for the past eight years and had worked for the company in previous years. Other employees include E. D. Allen of the service department; Bo Hood, mechanic; Clyde Benton, parts department; and Veon Howard, part-time book-keeper.

Rushing was born and reared in Desdemona, attended school there and was three times mayor of the city. He operated a drug business there during the boom days. He was president of the Desdemona schools for 12 years, was manager of Southwestern Bell Telephone Company for 13 years, was employed with Texas Electric Service Company for 10 years and operated a Ford automobile agency there for 18 years. He served as an instructor for the government during World War II and came to Eastland in the latter part of 1943. He is the son of the late Mr. and Mrs. Marvin T. Rushing.

He and his wife, Orita, have three children and six grandchildren. Their children are Mrs. Dolores Miller of Eastland; Mrs. Gordon L. Smith of Brownwood; and Mrs. Patricia Ruth January of Dallas. Mr. Rushing said with pride, "All three of my daughters are graduates of Eastland High".

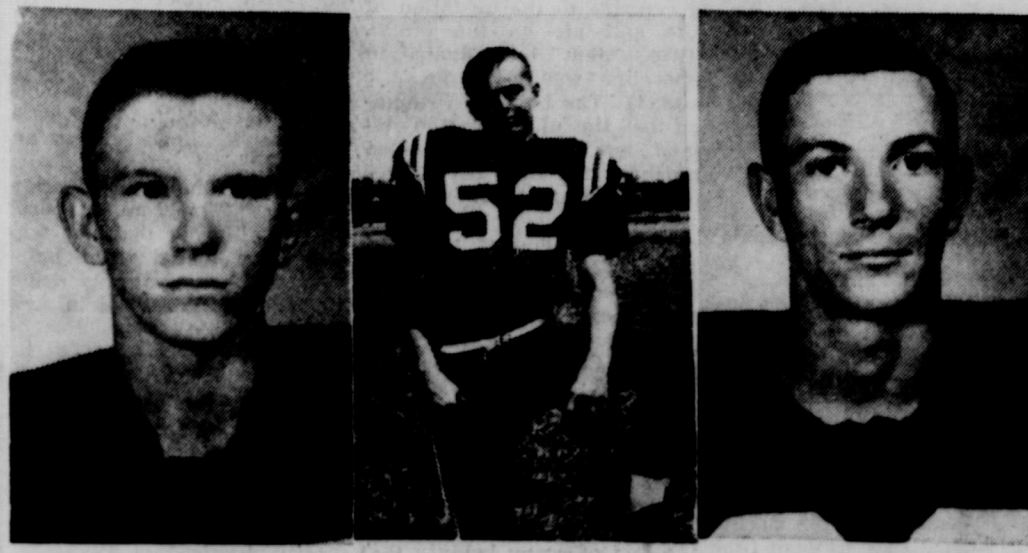

When asked about his grandchildren, he answered, like a typical grandfather, "I probably could tell you more about them than my own children". Grandchildren are Mike Miller, Tim January, Darrell Smith, Sherry Lynn January, Terry Smith and Richard Rushing January.

Mr. and Mrs. Rushing are active members of the First Baptist Church. He is a member of the Masonic Lodge, KP Lodge, Lions Club, a member of the Eastland Chamber of Commerce and its Eastland New Car Dealers Association.

Revival Begins Today at Bethel Baptist Church Here

Revival services began today at the Bethel Baptist Church and will continue through Sunday August 30. Evangelist is Rev. Floyd D. Newberry, pastor of the First Baptist Church of Gordon. Rev. H. B. Terry, Jr. is pastor for the meeting. Frank Parks, song leader of the Carbon Baptist Church, is music director for the revival services.

Workers for the department during the prayer services will be: Mrs. Wade Coan, Mrs. James Glenn and Connie Coan, elementary departments; Mrs. T. M. Clark and Mrs. H. B. Terry, Junior department; Rev. Terry and Rev. Newberry, Intermediate and Young Peoples departments.

Mrs. T. M. Clark will be pianist and Homer Terry will be organist during the revival services.

Rev. Terry, pastor, extends a cordial welcome to the public to attend the services.

Services will be held each morning at 10 a.m. and prayer services each evening at 7:30 p.m., with the evening worship service at 8 p.m.

Rev. Terry announced that there will be prayer services for all ages each evening during the revival and the nursing home will be open during the services.

Rev. Newberry is a graduate of Hardin-Simmons University, Abilene and has studied at Southwestern Baptist Theological Seminary, Fort Worth. He has pastored in Texas and in Kansas.

Lifelong RS Resident Dies; Rites Thursday

Funeral services for Edward Lee Burkhead, 83, lifelong resident of Rising Star, were held at 4 p.m. Thursday, August 20 at the Higginbotham Funeral Chapel of Rising Star with the Rev. Milton Slayden, pastor of the Rising Star First Methodist Church officiating. Burial was in the Rising Star Cemetery.

Mr. Burkhead died at 7:30 a.m. Wednesday, August 19 in the Rising Star Hospital where he had been a patient 10 days. Born March 19, 1881 in Rising Star, he married Clara Jacobs there December 12, 1912. He was a retired stock farmer and had formerly operated a cafe there. He was a member of the Presbyterian Church.

Survivors include his wife; one daughter, Mrs. Juanita Clark of Lovington, N. M.; two sisters, Mrs. Maud Mauk and Mrs. Mabel Falls, both of Irving; and four grandchildren.

Transfer Pupils Asked to Register

Youngsters who have moved to Eastland and will be attending the Eastland public school system here for the first time this year, have been asked to register at the school office prior to the opening of school, Principal Charles Marshall has announced.

The school office is located in the high school building. Only those who will be attending the local school here for the first time should be pre-registered he said. This does not apply to freshmen transferring from junior into high school.

JP Wells Dalton Attends Meeting

Eastland Justice of the Peace Wells Dalton attended an FBI-sponsored law enforcement workshop in Abilene on civil rights and "The Fleeing Felon" at Lytle Shores clubhouse. The conference, one of several being held across North Texas, was attended by policemen, sheriff's officers, members of the Department of Public Safety and other lawmen.

Physicals 'Must' For Junior High Football Boys

All Junior High School prospective football players for next season are urged to make an appointment with their family doctor for their physical examination as soon as possible, as this must be done before the first day of school, which will be September 1, according to an announcement by Coach Kenneth Norris.

University Interscholastic League physician's and parent's certificates for athletes are at the local doctor's offices. The University Interscholastic League rules require this certificate for competition to be completed and filed with the school before a student may take part in athletics.

54 Students Report For Band School

Fifty four Eastland High School band students reported for practice at the Band Hall on Eastland hill Monday morning, according to John Foster, band director.

Band school will be held each morning at 8 a.m. for the next two weeks. Students will practice marching and playing during these two weeks.

Junior High band students will not begin practice until school starts, according to Mr. Foster.

Balph Brother Incident Is Confusing, Involved

Did Rog and Dave pay a fine in Eastland, or didn't they? That topic has been discussed around town all week — and at best the answer is confusing.

No money changed hands apparently, although the official Justice of the Peace records Friday showed that the traveling musicians were "assessed" a fine of \$16.50 each.

Both Rog and Dave Balph and their manager, Mary Henson, stated that they did not pay a fine.

Official reports sent to the Department of Public Safety showed that fines were paid. Public sentiment was for the young men and presumably the recorded charge against them will be dismissed. The court record showed that fines had been assessed but no entry of payments had been made.

Desdemona Schools Open August 31

Desdemona schools will open August 31, according to Superintendent Cedric Bettis. All students will register and classes will begin on this date.

Teachers in the Desdemona schools include William B. Blankinship, principal; Don Box, high school math; Mrs. Aaron Henelsee, English; Mrs. Cedric Bettis; Mrs. Dale Keyes; Mrs. Flora Singleton; and Mr. Keith McDonald.

The Balphs, Los Angeles-based, obviously don't own property in this county, and were therefore locked up in the county jail. This about 9 p.m. Monday. Telephones began ringing and conferences were held. By midnight, local persons had rounded up proper property bonding and got the boys out of jail.

Tuesday morning the young men appeared again before Judge Dalton, and contrary to (Continued on Page Two)

Good Progress Reported After Mavs' First Week

The Eastland High School football team has been hard at work this past week with drills and scrimmage for the 1964 season. According to head coach Millard Glass the young team has desire and ability to go toward the goal of victory.

Coach Glass reported that there are about forty boys out, with hopes of two more.

Coach Glass has been well pleased with the entire backfield. Jerry McCullough and Mickey Sargent have been doing a great running job the past week and will be likable starters for the season, the coach says.

Because of the lack of weight and experience, the line seems to be the weakest part of the Maverick squad.

Line hopefuls for this year include Charles Moon, a first year tryout, Fred Keith, a freshman, and Bill Boles, a junior.

Coach Glass reports that several boys have been proving they really want to play ball and these include, James Fullen, James Whitehead, Jay Daniels, and Bill Bass.

Glass commented that Comanche has lost several good players and are not real big, but are improving.

One fortunate thing that Coach Glass reports is the fact that there have been no injuries except for minor cuts and bruises. He hopes this continues for the sake of the team.

Coach Glass commented that he has some great Senior leaders which consist of Wayne Waldon, Garry Rollins, Gaylon Griffin, and Norman Rhodes, all of which are returning lettermen. Walden, Griffin and Rollins have been elected captains.

The offense for this year has been changed to an I-T which was made famous by Southern Cal. This offense has great possibilities because of the 36 different formations which can be run from it.

Because of the number of boys who have come out for football, Coach Glass has scheduled nine B team games on Saturday mornings. The reason for this is so every boy who does not play on Friday will get some experience from playing on Saturday. The Saturday morning games also benefit those who want to be out of town on Saturday nights or Sundays.

Several freshmen boys have come out, they include Bill Bass, Fred Keith, Jay Daniels, Boyd Porter, Alfonso Geato, Tommy Herrea, Ronnie Chick, Wade Thomas, Steve Lund, Bob Day, Rusty Herridge, Tony Lowrance, Larry Terrell, Wyn Boen, Philip Hunt and Rickey Manke.

Coach Glass says that he hopes all the Eastland people will back the Mavericks this season. He concluded by saying that he has enjoyed this week of practice and working with the boys more than ever before because of the cooperation.

High School Trio Injured in Crash

Three Eastland High School football players were injured in a two car accident Friday morning.

Gene Wilson, driver of a 1951 Chevrolet, was being held for observation at the Eastland Memorial Hospital, while the driver of a 1954 Ford, Tony Lisenbee was treated and released. Bill Bass, a passenger in the Wilson's car, was also treated and released.

The scene of the accident was at the intersection of Valley and South Connelley streets.

According to the investigating officer, R. D. Arnold, the cars were total losses.

Emergency Feed Assistance Request Okayed by State; Being Considered by USDA

The state disaster committee has passed on to Washington Eastland County's repeated request that it be designated a disaster area because of the drought for emergency feed assistance, it has been reported.

The county disaster committee re-filed the request immediately after having been denied the designation on the first request recently.

Both Eastland and Callahan counties have been referred to the Department of Agriculture for consideration under the special program, it is reported. At the time of the first request, the state committee told local officials that the program has not been approved for any Texas coun-

ties, and so apparently these two counties believed to be the hardest hit by the continued dry weather, are the only Texas counties under consideration.

However, several New Mexico counties are being considered by USDA, it is reported. Official word will probably come from Washington as to the approval or disapproval.

This county participated in an emergency feed program winter, providing certain feed stuffs, delivered to ranchers and stockmen to use as feed because of the lack of grassland.

A program in which landowners are being permitted to graze soil-banked land in the county is now underway and is providing some needed relief, it is said. This program will run through October.

Grain sorghums and a limited amount of corn was made available last winter and the sorghums are expected again, if the request is approved.

Local Pool To Close Today

The Eastland City Park swimming pool will be closed for the season, Sunday, August 23, (today) according to Lewis Tiner, city manager.

An average of approximately 75 persons per day made use of the pool since it opened the first week in June. Attendance at the pool showed an increase over last year, possibly because of so much dry, hot weather, Mr. Tiner said.

A learn-to-swim program was held at the pool in June and was sponsored by the City of Eastland and the American Red Cross.

Tarantulas have a very delicate sense of touch.

Two 'Tom Sawyers' Attempt 'Travels of Charlie' On Bikes

By KAREN TAYLOR

With muscles, effort, will power and a pair of wheels, two young Yankees showed up in Eastland Monday to do their wash and see the sites. The improbable situation came about when two boys from Maryland bicycled in, midway through a cross-the-pation bike trip. Johnny Cardinal, 18, and Bill Brandenburg, 17, both of Oxon Hill, Maryland left home on two English racer bikes July 15th, and 19 days later pedaled into Eastland. Nine days from now they plan to meet Johnny's parents in San Bernadino, Calif.

The ride will be by automobile.

The duo decided shortly after their spring graduation from Oxon Hill High School, Md., to spend the summer biking across the United States. Their parents first thought they were crazy, but finally decided it might be work. Johnny's parents, Mr. and Mrs. Louis Cardinal of Oxon Hill agreed to meet the two boys in San Bernadino on a leg of their vacation trip. Bill's parents, Mr. and Mrs. Fred C. Brandenburg, also of Oxon Hill, agreed.

The boys bought two English racer bikes, 10-speed Raleighs, and left Oxon Hill July 15th with a month to pedal across the United States to California. They took several pairs of bermuda shorts, tee shirts, one pair of Levis, a pan and knife and fork, sleeping bags and water canteens, all of which they carried in Brooks Bags on their bicycles. But the main thing they packed away was a bundle of energy and plenty of determination. They have averaged 100 miles a day so far and the best traveling they have done was 120 miles one day.

The weather has grown increasingly hotter, and they plan to start sleeping during the day and biking at night in the cooler air. Average temperature in Maryland was 90 degrees, and they've run into plenty of weather much hotter than that so far, and are looking for worse in West Texas, New Mexico and Arizona.

The two boys, wiry, slender

and with calves that are growing increasingly muscled during the trip, have run into very little trouble on their trip. The gear cable in Bill's bike has broken twice, but he watched it repaired the first time and was able to do it himself the second time — one example of the couple's ingenuity.

They ran into six days of steady rain in the eastern United States, but just kept right on pedaling. One boy said a day of rain right now might not be so bad after all the hot weather they have biked through. Eastland Countians would probably heartily agree.

They've had more good luck than bad, and found that people most everywhere are kind, warm-hearted, generous and understanding. A man in Columbia S. C. took them home with him fed them and gave them a bed to sleep in.

"A bed to sleep in might not sound like much to you" Bill said "but when you've grown accustomed to the ground it's really something."

A Roberta Ga. policeman directed them to a motel owner who gave them an air-conditioned room with television hot shower (which they more than appreciated) and breakfast before sending them on their way with a "few odds and ends to take with us."

A Mississippi man gave them breakfast on the house if they promised to send him a post card.

Coming South from their homes in the North the two boys found Southern hospitality very apparent as evidenced by the examples above. They say that their accents probably sound as strange to Southerners as ours do to them. But it's all part of the experience and they're enjoying every minute of it.

There are disadvantages all right. They both admitted to being a little homesick and they have a strange sensation of being "tired of but constantly moving." "It's kind of depressing having to stop in towns where there's no place for us" Bill said.

Johnny admitted that the

Desdemona News

By Ethel Keith

The nice rains of the past few days was greatly appreciated by farmers and cattlemen in this area.

Virgil Northcutt, 62, stockman and oilfield worker was buried August 11 at Ranger. He is survived by his wife, Salada, his mother, three brothers and two sisters.

Mr. and Mrs. Mabry Greenburg and children of Petersburg visited relatives here Sunday.

Mr. and Mrs. Ray Johnson of Lubbock spent the weekend with his parents Mr. and Mrs. Doyle Johnson and brother, Mr. and Mrs. Clyde Johnson.

Mr. and Mrs. Earl Lane and grandson of Copperas Cove spent the weekend here with relatives.

Guests of Mr. and Mrs. H. F. Wade last week were Mrs. Jim Garrison and daughter of Fort Worth, Mr. and Mrs. F. Butler, Mr. and Mrs. Pat Butler, of Crain, Mr. and Mrs. M. C. Riddle of LaMogue.

hardest part of the whole trip "is the bike seat."

The boys said that they wondered coming through the land to the east of Ranger in the Thurber area if it were a real desert. They said they were looking forward to the flat plains area in West Texas since there wouldn't be any hills to bicycle up. They said they seldom had to climb a hill a foot pushing their bikes and could drive up most of the hills they came to by just putting the bike in a low speed.

They have received mail along their trip at scheduled mail stops and stop occasionally to do their wash "When everything just gets filthy" as they did at Eastland's Laundromat 515 West Main where Mr. and Mrs. C. W. Newnan owners and operators were temporary hosts for the two boys.

Johnny plans to attend Prince Georges Community College in Maryland this fall and Bill will be a freshman at the Baltimore Art Institute. They'll be college men then but right now the summer is just a mixture of Tom Sawyer Huckleberry Finn and the "Travels of Charlie".

Mr. Henry Sikes and son of Graford, and Mrs. E. G. Schellberger of Randolfull, Germany. Mrs. Schellberger is a teacher and is on a good will tour of the USA and brought many beautiful slides, and also records of their favorite music.

Mr. and Mrs. Howard Wade were hosts for a dinner party honoring their nephew, Bill Mosely of Ranger on his 8th birthday Monday evening.

Mr. and Mrs. Sam Sparks of Anchorage, Alaska have been here visiting their parents, Mr. and Mrs. F. F. Sparks.

Mr. and Mrs. Gene Stevens and children of Abilene attended Church of Christ services Sunday and were dinner guests of Mr. and Mrs. Troy McKillieps.

Guests last week in the home of Mr. and Mrs. W. H. Davis were her brother, Mr. and Mrs. R. B. Cotton and son Robert B. Cotton III, and Barbara Ann of Amhurst, Va., a sister-in-law of Mrs. Davis.

The Methodist revival closed Sunday following a week of services.

Mr. and Mrs. Vernon Duke of Lovington, New Mexico visited here last week with relatives.

Mr. and Mrs. Alvie Moss of Oklahoma City visited last week with his brother, Dennie Moss.

Little Derrel Blankenship who is at a childrens school at Mexia is home on a two weeks visit with his parents, Mr. and Mrs. Bryant Blankenship.

RANGER JUNIOR COLLEGE

Fall Semester - 1964

REGISTRATION SEPTEMBER 14 CLASSES BEGIN SEPTEMBER 15

- Fully Accredited Courses.
- Modern Facilities.
- An Excellent Faculty.
- A Complete Athletic Program.

Young men and women planning careers in medicine, business, dentistry, science, education, law, engineering, music, physical education and other fields will find at Ranger Junior College the courses they need toward degrees. Our curriculum is parallel with the first two years of a four-year college.

Our faculty members keep abreast of their profession by constantly improving their academic standing through further post-graduate study. Courses are offered for those who seek degrees in certain fields and for those who want specific training, but do not plan on advanced studies. Inquiries are invited.

Kitchen clean-up a BIG chore at your house?

Change to clean flameless electric cooking!

There's no fuel grime to scour from the bottoms of utensils from kitchen walls and woodwork when you cook the flameless electric way. Electric cooking is clean because electric heat is pure energy... as clean as sunshine. There are no by-product combustion from electric heat. And the flameless electric oven no oxygen to operate, so there's no flow of air into and carrying cooking vapors into your kitchen. Your utensils, the range itself stay cleaner with much less washing and your electric range dealer soon and start cooking the clean electric way!

TEXAS ELECTRIC SERVICE COMPANY

FRANK SAYRE, Manager Phone MA 9-2651

To Sydney By 2 Routes

Alice Springs, Northern Territory
 By JOSEPH PERKINS

One of the pleasant memories of our stay in Melbourne was a trip to the botanical gardens, where we had tea under a Chinese Hawthorne tree. We found in the gardens that what we in the U. S. grow as shrubs are grown as tall trees there. Whenever we are in British territory we find the finest parks and gardens.

At Melbourne, Emily and I took different routes for a week, she on a seven days escorted bus tour through the snowy mountains to Canberra, the nation's capital, then to Sydney where we meet again for nine days prior to our sailing for San Francisco.

I left Melbourne in the early morning on the 'Golden Boomerang', a super Viscount of the Australian National Airways for Alice Springs, via Adelaide, the coastal city in South Australia, where the plane put down for half an hour.

Central Australia is one great desert. In fact, it occupies forty four per cent of the entire continent. The day was sunny and from a height of eighteen thousand feet the land below was most interesting to observe at three hundred miles per hour.

The distance from Adelaide to Alice Springs is over nine hundred miles and I watched the entire distance and did not see a single habitation! I did see the transcontinental highway connecting Adelaide with the northern part of Darwin and twice I saw trucks that appeared to be crawling along.

The land surface is far from level, and the reddish brown landscape is streaked with narrow dark sandstone ridges. Between these ridges there were dry watercourses along both sides of which were fringes of low trees.

This desert country averages to get ten inches of rain a year but in the last six years the rainfall has averaged only four inches. The desert is unusually dry and the many saline lakes are dry or partly dry, with salt glittering in the sun. There is no vegetation at these lakes.

Shortly after noon I arrived at the Alice Springs airport and soon was in the modern motel style hotel, a pleasant place with a central court where the popular swimming pool is shaded by great gum trees. This is my third day here and there is a constant coming and going of tourists because Alice Springs, in the center of Australia, is a great resort town and there is much to see in the surrounding country, including Avers Rock, Palm Valley Glen Helen Gorge, and the Mac Donnell Ranges nearby.

Alice Springs is a town of

about five thousand people plus the never ending flow of tourists who come by air, bus, private car or train.

Two trains a week arrive from Adelaide. Besides being a tourist center, Alice Springs is the distribution center for a vast area. Being the capital city of northern territory it is the administrative center for the many aborigine settlements which in general correspond to our Indian reservations. Also it is the headquarters of the Royal Flying Doctor Service, which gives medical aid to the sparse population at cattle stations over thousands of miles of territory.

Last night the train from Adelaide arrived, three hours late. It was a sixteen car train, mostly freight, but with several passenger coaches, first and second class sleeper and a lounge car for first class passengers as fine as any I have ever seen on any rail road. The first 157 miles from Adelaide is on a five foot three inch gauge track. The next 280 miles is a standard four foot eight inch, and the last 504 miles is on 3 foot 6 inch gauge. The 930 mile run takes thirty four hours and passengers have to change trains twice enroute.

At 8:15 this morning I watched the bus leave on its three day run north to Darwin 954 miles away over a paved highway. I carried fifteen passengers and pulled a trailer truck loaded with tons of mail. There are two overnight stops on this run.

I will say more about this interesting area in my next letter.

 ... Gets BS Degree

Oran W. Rhodes Receives Degree

Oran Wayne Rhodes recently received his Bachelor of Science degree from McMurry College at the Abilene school's summer commencement exercises last Thursday.

Rhodes is the son of Mr. and Mrs. Doyal Rhodes, 206 Neblett, Eastland.

The Rev. Lloyd A. Hughes, pastor of Trinity Methodist Church in Albuquerque, was the commencement speaker. Rev. Hughes and the Rev. Marvin Caswell, pastor of First Methodist Church in Carlsbad, received honorary Doctor of Divinity degrees from the college.

Degrees were granted to 89 students at the summer commencement program.

RETURNS FROM VISIT

Mrs. Frank Lovett visited in Olney the past weekend with her sons and their families, Dr. and Mrs. J. P. Lovett, and Dr. and Mrs. R. E. Lovett Bobby, David, Dale, and Stephen. She also visited in Breckenridge with her daughter, Mrs. Nell Cates.

Arrington-Hamner Funeral Home

Serving Eastland County with ambulance and funeral service. Our ambulances are oxygen equipped and air conditioned.

Through our nation-wide connections with other funeral directors, we can handle a funeral from any point in America. We offer this service knowing that we can relieve the family of all burdens incident to any death away from home.

PUT HARMONY IN YOUR HOME

Class organ lessons will soon be offered in Eastland under the leadership of Mrs. V. Cyrus Barcus at 805 South Seaman Street.

An organ will be placed in your home for 2 months with class lessons weekly for a lot less than you would expect to pay for lessons alone.

This class is being formed now.
 For further information contact:

MRS. CYRUS BARCUS

805 S. Seaman MA 9-1653

This class is made possible by the sponsorship of —

Caldwell Music Co. — 221 Grape St. — Abilene

BOTTOM LEFT, A kitchen worker rinses dishes in the modern dishwasher below the new stainless steel ventilator which operates in such a manner to discharge hot steam and air from the dishwasher, thereby keeping the kitchen area cooler, cleaner and more efficient.

BOTTOM, RIGHT, Hospital Administrator Leon Musgrove is shown at the front of the new stainless steel walk-in refrigerator which has a 5 x 7 x 8 feet 4 inches measurement and provides cool 39 degree temperatures for crisping fresh fruits and vegetables and in the future will be equipped with a roll in tray shelf to hold prepared fresh vegetable salads for more efficient serving.

cook at Eastland Memorial Hospital prepare the new reach-in refrigerator recently installed in the hospital. The double doored stainless steel construction cooling for milk, dairy goods, etc. A tray of food is removed from the new stainless steel stove at the hospital. A double grill make the stove particularly efficient for hospital kitchen, which must provide approximately 7 meals per day, or 3 meals a day for patients.

Handling Facilities Improved Modern Equipment at Hospital

"We must be well equipped and very well organized to provide such a large number of meals to the number of patients that we always handle," he added.

The previous equipment before the recent extensive remodeling had been in service for 13 years, since the founding of the hospital, and with the remodeling and the more recent four additions, the hospital kitchen and cooking facilities are as modern as anywhere, he said.

The ventilator, a stainless steel construction, serves to discharge hot steam from the dishwasher and helps keep the kitchen cooler, cleaner with a forced air ventilation fan. The outlet goes directly outside.

The stove is a Southbend stainless steel with six burners and a double oven and grill.

The reach-in refrigerator is also stainless steel, doubled

doored and contains 34 cubic feet of space.

The walk-in refrigerator or "reefer" is primarily for crisping salads, fruits and vegetables and may be used for eggs and butter, etc. Average temperature is 39 degrees and the stainless steel construction measures 5 x 7 x 8 feet 4 inches tall.

The hospital has 59 beds in 34 rooms with 61 patients at the present time, including three babies in the nursery. Mr. Musgrove stated, which is almost above capacity. He said the hospital was full enough some times to necessitate beds in the hallways. An almost year round capacity number of patients is experienced by the hospital staff.

Eastland Memorial Hospital is privately owned and operated by stockholders. Construction in 1952 was through donations of money, material and labor by the citizens of Eastland. It is a non-profit organization.

Eastland has become the virtual medical center of Eastland County and the surrounding area, due to the fine, modern facilities and extensive care offered by Eastland Memorial Hospital. The four additions to the kitchen facilities are one example of the hospital staff's effort to maintain the highest of standards in patient care.

Four Receive Degrees At NTSU Aug. 20

Four Eastland County students were among the graduate students who applied for degrees that were awarded at North Texas State University, August 20.

Commencement exercises were at 8 p.m. at Fouts Field. Degree candidates from Eastland County were Henry Edward VanGeem, son of Mr. and Mrs. Henry E. VanGeem of Eastland; Betty Sue Wagley, daughter of Mr. and Mrs. Virgil R. Wagley and J. Nelson Williams, son of Roy L. Williams, both of Cisco; and Delmelia Dunn, daughter of Mr. and Mrs. W. C. Dunn of Breckenridge, who assumed her duties as Assistant Home Demonstration in Eastland this week.

TO HAVE PICNIC

Eastland Chapter No. 280 Order of the Eastern Star will have a picnic at 6:30 p.m., August 25 at the Lake cabin of Gene and Venita Rhodes.

All members and their husbands are invited to attend. Each member is to bring a picnic lunch.

Here are several ways to put a bit of magic into muffins.

For surprise muffins, fill muffin cup one-third full of batter, drop in 1/2 teaspoon jelly and one-third more batter. From the outside it looks like any other muffin, but when broken open — it's already jellied.

Peanut butter muffins will delight the younger set — and use another food that is in abundant supply. Simply cut one-third cup peanut butter into 2 cups of muffin mix.

Cheese muffins have 1/2 cup grated cheese added to 2 cups of the mix.

And you can have cinnamon star muffins by sprinkling the tops with a mixture of cinnamon and sugar before baking.

If you've got wasps around your house or yard, you've got trouble.

Although these insects kill many destructive garden insects — as well as houseflies — they pack a terrific sting. Their very presence near your home calls for actions.

You can kill wasps by applying an insecticide spray or dust to their nests. Some suggestions are chlordane, dieldrin or DDT. These are available as concentrates and powders for mixing with water to form a spray or as dusts and oil solutions ready for use. Follow the instructions on the label for mixing and applying. Follow them exactly — for safety and effectiveness. Spray or dust at night when the wasps are less active and most of them are in their nests. Wasps that build their nests in the ground can be killed by pouring several spoonfuls of chloroform into the hole and plugging it.

REMEMBER! Most insecticides are toxic — keep them away from children, pets, food, water, and cooking utensils. Do not breathe spray mist or dust... wash all exposed skin areas after using... change clothing if you spill insecticide on it. Use chloroform only out of doors and avoid inhaling the fumes.

HAS 19 ACCIDENTS IN FIVE DEATHS TO DATE

er Sosebee is sergeant for the Eastland Sergeants Area. A comparison of rural traffic accidents in the Abilene Area of the Texas Department of Public Safety for the first seven months of 1964 with the same period of 1963 shows that Eastland County has had the same number (5) of fatal accidents for 1964 that they had in the same period in 1963. Property damage accidents are up from 54 for 1963 to 74 for the same period in 1964. Personal injury accidents were 41 for 1964 as compared to 32 for 1963. Property damage is up from \$61,160 in 1963 to \$88,255 for 1964. The total accidents during the seven month period in 1964 were 120 as compared to 91 for 1963.

VALUES FOR MODERN HOMES

TO WHOM IT MAY CONCERN

I will not be responsible for any debts other than made by me. I am not married and never have been. I am innocent of the accusation against me. P.F.C. Lonnie Joe Basham, U.S.M.C.

PUBLIC NOTICE

In as much as two property owners are threatening me except myself, who go across their land with the law, I am asking all who have loved ones in the cemetery on my land and all that have bought land from me to come to my house and sign a petition to have the county commissioners court to open a road on section lines that goes across the property in question. Everyone interested in seeing justice done, may also sign.

W. E. HALLENBECK

It's Almost Unbelievable —

... but statisticians tell us that we Americans go more places in our cars and trucks nowadays than ever before, with an increase of 30 million vehicles since 1954. Every extra mile is a hazard and the chance for another accident. So far 1964 promises to be the Big Daddy of them all! Since the driving public determines the insurance rates it must pay, higher rates are inevitable. Better begin revising your budget now to include the high cost of driving in modern '64.
