A BIBLE THOUGHT FOR TODAY

VALUE OF A GOOD NAME: A good name is rather to be chosen than great riches, and loving favour rather than silver and gold.—Proverbs 22: 1.

NEW YORK LAWMAKERS AND THEIR BEER BILLS

New York lawmakers are busy. Two beer bills, one relating to sale and manufacture and the other relating to tax, were hammered into final shape by the special liquor commission and taken to Albany for submission to Gov. Herbert H. Lehman. The state tax bills calls for a levy of \$1 on every barrel of beer. The commission placed a ban on the old saloon. Beer gardens are provided for in their stead. New York is a repeal state. A heavy majority in the house of representatives is behind the measures. As for the senate it is said that the membership is two to one for the enactment of the proposed bills. A reminder that 17 American commonwealths are ready to permit the sale of beer as soon as congress lifts the ban and 20 other legislatures have legislation on docket. This is a fast moving old world.

As for Texas, Senator Sheppard and Connally voted against the bill passed by the house of representatives legalizing the sale and manufacture of 4 per cent. Senator Sheppard, it is predicted by Washington correspondents, will lead the dry forces against the Cullen measure. Senator Connally voted for repeal submission but it is said that he cannot support the beer bill because he feels that it is a violation of the federal constitution. It appears to be a long road to Tipperary—"away down here in Texas."

A NEW KING OF FINANCE

Wintrop W. Aldrich is the chairman of the Chase National bank of New York. According to the Eastern correspondents he is the new king of finance and is going to lock horns with John Pierpont Morgan. He stepped into the breach just the other day when he made an announcement that his banking group would take care of the New York city \$20,000,000 obligations which had matured. His father, Nelson W. Aldrich, for 30 years was the financial authority and dictator as a member of the American senate. He represented the state of Rhode Island but he spoke for the financial interests of the metropolis of the Western world. Now his son is the spokesman of a leading bank in the American world and he has very bluntly as well as very boldly announced that he is for a new departure as well as a thorough cleanup in the financial methods of those who dwell on Manhattan island and have their ramifications around the American world from Cape Horn to the top of the Arctic Circle.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

GAULT MACGOWAN, Managing Editor of the Trinidad Guardian, Port-of-Spain, B. W. I., asks: "How often you hear people say, 'I wish I lived in a big town. Nothing ever happens here.' " "They forget that it is easier to turn up something in the small town than in the big one. The only real difference between a small town and a big one is that the ancestors of those in the small town were probably content with things as they were, and those in the big one definitely not. That's how it got to be a big town. " "There is always something worth while in the small town if you care to knock at the doors. When you do, the small town becomes a big one too. The small town has this advantage; people do not resent callers. In the big town they are too busy to welcome them. " "Port-of-Spain is a small seaport; 60,000 inhabitants, come and go in it. If you are not alive you may miss their message. " "The other day a doctor came in and put up a brass plate. No one worried. By chance, one night, there was a street accident. An injured woman was carried into his surgery. Afterwards I talked with the doctor. He told me that he was staying only for a short while. He had been working for 15 years on research work in a famous hospital. He wanted now to discover just how the tropics affected the blood stream. When he had the data he wanted he was going to Europe to cure cancer! " "Our small town had been selected for the last touch of a tremendous experiment, which we might never have known had it not been for a street accident—just one of the things that may happen any day in every small town. " "Alas! There's no guarantee of a street accident to lead you to it."

In writing ads, business men should make them plain so every one can understand them. They should not skimp in space for the sake of a few cents or leave out any essential point. After they write them they should read them over from the standpoint of a possible customer.

Yes, But What About the Pants?

THIS CURIOUS WORLD

CALVIN COOLIDGE

THE MAN OF "FEW WORDS" HAD A WORKING VOCABULARY OF 27,000 WORDS — THE AVERAGE AMERICAN, WITH A GRADE SCHOOL EDUCATION ONLY, USES LESS THAN 2000.

BEAVERS

DO NOT CUT TREES COMPLETELY IN TWO! THEY CUT THEM DOWN TO A FINE CORE AND LET THE WIND DO THE REST. TO GNAW COMPLETELY THROUGH WOULD BE DANGEROUS.

CAPTAIN MALCOLM CAMPBELL'S RACING CAR, "BLUE BIRD," WEARS OUT A SET OF 12-PLY TIRES ABOUT EVERY 25 MILES.

If you have a high school education, you should have a minimum working vocabulary of 3000 words. A college graduate should use between 5000 and 12,000 words for speaking and writing. Shakespeare, in his complete works, used 24,000 words, which was a remarkable record in his day. Woodrow Wilson held the modern record in this respect, with a working knowledge of 53,000 words.

BEHIND THE SCENES IN WASHINGTON WITH RODNEY DUTCHER

BY RODNEY DUTCHER, NEA Service Writer WASHINGTON—The most astonishing tip-off on the Washington mind, if such a term may be used, that I have heard of in the past few weeks, was supplied by the current deluge of rumors involving the Hoover administration and, to a lesser extent, the death of Senator Thomas J. Walsh of Montana. There would be no object in bringing this up if the rumors were not one of the most astonishing things that has ever appeared in the national capital. A check indicates the impossibility of locating anyone here who hasn't heard one or more scandalous tales of a type calculated to excite the whole world. Not many intelligent persons place credence in the stories, but the most common topic of entertainment here has been the repetition of the event, most absurd versions and excited speculation as to how all these tales ever got started. ONE of them was the wild tale that Andrew Mellon, who has been ambassador to England, had moved \$5,000,000 in gold across the sea and wasn't ever coming home. Senator David Reed of Pennsylvania, Mellon's friend, dragged that one out in the Senate for the purpose of ridiculing it and assured the country that Mellon was about to take off for America on the high seas. Another of the most persistent absurdities is that \$30,000,000 in gold is missing from the treasury and that all members of the Hoover administration are being watched pending an investigation. Apparently that sort of thing has spread rapidly over the country and if this brief note helps convince anyone that such rumors are cockeyed and crazy, so much the better. CONGRESSMAN O'CONNOR of New York, one of the most active beer proponents, was explaining that wine wasn't included in the House beer bill because, as he understood it, 3.2 per cent wine was "not very interesting." "It may be," spoke up Congressman Florence Kahn of grape-growing California, hopefully, "we might be able to find a percentage that would make it interesting but not intoxicating." SECRETARY OF LABOR FRANCES PERKINS sits at her desk facing two huge oil paintings of James John Davis and William Nuckles Doak, the two Republican secretaries who preceded her, which just about cover the entire opposite wall. Betting is brisk in the Labor Department as to just how long she can stand it. The feud between Madame Secretary and the American Federation of Labor, which began when President Green of the A. F. of L. denounced her appointment, will bear watching. The department and its bureau are full of ex-labor leaders, backed by the federation, and current gossip is that many of those boys are likely to get the ax. Various units in the labor movement already have protested Green's assertion that the department must be the A. F. of L.'s own garden. Miss Perkins, meanwhile, has been pleasant about it. "If he won't come here to see me when there are things for us to talk about," she said, "then I'll have to go to see him."

"September Morn," famous painting which shocked America 20 years ago, is reported missing. Last seen in Russia. You'll remember it showed a lady bathing. Probably destroyed as counter-revolutionary propaganda. Statisticians have been busy ever since it was announced that a lemon 18 inches in circumference had been grown in a Nebraska greenhouse. They estimate it would make six pies or lemonade for a circus crowd of 10,000.

Woman Becomes First Tree Surgeon

NEW HAVEN, Conn.—Mrs. Philip Hansling Jr., of Hartford, who gets more thrill out of saving a tree than from scoring a grand slam in contract, has become Connecticut's first certified woman tree surgeon. Mrs. Hansling, who is secretary of a tree firm at Hartford, passed the examination given by the Connecticut agricultural experiment station with a better average than most men.

Youth Ended 7,000 Mile Bicycle Trip

APPLETON, Wis.—After riding 7,000 miles on a bicycle through Europe and northern Africa, Lyman Houfek, Appleton-Fashion youth, has returned home with scores of thrilling stories to tell. The most exciting part of the trip, he says, came when he fled from Marseilles for Egypt with four other youths in a small boat equipped with two sails and against rocks on the coast of the fishing schooner.

Russia has 70 Communist Weeds

On trial charged with planting weeds on grain farms to throw wrench into the collective agriculture plan. We'd like to see ourselves; one of 'em must have been over here last summer putting on our backyard garden.

Luckies Please! Mellow mildness... Sterling character... there's a reason for both! What puts character in a cigarette? The quality of the tobaccos. Lucky Strike's tobaccos are carefully selected for quality, for tenderness, for distinctive flavor... the finest tobaccos in all the world... the "Cream of the Crop". That's why Luckies have character! And Luckies are truly mild—because these fine tobaccos are "Toasted"—mellowed and purified by the exclusive Lucky Strike process. For these two reasons—Character and Mildness—"Luckies Please!" because "It's toasted"

Stanton Team Pilot New to Texas Pitching

STUART E. JONES, Staff Correspondent. With the general order, the Stanton Buccaneers will pilot a new pitcher who is a veteran of the Texas league and who began his career with a neophyte at the helm, for he pitched in the International League in 1925 and batted in the club of the New York Yankees in 1930. He will mark his Texas debut with the Stanton team, which is managed by Del Pratt, now at Lubbock.

Aspects of 30-odd players for spring practice were discussed at a meeting on March 11. Webb has tentatively for second base, Goldberg, first base, English, third base. Two are counted by the club as its most valuable new acquisitions, including the Buc from the Chicago White Sox.

Field prospects include Ray Rogers, Joe Carroll Burrows, and the following holdovers: Mason, Moleworth, Allwright.

Outfielding prospects include White Sox; Orville Mason, Houston; Yarnall Welsh, Fay Couch, and Thormahlen, Dallas; Tubbs, Moore and others.

On hand will include: Jack Mealey, H. Cuzensky, North; Ralton, inexperience; and Jack Allo, another holdover. Governor, Bell and a rookie, Vasco are up the roster of out-players.

The usual spring elimination of Webb, "I expect to

SPEAKING of SPORTS

By THOMAS COPE
United Press Staff Correspondent
Francis Descamps Taming Irish Heavyweight Hope

LA GUERCHÉ (Bourges), France.—The most terrible young man on earth is virtually a prisoner here in the rural center of France.

Tamer as much as trainer, Francis Descamps, he of the hypnotic eye, watches over the terrible young man like a father, admonishes him like a priest, chastises him like a sergeant. And six or seven months from now Jack Doyle, 19-year-old Dublin demon, will have a chance to find out if he is really the world's greatest boxer, or just a terrible young man who can't make his hands behave.

"His greatest trouble," said Monsieur Descamps of the glittering eye, "is that he fights."

"Does he have any other essential flaws?"

"Well, yes, he has one in common with Georges. He is a delicate jaw."

"Who, Carpenter?"

"Georges Carpentier had a glass jaw all his life," said M. Descamps without batting an eyelash. "Jack has a soft jaw, too, but I'll teach him to protect it, like I taught Carpentier. I am going to make a boxer of him if I have to beat his neck."

And the French ring wizard then admitted that, of the hundreds of fighters who have passed through his hands, only two have been allowed to share his home with him: the Adonisian Carpentier and Jack Doyle, white hope of the decade.

"I keep him a prisoner," said Descamps, "because this is the only way to teach him. He has to be trained like a lion. From dawn to dusk, from week to week, he sees nothing but this bunch of hard-hitting pugilists you see around you. They are tough babies."

They are. Some of the future champions of France are among them, as well as some of the oldest ring generals. But the trouble with Doyle is his own admission as well as that of his mentor, is that he starts fighting the moment he enters the ring.

LONG HAIR IS LUXURY
By United Press
PARIS.—Paris beauty experts say that women have let their hair grow because of the economic depression, but that the upkeep of long hair is, in reality, more expensive than that for short tresses. Hairpins, hair nets and the wear and tear on dispositions is considered more costly than a weekly trip to the hair-dresser for a cut and curl.

have a 75 per cent changed ball club outside the pitching department. It also expect to get some more help from the majors but will be forced to wait until they break camp before delivery.

The Galveston club has no confirmed holdouts, Webb said.

HOOKS and SLIDES BY BILL BRAUCHER

Ferrell's Bonus
WES FERRELL, sensational young pitcher who has won 91 games in his four years as a big leaguer, was offered a cut from \$18,000 to \$12,000 this year. He revolted bitterly.

Finally a bonus system was agreed upon. Ferrell signs for \$12,000. If he wins 20 games he gets \$14,000. If he wins 25 games he receives \$15,000. That's the most he can get.

Has Mind of His Own
FERRELL is a young man who has a wholesome respect for the dollar. He has been hard to do business with ever since coming to the majors. He also is a fellow with temperament. His quarrels with Manager Peckinpaugh, his public announcement that Joe McCarthy was the best manager in the majors and his putting and walking from the box unbidden when the batters were getting to him have been widely publicized.

He will want to win those 25 games badly. He always has earnestly wanted to win but there are many customers in Cleveland who never could be convinced of this. Naturally, since he is the best pitcher Cleveland has, Peck will pick him to pitch against the more formidable teams. Just how Ferrell will take this under his new contract is very much in doubt. He doesn't have to be told he can make more money pitching to setups.

DID YOU KNOW THAT—
BILLY SULLIVAN, young White Sox recruit from Notre Dame, is compiling a book of baseball slang. . . . a 2 o'clock hitter is a player who hits 'em far away during batting practice and pops out during the games. . . . a collision is a college player. . . . ash heap is a rough infielder. . . . banana stalk, a bat with poor wood in it. . . . rabbit ears, players who hear what they're saying in the bleachers. . . . goaltender, one who waits behind out at the plate. . . . gully jumper, railroad train. . . . base on stones, a safe hit that took a bad bounce past an infielder.

Engenders Enmities
THE bonus plan for pitchers has proved itself one of baseball's worst evils. It foments bad feeling among the players. Makes each player with a bonus contract an individual business man and frequently opens breaches between player and manager.

Some years ago George Uhle signed to a contract similar to Ferrell's. One of the infielders used to blow up higher than a kite upon occasion, and when he went into the batting line-up seemed to cost big George money every time. Uhle had no such temperament as Ferrell. He has shown but to this day Uhle looks upon that infielder with a fishy eye.

Gas Racket to Be Eliminated By New Measure

Special Correspondent.
AUSTIN.—The shroud of darkness that has robbed Texas of \$4,000,000 in tax revenues yearly and permitted development of a tremendous "racket" in the gasoline business, has been torn away by the teeth in the new gas tax enforcement law, in the opinion of close observers at the capitol.

The bill, passed by both houses, was signed by the governor Tuesday. It becomes effective immediately as an emergency measure, and repeals all previous legislation on the subject.

The new law makes deliberate evasion of the gasoline tax a felony, with fines of from \$100 to \$5,000, jail sentences of from one to six months and penitentiary terms up to two years.

It creates a motor fuel tax division under the state comptroller, with two lawyers and a full force of investigators, auditors, chemists, etc., yet at no new cost to the taxpayer, for a fraction of 1 per cent of the gas tax is set aside to pay them. Their activities are expected to recover at least \$4,000,000 a year.

The new law sets a chemical standard for gasoline. Precision of the law dealing with manufacture, transportation and marketing of gasoline are regarded as "thief-proof" as possible. Complete sets of interlocking records must be kept, from the run of crude oil until the gasoline goes into a motorist's car. They must be open for inspection at any time. Books must also be kept on kerosene, naphtha and other tax-free fuels commonly blended with gasoline, and retailers may be checked to see if they sold such fluids under their proper names. This will be a serious check on blending, the commonest form of tax evasion, by which a retailer mixes tax-free fluids with tax-paid gasoline, and collects tax on the entire amount.

The old familiar answer of "I don't know" to official questioners is now outlawed. The records must show. Every dealer must post the gas tax separately from the price of gasoline, so that a motorist with average intelligence can draw his own conclusions. And every dealer must show the name of the firm which paid the tax.

Even trucks, tank cars and all other vehicles that transport motor fuel must be ready at all times to give proof that the tax has been paid. Every truck driver must carry a manifest showing the type and amount of his cargo, its origin, destination and the amount of tax paid. In addition, every dealer must record the number of any truck bringing him motor fuel.

The Texas Good Roads association, which fought the new law, pointed out today the fact that every peace officer in Texas is empowered to stop and investigate any carrier, and urged them to do so. "Only by general interest and by widespread public education can this \$2,000,000 be recovered for the motorist," \$1,000,000 for schools, and \$1,000,000 for the payment of county bonds," the association's statement said.

Stock Market Head at Hearing

The United States was built by speculation and for that reason proper speculation should not be subjected to governmental regulation, Richard F. Whitney, president of the New York Stock Exchange, told members of the Senate stock market investigating committee. He is shown above as he testified.

France Building Speedier Planes For Newest Race

By United Press
PARIS.—Thirteen bullet-shaped, high-speed airplanes are being constructed here to race May 28 for the Deutsch de la Meurthe cup in the first contest for that speed trophy. It has replaced the Schneider cup as emblematic of the world's air speed championship.

This race will be entirely French for no other nation could afford to build special planes for the contest. It is doubtful if all 13 will be ready in time, for the regulations require the planes to pass a test flight at least 15 days before the race, bettering 200 kilometers an hour over a 100 kilometer course.

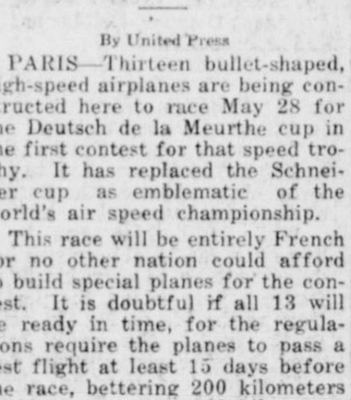

The Aero Club de France has announced that a definite course now has been laid out, near Etampes, just south of here. The Schneider cup races, in which speeds up to 393 miles an hour were reached, were flown over water.

The course lies between Etampes, Sevran-Moisly, Chartres and Stamps. Each plane will fly around the course 10 times on two different flights and the average time will be taken. The only limitation is to a single motor of eight-litres cylinder capacity.

The Delage-Kellner Bechereau plane nearly is completed, the bullet shaped metal body being just large enough to hold the pilot, his motor and sufficient gasoline to fly 200 miles. There is no room for any instruments other than those required for actual flight. The wings and body are metal, welded together at the seams, so that the plane is really a flying tin-can.

The Delage 12 cylinders are arranged in V-shape, 3,800 revolutions a minute to provide a speed of 400 kilometers. The motor weighs 792 pounds.

Attendance Increases

(Continued from page 1)
in the hall and who have helped put the cooking school over will also be present for Friday's session. Come promptly at 2 p. m. and enjoy the splendid lecture and demonstration by Mrs. McDonald. Recipes taken from Mrs. McDonald's lecture:

Veal Loaf and Spaghetti
1 1/2 pounds ground meat, 3 tablespoons grated onion, 1 1/2 teaspoons Morton's salt, 1/4 teaspoon black pepper, 4 drops of tabasco, 1 cup cracker crumbs, 3/4 cup sweet milk, 1 egg. Mold and cook in roaster in hot oven for 45 minutes.

Boil 1 package of spaghetti in water with 1 scant teaspoon of Morton's salt 20 minutes. Drain. Sauté one small onion finely chopped in three tablespoons of fat, add one small can of tomato juice, spaghetti, 2 drops of tabasco, Morton's salt and pepper to taste. Place the meat loaf on a platter and garnish with the spaghetti.

MRS. McDONALD says:

"I am very particular as to the Range I use in my demonstrations as that is one of the secrets of the cooking art. That is why I choose

Kelvinators Sold At Low Installed Prices In Ranger

The Killingsworth, Cox & Co. of Ranger, which has the agency for the Kelvinator in this section of the country, not only has one of the newer models of this electric refrigerator on display and use at the Times Free Cooking School, but also is demonstrating Voss washing machines and automatic pressure cookers. Today Mrs. McDonald demonstrated the proper use of the pressure cooker.

The Kelvinators, as advertised in the Times of Wednesday, are being sold in Ranger for only \$99.50 installed in your home, instead of the price of \$109.50. b. the factory, as advertised. This makes the cost of the machine much less than one would expect to pay for such an improved and compact electric refrigerator.

By special request from several women in attendance at the Ranger Times Cooking school, Mrs. Martha McDonald will cook a chicken in one of the automatic cookers furnished the school by Killingsworth, Cox & Co., Ranger dealers. Mrs. McDonald says this cooker is manufactured by one of the oldest concerns in America and the ones shown at Killingsworth, Cox & Co. are the latest on the market and that she knows the very satisfactory results to be obtained. They are on display at the school each afternoon.

Philadelphia Shows Living Cost Drop

By United Press
PHILADELPHIA.—The cost of living here shows a slight increase since 1914, as compared with that of other cities, according to a survey made by the Chamber of Commerce.

The increase stood at 33.9 per cent for Philadelphia, while Baltimore experienced 38.1 per cent increase, Cleveland 39.4 per cent, New York 40.2 per cent, and Norfolk 36.5 per cent. Buffalo however showed only 32.8 per cent increase for the same period.

POLICE FREED THIEF

FRESNO, Calif.—To steal a stolen horn is no crime, Fresno police decided, so Jay Brooks was free today. He was arrested for the alleged theft of a saxophone from a friend, Louis Simmons. Simmons was held to answer to superior court when it developed the horn had been stolen from the Fresno State college band.

Telephone Girl Caused Re-Arrest

By United Press
PORTAGE, Wis.—Though sadder, Louis Traut, Rio farmer, was wiser today in the ways of long-distance telephone operators.

Traut, who had walked out of the Rio jail unobserved, stopped at Horicon to josh Sheriff Robert Roche—over the telephone.

"Where are you calling from?" inquired the sheriff.

"That's for you to find out," retorted Louis.

Five minutes later a Horicon marshal arrested him. He was informed that the long-distance operator in connecting him with the sheriff had said, as usual: "Horicon calling Sheriff Roche."

TABASCO The Condiment Supreme

A dash of this piquant flavor adds a rare flavor . . . makes good food better and all foods good.

WITHOUT A RIVAL For Over 60 Years

In spite of the cry of a fickle world for something new! There has never been a condiment that has taken the place of TABASCO. It is like Gotham Silver . . . it never grows old. TABASCO is the favorite of every generation. What better recommendation do you ask?

TABASCO THREE TIMES A DAY

The snappy twang of TABASCO tickles lazy appetites into action. Try a dash of man's favorite condiment.

OLDEN NEWS

Special Correspondent.
OLDEN, March 23.—Mrs. L. M. Sharratt is ill in the West Texas hospital at Ranger.
 The Baptist Training Study being conducted in this district is being well attended. This work is similar to the B. Y. P. U. work except that it is for all ages. The Olden B. T. S. work is under the direction of Mr. Moss and Mr. Early of Brownwood, who conduct the meeting each night at the Olden Baptist church at 7 p. m. The meetings will continue through Friday. A good attendance is reported. The graduating class in this work from this district will be held in Cisco at the Baptist church Sunday, March 26, in the afternoon.

The following citizens attended the B. T. S. class in Ranger Tuesday afternoon, March 21: Lucy Ellen Gertz, Mrs. J. P. Crawford, Mrs. J. A. Sepulver, Mrs. James Ward, Catherine Stanton, Pauline Gullett, Doris Stanton, T. H. Stanton, Baidridge Crawford, Mrs. Lockman, Mr. Moss and Mr. Early.
 Several Olden ladies attended the Ranger Tuesday and because of their interesting report and enthusiastic approval of the school, many others expect to attend the school the remaining afternoons in session.

Jean Adams has been ill but is able to be back in school again. Lloyd Woods, who was quite ill with pneumonia, is able to be up and around the house again and weather permitting he expects to be able to attend the track meet here Friday and Saturday.

Florine Reeves and Helen Adams represented Olden Tuesday night at the music memory contest in Eastland. They having won highest honors in music memory in the Olden schools. Miss Olga McCoy accompanied the girls to Eastland Tuesday night.

Charles Atchison of Los Angeles who has been visiting in Olden, returned to Los Angeles Wednesday. Mrs. Atchison and their little son, Tommie, will remain for a time to visit her parents here, Mr. and Mrs. E. R. Buckley.

J. A. Hunter left for Dallas Tuesday afternoon on business that will require a few days of his time there.

L. V. Ford was an Eastland business visitor Wednesday.

A. J. Gibson made a business trip to Strawn Wednesday.

Mr. and Mrs. John Pickens spent the weekend with their son, Thompson Pickens here, returning to their home in Overton Sunday, and stopping in Fort Worth that afternoon to attend the stock show.

Mr. and Mrs. L. L. Kuhn returned from Temple this week, where Mr. Kuhn had gone through the clinic.
 A lovely tinted photograph of little Miss Mae Edna Ward, in costume, is in a window of the Ranger photograph studio and is being much admired by her friends and acquaintances. Little Mae Edna is the talented daughter of Mr. and Mrs. James Ward.

Mrs. Karl Bonneau of Trent visited friends in Olden over the week-end, going on to visit her relatives at Millsap, before returning to her home at Trent. Friends of the Bonneau family, who formerly lived at Olden, will be glad to know that Karl Jr., who always showed remarkable talent as a reader, continues to reap new laurels in that line, winning in declamation and reading contests. He is also becoming adept as a young tennis player and played in a tournament at Merkel Saturday.

Mrs. J. W. Wyatt and Mrs. J. F. Warren went to Abilene Tuesday to attend the funeral services for the little son of Mr. and Mrs. Joe Borden. His death followed an illness of several days of pneumonia. Mrs. Joe Borden was formerly Miss Katherine Harrison of Olden. Friends here deeply sympathize with them in their bereavement.

Mrs. J. W. Ray is ill at her home in West Olden, suffering from a bad case of ivy poisoning.

Mrs. V. O. Wyatt visited her mother, Mrs. Boles, in Carbon Wednesday.

N. R. Heath, electrician at the Texas Electric Service plant near here, has purchased a house and lots in East Olden from Joe Norton this week and he hopes to get moved into his new home at once. Olden will be glad to welcome Mr. Heath and his family.

ALAMEDA NEWS
Special Correspondent.
ALAMEDA.—Miss Modcan Melton spent last week in Salem community visiting her brother, Troy Melton, and sister, Mrs. Jack Rogers.
 Miss Mildred Love visited Junior college in Ranger Monday.
 Miss Ellen Tucker is ill, and we hope her speedy recovery so that she may be back in school again.
 Mr. and Mrs. Melvin Ezelle and daughter, Laverne, attended the Fat Stock show at Fort Worth Thursday and Friday of last week. Basketball season being over the girls and boys are playing volleyball. There will be five more weeks of school, coming to a close April 28.

Miss Edna Earl Cason of Ranger Junior college was visiting in our school Tuesday evening.
 The junior boys lost in the events they entered at the track meet Saturday at Olden, but our school has some chances next Friday and Saturday. The spellers that will represent our school in senior spelling are Misses Minnie Walton and Linnie Jayne Rogers, Cora Lee Griffith and Mazon Ferrell in sub-junior spelling; Ima Gene Reynolds and Jack Hart in junior spelling. Those who will represent our school in declamation are Junior Hart, Katherine Griffith, seniors; Cora Lee Griffith, juniors; and Carter Hart, juniors. The boys are also going to enter in the field events. We all want our school to win, but someone has to lose.
 Several of the boys and girls were disappointed last week when the special train didn't go to the Fat Stock show.

February Building Permits Show An Encouraging Gain
Special Correspondent.
AUSTIN.—February building permit made an increase substantially greater than could be accounted for on purely seasonal influences, according to the University of Texas Bureau of Business Research. Reports to the bureau from chambers of commerce in 38 of the leading cities of the state show that building permits amounted to a total of \$1,127,108 were issued during February, an increase of 29 per cent over the total for the month previous, \$871,559; when it is considered that the average increase from January to February during the past six years was only 7 per cent, the showing for February is encouraging.
 Building permits issued continued at a level approximately half that for the corresponding month a year earlier, a tendency which has been in evidence for more than a year.
 Seventeen of the 38 cities showed increases in building permits for February as compared with the preceding month, although an increase from \$50,624 for January to \$285,490 in February in the city of Austin accounted for a good share of the total gain. Building permits in Dallas for February totaled \$278,304, more than \$100,000 greater than in the previous month. The remaining cities showing gains as compared with January were in widely separated sections of the state, indicating that the improvement was not characteristic of any one region.
 According to the Annalist index of wholesale commodity prices, there has been virtually no change in building material prices, the index averaging approximately 106

Geologists Meet In Houston For Four-Day Session

By STUART E. JONES
United Press Staff Correspondent
HOUSTON, March 23.—Men whose scientific lore has played a large part in the evolution of the American oil industry gathered here by the hundreds today for the annual meetings of their societies.
 An address of welcome by Mayor Walter E. Monteith opened the three-day joint convention of the American Association of Petroleum Geologists, Society of Petroleum Geophysicists and Society of Economic Paleontologists and Mineralogists. Some 1,000 were in attendance.
 Immediately after the mayor's address there began presentation of a comprehensive technical program, a large number of papers covering a wide range of subject matter having been scheduled.
 The program was prepared under the direction of Ralph D. Reed, Los Angeles, editor of the geologists' association publications and Donald C. Barton, Houston, chairman of the technical program committee.
 Among the numerous papers were several dealing with Gulf coast oil fields and geology, matters of much attention in recent months.
 All of the papers were purely of technical interest, with the possible exception of one on "Hot-spot-hole Pressure in the East Texas Field" presented by D. M. Collingwood and F. E. Heath, Dallas geologists.
 Officers of the three organizations will be elected tomorrow.
 Saturday and Sunday the delegates and visitors will be taken on tours of the Congress field, Montgomery county and the Sugarland oil field and sulphur mines at New Gulf, Fort Bend and Wharton counties, respectively, with luncheon to be served at New Gulf.

Wife Accused Sheep Of Theft of Eggs

By United Press
NEW BRAUNFELS, Texas.—Mrs. Ben C. Faust, wife of justice of the Peace Faust, has filed a complaint in her husband's court in which she alleges theft of eggs from the henhouse at the rear of the Faust home.
 And by filing the complaint Mrs. Faust created a puzzling case for her husband. For the defendant in the action is the judge's own pet sheep, guilt of which Mrs. Faust discovered after extensive investigation following a series of mysterious egg thefts. The animal, she learned, had developed a special fondness for an egg diet.
 Justice Faust has not fixed date for hearing.

Old Epitaph Was Chiseled on Rock

LANESBORO, Mass.—Jilted by a spinster, Captain John M. Brown inscribed upon a rock the following epitaph:
 "May God Bless Susan and All Her Barren Land
 "And When She Gets to Heaven
 I Hope She Finds a Man."
 The epitaph, chiseled 55 years ago next month, may still be seen on a rock in Henry A. Newton's pasture.

Executioner of France Is Idle

By United Press
PARIS.—With no more criminals to put to death under the guillotine, M. Antoine Deibler, "executioner of high works," as the French headsman is officially described, has joined the ranks of the unemployed.
 Half a dozen murderers, who were scheduled to die under the knife in the pale light of dawn during the past six months, have escaped him. Since he decapitated Dr. Gorguloff, Russian assassin of President Doumer, Deibler has not had an execution.
 He was due to execute two brothers, but President Lebrun came into office. His first act was to extend clemency to them.
 They were sent to Devil's Island and the executioner had to put away his machine in the dungeon of the grim Sainte prison in Paris.
 While M. Deibler idles in his home in a fashionable suburb here, doing nothing to earn his 30,000 franc a year salary, the penitentiary at the Ile de Re, first stage on the road to the convict settlement, becomes more crowded daily.
 Four hundred convicts already are stationed there. Soon, another four hundred will be drafted from various prisons throughout France to await the departure of the convict ship.
 The government is considering a request by the town council of St. Martin, on the Ile de Re, in the Bay of Biscay, that the guards at the prison be increased. The council complains there are only 30 armed warders to keep under guard their hundreds of charges.

Novel Building Plan Pursued

Troop 23 of Stephenville
 Scoutmaster Homer Tudor registered his troop to full capacity this week and sent in one of the nearest complete applications that the office has had the pleasure of receiving to date. Tudor's troop roster shows that the scouts in the troop have a total number of 53 years of scouting, which does not include about 14 years to the scoutmaster and assistant and the troop committee. We extend congratulations to Tudor on making such a splendid showing.

Kite Tournament
 Scouts of Brownwood will participate in the first annual kite tournament Saturday afternoon, April 1. Six prizes are being offered for places in the different entries.

Indian Tribe Holds Meeting
 The Tribe of the Black Arrows held a meeting last Saturday night and discussed plans of giving a public entertainment in the near future. The full membership was in attendance with the exception of one. The next meeting will be held in the form of an Indian supper about April 8.

Meeting at Concord
 O. E. Winebrimmer, chairman of the troop organization committee and the scout executive held a meeting at Concord last Sunday afternoon with some 12 or 14 men interested in organizing a Boy Scout troop at that place. Otto Brutton was elected chairman of the troop committee. Mr. Brutton wanted a little time to develop his troop committee and make a selection of scoutmaster. Another meeting will be held in the near future. Rev. Melvin Livesay presided at the meeting. The community has plenty of boys for an excellent troop.

Troop 2 Has Good Stunt
 Scoutmaster Dan Gill has a way of getting scouts of his troop at the meeting on time. Each scout registers his name on a blackboard when entering the troop room. All of those whose names appear on the board by 7:30, the time for the meeting to open, enter a contest in drawing a number for a simple but practical prize, furnished by the scoutmaster. Dan also reports setting-up exercises, individual patrol meetings, etc., during his troop program. Each patrol went on an individual patrol hike under the supervision of the patrol leader last Saturday.

 Building permits issued continued at a level approximately half that for the corresponding month a year earlier, a tendency which has been in evidence for more than a year.
 Seventeen of the 38 cities showed increases in building permits for February as compared with the preceding month, although an increase from \$50,624 for January to \$285,490 in February in the city of Austin accounted for a good share of the total gain. Building permits in Dallas for February totaled \$278,304, more than \$100,000 greater than in the previous month. The remaining cities showing gains as compared with January were in widely separated sections of the state, indicating that the improvement was not characteristic of any one region.
 According to the Annalist index of wholesale commodity prices, there has been virtually no change in building material prices, the index averaging approximately 106

February Building Permits Show An Encouraging Gain
Special Correspondent.
AUSTIN.—February building permit made an increase substantially greater than could be accounted for on purely seasonal influences, according to the University of Texas Bureau of Business Research. Reports to the bureau from chambers of commerce in 38 of the leading cities of the state show that building permits amounted to a total of \$1,127,108 were issued during February, an increase of 29 per cent over the total for the month previous, \$871,559; when it is considered that the average increase from January to February during the past six years was only 7 per cent, the showing for February is encouraging.
 Building permits issued continued at a level approximately half that for the corresponding month a year earlier, a tendency which has been in evidence for more than a year.

THE SAFETY ZONE

By Cowen

FRECKLES and HIS FRIENDS—By Blosser

that the law takes into consideration the condition of the violators and usually acts accordingly to the benefit of the ragged man.

Betrayal of trust is one of the most terrible things the human being can be guilty of. Trust betrayed has wrecked nations, has ruined many a home, has broken up happy lives, of children and parents.

Trust is a reliance, a resting of the mind on the integrity, veracity, the justice of another, it is a firm reliance or dependence, on laws and principles. We have this exemplified in proverbs, "Who so putteth his trust in the Lord shall be saved."

In the more material definition of trust, it is credit given without examination. It is the state of having confided something to the care and guard of another, "Trust is also that which is committed, or that entrusted them, something committed to safe keeping and of which an account must be rendered."

And there we have it: for which an account must be rendered. And today, because this great trust of the public was betrayed, men formerly the cynosure of the banking world, men formerly respected and admired, are now facing criminal charges of an enormous magnitude.

EASTLAND PERSONAL Mrs. T. L. Gates of Gorman arrived Saturday for a several days visit with her daughter, Mrs. Homer P. Brelford Jr. They are spending today in Wichita Falls with friends.

Theodore Ferguson is in Graham for the balance of the week. Mrs. Oscar F. Chastain returned home Sunday from Austin, for several days "howdy-do" visit with her daughter and friends, when she will return to Austin to remain until May, with her husband, Representative Chastain. The house and senate proceedings are very entertaining to Mrs. Chastain, who states she is a daily visitor to the state capitol and finds them very interesting.

PROGRAM AIDED FARMERS PORTAGE, Wis.—A farm institute program designed to take farmers' minds off their troubles has been organized here by H. A. Hovde, county farm agent. Although the institute meetings provided for educational talks on home economics and agricultural subjects, emphasis was placed upon recreation. Programs of old-time dances, basketball games and music were included.

One I Love

By LAURA LOU BROOKMAN

BEGIN HERE TODAY When JANET HILL learns a ROLF CARLYLE has been breaking engagements with her to meet BETTY KENDALL, a society girl, she tells him their marriage is off...

DUSK had begun to descend over the street. In the gray light Janet looked up into Jeff Grant's startled face.

Janet smiled. "Not very far," she told him. "Only out on the west side. You see, I have a new job and I'll have to live out there."

"Then you're not leaving town?" "Way, of course not!" The girl laughed. "Did you think I was? Oh, no, I'm not leaving Lancaster but it's just about as much work to pack as if I were. We've been awfully busy at the office, too. This new job is different from anything I've ever done—"

She told him all about it. She was still talking when they reached the entrance to the rooming house. Janet halted, looking up at the sky.

"I hate to go in," she said. "It's a lovely evening, isn't it?" "Yes it is. We could take a drive somewhere if you weren't so busy."

Janet lingered in the doorway. "I've got an idea!" she exclaimed suddenly. "Have you had dinner yet?"

Jeff said that he had not. "Then if you'll go back to the delicatessen and get some sausages I'll cook some eggs and make toast and we can have a sort of picnic supper. I have part of a cake and enough lettuce for salad. Do you want to do that?"

"Sure! That's a great idea!" When he arrived 15 minutes later Janet had the table set. She wore a gingham apron and had pushed her sleeves above her elbows. The coffee pot was sizzling and its fragrant aroma filled the air.

Jeff had made other purchases besides the sausages. He exhibited a box of luscious looking strawberries, a bottle of cream and a box of cheese.

"Why, we'll have a feast!" Janet exclaimed. She planned another apron about Jeff and set him to hulling the berries while she scrambled eggs and cooked the sausages. By the time they were ready to sit down at the table both of them were laughing. Jeff had been describing his efforts at cooking on a boyhood camping trip.

JEFF poured the coffee as he handed a cup to Jeff. He from the stove had curled the soft tendrils of hair against his cheek into a tight curl. The heat had brought color into her cheeks, too, and her eyes were shining.

"I'll say it is! And the best meal I've had in weeks. So you're a real cook!" The table was covered with tea towel because both of Janet's lunch cloths were at the laundrette. Not all the china was of the same pattern and the tumbler from which Jeff drank was green while Janet's was blue.

Once Janet leaned forward and said, "Listen, Jeff, I want you to tell the Silvans that I'm coming out to see them just the same. I don't know how my time will be arranged or when I can come but moving isn't going to make a bit of difference. I can't go this Saturday because of moving but after this I'll come every week. You'll tell them, won't you?"

Jeff agreed. He told Janet he'd drive out for her if she'd let him know when she wanted to go. "Why, of course I will," Janet promised.

They had finished the last of the berries and the last crumb of cake. Jeff said, leaning forward, "It'll be sort of lonesome here with you gone, Janet. It's been nice to have someone to talk to—and well, sort of plan things with."

"I'll miss you, too," the girl assured him. "But it isn't as if I were really going away. We can see each other just the same."

"Oh, sure," he said it carelessly. JANET glanced at him. She thought, with a warm feeling in her heart, that it was fine to have a friend like Jeff Grant. He had helped her over some hard places. There was the night the holding man tried to take her purse when Jeff had appeared so miraculously. Without Jeff's aid she could never have helped the Silvans get on their feet again. But there were other reasons why she was grateful to this young man. Talking, walking, driving with Jeff had made it easier to fight against the loneliness in her heart.

She spoke quickly. "We have had good times together, Jeff! I'll never forget them. And you'll come to see me after I've moved, won't you?" "Whenever you'll let me," he told her, smiling. Almost immediately he began talking about a new order his office had received. One of the largest in months. It was a good sign, he assured Janet—buying steel. People were beginning to build again and industry was getting under way. It meant that times would be better before long now.

THURBER

By MRS. R. C. STIDHAM

Raymond Milford returned to his home in Abilene after spending several weeks visiting Elroy Miller.

Mrs. Ikey Newman visited in Ranger one day this week. Miss Louise Morgan spent weekend at Hoartz Camp visiting.

Mr. and Mrs. George Studdard and son, George, spent weekend in Fort Worth visiting.

Mrs. Pete Gerhard and Mrs. Odell Both visited in Ranger Tuesday.

The young peoples class of Baptist Sunday school met Monday night at the home of Mr. and Mrs. Duncan Tidwell for a business meeting. Business was discussed throughout the evening and afterwards a few games were played. About 9 o'clock delicious pineapple ice cream and cookies were served to about 15. Everyone reported a nice time. The next meeting is planned to be held April 23 at the home of Dean Bowers.

Colds that Hang On

Don't let them get a strangle hold. Fight germs quickly. Creomulsin combines the 7 best helps known to modern science. Powerful but harmless. Pleasant to take. No narcotics. Your druggist will refund your money if any cough or cold no matter how long standing is not relieved by Creomulsin. (adv.)

Thousands Witness Cermak Rites at Miami

The flag-draped casket containing the body of Mayor Anton J. Cermak of Chicago, victim of an assassin's bullet intended for President Roosevelt, is shown being borne by white-clad American Legionnaires from a Miami, Fla., funeral parlor to be placed in the cortege that escorted it to the railroad station as saddened throngs looked on. Miami police formed a guard of honor on the train which bore the late mayor's body to Chicago for burial.

Texas Cotton Men Meet At Galveston

By United Press GALVESTON.—Action looking to solutions of many current problems will feature the 22nd annual convention of the Texas Cotton association to be held here March 24 and 25.

Will L. Clayton, Houston, one of the nation's foremost cotton men, will deliver an address on "Farm Relief." The other principal speaker, Walter Parker, New Orleans, will speak on some aspects of foreign trade.

Approximately 400 delegates and visitors from all sections of the state are expected to attend. At the closing session the 1934 meeting place will be chosen and new officers elected, including a successor to E. D. McCaa, Houston, outgoing president.

Resolutions stating the organization's attitude toward the tariff, the domestic allotment bill and other legislation concerning cotton are expected to be presented at the executive sessions.

Chicago school superintendent slipped in bath; skinned his knee. Told convention what this country needs is a good non-skid bathtub. Just another little matter for the incoming administration to attend to.
