What Progress Cancer Research?

How soon can we expect a cure for cancer? It is a disease of tremendous complexity, yet research gains already made have led some scientists to predict we will see the problem solved within a lifetime. There is reason for this hopeful outlook. Within the short span of 25 years, we have made such progress as this: A drug has been developed in treating a rare type of cancer found in women after pregnancy. It is the first solid tumor ever to respond favorably to chemotherapy. The "Pap" smear was developed, making it possible to discover uterine cancer cells in an early curable stage. The mortality rate of cancer of the uterus, once the most feared of all forms of cancer in women, has dropped 50 per cent in 25 years. At present, there is no preventive or cure for leukemia, but the lives of patients are being prolonged with new combinations of drugs, and many scientists believe that cures will be found for this type of cancer sooner than for any other cancer. Hundreds of scientists in many branches of cancer research are working long hours in laboratories across the country to find new clues to fathom the mysteries of a disease which takes the lives of more than 800 Americans a day. The head of one of the largest research centers here said, "People think there is a lot of money available for cancer. There really isn't. There are many things we wish could be done..." This is worth keeping in mind when you are asked to contribute to the local unit of the American Cancer Society during the annual Crusade fund-raising drive to be staged here and in all other communities of Eastland County next Tuesday, April 27.

The Readers Write...

Editor: On behalf of Mr. Travis Spence, Superintendent of Carbon Schools, Mr. Travis Hilliard, Superintendent of Olden Schools, the faculties and student bodies of these schools, I take this method of saying thank you. Your part in the success of our Career Day was an essential one — without so much help and cooperation from the consultants, we could never have had this very worthwhile program. The comments from the students were most favorable.

Sincerely yours, M. J. Weaver County Supervisor Olden-Carbon Schools

(Continued from page 1) Williams, Sharon Gist, Larry Wilson, and James Fullen. Attorney for the defendant, Miss Nancy Gage, (alias Ernie Mae Lane), is Keith Elliott. District Attorney Steve Perdue is withholding his recommendation for sentence pending completion of testimony. District Judge Ted Martin will preside. Witnesses are: Dale Squires, Lois Ann Sims, Sherry Butler, Tom Sosebee, Doris Trout, Sharon Spradling, Katy Goodwin, and Charles Mosley (the sheriff). Jailer Rodney McCoy will transfer Miss Gage to the courtroom from county jail prior to the trial. Serving as court bailiff is Homer Terry, Court stenographer is Dana Edwards. The defense is expecting to use a number of local teenagers in its case. They are: Carolyn Thomas, Patty Johnson, Jennifer Pryor, Layne Gregory, Johnny Moylan, and Jim Pat Miller. The hearing will begin at 7:30 p. m. in the District Courtroom in the EHS auditorium.

CITY CLEAN-UP...

(Continued from page 1) age system and other improvements on Daugherty Street, said Mrs. H. V. O'Brien, whose area is from west of Seaman and south of Sadoa. "This area generally looks very good; although some mesquite trees could be made and the area near Elementary Schools needs further developing." "Many accomplishments can be brought about if all residents will strive toward the goal of making Eastland a more pleasant and beautiful town." Efforts must be made before results can be expected," Mrs. Horton said. City extra trash pickup will begin Monday, May 3.

### Fund Still Short In County Screw Worm Program

Two thirds of the \$3,100 quota in the current screw worm eradication fund drive has been collected from Eastland County ranchers and livestock men, according to Oscar Schaefer, Cook, chairman of the animal health committee.

Glyn Gilliam, Ranger banker and treasurer for the committee, recently informed Schaefer that he had sent a check for \$1,921.87 to the Southwest Animal Health Research Foundation, Dallas, sponsor for the screw worm elimination program in the state.

"We are grateful for the many contributions on this program," Schaefer said.

"This is one of the finest programs that we have ever had in the livestock business and I am confident that we will go over the top in the fund raising campaign," he continued.

Many ranchers have said that the savings in time, labor, wear and tear on the cars and pickup trucks, gas, oil

### and medications as well as freedom from the frustrations of looking for, catching and doctoring 'wormy' animals has been tremendous in Eastland and all other counties in the state.

Reports from the various committees who have worked to make the drive successful. He urged those who have not been contacted for their contribution to take it to their bank in the next several days. Any bank in the county will accept the contribution he said.

## Olden Judged This Week in State Improvement Contest

Olden is one of three Eastland County communities entered in the Texas Community Improvement Contest which is sponsored by the Electric Extension Service, Texas A&M University. Nimrod and Scranton are also entered, and these three communities will be competing in the contest along with eight more communities in District 8.

The tour of Olden will be conducted Wednesday morning, April 28, 8:30 to 11 a. m. and will begin at the Community Center. During this tour, the communities will be judged on community organization, improvement in the community, and community services and facilities. Stops in the tour will include the Community Center, fire station and the homes of the following: Gilbert Copeland, Olden Kellar, Lee Williamson, L. J. Williamson, I. E. Talley, Gaylon Ashton and Carl Boustead.

Project accomplishments for 1964 in the long range improvement plans included erecting Community Center signs, repairing kitchen and installing bathroom, new roof, buying benches for Community Center, testing 65 water wells in community, cleaning vacant lots, sponsoring first annual community homecoming, installing guard light and organizing Olden volunteer fire department.

Plans for 1965 projects include community water system, erecting name signs, purchasing recreational equipment, cleaning of vacant lots, street improvements, community homecoming, new industry, and improving game room.

Project plans for 1966 include street improvement, new industry, painting Community Center building, building dog irons for fire place, improving game room. The community homecoming, aiding in school plant addition, street improvement and encouraging residential growth are among the plans for 1967, and plans for 1968 include encouraging residential growth, new fire truck and remodeling of Community Center.

Already judged is the record book containing stories, newspaper clippings and pictures showing the progress made during the year of April 1, 1964 and March 31, 1965. This score along with the tour score will determine the District winner.

Judges will be R. E. Burleson, reports and evaluation specialist at Texas A&M University, Mrs. Jean Henry, County Home Demonstration Agent of Hamilton, and James Denton, Jr., Area Farm Management Specialist of Gonzales.

## Oil Paintings On Exhibit At CofC Sunday

The Art Show which has been on display during the past week at the Chamber of Commerce will be open to the public from 1 until 5 p.m. Sunday, April 25.

Exhibited are 29 oil paintings that won awards in the West Texas Art Association show last October in Sweetwater. They were selected by judges from some 200 entries of oils, pastels, water colors, and mixed media. Macie Hyatt, member of the Cisco Art Club, won honorable mention for his entry.

The winning entries are being shown in the West Texas district, and exhibits have already been held in Snyder, San Angelo, Big Spring, and Lamesa. The next showing will be in Abilene.

Mr. Hyatt, a director for the association who arranged the exhibit here, has invited the public to see this outstanding display of area work.

## Invitation Golf Tourney Is Set

The annual Cisco Invitation Golf Tournament will be played at the local country club course on July 16-18, according to an announcement Saturday. Plans for the event will be announced at a later date. Committees to handle various details are expected to be named soon.

F. W. Bessel was the first to measure the distance to a star in 1835. Gas flame welding with oxygen and hydrogen was invented in 1897.

Woods; secretary, Mrs. Desale Hooks.

Residents of surrounding towns are urged to attend this tour as the support of the area towns and support of the business people in these towns is needed, as this tour will be considered as a very important part of the tour score.

### REPORT ON COUNTY FINANCES FOR 1963 and 1964

Article 1665, revised Civil Statutes of Texas requires that an annual financial report be made each April, copies of which shall be filed with the Commissioners Court and the District Judge of the County. Each time an annual audit is delivered to the Commissioners Court and the District Judge, the County Auditor shall send a report to the bonding company of each district, county and precinct officer showing the condition of that particular office (Acts 1955, 54th Leg.).

The above mentioned report was duly filed with the Eastland County Commissioners Court on Monday, April 12, 1965. As your County Judge and Budget Officer, I feel that the public might appreciate some comparisons and comment on this report and the financial condition of Eastland County for the past two years. These comparisons will be based upon the expenditure of funds and the payment of bonded indebtedness which concerns County-wide funds and no attempt is made to discuss receipts or disbursements for the individual precinct road and bridge funds.

On January 1, 1963 cash in all funds \$274,119.55; bonded indebtedness \$56,000.00, net \$218,119.55.

On January 1, 1964 cash in all funds \$220,925.53; bonded indebtedness \$41,000.00, net \$179,925.53.

On January 1, 1965 cash in all funds \$204,064.24; bonded indebtedness \$26,000.00, net \$178,064.24.

These figures reflect \$40,055.31 less net than was on hand on January 1, 1963. During the past 2 years Eastland County has been called upon to furnish right of way for the building of State Highways in the total amount of \$38,875.59. This sum reflects the actual net expenditure from the County-wide road and bridge fund over and above the amount shared by the State Highway Department. This right of way was used for State Highway 6 and 206 and the obligation to spend this money was incurred prior to January 1, 1963. Eastland County has always been willing to shoulder its fair share of State Highway right of way purchases. Other expenses which were over and above normal operating expenses include items such as a new photocopy machine costing something over \$10,000.00, to be used by the County Clerk's Office, ballot boxes, a camera for the Sheriff's Department, office furniture, air conditioners requested by various county offices. The total amount spent for these items for the past two years was \$12,743.19. While these items were costly they are still practically new and will provide good service for many years to come.

Also a number of costly elections were paid for by Eastland County as well as a rather large sum of money spent to cover the County's cost of holding lengthy criminal hearings in this county as well as \$1,683.54 paid Palo Pinto County for change of venue trial. During the years of 1963 and 1964 Eastland County has paid \$30,000.00 on its bonded indebtedness.

In conclusion, the County-wide net worth appears to be less on January 1, 1965 but the County has something to show for its money. The purchase of extensive right of way, expenditures for capital outlay, unusual expenses and criminal trials account for considerably more than that sum. Also our debt has been reduced from \$56,000.00 to \$26,000.00.

It is my sincere hope and desire that every tax payer will become familiar with the financial operations of our county. These records are open for inspection and a quarterly statement is published in one of the County papers every three months. Eastland County has an 80c per \$100.00 tax rate based on some of the lowest property values in the State of Texas.

Respectfully submitted,  
**SCOTT BAILEY**  
COUNTY JUDGE

## Choose the electric cooking method that suits you best

### You'll enjoy cooking that's clean and cool because it's FLAMELESS

Whether you're cooking family-size meals with your electric range...snacks with your electric frypan... or delicious specialties in your electric rotisserie or roaster-oven...you'll be a cooler cook in a cleaner kitchen, because electric heat is flameless. There are no flames to heat up the kitchen air and the cook... no by-products of fuel combustion to soil kitchen walls and curtains. Visit your dealer soon and see the wide selection of versatile electric cooking appliances. Cook the clean, cool, modern way... electrically.

## 'Evening in Paris' Is EHS Annual Band Banquet Theme

By HOMER TERRY  
"An Evening in Paris" was the theme for the Annual Band Banquet of the Eastland Band Boosters Club, Thursday evening. Members of the band as well as their dates enjoyed the "Evening" on a setting of an open street cafe in Paris.

The invocation for the banquet was given by Wendell Seibert, superintendent of the Eastland Public School System followed by the welcome given by C. F. Huffman, vice president of the Band Boosters Club. The response was given by Jimmy Finley, president of the Eastland High School Band.

The meal for the evening was carried out in the theme by eating by candlelight and having the tables decorated with Paris plate favors. The meal was catered by Eubanks Barbecue.

The decorations were made of Paris fancies and the stage of the elementary school was the scene of a sidewalk cafe where the entertainers were seated with their dates. The booths for the sidewalk cafe were fixed with red and blue streamers and silver stars.

Entertainment for the evening was presented by "The Singing Chefs" a group consisting of Debbie Belle, Gary Rollins, and Bill Herridge. The musical group brought numbers of folk music, most of which came from the famed group folk singers, The Kingston Trio.

After several musical numbers, Mr. John Foster, director of the Eastland High and Eastland Jr. High Band, presented awards to two Junior High students. The outstanding musician award went to Larry Lane and the most improved award went to Robert Robbins.

Mr. Foster also recognized the people who worked very hard on the decorations. He closed the banquet, thanking all the band members for their cooperation during the school year and all who made the year for the band one of the "greatest" yet.

## May 1 Is The Deadline For Wheat Plans

Farmers (producers) who signed intentions to participate in the 1965 wheat and feed grain programs are reminded to check their intentions and make sure to meet the conserving base requirement.

This reminder comes from County Office Manager Jesse G. Meredith. The provision is very important in order to qualify for diverted and price support payments.

Final date to dispose of excess wheat, barley or oats is May 1, Meredith said.

Grazing diverted acres area from May 1 through October 31 will cause loss of diverted and price support payments and producers who plant intertilled competitive crops with peanuts should remember that in order for the area to be deducted, it must be at least two normal rows wide and the crop must compete with peanuts for moisture, and growing season, according to Meredith.

with Paris plate favors. The meal was catered by Eubanks Barbecue.

MANY DO YOU RECOGNIZE? — This picture made in Eastland in 1920 and the fight ring was inside an indoor swimming pool, located at the somewhere near the present city hall, according to Hank Ponders, now of Massillon, Ohio, who was in Eastland this week and left the picture. Ponders, standing at left in the ring, was in Eastland in 1920 with a construction crew which built the Exchange Building. He could remember but few of the spectators or officials, the fighters not at all, but recalled that police "raided" the scene soon after this picture was made and the fight never came off. Who knows more about the event?

ARCHITECT'S DRAWING of Ranger's proposed Texas Museum which would be erected on a 25-acre tract, and Charles L. Fox, executive director of the project of Ranger on old U. S. Highway 80. The structure posed museum.

### Miss Williamson Represents Texas Convention

Miss Williamson, daughter of Mr. and Mrs. Austin Williamson of Eastland will represent Texas at the annual convention of the National Federation of Music Clubs, which is being held at Andrews High School in Acepella, Texas, Monday, April 12, at 8 p.m.

She is a member of the Dale County Choir, and was the soloist at the last Texas convention held four years ago, by a Texan group.

### Battle Charged With Threatening Boy, 14

For the second time in less than a year James Battle, Ranger Negro hotel owner, will face a grand jury.

Battle is currently free under \$1000 bond on a charge of allegedly "threatening a minor boy with a pistol" on Monday, April 12, at 8 p.m.

He was taken into custody by Patrolman Bill Bollinger of the Ranger Police Department, assisted by Constable Raph W. Veal.

During the trial, Battle contended that he had fatally shot Don Gonzales at Battle's Little Gem Hotel in Ranger on July 4 in self-defense because the Latin American had attacked him with a knife.

### 2 FHA Members Attend State Meet In Dallas

Arlina Arnold and Sharon Harbin, members of the Future Homemakers of America chapter of Eastland High School, attended the state meeting of the Texas Association, Future Homemakers of America, in Dallas, April 23-24, according to Miss Loretta Morris, advisor of the chapter.

Theme for this meeting was "Homelife — Foundation for Peace."

Arlina Arnold served as voting delegate to the meeting; and Vocational Homemaker Teacher Miss Morris accompanied the group to Dallas.

Featured speaker for the event was Tad Corbet, Bible lecturer and Baptist minister from Lubbock.

### Glenn Scallorn, Commissioners Discuss System

Glenn Scallorn, Southern Televisions Systems Corp. executive of Del Rio and former Eastland resident and former local manager of the Eastland County system, appeared before a special called meeting of the Eastland City Commission Thursday afternoon.

He apologized for the reception service of the past few weeks and pledged his company's complete determination to improve the service where possible. He explained that weather conditions are affecting cable systems throughout the Southwest and that hopes are that these will clear soon. Service will be improved through the engineering department, he said.

Complaints about reception were originally aired at the regular monthly meeting of the commissioners Monday evening. All commissioners were present of the Thursday meet except Commissioner Dr. M. A. Treadwell Jr.

### Interest Good For 1st Annual Preacher Tourn.

The first annual Ministers Golf Tournament in the state will be held May 7, Friday, at Long Cedar Country Club between Ranger and Eastland.

Entry fee for the event is \$3, according to Chairman Jack Arrington, and presently some 30 players have signed up.

## WHY ALL THIS INTERFERENCE ON TV?

If you are experiencing poor reception, please call OUR office. We have radio-equipped service trucks, and personnel will be dispatched to the trouble area immediately.

We are in the season of the year when freak atmospheric conditions are disturbing television reception and cause far-distant TV stations to interfere with reception of our system's.

It is annoying to you and to us, since we have no control over the atmosphere. As long as we have frontal weather activity we will have unusual interference on the stations we receive.

What can we do about it? Some relief could be secured by obtaining Federal Communications Commission authority to relay microwave all our stations from a point further east where stations are stronger and are less affected by interference.

We welcome your call.

# Requests to Highway Department

(Continued from page 1) City Commissioners call upon the State Highway Department and its proper officials to reconsider its present plans on said Interstate Highway so as to provide for:

"1) An interchange on said Interstate Highway where it crosses the present county road which is an extension of Basset Street of the City of Eastland and

"2) Access roads on either side of such Interstate Highway from the interchange with U. S. Highway 80 East of Eastland to the interchange with State Highway 6 South of Eastland, and

"3) Connecting the access road segments from the interchange with State Highway 6 to the next interchange West thereof, and, that, the State Highway Department grant a hearing for due consideration of the above matters at its earliest convenience."

The resolution passed by the Eastland Industrial Foundation, and signed by President H. T. Wilson, is as follows:

"Approximately one year ago, interested citizens of Eastland, Texas, organized the Eastland Industrial Foundation, Inc., in an effort to coordinate local efforts in attracting industry to Eastland. It has been realized that a small town such as Eastland must attract investments from outside its town in order not to stagnate and wither away.

"Such Foundation has already expended more than \$80,000.00 in its industrialization efforts and has had contact with various enterprises which have considered moving to this area.

"It has been called to the attention of the Foundation that present plans for Interstate Highway 20 do not provide for access roads alongside such Highway from the interchange with U. S. Highway 80 East of Eastland to the interchange with State Highway 6 South of Eastland.

"If these plans are not changed, any prospect for future industrial development of our area will be seriously and adversely affected. From our experience with industrial prospects, it has become obvious that any industrial expansion of consequence must be to the East and Southeast of Eastland — the area which

under present plans, will not have ready access to Interstate Highway 20.

"Terrain and problems of providing sewage and water limit the interest of industrial prospects to this area in large measure. However, practically all of such prospects are seeking ready access to the fine highway system which does and will serve our town.

"We have found that ready access to Interstate 20 is a major consideration of firms now interested in our area — and understandably so.

"It would be virtually impossible for us to have developed the fine industrial sites along proposed Interstate 20 unless such sites could be on access roads connecting to such highway. It would not be feasible to construct roads from Eastland to such sites in order to connect such sites with Interstate 20 via Eastland and existing roads.

"It is our understanding that very little, if any, additional right-of-way would be needed to provide access roads on either side of Interstate 20 in this area. We deem it of utmost importance, not only to the growth but to the survival of our city, to have access roads on either side of Interstate 20 in the Eastland area.

"From the standpoint of future development and practical use, it would also be most advisable to have another interchange on Interstate 20 in the Eastland area, to be located where Basset Street extended South would cross Interstate 20.

"We understand that an overpass is now planned for such site, but we cannot over-emphasize the additional benefits which would result if an interchange were placed there. This would give additional access, and for much potential developed, more practical access, to the highway from land we regard as having good industrial prospects.

"We are very much concerned with problems we can see if present highway plans are not altered as suggested above. It is absolutely imperative to our efforts (in the light of present contacts) that we do everything possible to seek the additional access roads and the additional interchange mentioned above. The Highway Department has always been most cooperative, and we seek your continued cooperation in this regard."

The resolution by the Highway Committee of the Eastland Chamber of Commerce, signed jointly by Co-Chairman Virgil T. Seaberry Jr., Jack Arrington and Lewis Tiner, is as follows:

"This letter is written by the undersigned as co-chairman of the committee of the Eastland Chamber of Commerce concerned with highways and on behalf of the Chamber.

"When the first hearings were held regarding proposed Interstate Highway 20, the Chamber was primarily concerned with the effect of the by-passing of our town and

was seeking to postpone such as long as practicable because of what adverse effects we thought it might have on our town. We have realized that the by-pass is inevitable, but we have always hoped to minimize these effects as well as possible. In our opinion, this has been the reaction of most of our citizens. We just now have really acquainted ourselves with the details of the proposed construction, and we have become aware of matters which could even have more dire results than we had first anticipated. The Highway Department has always been most considerate and cooperative, and we turn to the Department for sorely needed help.

"We had assumed that adequate interchanges would be placed on Interstate 20 in the Eastland area and that there would be access roads on either side of the highway along its full length in our area. We now find that our assumptions were not correct. If Eastland is to survive, we simply must have adequate interchanges and access roads in our area.

"As we now understand the plans, there will be an interchange with U. S. Highway 80 East of town, one with State Highway 6 South of town, and another with a county road West of the second interchange, while the only access roads will be along (but not full length) between the last two interchanges mentioned. As a practical matter, this means that there will be two places (the interchanges on 80 and 6) where traffic will connect with our town and where various retail establishments catering to the highway traffic can locate to serve Interstate 20.

"To alleviate the difficulties hereafter outlined, we would respectfully propose that access roads be constructed along either side of Interstate 20 from the U. S. 80 interchange to the Highway 6 interchange, that a further interchange providing be constructed at the intersection of Interstate 20 with the county road which is a southerly extension of Basset Street in Eastland, and that the access roads West of Highway 6 be completed the full length between Highway 6 and the next interchange West thereof. Such proposed addition would let Eastland have three direct connections with Interstate 20 and would provide access to such highway from adjoining land in the Eastland area for businesses serving the highway traffic and businesses which need readily accessible highway transportation. If these additions are not made, we can only foresee the worst economically for our town.

"You are well aware of the great flow of traffic on U. S. 80 which now goes through Eastland but which will be diverted South of town when Interstate 20 is completed. Many of our business establishments depend on servicing this highway traffic. For example, in 1960 Eastland had 175 business establishments (some, unfortunately, are no longer with us). On the segment of U. S. 80 now passing through Eastland, there are today 54 retail establishments (not including motels, barber shops, beauty shops, insurance and real estate offices, etc.). These retail stores sell over the counter to local people and to through traffic, some depending more on the one type of customer and some more on the other; all of these should be anticipated to lose business when Eastland is by-passed as now proposed. On this highway segment are 17 service stations, 8 cafes and drive-ins, 5 hotels and motels, and 3 drug stores deriving considerable trade from the through traffic.

Of course, other similar establishments exist in Eastland off of U. S. 80. Unless these businesses are afforded the opportunity of serving the through traffic on Interstate 20, many will be forced out of business. As we see it, there are only two ways in which they can be helped when Interstate 20 goes South of Eastland.

One is by providing more adequate ways of leaving the highway to reach Eastland and to get back on the highway. The two effective interchanges simply will not afford this opportunity; the traffic must have a second opportunity to turn off into Eastland before, in effect, having to turn back to reach our city.

The other is to provide places where such businesses can relocate. As plans now exist, such places would be at the two interchanges East and South of town. This space is too limited and is too expensive for little businessmen to

purchase. As you are aware, larger oil companies and outside people with money to invest (and we welcome them to our town) are purchasing the sites which will be available under present plans. Our small businessmen cannot afford to pay \$30,000.00 and more for relocation sites. Such sites can be provided on the access roads which we request. Without the access roads, however, the lands adjoining Interstate 20 will be worthless to these people.

"Also, the proposed access roads will afford Eastland the further opportunity of attracting industry which we sorely need. We realize that Eastland will have an advantage over towns not on Interstate 20 because of the access to that fine highway. However, there must be real access to that highway. Practically all industrial prospects who have been looking at Eastland are vitally interested in the availability of good highway transportation. The area which lends itself best to industrial development lies East and Southeast of Eastland. To the North and West city-furnished water and sewage facilities cannot be added to the present system because of various problems arising from the terrain. Land can be sold to or acquired for such prospects along Interstate 20 but there is no access for the plants to such highway. If the plants were on access roads, the problem would be solved.

Otherwise, roads would have to be built from town or U. S. 80 to such plant sites, giving round-about access to Interstate 20. But neither the City nor the County could build these roads. The City is still operating under orders of the bankruptcy court and the county could not seek to build roads (if money were available) until traffic would offer justification — and there will be no traffic until there are roads.

Then too, construction of other roads (even by the State) would entail the purchase of right-of-way, and it is our understanding that the right-of-way being acquired for Interstate 20 would, for the most part, include sufficient space for the access roads we are seeking. In this county, this is a real cost consideration.

Over the past 40 years, our area has been declining in population (and thus, usually in other indices of growth and progress). For example, our Eastland County population was 58,606 in 1920, 34,156 in 1930, 30,345 in 1940, 23,942 in 1950 and 19,526 in 1960. The decline in population in the City of Eastland has been comparable: from the 15,000 or more in 1919 to 3849 in 1940, 3626 in 1950 and 3292 in 1960. (We do not have immediately available the official census figures for 1920 and 1930, but they should exceed the 1940 figure.) The by-passing of Eastland is going to have some adverse effect on us, but the by-passing without adequate interchanges and access roads will be disastrous. The Governor has started a pilot project in this county for industrial development known as E-65, in order to help us grow instead of wither. The proposals which we are making will likewise give us some hope. We note that many larger, and smaller, towns along Interstate 20 are provided with proper interchanges and access roads which create a vital link between those towns and the highway. Eastland stands in dire need of similar facilities.

"We have before us a most serious problem. We need the full help of the Highway Department. This help has always been forthcoming, and we hope that it will continue. The Department has been second to none in its fine work. In our opinion, the relatively small outlay required for our proposals would give Eastland its chance to grow instead of die, and the economic benefits to our town by actually having Interstate 20 more or less a part of us should be great. We are willing to meet with you and other Department representatives at your convenience and to cooperate in every way possible.

"In support of this request, we attach a resolution of our City Commission and a letter from our industrial foundation. We trust that our urgent request will receive the usual attentive consideration of the Department as soon as possible.

# Mrs. Patterson Reviews 'Trilogy' for Las Leales

"These are the things I prize . . . the smell of flowers, and the good brown earth . . . and best of all along the way, friendship and mirth" by Henry Van Dyke was the quotation that opened the meeting of the Las Leales spring tea Monday evening at the Woman's Club.

Mrs. Donald Kinnaird Jr. welcomed members and their guests and introduced Mrs. Guy Patterson who presented a most delightful review of "A Trilogy" by Mrs. Thyra Ferre Bjorn.

Mrs. Patterson began her review by reading a personal letter she received in answer to one she had written Mrs. Bjorn. A native of Lapland, Mrs. Bjorn said that about 80 percent of her book is true.

The audience was well impressed with the review, after which guests and members were served frosted punch and cake squares from a beautifully appointed table.

The entire club house was decorated with suggestions of spring. Especially noted were

the China Easter eggs, hand painted by Mrs. J. M. Cooper. Hostesses for the evening were Miss Verna Johnson, Mrs. J. C. Whately, Mrs. Kinnaird, and Miss Esther Grath. Approximately thirty-five member attended the meeting.

## WEEKEND VISITORS

Visiting with Mrs. Etta Johnson last weekend were her daughter and family, Mr. and Mrs. Henry Jones of Longview.

Mr. and Mrs. Boyd Franklin and family of Odessa visited last weekend in the home of Mr. and Mrs. Rabb Steddum.

# Beef Cattle Short Course Set For May 3-6 At Olden

Beef cattle short course for farmers will be held Tuesday, Wednesday and Thursday, May 3-6, at the community center. The four-day course is being sponsored by the co-sponsors of vocational agriculture at Olden High Schools. The course is being arranged by Beverly Dudley Jr., instructor at Ranger High School, Gilbert Copeland, and W. L. Sims, vocational agriculture instructor at Olden High School. Thornton, beef production specialist with the Vocational Agriculture Division of the Texas Education Agency, will be the instructor in the course.

C. E. Yoakam Ranch at Cherokee, Texas six months and then taught vocational agriculture at San Saba seven years and Kerrville, Texas three years. Thornton has a wide and varied experience in training livestock and meat judging teams for state competition. In addition to working with beef cattle, he has raised registered Poland China Hogs and has had considerable experience as a sheep and goat raiser. He has worked closely with registered breeders, commercial cattlemen, and Vocational Agriculture students in the field of beef production.

Thornton states that the field of beef cattle production must take a close look at efficiency of production in the future. With land prices, feed, and taxes rising, the producer is meeting more and more competition for the consumer's dollar at the meat counter. From the economic view of the beef cattle business, there is every indication that in comparing the producer of yesterday and the producer of tomorrow, beef must be produced to sell cheaper in order to be a profit-making business.

Thornton indicates that the beef cattle shortcourse will deal with the methods of producing beef at a lower cost and the ways of producing the kind of beef that the housewife wants to buy. He also states that the course will include such important fields as the meat-type steer, selecting bulls and replacement heifers, proper range use, supplemental winter feeding, and will be altered to meet the wishes and interests of the farmers and ranchers enrolled.

During the dates the short course is in progress, Thornton will be available to assist cattlemen with individual problems and to provide on-the-farm instruction, according to the local co-sponsors. Cattlemen interested in attending the short course should write or call Dudley at Ranger High School, Copeland at Olden High School or Sims at Eastland High School. An entry fee of \$2.00 will be charged. Beef cattle shortcourse certificates will be presented to each cattleman who attends all the training sessions.

HOMER WILLIAMS is shown putting muscle into the act of holding a 30 pound catfish high enough that the fish's tail won't drag the ground. He hooked the 30-pound beauty at his cabin on the north side of Lake Leon on the first part of last week. Mr. Williams and his wife wrote friends in Odessa, informing them of the big catch, and they got the urge to do some fishing. The friends, Mr. and Mrs. Doyle Whitefield and Mr. and Mrs. C. F. Collins, have been visiting this weekend with the Williams.

## District Officer Gives Music Club Program

Eastland Music Study Club met Wednesday, April 21, for a covered dish luncheon in the home of Mrs. Don Russell at Bell Hurst Ranch, with Mrs. Don L. Kinnaird, Jr. presiding.

Special guest was District President Mrs. T. A. Mitchell of Fort Worth, who was presented with a lovely corsage of white carnations as she arrived.

After lunch, which was served from several beautifully decorated tables containing fragrant spring flowers, the group assembled in the living room for the program.

Guest speaker Mrs. Mitchell spoke on Federation News and Views and discussed the Parade of American Music. She also discussed Texas composers and compositions from the 18th century to the present time, stating that the historical society is collecting its works and placing it in the Fort Worth library for permanent preservation. She then played a number of their selections on the piano.

Present were Mmes. Russell, Kinnaird Jr., Floyd Robertson, T. E. Richardson, Sallie Bishop, Clara Cockrill, A. D. Dabney Sr., Jack Frost, D. L. Houle, Kinnaird Sr., A. L. Murrell, Don Parker, Ita Parrish, Joseph Perkins, Don Pierson, Grady Pipkin, Kenneth Thompson and Mitchell; and Miss Marjorie van Hoose and Mrs. McCorkle of Fort Worth.

## SCHOOL MENU

Eastland High School menu for this week has been announced by Mrs. Laverne Wingate as follows:

Monday — Italian spaghetti, green beans, Harvard beets, hot rolls and white cake with divinity icing and coconut.

Tuesday — Steak and gravy, whipped potatoes, black-eyed peas combination salad, hot rolls and pineapple pie.

Wednesday — Hamburgers with tomatoes, lettuce, onions, and pickles; and one-half pimento cheese sandwich, potato sticks and pumpkin pie.

Thursday — Fried chicken, macaroni and cheese, English peas, carrot curls, hot rolls and fudge cake.

Friday — Tuna fish salad (sandwiches for elementary school) whole kernel corn, buttered carrots, sliced bread and prune cake.

Guests of Mrs. John Brown recently were her son and family, Mr. and Mrs. Elmer Brown and Beverly of Fort Worth.

Visitors in the home of Mr. and Mrs. W. E. Tankersley last weekend were her sister, Mr. and Mrs. Bill Whately of Hico; and their children, Miss Gracie Tankersley of Fort Worth, Mr. and Mrs. Larry Tankersley and children of Troup, Mr. and Mrs. Doug Warren and children of Abilene and Mr. and Mrs. Charles Dick and children of Kermit. John and Florence Barber spent last Tuesday and Wednesday in Stephenville with his daughter, Mrs. E. E. Bradford.

"Shortcourses in beef cattle, as well as in other areas, are now available to farmers throughout the state under the cooperative program between the Texas Education Agency and Texas A. & M. College," states Bob Jaska, associate professor, Department of Agricultural Education at Texas A. & M. College, who coordinates the program for Texas A. & M.

"This cooperative program," states Jaska, "is designed to make the services of specialists available to conduct shortcourses under the supervision of public schools. Such a program will enable teachers of vocational agriculture to provide improved educational services to farm people."

Specialists are now available in the fields of beef cattle, insect control, farm management, farm electrification, arc welding, swine production, tractor maintenance, dairy science, pasture, and oxy-acetylene welding.

## Scientists' Sunday Topic

The Christian's approach to final victory over death will be a central theme at all Christian Science churches this Sunday. The subject is "Probation After Death." One of the Bible selections to be read is from Galatians: "He that soweth to the Spirit shall of the Spirit reap life everlasting."

Also included in the Lesson-Sermon will be these lines from the denominational textbook: "Emerge gently from matter into Spirit. Think not to thwart the spiritual ultimate of all things, but come naturally into Spirit through better health and morals and as the result of spiritual growth. Not death, but the understanding of Life, makes man immortal" (Science and Health with Key to the Scriptures by Mary Baker Eddy, p. 465).

## Calvary Revival Begins Tonight

Calvary Baptist Church, 205 North Oak St., will begin revival services tonight, April 25, continuing through May 2 with Rev. J. Frank Wilson of Sweetwater as visiting evangelist. Evening services will begin at 7:30 p.m.

April 25 is also homecoming day at the church with all-day preaching and dinner on the ground, according to the pastor, Rev. Earl Williams.

Everyone is invited to attend revival services and the homecoming.

## Cemetery Working

The annual cemetery meeting will be held all day May 1 at Alameda Cemetery with basket lunch at noon. After the meeting, there will be a program of singing.

## VISITS FORDS

Mrs. Lillie Bigby and Jerry Myrick, both of Big Spring; and Mr. and Mrs. John Reed of Carbon visited recently with Mr. and Mrs. George Ford.

## Treadwells Win Honors In Tennis Tourney

The M. A. Treadwell Jr. family played in the Abilene Easter Tennis Tournament this past weekend at Abilene and all came home a winner.

Randall was entered in the boys 12 year old singles while he played in the 14 year old doubles.

Marsha Treadwell was entered in the 18 year old singles and also the 16 year old singles bracket.

Terry was entered in the 18 year old singles, and in the 18 year old doubles.

Dr. Treadwell and son, Terry, teamed up together in the father-son bracket.

Here are the results of the Tennis Toorney:

Boys 12 singles: Quarterfinals: Colmen defeated Randall Treadwell, 6-2 and 6-1.

First Round of 14 Boys doubles: Pendergrass and Garriker def. Black and Randall Treadwell, 8-6 and 6-0.

Boys 18 year old singles: Terry Treadwell def. Whitt Cline 6-1, 6-1. def. Harper 6-4, 6-3.

Quarterfinals Bruce def. Treadwell 9-7, 6-3.

Boys 18 Doubles: Treadwell and Horton def. Harper and Osborne 9-7, 6-2. Quarterfinals Treadwell and Horton def. Paylor and Scott 6-3, 6-1. Ragland and Williams def. Treadwell and Horton 6-4 and 6-3.

Girls 18 singles: Pat Sloan def. Marsha Treadwell 4 - 6, 7-5, and 6-3.

Girls 16 singles: Linda Russell def. Treadwell 1-6, 6-3, and 7-5.

Girls 16 doubles: Marsha Treadwell and Stephanie Letz def. Fannin and May 6-0 6-0. Treadwell and Letz def. Pannell and Wells, 6-0, and 6-0.

Treadwell and Letz def. Hutcheson and Hutchison, 6-0, 6-2.

In the Father-Son division the Treadwells of Eastland walked away with top honors. In the quarterfinals Dr. and Terry def. Darner and Darner 6-1 and 6-2. In the Semi-finals they defeated Ivy and Ivy of Austin 4-6, 6-1, and 6-1. In the finals Dr. Treadwell and Terry defeated Black and Black of Corpus Christi 3-6, 6-4, 6-4.

## Make It A Foursome For Annual Clean - Up

Clean-up time is workout time for three important tools in the house — broom, rake and paintbrush.

But be sure you add a fourth one—the trash can.

Trash and rubbish are an open invitation for fire to enter your home, says Fire Marshal Guy Robinson.

"A good, vigorous clean-out job, repeated at regular intervals, is one of the smartest things you can do to keep your home and your family safe from fire," the Chief adds.

Maybe you don't have anything you would call "trash" around your place. Call it clutter then. Go up in the attic and take a good, calculating look at any old mattresses,

stacks of papers and magazines, discarded draperies and lamp shades. Check closets for old clothing and cleaning rags. Go over the basement for workshop scraps, oily rags, paint cans. Don't miss the garage either.

Get rid of it all — this fuel for fire — and you and your house will likely be around much longer to enjoy that new paint job and spruced-up yard you gave it this Spring.

"National Fire Protection Association figures show that about one of every twelve fires starts in rubbish," Robinson points out. "That's why using the trash can is so important, during Spring Clean-Up and all year round."
