Tourney Cram Session: Here's The Low-Down On Lone Cedar Golf Course

(ED. NOTE: As a public service in preparation for the forthcoming Lone Cedar Country Club Invitational Golf Tournament, June 4, 5 and 6, this newspaper prevailed on a local golf widow to share her knowledge of the championship course, which she has acquired from her frequent-golfing husband. For obvious reasons, the widow prefers to remain anonymous.)

See Diagram Inside

The 3,000-yard, 35-par Lone Cedar Country Club course is definitely a "straight-ball" course, and although there's not a sand trap to be seen, you have to keep your wits about you — or carry an adding machine.

For those of you who want to enter the upcoming tournament and maybe claim some of those valuable prizes (There's \$2,200 worth to be given), here's the low-down, hole-by-hole:

No. 1 — A good opening hole... and as good a place to begin as any... 375 yards, country — Lost Ball Journey.

No. 2 — A 367 yard, par 4, 200-yard, par-3, that takes you right to the water's edge. It's a Peninsula. Look ye, neither to the left nor to the right — they're both out-of-bounds.

No. 3 — A 400-yard, par-4, catch-up hole that can be a woolly booger. You might call it the All American hole.

No. 4 — A 380-yard, par-4, with—that's right, you guessed it, an out-of-bounds to the left. Suitable for right-handers and those who veer in that direction.

No. 5 — This is the "man-maker," a 400-yard, par-5, with a dog leg down and back, with out of bounds to the left. Once off the tee, you're in Marlboro Country. Remember, look to the left.

No. 6 — This is a 36-yard, par-4 hole where you may need your water wings. There's a water hazard that's great to cool off by, but muddy to chip out of. It's out-of-bounds on the right, so look and be ready to warn the Coast Guard.

Importance of Area-Wide Labor, Skills Survey Studied, Considered

Need for an up-to-date, accurate manpower survey of Eastland County was vividly illustrated this past week during a regular meeting of Eastland chamber of commerce board of directors. The Eastland directors indicated that they are ready to begin such a survey and are negotiating with chambers in Cisco and Ranger relative, to a joint effort, from which all can benefit. It is generally assumed by most in the country that a surplus of available labor exists, but prospective industries cannot accept "assumptions." Oscar Castillion, Industrial Development Director for Texas Electric Service Co., told the Eastland Counties. "These people have to know for a certainty before they can risk the location of a plant," he said. Joining Castillion in explaining the need and the mechanics of a manpower survey was George Maddox, another TESCO industrial executive who has assisted many cities in West Texas conduct successful surveys. It was the feeling of directors that a joint, county-wide survey would be most beneficial, with all towns participating and sharing the benefit of the compiled information. Details of such a survey would be worked out, but generally it would be a direct-mail approach, with confidential questionnaires being mailed to the some 7,000 families in the county, asking of members' availability for employment, education and skill backgrounds, and other pertinent information needed by potential employers. C-C President Don Viergiver, local manager of Hollywood-Vassarette, largest local employer, presided. Maddox has directed survey in Sweetwater, San Angelo, Midland, Odessa and other towns. Such a survey is a tool, a vital one, he said, in inducing industry. "It isn't a guarantee of any kind, but it certainly gives your people specifics with which they can negotiate." If such a survey proves nothing more than that your area needs more technical training for the people, then it certainly would be worthwhile, Castillion said.

Progress Reported By Historical Survey Group

Members of the Eastland County Historical Survey Committee met last Monday in Rising Star with Mrs. Lee White, representative. Five guests interested in the accomplishments of the committee, were present to hear representatives from different towns give reports on cemetery workings of their area, according to County Chairman Mike Collins.

At this meeting, it was learned that the Commissioners Court has maintained space in the Court House for an office, in which the Historical Survey Committee may store records and hold meetings. Within five months, this committee has made progress that wasn't expected until a years time since it began, Collins stated. He wishes to urge anyone who may have information concerning the cemeteries in the county to contact local committee men who are the following: Joe Dennis, Ranger; and Mrs. Alex Spears, Cisco.

Soil Stewardship Week Being Observed In Area

SOIL CONSERVATION DISTRICT NEWS

Soil Stewardship Week is being celebrated nation-wide this week.

Theme for special emphasis as selected by the National Association of Soil Conservation Districts is "Challenges of Growth."

Pastors of churches in this area are using this theme for special messages to their congregations. It is probably not a coincidence that the White House conference on natural beauty was scheduled for this week.

Facing a world-wide population explosion it is imperative that the American people accept a challenge of growth in the management of their God-given supplies of land and water. Only in America are we plagued with surplus supplies of farm commodities. When our population doubles in the next 40-50 years even we will be plagued with dire shortages of food, clothing, and shelter.

If we survive each acre of our land must produce more and more. Each year we are diverting about a million acres of agricultural land to other uses. Worse yet we are ruining about a half million acres each year through erosion and misuse.

Growth is inevitable. It is the unfolding of God's plan. The acorn of growth is both fruit and seed representing

capability and opportunity. Can the American people look to the future and meet this challenge of growth to build and share a richer, better way of life?

Mrs. Yielding Gives Morton Valley Program

Morton Valley Home Demonstration Club will have its next meeting in two weeks with Mrs. Alvin Kincaid as hostess. At that time, the program will be presented by Eastland County Home Demonstration Agent Mrs. Beverly Nicholson.

President Mrs. C. T. Brockman presided and Mrs. M. V. Harrison was hostess when club members met on May 26. Mrs. Josie K. Nix led the group in the club motto, pledge and prayer and Mrs. H. C. Pounds gave the devotional.

After a short business session, Mrs. D. J. West was elected as nominee for the Delegate to the State Texas Home Demonstration Association meeting in September at Houston.

A very interesting program on how to make beautiful pictures using crushed glass was given by Mrs. Dick Yielding and Mrs. R. M. Jones of Ranger. After the program, several members of the club displayed their handiwork.

Recreation hour was led by Josie Nix; after which time, the hostess used a clever game to announce the refreshment hour. Homemade candy, party mix (confection) cookies and punch were served.

The 14 members and two guests present were Mmes. Kincaid, West, L. E. Orms, Homer White, C. M. Pogue, Nix, Jeff Laughlin, G. M. Hargus, H. N. Sherman, B. A. Blair, Joe Bond, Jones, Yielding and Harrison.

A county-wide contest was held last month in which interested club members were to write a theme entitled, "Why I Would Like to Have A Sears Pig." This contest is an annual event and is sponsored by the Sears-Roebuck Foundation and the Texas Agricultural Extension Service. Boys and girls receiving Sears gilts agree to return one gilt pig with registration papers to the program the following year.

In the fall, a County Sears show is held and the gilts are judged as breeding animals. The top gilt and the county boar show in the Area Sears show in Abilene.

Prize money, which will be used for the improvement of the project, will be awarded to club members showing the top animals in both the county and area show.

Don Kincaid Is Honored As Man Of The Quarter

Don Kincaid, Industrial Representative for Chas. Pfizer & Company, was presented a trophy and named "Man of the Quarter" at a recent meeting of the Southwest Region of the company's agriculture division at the Marriott Hotel in Dallas.

Mr. Kincaid had the top sales record in his region for the first three months of 1965. The region includes Texas, Okla., Ark., and La.

Other factors determining his selection were territory coverage, sales-to-call ratio, handling of problems and reporting. Mr. Kincaid recently received new responsibility when Pfizer industrial major account representative, Pat Crawford of Eastland, was promoted to District Manager of Midwest Region.

In addition to calling on feed manufacturers, Mr. Kincaid calls on veterinarians in an area bounded by Fort Worth, San Angelo, and Austin.

"SHENANDOAH" — Widower Charlie Anderson (James Stewart) has six rugged sons, a lovely daughter, a daughter-in-law, and a richly productive 500-acre farm set smack in the middle of the Civil War, which rages all around his place in the Shenandoah Valley. Adverse to slavery, Charlie and his brood are strictly neutral. But the war comes to Charlie and his family one day when some Union soldiers carry off his youngest boy (Phillip Alford), mistaking him for a rebel soldier. From then on, it became Charlie Anderson's war. "Shenandoah" will open at the Majestic theatre on June 16.

Her veil of silk illusion was caught to a tiara of iridescent crystal and seed pearls. Her only jewelry was a string of pearls, gift of the groom. She carried a bouquet of gardenias, white roses and stephanotis centered with a white orchid atop a white Bible.

The maid and matron of honor and bridesmaids were identically attired in mist green peau de soie dresses with floor length skirts topped by short jackets fashioned with three-fourths length sleeves and back button detail. They wore picture hats of white horsehair with mist green velvet ribbon streamers, and carried bouquets of Marguerite daisies and English ivy.

If you've heard that GAS central air is out of your reach, don't believe it!

Get the facts.
Call Lone Star Gas for a free estimate!

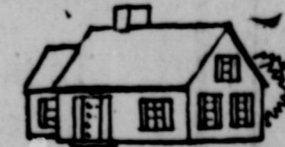

Don't be fooled by "horseback estimates" on costs! Get a bona fide air conditioning price from Lone Star Gas and compare with the price of the same size electric unit. You'll find the little extra per month to buy a gas unit buys you a lot more air conditioning over the years.

There are two types of gas systems for homes: a combination cooling and heating system and an add-on cooling system.

LOW DOWN PAYMENT, AS LITTLE AS \$25/MO. FOR 2.8-TON UNIT

This new gas unit for medium-size homes both cools and heats... puts the world's finest year-around air conditioning in reach of everyone.

HOW GAS UNITS CAN LAST TWICE AS LONG AS ELECTRIC

Gas cooling for homes has no compressor. A simple gas flame is the heart of the cooling cycle — with few moving parts to wear or need repair. No wonder the life-expectancy of gas air conditioning is double that of compressor types!

IF YOU HAVE CENTRAL GAS HEAT, IT IS LIKELY YOU CAN USE THE SAME DUCTS FOR GAS COOLING

You may have half of a gas central air conditioning system installed in your home! Just add the gas cooling system (takes up no extra floor space) and start enjoying year-around gas comfort and economy!

GAS ECONOMY PAYS OFF YEAR AFTER YEAR AFTER YEAR

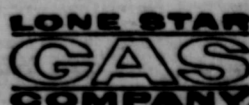

You save in operating efficiency, low maintenance, amazingly long service. The combined heating and cooling costs

with gas average about 15% lower than for electric heating and cooling. Add to that the savings in maintenance and replacements and you'll see why gas is your best home air conditioning investment.

A new time is here for the Seniors... a time of challenge... a time of new opportunities... a time of greater accomplishment.

Graduating Class Will

That we the seniors of 1965, of Eastland High School, being now in good health and in sound mind, but preparing to depart from the sacred halls of E.H.S. and desiring to bequeath our beloved possessions, do hereby make, publish, and declare the following to be our last will and testament.

To the Board of Trustees we leave our sincere appreciation for the long hours spent in the direction of our school system.

To Mr. Wendall Siebert we leave our most sincere gratitude for his help and guidance throughout the past twelve years.

To Mr. Charles Marshall we leave our thanks for his constant interest and many extra privileges he has good-naturedly given us this year.

To the teachers of E. H. S. we leave, at long last, the peace and solitude of our absence, the fond memories of

our presence, and our most humble thanks for the extra time, effort, and love that they have constantly extended to us.

To Mrs. Wingate and lunch-room staff we leave our empty trays and our most hearty thanks for preparing our meals.

To Mr. Williams we leave the unending task of erasing our footprints from the rooms and halls of E. H. S.

To the Freshmen we leave a large amount of stamina and fortitude to withstand the long years ahead.

To the Sophomores we leave the feeling of importance that comes with the second year of high school, which includes priority over the lowly Freshmen.

To the Juniors we leave the challenge of living up to the high standards set by the departing class of 1965. We also bequeath our prestige, status, and seniority, trusting that they will be administrated with the dignity of becoming a senior.

It is time to rejoice for the Season of new life, renewed hope and memories of Eastertime. But Spring, all may bring memories of hail and winds which are neither joyous nor pleasant. Graduating Class Prophecy

The junior class of Eastland High School humbly dedicate these prophecies to the seniors of 1965. The prophecies do not have any true bearing on the destination of any senior.

We often wonder what the destiny lies beyond the Hill of E.H.S. for our fellow Romans. Let's look.

We find Tommy Bauchard at Draughons Business College brushing up on his typing so that he can get a good start in third period study hall.

Elaine Berger is leading a two-fold life. She is a surgeon in the daytime and coaches basketball at night.

Karen Bond is a famous hair dresser for Revlon in New York.

Judy Briney is postmaster in a large city. No doubt she got her message-carrying experience from fifth period study hall.

Collin Cagle is a moth professor at Yale.

Sharon Chick is a dancer in a famous Fort Worth night club.

Larry Clements is now the head of a large dry cleaning establishment.

Kenny Cogburn just won the Indianapolis 500 in his 1956 Chevrolet Sting Ray.

The scene shifts back to Eastland where Larry Early has taken over the Majestic Theatre and is now recovering from an injury received from a wild midnight show where a wheel thrown firecracker landed in his mouth.

Jean Ann Eidson is now a Drivers Education Teacher. She got the job partly because of her safe driving record.

Julie Elrod is now boss of the Elrod-Chaney Butane Company. And when we say boss we mean boss.

Jimmy Finley has become a noted Methodist preacher.

Donna Ford holds the honor of being the first woman on the moon. She was selected partly because of her transistor size.

Chris Franklin followed in the footsteps of his famous ancestor Ben Franklin, and invented quadfocals.

Glen Gray has become a famous movie star replacing one of the three stooges.

Don Griffen as everyone would suspect, is a favorite in shaving commercial.

has also written a book called "How to Grow a Beard and Keep your Girl Friend."

Gaylon Griffen is a golf caddy for Norman Rhodes.

Jeannie Hanna is leading the band on the Gillete Commercials.

Richard Jones is singing up a storm on the program Hula-baloo.

Bill Herridge is picking his banjo on the Grand Ole Opera.

Carolyn Key is head twirling instructor at CJC twirling school.

Mary Ann Lewis is the wife of a multimillionaire. Her husband owns the Wilson Sporting Goods Co.

Mike Lewis is now a folk singer. He is a member of a group called Peter, Paul, and Mike.

Dixie Long is a librarian. She requires absolute quiet when she is around.

Kenneth Lyerla is giving lessons on how to start tractors with cranks. Too bad he didn't take them himself.

Bill McCollum set a new speed record from the Dairy King to the first red light.

Mike Miller is playing splint for RJC.

Judy Morehead is director of the Miss America Pageant. Her experience in the Peanut Bowl Queen Contest helped her get the position.

Dan Phillips is currently starring on the Broadway stages in Shakespeare's "Romeo and Juliet."

Norman Rhodes replaced Arnold Palmer as the leading golfer in America.

Garry Rollins, a noted author, has just finished one of his best sellers entitled, "How to Talk About Everything Except Chemistry in Chemistry Class."

Mickey Sargent has his own show "Sing Along With Mickey." The only problem is that he always sings carols.

As you read the morning paper each morning, you will be reading Dear Sharon instead of Dear Ann Landers advise to the lovelorn.

After beating all previous records at the UIL typing contest, Woody Shaw now owns and operates the UIL typing contest department.

We see that Mike Siebert, sitting in his '53 Ford on the Green Valley Raceway. Understand that there is an A&M sticker on his pickup.

The T.V. Guide tells us that Anna Smith will join the Cartwright family this summer.

Cheryl Sosebee has invented a wonder drug for the prevention of ulcers. A hospital comes into view and we hear Sandra Stuart Hall ordering the helpful Candy Strippers around.

Jan Taylor is going to teach dramatics at the University of Texas.

In the years to come, Joe Taylor will roll out the carpet for more main drags.

Wayne Waldon is now chief lab instructor at the Cornell University Experimental Laboratory of Chemistry.

Terry Treadwell has now reached Blair General Hospital where he will make all state intern of 1975.

Seniors, as you walk from the marble of E.H.S. we the Junior Class hope that the climbing of the High School hill so many times the past years has better prepared you for the climb of progress.

By MRS. O. D. QUARLES

We are starting on our third week of rains and turbulent weather. A total of eleven to twelve inches have been gauged at different areas around the Lake. However, the rising waters are flooding conditions have combined to make for better fishing in lots of ways. Some "yellow" cat are still being caught and lots of

channel cat. Having people, here from New Mexico, Lubbock, Midland and Odessa helped to raise our spirits and put a little humor into the grim tasks of trying to take care of boats, docks and the constant watch day and night on the rising water level. They waded water to their knees, got soaking wet time after time and enjoyed every minute of it. Their good humored comments were, "we don't see

anything like this, where we live." One fellow even used the boat oars to fend off snakes while his fishing partner baited the trot line. We understand, from talking to a number of different people, that there has been extensive damage to country roads, culverts and bridges, gardens, farm lands and the early crops. We sincerely hope that our blessings will out-weigh our damages. So, pack a picnic basket, bring along your fishing pole and enjoy a few hours of relaxation.
