Deviled Ham Puts Spice and Zip in New Gelatin Salads

EVER try using canned deviled ham in molded gelatin salads? Do try it sometime, and you'll be delighted with the novel results.

Red Devil Gelatin Mold (Makes 6 servings) One package lime or lemon gelatin dessert, 1/2 teaspoon salt, 1/4 teaspoon pepper, 2 tablespoons regular or wine vinegar, 1 tablespoon horseradish, 1 family size (4 1/2-oz.) can deviled ham, 1/2 cup diced celery, 4 hard-cooked eggs.

Deviled Cottage Layer Mold (Makes 6 to 8 servings) One package lime or lemon gelatin dessert, 1 tablespoon minced onion, 1/2 teaspoon salt, 2 tablespoons lemon juice, pinch black pepper, 1 8-oz. container cottage cheese, 1 family size (4 1/2-oz.) deviled ham, 4 radishes, sliced, 1 small green pepper, diced.

Deviled cottage layer mold, top and red devil gelatin mold are two hearty salads which are ideal to serve almost any time.

Moisture From Snow Ice Hits 2.25 Inches

Soaking snow and freezing rain which has gripped this area twice in the past three weeks brought an unofficial 2.25 inches of moisture to this dry area. The moisture fell at a strategic time in most cases. Most farm land was either prepared for planting or in some cases seed for early crops or cover crops had already been planted.

Possible Rain Forecast Here For Wednesday - Slightly colder weather and possible light rain has been forecast for this area during Wednesday.

### 40,000 Indians Gather To Hear Graham on Far Eastern Tour

PALAMCOFFAH, India—“This is the end because ‘the devil did everything he could to break it up at the beginning.’”  
The public address system failed and the spirited choir almost ran itself to death. Killing time, a little boy was brought to the platform whose mother was lost. Then Billy began his address. A few minutes later he had to stop when a great clamor went up from a section of the crowd. They couldn't hear the choir sing. As the people were moved to another section Billy began again. He spoke simply—carefully explaining the way to God through Faith in Christ. Then came the invitation and unexpected surge of people.  
A missionary who had served in India for 25 years stood off to one side and looked on with shocked emotions. He said: “Our eyes have never seen anything like this.” His prayers had been answered. He said he had started the day by reading in Joshua 3:4, “. . . ye have not passed this way heretofore.”

There was something in the faces of the people as they came. Many were weeping. Others had a look of joy. Both reactions had been produced by the same message they had heard in a language they could understand about a God who loved them and gave His son Jesus Christ for them.  
Men and women who had been sitting on straw mats in different sections of the huge outdoor meeting site moved down the aisles and quickly filled the space around the platform. Still they rushed forward.  
A blind man was led by his daughter. A worker had told the daughter she would have to send the father alone with the men but Dr. Paul Maddox, Billy Graham's aide, intervened and told the daughter she could take him to the women's section.  
A woman, sobbing quietly, left her seat and moved forward. She had gone only a short way when her angry husband rushed up and grabbed her roughly and pulled her from the stream of people.  
The people were of all types—young and vigorous, old and ugly, deformed and diseased. There were only 409 counselors to talk with the thousands.  
When it became clearly dangerous for more people to come forward, Billy asked them to remain where they were in the aisles. Many of them waited for hours until counselors had a chance to get their names and say a few words to them.  
Church leaders said they should have expected something unusual

**Sidelights**  
During Billy's visit to Germany last year he tried many times to see Lutheran Bishop Hans Lilje of Hannover, one of the world's most influential church figures. But he was never successful because of conflicting dates. As Billy was walking into the lobby of the Connamara Hotel in southern India, he bumped into a man. It was Bishop Lilje. “God works His wonders in mysterious ways,” said the bishop.

One of the most sacred gods of the Hindu is a cow. Any steak you eat in India will come from a Daisy that dies of old age. Several Hindus were spotted here one day with one of their cow gods, giving her a bath out in a stream of water. They scrubbed her from stem to stern for about 45 minutes. The cow would try to break away but they would haul her back and scrub some more. Old Betsy appeared to be about the most miserable god that ever lived. There is no doubt this particular one would have given up all her glory for a quiet pasture away from the icy fingers.

“Quick as a bunny” doesn't hold true for the rabbit inhabitants of Beaver Island, Mich. Conservation officials have imported 11 woodchucks in hopes that they'll dig burrows suitable for use by the lazy rabbits, taken to the island two years ago.

### Tarleton Edges San Angelo For PC Loop Tie

Pioneer Conference basketball action, predicted at the season's start to be close, is shaping up accordingly to forecast with two teams tied for the lead and last year's champion a half game behind.  
The first place tie will be cleared Tuesday as co-leaders Arlington State and Tarleton State meet at Arlington. And on Saturday, San Angelo will entertain ABC Rebels while Tarleton's Flowboys host Belknap Institute, further clearing the title picture.  
Tarleton State's Flowboys tripped San Angelo, 1955 champion, in a 68-66 thriller Saturday at Stephenville to move into the first-place tie with Arlington State. It was the Flowboys' second loop victory with no losses. San Angelo had won two before dropping the Tarleton tilt.  
Arlington State stayed off Schreiner Institute, 70-62, at

### Arlington Saturday to protect its lead. It is Schreiner's second loop defeat, coming on top Tuesday loss to San Angelo, 82-83, at Kerrville.

Ranger, feeling the loss by transfer to Midwestern University of its veteran center, Bill McCurry, bowled to Tarleton State, 54-83, at Stephenville Tuesday for its third PC defeat. Ranger's two non-league games, before edging McMurry 50-46, Monday night, were cancelled by weather last week.

Orchids to MRS. OTIS KNOX for spending so much time and energy in studying the Bible. . . She says she has maps all over her study room walls, subscribes to about 15 monthly magazines, and has ordered much religious material. . . With a typewriter in the middle of the room and all her old school histories, Bibles, other books and magazines she says she has a good arrangement for studying and preparing her talks on the Bible.

In the Telegram office Monday morning she mentioned generosity and unselfishness as characteristics of a Christian. . . These characteristics are sadly lacking in too many people, nowadays. . . and worse, unfairness in dealing with their fellowman does not exactly equip people to be deacons, elders or any other kind of official in anybody's church, does it?

Back to the always unselfish and generous MRS. KNOX, who had just returned from Coats Furniture & Carpets, Ltd., told us about seeing the bargains in furniture advertised and upon going there found four others who had seen the ads. . . She remarked that it really pays to advertise in The Telegram.

We are proud to note that selling Eastland Telegrams on the street was one of his first jobs and that he and his brother, FRANK PETTIT CASTLEBERRY, earned part of their money for college by working in their daddy's feed store here. . . Also he and Pettit delivered milk to earn money. But, most important training of all was “Winston's” early bent to ward mechanics. . . He got his first taste of mechanics when he and RED GRAHAM and brothe PETTIT used to cut sports car and fashion them into tiny model with practically no tools and just any material at hand. . . They cut the bodies from pieces of scrap wood and melted lead for the wheels in Mary Garden rouge boxes. . . Mrs. Frank Castleberry his mother, recalls that “nothing else would do but the Mary Garden rouge boxes for melting the lead for the wheels of their vehicle and they all had to be saved for this purpose”. . . They used tin cans for covering hoods and then in the end all was painted a beautiful color. . .

## TUNA ONION SOUP GOOD CHOICE FOR SUNDAY SUPPER

What could be more appetizing or mouth-watering than a big bowl of piping hot soup rich with the flavors of tuna and onion? Throughout the ages soup has been a welcome treat—its warming quality sets the pace for a thoroughly enjoyable meal.

We suggest you try this unusual recipe for Tuna Onion Soup. It's hearty enough to serve for Sunday-night supper or for an informal meal when friends drop in. You'll find that the tuna makes an old favorite twice as good. Just watch everyone come back for second helpings.

To be sure of the best in canned tuna, check the labels and buy tuna from California.

**Tuna Onion Soup**  
(Makes about 2 quarts)

1/4 cup butter or margarine  
10 medium-sized onions, thinly sliced  
2 cups hot water

1 1/2 quarts brown beef stock or bouillon  
1 teaspoon salt  
Pepper to taste

1 tablespoon Worcestershire sauce  
2 7-ounce cans solid-pack tuna, drained.

Melt butter or margarine over low heat. Add onions and cook until soft. Add water, stock or bouillon, salt, pepper and Worcestershire sauce. Cover and cook over low heat 1 hour. Break tuna into large pieces with a fork and add to soup. Cook 15 minutes longer. Serve with grated Parmesan cheese, if desired.

## As It Looks From Here

### U. S. Shipping Requirements Reduces Sale of Surplus Agriculture Commod

By Omar Burlison  
WASHINGTON, D.C. — The Department of Agriculture . . . has reported to Congress that the law requiring that at least 50 percent of the surplus agricultural commodities sold by the government to foreign nations must be shipped in American vessels has blocked the sale of a sizeable amount of these products.

They report that one such sale to Denmark in the sum of \$11,300,000 was stalled because of it, and that another sale of \$40,000,000 in surplus commodities to Norway, Sweden, and England was prevented because of it.

This is the provision which I attempted to strike from the bill last year, but was defeated on the Floor in the effort.

Many people talk about the farmer being subsidized, but this requirement that at least 50 percent of the surplus commodities sold must be delivered by American ships is not only a subsidy to the shipping companies but is a handicap to the Government and to the farmer in selling our surplus agricultural products.

President Eisenhower . . . has told Congress that the Post Office Department is losing \$1,000 a minute and has asked for increases in the cost of stamps.

He suggests that the ordinary letter be increased to 4 cents and airmail from six to seven cents. In addition, he asks that second class mail, which is newspapers and magazines, be increased by about 15 percent each year for two successive years. He further suggests that third class mail, which is mostly advertising, be increased immediately by 30 percent.

It is estimated that these increases will produce \$406,500,000.

Predictions Are Always A Little Dangerous . . . but I shall venture one anyway.

When President Eisenhower makes his decision as to whether or not he will run, the stock market is likely to react one way or the other. If he is not a candidate, it probably will drop sharply, but if he is a candidate, I would guess it will immediately go up.

Regardless of the justification one way or the other, our system of economics should not be so sensitive to one man's actions. This is no reflection on the President because he will have nothing to do with it. Rather, it will simply be

States or Russia will win this race and the security of the world may depend on which one has it first.

It has been my strong contention for more than two years that a man of unquestioned ability should be placed at the head of our missile program to push it with everything we have. Instead we have been bogged down in red tape and governmental boondoggling. It looks as if we may have to come from behind to win this race, but it can be done if we will do it as was done by General Leslie Groves in handling the first atomic bomb project.

Secretary of Defense Wilson has now indicated that he is looking for such a man and may follow such a plan.

Unless something unforeseen prevents, I shall devote my next week's column to this subject.

a result of the inevitable.

In The Future . . . we are often going to see in print the letters, "ICBM." This stands for Intercontinental Ballistic Missile, which will be the most deadly of all weapons.

The most deadly race in the history of mankind is now taking place between the United States and Soviet Russia to develop the first such missile, and one nation or the other will win. While we are stumbling over a lot of molehills, we must eventually climb this mountain. Either the United

"Before SAC reached its present eminence in civil and military fields it started in 1932 under the name of Edward F. Booth, Inc., financed by a wealthy rancher and oil man, Charles Pettit, an uncle of Mr. Castleberry's. He set up the company for a son-in-law who had been an Air Corps pilot. Then in 1934 it swapped its Waco dealership for a Stinson franchise.

After attending SMU Castleberry went with the organization in 1937 and told the management it should stop selling aircraft and concentrate on service. In 1938, he became treasurer and then the company started making money. In 1939 it reorganized with Castleberry as vice president and in 1940 the name became Southwest Airmotive Company. Castleberry then teamed with the two Dallas

men to buy the company. "In 1938 SAC made a \$200 profit; in 1955 it grossed better than \$6 million.

"Win" Castleberry says, in Mr. Miller's article, "It's like being tied to the tail of an intercontinental missile, but it's sure been fun."

# New Toppings Spice Pumpkin Pie for Any-Season Treat

BY DOROTHY MADDOX

NO need to wait for autumn to savor the deliciousness of pumpkin pie. Canned and frozen pumpkin is at your finger tips in the stores, all year around. And if you're not in the baking mood, the old-time favorite of grandma's kitchen is waiting for you on the shelves of your bakery or food shop.

Now comes the modern touch—a dramatic topping—for a spicy pumpkin pie, purchased or homemade. The toppings are a new idea but their flavors are time-tested.

### Apple-Cream Topping

One cup heavy cream, 1 tablespoon confectioners' sugar, 2 tablespoons apple butter, 8 banana slices, 2 tablespoons lemon juice, 8 pecan halves, one 8 or 9-inch pumpkin pie.

Whip cream with confectioners' sugar until stiff. Fold in apple butter and spoon onto pie in 8 mounds. Dip banana slices into lemon juice. Place 1 banana slice and 1 pecan half on each whipped cream mound.

### Walnut-Crunch Topping

One-half cup brown sugar, firmly packed, 1 tablespoon milk, 1 tablespoon honey, 1/2 cup chopped walnuts, one 8 or 9-inch pumpkin pie.

Combine brown sugar, milk, honey and chopped nuts. Spread over top of pumpkin pie. Bake in a moderate oven (350 degrees F) for 10 minutes.

### Orange-Cheese Topping

One egg white, 2 tablespoons brown sugar, dash of salt, 1/4 cup orange marmalade, 1 (3-ounce) package cream cheese, 1/2 teaspoon cinnamon, 1 tablespoon orange marmalade, one 8 or 9-inch pumpkin pie.

Combine egg white, brown sugar and salt. Beat until meringue

Three delicious toppings for pumpkin pie. From left: Orange-cheese topping; walnut crunch topping; apple-cream topping. holds in stiff peaks. Blend marmalade, cream cheese and cinnamon. Fold into egg white mixture. Spread over top of pumpkin pie. Swirl 1 tablespoon orange marmalade through topping. Refrigerate until served.

## IT'S THE LAW In Texas

START TAX RECORDS NOW FOR USE NEXT YEAR

There is no time like the present, while last year's tax problems are fresh on your mind, to start a procedure that will aid you with next year's income tax calculations. That is to maintain a record of your income and outgo. Such a record can be simple and brief but it may save you tax dollars.

The average man who works for a wage or salary doesn't have to concern himself about keeping books and records — at least so he thinks. His employer keeps a reliable record of his earnings and Uncle Sam looks primarily to the employer for information on his earnings and for the withholding of various taxes out of his wages. But whether or not you run a business of your own, you have a partner who each year is claiming a substantial interest in your personal income. And the law requires that you keep books for him in case he ever asks for an accounting.

Perhaps you own your home or are paying it out in installments. It's likely that some day you may sell that house. When you do you'll want to be able to prove whether you realized a gain or a loss on that sale. If a gain in capital resulted, it probably will add to your income tax. If a loss was suffered, it probably will reduce your income tax.

You may have made certain capital improvements on the house while you lived in it, but unless you can show what out-of-pocket expense you incurred while making them, you may not get credit for them in your cost basis so as to prove that you had no capital gain or that you had a loss.

Or perhaps you received that little summer cottage on the lake as a gift from your father. If you ever sell it, you should be able to show Uncle Sam not only the cost of improvements you made on it

while you owned it, but also what its fair market value was at the time Dad gave it to you.

It may be that you are receiving an annuity on an insurance policy. If so, do you know how much that policy costs you and how much of that cost you have recovered tax-free to date?

There are many kinds of transactions you enter into that may some day affect the computation of your personal income tax. The best proof of the cost of anything you've purchased is a receipted bill or canceled check. If one of these pieces of evidence relates to any transaction that may affect your income in later years, it's a good idea to keep it. Your "partner" may some day ask to see it.

(This column, based on Federal law, is written to inform — not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts because the facts may change the application of the law.)

## Receipt for Meat Balls of Sweden

Foods which originated in foreign countries are becoming more and more popular in American homes. They are tasty, nourishing, and particularly interesting to the housewife who prides herself in being able to offer a wide variety in down-right good eating. Here is one of those recipes:

Meat Balls from Sweden: Commine, mixing well, one pound finely ground beef round or chuck, 3/4-cup fine bread crumbs, 1/4 cup finely minced onions, one teaspoon cornstarch, 1/8 teaspoon allspice, 1/8 teaspoon nutmeg, 3/4 teaspoon salt, one egg and 3/4 cup milk. Shape mixture into small balls, using rounded teaspoon of mixture for each. Heat in heavy skillet over medium gas flame 1/4 cup salad oil. Add meat balls to

hot oil a few at a time. Cook slowly to brown on all sides. As meat balls brown, place them in a covered baking dish to keep warm until serving, or meat balls may be prepared in advance and reheated in a covered baking dish in a moderately low gas oven (325 degrees F.) fifteen minutes. Makes approximately 36 meat balls.

## Join the MARCH OF DIMES

Your Insurance and Your Future —

... are all bound up together. The man who keeps adequately insured is not only wise but thrifty since insurance provides protection for the thrifty dollar. If loss occurs in the household of the uninsured his life's savings may be wiped out, but no so with the insured man. To be thrifty and wise, be insured. And the less we have the more it is a part of wisdom to guard against financial destruction.

## BEST TAKE-OFF YET

FIRST THING you need in a car, of course, is power to spark performance.

And you get that in a 1956 Buick in plenty — from big 322-cubic-inch V8 engines that hit new highs in horsepower and compression.

But the power under the hood must be carried to the rear driving wheels in the form of twisting force on the drive shaft.

That's torque — the end-product of your transmission. And the higher the torque build-up — the greater the "torque multiplication" in starting and accelerating — the better the getaway and response.

So if you want to feel take-off that leaves your breath behind you, come try a '56 Buick with Variable Pitch Dynaflo.\*

For in this airplane-principled transmission, Buick engineers raised the ceiling on torque to give you the best getaway yet.

They did it with something they call "double

regeneration" — a new way to make flowing oil add to its own velocity.

And when you use the full torque of a Buick beauty like the one pictured above, you're using the highest torque multiplication to be had in any standard-production American automobile today.

Come see for yourself what that means in new thrills and new safety.

You'll find brilliant new getaway response in the first inch of pedal travel — plus greater gas mileage to boot. You'll find an electrifying new safety-surge of full-power acceleration when you floor the pedal and switch the pitch.

And you'll find this spectacular performance blended into the smoothest-traveling, the sweetest-riding, the highest-powered and the easiest-handling Buicks yet built. Drop in on us this week — today, if you can — and judge things firsthand.

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century — optional at modest extra cost on the Special.

Carnation Company photo

Peek up an old Lenten favorite, Macaroni and Cheese, by giving it new glamour with a new and tastier cheese sauce and fresh chopped tomatoes. Use plenty of cheese in the sauce to make your casserole really good.

A delicious cheese sauce can be made easily, too. By using better-blending evaporated milk you don't have the fuss and bother of making a cream sauce. Carnation Company has given us a recipe for cheese sauce that takes just three minutes to prepare. Grated cheese and seasonings are added to undiluted evaporated milk . . . when the cheese melts you have a perfect cheese sauce!

Chopped fresh tomatoes and green pepper add new flavor to Macaroni and Cheese casserole and a few slices of tomato and ripe olives put on top before it goes into the oven make it attractive enough for company dinner.

A fruit salad of cinnamon-pears and pineapple spears topped with a whipped fruit dressing, a green vegetable, if you like, and dessert will make this Lenten dinner one your family will enjoy.

The recipe for nutritious and economical Tomato-Cheese-Macaroni Casserole includes directions for Three-Minute Cheese Sauce.

**TOMATO-CHEESE-MACARONI CASSEROLE**

- 1 1/2 cups (large can) undiluted evaporated milk
- 1/2 cup sliced green pepper
- 2 cups (about 8 ounces) grated process-type American cheese
- 1 1/2 cups diced fresh tomatoes
- 1 teaspoon dry mustard
- 1 tablespoon Worcestershire sauce
- 2 tablespoons grated onion
- 2 cups cooked macaroni

Simmer evaporated milk and salt in saucepan over low heat to just below the boiling point (2 minutes). Add cheese and stir until thickened and smooth (1 minute). Stir in mustard and Worcestershire sauce. Combine remaining ingredients in a large mixing bowl. Add cheese sauce. Combine thoroughly. Place in buttered 1 1/2 quart casserole. Bake in moderate oven (350° F.) 30 to 40 minutes.

**His Favorite Investment!**

"It's the wisest motor car investment I ever made!"  
"I've owned a great many makes through the years, but Cadillac wins my vote as the finest investment of them all."  
"In my book, it is the best dollar investment on the highway today!"

We can't tell you how many times we've heard it. In fact, Cadillac's value and economy have become favorite topics of conversation among Cadillac owners everywhere.

And their sentiments are based on some very substantial facts about the "car of cars."  
First of all, there's the economy of buying a Cadillac. Many models are actually priced competitively with the "medium-priced" makes.

Then there is the economy of operating a Cadillac. Cadillac's gasoline mileage is simply phenomenal for a car of its size and stature

... and its dependability is truly extraordinary.

And, finally, there is the economy that comes from Cadillac's great value. In resale markets all across the land, the Cadillac car traditionally returns a higher percentage of its original cost than any other automobile built in America.

And consider what generous dividends Cadillac owners receive from their investments.

... Cadillac's superlative beauty and luxury ... Cadillac's magnificent performance and comfort ... and Cadillac's wonderful reputation among the world's motorists.

We suggest that you pay us a visit soon and investigate the latest and finest Cadillac investment of them all.

We have the car ... and the keys ... and the facts—and we'll be happy to give you all three at any time. Why not make it today?

**Molasses Hot Breads Rival Dessert**

Homemade bran muffins and brown bread, fragrant of molasses and served hot, are enough to make a person pass up dessert. They give a special touch to an otherwise simple meal.

Cereals and unsulphured molasses, staples on the pantry shelf, present themselves anew as hot breads. The bran muffins and brown bread with their whole grain or enriched cereals provide significant B vitamins and iron and help out with protein. Unsulphured molasses gives them a taffy flavor delight, and count on this sweetener for its energy values as well as its excellent source of iron.

**Molasses Bran Muffins**

- 1/4 cup shortening
- 1/4 cup unsulphured molasses
- 1 egg
- 1 cup bran
- 1/2 cup milk
- 1 cup sifted all-purpose flour
- 2 1/2 teaspoons baking powder
- 1/2 teaspoon salt
- 1/2 cup finely cut dates

Blend together shortening and unsulphured molasses. Add egg; beat well. Stir in bran and milk; let stand until most of moisture is taken up. Sift together flour, baking powder and salt. Add to molasses mixture with dates, stir only until blended. Fill greased muffin pans 3/4 full. Bake in moderate oven (350° F.) 30 minutes.

YIELD: 12 small muffins.

**Molasses Brown Bread**

- 1 cup sifted all-purpose flour
- 2 teaspoons baking soda
- 1 teaspoon salt
- 1 cup quick rolled oats
- 2 cups corn meal
- 1 cup unsulphured molasses
- 2 cups sour milk
- 1 cup raisins

Sift together flour, soda and salt. Add quick rolled oats and corn meal; reserve 1/4 cup in which to coat raisins. Stir in unsulphured molasses and sour milk. Mix raisins with 1/4 cup dry mixture; add to batter and mix well. Turn into 4 greased No. 2 cans, filling each 3/4 full. Cover with metal foil or 2 layers of brown paper tied in place with strong cord. Place on rack in large kettle with tight fitting cover. Pour in boiling water to approximately 1/2 of the height of can. Steam 2 hours.

YIELD: 4 loaves.

**Supper Club Is Hosted By The Horace Hortons**

When Mr. and Mrs. Horace Horton entertained their supper club Saturday night at their home, 1208 S. Bassett, decorations throughout their reception rooms were in the Valentine theme.

Centerpieces for the informal modern table settings for the buffet supper, featuring wrought iron, were wishing wells with red carnations. A chartreuse cloth contrasted with brown napkins, used at the dining table accented the modern decor of the room and a similar arrangement graced the large table in the bamboo room.

Games followed the supper.

Present were Mr. and Mrs. Billy C. Frost, Mr. and Mrs. Cyrus Frost Jr., Mr. and Mrs. Virgil T. Seaberry Jr., Mr. and Mrs. Steve Potts, Dr. and Mrs. J. C. Whittington and the host and hostess, members, and Mr. and Mrs. R. M. Sneed, Mr. and Mrs. T. M. Fullen and Mr. and Mrs. W. H. Hoffmann, guests.

**Bill Hoffmann Jr. Feted With Party On 5th Birthday**

Bill Hoffmann Jr. was honored on his fifth birthday anniversary Saturday when his parents, Mr. and Mrs. W. H. Hoffmann of 708 S. Daugherty, entertained with a party at the home of the honoree's grandparents, Mr. and Mrs. C. W. Hoffmann, 903 S. Seaman.

The large round table in the Hoffmanns' sun room bore a bouquet of white chrysanthemums decked with a red styrofoam heart and it was here that the birthday gifts were placed.

Games were played, the parent showed colored motion pictures of Bill's other birthday parties to delight the children with their "own movies" of a year, two years, three and four years ago. Mr. and Mrs. Hoffmann took flash camera

pictures and, of course, the traditional colored movies of all the guests again this year — to be shown the children next year at Bill's party.

Favors were balloons and clownface horns.

Bill's birthday cake, baked and decorated by Mrs. Bill Collins each year, was fashioned in the shape of a pirate ship, this time, with two dolls aboard dressed as pirates. "Bill" was written in candy along the side of the ship and five candles burned at the helm of the ship which had been frosted red on top, white on the sides and blue, simulating waves of

water, at its base. Ice cream, hot chocolate and chocolate marshmallow Valentines were served with the birthday cake.

Present were the honoree and his sister, Kay; his grandparents, the C. W. Hoffmanns and Mrs. Myrtle Anderson; his parents, the W. H. Hoffmanns, and the following children: Steve Lund, Bob Day, Gary Pipkin, Martha Suzanne Sneed, Vicki Marene King, Marilyn Huckabay, Margan Pipkin, Gray Pierson, Kim Collins, Andrea Rhodes, Mary Margaret Pipkin, Linda Perry, Marylynn and Sherrill Ann Stinchcomb.

YOU'LL KNOW THE MOMENT YOU SEE IT...

**The Texan Was Made For You!**

It's your kind of car... this handsome, rugged Texan by Dodge! At the very first glance, you'll know this is true. And when you take the wheel and "give the gun" to its mighty, aircraft-type, Super Red Ram V-8 engine, your enthusiasm will burst all bounds. For the Texan boasts a power plant just like the Dodge that made automotive history on the famous Bonneville Salt Flats.

Surely you've read or heard recently how a '56 Dodge stock car shattered 306 world records for endurance and speed in that sensational 14-day, non-stop run. This officially witnessed performance covered over 31,000 miles round-the-clock at an average speed of 92.86 miles per hour... the greatest distance at the fastest pace any car has ever travelled!

Now this handsome, flair-fashioned, specially trimmed Texan offers you the same rugged endurance and the same eager power as the Dodge that established these records. What's more, you'll be in for your biggest surprise when you glance at the price tag. Big, powerful and luxurious as it is, you'll expect to pay perhaps a thousand dollars more than that tag reads. Yet here you'll discover that this Texan, with all its beauty and size and ruggedness, is priced right down with the so-called "low-priced three."

Never will you find a better "buy" nor make a better deal than your nearby Dodge dealer will give you today. Better not delay for the supply is limited. Stop in and judge for yourself.
