Seven New Pupils Have Registered In Ranger College

Seven new students have enrolled to date for the work of the seccond semester in the Ranger Junior College. This brings the enroll-ment up one more than twice as many as attended this department of the Ranger school during the entire session of 1931-32.

In view of this increase in at-tendance, as well as for other reaons, several new courses will be offered at the beginning of next term. The officials of the school advise that any students desiring to register for the college work should do so at once, as organization of these classes will begin in a few days.

TREATIES

President-elect Franklin D. Roosevelt has indicated to the world a continuation of the American policy in the Far East crisis. His theory is that American policy must uphold the sanctity of international treaties as the cornerstone on which all relations between nations must rest. An attempt was made by the correspondent to link his statement with the war debts treaties. A short horse is soon curried. Very emphatically F. D. declared "that was all there was to be said." Japan is in the big international picture. The Japanese statesmen and warriors would build a Japanese empire in the heart of Manchuria. Well, Great Britain has an empire in India and vast Chinese possessions. France has its Chinese empire and its Franco-African empire. Like Great Britain, France has far-flung possessions, including the islands of the southern seas. History will be made under Asiatic skies in the near future. Why entangling alliances with the other nations of the earth-but conceding at all times that the sanctity of international treaties should be observed?

LAME DUCK AMENDMENT ON THE WAY

Well, the American people are to be congratulated. Sen. George W. Norris is to be showered with flowers while while he is living. Twenty-six states, only 10 less than the required number, have completed ratification of the constitutional majority changing the terms of the present members of congress. Yes, as soon as 36 states have ratified the amendment and certifications have been deposited with the secretary of state in the city of Washington, it will be proclaimed part of the constitution, to become effective Oct. 15, following such proclamation. Texas lawmakers are grinding. There is a new adminis- stocks: tration holding the reins of government. Why shouldn't Am P & I Texas be the 27th to ratify the Norris amendment? And Am & F Pwr why lame ducks?

Eastland County Child Welfare Board The second session of the Wel-

fare board met in the county com missioners courtroom Friday afternoon with meeting called to order by Judge Clyde L. Garrett, preiding untii board of officers was elected.

Preliminary action was the ap-pointment of Mrs. M. L. Stubblefield of Gorman, and Rev. Miley, pastor of the Christian church at Cisco, to the hoard vacancies, created by resignations of Mark Ag-new of Cisco and Mrs. J. C. Oldham of Gorman.

The officers elected named, Walter Harwell of Ranger, chair-man; Mrs. J. M. Perkins of Eastland, vice chairman; Rev. Miley of Cisco, secretary-treasurer. Mrs. Nettie S. Myers of Henri-

etta, assistant in the state division of child welfare, presented detailed information and record case work with methods of dealing with problems, in charity and rescue work.

NEW! . . . Two motor cars entirely different from anything you ever saw-symmetrically new in design from end to end. And with style leadership, these 1933 Oldsmobiles also bring you every other desirable modern quality-at the lowest prices in ten years.

The new Six is a roomier, more comfortable car the Eight is larger and finer in every respect. Both are extremely brilliant performers. And progressive engineering has carried still further the dependability for which Oldsmobile is famous.

The Six engine is larger and develops 80 h.p.-the Eight is increased to 90 h.p. As a result, the Six will do from 75 to 80, the Eight from 80 to 85-actual stop-watch miles per hour!

Both the engines are cushioned on a scientific new three-point rubber mounting that overcomes all sensation of effort or vibration from the source of power.

In these 1933 cars Oldsmobile has employed a special double-drop X-type frame, which greatly strengthens the chassis and provides unusual driving stability.

Outwardly and inwardly, Oldsmobile's new Fisher bodies offer many important refinements. The revolutionary new Fisher No Draft Ventilation, Individually-Controlled, is built into all closed models.

Don't compromise this year! Demand style, performance, and durability . . . at prices which represent top value. The new Oldsmobile Six and Eight are outstanding General Motors values. They offer balanced excellence in everything essential to motoring pleasure, comfort and satisfaction.

The 1933 Oldsmobile Sixes range in price from \$745-the Eights from \$845-f. o. b. Lansing. Bumpers and spare tires are extra. Convenient G. M. A. C. time payment plan.

They Mandrake of-fers her a part in a new play. Rekearsals begin at once. Sheila becomes friendly with JIM BLAINE, one of the principals in the play.

BLAINE, one of the principals in the play. They go to Atlantic City for the try-out week. MARION RAN-DOLPH, the star, becomes fealous because of the praise Shella re-ceives from critics and therefore Shella is discharged. She is out of work for some time. Then she secures a part in a show that is going on tour. When Dick learns the new job will take her out of town he begs Shella to give it up and marry him. She refuses. They go to dinner and while Dick is taiking to the proprietor of the restaurant a young man at a nearby table speaks to Shella. He has seen her on the stage and has seen her on the singe and praises her dancing. Shella does not learn this stranger's name. NOW GO ON WITH THE STORY
