HOUSE PASSES REPEAL AMENDMENT

PEEPING THROUGH THE KNOTHOLE

By BILL MAYES

There are only two subjects for which this morning, both of which have been suggested to us, are as thoughtful.

Attention was called to figures in the "Final Report" recommendations of the Senate investigating committee, 42nd Legislature, 1931-1932, in the Certain Gross Irregularities of State Government, a publication that has some figures and almost as surprising as the publication.

Calculated set of figures shows that in 1930 there were 27 counties in the state with populations less than Eastland county, but that of these 27 counties paid more in fees in 1931 than was paid by officials of this county and that there were only six counties which paid as much as did Eastland county in fees.

Counties which paid out in 1932, with their populations: Bexar, 292,533; Dallas, 31, Grayson, 65,843; Gregg, 2, Harris, 259,828, and Tarrant, 197,553. The population of Eastland county, according to the census was 34,156.

Eastland county, with a population of 34,156, paid out \$16,255.53 in 1932, according to the report of the committee, while such as Cameron, with 77,540 population, paid only \$2,433.11; Moore county, with a population of 31,643, paid out \$5,992.21; county, with a population of 31,643, paid out \$4,204.56; El county, with a population of 31,643, paid out only \$5,373.70.

Travis county, in which the bill is located and which had a population of 77,777 paid \$11,638.15 in fees, just a few dollars more than Eastland county paid out with a population of just double that of Eastland county.

It may not mean anything, but the figures are more or less interesting.

The committee, in its report, says a number of counties the system has caused a multiplicity of trials and sentences. In opinion the defendant could be under the "habitual criminal" one time and be imprisoned the remainder of his life at a considerable less cost to the state than the same counties, in comparison.

For example Cal English is serving sentence aggregating 132 years in the 99 cases from robbery, burglary, theft, attempt to wreck a train, kidnaping, and other offenses. Anderson is serving sentence aggregating 254 years each in the same counties, in comparison.

Although it has nothing to do with fees and might not cost the state much, it might remind that now the reconstruction financed by the state has used some of its funds to such good advantage in constructing a rock wall about the Ranger high school building we wonder if Prof. Hollister would have the steps cleaned and either another light erected at the entrance or the one that is now standing and not removed.

The entrance steps, alongside the new wall, look pretty bad with the standard on one side and the other and no lights on the one that is left and with the painted up in red and green with the initials of pupils who graduated, with the date of the school.

Several dollars worth of money was removed or something and the day's work would do much to remove the looks of the entrance. We will even go so far as to offer to do part of the work, if you will let us at the job, though we can't put up any of the work or so that would be needed.

ZANGARA GETS 80 YEARS FOR ASSAULT PLOT

By United Press

MIAMI, Feb. 20.—Giuseppe Zangara, who fired a volley of shots at President-elect Roosevelt and was "sorry" he failed to kill him, was sentenced to 80 years imprisonment today after he had defiantly told why he attacked the president-elect.

Zangara was sentenced to 20 years imprisonment, the maximum, on each of four counts of assault. The sentences will run consecutively, the judge said, making the sentence equivalent to a life term, as the assassin is 33 years old.

Zangara tried to smile. His teeth showed white and glistening against his dark face. "It is fair," he said. "I am satisfied."

The judge replied "There may be some more later." Towering deputies pulled Zangara away and led him out of the room. He laughed loudly, almost hysterically, as he was pushed through the rear door of the criminal courtroom and taken up to his jail cell on the 22nd floor.

The judge's reference to "more later" concerned two of the five persons wounded by the shots Zangara fired at Mr. Roosevelt. They are Mayor Anton J. Carmak of Chicago and Mrs. Joseph H. Gill, both of whom were reported somewhat better today at a hospital. Their condition is still serious, however, and should one of them die Zangara would be charged with murder.

Mail Vote Decided Dates For Meet
By United Press
PHILADELPHIA.—As a result of a mail poll, the tenth annual national collegiate swimming championships will be held March 24 and 25 at Yale university, it was announced here by Fred W. Luehring, chairman of the rules committee of the association and member of the physical education department at the University of Pennsylvania.

The entire membership was asked to vote whether the title meet should be held this year or postponed until next. Despite the curtailment of athletic programs, most of the members voted to hold the meet this year.

Among the institutions favoring this year's meet were Michigan, Minnesota, Northwestern, Rutgers, Harvard, Yale, Ohio State, Illinois, Columbia, New York university, Princeton and Pennsylvania.

MRS. FERGUSON SAYS SECURITY INADEQUATE

By United Press

AUSTIN, Feb. 20.—Governor Miriam A. Ferguson today sent a message to the state legislature, declaring she was informed that bonds held by the state as security for deposits in a local trust company have a real value "not in excess of 40 cents on the dollar."

The security for the deposit, she says she is informed, consisted of \$1,720,613 in bonds and the deposit, \$1,496,874. "If my information is correct there is an impairment in security for the state deposits of some \$808,629 and as the trust company is now in liquidation the state would probably lose anywhere from \$800,000 to \$1,000,000," she declared.

"I call these matters to your attention as they effect the tax rate and the prompt payment of state warrants and I deem it my duty to advise you of conditions so that you may take such action as to you may seem best for the protection of state funds."

As Farmers Stormed Nebraska Capitol

Hundreds of Nebraska farmers marched on the legislature at Lincoln to present demands for lowered taxes, relief from foreclosure and from low produce prices. Here is the scene as the farmers stormed the beautiful capitol building. Over the capitol entrance is a plaque that reads: The salvation of the state is watchfulness in the citizens.

MEASURE GOES TO STATES FOR A FINAL TEST

By United Press

WASHINGTON, Feb. 20.—The house today approved repeal of the 18th amendment. The vote was 289 to 121. The action sends the prohibition issue back to the states for ratification or rejection of repeal.

More than the necessary two-thirds vote was mustered in the house as the Blaine repeal resolution, passed last week by the senate, was driven through to victory by a coalition of Republican and Democratic wets.

As Speaker Garner announced the vote, the house burst into a roar of applause, lasting several minutes. Garner, realizing the hopelessness of any attempt to keep order stood smiling as he surveyed the scene of victory in which he had played such a prominent role.

It was the speaker, who has twice during the present session, forced a reluctant congress to vote on outright repeal, the first time being defeated by the narrow margin of six votes, but today the resolution swept through with 47 more favorable votes than necessary.

Rep. Blanton, democrat, Texas, had sought to delay the vote by demanding a quorum call, but a roar of laughter from the benches drowned out his request.

As the 40 minutes debate on repeal began, Blanton also objected to the distribution of time, holding that "drys" would be slighted. He was quieted by Garner, who assured him his rights would be protected.

Presidential approval is not required for submitting the proposed new amendment to the states, but three fourths, or 36, of the 48 states must ratify the amendment before it becomes effective.

Under the terms of the resolution today's congressional action will result in a great national referendum on the controversial liquor question. Each state must submit specially selected state conventions, which will pass on the proposed amendment.

WASHINGTON, Feb. 20.—The house roll call on repeal of the 18th amendment included the following: Texas congressmen voting for repeal were, Briggs, Buchanan, Cross, Doss, Eagle, Johnson, Jones, Kleberg, Lanham, Mansfield, Williams, Thomason, Sumners and Rarburn.

Texas congressmen voting against repeal were, Blanton, Patman and Sanders.

NEW YORK, Feb. 20.—President-elect Roosevelt today indicated hearty approval of the prohibition repeal resolution passed by congress.

Friends said he was hopeful that other part of the democratic party platform, relating to beer would be passed at the current session.

Program Made Out for Ranger Post Banquet

By United Press

KANSAS CITY, Mo.—Women pilots from a wide area will gather here March 18 for the dedication of national headquarters of the Betsy Ross corps, new patriotic organization of feminine fliers who aspire to army service in time of war.

Mrs. Amelia Earhart, Putnam, Atlantic flier, will be the guest of honor. Delegations will fly here from Tulsa, Dallas and elsewhere according to plans announced by Miss Dorothy Lyon, national commander. Announcement also will be made of the first winner of the trophy to be given annually by the organization "to the American woman pilot rendering the most useful service to aviation and to her country during the year."

The city has donated quarters here and Dr. Frances Dickerson, Chicago woman physician, has given the organization an airport near Deland, Fla. Government owned school courses materials have been secured for studying navigation, theory of flight, radio and other phases of flying. Members hope eventually to secure reserve officer status from the government.

Though Mrs. Opal Kunz of New York founded the organization only a little more than a year ago it already includes 200 members between one-third and one-half of all the licensed women pilots in the country. Membership is limited to licensed women pilots above student grade who are American citizens. Student fliers are admitted as cadets and required to complete license requirements in one year.

Salvation Army Got Big Roll of String
By United Press
ST. PAUL, Minn.—Ensign Earl Crawford, adjutant in charge of a Salvation Army second-hand store, picked up the telephone one afternoon to answer a ring.

"I had a ball of twine here that I've been saving for the last year," Mrs. J. A. Kinkovsky explained. "I heard you ake such a fuss about it."

"Yes, we'll take it, but why the truck?" Crawford asked. "Well, it's a rather large ball," Mrs. Kinkovsky replied.

So it was. When the truck returned, two men were required to unload the 125-pound ball which contains an estimated 100 miles of string.

Mrs. Zinkovsky's husband and son work in a printing shop and bring home odds and ends of twine. She formed the habit of rolling it up. As the ball grew, it became a neighborhood project.

"I still save string, but I've learned my lesson," Mrs. Zinkovsky said. "I roll it into small balls now."

By United Press
SAN BENITO.—A ton and a half of sunflower seed will be used to make plantings on 400 acres of young citrus trees in the Bayview groves near here.

Sunflowers in citrus groves serve a double purpose—acting as a cover crop and absorbing excess moisture resulting from late spring rains. Several hundred acres of groves were planted in sunflowers in the coastal section last year, as an experiment.

A total of 12,714,482 tons of cargo valued at \$348,872,755 was handled here during 1932. In 1931 the total of 13,977,139 tons handled was valued at \$426,353,457, the report said.

A total of 2,392,927 bales of cotton was handled in 1932 in comparison to 2,378,335 bales in 1931.

TAX COLLECTIONS AND FARM FORECLOSURES

A cry for restored public confidence as a cornerstone for building the nation up to economic stability was sounded before the senate finance committee by E. B. Duffield of New Jersey, president of the Prudential Life Insurance company. Of course, the senate finance committee is in its deep study of depression cures. President Duffield raised his plea for a return to economic stability and urged that congress take no action that would impair the sanctity of contracts. He expressed stern opposition to any moratorium on mortgage debts such as has been proposed in several quarters in some cases a farm relief measure.

While he was testifying before the senate committee, the Indiana senate passed a house bill declaring a 10-year moratorium on delinquent taxes for all taxpayers who paid their 1933 spring installments. This by a vote of 43 to 1. Yes, the Hoosier state is in the big picture. Governor McNutt is cutting appropriations to the bone. He is cutting salaries 25 per cent. He promises consolidation of many departments of state government and the discontinuance of wasteful inactivities of government.

Really, the greta body of American people who are not politicians or office holders are in hearty accord with the program of this Indiana governor and the lawmakers who are backing up his recommendations for drastic economy until the return of happier days to the American people as well as to industries and interests under the flag.

These World war veterans of Indiana called to the public service by the voters of Hooierdom are not planning to destroy their commonwealth or to cripple legitimate government activities or to bring about the impairment of the sanctity of contract. They are level-headed thorough-going young men, and they know tax relief must come to those who ever carry and then pay the cost of all the government units of the social order.

INDIANA FARMERS PUSHING SALES TAX PROPOSAL

Indiana farmers proposed a strike against taxation for the reason that "farm lands and other general property are bearing an unjust tax burden." William H. Settle is president of the Indiana Farm Bureau. He suggested tax payments be withheld until the Indiana legislature taxes action to broaden the tax base. The farm bureau is supporting a sales tax and other bills "to relieve the Indiana farmer and owner of other property by distributing the tax burden more generally." How would you like to be a state lawmaker in a commonwealth where the tillers of the soil and the wage earners in city and town threaten to run amuck, politically speaking two years hence, unless their demands are granted?

LOVE'S CONFEDERATE PENSION BILL

Former Sen. Thomas B. Love has sponsored a bill calling for a revision of the act defining widows of confederate soldiers, who are also the daughters of San Jacinto veterans "and their relief." As amended, the confederate pension law would read as follows: "The widow of a confederate soldier who is 78 or more years of age and who while a resident of the state was permanently crippled and disabled for life and fro that reason is compelled to reside beyond the limits of this state; and whose husband served as a confederate soldier from Texas; and whose father fought under Sam Houston at the battle of San Jacinto shall be deemed a bona fide resident of Texas for the purpose of this title and shall be entitled to receive the pension paid to widows of confederate soldiers." Enactment of the amendment would restore to the pension rolls of Texas this widow of a confederate soldier and granddaughter of a veteran of San Jacinto who is being cared for by relatives in the state of North Carolina. It is for the lawmakers to act.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

Everybody admires the progressive spirit of your leading citizens. Now is the time for all to get busy.

Why not play a part in the development of the home city?

Every citizen should share the responsibility of community advancement. If you are not doing your share, GET BUSY!

If you have not as yet caught the vision of those energetic citizens who are making your city so much better, you had better wake up before it is too late and you lose out.

You should be proud to join in the forward movement of the home city.

In order for a city to prosper it must cultivate a spirit of unity between its citizens, and it must be based on union—not discord.

Cooperation will bring any city to the front.

Tomorrow is built on today's foundation.

You should invest your time and money in your own home city. It helps you and helps your city.

HERE--- AND THERE

By ELVIE H. JACKSON

What would the world do without books? One often thinks of Robinson Crusoe, and how he managed to exist on the island of Juan Fernandez, with not a book in sight. The love of books is as inherent in some people and as instinctive as the law of self preservation.

But we so seldom stop to think about those people who cannot easily get books, or who are so situated that perhaps they may not be able to buy books, or are too far away from neighbors to even borrow books.

Our country is blessed by magnificent libraries, open to the cradle as well as the cultured world through the munificence of Andrew Carnegie. Small cities have followed the spirit of this example, and have established current libraries of their own or sponsored by schools or clubs.

One such library in this town of Eastland has woven its spell over the community, and stimulates the thought of a traveling library for Eastland county, one that can reach the isolated; the farmer and his family, and with its varied stores of literature enrich a dull, quiet and prosy evening or that can be carried into the home of some sick girl or boy, to help while away many tedious hours.

The Eastland County Federation of Texas Federation of Women's Clubs started the traveling library plan in this section under the sponsorship of the president of the club Mrs. J. M. Perkins, who presented this line of activities for county federation work, as one of the departments of usefulness.

The library is now assuming definite shape under the able chairmanship of Mrs. W. A. Martin of Eastland, chairman; Mrs. William Reagan of Cisco and Mrs. Birkhead of Rising Star.

There are 14 sections to the library, and each of these folds together in the manner of a suitcase with handles. This facilitates transportation of cases from farm to farm, and hamlet to hamlet. Each of these sections holds 25 books, and the clubs of the city have pledged a certain quota to wards filling these sections, of which one is now completed and 13 are being distributed for that purpose.

Local women who have pledged their club's assistance include Mrs. Neal Day of the Book Club; Mrs. A. H. Johnson. Music Club; Mrs. A. J. Campbell. Alpha Delphian Chapter; Mrs. M. J. Pickett. Thursday Study Club; Mrs. Eerie McGlamery. Civic League of Eastland; Mrs. W. W. Kelly for the

DERRICK SHADOWS

By V. MARIE STEPHENS

Because she had been in the practice 28 years and was still unhurt by a client and because she invariably touched upon past incidents supposedly unknown, we went to see the spiritualist. After much speech with the dead and sighting and moaning and striking of hands, we paid her and left.

The favorable tales we choose to believe, the unfavorable we forget. For those which materialize we shall give her credit, those which do not we shall immediately declare we misunderstood . . . and forget again. Too bad life isn't in the business, so that we might hope and, disappointed, misunderstand and forget.

Man, according to someone, is God's proof of queerness. He thinks it a marked characteristic to be eccentric and strange and hard to please. The more we associate with people the more quickly we recognize these characteristics. But in thinking over great inventors, we see where the maker of the jigsaw puzzle got his idea. One comes to the conclusion that the man knew man.

China is getting ready. She knows it's coming. She should, it's getting to be a habit now. The Chinese plan to descend and destroy, the Chinese plan to sit tight and hold everything in the form of present possessions. Meanwhile we await further murder, more tragedy, greater defense (we hope).

Thank heaven, some nation is ready for the worse. There'll be no crash in China . . . stocks and bonds are unimportant when one faces death, so thinks the Chinese. The white man figures things out . . . death is the ultimate outcome of stocks and bonds. We almost wish the enemy had descended upon us back in '29.

We just can't get out of the rut. Last week some maniac took aim at the president-elect. The story is still front page material, pessimists are still using it to prove America is going to the dogs, and we still have a good subject for all dull occasions. We can't remember the little things, we can't forget the big ones.

Nervous Condition Improved After Woman Took Cardui

"I found myself in a weak, run-down condition, and very nervous, so much so that at times I felt like I wanted to scream," writes Mrs. J. T. E. Thomas, of Spartanburg, S. C. I felt better after I began taking Cardui, and decided to keep it up. I took six bottles in all. I was in a better condition after taking Cardui. My nerves were more settled." Cardui, the purely vegetable medicine which so many women take and recommend, is sold by local druggists.

Rabbits and Radishes Babies and Bouquets Carrots and Cabbages all from an EMPTY TUB!

ILLUSION: Right before your very eyes the man of magic draws rabbits, vegetables, flowers, fruits—even babies—all from an empty tub! What an astonishing fellow he is!

EXPLANATION: The assorted rabbits, babies, carrots, cabbages, ribbons and other magical "props" are not created by magic. The tub has a false bottom that is conveniently displaced, and numberless wonderful things spring to life in the magician's nimble fingers. They do literally "spring" because they are made to compress into the bottom of the tub, taking their natural shape as the magician lifts them out.

IT'S FUN TO BE FOOLED ...IT'S MORE FUN TO KNOW

Tricks are legitimate on the stage but not in business. Here's one that has been used in cigarette advertising...the illusion that blending is everything in a cigarette.

EXPLANATION: Blending is important...but it makes a lot of difference what is blended. Inferior tobaccos can be blended to cover up their humble origin. But your taste soon detects the trick!

The proper use of blending is to bring out the full "round" flavor of mild, high-grade tobaccos. It's the costliness of the tobaccos, as well as the blending, that counts.

It is a fact, well known by leaf tobacco experts, that Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.

Hundreds of thousands of dollars have been spent by others in the attempt to discover just how Camels are blended. The blend is important. But all the while Camel spends millions more for choice tobaccos...to insure your enjoyment.

Light up a Camel. Relax, while the delicate blue smoke floats about you. Enjoy to the full the pleasure that comes from costlier tobaccos. Keep Camels always handy...in the airtight, welded Humidor Pack.
