STLANDER Leon Hale's book, "Turn South at the Bridge," to be released in June by Doubleday & Co. is a real ringer — especially for people who like to read about people, real, live and sometimes a little unusual.

Hale is a columnist for the Eastland Post, and the book is a collection of his columns — ones that describe the most interesting assortment of characters.

Eastland High School graduate, Hale is the son of Mr. and Mrs. Fred Hale of Eastland and a brother of Mrs. Ima Ruth Taylor, school secretary.

Hale's job with the Post involves traveling the backwoods of South Texas, and reporting on the interesting people and experiences he encounters.

Another chapter tells of a man who carries a weapon and how he carried it. He says, as a "sling-shot," the correct name of the device is not permissible in today's world.

Here's Hale's resume of that bit of wisdom: "Now if you study that statement, you will see that it sums up a vast and complex situation in a mighty simple word. If I can avoid ruining it by trying to explain it, on the surface the Union holds that when the bakeries began turning out lightbread — a term once in vogue to indicate store-bought bread — then they wanted what Uncle Charlie believed to be a deadly germ in American households.

Meaning the women quit baking hot biscuits and corn bread, and from that, went on to opening cans instead of shelling peas, and so on until they could play cards all day and rush home at five o'clock and thaw out something for supper. I am reminded by certain authoritative source in my own household that there are those who would die.

Nursing Class Helps Meeting

"May our thirst for knowledge never be quenched" was the motto submitted by Mrs. Mary Featherstone of Albany and chosen by the Vocational Nurses at a recent meeting of the group.

Mrs. Kimmell, president, opened the meeting and after accepting the motto, the group decided to ask Mrs. Mitchell, instructor of Vocational Nurses Class, when would be the best time for a class picnic, plans of which are pending. Mrs. Kimmell then asked that the meeting time be changed from 12:30 every other Wednesday to 3 a.m. every other Monday in order that Mrs. Mitchell could attend the meetings.

Everyone was asked to decide upon a class scripture and members paid their class dues.

Leon Briefs

Big yellow cat have taken the limelight at Lake Leon now. We cannot possibly know about all of them, but among those that have been caught this past week, were a 40 pound and a 23 pound, taken by the Z. O. Mehaffys of Lake Leon; a 36 pound caught by H. S. Packwood; and a 14 pounder, L. G. Powell of Route One, Ranger.

Visitors at Lake Leon are becoming too numerous to mention by name; however, we are having many from Lubbock, Odessa, Andrews, Midland and all points west, even from New Mexico.

The Kinseys, Bensons, Duffs, Duncans and Woods, from Monahans and Crane are all here again. They fish only for bass and we understand they've had at least one fish supper. Those bass are not cooperating too well. Dub Benson is fishing but he also keeps an eye on the boat dock and that wheel barrow.

EC-65 MEETING

(Continued from page 1) will also be on the program. The conference is designed to train the community leaders in "finding industrial prospects."

DINNER HONORS

(Continued from page 1)

During the program, School Supt. Wendell Siebert gave a resume of accomplishments of the school board during the 15-year period that Perry served, eight years of which was served as president of the school board. Highlighting those years, stated Siebert, was the building of the new school and gymnasium.

After making a speech, second grader John Marshall, son of Eastland High School Principal, Mr. and Mrs. Charles Marshall, presented a Certificate of Service to Mr. Perry. Also presented to him was a calendar, pen and pencil desk set and a three feet long gavel, which board members needed and wished for during discussion of segregation days and consolidation of the schools.

A beautiful bouquet of red roses was presented to Mrs. Perry. Upon his turn to speak, Mr. Perry said, "It is them, the school faculty and board members, rather than myself, who accomplished what has been accomplished." He then expressed his appreciation to the faculty for its devoted consecration toward a better school system.

Donovan, Beethoven, Heller, Scriabine and selections of Spanish and Portuguese, music of the 18th Century. Mr. Karnes will present the music from the Kimbell Concert Grand Piano, which is owned by the Woman's Club and which is one of three nine foot pianos Eastland can boast of maintaining.

The variety of repertoire offered gives much opportunity for comparison in style and Mr. Karnes will perhaps make comments on how dissonance and resolution is handled by individual composers.

Featured will be a composition by Karnes, paying tribute to Andy Warhol, New York pop artist.

The complete program will include the following: "Two Preludes by Gershwin; "Adventure" by Donovan; variations on the duet, "Nel cor piu non mi sento" by Beethoven; 10 studies by Heller, from Opus 46; 18th Century keyboard works by Soler, "Freixanet, Albeniz, Galles and Seixias" and 13 Preludes by Scriabin, Opus 11.

National Music Week is sponsored by the National Federation of Music Clubs and Eastland Music Study Club.

An invitation to hear the concert is extended to all.

# Bagwells Named Dealer For Dodge

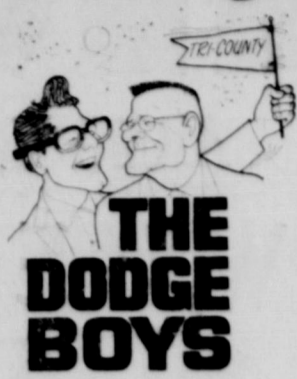

The appointment of Holman Bagwell as the franchised dealer for Dodge cars and trucks in Ranger and Eastland County has been announced by C. A. Crowe, Dallas, regional manager for the Dodge division of Chrysler Motors Corporation.

Bagwell, who has been in the automobile business in Ranger since 1948, is operating the new dealership under the name "Tri-County Dodge."

The big 1965 Dodge passenger—includes the Dodge Dart, Dart 270, Dart GT, Dodge Coronet, Coronet 440, Coronet 500, the Dodge Polara, the Dodge Custom 880, Dodge Monaco, and the Dodge Sportsman and the Dodge Custom Sportsman.

"Every 1965 Dodge is backed by a five-year or 50,000-mile warranty," Bagwell announces. "Here are the details on the strongest warranty in the business."

"This is how the engine and drive train warranty protects Dodge owners. Chrysler Corporation confidently warrants all of the following vital parts of its 1965 cars for 5 years or 50,000 miles, whichever comes first, during which time any such parts that prove defective in material and workmanship

will be replaced or repaired at a Chrysler Motors Corporation Authorized Dealer's place of business without charge for such parts or labor: engine block, head and internal parts, intake manifold, water pump, transmission case and internal parts (excepting manual clutch), torque converter, drive shaft, universal joints, rear axle and differential, and rear wheel bearings."

Tri-County Dodge is also franchised dealer for Dodge trucks and pickups. The firm's showroom and display lot is located at 111 Pine in Ranger.

Associated with his father in operation of Tri-County Dodge is one of his sons, Gene Bagwell, who had been

## Scout Objectives Discussed Here at District Meeting

A Boy Scout District Committee meeting was held at 7:30 p.m. Thursday at the White Elephant Restaurant with some 30 members present.

Dr. Nathan Cedars, district committee chairman, led the program, discussing objectives for the next two years; and dates for the future meetings were set.

Present from Eastland were Ben Lancaster, institutional representative for the Cub Pack, sponsored by the Junior Chamber of Commerce; Dr. Bob Alexander, council health and safety committee chairman; Rev. Haston Brewer, institutional representative of Troop Six; Frank Sayre, who is on the executive board of the council; and Roland McFarland, district scout executive.

Others present were M. M. Machen and D. D. Masner, both of Breckenridge; Lloyd McGrew of Cisco; Rev. Ray Elliott and Fred Bennett, both of Ranger and Jack Lawless of Stephenville.

## Tickets Sell Briskly For Carbon Event

Many reservations are being made for the Carbon Homecoming July 3. All ex-students, families, ex-teachers, parents and anyone interested is invited for the all day program of visitation which will begin at 9 a.m. at Carbon School buildings.

During the day, sandwiches and cold drinks will be available with the evening meal being served by a catering service at 6 p.m.

A short business and recognition meeting will follow the meal. Tickets are selling for \$1.50 per person and may be secured by writing Box 551, Carbon.

in the employ of Bagwell Motor Co. since January, 1963.

"If you're interested in a dependable used car," young Bagwell suggests, "see us. As your local Dodge dealer, we specialize in handling only 'dependables,' the cleanest, sharpest used cars you can buy."

"Visit our display lot today — and get your 'dependable' now!"

The dealer's stock of used cars includes hardtops, station wagons, convertibles, sedans — all makes, all models.

Tri-County Dodge offers liberal trade — in allowances and, of course, convenient terms to fit any budget.

## Rising Star News

In the stands for the inaugural baseball game at the opening of the Astrodome in Houston the other night were several Rising Star citizens. They were Mr. and Mrs. Harry Frye, Mr. and Mrs. Louis Mayfield and Mr. and Mrs. Victor Childers.

The Fryes were in Houston for Mr. Frye's periodic treatment at M. D. Anderson Hospital by Houston's mayor, Louis Welch whom Mrs. Frye taught in sixth grade.

The Mayfields, who live in Houston, are really former Rising Star residents and Mrs. M. E. McDaniel, daughter of Mrs. E. F. Bucy of Rising Star, and her daughter Suzanne were also on hand for the opening game.

Percentage wise, Rising Star had more citizens in the stands than any other community in the state outside of Houston, which in itself, is worth bragging about.

Specialist Six and Mrs. James D. Loflin and four children are visiting his parents, Mr. and Mrs. James H. Loflin of Rising Star. They returned recently from a 36 month tour of duty in Japan where he was a neuropsychiatric specialist with the U. S. Army Medical Command.

He has been assigned to Brooks General Hospital at San Antonio.

The Saturday Study Club of Rising Star met at the club room in the library building for their regular meeting April 17.

Theme for the program was "The Bible, Our Guiding Light," with a chosen verse, "Thy word is a lamp unto my feet and a light unto my pathway."

Mrs. Wilburn Scott illustrated "The Evening Prayer" and Mrs. Mutt Carroll narrated a story, "The Face of Judas Iscariot."

The library committee reported that eleven new books had been presented to the library, a project adopted earlier this year by the club members.

Following the business session, the hostesses, Mrs. J. R. Bucy and Mrs. Ira Huddler, served refreshments from a table carrying out the Easter motif in decorations.

Twenty-two members attended.

Plans have begun for a "Clean-Up, Fix-Up and Paint-Up" Campaign in the city of Rising Star within the next few weeks, according to newly-elected Mayor W. G. Reed as he began his tenure of office. This campaign is sponsored annually by the city and details will be worked out shortly.

The Rising Star Chamber of Commerce voted to cooperate with the clean-up campaign and at this same meeting, John Pruet, Chamber of Commerce president, named a committee to work on a new brochure, up-dated, to be used in advertising purposes.

Final inspection of the new housing project by local authority and Federal Housing Personnel took place on Wednesday and the Rising Star Housing Authority prepared to take over the latest housing project consisting of eight new units for the aged. A Temple firm, B&W Construction Company, has been in charge of the building and Elwin Fitch and Associates were the architects from Houston. The new units adjoin the present group on a lot just north of them.

The North Star Home Demonstration Club held its annual spring clean-up of the club house on April 20. Each member carried a covered dish which made the noon luncheon a gala affair. Inside, the club house was given a thorough cleaning.

## Seniors Served Early Meal By 'Enslaved' Jrs.

By DANA EDWARDS For the Juniors and Seniors of Eastland High School, Thursday began at 5:30 a.m. The Seniors had their annual "Slave Breakfast" at the Eastland Park, with complete control over the Juniors.

Probably the most hearty meal was prepared by Don Harris, Sidney High, David Hazard and Kenneth Stroud. They were slaves to Bill McCollum, Kenneth Lyerla, and Joe Taylor. For their breakfast, they prepared pork chops, two dozen eggs, three cans of fried biscuits, two gallons of orange juice, a pound of bacon and a huge pan of french fries.

Some of the most fortunate Juniors were Jennifer Pryor and Kathy Goodwin. Their masters, Jimmy Finley and Kenny Cogburn, let them get by with sweet rolls and orange juice.

All the students from both classes had to be at school by 9 o'clock.

Several cases of "stomach ache" were reported during the day.

AUSTIN — Gov. John Connally's push for four-year terms for governor and other statewide officials who now are limited to two years between elections is being bottled up in a balky House committee.

House counterpart has postponed action until March 30. Rep. John Allen of Longview is chairman of this House Committee.

Opponents, led by Rep. Bill Hollowell of Grand Saline, made no secret of the fact they hope to block it indefinitely.

The resolution has tremendous political impact, agrees House sponsor Rep. Gene Hen-

dryx of Alpine. If Connally runs for re-election, as many feel he will, a four-year term would place him only at the mid-point of his third term when the national elections roll around in 1968. He thus would be free to concentrate his efforts on helping old friend President Lyndon B. Johnson in his expected bid for another four years in the White House.

Opponents offer a variety of reasons for their stand. Some say they don't want the governor in a position to take a hand in legislative races during his "off" year. Others claim they have no objection to the governor's having a four-year term, but don't want to extend the benefit to other statewide officials now limited to two years. Still others believe officials should be answerable to the voters often.

Proponents argue just as convincingly that most states already allow four-year terms to their chief executives, and that longer terms would give officials more time to concentrate on their duties without pressure of frequent political campaigns.

Odds are that the governor eventually will find a way to get a floor vote on the proposed amendment to the constitution before session's end. Then, assuming the necessary two-thirds of lawmakers approve, it will be up to the voters to judge the issues raised.

Most important piece of water legislation to come before the current session was introduced in the deadline rush.

Bill by Rep. Raleigh Brown of Abilene lays out a way for Texas to find out how much water it has in its streams and who can use it.

Water belongs to the state, of course, and can be used only by those to whom the state permits its use. Establishing the right to water, however, can be a long and complicated procedure.

SHORT SNORTS — Bill to create a new State Board of Mental Health and Mental Retardation to take over the job of the present Board for State Hospitals and Special Schools cleared both Houses after hard work by its authors, Sen. Bruce Reagan of Corpus Christi and Rep. Wallace Mil-

ler of Houston. Sen. Tom Creighton of Mineral Wells, president pro tempore of the Senate, will become "governor for a day" on April 20. Tuberculosis eradication bill has been passed and sent to the governor.

House passed the bill to authorize eight new schools for the mentally retarded, four on either side of the 98th meridian, near center of state. "Double contracting" bill providing criminal penalties for signing false contracts or signing false statements to get bigger housing loans has cleared the House.

Sen. D. Roy Harrington of Port Arthur and a group of representatives have introduced a concurrent resolution calling for a special interim committee study of feasibility of creating a Big Thicket State Park within the State Parks System.

Proposed constitutional amendment to repeal the property tax for state revenue purposes in seven years (by stages) has been heard in House and Senate committees.

Licensing of water well drillers received House approval. Bill to require farm land on fringes of cities be assessed for taxation only at its agricultural value has been heard in House Revenue

and Tax Committee and referred to sub-committee. Texas traffic fatalities claimed 3,006 lives last year — a 10 per cent increase over 1963 — and auto accidents caused an economic loss of \$487,000, reports Department of Public Safety.

Atty. Gen. Waggoner Carr called on members of National Association of District Attorneys to initiate youth conferences in local areas patterned after the Texas Attorney General's Youth Conference as a deterrent to juvenile crime.

American Angora Goat Breeders Association of Rocksprings staged a mohair products style show for wives of top state officials in the governor's office and presented Mrs. John Connally, Mrs. Preston Smith and Mrs. Ben Barnes with hand-knitted mohair sweaters.

Texas Railroad Commission ordered a slight decrease in oil production during April — 28.5 per cent of potential for 2,919,535-barrel daily allowable.

Texas Employment Commission reports show an estimated 69,300 seasonal employees with farm employment down during January, mostly from cutbacks in the number of seasonal hands in cotton activities.

# Japan Is Theme For Delta Kappa Gamma

A film and illustrated lecture was presented by Mrs. Horner Slicker on the subject "Japan, A National of Tradition and Westernization" at a covered dish supper for the Delta Kappa Gamma last Tuesday evening in the home of Mrs. Lela Lloyd, club president.

Mrs. Slicker, who recently toured Japan, contributed Japanese place cards and chop sticks for the tables. Illustrations of beautiful Japanese handwork included delicate, hand painted china, and an embroidered, multi-colored silk coat.

Hostesses with Mrs. Lloyd were Louise Snoddy, Miriam Bledsoe, and Pearl Donaway. During a brief business session, the group accepted with

# Ranger Mother Seeking Support For Class To Teach 'Slow Learners'

A school class for "slow learners" or mentally retarded children may be organized in Eastland County provided enough parents express interest in such a project.

Mrs. Nita Thames, Route 3, Ranger, is making preliminary arrangements with the West Texas Rehabilitation Center, Abilene, to furnish the teachers for such a county-wide class which would probably meet in Eastland Mondays through Fridays from 9 a.m. until 1 p.m.

Shelley Smith, executive director of the West Texas Rehabilitation Center, said the IQ range of children for the class would be between 50 and 70.

A minimum of four children would be required in order to begin the educational project, Mrs. Thames said. Only four, however, would limit the school to one-half year operation. If eight children are enrolled the children would be taught for one year.

There would be no charge to the parents.

Parents and relatives of mentally retarded or physically handicapped children who would be interested in knowing more about this project are asked to contact Mrs. Thames by mail — Route 3, Ranger — or by telephone — Mitchell 7-1480, Ranger.

## District WWI Veterans Will Convene Sunday

The 17th District Convention of Veterans for World War I will be held Sunday, at the Victor Hotel, Cisco.

Following lunch the business session will be conducted by Ernest B. Miller, 17th District Commander.

All World War I veterans in this vicinity are invited to be present.

## INFRARED SPACE CAMERA PROBES EARTH SECRETS

NIMBUS I IN FLIGHT... Artist's rendering shows satellite with earth-oriented High-Resolution Infrared Radiometer attached to bottom. INSET shows ITT Industrial Laboratories' scientist preparing HRIR for installation in NIMBUS I.

There's a new "eye" for the sky that can reveal long-hidden secrets of Mother Earth. Mounted in a NIMBUS weather satellite whirling busily about our planet, this device, is technically known as a High Resolution Infrared Radiometer. It was designed by the ITT Industrial Laboratories of the International Telephone and Telegraph Company.

NASA scientists are elated by its performance. It is predicted that it will offer tremen-

dous benefits to all mankind, providing new means for long range weather forecasting, for geology, for water conservation, and as a tool for extending all the earth sciences.

Icebergs, clouds, cities, all give off infrared rays. Now it is possible to "picture" this radiation and chart the daily changes in weather patterns around the world. Infrared study is still in its infancy, but the benefits from it may some day radiate to all mankind.

ITALY AT MIDNIGHT... taken from 275 miles up by ITT Laboratories' High-Resolution Infrared Radiometer. The "boot" of Italy is at center, with clouds of a weather front at top, over the Alps.

### Now, That It's Spring Again -

... It is time to rejoice for the Season ushers in a period of new life, renewed hope and pleasant memories of Eastertime. But Spring, all too often, may bring memories of hail and windstorms, too, which are neither joyous nor pleasant. And sometimes they cause death and much destruction of property, without warning. If you are not carrying insurance against these hazards, and others just as destructive, better give us a call today. Tomorrow may be too late.
