THE FOUNTAIN OF PRAISE: O Lord, open thou my lips; and my mouth shall shew forth thy praise. For thou desirest not sacrifice; else would I give it.—Psalm 51: 15, 16.

TEXAS SENATE PASSES INSURANCE RELIEF BILL

First the Texas senate passed an insurance relief measure. Then the insurance committee of the house voted a favorable report to the senate bill which confers broad powers on the insurance commission and allows the commission to take whatever steps that are necessary to protect insurance companies during a financial emergency.

There are indications that some of those who are interested in the repeal of the Robertson law but now have little hope for success along that line may introduce resolutions for several investigations of Texas financial institutions. All this would be a waste of time and the money of the people.

Really, the law makers of Texas, for the most part, are doing their best to solve the problems which are uppermost and to give the people wise laws to fit in with conditions as they are at home and abroad and in the domestic as well as the world markets.

Did you ever stop to think that after all is said, we may not have such a bad Congress after all? Perhaps their greatest fault is in listening to outside interference.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

E. J. HERNDON, Advertising Manager of the Little Rock (Ark.) Democrat, says:

That regardless of how bad conditions may be—bank moratoriums and holidays not excepted—there is always a certain amount of natural business left. People must exist; food, clothing and other articles must be had.

Not the extremely poor or wealthy, but the great middle class is the gyroscope of civilization, of society and business. Even in a crisis—panic—this class still have some cash and the facilities of getting some more, even though in reduced quantities.

In unusually good times any medium of advertising may apparently be successful and prosperous. It is in times such as the present when all methods of advertising are given the "acid test" and their actual value determined by the "test tube" of these exacting times.

### French Puzzle Over New Type Of Battleship

By RALPH HEINZEN  
Staff Correspondent  
PARIS.—The work on the new supercruiser Dunkerque, barely started in the arsenal shipyards before the war, is now being divided over the problem of whether to rush to completion of such ship, or to build a new type of 7,500 tons each designed by the navy department.

It is all a three-cornered building race with Germany and Italy jockeying for position. Germany got to a good start by laying down three of four cruisers of the "Deutschland" type, the first of which, the Deutschland, now is in the second and third stages of construction.

Germany's fourth cruiser will be laid down in 1934, but it may be 10,000 tons like the other two. If Germany's claims of "unlimited tonnage" are pushed, many observers would not be surprised to see Germany break the restrictions of the Versailles treaty and build up to 20,000 or 25,000 tons, with correspondingly heavier armaments.

France is concentrating on a building program of speedy, light cruisers of 5,000 to 7,500 tons. France is expanding and wonders whether to build big ships to equal many, or small ships to maintain an advantage over Italy.

Officials point out that there is no shipyard available to build the second Dunkerque. The yard capable of holding it is the Brest arsenal, already occupied by the material for the Dunkerque.

It takes nearly four years to build a cruiser of that size, so until late 1937, France will have nothing to put against the man cruisers.

During that time, Italy will be building small cruisers in every available shipyard, always keeping in the Washington Treaty restrictions.

REVALUIS, Ore.—Robert Johnson, of Albany, doesn't care much about what happens to several thousand dollars bank money stolen from the bank at Smith, but he would like to even with them for stealing tools, marring and scratching body, pulling off the window glass, scratching matches on the floor, and leaving it in a mud-puddle.

Stockton, Calif., family owns a car with four legs, and thus have two extra drumsticks for any dinner. Can it be that this man movement has spread to barnyard, too?

### Ranger Medical and Surgical Clinic Is Now Occupying New Quarters

The Ranger Medical & Surgical Clinic announces the opening of its new office on Pine street, into which they moved Saturday afternoon after several weeks of building and preparation.

The clinic was organized April 1, 1923, with Drs. H. A. Logsdon, W. C. Palmer, J. A. Shackelford and W. L. Jackson. The clinic was first located in the Hodges-Neal building on Main street, where it remained for seven years, moving three years ago to the Sam Houston Life building. On moving to the new location Dr. Leslie Downtain, dentist, was added to the staff.

Several weeks ago it was decided to move two buildings to the location on Pine street between Austin and Kusk and to completely remodel the building, forming modern offices.

As one enters the building a large, well furnished reception room greets the eye. This is in charge of Mrs. Al Tune, who has been with the clinic for a number of years.

To the left of the entrance is the office of Dr. Harry A. Logsdon and on the right is the office of Dr. J. A. Shackelford. Both offices are modern in every respect and have every convenience, including adequate light.

Immediately behind the office of Dr. Logsdon is the office occupied by Dr. W. C. Palmer. This office, unlike the others, is decorated in green, but has ample lighting facilities.

Across the reception room from Dr. Palmer is located Dr. Walter L. Jackson's office, which has been refurnished, like the others, and is conveniently arranged.

To the rear at the left is the office of Dr. W. L. Downtain, Dentist, who is the youngest member of the clinic, both in years and in point of service. Dr. Downtain got his degree at Baylor at Dallas and has been a practicing dentist for several years. He was recently married to Miss Mary Bell Cooper of Strawn and are now making their home in Ranger. Dr. Downtain was formerly a resident of Eastland.

Behind the offices of the doctors are the library, X-ray room, with a large dark room for developing negatives, an electrical treatment room and a laboratory, which is in charge of Mrs. G. E. Robinson, who has also been with the clinic for a number of years.

Though the offices are arranged somewhat different, the general layout is very similar to the one just vacated in the Sam Houston building, and visitors will feel at home in the new offices.

The Ranger Medical & Surgical Clinic can boast of being one of the oldest institutions in the city, and the four physicians and surgeons are among the best known in this part of the country and need no introduction to the citizens of this section.

A cordial welcome will be extended by the entire personnel of the clinic to any visitors who might drop in for a visit and an inspection of the new quarters.

### Philadelphia Offers Aid to Young Romeos

PHILADELPHIA.—Social and welfare leaders here have organized a bureau designed to give counsel to young people who are not married, but wish they were, and consolation to those who are married, but wish they were not.

It is the opinion of this new marriage bureau that romance is badly in need of a certain amount of common sense. They maintain, however, that they do not intend to blunt the sharpness of Cupid's arrow, but rather make its point a little more antiseptic.

PITTSFIELD, Mass.—That's wildcat, too, in them thar hills. The annual report of County Treasurer Angeline S. Martin shows that wildcats are increasing in number in the Berkshire Hills. Last year, bounties were paid on 25 cats killed, compared with 20 in 1931 and an average of 16. The favorite lairs of the cats are the rough and dismal crags of Mount Humpel.

### WOOL SHIPMENTS DECREASED

DILLON, Mont.—Wool shipments from the Dillon area, among the largest producing districts in Montana, totalled 2,672,155 pounds in 1932, a slight decrease over the 1931 total. The wool was shipped in 8,140 bags, comprising 66 carloads. Sale of the smallest return since 1901.

### Captain Anderson Astounds Thurber People Saturday

Captain Bob Anderson, who in addition to being a famed stunt pilot in the movies, is called the world's strongest man, put on a demonstration in Thurber Saturday afternoon that caused considerable comment.

Captain Anderson lifted the front end of a heavy fire truck with his teeth, holding it off the ground for some 60 seconds. After performing this feat of strength he pulled the first truck about the streets of Thurber with his teeth. The apparent ease with which he performed these feats of strength were the marvel of the people of the town.

Captain Anderson has been billed for an appearance at the Connelly theatre in Eastland, where he will present other astounding performances requiring great strength.

### \$55,150 Lawsuit Ordered Retried

VISALIA, Calif.—Because a jury trial foreman was too zealous, a \$55,150 damages lawsuit recently was ordered retried.

The action, brought by the Southern California Edison company against George H. Cutter, rancher, sought that sum on behalf of Mrs. Haskell Dodson, whose husband was killed while investigating a power line break after Cutter's car crashed into a pole.

The jury foreman, J. W. Ingle, of Tulare, Calif., conducted his own investigation, and a verdict was returned for Cutter. The Edison company sought and obtained an order for retrial because of it.

### VILLAGE MODEL TO BE SHOWN

PITTSBURG.—A plaster model of Chatham Village, Pittsburgh's community housing project, is to be included in an exhibit of housing development of the United States and foreign countries. The exhibit is to be sent to the principal American cities.

### Police Wait for Extortion Plot

HAMILTON, Ont.—Police here have been waiting for three months for an extortion plot against James Jeffrey to materialize, but have finally come to the conclusion that the whole affair was a hoax from the beginning.

Jeffrey, it was said, received a "black hand" letter last November, ordering him to deliver \$3,000 at the base of a tree in LaSalle park, and if he failed to do this, serious harm would come to him or his family.

On Dec. 3 another letter to the same effect was received, and still nothing happened, although the request was again ignored.

When still another letter was received on Jan. 30, and as before, nothing happened, police decided it was the act of some practical joker.

Police Commissioner Mulrooney of New York City says if the bank moratorium is extended long enough it may force the speak-easies out of business. Well, many another community has seen its basic industry closed down.

2 to 4 p. m.

MASONIC TEMPLE—RANGER

ONE of the red-letter events of the year for women is almost here. A cooking school it is, to be sure, but what a cooking school! This year's cooking is done in a kitchen much different from that of grandmother's day. There are hours and hours less time needed in cooking—there's less work and more fun. Today's kitchen is a real "Happy Kitchen,"—or ought to be. If your three-meals-a-day seem just a succession of toast and eggs and potatoes and roast beef and pie, our cooking school is made to order for you! And if you've already found the secret to pleasure and fascination in mixing dainty new dishes and dressing up the old stand-bys in colorful new fashions—you'll love the cooking school just as much.

There will be romance—mapping of uncharted seas of the kitchen—at the cooking school. Each session will glow with new ideas, appetite thrillers, the simple secrets that make cooking happier and easier. We invite you to hear dozens of practical suggestions that make kitchen hours more fun and more joy—to see demonstrated before your very eyes those inspired touches that raise the meal and its preparation to the realm of a happy adventure.

Remember—everything shown in our cooking school has been tried and tested by a whole staff of "Happy Kitchen" experts. Months of planning have gone before. There are three afternoons of enjoyment in store for you... come as our guest!

The Cooking School will be under the personal supervision of MRS. MARTHA McDONALD, noted "Happy Kitchen" expert

**LIQUOR CONSUMPTION FALLS**  
By United Press  
STOCKHOLM.—The Swedish consumption of alcoholic liquor decreased by 6.1 per cent and of wine by no less than 25.1 per cent during 1932, in comparison with 1931. The total consumption amounted to 31,600,000 liters of alcoholic beverages and to 4,700,000 liters of wine. The monthly quantity purchased per individual amounted to 1.9 liters against 2.04 during 1931.

### Italy Switches Needed Labor to Its New Towns

ROME.—The policy of redistributing the Italian rural population gradually and within certain well defined limits is to be carried on. The system is known as "internal migration" and means the moving with state aid of groups from over-crowded rural zones to new territory such as the reclaimed Pontine Marshes. Fascism has adopted this plan as a regular policy and aims to carry it much further in the near future. From Jan. 1 to June 30, 1930, when the commission for "internal migration" began to operate, 1,500 agricultural workers were moved about the country. This number comprised forty odd families. In the second six months of that year, 236 families were sent from overcrowded lands to zones needing cultivation. In 1931, 841 families were moved about the country. These families represented nearly 6,000 individuals. In 1932, the movement of migratory agriculturalists was concerned with 1,019 families. The plan, started by the state and furnished with means by the state, was developed on its own initiative. Outstanding examples of the new colonization are to be seen in the towns of Littoria and Mussolinia, the former in the Pontine Marshes, the latter in Sardinia. In 1935 two new towns will start in the Pontine Marshes.

### 35,000,000 Lobsters Eaten Each Year

NEW YORK.—Are you one of the three of us who's had your homarus for 1933? According to those who handle them here, there are 35,000,000 cooked alive in the United States each year. Homarus is the scientists' name for them. But most of us call 'em lobsters. The American lobster, left alone for a hundred years or so, will become the largest in the world. Authenticated clutches have been reported of 34-pounders. The European variety rarely weighs more than 10 pounds. While the average consumption in the United States is one lobster for every three persons a year, here the per capita consumption is almost one. Approximately 6,750,000 are shipped here in ice barrels every year for the 7,000,000 residents. Most of the American supply, for the territory east of the Rocky Mountains, comes from around Portland, Me., and the Massachusetts fishing villages. In summer a good variety is found on the New Jersey and Long Island coasts. They live in water from 20 to 30 feet deep, hence the necessity for ice when taken out. Earl Olive, Schrafft restaurant manager, explained how lobsters are cooked. His patrons consume 800 of the smaller size "baby" lobsters every week. "Somewhere between 14 and 21 minutes," Olive says, "and the largest, or the smallest, lobster is cooked to perfection. The expert cook learns the correct time by long practice." Another fact contrary to popular belief, Olive said, is that the lobster doesn't scream in pain when dropped into a boiling pot. It only sounds like it, he declared. Actually, it's the hinge on the tail scraping the shell on the body, or contraction of muscles caused by the heat invariably causes the live lobster to curl his tail under.

#### CHRISTIAN SCIENCE CHURCH

"Matter" will be the subject of the Lesson-Sermon in all Churches of Christ, Scientist, Sunday, March 19.

The Golden Text is from Isaiah 26: "O Lord our God, other lords beside thee have had dominion over us; but by thee only will we make mention of thy name." Included with other passages to be read from the Bible will be the following from Psalms 112: "Praise ye the Lord. Blessed is the man that feareth the Lord, that delighteth greatly in his commandments. Wealth and riches shall be in his house; and his righteousness endureth for ever. He shall not be afraid of evil tidings: his heart is fixed, trusting in the Lord."

The Lesson-Sermon will also include citations from the Christian Science textbook, "Science and Health with Key to the Scriptures, Health with Key to the Scriptures," by Mary Baker Eddy; among these will be the following: (p. 265): "Man understands spiritual existence in proportion as his treasures of Truth and Love are enlarged. Mortals must gravitate Godward, their affections and aims grow spiritual,—they must near the broader interpretation of being, and gain some proper sense of the infinite,—in order that sin and mortality may be put off."

"This scientific sense of being, forsaking matter for Spirit, by no means suggests man's absorption into Deity and the loss of his identity, but confers upon man enlarged, individually, a wider sphere of thought and action, a more expansive love, a higher and more permanent peace."

By United Press

SAN ANGELO, Texas.—A mineral long obtained from Germany and France, being mined successfully for the first time in the recently discovered potash-bearing Permian of New Mexico and West Texas.

The largest of two cores now producing potash has an output of approximately 600 tons. A second shaft is sunk, and is expected to be the output. The other core operating on a smaller scale. The Permian Basin is 600 long and 300 miles wide, and in eastern New Mexico and Texas.

J. F. Hinkle, New Mexico commissioner, estimates that Eddy county, New Mexico, there is a potential yield of 1,000,000 tons of potash. Engineers believe there is sufficient in the entire basin to prevent exhaustion within a century.

The United States now consumes about 400,000 tons annually. The current price is \$15 ton.

Potash also is being produced from the saline beds in California and from the residue of soda factories in Baltimore.

#### A Message to the Women:

The school is the 10th annual one to be held by the Times and they have always been enthusiastically attended by the ladies of this community each year. There is no charge and everything is free. The usual prizes for attendance will be given away daily.

Mrs. McDonald stated: "Please tell the women of this city in your paper today that I am not here to teach them how to cook, for to attempt such a thing would be a direct insult, but merely to show them modern fashion in foods—how to market for food just the same as for a dress or other merchandise, and to bring to them unique dishes that will prove interesting for party menus, as well as for everyday family use."

Tues afternoon, the first day, she will probably take for demonstration salads, frozen deserts, make an orange pie, bake a Devil's food cake, and present other interesting recipe's along these lines. A short talk on marketing will be given.

HIS PONDEROUS BUILD DID NOT KEEP HIM FROM BEING ONE OF THE GREATEST FIELDERS AND BASE-RUNNERS.

### HOOKS and SLIDES

BY BILL BRAUCHER

**Farm Relief Hint**  
WHY don't more farmers practice the scissors hold instead of trying to win farm relief? . . . Jon Stecher some years ago became famous with his body scissors . . . he perfected the hold by practicing on big sacks of oats down on the farm . . . now, along comes Jim Browning and wins one of the current world wrestling championships with another scissors . . . Jim practiced his scissors on barrels at his farm down in Missouri . . . verily, the scissors these days is mightier than the chisel.

**The Ills of Boxing**  
BILLY AMES, matchmaker at Boston's Garden, offers his diagnosis of the sickness that has stricken boxing . . . the paying public, says Billy, wants fighters who fight honestly, courageously, above any question of suspicion, and, above all, with class and color . . . matchmakers cannot provide that kind of fights because the whole world is lacking in fighting material . . . which sounds reasonable enough.

**Prosperous Note**  
THE nearest approach to Babe Ruth that collegiate football can offer is in the person of Wallace Wade, coach at Duke University. . . Wade is working on a five-year contract for \$100,000 . . . his fee increased from year to year over the period . . . first year 12 grand, second year 15 grand, and so on. . . Duke is endowed by a tobacco fortune . . . and \$100,000 was placed in the bank several years ago to be drawn upon only for the football coach's salary.

Republic of Andorra wants a French and a Spanish prince to come and jointly rule its salary \$20 and two cows a year each. Understand several princes were trampled in the rush until the \$20 was found to be in scrip.

**DO YOU KNOW THAT—**  
JIM BROWNING, the new raffle champ says he will wrestle anybody, anywhere . . . and probably forgot to add, "whenever and however they tell me to." . . . Howard Jones is well pleased with the new football rules . . . he says the new rule about keeping the ball in 10 yards from the sidelines will be a great help to offensive football . . . which Jones believes is what the fans want to see. . . Jones will head an all-coast team that will play a midwest team coached by Dick Hanley as a feature of the World's Fair. . . Only one Kentucky Derby winner has an offspring entered in this year's Derby. . . Boiler-maker's daddy is Bubbling Over . . . and, of course, also is Kunnel Bradley's hawass.

Chinese and Japanese purchasing agents are reported to have gone in together to see a munitions maker and to have come out with a 40 per cent price reduction. That's real progress toward cutting the cost of war.

One I Love

By LAURA LOU BROOKMAN
BEGIN HERE TODAY
JANET HILL breaks her engagement with ROY CARLYLE after learning he has been going out with BETTY KENDALL, a society girl. Janet is secretary to BRUCE HAMILTON, advertising manager of Every Home Magazine and Roy is employed in an advertising office.

NOW GO ON WITH THE STORY CHAPTER XXI
GRANT'S voice was edged with concern. He said, "What is it? Anything the matter?"
Janet didn't speak for a moment. Then she said, "No," and shook her head. But she couldn't keep her eyes from darkening with the shock and pain that she felt.

AND so she went on. Mechanically. Automatically. She went back to the office, hung away her coat and hat and set to work. Bruce Hamilton was waiting for her to get out the file of the Macmillan correspondence. She said, "Yes, Mr. Hamilton" and her fingers flew as she took down the memorandum he dictated. She sat at her desk all afternoon and Hamilton didn't notice that she looked paler or was more quiet than usual. Her work was as efficient as always. She worked until 5:15 and when she stood in the door and said, "Good-night, Mr. Hamilton," the man only glanced up and smiled vaguely and said, "Good-night."

For less than the price of a Postage Stamp
Natural Gas will provide refrigeration for 24 hours
THE THREE CENTS you spend for a postage stamp is such a trivial sum you never even stop to think about it. Yet for slightly less than this amount, natural gas will cool a gas refrigerator for a period of twenty-four hours. And this is only one of the many bargains offered by natural gas. A single penny's worth of natural gas will heat enough water for two baths, cook a meal for three people, run a bathroom heater for two hours, or heat enough water for 14 shaves. No matter what you buy, you can't get more value for your money than you receive in purchasing natural gas service.

Eastland County Clubwomen Honor Mrs. J. M. Perkins. The Eastland county clubs were splendidly represented in the reception tendered to Mrs. J. M. Perkins of Eastland, by the hostess club, Thursday Afternoon Study club, on Thursday evening, March 16, in a brilliant floral setting of spring flowers and ferns, the club flower, pink carnations predominating.

Entering guests were received by Mmes. C. U. Connellee and Grady Pipkin, hostesses in the library section, and conducted to the receiving line, the other members of the executive board of the hostess club, Mrs. B. M. Collier, president, Mrs. J. M. Perkins, honor guest, and Mmes. Carl Springer, and E. Roy Townsend, and Mrs. F. M. Kenny, incoming president of club, all gowned in pastel evening shades, and wearing lovely corsage of carnations and sweetpeas, the club complement.

Mrs. M. C. Hayes presided over the pink ribboned guest book, and the program for the seated tea was announced by Mrs. James Horton, opening with an address of welcome by Mrs. B. M. Collier.

Group of readings, Mrs. Leslie Gray; ballet and tap dance, Alice Jones, Mrs. F. O. Hunter, accompanist. Mixed quartet, Mrs. J. B. Leonard, Mrs. Grady Pipkin, B. M. Collier, John M. Knox in "Drink to Me Only With Thine Eyes." "All Through the Night," Mrs. D. L. Kinnaird at piano.

tee to send invitations to all clubs in Eastland, and the surrounding music clubs in other towns, to attend this event, in Mrs. A. J. Campbell, Mrs. W. P. Palm, Miss Lillian Thompson, who will extend invitations to all church organizations as well.

Concert will be given in Methodist church auditorium, and the public is invited. The Music Club of Cisco has requested they be notified of Eastland musical programs as they would like to be present on these occasions.

The art exhibit to open Monday to Friday 2:30 each afternoon in high school domestic science suite was announced, and that Miss Leslie Word's literary society would be hostess in charge.

The sixth district program by junior musicians on Sunday, April 2, in Methodist church auditorium was announced by their director, Mrs. A. F. Taylor, sixth district chairman, children's music, who stated talent had already accepted from Abilene, San Angelo, Goldthwaite, Brownwood, Ranger and Eastland.

This is the annual "children's day and Mrs. Taylor's assistant committee names Misses Mary Frances Hunter, Clara June Kimble, Olivette Kilgough, Jeanne Johnson.

Request for co-operation was made by Mrs. Taylor. The yearbook committee was announced for 1933-34, Mrs. A. H. Johnson, Mmes. Grady Pipkin, Donald Kinnaird and H. O. Satterwhite.

Mrs. Turner M. Collier, general chairman, Music week, impressed upon each chairman of division the necessity for immediately making plans for this national observance which opens the first Sunday in May. Revision committee reported the club now had 30 active members enrolled.

The care of the piano was discussed and Mrs. E. C. Satterwhite on motion, was asked to act as chairman for same.

The program proper opened with a fine introduction by Mrs. W. E. Stallter, hostess for the afternoon and program director, and who brought the events of MacDowell's life in relief. Assembly singing, "Battle Hymn of the Republic," prefaced a splendid account of the life and character of the music of MacDowell by Mrs. W. P. Palm.

Due to circumstances a few changes were made in the program, which developed the atmosphere of MacDowell's work but in different numbers to those assigned, opening with a description of background and the playing of his "The Deserted Farm, piano, by Mrs. W. K. Jackson.

Piano, "Scottish Tone Poem," Miss Loraine Taylor; a connecting talk on MacDowell as a lover of nature by the leader, brought the duet, violin and piano, "To a Wild Rose," Miss Margaret Hart, Miss Clara June Kimble.

Clarksburg, W. Va., had a daughter born to them Friday, according to word received in Eastland. The young lady has been named Caroline Virginia.

Mrs. Ash was formerly Miss Irene Knox, daughter of John Knox of Eastland, where she made her home until the time of her marriage.

PARIS STYLE

By MARY KNIGHT, United Press Staff Correspondent

PARIS.—Mrs. John Worth of Minneapolis, Minn., was here for a bit of shopping yesterday. Miss Betty Worth has purchased among other one of Worth's loveliest creations.

This noteworthy example of art of haute couture is Guelma, and is of gray crepe and white, and is trimmed with white cloque silk. The dress is accompanied by a hip-length of the same material.

You remember Patou's months ago that he declared himself an enemy of the high waisted skirt. He has, however, brought this most original line up from directly on the heels of the high waisted skirt, which, when the body is full, gives it a much more full line. He wants the woman to be able to move as though nothing in the world hampered her in the least degree.

When Patou launches his colors, each season, in line that it takes to breathe, become more contagious than the demonic of the measles.

WESTLAND PERSONAL Wilma Carlisle, who is a commercial school, Fort Worth, representing the Mansville Products corporation, has been in Ranger the past few days visiting Calvin Brown Rodriguez is a man who has been over most of the world, is a splendid conversationalist, and says the people of America are the most people loyal of all the peoples with whom he has come in contact.

In the spring a young fancy—don't you think?

Social Is Pleasant Feature of Progressive Lodge Meeting The social feature arranged in the form of a "tacky" party provided a very entertaining diversion when the Progressive Lodge met recently when the hour opened with a business session at 7:15 o'clock. Prize winners named Mrs. Della Moore, Mrs. Lena McDonough, and Mrs. Kittie Flaherty. Bringing the happy occasion to a close a refreshment plate was served to a large number of members and friends.

Mrs. Thomas and Mrs. Mrs. Ogg Return From Baptist Association Meeting Mrs. G. W. Thomas, president, and Mrs. J. E. Ogg, secretary and treasurer of Cisco Baptist association, have returned from Fort Worth, where they attended the state executive board meeting. A splendid meeting is reported covering Wednesday and Thursday of last week.
