reminds me...  
Everywhere you go—on any  
road, in either direction,  
coming, some going, for  
No doubt many are honest  
their intentions, and really go  
they have started, others  
just traveling, with the wind  
to speak, knowing not, nor car  
where they land; others, per  
just one thousand per cent  
a sinister motive, and will  
up the benefactor that gave  
a ride, and take away what  
have, valuable, car, and per  
their life. That's a chance  
one takes when they give the  
hiker a lift. However all in  
point to the fact that peo

nearly all of them get a ride,  
the right fellow comes along  
us hope that the new deal will  
so much of the hitch-hiking  
right out of the people, and each  
find some permanent place to  
and make worth while and  
able citizens.

The great pity of it all is to see  
young girls in company with  
and the highways seeking  
place to find work and per  
shelter, and then in many  
stances you will find a girl, some  
in their teens, waggling along,  
alone, begging rides and some  
to eat. All that should be

powerful as America—it will be

E. B. Boyd, district manager of  
L. C. Burr Store was in East  
land this week. While here Mr.  
expressed much gratification  
for the fine showing the Eastland  
store was making. W. V. Tunni  
is local manager of the store.  
The store has made a steady in  
crease in sales for the year and  
takes not only for the personnel  
of the store but for the quality  
of merchandise sold.

There is a movement on foot to  
change the chamber of commerce  
to the Retail Merchants associa  
tion. This procedure is being fol  
lowed in many cities. Whether it  
will apply in Eastland is for the  
members to decide. Econ  
omy is a deciding factor in the  
operation of business as well as  
government. It is well to weigh al  
l the balance before defini  
tive action is taken. False econ  
omy is an expensive experience.  
It is not a matter for the direc  
tors of either organization to de  
cide for themselves. It is a matter  
that affects the entire membe  
rship. A joint meeting of the mem  
bers of the Retail Merchants as  
sociation and the members of the  
chamber of commerce should be  
held to bring out the real issues  
and ideas of the contemplated  
change if there is any.

From the headline in many me  
tropolitan city newspapers it looks  
as if beer is going to flow without  
restriction for an election to settle  
the question. The federal govern  
ment says come on and get your  
beer, then it's up to you and  
your county and city government  
to tell you whether they will ar  
rest you or not. Several city and  
county governments have already  
done those who want to sell it to  
thead and get your license and  
want bother you.

The time and opportunity to vote  
is when the people by their vote  
to do so. The federal government  
should advise the internal revenue  
collectors to issue no licenses  
in a state where the sale of 4 per  
cent beer is a violation of the law  
and is not a time to say "To hell  
with the State law!"

If you ask us... that's about  
the silliest procedure we can im  
agine. Texas today is bone dry. It  
is on the statutes. It is a  
violation in any city or hamlet to  
sell any kind of beverage with  
more than the said 1 per cent in  
it. There isn't a single officer  
of the State of Texas that isn't  
swearing his oath of office if he  
isn't a single person openly sell  
any cent brew anywhere in Tex  
as. It was not the national admin  
istration's purpose, nor is the will  
of the president to cram 4 per cent  
into the people's throats.  
There is a law against it in  
every state. The thing is being  
done and its reaction is by no  
means favorable to the administra  
tion. It borders on mutiny.

Both organizations are absolute  
necessity if they can be sup  
ported separately. If not, then  
there is a good idea to merge them.  
We don't hold our opinions  
to the directors table... or  
the streets. Let's get down to  
business and do what is necessary in  
order that we may get busy and  
do the things necessary to keep  
Eastland in the front ranks of pro

# OIL INDUSTRY PROTESTS GAS TAX INCREASE

## SALES TAX IS URGED INSTEAD BY SPOKESMAN

Arguments Come As East Texas Pressure Loss Puts Wells On Pump.

WASHINGTON, May 20.—The American oil industry today vigorously protested the proposed three-fourths of a cent increase in the federal gasoline tax. Spokesman F. B. Dow, appearing at hearings before the house ways and means committee, advocated substitution of a general sales tax for a revenue needed to finance President Roosevelt's \$3,300,000,000 public works program. House leaders expressed the opinion today the ways and means committee will not approve a general manufacturers' sales tax. Speaker Rainey said he believed the group was favorable to increases in the normal income tax rates.

## HARRIMAN IS FOUND ALIVE BY THE POLICE

NEW YORK, May 20.—Joseph W. Harriman, indicted banker who escaped from nurses in the roaring streets of the mid-town business district yesterday, was found alive today at the Old Orchard Inn, Roslyn, Long Island, police announced. He is charged with making false entries in the books of the closed Harriman National bank. Although evidence had indicated Harriman, ill and discouraged member of one of America's great financial families, had contemplated suicide, police and federal agents had spread a net to prevent flight. At first, when it was learned five notes intimating suicide, had been left behind by Harriman, it was taken for granted he had gone to die. Later federal authorities learned that when he disappeared he went to a barber shop and had his gray hair clipped as actors sometimes do when their roles require wigs. Harriman's attorneys made the first announcement of his disappearance yesterday and asked the police to broadcast an alarm for him. They had refused to disclose the contents of letters he is supposed to have left in a drawer in his room. Harriman is scheduled to go before Federal Judge H. W. Goddard next Monday. His case, however, will necessarily be postponed because of the trial of Charles E. Mitchell, former head of the National City bank, accused of income tax fraud, will be under way.

## New President of Hunter College

Newly elected president of Hunter College, New York, Dr. Eugene A. Colligan, associate superintendent of New York schools, next fall will assume leadership of an institution with nearly 20,000 students. Dr. Colligan is shown at his desk as he was apprised of his election.

## BEER EASILY AVAILABLE IN MOST CITIES

Beer, easily available in most cities of bone-dry Texas, today aroused wet and dry forces of the state to new antagonism. Meanwhile federal, state and local authorities expressed conflicting views as to the responsibility of enforcing the Texas prohibition laws. Dry forces appealed to President Roosevelt and Senator Morris Sheppard, co-author of the 18th amendment, in an effort to stem a wet tide manifested by a flood of applications for federal licenses to retail the new 3.2 beer. Indications from the state capitol were that state rangers would not be employed against sellers of 3.2 beer and that enforcement of the Texas Dean law would be left to local authorities. Local authorities, however, adopted different policies. San Antonio anticipated "wide open" sale of beer when county and city officers said they would not bring and prosecute charges against beer vendors. Meanwhile reports of open sale of 3.2 beer came from various cities. Wichita Falls reported beer brewed in New Orleans was selling for 50 cents a bottle. At El Paso beer brewed at St. Joseph, Mo., was offering strong competition to the Mexican beer sold across the border at Juarez. Perhaps the most liberal attitude prevailed in Galveston. There the distribution system reached such efficiency that hotel guests could telephone "room service" and have beer sent to their rooms. Leading the dry forces against the widespread sale of beer, was Mrs. J. M. Glass, president of the San Antonio chapter of the W. C. T. U. Both sides today prepared for the battle of ballots Aug. 26, when the voters will express their will on legalization of 3.2 beer in Texas and ratification of the federal prohibition repeal amendment.

"Because oil taken from the ground is a natural resource, which, once used, cannot be replaced, it is of interest to the nation that its production should be under reasonable control for the best interests of the present and future generations."

Special Feature
Pleasant Crowd
One of the outstanding entertainment features of "Henry's Wedding," given recently under auspices of American Legion, was the very beautiful dancing by Miss Virginia Harris of Abilene, and Miss Maxine Francis of Eastland, both students of the Irene Jay school of dancing in Abilene.
Their pianist was Broox Haven of Abilene. An outstanding number on their program an artistic waltz had Bob Cooper, and Kit Carson of Abilene as partners for the girls. The skip rope tap, and the Forty-Second Street tap dance, by Miss Harris and Mr. Cooper, were professional in perfection, and the acrobatic solo dance by Maxine Francis, was a revelation in grace and beauty.
This group of young people were the guests of Mr. and Mrs. Earl Francis during the two night showing of "Henry's Wedding."

Attended Bridge
Tournament
A brilliant bridge tournament that held the scene of the Ranger Country club yesterday, Saturday afternoon, and given in connection with the annual invitational golf tournament, was something to be remembered for its beauty of appointments.
Eastland guests, the card table party of Mrs. D. S. Eubanks, hostess, were Mrs. J. A. Stover, Miss Lavelle Hendrick and Miss Faye Blankenship.

The entire home of Mrs. Houle was lavishly decorated with roses and larkspur, and the tea table was laid with lace, centered with roses, wreathed in ivy and lighted with pink tapers.
Refreshments of delicious punch and cakes were served. The President, Mrs. W. E. Coleman, gave a beautiful friendship toast to Mrs. Snyder, to whom her fellow class members were loath to say au revoir.
