Of Irate Farmer

LANCASTER, Pa., April 25. (AP) — The 1,240-mile, 30-inch pipeline of the Transcontinental Gas Pipeline Co. looked down the muzzle of a shotgun in the hands of an irate Lancaster county farmer.

The workers fell back but quick as Farmer F. Preston Lefevre stood firm by the three farm vehicles he had placed in the path of the advancing bulldozers yesterday.

Sheriff Abe Lane was summoned, and talked to Lefevre and other members of his family and then made a hurried call to John M. Hance, county district attorney.

Hance petitioned the county court Lefevre withdrew his roadblock pending a hearing Saturday.

The farmer said he had been aroused by the fact the pipeline workers were planning to pass 100 feet closer to his farmhouse than the staked out right of way indicated.

Softball Blow Not Cause Of Death

The child died Sunday shortly after he was struck by a ball as he ran across a street.

A physician who conducted an autopsy said yesterday that the child suffered from a glandular disorder of a nature which gave him a greatly decreased resistance to infection or shock.

Chamber Performs Indispensible Service To Various Communities

A newcomer on the scene of special weeks, this is Chamber of Commerce week in Texas. So proclaimed by the Governor, it has been set apart also in Big Spring by Mayor G. W. Dabney. Until this year, chambers of commerce have not had their special week. Whether it is to be an annual affair is not known, but if so, it would be much more deserving than many weeks about which we know.

Chambers of commerce have accomplished a great amount of good in their various communities, and ours is no exception. A lot of good natural fibing at estimates and over the booster spirit may be directed toward the chamber, but sober consideration of the record reflects it to be as nearly an indispensable organization as there can be.

Representation May Be More Equitable Following This Census

While West Texans may be looking for representative relief on the state level as a result of the current decennial census, they should not forget the possibility of adjustment on a national level.

Texas, however, will not be the center of the big increase in national representation. This will go to the West Coast where the gain is expected to be from 11 to 14 seats in the house of representatives.

Believe Baltic Plane Incident Was An Act Of Soviet Policy

There are reasons for thinking that the shooting down of the Navy plane in the Baltic was not a local incident brought on by a local commander but that it was an act of Soviet policy. The known facts indicate that the Soviet intelligence had advance notice that the plane would fly a course over the Baltic Sea, that though it was known to be unarmed the Soviet intelligence believed it carried important electronic equipment, and that orders were given to the Soviet fighter command to intercept it, to capture it if possible, and failing that, to shoot it down into the sea and destroy all traces of it.

reported seeing the complete destruction and disappearance of the plane well outside Soviet territorial waters, or, and less probably, the plane was captured and the Soviet authorities do not wish us to know that they have the secrets which possession of the plane would give them. The probabilities, however, are that they did not capture the plane and that they saw it destroyed completely. For retrieving a wrecked plane out in the open sea would be an operation hard to hide. If, on the other hand, the plane had come down in Soviet waters, the Soviet authorities could have produced some of the wreckage to prove that the plane had violated Soviet territory, and the temptation to prove that we had acted illegally and provocatively would have been hard to resist.

Defense Secretary Declares Russia Doesn't Plan U. S. Conquest By War

WASHINGTON.—Speaking off the record to a civilian orientation conference last week, Secretary of Defense Johnson dramatically declared: "We know—and I say we know—that Russia does not plan to conquer the United States by force or war. She intends to do it by driving us into economic collapse which will give the Communists an opportunity by infiltration to take over."

City Life Ain't Complete For A Transplanted Country Boy

City life just ain't complete for a transplanted country boy. Maybe the thought comes to mind because it's that time of year when you want to dig your toes in the clay bank and plunge into the swimming hole down on the creek bank, but the rural life seems to offer a lot of advantages over those enjoyed by the urban dweller. Take the swimming hole, for instance. Crowded concrete pools with all their fancy diving boards and chlorinated contents can't ever equal the cool clear water the farm boy has for paddling in the creek. It's a lot more fun to take a running dive off the high plank or out of a tree than to bounce off a springy diving board especially where there's a dozen other swimmers wanting to use it at the same time.

He doesn't have to worry about trespassing or shooting somebody's cow, 'cause he's usually not armed with anything more lethal than a sling-shot—if things haven't changed too much in the last 10 or 12 years. The city dweller seldom gets to see the sky and the stars like they appear to his country cousin. Out there the sky is black and the planets sparkle at night without having to compete with the milky haze cast over everything by city lights. The air breathes differently, too, especially at night. It's clean and cool without the smoke, odors, and dust given off by the city's industries.

Affairs Of The World-DeWitt MacKenzie Moscow War Of Nerves Against West World Being Speeded Up

MOSCOW'S WAR OF NERVES against the western world is being speeded up as part of a fresh phase of the Red revolution for the spread of communism. This is in considerable degree a psychological assault which is coming from numerous directions to make it confusing. It is aimed not only at the governments but at the general public.

violating" the provisions of the Italian peace treaty which provided that Trieste and surrounding area be made a free territory. As though these moves by Moscow weren't enough, the satellites are dutifully playing their part in the war of nerves against the West. The latest development is in Czechoslovakia.

THIS WAR OF NERVES ISN'T JUST A flash in the pan. It is a studied part of Moscow's strategy, and it accounts for many of the otherwise inexplicable actions of the Soviet, such as the perpetual disruption of United Nations activities by the use of everlasting "nyet" (no). Among the latest developments in this Red onslaught was the shooting down of the American plane by a Soviet warplane over the Baltic with the loss of ten U. S. airmen.

The MOSCOW CONTROLLED RED government in Prague has ordered the closing of the libraries of the U. S. Information Service in Czechoslovakia, and the shutting of the American consulate in the City of Bratislava. This war of nerves may, or may not, be depressing to a lot of folk. However, the wise man will note this very important fact:

Washington Calling-Markus Childs

Red Quarrels Here Reflect On U. S. Intentions And Capacity

WASHINGTON - TO THE STATE DEPARTMENT has come a mass of material in recent weeks showing the effect abroad of the quarrel in Washington over communism in government. While for the most part it is not registered in specific actions, it is nonetheless real. Above all, it is reflected in doubts about America's intentions and capacity. These doubts take two special and frequently repeated forms that come out in the inquiries made of our ambassadors by the foreign ministers of other countries and in the editorials of foreign newspapers normally friendly to the United States.

The origin of the McCarthy affair indicates the casualness with which the explosion was touched off. According to one of the most influential Republicans in Congress, Senator McCarthy's original speeches on communism resulted from an assignment given by the Republican Senate Campaign Committee in anticipation of the Lincoln's birthday celebrations across the country. Speech subjects were parcelled out to the various senators who would speak. McCarthy was assigned communism in the Democratic administration and, in particular, in the State Department. But some of his colleagues were dismayed when he gave specific figures and later offered to prove his charges about individuals.

Word-A-Day

By BACH DAIS (d. e. '15) NOW A PLATFORM ABOVE THE FLOOR OF A HALL OR LARGE ROOM, TO GIVE PROMINENCE TO THOSE OCCUPYING IT I FORGOT TO SEND OUT THE ANNOUNCEMENTS!

Called on to offer proof, McCarthy approached many persons for help. One of them was Father John F. Cronin, S. J., of the National Catholic Welfare Conference in Washington. Father Cronin has spent 10 years compiling a file on communism for the Catholic Church. As he put it later in an interview in the Milwaukee Journal, Father Cronin told McCarthy that he could not help him because his investigation has shown that today there is not one known Communist party member in the State Department. In the interview he said it was "unfortunate that McCarthy went to such extremes."

Connie Haines Is Good Entertainer

NEW YORK - Personal notes of a New Yorker's cuff. Connie Haines, the cute bluish who wears a transparent black gown and also holds your attention with her song phrasing, has a nice way of introducing familiar songs she is going to do which are hot off the Tin Pan Alley grills. So she sings "I Feel a Song Coming On" and then goes into something like "It's Wonderful, It's Marvelous" or any of those other numbers you may have tucked away in your memory.

establishes it as the new box office leader among non-musical entertainments. The previous record was set in 1948 when Robert Morley played to \$30,063 in a week when he was starring in "Edward, My Son." Noting changes in Broadway box office figures, I recall ten years ago when \$12,000 a week was estimated to be a hit for a non-musical play and \$18,000 a week was in the standing-room-only class. Today they are grossing about \$30,000 a week with no mention of standing-room-only.

Mouse Feasts On Anything But Cheese

MONTERE, Calif., April 25. (AP)—It's going to take more than cheese to trap the mouse in William Principe's garage.

Principe, a drug salesman, keeps a few sample pharmaceuticals in his garage, along with a supply of kibbled dog food. The mouse got into the dog food, and Principe set a trap. Nothing happened, except that the dog food vanished in even greater quantities.

Then Principe noted the disappearance of about 20 high-potency vitamin capsules. On the shelf near the vitamins are several bottles of codliver oil. A few days later, one of the bottles was overturned. The leaking oil had been lapped up.

Principe has set no more traps. "I'm not even looking for him," he declared. "I'm afraid he'll walk up and shake my hand—or pop me in the eye."

Father Charged With Murder Try On Children

LAWRENCE, Mass., April 25. (AP)—A former Lawrence postal employe was booked early today on a charge of attempting to murder his four children with illuminating gas.

Deputy Police Chief Arthur J. Riley said James M. Ryley, 36, was taken to Danvers State Hospital for mental observation after being booked.

The deputy said Ryley tied the four children, ranging from six to 14 years of age, to chairs and then turned on gas in a kitchen stove and a jet on a gas heater.

The eldest child, James, 14, freed himself, the deputy added, and notified neighbors. They called police.

Two patrolmen, William Ludwig and Alfred A. Donovan, found Ryley in an upper room of the two-story single family house.

They found the other three children, all tied to chairs, in the kitchen.

None of the children was overcome. The other children were Marilyn, 10, Eleanor, 7, and Lawrence, 6.

They were Ryley's children by a previous marriage. His present wife, Dorothy, a registered nurse was out on a case.

The deputy police chief said that Ryley could give no explanation for his act.

LIBRARIAN OPINES

Men May Forget To Mail Letters, But They Return Library Books

By RHODA MILLER

Men may not always remember to mail letters stuffed in their coat pockets, but according to local librarian Katherine Collins, the stronger sex is much better at remembering to return a library book coincident with the due date than are women.

In this particular case, however, children rank even higher than the men in returning borrowed books. Only a small percentage of that group fails to return the books on time, due in part, perhaps, to a parent's vigilance in the matter.

The local library features approximately 10,500 accessioned books. Of this total some 75 books were not returned during 1948 and 31 books were counted as lost during 1949. There are now around 125 books which are overdue. A new system for collection has been inaugurated. County Judge John DiBrell, and the librarian send letters to all overdue holders requesting that the books be returned by a designated date. If the holder does not respond by that date, county officials will personally take action.

Close to 50 per cent of all book-borrowers are delinquent or tardy in returning books. Officials at the library think the cause of this is partially traceable to the fact that it is a County library. This causes many persons to misunderstand and think of it as a free library, especially if they are taxpayers. Fines were originally used to buy new books; but lately the money has been deposited in the county treasury to be used in the library fund. A fee of \$1.50 is charged anyone wishing to check out a

book and who has not resided in Howard County for the preceding six months. This fee became necessary as a replacement fund for lost books.

During weekdays, an average of 160 books are checked out per day. Approximately 90 of these books are checked out by adults, with the remaining 70 loaned to juveniles. The average is usually higher on Saturdays. On an average Saturday, approximately 178 books will be checked out by juveniles and around 100 books will be borrowed by the adult age group.

According to figures released at the library, some 2,520 persons frequented the library during January; some 3,781 persons borrowed books in February; approximately 3,578 persons checked out books in March, and from April 1 through 17, there were 1,965 persons who made practical use of the local library.

Since the beginning of the current year, 173 new books have been purchased by the library. These new books include novels, histories, biographies and reference books. Approximately 30 of the new books were purchased for the juvenile reader. Featured in the new book collection is "In Our Image" by Houston Harie. The book was presented to the library by Mr. and Mrs. Lewis Price in memory of Fred Stephens.

Members of The Woman's Federated clubs of the city founded the library in 1944, with the help of the late Judge J. T. Brooks, and the members of the Commissioner's Court of that time. The library has two staff members,

Mrs. Katherine Collins, librarian, and Jean Robinson, assistant. Office hours at the library are from 10 a. m. to 8 p. m. Monday through Friday, and from 10 to 6 o'clock on Saturdays.

Poetry selections are now being read over KBST by James Bishop, English instructor at Howard County Junior college. The program is heard every Saturday morning from 9:30 to 9:45 o'clock. Requests for favorite poems will be honored.

ENTERTAINERS SEEK DAMAGES FROM HOUSEWIFE FOR HER "RED" CHARGES

HARTFORD, Conn., April 25. (AP)—Two entertainers come into federal court today, each seeking \$100,000 damages from a Greenwich, Conn., housewife who they complain called them pro-Communist.

Paul Draper, dancer, and Larry Adler, harmonica player, contend Mrs. Hester McCullough damaged them by charging they were "pro-Communist in sympathy" and "open supporters" of Communist front organizations. She is the wife of a Time magazine editor.

Getting a jury in the civil libel action was one of today's first tasks.

Court officials said yesterday they were preparing a list of 60 witnesses, which number they described as "larger than normal." The number of prospective jurors finally summoned "can shoot anywhere," they added.

Counsel for the opposing sides will be entitled to six challenges each.

Draper and Adler arrived with their respective wives last night, but declined to comment on the case. They said they plan to stay in Hartford for the duration of the trial, which is expected to last several weeks.

Draper told reporters he did not expect his mother, Mrs. Muriel Draper, with whom he has said he did "not agree politically," would be present at the trial.

Draper and Adler filed their libel suit against Mrs. McCullough on Jan. 22, 1949, the day after they gave a concert at Greenwich, Conn. The two men charged that Mrs. McCullough, in protesting their Greenwich appearance, hurt their personal and professional reputations by linking them to various organizations cited as subversive by the attorney general.

The entertainers claim they lost professional engagements as a result of alleged libelous statements made by Mrs. McCullough in an article published in a Greenwich newspaper and in spoken comments.

In pre-trial proceedings, Mrs. McCullough said she took from official sources the information on which she based statements that the two entertainers were affiliated with Communist front organizations.

Man Faces Six Counts In Plane Bomb Case

LOS ANGELES, April 25. (AP)—John Henry Grant, 32, will be arraigned this afternoon on six counts of attempted murder for placing a fire bomb aboard a United Air Lines plane April 17.

Grant was charged yesterday with plotting to kill his wife and two children and the crew of three. Ten other passengers aboard the plane were not mentioned in the complaint.

Pascual Clouts Home Run As Broncs Defeat Angelo

SAN ANGELO, April 25 — The Big Spring Broncs wind up their four-day road trip by meeting the San Angelo Colts here again tonight.

Pat Slaney's Cayuses put in at Big Spring again Wednesday evening, at which time they entertain the same Colts.

The Big Springers walked the Concho City gang, 8-3, here Monday night, combing the offerings of Manager Jimmy McClure for 14 assorted base hits.

Carlos (Potato) Pascual hit his third home run of the season with a mate aboard to give the Steeds a lead they never lost.

Angelo pulled within two runs of the Big Springers in the fourth inning but Bert Baez came in to relieve Luis Gonzales in the pitcher's box and blanked the Colts the remainder of the way.

Manny Junco, new Big Spring catcher, made his debut for the Broncs and collected two singles in five tries at the plate.

Pascual shared hitting honors with Jorge Lopez, who had three singles.

Three double plays helped the Big Spring hurlers. Lopez, Gabe Castaneda and Baez started the twin killings.

AUSTRALIAN HANDSTAND—Jockey R. Dean holds on to the reins as he is somersaulted over the head of his mount, Midhurst, at the second jump in the Kharthoum Murle event at Caulfield, Melbourne, Australia. The rider was not hurt. (AP Wirephoto).

LOOKING 'EM OVER

With Tommy Hart

The Big Spring Sheriff's posse racing program, which closed with the Futurity here last Sunday, attracted some of the best quarterhorses and thoroughbreds in the country.

The Futurity committee did it by offering some of the biggest money prizes to be found anywhere. Around \$16,000 in cash premiums went to the winners in three days of racing.

Ranch Rider, which won the seven-furlong Cooden Classic Sunday, is an eight-year-old which has been competing successfully on California tracks. He was fought at home in the long race. His owner is Dr. J. S. Cooper of McCarney.

One of those who predicted that Battle Creek's record of 22.8 in the Futurity 440-yard feature, set in 1948, would be broken, was Bill Morrow, a local trainer.

Arthur Smith, who trained Little Pair, a Futurity nominee, Ranch Rider and other horses which ran here, pulled out for the Ak-Sar-Ben race meeting in Omaha, Nebraska, after the local races ended.

Joe Priest came long way to meet the person coming the longest distance for the Futurity meeting was Joe Priest, who lives in Tavares, Fla. Joe is the owner of Thunder F, who qualified for the finals of the 440 yard division of the Futurity.

Pete Dominguez, one of the jockeys in the local meeting, has 20 years of riding behind him. Pete's pop, now a Colorado rancher, has been a rider, trainer and owner of racing stock in the past.

The elder Dominguez, by the way, was here to watch his sons, Pete and Tony, perform.

Pete gained his short-horse riding reputation aboard the legendary Shu-Fly, a consistent winner of races a few years ago.

Coach says Roswell Rockets well-balanced. Roy Baird, who has seen most of the Longhorn baseball teams in action, says the Roswell Rockets have the best balanced club he's seen, with the possible exception of Big Spring.

Lubbock high school's baseball team, which local players thought was the best opposition they encountered all spring, has already been eliminated from the District SAA race.

Other games on the Buffaloes' schedule will be against Flower Grove in Flower Grove on Friday, Dawson at Stanton May 2 and Klondike at Stanton May 3.

Bill Cook May Be Next Great Texas Golfer

By WILLIAM C. BARNARD Associated Press Staff

It wasn't raining. The boy was wearing galoshes because he had worn out his only pair of golf shoes and when you smack a golf ball you don't walk your feet to hell.

His name was James William Cook, just turned 12, and everybody at the Piney Woods Country Club at Nacogdoches knows him as Bill Cook, his dad, J. E. Cook, is manager of the club, and young Bill is a golfing sensation in East Texas.

"I want you to hit a few for this fellow, Bill," the elder Cook told his son.

Bill didn't say anything, just got his golf clubs and a bag of balls and went out on the fairway, a very fine fairway, incidentally, heavily bordered with towering pine trees.

He didn't look 12 and certainly didn't look like a golfer. He is only five feet tall and weighs only 90 pounds, a sturdy little chap with grey-blue eyes and sandy hair.

And then Bill hit the first ball, hit it with amazing ease and naturalness and a beautiful follow-through, and it went right down the center of the fairway, for better than 200 yards. That was just a starter. The boy hit two dozen more balls. Every one went right down the center—every one perfectly hit. It was like watching a machine.

"That's enough, dad!" "That's enough," said the elder Cook. And then the father told us: "Soon as Bill gets bigger and stronger he'll get more distance. So far, his longest drive is 245 yards. When he can get distance, he'll be a golfer."

Bill began caddyding when he was 10 and still does. A year later he was playing a bit in six months he was breaking 100 for 18 holes. Six months later he was shooting regularly in the low eighties. He was 11 when C. D. Thomas, Jr., Say Hayter, Jr., and Royce Beall of Nacogdoches took him to an invitational tournament at Jacksonville and entered him. He won his first match—against a boy of 18—but lost the second. Since then he has won matches in invitational tournaments at Palestine, Lufkin, and Henderson, at Palestine, last year, he got as far as the semifinals before he was beaten. And he beat four men to win the first night trophy in the Nacogdoches Club Tournament last year. Bill was 12 then. Here are his 95-hole scores for that tournament: 85, 75, 83 and 80.

PRIDE OF WOODS Young Bill is the pride of the Piney Woods membership. "Never saw anything like that boy pitches and puts," C. D. Thomas, Jr., told us. The elder Cook said: "Bill doesn't pay any attention to pressure in tournament play. I don't think he has any nerves. He never blows up."

Bill is in the seventh grade—makes straight A's. Never had a golf lesson in his life. "What do you want to be when you grow up, Bill?" "I'd like to be a pro if I can learn to be a good golfer."

"Don't you get tired, playing 96 holes in these tournaments?" "Now," said Bill. "Why should I get tired? Someone else is carrying me out."

YARBRO ACCEPTS POST AT BLUM Dan Yarbrow, one of the greatest basketball players ever to play for Foran high school, is coming back to Texas "because he's homesick," according to wire dispatches.

Yarbrow, who attended Foran high school in the '30's and later starred at North Texas Teachers college, has accepted the coaching job at Blum, which is in Hill county not far from Hillsboro.

Dan has been basketball and track coach at Lehigh university, Bethlehem, Pennsylvania, for the past several seasons.

The Yarbrow family, which includes two children, will move to Blum in June.

By The Associated Press... The Lubbock Hubbers found themselves the sole possessors of the top spot in the West Texas-New Mexico League today, after having pounded out a 14-10 win over the Abilene Blue Sox.

Clovis dropped a half-game behind the Hubbers when its Eddie withberger was suspended due to cold and high winds.

HOW DOES HE DO IT?

Rae Scarborough Silences Red Sox Power Again, 3-0

By JOE REICHLER Associated Press Sports Writer

What strange power does Washington's Rae Scarborough hold over the Boston Red Sox?

Joe McCarthy, Boston's puzzled manager, would give half his salary to find out. Tom Yawkey, the Red Sox' wealthy owner, went even further than that. He reportedly offered the Senators \$200,000 and two players for the pitcher's services, just so that his club would have to face him. He was turned down.

And no wonder. Scarborough, just another pitcher to the rest of the American League clubs, is Christy Mathewson. Walter Johnson and Cy Young rolled into one when he comes face to face with the hard hitting Red Sox. He thrives on them.

In six seasons in the big leagues, the 32-year-old righthander has won only 28 games and lost 43 to the six other clubs. Against the Red Sox, Rae boasts a gaudy 10-3 record. No wonder the New York Yankees offered six players for him recently.

Scarborough met up with the Red Sox for the first time this season last night. He proceeded to shut them out, 3-0. Three hits were all the power-laden crew could get off his offerings and all were made by one player—Al Zarilla, who rapped out two doubles and a single. Three other reached base by bases on balls.

Only once before in the major leagues has a player collected all three of his team's hits, that was all the way back in 1910 when Jimmy Sheekar of the Chicago Cubs made three against Harry Gaspser of the Cincinnati Reds, and the Cubs won the game, 1-0.

The Red Sox-Washington game marked the first time Scarborough has faced Joe McCarthy's men since he beat them, 2-1, last Sept. 28.

The defeat knocked out first place from a deadlock with the Yankees. It eventually proved the margin of defeat as the Yankees won the pennant by one game. Exactly a year before — Sept. 25, 1948 — Scarborough pitched a 4-2 triumph over the Sox. That loss cost them the '48 flag.

The Senators scored all their runs in the eighth. Until then Al Pappal had kept pace with Scarborough, holding the Nats to four hits. Then Washington tallied three times without getting the ball out of the infield.

As if losing the game wasn't enough, the Sox may have lost the services of Dom D'Amico for an indefinite period. The brilliant centerfielder was forced to leave the game with a stiff right leg after the fourth inning. Ted Williams, recovering from a seige of the grippe, was back in uniform but was still too weak to play.

Another masterful pitching performance was turned in by Max Lanier, veteran southpaw hurler of the St. Louis Cardinals. The pardon ed Mexican League jumper threw a four-hitter at Cincinnati last night in defeating the Reds, 1-0. Ken Haffnerberger, who holds two L.H. shutout victories over the Redbirds, was the unfortunate loser.

Lanier was the whole show. He drove in the lone run of the game with a double.

Brooklyn defeated the Boston Braves, 6-4, in the National League's only other game, scoring the winning runs in the seventh inning on a wild throw by Catcher Del Grandall. The youthful catcher threw the ball into left field attempting to pick Duke Snider off third and both Snider and Carl Furillo scored.

Dick Donovan, making his first start in the majors, was the loser. Don Newcombe was credited with his first victory although he needed help from Willard Ramehall in the ninth.

Rain and wet grounds wiped out the rest of the major league schedule.

STEER TRACKSTERS IN ABILENE MEET

Big Spring is one of 15 West Texas high schools which will be represented in the second annual Abilene Invitational track and field meet at McClintock college Saturday.

Five records for the Abilene meet are held by ex-Big Spring athletes. They were all set in 1948, only year the tourney was held.

Records held by Big Springers are: 880-yard run—Leon Lepard, 2:01.9. Mile run—James Fannin, 5 minutes flat.

Mile relay—Big Spring 3:38.4. Pole Vault—Harold Berry and Hays of Brady tied, height 10'5". Discus—Delmer Turner, distance 119'2".

Other schools which are entered in the second annual meet are Brownwood, Sweetwater, Abilene, San Angelo, Clyde, Graham, Lubbock, Cisco, Hamlin, Cross Plains, Brady, Stamford, Abilene, Albany and Childress.

Games Today... LONGHORN LEAGUE TONIGHT'S GAMES: Newell at Midland, Big Spring at San Angelo, Odessa at Sweetwater, Pampa at Lubbock.

AMERICAN LEAGUE: Brooklyn at Boston—Hatten (9-0) vs Pappal (1-0) vs Richford (0-0), Philadelphia at New York—Mayer (9-1) vs Jones (8-1).

Several Disputes Reported in March... AUSTIN, April 25. (U) — Texas labor-management disputes had 2,128 workers off their jobs at one time or another during March, the Texas Employment Commission reported yesterday.

Thirty-four disputes still existed at month's end after 13 new ones began and four were settled during the month.

Dawson Stars In 23-9 Win

By The Associated Press... Midland did things up in grand Longhorn League style last night by rolling up the league's highest score this season with a 23-0 bombardment of Roswell's pitching.

Lou Dawson, Midland center fielder, was a one-man wrecking crew. He blasted a grand slam homer, another homer with two on, a triple with three on and a single with two on to personally account for 11 runs.

Odessa continued to hold down second place in the standings with a 14-0 victory over Sweetwater. Aided by wind, walks and errors, the Oilers broke an eight-all tie in the ninth inning with six big runs for the win.

Led by Potato Pascual's two-run swat in the first inning, the defending champion Big Spring Broncs beat San Angelo 8-3. The Broncs added three insurance runs in the second on three hits, a hit batter and an error.

Ballinger at Vernon was postponed due to high winds and cold.

Local Dog Wins Dallas Event... Reigate Citation, Dalmatian dog owned by Mr. and Mrs. Roger L. Fancey, Pook-A-Dot Cocker Kennels in Big Spring, won honors in a dog show sponsored by the Texas Kennel Club, Inc., in Dallas recently.

Reigate Citation was named the best animal of his breed by the judges. The show was the 44th annual event and had 711 entries of the various breeds, a record for the state.

A portion of the show was televised to audiences in the Dallas area. Reigate Citation, handled by Mrs. Fancey, was among the dogs parading before the camera.

Fran Haus May Lead Houston Out Of Cellar

By HAROLD V. RATLIFF Associated Press Sports Editor

Fran Haus has personally escorted Houston out of the Texas League cellar and into a first-division challenging position.

The Buffs who were either last now are virtually tied with Beaumont for fifth. And it's because of the irreplaceable Haus.

The second baseman, who was with Omaha last year, where he batted only .242, has pounded five hits in eight trips the last two nights, driving in six runs and being responsible for each Buff victory.

Last night Fran tripled with the bases full in the seventh to highlight a Houston spurge that scored five runs and gave the Buffs a 5-3 decision over San Antonio. The night before he singled in the ninth to drive in the winning runs against Beaumont.

Shreveport rolled along at the head of the league. The Sports have been the major surprise of the race thus far. Not expected to finish even at the top of the second division, Shreveport has won some of eleven games and today boasts a two-game lead over second place Fort Worth.

Last night Shreveport edged Beaumont 7-6 by shoving over six runs in the fourth inning. Four Sport hits and the wildness of Zeke Meligano brought the half-dozen tallies.

Fort Worth roared from behind to lick Dallas 9-5, pushing four runs across in the fifth inning to do away with a 4-3 Dallas lead compiled on home runs by Lou Morton and Bill Klaus. Kings hit his with two on base. Only one was ahead of Morton when he parked the ball.

Tulsa whipped Oklahoma City 5-1 mostly on the pitching of left-hander Moe Savransky. He gave the Indians only six hits while Tulsa was cloaking 12. Bob Neiman featured the Oiler offensive with two home runs, driving in five runs.

Big Spring motorcycle enthusiasts turned from a celebration of Garner Thixton's hill-climb victory during the weekend at Mineral Wells to round out plans for the AMA sanctioned two-star race here Sunday afternoon.

Thixton, riding a 74 overhead Harley Davidson job put together by his father, Cecil Thixton, took the grandchampionship at Mineral Wells. On the 70-degree climb of a 375-foot hill, he finished second with 362 feet in the eliminations...

Because the Big Spring Motorcycle club has experienced some difficulty in securing a new track location, V. A. Merrick has permitted continued use of the track west of the city park entrance.

A favorite, now back home and listed under Big Spring colors, is Lee Christian. For the past two years in competition here, Christian has been riding under Lubbock colors.

HONG KONG, April 25 (AP)—A Texan was one of the last persons out of the evacuated Chinese Nationalist headquarters of Hailow on Hainan Island.

He was Weldon Bigony of Big Spring who piloted one of the last two civil air transport planes to make the flight.

Anti-Communist Greeks blame the British "do nothing" attitude toward the Reds on a desire to keep the Cypriots from uniting in demanding "enosis"—union of Cyprus with Greece.

The anti-Communist Cyprus Confederation of Labor has only about 5,500 members—one-third the number in Communist unions.

The Reds are strongest in the four chief strategic points—the main ports of Famagusta, Limassol and Larnaca, and at Marposh, near the big American-owned copper mine of the Cyprus Mines Corp.

Two BSHS Students Eligible For State School League Meet

Two Big Spring high school students are eligible to participate in the State Intercollegiate League meet at Austin May 4-5 as the result of first place victories in the regional tournament at Lubbock last weekend.

Billy Wayne King, Steer track star who copped first place honors in the pole vault with a leap of 10 feet, 6 inches, and Rolly Sealwell, winner of the senior boys' declamation at the regional meet, will attend the state tournament at the University of Texas, school officials have indicated.

Three other Big Spring high students won places in the regional competition. Peggy Lamb placed second in the senior girls' declamation event, while Jo Ann Miller won first place in the junior girls' declamation.

Dolores Franklin placed third in the editorial writing division of journalism events.

BIG MUDDY OVERFLOWS—Farm buildings one mile from the Missouri River lay under water as the Big Muddy swelled over some 4,000 acres of Nebraska land, about 17 miles north of Omaha. A crest of 23 feet, 1.5 feet higher than in the 1943 flood, was expected before the flood subsides. (AP Wirephoto).

C OF C HONOREES Trail-Blazers Raise Stirring Challenge

Two trail-blazers raised a stirring challenge to chamber of commerce directors here Monday.

Lauded by Mayor G. W. Dabney for what they had done, B. Reagan and M. H. Morrison, early-day chamber presidents, expressed pride in the chamber's contributions but urged community leaders to bear down for post-war things.

The two were spokesmen for work presidents, who were honored at the directors' meeting at the Setles.

"I have never tried to overestimate," said Mr. Reagan, "but I know what I'm talking about when I say this city owes the chamber of commerce a debt of gratitude... for what it has done... I can't think of any worthwhile economic achievement that the chamber of commerce didn't help bring here, and sometimes over opposition."

He praised volunteers who banded together as the commercial club nearly two score years ago, giving time and spending their own money for building the city and county.

Mr. Morrison, who had been lauded by Mr. Reagan as the man responsible for state and national highway designations on US 80 and US 87 through Big Spring, observed that the only way "you can see what the chamber has done would be to have seen the city when I came here in 1908 and see it today."

He added that in the early days "we had to work together—we were too few." Then he added that if citizens do not wish to be forgotten "you better not crawl in the hole in pull it in after you. You'd better be willing to work every time you're given the opportunity, x x x somebody's got to have a vision, and the rest of us must fall in behind and work it out step by step."

While he spoke to the past presidents, Mayor Dabney said he wanted to put his message on a "personal basis" to all people. Real achievement is measured by what a man gives to the world, and not what he takes from it, he said.

He urged directors to "keep your eyes on objectives and never on personalities" and to seek to "develop those good points which make a successful man different from the average man."

The mayor said that projects and goals should be "put on a higher basis than mere money." He paid his respects to "real leaders who go to the end of the row." Mayor Dabney also complimented Chamber Manager J. H. Greene as being the man responsible for a great measure of the chamber's success.

Among the past presidents introduced by President A. Swartz were Mr. Reagan, Mr. Morrison, Shine Phillips, Dr. W. B. Hardy, George G. White, Ben L. LeFevre, Dr. P. W. Malone, Ted O. Groebel, R. W. Whipkey, R. T. Piner and Joe Pickle. At the nomination of Swartz, Douglas Orme, immediate past president, was named a member of the board of directors.

Swartz announced that clean-up week activities were underway, and that a committee from the chamber would join with others in an appeal this week to the state highway commission to make US 80 a four-lane highway from Cosden to the airport.

Guests for the day included Dr. L. B. Andrew, Dr. F. L. Dossay, and John Weis.

Papers Print Propaganda, Official Says

NEW YORK, April 25. (AP) — William Dwight, general manager of the Holyoke, Mass., Transcript-Telegram, said today that "clever propagandists" are using newspapers "to put their subversive ideas across."

Dwight was among speakers at the first session of the 64th annual convention of the American Newspaper Publishers Assn. devoted to publishers of newspapers with from 10,000 to 50,000 circulation.

The final event of the general sessions will be held tomorrow and officers will be elected. The convention will be a banquet of the association's bureau of advertising Thursday night, at which former President Herbert Hoover will speak.

Dwight said in a prepared speech that a major problem of a free press is "the drift in this country toward a welfare state, toward socialism, toward anything you want to call it."

"Everything which has made America the envy of the world," he said, "we are now throwing away for a phony security and a creeping collectivism."

He urged publishers and editors to resist the propaganda of pressure groups which "to gain their objectives would be willing to destroy our free press and the personal liberties we cherish."

"We print columns of propaganda," Dwight said, "under the guise of news, advertising those things which we know threaten to destroy us. We justify it on the basis that we are broadminded and want to give both sides of the story."

"If we only would give both sides of the story, instead, the clever propagandists are using us to put their subversive ideas across while many of us stand by silently."

Stanton Asks \$125,000 Bids For Extensions

STANTON, April 25.—Bids will be received May 3 at the city hall in Stanton on approximately \$125,000 in sewer and waterworks extensions.

Legal notices have been published for the projects, made possible by voting of \$75,000 in water improvement bonds and \$50,000 in sewer extension bonds on March 16. The water bonds carried 184-5, the sewer extension 183-5. H. C. Shaffer Co., Amarillo, is handling sale of the bonds which average out in excess of 2.75. One block was bid in at 3.25, said G. B. Shelburne, city secretary, another at 3 and a third unit at 3.25.

The bonds, callable after 10 years, are being printed and will be sent to the attorney general, probably this week, for an approval. Proceeds are expected to be on hand by the time bids are opened at 3 p. m. under orders from Mayor R. B. Whitaker.

Bidders will be required to post a \$5,000 cashiers check with bids. Specifications can be secured from the City Secretary at Stanton, or the Texas Contractor's office, or from the supervising engineers, Haskie & Green, PO Box 1139, Lubbock. A refundable deposit of \$25 is required.

Test well for possible development of additional water supply has been started in the city park area. It is there that Stanton hopes to construct a 50,000-gallon ground water storage facility to augment its current reserve. The water main and sewer line extensions in the city belt the general area.

Houston Cracks Down On Canned Meat

HOUSTON, April 25. (AP) — City officials have cracked down on improperly inspected canned meat being sold in stores here.

Dr. R. S. Martin, head of the city meat inspection division, yesterday warned Texas meat packers to remove all such canned meat from grocery shelves immediately.

Martin said much canned meat has been sold here without showing any markings indicating the cans have been inspected properly. He said this applies only to Texas products, in that canned meat from other states bears federal inspection labels.

MRS. WALLACE C. CARR

MAN BELIEVES IN HOMEWORK

LOS ANGELES, April 25. (AP) — Missing "Lonely Hearts" Club Mr. George H. Ashley's wife says he brought his work home with him.

Ashley, 52, sought on charges of swindling middle-aged women of \$200,000, took \$25,000 from his own spouse, Mrs. Christine Ashley, 47, yesterday told Dep. Dist. Atty. Herman Arterberry.

They met last May when she joined the club, she said, and they married a month later. She accused him of selling or mortgaging some of her property at a heavy loss.
