AMERICA PROTESTS.

The United States government has sent a note to the Japanese and Chinese governments directly invoking American treaty rights in the far east and serving unequivocal notice that the American government will not admit the legality of Japan's occupation of Manchuria. This notification of American policy is a radical departure from the previous tone of diplomatic representations and indicates that the attitude of the American government is becoming indignation at what seems to be Japanese disregard of treaty structures and the rights of Americans in the world area affected.

The western powers, during the recent Manchurian difficulties and the aggressive, if not predatory, activities of Japan in that territory, have suffered in Oriental opinion. The once powerful prestige of America, Great Britain and their associated Occidental powers in eastern affairs has been materially weakened by its apparent failure to compel the respect of the Japanese who have gone forward with a program of conquest in ruthless disregard of the protests or influence of the western nations. The yellow man, at first amazed its becoming contemptuous. Is white supremacy to yield to the rising forces being generated among the almost one billion of yellow peoples who inhabit a vast region of the globe stretching from the Nipponese Isles to the Suez?

DID YOU EVER STOP TO THINK

By EDSON R. WAITE Shawnee, Okla.

That in the minds of the public, advertising has a decidedly distinctive place. It has been put there by advertisers in advertising only the best in quality. Well advertised products, on account of their high quality and the service they give, have proven themselves the best time and time again. It is a well known fact that persistent advertisers never substitute poor quality. Substitutes for quality never satisfy. Discriminating buyers demand advertised products for their quality is guaranteed and they always get complete satisfaction. Of the many methods of advertising created, none has met with such cordial appreciation as advertising through the printed page. Advertising through the printed page meets every requirement of every line of business. It is simple, it is economy and brings better results than any other known method of advertising. Good advertising not only brings business but builds prestige. Wide awake business concerns profit by its service. More and better advertising creates a desire on the part of its readers to possess. Persistent advertising means more sales and more sales mean more profits.

RIFLE CLUB COMPLETES GOOD YEAR

The American Legion Rifle Club of Ranger completed a very successful year according to reports just mailed to the National Rifle Association of Washington, D. C., by President Jim Ingram and Secretary Roy Speed. The report shows that the club finished the year, after holding several shoots, with every bill paid and a little money in the bank. This report was unusually good when it is remembered that only two years ago the present range was installed at a cost of approximately \$400. All the cost of the range and all current expenses for the two years have been taken care of with a small balance left in the bank. A meeting of the club is to be called in the near future, Jim Ingram said Saturday, in order to hold the annual election of officers for the coming year. The club is expected to be more active this year than it was last, due to the fact that they have no back bills to pay off and because of the renewed interest that is expected to be shown in the club because of the formation of the junior rifle club, which will begin full time practices soon.

Elks Athletic Show Presents Fighters Monday

Sam Matlock, 160 pounds, of Breckenridge will meet Uley Puckett, 164 pounds, of Fort Worth, in an eight-round bout as the feature of the boxing division of the Elks Athletic show in Ranger Monday night. In the wrestling division, Red Grace, 155 pounds, will wrestle Bill Angus, 155 pounds, in the best two out of three falls. Grace is from Eastland and Angus is from Tiffin. In the preliminary wrestling bouts Glen Snell, 145 pounds, of Ranger, will grapple with Bill Donohoe, 140 pounder of Ranger, and H. A. "Salty" Salters, 135-pounder of Tiffin will box Leonard Pounds, 135 pounder of Ranger, in a four-round match. Jake Smith of Cisco will box four rounds with Sam Evans, 145 pounds, of Ranger. Smith weighs in as a 145 pounder, also.

Wolf's Hide Starts Row Between Pals

SUBBUHY, Ont., Jan. 9.—A wolf, or rather a wolf's hide, ruptured temporarily the friendship between Albert Vachon and Bill Rutka, Rayside township farmers. Vachon appeared in court and charged the hide Rutka had stripped from a wolf was his. Vachon explained that he had wounded the wolf but it had escaped. Rutka finding it and ending its life. Magistrate Stoddard dismissed the case. Vachon got the pelt, Rutka the bounty, the two men shared costs of court, and they were friends again.

JAPAN PREPARES NOTE

TOKIO, Jan. 9.—Japan's reply to the United States Manchurian note will say that Japan has no intention of infringing on China's sovereignty, it was learned today. ARP—Peyton Bros. No. 1 W. B. Perry, two and one-half miles south of proven production in Rusk county, tested at rate of 3,000,000 cubic feet of dry gas from total depth of 3,717 feet.

Riding It!

PEEPING THRU THE KNOTHOLE with BILL MAYES

The most startling news of the day to us was the story from Little Rock, Ark., stating that a veteran newspaper employe was shot by a bandit who escaped with \$5,000 in cash. Now the fact that a newspaper employe was shot was not so startling. We have heard of editors being shot—also half shot—and have heard of them being robbed. But we never before heard of a newspaper office that had \$5,000 in cash on hand at any time. Somehow or other we can't help believing that the bandit escaped with \$50,000 in cash and the press association failed to put the period after the second figure.

We have worked in two newspaper offices where the front door did not even have locks on them. Or rather one of them had a lock that wouldn't work and the other had a spring lock with a whole panel out of the door so that all you had to do to get in was to reach through the panel and turn the catch. But we never heard of either of these offices being robbed and as far as we know the doors are still left unlocked at night. Probably one reason burglars give newspapers a wide berth is because there is little of value that can be carried off and what can be carried off couldn't be sold very easily. The valuable equipment is so heavy that it takes expert mechanics to tear it down where it can be moved at all and then it takes several men and a lot of work.

Hack Wilson of the Chicago Cubs and Charles Dawes of the Hoover Ambassadors are the two leading holdouts of the season to date. Babe Ruth has demanded a salary of \$40,000 a year, but so far he is not considered a holdout. Hack is more than likely holding out for more money. We didn't notice. Just what Dawes is holding out for is still a mystery, though there is some hint that he is holding out for the Republican nomination as a presidential candidate, though why anyone would want to give up a good job as ambassador to Great Britain for a chance to run for President on the Republican ticket this year is a mystery.

Golden, the florist, says that the reason some of the merchants could not get their Christmas trees up to town was because he purposely wedged them in tightly so that people could not steal them. It seems that in past years there have been a number of Christmas tree thefts along Main street after the merchants bought the trees and put them up so they were decided to put them down so they would stay. He knows how to go about getting them up so he is going to go to work real soon and take down the trees that are so firmly stuck in the sidewalks that the merchants have not been able to remove them. We knew some of them were stuck because we granted while Fire Chief Murphy strained his back trying to pull the one up from in front of the Chamber of Commerce the other day.

MOTOR SHIP LAUNCHED

GOTHENBURG, Jan. 9.—The largest ship ever built in Sweden—a motor tanker of 15,500 tons—has been delivered by the Gota Works shipyard here. The yard delivered 13 motor ships totaling about 150,000 tons loading capacity and launched seven of 84,000 tons.

DUTIES CLOSE CASTLE

EYNSFORD, Kent, England.—Owing to heavy death duties on the late Sir William Hart Dyke, and the burden of taxes on Sir Oliver Hart Dyke has been forced to close Lullingstone castle, which has been the home of the Hart Dykes for more than 300 years.

Daily WASHINGTON LETTER

BY RODNEY DUTCHER NEA Service Writer

WASHINGTON—The powerful administration press is brought to encompass the political extermination of Congressman Louis T. McFadden of Pennsylvania since his sensational attack on President Herbert Hoover's moratorium motives provides an excellent exhibition of how the patronage system, one of the most important wheels in politics, actually operates.

Republican members of Congress possess patronage when they are permitted to guide presidential appointments of federal judges and district attorneys, marshals, internal revenue collectors and deputies, customs and immigration officials, prohibition agents, ministers and ambassadors, postmasters, rural mail carriers and other classes of federal employes.

Even when civil service examinations are required, as they are for most federal jobs, politicians and appointing officers may choose from the three high ranking candidates. A candidate for postmaster in a Republican district knows that no matter how high he may rank in the examination he cannot expect appointment unless he stands in with the congressman—assuming that the congressman is on good terms with the administration.

THE patronage arrangement in Pennsylvania is typical of states which have "regular" Republican congressional delegations. There the congressman's patronage includes postmasters and rural letter carriers, while the two senators name most other federal officers. So terms of postmasters expire every four years. The postmaster general notifies the congressman for the district as well as the senators. The congressman and the party's county chairman agree as to the right man, and their choice soon receives the presidential appointment.

McFadden has more than 200 postmasters in his district and at least as many rural letter carriers. After this, because of an

TYRANNICAL TAX, BUT WE HAVE A REMEDY

Having been requested to write a statement of my views of our tax situation, I find delight in doing so.

Unjust, excessive, and tyrannical taxes hover over our real estate like a vampire to suck the life blood away. It is generally conceded that the real estate owners are over burdened with excessive taxes, and when one asks our authorities the reason why, the substance of the usual answer is: "Low! The bondholder! If we don't pay him quickly, he'll appoint a receiver. Then of course the inquirer becomes afraid, and says more, Duggone the bond holder and his receiver to boot. We have learned the receiver can not make the law. He can not change the law.

We have a remedy. The law is our remedy. We should not be ashamed to claim the law as our remedy. The bondholder does not have a lien on our property, except it be in some cases, a paving lien. He can have a receiver appointed. He can sue out the writ of mandamus to compel the authorities to make provision for the payment of the debt; but he can not change the RATE limit fixed by law, and he can not require the authorities to place the assessment

R. C. A. Engineer To Do Work Here

Poor radio reception is mostly due to worn-out tubes, according to R. C. A. Thompson, radio engineer of the R. C. A. Radiotron factory, to be here this week under auspices of the Texas Electric Service company. Investigation has disclosed that four out of five sets have one or more worn-out tubes, which are impairing the quality of reception. "Radio tubes, like everything else, wear out with use. While it is often true that they will continue to work after hundreds of hours of use, their performance has been greatly impaired.

"As a tube is used, the electrons are given off from the filament or cathode, and after many hours of use, the supply is so diminished that the tube is no longer able to function properly. This causes the tube's characteristics to change, so that they no longer meet the requirements of the circuits in which the tube is working, resulting in loss of sensitivity, volume and tone quality in the radio set." Mr. Thompson will be here this week at the Texas Electric Service company store with special testing equipment to test tubes for radio users of this city.

Lindbergh's Gifts From Orient On Display at St. Louis

ST. LOUIS.—The odd assortment of gifts the Charles A. Lindberghs received on their flying visit to Japan last summer, are on display, along with thousands of other trophies of the famous flier, at Jefferson Memorial here. Arrival of the gifts indicated that Colonel Lindbergh intends to continue with his early plan of sending all gifts that he and his wife will not be able to find places for in their home. Photographs, paintings, vases of blue pottery, two silver members of ship cards in the American Club of Tokio, beautiful lacquer trays and boxes, silk and ivory fans, a leather wallet, and a menu of a dinner at the Maple club in Tokio are among the objects.

Sterling Back In Office Following Martial Law Test

By RAYMOND BROOKS AUSTIN, Dec. 9.—Gov. Ross S. Sterling has returned to the executive office for the first court test case in Texas history during a period of martial law attacking the sovereignty of the state thru its governor in declaring martial law. The test case, brought by oil men in the East Texas field, is certain to go to the United States supreme court for a final determination whether the acts of a state government in declaring and administering martial law shall be subject to review by a federal trial or circuit court. If the ruling orders martial law abolished in East Texas, it was known here that an immediate appeal will be made to U. S. supreme court to suspend the effect of such a decision until the highest court can review the case. Otherwise, the troops would be moved from the field by the trial court.

Fight Started To Retain Texas For

MARFA, Tex.—John Robinson, secretary of the Chamber of Commerce, will leave for Washington, D. C., to enlist the aid various representatives and senators in the fight to retain Ft. A. Russell, one of the 52 Army posts to be abandoned by the War Department. The department already has issued orders to the First Cavalry stationed at Marfa to evacuate before June 30. The Marfa post have sought assistance from Joe Garner, newly elected speaker of the house in their attempt to win their battle against great odds.

EASTLAND CHURCHES

ST. FRANCIS XAVIER CHURCH. Mass at 8 a. m. This is the first Sunday after the Epiphany and the gospel is from St. Luke 11:42-52. The word Epiphany is from the Greek which means to show or manifest. The feast of Epiphany is celebrated on Jan. 6, and in England, Ireland and Scotland, it is a holiday of obligation. It commemorates the manifestation of the glory of Christ to the Gentiles in the person of the Magi, as well as his baptism and first miracle at Cana. Originating in the Eastern Church in the third century, it soon spread to the west, where it is now commemorated for the apparition of the Magi. In Ireland and the British Isles as well as many other European countries it is known as the Twelfth Night (after Christmas) and is the occasion for the revival of many quaint customs. The figures of the Magi are not placed in the Christ Crib till Jan. 6. Christ came to save all and manifested himself to all—Jews and Gentiles. He wishes to come into the hearts of all and give sufficient grace for all to be saved. But many turn a deaf ear to the call of Christ. Admit him and be saved.—Rev. M. Collins.
