REDEMPTION: God will redeem my soul from the power of the grave: for he shall receive me. —Psalm 49: 15.

OKLAHOMA EVER ON THE FRONT PAGE

Gov. William H. Murray knows the value of publicity as well as the value of notoriety for the political minded officeholders of America. It had been whispered in his ear that beer deposit would be established in his commonwealth. Well the erstwhile Bolivian warrior and explorer, went into a white heat. He promised to call out his 5000 national guardsmen to dismantle the beer stations and to manhandle their operators. On the same day that all this happened a bank examiner finished his job on the books of an Oklahoma bank. He remarked to the president of the bank that the books were all wrong and that the irregularities were there in superabundance. Well, the bank examiner is dead—in the hands of an undertaker while the president of the bank is under arrest for murder. Beyond this brief explanation the gunman had nothing to say, "I had to do it." In the rural districts of the Southwest officials of small banks are ever in danger. There are banking hi-jackers everywhere. Now bank examiners appear to be in danger in small spots on the map where the president shoots an examiner who has turned him in instead of the bandits who turn them out. Copy making is the order of the day and news editors and head writers are very busy mortals in all the dens of journalism.

LUMBER PRICE LEVELS AND BEER

A noted Chicago lumber broker has let it be known that prices for virtually all lumber products have advanced 10 to 20 per cent in two weeks "due to new and heavy buying." Also "the market is now dominated by sellers rather than buyers." If so, how did it happen that lumber prices advanced 20 per cent? Beer is coming in many states. There is a huge demand for staves for barrels and kegs. Three months seasoning is necessary before a stave is a stave. There is a heavy demand for beer staves in old Missouri. There is a heavy demand in that city in Wisconsin made famous by its beer before beer was knocked out. A collector of internal revenue for the eastern district of Missouri ordered from Washington approximately \$1,150,000 in beer tax stamps for use by Anhauser-Busch, Inc., and the Falstaff Corporation.

It is estimated by the St. Louis brewers that the supply of stamps will last about three months. Officials of the St. Louis breweries said they expected to produce more than 360,000 barrels of 3.2 per cent beer in that period with each barrel to contain 31 gallons. Now the collector of internal revenue for the St. Louis district has been notified that at least 5000 persons in Eastern Missouri would apply for retail dealers licenses which cost 20 dollars a year; the wholesale fee is \$50 a year and the state of Missouri will collect a tax of one cent a gallon for inspection of beer.

In old Missouri gasoline and beer buyers are expected to contribute largely to the general revenue fund. As for Texas beer drinkers in the eastern half of the state Louisiana may prove a great oasis in the Sahara desert of the Lone Star State. Gov. O. K. Allen of the Pelican state signed a bill repealing the Hood state prohibition law and another taxing beer and wine up to \$2 a barrel. These two Louisiana laws will become effective April 15. On the west, New Mexico and Arizona are repeal states and will permit the sale of non-intoxicating beer and light wines and fruit juices. There is something new under the sun.

A newspaper is not a luxury in a home. It is a necessity.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

THAT aggressive salesmanship pays a city as well as it pays a private business. If a city is alive it should convince others of its aliveness. A city that gets the right kind of publicity gets the business. It takes better business to build any city. When the outside world knows a city is awake, that city always gets a lot of business that some other city is now getting. If they are not awake, some neighboring cities are getting the business they should get. Many cities need an awakening. In most of them can be found a great number of people who know nothing about their home city or the industries which are of such potential strength to their city. Citizens should know the home city. It will make them real, aggressive home city salesmen.

(Continued from page one) but right now the lumbermen in West Virginia are swamped with orders for a certain kind of lumber to make bungs. It is being shipped to Ohio where a bung manufacturing industry is beginning to boom. The state manufacturers are doing a large business, employing thousands of men, the cooper are beginning to work regularly, the bottle factories are running full time with a full complement of employees, box factories in a number of places are turning out boxes to contain the bottled beer, not to mention the breweries that are hiring thousands of men and spending millions of dollars on improvements. ## Alaskan Flight Saved a Woman

By ART HENDERSON  
United Press Staff Correspondent  
SEATTLE, Wash.—A "race with death" began one winter morning at 1:30 a. m. Anceel Eckmann, Alaskan flier, received a call, ordering him to fly from Ketchikan to Sitka, approximately 400 miles. A woman was reported dying. Immediate medical attention was necessary.

Eckmann took off 45 minutes later. He made the trip in less than three hours. The woman, Mrs. Peter Kstrometinoff, suffered from intestinal poisoning, and her condition was considered grave. Medical attention that could not be obtained in Alaska was necessary.

All but the pilot's seat was quickly "knocked down." The woman, wrapped in heavy blankets, was placed on an army cot. The party, including her husband and mechanic, started a long flight.

The 425-horsepower motored craft shot through rain and snow clouds, clear weather and fog. Eckmann kept the ship headed for Seattle.

The woman was kept warm by an exhaust heater. Liquids were also used. A telegram had been sent to have the landing area on Lake Union flooded with lights and an ambulance waiting.

Eckmann roared over Vancouver, B. C., Bellingham, Everett and finally Seattle. The plane circled to a smooth landing.

The woman was hurried to a hospital and her life saved. She is living in Sitka. Eckmann made the non-stop flight in 16 hours.

## Tiny Girl Cage Star Quits Game

By United Press  
DALLAS—After 10 years of great basketball playing, diminutive Carrie McLeroy, 104 pounds of vigor and ability, is relinquishing the cake sport for golf and tennis.

"Ten years is enough basketball for a girl," she said.

She ended her tenth season as captain and guard on the Dallas Shoe Shop team—a season in which she scored 223 points in 16 major games.

In each of the 16 games except one she was high scorer. The exception was the Presbyterian College game, when Captain Doll Harris bested her by three points.

Carrie has played on three national championship teams, has been a member of six southern A. A. U. championships and seven Dallas city championship teams.

President Roosevelt used four pens in signing the beer bill. Probably afraid one might run dry.

**Scarcity of 1913 Nickel Explained**  
By United Press  
CHICAGO.—The rarity, and resulting value of "Liberty Head" 1913 five cent pieces was caused by a technicality in treasury department operations. It was explained by Max E. Mehl, owner of the Numismatic Company, Fort Worth, Texas.

Mehl, who has offered large prices for the 1913 "Liberty" nickels, related that no record was made of the coinage of the pieces. In 1913, the department ordered coining of "Buffalo" pieces only. But since the mint operates on a fiscal year basis and the coins are made on a calendar basis, only a few were manufactured.

**Woman Formed Helping Society**  
By United Press  
MAPLE HILL, Kan.—The Helping Hand society was formed by the women of the Keen community, practically all of them, to do just what the name would indicate. But not often are they called on for such strenuous tasks as moving furniture and climbing on roofs with buckets of water.

While they were spending the day with Mrs. W. M. Wolf, however, someone noticed the roof was on fire. There wasn't a man in the neighborhood. So the Helping Hand society turned into a fire department. They saved all the furniture except that in one bedroom. And while 50 quarts of fruit were destroyed, they saved enough for their luncheon, served in the yard.

**Names you should know**

YOU like to know names that everybody knows—name of the man who tied lightning to a kite; name of the man who watched a tea-kettle and went out and made an engine. Just knowing such names give you pleasure.

Yet there are names that thousands of people know that can give you much more pleasure in a much more personal way. Names that stand for the best things to eat, to wear, to sleep on. Names, that if connected with the salad dressing, hat, fountain pen you select—or any other desirable thing—mean it is most desirable. Names written in ADVERTISEMENTS.

Advertisements tell why those are wise names for you to know. Why such names greet you in the best grocery, department and hardware stores. Why those names are in the buying vocabulary of thousands... are believed in by thousands... justify belief!

Read the advertisements. Don't ask vaguely in a store for "cold cream," "a skillet," "a vacuum cleaner." Ask for So-and-So's Cold Cream, So-and-So's Skillet, So-and-So's Vacuum Cleaner. Use the names, you have learned through advertisements, that stand for the product that means most to you and most to everybody.
