

Hope For Peace In Korea Fades; Reds Veto Plan

By GEORGE A. McARTHUR. PANMUNJOM.—The Communists today said no to the latest Allied plan for exchanging war prisoners...

Nearby, the Reds tore down tents used for exchanging sick and wounded war prisoners, indicating they're through trading...

The chief Allied negotiator, Lt. Gen. William K. Harrison Jr., answered with charges that the Reds illegally took Allied prisoners across the Yalu River into Manchuria...

He charged the Reds with reducing warfare to a "new viciousness" by impressing some 50,000 captives into the Communist armed forces...

The Allied counteroffer would free 24,000 North Korean prisoners who refuse repatriation and, under certain conditions, would put 14,500 Chinese in temporary custody...

At Thursday's one hour and 34-minute session, both sides hurled bitter charges. North Korean Gen. Nam Il called the Allied plan "unreasonable and absurd"...

The senior Communist delegate hammered at the Allied proposal in a long statement that made it clear the Reds found nothing suitable about it.

Twice he referred to the May 7 Red plan as one that would bring the armistice "for which the whole world is longing."

Harrison defended the Allied counterproposal, recounting the negotiations since they were renewed April 28 after being broken off last fall.

He said the main issue is still the question of releasing all prisoners immediately after an armistice or leaving their fate hanging for the political conference to decide.

Harrison said the Red truce delegation is simply the "voice" of its governments and such a conference with these governments

Rescue Work Goes On

Volunteer workers work through the night with the aid of spot lights, digging in the debris in hopes of finding survivors alive. Workers (left center) with aid of spot light have just found another tornado victim in the wrecked R. T. Dennis Co. building. (AP Wirephoto).

106 Bodies Now Recovered From Waco Tornado Ruins

WACO, Tex. (U.P.)—The known death tally continued to mount today as searchers dug deep into the tornado ruins in downtown Waco. Early today the 106th body was free from the debris.

Meanwhile, city officials studied these grim figures: damages estimated at 50 million dollars; 196 businesses and manufacturing buildings destroyed; 1,536 other buildings and homes damaged or destroyed.

The report was made last night at a disaster relief committee meeting. The figures were compiled by an Army Engineers survey team sent here from Dallas.

In San Angelo, Tex., where another tornado struck shortly before the Waco storm, the toll stood at 10 dead—making a total of 116 tornado dead in Texas.

The weather remained wet and cold. Two hours of sunlight yesterday were all Waco had seen since the tornado in the heart of the business district Monday.

As the search became better organized state highway patrolmen took over the responsibility for policing the ruined section. They issued special passes and if you

didn't have one you couldn't get into the area. Workers reported at least 3 bodies had been dug from the ruins of the R. T. Dennis Co. building.

The 100th body was that of John William Coates, who was talking on the telephone to his pretty red-haired wife, about 24, when the twister pounced. He began to describe the terrifying change in the weather. Then he cried: "Honey, the building's falling in!"

The phone went dead. Much of the wreckage in the residential area has been cleared away. The search was moving into buildings on the town square. This section was hit lighter than the main district.

The new cordon established by the state police was effective. The Department of Public Safety mustered 111 Highway Patrolmen from over the state. City police worked with them.

They mingled with armed troops who have guarded the area since the first volunteers reached the disaster scene and began digging in.

The troops had let fast-talking curiosity seekers slip into the area. The tired searchers were working too, working steadily into the fourth day of hunting the dead. The great mass of searchers were volunteers who began the labor as soon as the roar of the tornado disappeared. Some professional crews did the specialized work, operating cranes, wreckers, drag lines and such, but most of their labor and equipment was donated.

Meredith's telegram to the governor listed: 101 persons dead (the toll has risen higher since); 300 families homeless; 563 persons injured; 196 business firms wiped out; 376 buildings damaged beyond the safety point; 175 homes demolished; 1,285 homes damaged; \$800,000 actual loss to the city of Waco plus \$636,000 estimated future loss in tax revenues from destruction of taxable property; \$300,000 actual loss to Waco public schools plus nearly \$600,000 loss in tax revenue.

Meredith said: "It is requested that you wire the President of the United States to declare this a condition of such magnitude as to warrant assistance by the federal government under Public Law 875."

The Waco News-Tribune reported the Red Cross had appropriated \$300,000 more last night for the Waco-San Angelo storm areas, making the total \$500,000. The paper said a Kansas City drive for \$10,000 was nearing completion. Many smaller donations were coming in from firms, communities and individuals.

Robert Pierpont, American Red Cross disaster expert, took charge of headquarters to furnish family rehabilitation in the form of home repairs, furnishings, clothing, bedding and shelter.

Pierpont said he would work closely with RFC disaster loan authorities.

Commissioners from Howard and Ector Counties are scheduled to tour the Lake J. B. Thomas area in Borden County starting at 10 a.m. Saturday.

County Judge R. H. Weaver stated that he made arrangements for the trip with the Ector Commissioners by telephone. The tour has been planned for some time to look over a proposed road project in the area.

The road is scheduled to partially circle the lake around the west end. Several counties have pledged participation in the project, including Borden, Scurry and Howard. Participation of Ector County will be discussed on the tour. The Colorado Municipal Water District has also pledged money toward the road construction.

High today 88, low tonight 64, high tomorrow 88. Cloudy with scattered showers and a few drizzles tonight and Friday.

THE WEATHER SHOWERS

Ike Says Soviet Hasn't Shown Any Good Faith

Prefers Evidence, But Willing To Meet

After Night Of Horror

An unidentified man, his face registering the ordeal he has been through, raises from the litter as rescue workers lift him out of the ruins of R. T. Dennis Co. He had been buried in the ruins for over 12 hours following Waco, tornado which demolished the building. (AP Wirephoto).

Tornado Relief Fund Here Up To \$1,152.90

Big Spring's assistance for its neighbors who suffered in the tornadoes earlier this week was mounting Thursday. A special disaster relief fund had climbed by \$505, to bring the grand total to \$1,152.90.

Mayor G. W. Dahney urged citizens to respond promptly to the best of their ability. The money is sorely needed to help families who lost every single possession. They must have homes restored, furniture and household goods replaced and other items for decent living.

The fund should be closed out soon, and promptness is urged upon those who wish to give. Make checks to DISASTER RELIEF FUND. They can be cleared through The Herald, the Red Cross office, or through Ira Thurman at the First National Bank. All gifts will be publicly acknowledged and the money transmitted to the authoritative relief sources. Gifts

ear-marked either for San Angelo or Waco will be so handled. The donor list:

- L. W. Croft \$10.00
Higginbotham-Bartlett Co. 50.00
Mrs. C. E. Talbot 10.00
Mrs. B. O. Jones 10.00
Mr. & Mrs. Eugene Thomas 10.00
Robt. S. & Dorothy L. Beck 15.00
Big Spring Rotary Club 250.00
Clyde Denton 100.00
G. F. Reynolds 5.00
Ralph Proctor 60.00
G. W. Dahney 25.00
Agnes Currie 10.00
Previously acknowledged 647.90
TOTAL \$1,152.90

FORSAN — Residents here have started a campaign to collect items for assisting tornado victims in Waco and San Angelo.

They are collecting clothing, household goods, bedding and any other items that would be useful in rehabilitating homes, as well as cash donations. Persons who wish to contribute are asked to contact Mrs. J. D. Leonard or Mrs. Bobby Ashbury, or else bring contributions to their homes.

Cosden Wildcat Has Free Oil

The wildcat oil well being drilled by Cosden Petroleum Corporation just two miles east of Big Spring had a recovery of 50 feet of free oil Wednesday on its third drill-stem test.

The well is Cosden No. 1 Crawford, located between Lovers' Lane and Cosden Refinery. The second daylight test taken Tuesday had 40 feet of free oil.

Tuesday test was taken from 7-160 to 1,185 feet with the tool open three hours. The Wednesday test was from 6,161 to 7,210 and was also open three hours. Operator is now drilling ahead.

Wednesday's test also had 50 feet of heavily oil and gas-cut mud. No gas was reported on the last test and flowing pressure was zero. Approximately 90 feet of gas was in the drill pipe in the earlier test, and pressure rose from zero to above 800 pounds after shut-in for 15 minutes.

The well is 637 from south and 760 feet from west of lines; section 47, block 32, Asp. 1-north, T&P survey.

Nominations Okayed

WASHINGTON (U.P.)—A Senate Judiciary subcommittee approved today the nominations by President Eisenhower of Albert Saegert as marshal for Western Texas.

The action virtually assures approval by the full Judiciary Committee and confirmation by the Senate. No objection was made.

State Senate Votes To Adjourn May 27

BULLETIN AUSTIN (U.P.)—The Senate joined the House today in voting to finally end the Legislature at noon May 27.

The Senate's action came on a voice vote over a sharp protest from some members that the session's work was not done and that a final date for winding it up should not be set.

AUSTIN (U.P.)—The Senate backed up today and knocked off an amendment it had approved yesterday which would have exempted farm trucks from the law requiring inspection of automobiles.

The amendment had been adopted by 15-14 during yesterday's all-day wrangle over a House-passed bill relaxing the much-disputed inspection statute.

After reconsidering, the Senate deleted the amendment, 16-13. Senators for the law argued it was a safety measure to cut down death. Opponents said it was just plain silly and that speed caused most highway deaths.

Attention in the House spotlighted plans to bring the Legislature's session to a speedy end, without new taxes.

The House Appropriations Committee added more vote-getting features to a last-minute spending bill last night, and recommended passage of the measure.

It would give teachers a \$306 annual pay raise if the state votes the 45 million dollar gas pipeline tax suit. It would hand state employees \$120 more a year under the same condition. State employees had already been voted \$180 more a year.

The bill recommended by the House money committee also added \$500,000 to the amount proposed under the original compromise for

De Gasperi Warns Winnie On Meeting

PARIS (U.P.)—Italian Premier Alcide De Gasperi warned Prime Minister Winston Churchill today against a "badly prepared" big power conference "or one that yielded no results."

Commenting on Churchill's declaration to the House of Commons earlier this week that he favored an early meeting of the big powers, unhampered by a stiff agenda and carried out informally, De Gasperi said:

"A badly prepared conference, or a conference which will not give any result, such as those of Yalta and Potsdam, would lead to anger and disillusion among our peoples."

Southwestern Medical School, Dallas, making the total three million dollars for improvements in two years.

It threw in \$500,000 each for buildings at Lamar Tech, Beaumont, and Texas Southern, Houston.

All the spending—teachers pay, state employees raises, buildings originally proposed and added yesterday—would depend on a state victory in the pipeline suit. No victory, no money, was the proposition.

The House yesterday passed and sent to the Senate a resolution to end the session May 27.

The Senate would have to approve it before it becomes effective. There were signs plenty of disunity yesterday in both the House and Senate.

Tax forces in the House lost another round when the House refused, 61-58, to order the Revenue and Taxation Committee to report within six days on a bill taxing dedicated natural gas reserves.

Conservation Meet Opens Here Today

Indications this morning were that the soil conservation conference being held this afternoon at the Settles Hotel would be well attended.

Invitations to the meeting have been accepted by a number of business people and soil conservation district supervisors from over the area including Colorado City, Seminole, Andrews, Stanton, Midland, Lawton and other points.

This conference of business men, Chamber of Commerce officials, and the SCD supervisors is being jointly sponsored by the supervisors of the Martin-Howard SCD; the West Texas Chamber of Commerce and the Big Spring Chamber of Commerce.

Commissioners Set Tour Of Lake Area Saturday Morning

Commissioners from Howard and Ector Counties are scheduled to tour the Lake J. B. Thomas area in Borden County starting at 10 a.m. Saturday.

County Judge R. H. Weaver stated that he made arrangements for the trip with the Ector Commissioners by telephone. The tour has been planned for some time to look over a proposed road project in the area.

The road is scheduled to partially circle the lake around the west end. Several counties have pledged participation in the project, including Borden, Scurry and Howard. Participation of Ector County will be discussed on the tour. The Colorado Municipal Water District has also pledged money toward the road construction.

High today 88, low tonight 64, high tomorrow 88. Cloudy with scattered showers and a few drizzles tonight and Friday.

THE WEATHER SHOWERS

WASHINGTON (U.P.)—President Eisenhower said today he has no objection to a conference of top leaders of the major powers, but that he would first like to see some evidence of good faith from Russia.

As yet, he declared, he has seen no such evidence from the Russians in their talk of wanting world peace.

Eisenhower's news conference remarks were in comment on Prime Minister Churchill's speech earlier this week urging a high level conference without great delay.

Eisenhower also declared: "I have met no one in the United States who does not want peace." The President said this in comment on statements by Clement Attlee, former British prime minister.

Attlee asserted yesterday the Eisenhower administration's hands were tied in seeking peace in Korea by "elements in the U. S. A. that do not want a settlement."

As for Churchill's call for a conference, the President noted that the State Department suggested yesterday such a conference should show proof of Russia's sincerity.

Eisenhower said the department's statement was issued with his approval. The President recently said he was willing to accept Soviet peace overtures at face value.

The President said emphatically he was willing to take almost any kind of a chance to promote peace. On other matters, Eisenhower:

1. Said he will make a nationwide radio address Tuesday evening on the security of the nation as related to the federal budget and taxes. The hour has not been set.

2. Said he probably will make a nationwide report to the nation by television a week or so later. He had in mind a review of what has taken place during his brief administration.

3. Emphasized that his appointment of a new military high command in no way implies any criticism of the men who are being replaced on the Joint Chiefs of Staffs. The President said Secretary of Defense Wilson felt he should have an entirely new team, and that he agreed with Wilson.

4. Endorsed a proposal in Congress to raise the pay of senators and House members by \$10,000 a year. Eisenhower said the time is approaching, with taxes as they are, when it will be difficult to find well qualified men to be congressmen. He said the people should have the best possible men in Congress whether they have a nickel or a lot of money.

5. Said he believes there should be maximum local interest in developing of such power projects as the one at Hells Canyon in Idaho.

6. Said he feels legislation to grant statehood to Hawaii should be handled separately and not combined with the Alaska statehood measure as a Senate committee vote earlier this week to do.

7. Said the states have no rightful claim to submerged oil lands beyond their historic boundaries. His statement was in reply to a request for comment on whether

he favors a pending bill which would establish federal jurisdiction over submerged, oil lands on the continental shelf beyond the state's historic boundaries. Congress has passed and sent to the White House legislation to give the states title within their boundaries.

8. Said the United Nations Educational, Scientific and Cultural Organization (UNESCO) had started out with a fine announced purpose, and that while some suspicion had been aroused regarding it he has had no report on whether there is any justification for that suspicion. Some Congress members have been critical of UNESCO, contending it has drafted proposed agreements which would infringe on U. S. internal affairs.

9. Said the latest Red rejection of United Nations armistice proposals in Korea indicates a sort of fixed attitude pointed up by their speedy rejection of terms set forth by General Mark Clark, the U. N. commander in the Far East.

10. Said in reply to a question about his views regarding recognition of Red China, that different nations have different ideas as to what constitutes recognition. He said that for many years the recognition of another nation by this country has been interpreted as tacit approval of that nation's form of government.

Public hearing on paving plans set for May 26. Public hearing will start at 10 a. m. for the purpose of approving (or disapproving) engineer's estimates of the cost of various property owners and the city, front footage for which each property owner will be assessed, and benefits expected to accrue to the property adjoining the paving.

Any property owner affected may express his sentiments at the hearing. A board of appraisers, appointed at a called meeting of the city commission Wednesday, also will be available for testimony. The appraisers, J. W. Pursler, Roy Reeder and Worth Peeler, are to familiarize themselves with property and streets involved in the program and determine whether paving will benefit property at least to extent of its cost. Representatives of the H. B. Zackry Company, paving contractor are expected to start the sign up of property owners shortly after public hearings are completed. In charge of this phase of the work will be W. R. Sparkman who is opening offices for the contractor at 401 Johnson. Also in Big Spring Wednesday for the city commission meeting was Chester Johnson. It is estimated first dirt will be moved in the paving project about July 1.

See DROUGHT, Pg. 11, Col. 1

Drought Remains In A Few Areas

By The Associated Press Heavy rains which accompanied this week's storms have not ended the Texas drought in all areas.

This is true, the Soil Conservation Service said Thursday, although downpours in some areas have added billions of gallons to reservoirs, lakes and stock ponds.

Minor flooding occurred Thursday in the Lampasas and Liberty areas and high water was expected to cause some trouble around Cameron.

The SCS regional office in Fort Worth, asked for an appraisal of recent rains, said: "Drought conditions remain unchanged in most areas of Western Texas and Oklahoma. Scattered showers in recent weeks have given temporary relief to some of the extremely dry areas but generally there is not enough moisture throughout the High Plains and Southern Plains to produce the much needed crop for plant cover needed to prevent soil blowing."

Limited supplies of soil moisture in the Big Spring, Lamesa and Tahoka areas are sufficient to produce a stand of grain sorghum or cotton but not enough to mature the crop. Dry-land operators in the Lubbock section are going ahead with planting with little moisture available.

"Wheat lands in the Texas Panhandle have been abandoned for the most part. Scent rain and snow this week will not change moisture conditions materially. Areas of Northwestern Oklahoma also remain in the grip of the drought with much of the wheat crop being abandoned or given over to grazing. The Lower Rio Grande Valley still is short of rain fall and irrigation water. Elsewhere in Texas the moisture condition for growing crops is generally satisfactory."

Army Engineers said that in four reservoirs alone almost six billion gallons of water have been caught in the week ending Thursday. More than 2 1/2 billion gallons were caught in the new San Angelo reservoir and almost as much behind Whitney Dam on the Brazos River near Whitney.

GOP Against New Excess Profits Tax

By CHARLES F. BARRETT
WASHINGTON (AP)—Republicans on the House Ways and Means Committee said today they are ready to oppose solidly any Eisenhower administration proposal to extend the excess profits tax on business.

And Committee Chairman Daniel A. Reed (R-NY) indicated his group will be "too busy" with other things even to hold hearings within the next few months on an upcoming administration tax program.

Secretary of the Treasury Humphrey has promised the administration would be ready next week to give Congress its recommendations on tax reductions or increases, along with detailed estimates of prospects for balancing the budget.

He said he has been considering asking for an extension of the excess profits tax to help ease an expected budget deficit in the year beginning July 1.

GOP members of the Ways and Means committee reviewed this situation privately at a recent meeting, several of them reported

today, and reaffirmed a decision to line up unanimously against any extension of the levy.

The committee of 15 Republicans and 10 Democrats originates all tax bills in Congress. The excess profits tax, now bringing in an estimated 2 1/2 billion dollars a year, expires automatically June 30 unless extended by Congress.

"The GOP committee members said similar strong opposition awaits any proposal to raise regular corporation income taxes as a substitute for the excess profits tax—another idea reported under study at the Treasury."

However, Sen. George (D-Ga.), a veteran member of the Senate Finance Committee, said today he thinks the Treasury has decided against asking for a corporation tax hike.

Other congressmen who have talked over tax prospects with Treasury officials recently said the administration appeared to be taking soundings on several possibilities. So far as they know, these lawmakers added, no firm decisions have been made.

Tests Help To Halt Blackouts By Pilot

By RENNIE TAYLOR
Associated Press Science Reporter
LOS ANGELES (AP)—A daring experiment on the hearts of five young Air Force doctors has opened the way for development of a new, more comfortable kind of gravity suit to prevent pilot blackouts.

The tests, conducted by Capt. Owen L. Slaughter, now of Evansville, Ind., were reported to the closing meeting of the Aero Medical Association here yesterday.

Two long, flexible tubes called catheters were inserted through blood vessels in the neck and into the heart of each physician under test. This was done to measure the exact blood pressure in the heart while the lower halves of their bodies were being compressed as in a gravity or blackout suit.

Catheters are used frequently on one side or the other of the heart but never before have they been used simultaneously on both sides, Dr. Slaughter said. The one-sided operation is only slightly dangerous but the hazard is increased many fold when both sides are catheterized. However, no bad ef-

fects appeared, Dr. Slaughter reported.

Flight surgeons long had believed that tight-squeezing gravity suits worked by preventing the blood from crowding into the lower part of the body during high speed dives or turns, leaving little or none in the head and causing momentary unconsciousness.

The tests showed, Dr. Slaughter said, that the gravity suit does not work that way. Instead it causes the arteries in the head and lower abdomen to increase their resistance to blood flow. This causes increased blood pressure in the upper part of the body and makes it easier for the heart to pump blood to the brain, he reported.

As a result, Dr. Slaughter said he would suggest that gravity suits be redesigned specifically with the idea of compressing arteries in the lower part of the body, as a first aid worker might do in holding the "pressure points" to stop hemorrhage.

It should not be necessary to make suits that will compress the flesh, he said.

Dr. Slaughter recently completed his tour of Air Force duty and returned to private practice.

Carney Thinks Appointment To Boss Navy Is Wonderful

NAPLES, Italy (AP)—Adm. Robert B. Carney, President Eisenhower's choice to boss the U. S. Navy, said today that "nothing more wonderful could happen to a sailor."

For the past two years Carney has been commander in chief of North Atlantic Treaty forces in Southern Europe, with headquarters here, the date when he will leave for Washington to become U. S. chief of naval operations has not yet been set.

"I have worked at being a sailor for 41 years and only hope that in

41 years I learned enough to do the things expected of me by the service and by the President in my new job," he told this reporter.

A personal letter from the President was flown to Paris in usual fashion. There Gen. Matthew B. Ridgway, retiring NATO commander, handed it over to an F84 jet pilot who was just leaving for Naples on a training mission.

The pilot was still in his flying suit when he turned the letter over to the admiral Monday afternoon.

Although Gen. Carney leaves his NATO command "with very mixed emotions," he said.

"A great deal has been accomplished" since he took over under Gen. Eisenhower, then NATO commander. "We are a long way from being finished, but great progress has been made," Carney declared.

During the past two years Italy's Army has been largely reorganized and modernized, and the armed forces of Turkey and Greece have been admitted into the Atlantic Alliance.

Rain Falls In Eastern U.S.

By The Associated Press
Widespread cloudiness covered much of the nation's eastern half today, bringing considerable rain. Showers were felt most acutely in the tornado-smashed cities of Texas—Waco and San Angelo—where 111 persons died in Monday's twisters.

Waco's storm-weary residents were beset by the flooding Brazos River. Rainfall was locally moderate in Texas, Ft. Worth reporting 4 1/2 inch in a six-hour period, but it was enough to keep streams choked.

Lake Charles, La., reported a 24-hour rainfall of 2.97 inches.

Showers were general in the lower Mississippi Valley and in much of the East Coast region. Rain clouds moving inland from the Pacific moved parts of the Northern Rockies.

Temperatures were somewhat cooler than normal over most of the country except the Southwest.

Low marks well below freezing were recorded in the upper Great Lakes region, where Grand Marais, Mich., had an early morning 20 degrees.

It was fair over much of the West Coast, the Southwest and the Northern Plains and Great Lakes areas.

Bitterness And Alarm Noted In British Papers

LONDON (AP)—The U. S. congressional uproar over former Prime Minister Clement Attlee's assertion that some elements in America oppose a Korean peace was greeted with alarm or bitterness in much of the British press today.

Moscow radio, meanwhile, poured oil on the flames with a lengthy review of the "ever-growing dissatisfaction with various aspects of United States policy" in the British House of Commons.

Attlee, leader of the opposition Labor party, made his assertion Tuesday during a Commons foreign policy debate that won the highest play in Soviet newspapers given a British parliamentary discussion in many years.

Moscow's two principal newspapers, Pravda and Izvestia, devoted nearly a page to summaries and quotations from the speeches by Attlee, Prime Minister Churchill and other British leaders. Almost half a page was devoted to Churchill's speech in which he called for a top-level meeting of the principal powers to settle world tensions.

Attlee's position was hotly defended today by the London Daily Herald in one of its rare front-page editorials. The Laborite paper sharply denounced U. S. congressional critics of the former Prime Minister.

"Is it not a fact," the Herald asked, "that the influential 'China lobby' in Congress wishes to see Chiang Kai-shek so strengthened by American arms that he can invade the Chinese mainland?"

"And can it be pretended for a moment that the men who urge this policy are simultaneously and sincerely anxious for a settlement with Communist China?"

The Herald declared that "Sen. McCarthy's reaction to Attlee's speech was nauseatingly typical."

The Independent, imperialist Daily Express said Britain should swear off accepting dollar aid from America immediately and "stand independent and unoppressed."

More Comfort Wearing
FALSE TEETH

Here is a pleasant way to overcome loose plate discomfort. PARTITEETH, an improved powder, sprinkled on upper and lower plates holds them firmly so that they feel more comfortable. No gum, no goopy, nasty taste or feeling. It's alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get PARTITEETH today at any drug store. (Adv.)

Demos Join GOP In Lashing At Attlee's Criticism Of U. S.

By JACK BELL
WASHINGTON (AP)—Sen. Ferguson (R-Mich.) today urged President Eisenhower to "speak out now" in an effort to win British support for a firm policy toward the Communists in Korea and elsewhere in Asia.

He made the suggestion in an interview at a time of increasingly bitter transatlantic gibes between lawmakers of the two long-time Allies.

Sen. Knowland (R-Calif.) yesterday denounced as a "Munich" appeasement inviting World War II proposals by Prime Minister Churchill and Clement Attlee, Labor party leader. Knowland particularly objected to any truce which would leave Korea divided and lead to admission of Red China into the United Nations.

Backing this up, Ferguson said the President should make a public statement "if his policies do not coincide with those of Churchill and Attlee."

"An early statement on our part by the President would be of great benefit," the Michigan senator said.

British Apology Is Asked By M'Carthy

By G. MILTON KELLY
WASHINGTON (AP)—Sen. McCarthy (R-Wis.) said today Britain should apologize for what he termed a "cheap" attack by former Prime Minister Attlee on American people.

Conservative party members of the British Parliament, McCarthy said, sat silently last Tuesday while Attlee made "one of the most insulting speeches ever made in the legislative body of a recipient nation against an ally which has been pouring out her economic life blood for practically every other nation on earth."

In a speech prepared for Senate delivery, McCarthy declared: "The American people are entitled to an apology for this cheap, uncalled for, fantastic attack upon the President and people of the United States."

"We are entitled to an explanation as to whether the majority party in Britain agrees with Mr. Attlee, who was rejected by the British people."

One by one McCarthy took up

attor said. "Churchill and Attlee have been advertising to the world where Britain is going to stand in the Korean peace negotiations—if there is a cease-fire—and I am fearful this will discourage our Allies in their efforts to resist communism."

"But I still hope we can be reunited with Britain and our other Allies in a firm stand against the expansion of communism and the President is the man to do it."

Although Knowland and Ferguson led the attack on British views as Republican members of the Senate Foreign Relations Committee, they were not without some Democratic support.

Sen. Russell (D-Ga.), top Democrat on the Armed Services Committee, said in a separate interview he believes U. N. negotiators already have "yielded too much" to the Communists in Korean truce talks.

He alluded to the U. N. offer to transfer to a five-nation commission custody of Chinese Communist prisoners who don't want to go home. The U. N. proposal was

rejected by the Communists. "I regret to see the softened policy in Korea," Russell said. "I am not in favor of the Churchill and Attlee policies, although I assume there was a great deal in their speeches which was designed for home consumption."

The State Department late yesterday threw a little cold water on Churchill's suggestion Monday for a meeting of Western and Russian leaders.

The suggestion was "a further manifestation of his (Churchill's) own high purpose," the department said, but it stressed that before any such talks, there must be concrete evidence of Soviet good faith.

The statement said agreement on a truce in Korea and an Austrian peace treaty would demonstrate such sincerity and would "help to pave the way toward a high-level conference."

In the Senate discussion, Sen. Morse (Ind-Ore.) told his colleagues this was no time for "long-distance debates" over free world policies. He said there ought to be "understanding and agreement" between the Allies.

"I have no doubt as to what Russia will do if she splits us," he said.

The Oregon senator said Eisenhower should call for immediate "international negotiations with the foreign ministers of the free nations."

Knowland told the Senate Churchill and Attlee appear ready to let the Chinese Communists "shoot their way into the United Nations."

Replying to Attlee's declaration that the U. S. is operating under a Constitution "framed for an isolationist state," Knowland said the real isolationists are those who believe they are secure from the force of international communism in Asia.

"They are living in a fool's paradise," he shouted.

Chester Bowles, the last Truman administration ambassador to India, said in a speech here yesterday the U. S. "will have to go along" with U. N. membership for Red China if the Communists agree to a workable peace settlement in Korea, Indochina and all of South Asia.

Under such circumstances, Bowles said, this government would be unable to withstand pressure from the rest of the world for China's admission to the U. N.

But he said he would never turn Formosa over to the Reds.

Sen. Douglas (D-Ill.) said Churchill and Attlee appeared to be "nudging" the U. S. toward acceptance of the Communist truce proposals in Korea.

He added that any such acceptance would mean "a tremendous moral victory" for the Reds and would provide propaganda claims that "the democracies will not defend their own and those who come over to them."

While his colleagues were aiming their shafts at Asiatic policies, Sen. Gillette (D-Iowa) turned criticism on Eisenhower administration policies in Europe.

Gillette, a Foreign Relations Committee member, said foreign policy now appeared to be ruled "by politics rather than national necessity."

Attlee's reported declarations that "there are elements in the United States that do not want a truce in Korea"; that the presence of Eisenhower or any American might "hinder" direct peace talks with the Russians; that "the American Constitution was framed for an isolationist state," and that "the Americans do not wish to have anything to do with Europe."

McCarthy's prepared text contained no mention of Attlee's statement that "one wonders" whether Eisenhower or McCarthy wields the greater power in U. S. foreign policy.

"What shocked me," McCarthy said, "was that no member of the majority party arose to contest what he had said."

"I shall distribute to whatever senators who desire it," McCarthy said, "a copy of a picture of Attlee reviewing Communist troops in Spain in 1937 with Communist Gen. Mija and Commissar Anton, a leader of the Communist party in Spain, all three giving the Communist clenched-fist salute."

"But just someone think Attlee's Communist salute was merely an act of courtesy on his part. I have here a letter in Attlee's own handwriting. . . . He first praises in glowing terms the Communist brigade and extolls its devotion to the 'cause of freedom and social justice.'"

"And listen to this closing paragraph: 'I shall try to tell our comrades at home of what I have seen.'"

"Comrade" is a Communist term meaning fellow Communist."

Several times, thereafter, the text of McCarthy's speech mentioned Attlee as "Comrade Attlee."

Texas City Rushes To Aid Waco Victims

TEXAS CITY, Tex. (AP)—Texas City, a town with a memory, was collecting clothing, equipment of all sorts and money today to help tornado-torn Waco, Tex.

Texas City was the victim, April 16, 1947, when explosion of a chemical-laden French freighter touched off a series of gigantic blasts and fires in which 522 persons died.

Waco was one of the first cities in Texas to offer its aid, and this town of 20,000 on the Gulf Coast still remembers.

But he said he would never turn Formosa over to the Reds.

Sen. Douglas (D-Ill.) said Churchill and Attlee appeared to be "nudging" the U. S. toward acceptance of the Communist truce proposals in Korea.

He added that any such acceptance would mean "a tremendous moral victory" for the Reds and would provide propaganda claims that "the democracies will not defend their own and those who come over to them."

While his colleagues were aiming their shafts at Asiatic policies, Sen. Gillette (D-Iowa) turned criticism on Eisenhower administration policies in Europe.

Gillette, a Foreign Relations Committee member, said foreign policy now appeared to be ruled "by politics rather than national necessity."

Internees Home From Korea

Seven Americans, released after three years of internment by North Korean Communists, wave on arrival at New York's International Airport after the long trip home by way of Moscow and Berlin. In the group from the foot of the ramp, are Rev. William R. Booth, Maryknoll Catholic missionary of New York; Miss Nellie Dyer, Conway, Ark.; Rev. Kristian Jensen, New Cumberland, Pa.; Helen Rosser, Lynchburg, Va.; Bertha Smith, Marshall, Mo.; Rev. Lawrence Zellers, Weatherford, Tex.; and Louis L. Dans, Chicago businessman. All but Father Booth and Dans are Methodist missionaries. (AP Wirephoto).

Loyal Texas Demos Slate Sunday Meeting

By DAVE CHEAVENS
AUSTIN (AP)—Texas Democrats whose allegiance is bound to the national party are planning their strategy for 1954 state political battles.

Hundreds of invitations have gone out for a state-wide rally and conference at the Lower Colorado River lodge on Lake Buchanan near Burnet Sunday.

Those invited included state, district and local leaders in organization hastily thrown together last fall by Rep. Sam Rayburn for the Stevenson-Sparkman ticket.

Rayburn was asked to try to salvage Texas after the state convention in Amarillo, led by Gov. Shivers' organization, repudiated Stevenson and went over to Eisenhower.

Shivers and Sen. Price Daniel both supported Gen. Eisenhower, who captured the Texas vote. Both were elected as the dual candi-

Big Supply Of Chickens Due To Lower Prices

By The Associated Press
Signs are that chickens will soon join beef on the best buy list in food stores of the country.

The Poultry and Egg National Board says wholesalers are bracing themselves to handle the biggest supply of the birds ever brought to market. Within a few weeks, it says, between 15 and 16 million chickens will be shipped to market every week. The prospect is that this will go on for weeks.

The big supplies are expected to bring lower prices. Actually, frying chickens were down two to four cents in various sections this week.

The poultry and egg board noted that egg prices are coming down a bit. Some retail stores knocked two to three cents off this week. Egg prices still are high for this time of the year, wholesalers said. The continued high demand has puzzled producers.

Beef prices continued at the low levels of recent months, with changes either way reported by only a few stores. Among cuts featured for the week end were pot roast, chuck roast, corned beef, rib roast and sirloin steak.

Pork chops, which recently soared, settled back in some areas, with price reductions of two to six cents reported. Chain stores said bacon has climbed six cents a pound in the last week.

Leg of lamb went up four cents a pound in some areas.

On the best buy list in vegetables were tomatoes, onions, potatoes, and asparagus. In the wholesale markets, beets, cabbage, and squash were mentioned as fairly good buys.

California Valencia and navel oranges were also classed as fairly good buys. Grapefruit was moderately priced.

Commuter's Doze Leads To His Death

MASSAPEQUA, N. Y. (AP)—Many a commuter dozes going home on the train. But James E. Fagan's nap led to his death.

The 49-year-old telephone company official was slumbering last night when the train reached his stop at this Long Island community.

As the train pulled out he awakened.

Fagan ran to the door. The train gathering speed, still was alongside the platform.

Bracing himself for an instant, he leaped and landed on the platform.

The Elevated Grandstand Is A Handy Gadget

By TOM BRADSHAW
PHILADELPHIA (AP)—In newspaper vernacular, a "handout" is a news release prepared by an individual, a company, an organization or public relations firm.

The usual batch of handouts arrived at our office today. Most such releases are cut and dried affairs, some important and others waste basket material.

One of today's crop stood out, however, because it was so titillating to the imagination.

The release was headed: "Elevated" grandstand to give audience a lift at National Materials Handling Exposition.

And then the handout went on to say:

"A grandstand that raises and lowers its audience at the flick of a lever will be a major attraction at the fifth National Materials Handling Exposition in Philadelphia, May 18-22."

What a mental picture that paragraph produced! Imagine one of these gadgets in operation. It's the third inning of a World Series game at Ebbetts Field in Brooklyn. Roy Campanella is at the plate. He swings at the pitcher's next offering. The ball caroms off his bat—swerving suddenly toward the stands along the third base line.

Just as the screaming foul is about to decapitate some one, the elevated grandstand operator flicks his lever. A portion of the audience drops from sight—and the jet-propelled foul whizzes harmlessly into the newly created void.

Or perhaps a tired businessman, dragged to the opera by his music-loving wife—is stricken with a fit of coughing that has the leading soprano in a lizzy.

Again the elevated grandstand operator flicks his little lever and the cougher disappears from view—and out of audio range—until his throat tickle is checked.

This sort of thing could become routine to American audiences—but none would ever be able to approach the aplomb reportedly displayed once by a British naval band giving a concert on the flight deck of an aircraft carrier.

The band had been seated on one of the big elevators, which was lowered a foot or two to give the leader a more commanding position.

A sailor on the hangar deck below noticed the elevator overhead wasn't in a completely raised position. Unaware that this was done for a purpose, he flicked a lever. The band shot up two feet. The sailor then realized his mistake and flicked another lever.

The band sank completely out of sight of its audience—losing not a note in transit.

The Automatic Transportation Company, which will exhibit the elevated grandstand at the exposition here, doesn't predict such spectacular results with its product.

The grandstand holds 28 persons and during the exposition, various groups of that size will be given an opportunity to participate in a television show—both as an elevated and a depressed audience.

Survey Is Sought
WASHINGTON (AP)—Rep. Benton (D-Tex.) asked a House Appropriations Subcommittee today to approve \$6,000 for a survey to determine the cost and feasibility of dredging a ship channel across Padre Island and Lugana Madre, on the extreme southern end of the Texas Coast, to connect Red Fish Bay with the Gulf.

Contractor Is Fined
DALLAS (AP)—W. J. Thomas, a contractor whose warehouse burned and exploded May 4, was fined \$200 yesterday for storing dynamite without a permit. One man was killed and ten were injured.

Rightfully Alarmed
BUFFALO, N. Y. (AP)—Fireman Palm D. Starrett had cause for alarm last night when the fire truck arrived at the scene of a blaze.

It was in his home. Damage: \$1,300.

Aids Tornado Victims
FORT WORTH (AP)—The Texas Knights of Columbus, moved to send \$1,000 to tornado victims in Waco in a meeting yesterday.

Surgery Due Soon
BOSTON (AP)—Radio-television star Arthur Godfrey will undergo surgery "within a few days" to correct hip injuries suffered in an automobile accident 22 years ago. It was announced last night.

Hans Isbrandtsen, Noted Ship Owner, Is Dead On Wake Island

HONOLULU (AP)—A plane is due here tomorrow with the body of Hans J. Isbrandtsen, the almost legendary American ship owner who died of a heart attack yesterday on Wake Island.

Isbrandtsen, 60, was en route home by air after a three-week business trip to Japan when he was stricken as he stepped from his ship for a stopover. He died a few minutes later.

The body is to be flown to New York for funeral services.

Isbrandtsen believed in unlimited freedom of the seas and frequently tangled with governments for it. Few would stand up to him when he went after what he felt was right.

Although a small operator, he was a giant among independents and would have nothing to do with rate-agreements. He wouldn't accept government subsidies.

Many of Isbrandtsen's skippers also were of heroic stature. Among them was Capt. Curt Carlsen, who refused to leave his stricken Flying Enterprise until just before it sank in the stormy Atlantic early in 1952.

Isbrandtsen was born in Denmark, served in the Danish Navy in World War I and later went to sea as a merchant mariner. About this time he moved to the United States and became a citizen in 1932.

When Hitler moved into Denmark, he headed the Danish Isbrandtsen-Moller Line. He organized his own company under the American flag.

Above is a dramatic moment in the Life of Christ, technicolor movie to be shown by the Veterans of Foreign Wars Tuesday, May 26 at the City Auditorium. This will be the first showing in West Texas, according to B. Q. Evans local VFW Commander.

Man Risks Life In Frigate To Rescue Horse

NEW MARKET, Tenn. (AP)—A plucky insurance salesman risked his life at the end of 170 feet of rope yesterday in a vain attempt to rescue a suckling colt trapped in a cave since Sunday night.

The colt, a jet black little fellow called "Bill," died of a broken neck as he was being pulled from the cave, a natural sinkhole on the rolling, rocky farm of Raymond Larrance. The farm is about 25 miles north of Knoxville.

But if Milton Trent, 27-year-old insurance salesman from nearby Jefferson City, hadn't crawled through the narrow passage into the cave, the animal would have been shot tomorrow anyway, to give it a merciful death.

Trent tied a strong rope around the colt's neck.

"He was right pert when I reached him," Trent said as he came out of the cavern, breathless and muddy. "But he got caught in that narrow opening and his neck broke."

Trent referred to a rocky opening about a foot wide 20 feet into the cavern. The opening led to a room "as big as a house" at the bottom, where the colt had been walking around. Trent, who is 5 feet 8 inches tall and weighs only 110 pounds, was the only one who would be rescuer small enough to crawl through. He said he was drawn to the scene by "just plain curiosity."

"He was the playfulest little fellow you ever saw, and one of the prettiest colts I ever saw," said Horace Larrance, father of Raymond and owner of the colt. "He had a white star on his forehead, and white on his feet."

In a pasture with his mother, a white mare named Queenie, the youngster—then just 9 days old—fell into the hole as he was testing his wobbly legs Sunday night.

"The cave will be his grave," he said.

Stevenson Serenaded

Adlai Stevenson, Democratic presidential candidate last year, wears a garland of flowers as he listens to the music of village musicians in a north Indian village 86 miles north of New Delhi. Stevenson said it was nice music but thought it was "too loud." Stevenson, who visited India during his extensive tour of the Far East, made the trip north to see a village that has been improved under Indo-U. S. technical cooperation agreement. (AP Wirephoto).

'Three B's' To Help Celebrate The Coronation

LONDON (AP)—Britain will celebrate Queen Elizabeth's coronation with the traditional "three B's" of national rejoicing—bells, beef and beer.

The bells will ring out from every church tower across the country.

The beef will come from oxen roasted whole, Tudor style.

The beer will be a special triple-strength brew laid down last year by most brewery firms and now mellow and mature. It will cost up to 5 shillings (70 cents) a pint—four times the normal price—but the brewers say it will keep 50 years and get better all the time.

Thirteen years of meat rationing have made ox roasting a lost art for most Britons but practically every town has dug up some old-timer with the necessary know-how.

Ben Martin will fan the charcoal fire and wield the basting ladle at Wokingham, a Berkshire market town. Ben is 84 and can recall seeing his first ox roasted at Queen Victoria's jubilee in 1887. Since then he has roasted oxen at three coronations.

"It takes experience to roast an ox," he says. "Tain't like frying a mutton chop, y'know."

Beer has a strong supporter in the Rev. W. G. Hargrave Thomas, vicar of Needham Market in Suffolk.

He has persuaded the local elders to put a barrel on the village green for anyone to drink.

"It's quite in order to have a binge on an occasion like this and there's nothing very sinful in a little bit of a spree," he told his parishioners.

400 Reds Dead In Savage Korea Fight

SEOUL (AP)—Sharpshooting South Korean infantrymen killed or wounded at least 400 Communists in a series of savage close-quarter battles across the 155-mile battlefield today.

In the air, U. S. Sabre jets destroyed three Communist MIGs and shot up two more, while almost 100 Sabres and other fighter-bombers plastered supply targets deep in north Korea and along the front lines.

The Eighth Army said stubborn South Korean troops chopped up a reinforced Chinese company which hit Allied positions north of Kumhwa in Central Korea before dawn. The ROKs killed or wounded 218 Chinese in an attacking force which struck behind a 3,300-round artillery and mortar barrage, the Army said.

Fifteen miles to the east, Chinese troops struck a series of Allied outposts in the Outpost Texas-Capitol Hill sector for the third straight day. The Reds lost 107 men to South Korean fire before pulling back to their own lines shortly before dawn, the Army said.

On the eastern end of the battle line, South Korean raiders reported killing or wounding 27 Communists in a 90-minute hand-to-hand clash near the Nam River.

At least 50 additional casualties were inflicted in other actions along the front, the Army said.

Three flights of Sabre jets flying as fighter-bombers plastered Red troop and supply targets. Thirty-eight Sabres hit a troop area in Central Korea, 25 others blasted battlefield supply dumps farther west and 24 more divebombed an airfield at Kangdong north of Pyongyang. Thunderjets dumped explosives on supply targets near

Woman Is Again Being Sought On Hot Check Charge

Thelma Jo Wylie, released Wednesday after paying two fines on charges of passing hot checks, was being sought again today for allegedly committing the same offense again.

She was fined a total of \$40 by County Judge R. H. Weaver on the two charges. After paying the fines and making the checks good she was released. She told County Attorney Hartman Hooser that she had not signed any more checks.

The charges had been filed for four checks passed at various business establishments in the city. All were for about \$20 each. Today another check, which had been passed at Swartz's, was turned over to the County Attorney after it was discovered worthless.

Another charge was filed against Mrs. Wylie in relation to the check. Authorities said like charges have been filed against her in Lamesa.

Released From Jail

Beverly Wilson of Big Spring was released from County Jail Wednesday after posting \$1,000 bond on charges of forging a check and passing it. She waived examining trial in Justice Court.

Pattersons Have Reunion

Mrs. W. R. Patterson was honored at a family reunion recently in the home of her daughter and son-in-law, Mr. and Mrs. F. M. Patterson, East Highway. A buffet luncheon was served.

Attending were Nora Lee Patterson, Mr. and Mrs. M. C. Patterson, L. D. Patterson and Shirley Ann, Mrs. James Edwards and daughters, T-Sgt. and Mrs. Johnnie Murphy, S-Sgt. and Mrs. Bruce Derden, Mr. and Mrs. J. E. Russell and children, Mr. and Mrs. Bob Craft and Melvin, Nancy and Penny Newsom, all of Big Spring.

Others attending were Mrs. R. S. Patterson, Mr. and Mrs. Clarence Patterson, Mr. and Mrs. Austin White and children, all of Midland.

Pythian Sisters Are Seeking Clothing For Victims Of Tornado

The Pythian Sisters of Big Spring are conducting a drive for clothing for persons who lost their possessions in the tornado Monday at San Angelo.

Mrs. Melvin Choate said a large quantity of clothing already has been received. It will be taken to San Angelo this week end.

Anyone having garments they wish to give should contact Mrs. Choate, Phone 3493-J or Mrs. R. N. Hill, 956-J.

Desertion Is Charged

Bruce Rogers, local resident, was arrested by sheriff's officials Wednesday on charges of child desertion. His bond was set at \$1,000 in Justice Court, but he had not posted bond this morning.

Egypt Starts To Act Against British Units

By EDWARD POLLAK
CAIRO, Egypt (AP)—Egypt was reported today trying to throw an economic noose around the 50,000 British soldiers she wants to push out of the bitterly disputed Suez Canal zone.

Interior Ministry sources said Premier Mohamed Naguib's Cabinet has prohibited commercial transactions with British forces in the Suez except by "special approval by the supply ministry."

The order, these sources said, applies to foodstuffs, alcoholic beverages, building materials and other raw materials. Banning of Egyptian sales of all these would force the British to supply their vast establishment entirely from outside Egypt.

There must be maintained for the use of the free world. Negotiations between the two countries on the dispute broke down a week ago when the British stood fast on demands that 5,000 British technicians remain to keep the base in operating condition. The Egyptians said they could do the job with only 500.

In his announcement to the House of Commons, Lloyd charged that members of the Egyptian Army "at least connived" at attacks on Britons.

Nasser hit back in a press statement accusing the British minister of "fabricating accusations against Egypt."

The Egyptian Army had absolutely nothing to do with these incidents," the statement declared. "These incidents—which by the way are very few—have been taking place since the British came to Egypt.

"If we have to reciprocate, we can give a large number of cases where the British were brutal, aggressive, and inhuman towards the simple, peace-loving Egyptian citizens."

Nasser made his prediction of a possible uprising against the British in an interview with a visiting newsmen. In the past, Nasser has urged guerrilla war if the British refuse to budge.

Egyptian political circles viewed the Cabinet's new move as the start of a growing economic boycott of British forces in the canal zone. It followed a hot exchange of charges between Britain and Egypt in which each accused the other of a series of shooting attacks in the canal zone since April 1.

Cairo newspaper claimed today that an Egyptian gun salvo last night, announcing the beginning of the Moslem holy month of Ramadan, touched off five hours of British firing in which one Egyptian was wounded.

An Associated Press dispatch from Port Said, however, said that all was quiet today at the canal's northern end.

The Egyptians charged officially last night that British soldiers had killed eight Egyptians and wounded 17 in the canal zone since April 1. A government statement said the incidents had been due to "the British military's provocative actions."

A British military spokesman said two persons had been killed and two wounded on the British side since April 1. British Minister of State Selwyn Lloyd told the House of Commons in London Tuesday there had been 30 attacks on the British since April 1.

The Egyptian casualty figures were announced shortly after Egypt's chief of staff, Lt. Col. Gamal Abdel Nasser, predicted a popular uprising against British forces unless the London government removes its 80,000-manarrison from the canal zone within two or three months.

Egypt has demanded unconditional British evacuation of the zone, Britain says its huge base

Two young drivers charged with "racing" in the 100 block of Main were fined \$5 each in Corporation Court this morning. Patrolman Curley Brown who issued the tickets said the boys almost were involved in an accident.

Waco Victim Spoke To Wife Before Death

WACO (AP)—The 100th body found in the ruins of Monday's tornado was that of John William Coates who had been talking on the telephone to his pretty red-headed wife.

Coates, who worked in a paint store operated by his father-in-law, Joe Nealey, had called home to warn his wife of the storm.

He described the darkness, the heavy rain and light ballstones in the downtown section.

Then his voice turned into a scream.

"Honey, the building's falling in!"

And the telephone line went dead.

That was the last word Mrs. Coates had until her husband's battered body was found late last night.

Her father and mother were in the paint store also. Their bodies had not been found early today.

Theatre Is Destroyed

HEBRONVILLE (AP)—Firemen saved other buildings in the downtown area yesterday as a blaze destroyed the Texas Theater. No one was injured.

Forsan Girl Speaks At Pipe Line Fete

Becca Sewell, Forsan High School senior, was principal speaker at the quarterly dinner and safety meeting of Shell Pipe Line Safety chapter here Wednesday night.

The banquet was held in the Settles hotel ballroom, with some 40 employees and their wives attending.

In her talk, Miss Sewell urged that driver education be made a required course in public schools. She charged adults with the responsibility of setting good examples in driving and safety. She also advocated strict penalties for traffic violations and drunken driving.

E. M. Owens, division superintendent at Colorado City, presented H. L. Nixon, assistant chief gauger at Forsan, with a 10-year service award.

Owens then presented 16 employees with safe driver certificates which represented 1,475,736 accident-free miles, or 101 years of safe driving.

Top driving award went to W. K. Williams, station chief engineer of Garden Station, who has 481,630 accident-free miles in 17 years of driving company-owned equipment. Second place honors went to V. L. Bennett, chief gauger at Forsan who had 278,808 safe miles to his credit in 17 years.

Certificates of merit went to six different groups in appreciation for the achievement in working 21,562 consecutive days without a disabling injury on the job.

The program was concluded with a short talk by J. E. Fairweather, Colorado City, area safety engineer, and a film titled "A Day In Court." The film presented "the seven deadly sins" in traffic violations and pointed out the importance of drivers' attitudes in relation to traffic safety.

BECCA SEWELL

Kiwanians Get Ready For Big Pancake Feed

Big Spring Kiwanis Club members today were ready to turn up the burners and turn out several thousand pancakes at the High School Cafeteria.

The club's first annual pancake supper will get underway at 5 p.m., and by the time operations cease around 8:30 or 9 p.m. club officials estimate that 1,000 or so persons will have filled through the cafeteria and consumed steaming pancakes.

Tickets for the event are selling for 50 cents each. Advance ticket sales have been under way for several days, and tickets also will be available at the door this evening.

In addition to a pancake feed, guests will be treated to a full program of entertainment, featuring musical groups, individuals and a humorous skit.

The entertainment will begin around 5:30 p.m. and continue as long as pancakes are served. The serving hours are listed at 5 p.m. to 8 p.m. on the tickets, but Kiwanis members said they would serve "until the people quit coming in."

"I hope everyone who has a ticket will come," said H. W. Smith, committee chairman. "We feel that we are giving them full value for their money, and we don't want anyone to feel that purchase of a ticket is merely a gift, although the funds are going to a worthy cause."

The Kiwanis Club will use the proceeds to finance its community service program. The club already has obligated itself for a \$250 contribution to the city's summer recreation program and the club carries out several other welfare projects each year.

Smith said the club is anxious to establish the pancake supper as an annual event.

Three Local Students Due Texas U Degrees

Three students from Big Spring are included on the list of prospective graduates from the University of Texas College of Business Administration.

Due to receive their BBA degrees at commencement exercises May 30 are Mrs. Georgia Sallene McGaky Atnipp, Edwin Wayne Hickson and Joe Ray Miller.

Colorado City also has a BBA grad from the University this month. He is Hubert Smith Ratliff.

Nation Watches As Steel Talks Get Underway

PITTSBURGH (AP)—Industrial America and the Eisenhower administration watched the steel capital today for an indication of what may be in the wind in the way of steel wage increases which could affect the prices of practically every commodity in the land.

The watchful waiting began as the CIO United Steelworkers opened its first negotiating session today with big United States Steel Corp.

The steelworkers union is asking the industry to increase wages of its 1,100,000 members. It traditionally begins its bargaining with U. S. Steel, which usually sets the pace for the entire industry.

In past years wage increases in steel were followed by similar hikes in other industries. That is why the other industries and the new Eisenhower administration are watching. Since wage and price controls were lifted, the new GOP administration has been making every effort to head off another inflationary spiral.

The steelworkers union, which also scheduled a negotiating session with Youngstown Sheet and Tube Company in Youngstown, O., hasn't specified its demands. But it is believed to be seeking about 10 cents an hour more for workers now averaging from \$2.06 to \$2.20.

If no agreement is reached by June 30 the union is free to strike.

This year USW President Dayld J. McDonald will be conducting his first negotiations for the big steel union. He succeeded Philip Murray, president of both the CIO and the steelworkers, who died several months ago.

An old hand at the negotiating sessions will lead the U. S. Steel team. He is John A. Stephens, vice president of the big corporation.

Similar contract talks will open tomorrow in Pittsburgh with Jones and Laughlin Steel Corp. and in Cleveland Monday with Republic Steel Corp.

Speeding, Transport Of Beer In Dry Area Bring Fines Of \$236

Manuel Lopez Hernandez, believed to be from Lubbock, found Howard county law a little stiff to take Wednesday.

He was fined \$100 and costs in County Court and another \$100 plus costs in Justice Court. The first fine was for transporting beer in a dry area and the second for speeding.

Hernandez was arrested by Liquor Control Board officials J. T. Morgan and Marshall Smith after a 40-minute chase over the north-east part of the county. On arrest it was found he had a load of beer.

The officers were not content to file bootlegging charges alone, but decided Hernandez should also be stuck for speeding. They said their car's speedometer showed 110 miles-per-hour during the chase.

Hernandez pleaded guilty to both charges when brought before the judges. Justice of the Peace Cecil Nabors said maybe the fine would "teach you not to run from officers."

Since cost of County Court is \$23.85 and Justice Court cost is \$12, Hernandez total cost was \$236.85.

Negotiations Are On

TAMPICO (AP)—Officials said today negotiations are on for a 30 million peso (\$3,460,000) fishing industry to be financed by Americans. Permission has been asked to develop a fishing fleet to catch "menhaden," whose oil is valuable.

MISTER BREGER

CATTLE CROSSING

"No, no, dear! Over HERE!"

Midland Sprberry Area Nears Completion, Locations Staked

A completion was reported today in Midland's Sprberry area, while oil shows were made on four other areas. These were also two wildcat locations reported.

Cosden's wildcat venture two miles east of Big Spring — No. 1 Crawford — showed recovery of 50 feet of free oil today on another drillstem test.

New oil was also found on tests of Sun No. 3 McCabe in Mitchell County and Stancoed No. 2 Classen in Dawson County. A show of oil was made while swabbing Sohio No. 1 Yarbrough in Mitchell.

Completed for 213.09 barrels of 37.8 gravity oil was Magnolia No. 2-B Shackelford in the Sprberry Trend Area of Midland.

The Sterling County wildcat is Harry J. Russell No. 1 W. L. Foster, 5 miles southeast of Sterling City. The Borden wildcat is Texaco No. 1 J. R. Canning, 14 miles southeast of Gall.

Borden

Texas Company No. 1 J. R. Canning, 2,850 from south and 3,850 from west of lines, section 221, block 97, H&TC survey, is a wildcat location about 14 miles southeast of Gall. Elevation is 2,329 feet, and drilling will go to 6,200 feet by rotary.

Superior No. 3-518 Jones, C NE NW, 18497-H&TC survey, got down to 4,827 feet in line.

Green No. 1 Slaughter, C NW NW, 24-33-30-T&I survey, has a total depth of 8,364 feet and is preparing to run surveys.

McIntire and Payne No. 1

Forward, 330 from north and west of lines, 10-32-30-T&P survey, is today reported at 7,615 feet in line and shale.

Fred W. Shield No. 1 Bradford, 330 from north and east of line, 1-35-50-T&P survey, was plugged and abandoned at total depth of 4,354 feet in San Andres lime. There were no oil or gas shows. Sulphur water was found at total depth.

Stanold No. 2 Classen, 330 from south and 900 from east of lines, northeast quarter, 95-M-EL&HR survey, was throwing out load oil today, but some new oil was made. The well has a plugged back total depth of 8,675 feet. Perforations are from 8,590 to 8,675 feet. Some load oil must yet be recovered before accurate tests are made.

Magnolia No. 1 Eiland, C NE NE labor 33, league 273, Glasscock CSL, is now down to 6,986 feet in line. A drillstem test was taken from 6,883 to 6,935 feet with the tool open 30 minutes. Recovery was 10 feet of drilling mud and no shows.

Howard

Cosden No. 1 Crawford, C SW SW, 47-32-10-T&P survey, recovered 50 feet of free oil and 50 feet of oil and gas-cut mud Wednesday on its third drillstem test from 6,161 to 7,210 feet. Tool was open three hours and there was a light blow throughout. Flowing pressure was zero, and there was no gas or water. Operator is now drilling ahead. The second drillstem test from 7,160 to 7,185 feet taken Tuesday also had 40 feet of free oil and 110 feet of heavily oil and gas-cut mud, with 90 feet of gas in the drill pipe. Well is located two miles east of Big Spring between Lovens Lane and Cosden Refinery.

Martin

Gulf No. 4-B Glass, C SW NW, 20-28-10-T&P survey, is drilling at 10,659 feet in line and shale.

Phillips No. 1-C Schar, 1,330 from south and 700 from west of lines, section 324, LaSalle CSL, is running logs at 13,127 feet.

Texas Company No. 1 A. H. State, 660 from south and east of lines, northeast quarter, section 12, block 7, University survey, got down to 4,355 feet in anhydrite and lime.

Midland

Magnolia No. 2-B Shackelford, C SE SW, 4-38-50-T&P survey, flowed four hours and potential is estimated at 213.09 barrels of 37.8 gravity oil. Flow was through a 24-54ths inch choke after hole hydraulized with 12,000 gallons. There was no water, and the gas-oil ratio is 507-1. Top of pay is 7,207, total depth 8,215 plugged back depth 7,906 feet, and elevation 2,767 feet. Perforations were from 7,299 to 7,455 feet. The 5 1/2 inch stringer was bottomed at 8,010 feet.

Mitchell

Sun No. 3 McCabe, C NW SE, 24-54ths H&TC survey, flowed 24 hours during a 11-64 inch choke to make 109 barrels of load oil and 29 barrels of new oil. There was no water. Tubing pressure was 4,000 pounds and casing pressure 1,000 pounds. Gas-oil ratio was 1,078-1.

Sohio No. 1 Yarbrough, C NW SE, 67-25-T&P survey, has a total depth of 7,371 feet with 7 inch casing to 7,361 feet. Operator swabbed down on open hole to recover mud and a show of oil. Cable tools are being moved in to continue testing.

Humble No. 1 Turlock, C NW NW, 6-28-10-T&P survey, has a total depth of 3,107 feet where operator bailed dry. The plug is now being drilled.

Humble No. 1 Cooper, C SE NW, 25-18-Lavaca survey, is taking a drillstem test in area of total depth 7,400 feet in line and shale.

Sun No. 2-A Anderson, 1,209 from north and 660 from east of lines, 230-1A-H&TC survey, bored to 4,745 feet in shale today.

Sterling

Harry J. Russell No. 1 W. L. Foster, 330 from south and east of lines, northwest quarter, section 4, block 15, H&TC survey, is a new wildcat location about five miles southeast of Sterling City. It will be drilled by cable tool to 1,500 feet starting Monday. It is on an 80 acre lease.

431 Loads Of Trash Picked Up By City

A total of 431 loads of trash have been moved from Big Spring as a result of the spring clean-up campaign.

R. V. Foresyth, street department superintendent, said this morning two trucks still are removing refuse. Both are making second calls to various sections of the city to pick up trash that wasn't ready for removal on the first go-around.

The city's new fogging machine will be put in operation in the next day or two to distribute insecticide throughout the city, Foresyth reported.

Man Injured While Working In Rail Yard

J. M. Teague, 916 E. 16th, received a painful knee injury in the T&P Railway yards this morning when an air hose coupling came loose on a car.

End of the hose struck Teague on the left knee. He was taken to a hospital in an ambulance, but doctors said there apparently were no fractures. X-ray pictures were to be made.

Dogs Go On Vacation Too

Queen Elizabeth II leads her Welsh corgis on leashes as she walks toward her plane at London's airport for a flight to Aberdeen, Scotland, May 9. The queen plans a complete rest at Balmoral before her coronation. Her children made the trip to Balmoral Castle by train. At right is an aide. (AP Wirephoto).

County Teachers Against Compromise On Pay Issue

Declarations of opposition to any compromise in the teachers' pay battle in the State Legislature have been sent to local representatives, the governor and others by the Howard County Teachers Association, Mrs. M. B. McFall, secretary, reported today.

Telegrams opposing the proposals for substituting a \$300 per year pay hike for the \$600 authorized by the legislature were sent to Rep. Oble Bristol, Sen. Harley Sadler, Gov. Alan Shivers and Charles Tennyson, executive secretary of the Texas State Teachers Association.

The Howard County group also extended Tennyson a vote of confidence for activities in support of the \$600 per year raise. Although the legislature has approved the raise, funds are not now available and at least two compromise proposals are under consideration in Austin.

Glasscock Rain Disappointing

GARDEN CITY — Moisture production from heavy clouds Wednesday and Thursday morning was keenly disappointing to Glasscock County ranchers, but reports indicated that some neighboring counties fared much better.

A slow mist starting at 10 a. m. Wednesday had produced only 2 of an inch of moisture at Garden City and 3 of an inch at St. Lawrence.

However, just across the county line to the west an inch and a half fell, and a fall of two inches was reported in Reagan County to the south.

There were also reports of good rains in Sterling County on the east.

Glasscock County ranchers report that ranges are in need of moisture immediately. Grass which had been revived by earlier showers is suffering and must get new moisture if it survives.

Ranchers say they will be forced to resume full-scale feeding of livestock unless rain is received soon. Stock has been feeding on weeds recently, but these also are depleted.

Woman Charged In Stabbing Released On Bond Of \$500

Christine Green, Negro woman charged with the stabbing of her husband, was released from County Jail today on \$500 bond pending trial.

She pleaded not guilty to charges on arraignment yesterday, and Judge R. H. Weaver set the bond. Her husband, J. W. Green, was taken to the VA Hospital after the incident early Wednesday morning.

Police said Green was stabbed at his home, 303 N. Gregg. The wound is in his chest, but hospital officials said his condition is not serious.

No Damages Awarded In County Court Suit

Jury decision Wednesday in the Howard County Court damage suit between Brooks and Turner Company and Oil Transport Company was that no damages would be awarded.

The case was the last to be heard this week in County Court, other cases having been postponed. Brooks and Turner filed the suit against the other firm as a result of a December traffic accident near Cosden.

The jury decided that drivers of both vehicles were negligent at the time of accident and that damages should not be awarded.

Thieves Are Active Throughout City

Thieves hauled away items ranging from milk bottles to a load of lumber, according to reports, reaching police Wednesday.

Omar Jones, builder, reported theft of a \$200 load of lumber from a storage place at Birdfield Lane and Wood Tuesday night.

Mrs. Thelma Lebkowsky, 407 Pennsylvania, notified police of theft of milk and soft drink bottles from her porch Wednesday morning. She had placed the bottles on the porch in preparation for a trip to the store, and saw five boys in a 1941 Plymouth stop and grab them.

Van E. Chism, of Little Rock, Ark., this morning reported theft of \$90 from his billfold. He said he believed the money was taken from his hotel room during the night.

Theft of a 33-caliber S&W revolver from an apartment at the rear of the Air Castle Cafe also was reported.

Trucker Treated For Injuries In Accident

Johnny Johnson, Lamesa truck driver, was treated at Cowper Hospital this morning for bruises and sprains suffered when his truck was involved in a mishap 10 miles east of Garden City about midnight.

He was brought to the hospital by Buster Cox, Glasscock County sheriff. Details of the accident were not learned here this morning, but it is believed Johnson's truck was the only vehicle involved.

Baptist Worker Conference Is Underway Here

The annual Baptists Workers Conference for District Eight got underway this morning at the Big Spring First Baptist Church with Dr. L. D. Ball of Lamesa presiding.

All associations in District Eight were represented at the opening session. The district is composed of 113 churches in Big Spring, G. A. Y., Lamesa, Mitchell-Secury and Permian Basin Associations.

Although the meeting was scheduled at the Youth Encampment grounds south of the city, cold weather forced the sessions indoors. Lunch today was held at the encampment grounds, however, as will be supper tonight.

Sermons were given this morning by the Rev. Levi Price, pastor of the First Baptist Church in Monahans, and Dr. Arthur DeLoach, pastor of the First Baptist Church in Odessa.

Other sermons were scheduled this afternoon by the Rev. L. L. Trott of the First Baptist Church in Denver City and tonight by Leon Marsh, professor at Hardin-Simmons University.

Theme of the meeting is "More Like the Master—More for the Master." Discussions are scheduled on the Training Union, Women's Missionary Union, church music, Vacation Bible Schools, and district news.

The meeting was opened this morning with a song and devotion by June Hogue, music director at Klondike.

The district workers conference is held annually, and association conferences are held each month.

S. China Farmers Beat Red Reforms

By FRED HAMPSON
HONG KONG (AP) — Farmers in Kwangtung—China's Dixie — appear to have won their own private little fight with the Communists.

The Reds claim they finally have accomplished their land reform program there, but the announcement reads like a page from capitalism.

A 12-point directive, which sounds strangely soft for the Reds, pledges to Kwangtung farmers: private management, private ownership, private employment, private money lending. It promises that no farmer shall be forced into a co-operative or collective movement.

Kwangtung, in teeming, lush South China, is a restless and dangerous land and noted as a political hotbed of the "ins." Sun Yat-sen's 1911 rebellion started there. Chiang Kai-shek licked the war lords from there.

Now the Communists have this tiger by the tail and have "reformed" its land. All winter the Reds have been easing away from their tougher, farm doctrines. Why?

A recent report by land reform inspectors—who investigate after land reform has been carried out—warned Peiping that too much government interference was cutting production. It said that fear of collectives was causing many farmers to stop farming, that newly re-distributed farms were too small for efficiency and that farmers were migrating to the cities.

Last month Premier Chou En-lai directed such migrations should be stopped.

The Communists began their land reform in 1949 and finished in most of China by 1952. But in Kwangtung it dragged along, meeting bloody resistance. In some of the tougher zones there may not have been any land redistribution at all.

Now the "examination of the reform is going on," the Communist news agency reports. The Reds say almost four million acres were confiscated and divided among peasants in an area that contains 32 million people.

The new Red proclamation reassures the new owner that the land is his and that there are no strings attached.

"Safeguarding of private ownership of land, houses, and all kinds of properties is guaranteed," says the proclamation. Even the "re-examiners must not take it away."

The new farmer also shall "enjoy the rights of free operation, management, purchase, sale and exchange of his property without interference."

The directive said farm co-operative movements should be encouraged but "compulsory organization of farm co-operatives or mutual aid teams is strictly forbidden."

Above all the Red proclamation says nothing must be done to interfere with production. Even taxes must not interfere.

The Reds decreed: "Farmers who produce more than the fixed normal yield upon which taxes are based shall not be taxed on the excess."

Tides Measure Is Now Set For Like Signature

WASHINGTON (AP)—Twice-vetted legislation to give states title to oil-rich submerged offshore lands was ready today for the promised signature of President Eisenhower. It cleared its final congressional hurdle yesterday when the House, by roll-call vote of 278 to 116, accepted Senate amendments to an original House measure. That sent it to the White House, where popularly called "tidelands bills" have gone before.

In 1948 President Truman vetoed a similar measure, as he did again in 1951.

The five-year issue figured prominently in the 1952 presidential campaign, during which Eisenhower promised to support the coastal states' claim to the offshore land and its rich mineral resources.

Final House action found 194 Republicans and 64 Democrats supporting the bill. Opposing it were 98 Democrats, 17 Republicans, and 1 Independent.

Opponents have served notice the measure's validity will be challenged in court. The Supreme Court has held in three suits that the federal government has a paramount right over the submerged lands off the coasts of Texas, California and Louisiana, although it has not passed specifically on the question of title to the area.

The Senate had deleted from the House bill a section in which federal control over the continental shelf was asserted over beyond the states' seaward boundaries.

By accepting the Senate amendments, the House was able to send the bill directly to the White House and thus avoid possible further delay in the Senate.

Just before disposing of the states ownership bill yesterday, the House voted 308-91 to pass a separate measure which would assert federal control over the entire continental shelf and authorize development of the territory. This was the intent of the section which the Senate struck from the states' ownership bill.

The measure sent to the White House would fix state coastal boundaries at three miles generally and 10 1/2 miles for the Texas and Florida Gulf coasts.

Rosy Prediction Is Made For Oil Industry

TULSA (AP)—One of the nation's top oil men opened the international petroleum exposition today with a rosy prediction for the oil industry.

Charlton Lyons of Shreveport, president of the Independent Petroleum Association of America, said the 100 million dollars worth of machines and equipment on display gave promise of increased production and a higher quality product.

Only one per cent of the United States has been explored and developed for petroleum, Lyons stated in a prepared address, leaving a billion acres favorable for oil recovery untouched.

"The acreage to be explored and developed is thus 100 times larger than all of the oil and gas fields which have been found in the United States since oil was discovered in 1859."

New oil searching techniques such as those demonstrated here constantly change the estimate of petroleum reserves, he said.

Past estimates of reserves have been based on the technology of the time, Lyons explained, with the hope of prediction being in failing to consider the development of new techniques.

"If ever petroleum is supplanted as a primary energy, it will be used in vast quantities for chemicals, plastics, medicines and a thousand other purposes," he concluded.

Two Owners Seeking To Abandon Railroad

DALLAS (AP)—The new president of the Wichita Falls and Southern Railway says the new owners want to abandon the line.

Hayden Head of Austin, said an application will be filed next week with the Interstate Commerce Commission. The freight line from Wichita Falls to Dublin is 176 miles long. It was established in 1909.

Heinz of Frank Kell said the property recently had been losing money for years. Head said the Rock Island might buy part of the line from Wichita Falls to Breckenridge.

Two Couples Free On Bond; Accused In Swindling Case

DALLAS (AP)—Accused of swindling and conspiracy to defraud, two couples were released yesterday after a hearing.

Mr. and Mrs. William Estep of Abilene and Mr. and Mrs. Nick Faulkner of Dallas were accused in connection with sales of a machine purported to have health-giving properties. Each had been held on \$1,500 bond.

Justice Pierce McBride released them on their own recognizance.

Dr. Ralph Clayton said the machine, called an "atomotone," consisted of a plywood box, neon tubing, a sun lamp bulb and two water containers.

Clayton said an electrical connection on the machine meant nothing and that in his opinion water placed in it remained the same after "treatment."

Man Held In Theft Of Salvation Army Tools

Held in city jail following his arrest this morning is a man accused of stealing quantity of carpenter's tools from the Salvation Army.

He was arrested by Patrolman Aubrey Standard about 8 a. m. after he tried to sell the tools at a place on West Third Street. Police said a square, level, two chisels, a drill-bit and some hammers were stolen from the Salvation Army last night.

The prisoner is to be transferred to county authorities on theft charges.

Funeral Rites Held

BROWNWOOD (AP)—Services were held today for Mrs. Ellen Anderson McGee, 81, who died yesterday of injuries received in a wind storm May 5. Mrs. McGee, the oldest native of Brown County, was feeding chickens when a whirlwind struck a tree on her home place near the community. The tree fell on her.

Regalia of the peers at a British coronation include a fur cape on which are two rows of ermine for barons and viscounts, three for earls, three and a half for marquesses and four for dukes.

DROUGHT

(Continued From Page One)

were in flood stage for a while Wednesday and caused light damage. The crest had moved down Thursday to where the Leon and Lampasas Rivers form the Little River. The Army Engineers said some light flooding was expected in the Cameron area Thursday.

A slight flood crest on the east fork of the Trinity reached Lavon Thursday and will move into the Rockwall area late Thursday or early Friday. Most Rockwall areas are protected sufficiently by levees. Some lowland flooding was expected.

Army Engineers said slight flooding will continue on the Trinity around Liberty for some time. Slight flooding also is expected on the Sabine, which last week threatened Deweyville and forced evacuation of some families there, but Weather Bureau forecasts were for lower stages on the Sabine than last week.

Rain continued in Texas today but the main rain area was moving eastward and out of the state.

Showers were general throughout the state during the night. In Central, East, South and North Texas reservoirs, lake and stock ponds were catching the runoff. Showers were lightest in the Panhandle and Northwest Texas.

A gently rising Rio Grande encouraged citrus and vegetable farmers in the Lower Valley, where irrigation had been sharply curtailed because of the border

Death Sentence Is Given In Murder Case

AUSTIN (AP)—Morris Addison, 26, Negro, was sentenced yesterday to the electric chair for murder in the slaying of a former University of Texas student Jan. 30.

He was convicted for the death stabbing of Thomas Hogan, 23, on an Austin car lot after an argument.

A Negro porter, Virgil Oliver, 62, was one of the jurors. Defense Attorney Henry Doyle said he believed this was the first time in the South a Negro has been chosen as a juror in a case in which another Negro was charged in a capital offense, involving a white man.

Woman Missing On Hunt Is Being Sought

MT. PLEASANT (AP)—A woman who telephoned her husband yesterday she was going squirrel hunting was still missing today despite an all-night search of a wooded area by 50 volunteers.

Mrs. Cliff Whittington, 35, an expert with her 20 gauge shotgun, was believed to have gone near the Hoffman Lake Club five miles north of here.

The search was begun when Whittington's grocery clerk, found she had failed to return home by dark. About 50 men scanned the area until 5 a. m. when they returned to rest and reorganize.

MARKETS

WALL STREET (AP)—The stock market was sharply higher today. The Dow Jones Industrial Average rose 12 1/2 points to 164.44. Other stocks included: Pacific, American Gas, Coca-Cola, Santa Fe, Southern Railway, Gulf, General Electric, Westinghouse, and John-Manville.

COTTON (AP)—Cotton was 30 cents higher today. The market was active today. New York 27 1/2, 28 1/2, 29 1/2, 30 1/2.

LIVESTOCK (AP)—Cattle 1,600; spots killed on the market. Choice 12-14, 15-16, 17-18, 19-20, 21-22, 23-24, 25-26, 27-28, 29-30, 31-32, 33-34, 35-36, 37-38, 39-40, 41-42, 43-44, 45-46, 47-48, 49-50, 51-52, 53-54, 55-56, 57-58, 59-60, 61-62, 63-64, 65-66, 67-68, 69-70, 71-72, 73-74, 75-76, 77-78, 79-80, 81-82, 83-84, 85-86, 87-88, 89-90, 91-92, 93-94, 95-96, 97-98, 99-100.

NORTH CENTRAL TEXAS—Cloudy and cool this afternoon and tonight. Friday partly cloudy and warmer.

WEST TEXAS—Cloudy to partly cloudy this afternoon, tonight and Friday. Warm and clear in Panhandle and South Plains.

EAST AND SOUTH CENTRAL TEXAS—Cloudy and cool, occasional rain in early evening. A little warmer, moderate to fresh northerly wind on the coast.

KOREA

(Continued From Page One)

would be unlikely to agree if the negotiators themselves could not.

The Allies have insisted that the Red plan would give the prisoners a choice of only forced repatriation or indefinite imprisonment.

Harrison told the Reds "their faces and voices would change, but the master behind them would not change."

Harrison snapped at the Communist opposition to release of the 34,000 North Koreans immediately after an armistice, pointing out that the Reds said early in the war they released thousands of prisoners at the front.

He said many of these were actually impressed into the Communist Army, disregarding the whole basis of the Geneva Convention and reducing warfare to "a new viciousness." At that, Nam turned to an aide and laughed.

He hinted that a way out of the stalemate in negotiations might be found by going back to earlier proposals and a single neutral state take custody of prisoner's refusing to go home.

Noting objections to restrictions placed on the Red "explanations"—mainly that there be no coercion—Harrison asked:

"If you think these restrictions are unsatisfactory, why not follow our suggestions and let the custodial commission or a single neutral do all the explaining?"

The Reds insist that their "explanations" can cure "apprehensions" of all Red prisoners who now say they don't want to go back.

LOOKING 'EM OVER

With Tommy Hart.

Dwight (Rip) Collins, who played second base for the Midland Indians, was recently elected to the town council in Okemah, Okla.

Mickey Owen, who led a controversial big league career, says when the Paquels waved bundles of the green stuff in front of him and other major leaguers, they didn't even use their own money to operate the legu.

No athletic facility in town is being used like the new tennis courts (or rather old ones re-done) located just west of Steer Stadium.

At the rate the youngsters are using them, Big Spring High School should not want for top contenders in the sport in two or three years.

As good a backfield prospect as he is, young Tommy McAdams of Big Spring High School may emerge as an even better defensive player. The young sophomore was used principally on defense in the intra-squad game last week end, and punished opposing backs with some crunching tackles.

Downfield blocking of the Steers continues to improve.

Experienced linksters, those who have played golf long enough to know about such things, now say it's better to wear a complete glove than one without fingers. I wouldn't know why.

Thirteen swimming pools are being built by the City of Houston, which will bring to 19 the number municipally operated there.

Remember Erroy (Crazy Legs) Hirsch, the pro griddler who showed films here for a beverage concern last year? He's having a movie made of his life. It'll be released shortly before the All-Star game this year.

Did you know? Cock fighting is legal when no admission charge is made and when gambling is not connected with it. It's permissible to keep one on hand.

BAYLOR COULD TAKE IT ALL THIS YEAR
Baylor University may field one of the truly great backfields in college football this fall.

That quartet would be Cotton Davidson, Jerry Coody, L. G. Dupre and Allen Jones.

It has speed, power, deception and know-how. This could be the year for the Golden Bears to go all the way.

Dick Tross, who was tried by several Longhorn League clubs and found wanting, may have found himself a home. He recently pitched Galveston to a 6-3 win over Port Arthur, going all the way.

A sore arm plagued him in this circuit.

Broncs And Carlsbad Play Double Bill

It'll be like spring training all over again, if the elements don't relent and let the Big Spring Broncs get on with their baseball campaigning.

The opening game of the Carlsbad-Big Spring set here, scheduled for last night, was set back due to the cold weather, which had caused the Ardeña-Bronc game the night before to be postponed.

Two seven-inning games are on tap tonight, the first of which begins at 7 p.m.

The Broncs and the entire Longhorn League have so many post-

Nelson Fires 66 In Tuneup

By WILL GRIMSLEY

WESTBURY, N.Y. (AP)—The forgotten man of the \$17,500 Round Robin Golf Tournament, opening today at the Meadow Brook Club, is U. S. Open Champion Julius Boros.

The quiet-spoken son of Hungarian immigrants who dethroned Ben Hogan last year at Dallas is in the throes of a gigantic slump. His irons are off and his putting is miserable.

"I don't know what's the matter," the bronzed Mid-Pines, N. C., professional said. "I'm hitting some good shots but I just don't seem to be putting them together."

The Open champ hasn't been too active competitively. He's been using a lot of his time playing exhibitions and collecting on his big triumph. His game has lost much of its sharpness.

Sam Snead is defending champion in the four-day, 90-hole grid over the 6,548-yard, par-70 course. Snead is in a star-studded first round bracket which included Lloyd Mangrum, the year's leading money winner; Byron Nelson, former kingpin of the pros who seems to have regained some of his old time form; and Boros.

Nelson shot a 66 in the pro-amateur celebrity event, sharing the 3-4 lead with Bobby Locke. Three pros had 67. They were Jim Turnesa, the PGA champion who had a hole-in-one on the 11th; Jack Burke Jr., and Cary Middlecoff. Snead had a 70. But the scores don't count until today.

Twins, McAlester Win Loop Tests

By The Associated Press

The Sooner State League's one-two punch, Sherman-Denison and McAlester, both won their loop tests Wednesday night in a schedule abbreviated by rain and cold weather.

There were two postponements. Gaineville at Pauls Valley and Lawton at Ada.

At Sherman-Denison, a couple of old high school pitching rivals were lined up. George Tucker had buried for Denison and Bob Leach for Sherman. Last night, Leach was on the mound for the Twins while Tucker served his slants for the Ardmore Indians.

Leach set the Indians down with two hits, winning a 3-0 shutout. He banded in two runs in the second with a single to help his own cause.

The McAlester Rockets kept pace with the Twins, but remained three games behind. The Rockets defeated Shawnee, 6-2. Lefty Charley Kaden spun a nifty five-hitter for McAlester.

Local Entry

Representing Big Spring in the Midland Women's Invitational Golf Tournament now underway is Lois Hodges (above), who qualified Wednesday with a 93. Her first round opponent was to be Nell Moody, Sherman. Billie Dillon, Big Spring, also rated the title flight.

Texas Aggies Try Longhorns In Two Games

By The Associated Press

Texas and Texas A&M meet Thursday and Friday in College Station to determine whether or not Texas gets a share of the Southwest Conference baseball title.

If the Longhorns win both games they can the Southern Methodist for the title. The Aggies are out of the running in fourth place, but would like to beat Texas for the fun of it.

Texas Coach Bibb Falk will ask coaches of three other Southwest Conference schools to pick the league NCAA playoff representative if Texas wins the two games and ties the Mustangs.

Falk is chairman of the NCAA selection committee for the conference this year.

"I couldn't serve because I'm involved, so I've asked Pete Jones of Baylor and Dell Morgan of Rice to serve on a committee. And I'm going to ask Beau Bell of A&M when we go over to College Station," Falk said Wednesday.

SMU has completed conference play with a 12-3 won-lost record. Texas already has lost three games, so the Mustangs are assured of at least a tie.

The selected team has to beat Arizona, the Border Conference champion in the District 6 playoff before getting a chance at the NCAA tournament in Omaha, Neb., June 11.

Dates of the district playoff at Tucson, Ariz., have not been set. A two-game series between Texas and Baylor was postponed because of wet grounds in Fort Worth. It was not decided whether or not the games would be played. They would not affect the conference championship race.

Bucco Official Arrives In Waco

LONGVIEW (AP)—Plans for possible relocation of the Waco baseball franchise in the Big State League were under discussion here.

Waco lost its ball park in a tornado Monday. Harold Roettger of the Pittsburgh Pirates organization, said he will talk to authorities in Waco. He was here to discuss the Longview offer to take over the Waco franchise if Waco can't find another ball park.

Bi-District Go

AMARILLO (AP)—Amarillo and Ysleta begin a bi-district Class AA schoolboy baseball series in El Paso Saturday with the winner going to the state tournament in Austin, June 3-5.

Texas Conference To Launch Meet

ABILENE (AP)—The Texas Conference spring athletic meet was set to open today with golf and tennis competition.

Howard Payne was out to break the three-year rule of Abilene Christian in the track division. Finals are scheduled tomorrow night.

A dinner meeting is set tonight for coaches and athletic directors of the conference.

Ray Jablonski, rookie third baseman for the St. Louis Cardinals, was the International League's "Rookie of the Year" in 1952.

Hodges, Dillon In Title Flight

MIDLAND (AP)—Two Big Spring residents and two who formerly made that city their home won their way into the championship flight of the annual Midland Women's Invitational Golf Tournament here Wednesday.

Billie Dillon and Lois Hodges are the Big Spring linksters competing. Gloria Strom Exell, now of Midland, and Odessa's Inez-Roden, both of whom formerly lived there, also qualified.

Mrs. Ezell is the favorite, although Sybil Flourney, Midland, won medal honors with an 82. Mrs. Ezell shot an 84.

Mrs. Dillon was to play Mrs. Minnerly, Midland, in the first round today. Mrs. Dillon qualified with an 86, Mrs. Minnerly a 94.

Mrs. Hodges was to meet one of the favorites in the meet, Mrs. Nell Moody of Sherman. Mrs. Hodges qualified with a 96, Mrs. Moody with an 85.

Mrs. Flourney was to square off with Elma Shows, Odessa. The latter posted a first round 92.

Other championship pairings, complete with qualifying scores: Jane Bauchans, 87, Midland; vs Hene Hood, 94, Midland.

Madeline Pomeroy, 91, Midland; vs Inez Roden, 96, Odessa.

Gloria Ezell, 84, Midland; vs Jo Meyer, 93, Midland.

Wolves' Grid Drills To End

COLORADO CITY (AP)—Colorado City's Whites will play the Blacks Thursday night in an intra-squad football game that will wind up spring training for Colorado City's gridsters, according to Coach Dilard Adair.

Admission was set at one bar of soap, according to Adair.

In a game last week, the Whites defeated the Blacks, 12-6.

Lineup for the Whites includes Joe Shoemaker, Hubbard Ferrell, Don Flippen, Randall Oliver, Billy Simmons, Weldon Ennis, Windy Howell, Jimmy Shurtreff, J. D. Chandler, Bud Windham, Charles Small, Subs are Don Fite, Bob Williams, Joe Howell, Tommy Webb, Ronald Steward, William Exell, Larry Gaylor, Jimmy Wood, Tommy Fuller and Reid Biggs.

Black starters are Arlis Parkhurst, J. B. Padgett, Billy Bridgford, Drew Cawthron, Henry Lobb, Darrell Smith, Hubert Bassinger, Billy Williams, Hollis Galney, Tommy Jameson and Don Owens.

Subs: Tommy Shelly, Frank Mackey, Charles Black, Jimmy Johnson, Jimmy Hock, Jesus Valdes, and Richard Gale.

Coaches are Adair, Bob Rely, and James Mancill.

McClain Signed By Potashers

Jake McClain, returned to Abilene by Big Spring and then released by the Blue Sox, has been signed as a free agent by Carlsbad.

Jake will appear in the Potashers' lineup in the current series with Big Spring.

UH Gets Athlete

MINEOLA (AP)—Joe Bob Smith, star athlete in football, basketball and track at Mineola High, said yesterday he would enter the University of Houston in September.

Top Stars Enter Meet In Houston

HOUSTON (AP)—One of the outstanding arrays of sprint stars in Southwestern track and field will be here May 30 for the Texas AAU meet.

Charles Thomas, Dean Smith and Joe Childress of Texas Bobby Ragsdale of Texas A&M, and Frank Daugherty of Olton, the current high school sprint sensation, head this array.

Darrow Hooper, Texas A&M's Olympics weight star, and Walter Davis, winner of the Olympics high jump, will compete.

Some of the top schoolboy stars will be here, including Roy Thompson of Lamar (Houston), who broke the National Scholastic record in the 180-yard low hurdles in the Texas Interscholastic League meet with a time of 18.9.

Winners here will be sent to the National AAU Meet in Dayton, O., in June.

The Texas AAU has been held at San Antonio the past six years but was transferred here this time.

TOWRY, ANDERSON ARE NAMED TO ALL-STARS

BEAUMONT (AP)—The North squad that will appear in the annual All-Star basketball game of the Texas Coaching School was announced today to include six All-State players.

Roland Warren of Brownwood, chairman of the selection committee, announced the 12-man squad that meets a South squad in a feature of the coaching school at Houston in August.

All-Staters on the North squad are Nick O'Neal of Poly (Fort Worth), Fred Woods of Pampa, Stanley Arrington of Bowie, Dean Morrison of White Oak, Johnny Seamus of Blum and Charles Ward of Denver City.

Other players selected were Raymond Towry of Vernon, Carl Anderson of Sweetwater, Mervin Wright of Amarillo, Delbert Shofner of Center, James Skinner of Irving and Willburn Coleman of Springtown.

Everette Shelton of Wyoming will coach the squad.

Buster Brannon of Texas Christian University will coach the North squad, members of which have not yet been selected.

The most home runs ever hit by a Boston Red Sox player was 50 by Jimmy Foxx in 1938.

AL COSTA IS TRADED

Andy Alonso Is Acquired By Broncs From Roswell

The Big Spring Broncs and Roswell's Rockets completed a major trade this morning.

Al Costa, classy veteran infielder for Big Spring, was swapped to the Rockets for three players.

In exchange for the Cuban shortstop, Big Spring got Andy Alonso, a pitcher from Panama; Armando Lopez, rookie pitcher; and Frank Casanova, limited service catcher-third baseman.

Alonso won 18 games and lost 12 for Roswell last year as a rookie. His earned-run-average was 4.32. He walked 101 and struck out 152.

Bill Frank, general manager of the Broncs, said, in announcing the trade, that Alonso was potentially "a 20-game winner."

Frank added he disliked giving up a player like Costa but felt like the team needed pitching more than it did any other thing.

He said Jess Jacinto would be moved from second base to shortstop and Manny Tennes, newly acquired from Pampa in a trade for pitcher Ray Machado, would play second base.

Casanova will spell Al Valdes.

State Shoot Opening In Fort Worth Today

FORT WORTH (AP)—The first shot heard 'round Fort Worth will be fired Thursday noon when the 74th annual state shoot of the Texas Trap Association opens.

More than 300 entries from 20 states will set a new record for competition. The shoot will run four days with firing on Friday, Saturday and Sunday, beginning at 9 a. m.

A list of top shooters expected to compete includes: Mercer Tennesse of Shreveport, La., national doubles champion at the Grand last year; Mrs. Francis King of Miami, Fla., national women's champion; Julius Petty, Arkansas State singles champion and Mrs. Petty, women's champion of champions at the 1952 Grand; Bob Allen of Des Moines, Iowa, national doubles runner-up in 1952.

The defending champions in all classes, all expected to appear, are: J. P. Morrison of Fort Worth (doubles, preliminary doubles, Class A singles); Ed Green of Dallas (state singles); Mrs. James Horton of Eastland (women's singles) and A. Sluder of Fort Worth (state handicap).

Games Cancelled

FORT WORTH (AP)—Baylor and TCU have agreed to cancel Southwest Conference baseball games scheduled here Monday and Tuesday and postponed by rain. Neither team had a chance at the title, Baylor being third and TCU last.

Exes' Tackle

John (Junior) Suter will play tackle for the Exes, who meet the 1953 Steers in a football game at Steer Stadium, starting at 5 p. m. today. The contest winds up spring drills for the Longhorns.

STEERS AND EXES COME TO GRIPS ON GRIDIRON

Spring football drills grind to a halt for the Big Spring High School Steers this afternoon, at which time Carl Coleman's Steers tackle a team of Exes.

Roy Baird, coach of the Seniors, has assembled a rugged lineup to test the Longhorns.

The Exes have been in training under Baird only since Monday but most of the boys have been participating in other sports and were already in fair physical trim.

Raymond (Gitz) Gilstrap a fiery performer and a natural leader, will perform at end and as a line-backer for the Exes. He'll be aided and abetted by such stalwarts as Bobby Hayworth, who'll direct the Seniors' attack; Doyle May-

occasionally behind the plate but can't play anywhere.

Frank also announced that Gih Phillips, reserve catcher, had been returned to Mattoon of the MOV League. Phillips was a limited-service catcher who had seen only

occasional action here as a pinch hitter and left fielder.

Big Spring has also obtained a rookie outfielder from Abilene by the name of Curt Borrett. He may be used in left field.

Milwaukee Showing Baseball Highlight

By BEN PHLEGAR, Associated Press Sports Writer

It's about time the travel agents of the nation paid a special tribute to the Milwaukee Braves. Where could they find a better example of the benefits to be obtained by a change of scenery?

The 1,000-mile westward shift from Boston to Milwaukee has worked wonders for the once-down-trodden ball club that finished a dismal seventh in the National League last year.

A quick glance at today's standings shows the Braves only a half a game out of first place. They have seven more games on their present home stand at their new five million dollar stadium, where they have won seven out of eight.

The fans are clamoring at the gates. In seven home dates the club has drawn 172,781 cash customers. Last year's total attendance in Boston was 281,778.

Yesterday, with the thermometer shivering at 39 degrees, 9,043 fans turned out to watch their Braves smother the New York Giants, 11-1.

Manager Charlie Grimm has been fortunate to come up with a trio of red-hot newcomers in pitchers Bob Buhl and Don Liddle and outfielder Bill Bruton. But his old Boston lineup has become revitalized as well.

The Braves had only one pitcher—Eddie Johnson—who finished last year with an average as high as .500. Yet nine of their 13 victories this season have been registered by last year's mound staff.

Lou Burdette, yesterday's winner, has shown remarkable improvement. Working as a long-distance relief man, Burdette has pitched 17 1/3 innings in three games, has a 2-0 record and a 2.12 earned run average.

He came in at the start of the third inning against the Giants after starter Johnny Antonelli had injured a finger on his pitching hand and stopped New York on four hits. In his previous appearance he relieved Antonelli with two out in the first inning at Brooklyn and went the rest of the way to beat the Dodgers handily, something the Braves did only three times last year.

Milwaukee moved into second place over Brooklyn, which was frozen out of its scheduled game at Chicago. Rain and wet grounds also caused the postponement of the other two National League contests—Pittsburgh at Cincinnati and Philadelphia at St. Louis.

In the American League the New York Yankees won their third straight over Cleveland, 9-4, dropping the Indians into third place. Boston whipped Chicago, 3-0, and Philadelphia broke its seven-game losing streak at the expense of the St. Louis Browns, 2-1. A night game at Washington between the Senators and the Detroit Tigers was rained out.

Shut out on one hit the previous night, Cleveland came up with

Small Fry Brave Weather To Play

A little thing like cold weather isn't stopping the kids from playing baseball these days.

Schedulers of the Little Leagues and Pony League are being met, despite the frigid temperatures.

Tonight, the Oilers and the Eagles have at it at 6 p. m. followed by a game between the Engineers and the American Legion.

National League play got under way last night and the Yankees and Flicks achieved victories.

The Yanks rallied behind the no-hit pitching of Kenny Johnson to bury the Gold Sox under an 18-0 score.

The Sox blasted enemy pitching for 21 hits, including three each by Dan Stanolind, Elton Kelly, Jimmy Tucker and Johnson.

The Flicks' outlasted VFW, 14-10, in the other joust.

Steve Kornfeld, Junior Suter, Bill Dorsey, Charley Rose, Donald Mack Richardson and others.

Against all that, Coleman can field a team that gives promise of being one of the greatest Big Spring clubs in recent years, if not in history.

occasional action here as a pinch

hitter and left fielder.

Big Spring has also obtained a rookie outfielder from Abilene by the name of Curt Borrett. He may be used in left field.

Rock May Make Less Than Joe

By CHARLES CHAMBERLAIN

CHICAGO (AP)—Aside from brief road work, Jersey Joe Walcott planned to spend much of today reading his Bible while Rocky Marciano catnapped peacefully in a South Side retreat.

This was the placid sort of atmosphere that engulfed the two fighters the day before their heavyweight championship bout in Chicago Stadium.

In contrast were officials of the Club. They were sweating out a hoped-for ticket sale of \$500,000 and needed to dispose of about \$125,000 before fight time tomorrow night to make it.

A spokesman said he was confident the indoor record gate of \$422,918 for the 1947 Rocky Graziano-Tony Zale clash in Chicago Stadium would be topped. But 5,000 seats at the \$50 top and 1,900 at \$30 still lacked buyers.

Only half of an expected \$100,000 out-of-town sale has been realized.

The second meeting of Walcott, boxing's most famous antique, and Champion Marciano, will be televised over NBC to home viewers nationally with the Chicago and Milwaukee areas blacked out. It will be broadcast to all points on the ABC network. Fight time is 9 p. m., Eastern Standard Time.

Marciano will receive a straight 30 per cent of the gate, the \$300,000 for TV and radio rights and royalties accruing from third-dimensional films. Walcott has settled for a \$250,000 guarantee with an additional 30 per cent of the movie receipts. Unless there is a complete sellout he will get more than the champion.

"The third-dimensional royalties could amount to nothing or as much as two million dollars," said an IBC spokesman. "It depends on what kind of a fight it is."

The third meeting of Walcott, boxing's most famous antique, and Champion Marciano, will be televised over NBC to home viewers nationally with the Chicago and Milwaukee areas blacked out. It will be broadcast to all points on the ABC network. Fight time is 9 p. m., Eastern Standard Time.

STANDINGS

Table with columns: Team, W, L, Pct., GB. Includes Longhorn League and Wednesday's Results.

Small Fry Brave Weather To Play

A little thing like cold weather isn't stopping the kids from playing baseball these days.

Schedulers of the Little Leagues and Pony League are being met, despite the frigid temperatures.

Tonight, the Oilers and the Eagles have at it at 6 p. m. followed by a game between the Engineers and the American Legion.

The Flicks' outlasted VFW, 14-10, in the other joust.

Steve Kornfeld, Junior Suter, Bill Dorsey, Charley Rose, Donald Mack Richardson and others.

Against all that, Coleman can field a team that gives promise of being one of the greatest Big Spring clubs in recent years, if not in history.

The Steers will build their hopes around the running of J. C. Armistead, Billy Martin and Brick Johnson and the passing of Frank Long and Robert Angel, plus a rock-ribbed defense.

Carlsbad Boss

Pat McLaughlin (above) is manager of the Carlsbad entry in the Longhorn League, which is awaiting its series opener with the Big Spring Broncs here. The two teams are booked to play tonight, weather permitting.

Willie Pep Wins In Fort Worth

FORT WORTH (AP)—Willie Pep, with a black eye and about \$6,000 for outpointing young Jacky Blair of Dallas in a nationally-televised 10-round fight, departed for New York today to start training for a bout in Madison Square Garden.

Pep, 30, gained a unanimous decision last night as his speed and experience gave him all except one round over the tough and willing Dallas puncher. The former world's featherweight champion was the aggressor virtually all the way, opened cuts over Blair's left eye, bloodied his nose and had him staggering once.

Blair fought gamely and had his moments but he never was in the fight after the first round. A left hook put Pep down in the last round but Willie was up without a count and flailed Blair with rights and lefts.

A crowd of 3,013 paid \$10,672. Promoter Lou Gray asserted the card would end up losing about \$6,000.

Pep, who weighed in at 129 1/2 and fought as a lightweight, said Blair, the rugged 131-pounder, was a "good, tough boy. He's a good fighter. He never backed off. He gave me trouble a few times, Blair's as good as any. He may not lick them all, but he'll give them all trouble."

Told Blair was Texas lightweight champion, Pep grinned and said "we'll let him keep that title; all I want is the featherweight championship."

Pep didn't know whom he was to meet in Madison Square Garden but said he was to fight there June 5. He's campaigning to succeed Sandy Sadler, the featherweight king now in the Army. Pep twice was champion. He lost it both times to Sadler.

Small Fry Brave Weather To Play

A little thing like cold weather isn't stopping the kids from playing baseball these days.

Schedulers of the Little Leagues and Pony League are being met, despite the frigid temperatures.

Tonight, the Oilers and the Eagles have at it at 6 p. m. followed by a game between the Engineers and the American Legion.

The Yanks rallied behind the no-hit pitching of Kenny Johnson to bury the Gold Sox under an 18-0 score.

The Sox blasted enemy pitching for 21 hits, including three each by Dan Stanolind, Elton Kelly, Jimmy Tucker and Johnson.

The Flicks' outlasted VFW, 14-10, in the other joust.

Steve Kornfeld, Junior Suter, Bill Dorsey, Charley Rose, Donald Mack Richardson and others.

Against all that, Coleman can field a team that gives promise of being one of the greatest Big Spring clubs in recent years, if not in history.

The Steers will build their hopes around the running of J. C. Armistead, Billy Martin and Brick Johnson and the passing of Frank Long and Robert Angel, plus a rock-ribbed defense.

Carlisle (Frosty) Robison, a converted lineman, will do his share of ball-carrying and passing, too.

A number of college coaches are due to be on hand to see, both the Exes and 1953 club in action.

AUSSIE ADDED TO TOURNEY

FORT WORTH (AP)—Peter Thompson of Melbourne, Australia, runner-up in the British and Australian Opens last year, was added to the field of the \$25,000 Colonial National Invitation Golf Tournament today.

Thompson replaces Joe Kirkwood Jr., who withdrew due to movie commitments (he is Joe Palooka of the films).

The field for the tournament, scheduled May 21-24, will have 48 players with the acquisition of Thompson. The Australian will arrive tomorrow to begin practicing.

Thompson has played in three tournaments in the United States this spring and in the Pan-American Open at Mexico City. He had planned to leave this week for England, but after receiving the Colonial bid indicated he would remain in this country to compete in the National Open and possibly other tournaments.

Thompson was 12th in last week's Greenbrier Open, fifth in the Pan-American, tied for 12th in the Virginia Beach Open and tied for 28th in the Masters.

The Colonial field will be: Professionals Stewart (Skip) Alexander, Jerry Barber, Al Be-

Texas Leaguers Remain Indoors

By The Associated Press

For the second night the Texas League had heavy rain and cold weather keep the eight clubs idle in their hotel lobbies.

San Antonio at Dallas suffered twice as much for they had a double-header rained out. Houston at Fort Worth, Beaumont at Oklahoma City and Shreveport at Tulsa all had singles washed out.

The clubs will swap cities and try again Thursday. San Antonio moves to Fort Worth and Houston travels to Dallas. In the other switch Shreveport will go to Oklahoma City and Beaumont to Tulsa.

Conference Meet Opening Today

FORT WORTH (AP)—The Southwest Conference spring meet opens today with the athletic program hindered by heavy rains.

Athletic directors and coaches will discuss their problems and make recommendations to the faculty committee, governing body of the conference, which meets tomorrow.

There's a law against this...
 DON'T take chances! Out-of-line or unbalanced wheels cause hard steering and "road wander"—dangerous in emergencies. Unbalanced or misaligned wheels are expensive, too, because they grind rubber off your tires, cutting down mileage. They can ruin steering and wheel assemblies. Come in today and let our service department check your wheels with our precision John Bean Wheel Alignment and Balancing System. Savings in tire and chassis wear will more than pay for the job.

Three Negroes Gain Public Posts In Atlanta City Vote

ATLANTA (AP)—Atlanta, a Democratic stronghold for many decades, gave public posts to three Negroes in a primary which set a precedent by omitting the label of "Democrat."

Mayor William B. Hartsfield, president of the American Municipal Association, was re-elected to a fifth term yesterday. His opponent, Charlie Brown, former Fulton resident, Hartfield's 32,253 to 25,114 margin of victory was due to "Negro bloc voting."

Dr. Rufus G. Clement, Negro president of Atlanta University, defeated his white opponent, J. H. Landers, in a race for a school board post held by Landers for 26 years. The vote was on a city-wide, not ward basis and gave Clement 22,142; Landers 13,800.

Not since Reconstruction days had a Negro tried for election to the Atlanta board of education. Negroes also won a measure of political recognition in election for the first time—of two Negroes—A. T. Walden and Miles Amos—to the 16-member City Executive Committee, which governs elections.

The contests actually were decided in a Democratic primary with the label of "Democrat" removed. This forestalled complications that might have arisen because of the fact that so many electors voted Republican in the 1952 general election.

Wake Up To More Comfort Without Nagging Backache

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday conditions, such as stress and strain, cause this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent urination. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 1 million of kidney tubes and filters flush out waste. Get Doan's Pills today!

Buildings Unsafe

FT. WORTH, Tex. (AP)—Within a four-square-mile area of downtown Waco, Tex., ripped by Monday's tornado, 25 per cent of 415 buildings are unsafe for occupancy, a team of Army Engineers reports.

Scouts To Join In Armed Forces Day Celebration

Local Boy Scouts will participate in the Armed Forces Day celebration here, it was announced today by Bill Sheppard, district Scout chairman.

The Scouts will march in the Saturday morning parade and take a guided tour of Webb Air Force Base, he said. Cub Scouts will also take a guided tour of the base.

M-Sgt. J. W. Tipps, local scoutmaster, will be in charge of the parade. He said all Scouts will meet at 8:30 a. m. Saturday at the corner of 7th and Lancaster.

They will start marching there behind the High School band, he said. The parade will break up at 3th and Main. Tipps asked that Scouts' parents have transportation on hand at the breakup point to take the boys to the base.

All Scouts in the city are urged to attend the parade, he said, whether the troops are active or not. All that is necessary is a uniform. Those not having full uniforms may wear shirts, hats and ties, he said.

Tipps asked that parents take the scouts to the east entrance of Webb. Direction will be given from there, and the tours will start at the firing range. The tours will begin right after the parade.

Cubs will meet at the base at 10 a. m. to begin their tour. Sheppard pointed out that base personnel have been assigned to the Scouts. Facilities and operations will be explained to the boys as the tour is made.

Scoutmasters are to meet Friday evening at 5 p. m. in the local Scout headquarters at 4th and Scurry to discuss the parade and tours.

Our White Cling Cap

Radiation In Air Is Hindering Ore Hunt

By JULIUS GOLDEN
ALBUQUERQUE, N. M. (AP)—Prospectors say Western New Mexico is being bombarded with so much radiation from atomic tests that at times it's impossible to test for uranium ore.

Fruit growers in Northwestern New Mexico are blaming frosts on atomic tests in Nevada.

Residents in one area think a wave of lightheadedness and nausea may have been caused by radioactivity.

The first explosion listed, April 6, occurred two days before temperatures fell to 24 degrees and ruined apricots and peaches. After an explosion May 1, half the apple crop in the area was frozen. The rest of the peach crop went two days after the May 8 explosion.

U. S. Weather Bureau officials in Albuquerque, queried on the fruit growers' theory, said: "Purely a coincidence. We've been having unusual weather throughout the spring."

A wave of nausea and lightheadedness among residents of Gallup had doctors puzzled. They disagreed on the question of whether it might have resulted from the radioactivity which at times has ranged up to five times normal.

The AEC flatly stated there have been no dangerous concentrations of radioactive fallout in any part of the country outside the controlled area at the Nevada test site. But it added that higher than normal levels of radioactivity have been measured in isolated instances and for short periods of time.

Atomic Energy Commission officials discount all the complaints. Prospectors in the Gallup, N.M., area, where uranium hunting has reached the proportions of an industry, have been unable to hunt the precious ore at times following tests.

The radioactivity count jumped so high that prospectors' Geiger counters couldn't distinguish radioactivity in the air from radioac-

tivity in uranium ore, the prospectors say.

A spokesman for fruit growers in San Juan County in Northwestern New Mexico made up a list for newsmen showing that three atomic tests were made between 48 and 60 hours before heavy frost damaged fruit.

Churchill's Party Gains House Seat

SUNDERLAND, England (AP)—Prime Minister Churchill's Conservatives gained another seat in the House of Commons today, winning an upset victory over the Laborites in a special election to fill a vacancy.

It was the first exchange of seats between the major parties in the 17 by-elections held since the general election of October, 1951. In previous balloting to fill vacancies, the Conservatives retained eight seats they had won in 1951 and the Laborites kept eight.

In the voting yesterday in Sunderland—a major coal shipping port and former Labor stronghold—Conservative candidate P. G. Williams gathered 23,114 votes to 21,939 for Labor candidate A. G. S. Whipp and 2,524 for Liberal R. F. Lapple.

Navy Tanker Finishes Loading Of Jet Fuel

SINGAPORE (AP)—The U. S. naval tanker Cahaba completed loading 10,000 tons of jet fuel from the Finnish tanker Wilma today and sailed for an unannounced destination. The strategic cargo originally had been consigned to Communist China.

The U. S. negotiated for some three months with the ship's owners to prevent delivery of the jet fuel from Red Rumania to the Peiping government.

July Draft Call Is Lowest Since June

WASHINGTON (AP)—The Army draft call for July is 23,000, the lowest since last June's record low of 10,000.

The July call, issued yesterday, brings to 1,469,430 the number of men drafted or earmarked for induction since selective service was resumed after the Korean War started in mid-1950.

All but 81,430 of these, who went into the Marines during a 10-month period, were called for the Army.

The Defense Department said the lowered draft for July is in line with the reduced military budget for the fiscal year starting July 1.

Loose Wires Must Be In Man's Head

BALTIMORE (AP)—"Got any loose wires in here?" asked the man who poked his head in a second-story window of police headquarters yesterday.

Patrolman Vernon Green didn't know of any. While he engaged the man in conversation, two other policemen crept along the narrow ledge outside and grabbed him.

Identified as Frederick W. Krause, 43, he was booked on a disorderly conduct charge.

Reds Again Accuse UN Of Poison Shells

TOKYO (AP)—The Communist Peiping Radio again today accused the Allies of firing poison gas shells in Korea. The propaganda broadcast monitored here by Radio Press said 20 gas shells were fired at Communist lines between May 5 and May 9.

The U. N. Command repeatedly has denied using either poison gas or germ bombs against the Reds.

Today's Spellers Are Rated As Being More Accomplished

WESTMINSTER, Md. (AP)—The modest Victorian gentleman who presided over the first National Spelling Bee 28 years ago is quite surprised that the baby has grown to such a big fellow.

Dr. George Stoekton Wills, 86-year-old Western Maryland College professor emeritus, notes that last year the bee drew twice as many contestants as the first one in 1925.

And, he rates today's spellers as more accomplished.

But the rivalry will be no stronger when the contest opens in Washington May 18 than it was in 1925, 1926 and 1947 when Dr. Wills presided, he believes.

A look at the word list for the 1926 National Spelling Bee shows such puzzlers as davit, spavin, cache, dactyl, tegument, ficus and litaglio.

In 1927, Dr. Wills was pronouncing gamahsing, the recent yttrium, endopykte, hatched.

The son of an itinerant Methodist minister, the octogenarian scholar dates his memories with "before the war" and "after the war."

"When I say 'the war,'" he explains, "I mean the Spanish-American war."

"The changes that have taken place in educating the young since Dr. Wills acted as first pronouncer for the National Spelling Bee he summarizes in this way: "Then we were teaching old English. Now it's dropped from the curriculum. People have become practical."

Medal Is Presented

TOKYO (AP)—Maj. Gen. George W. Smythe, former commander of the U. S. 3rd Division in Korea, today was awarded the Distinguished Service Medal.

Smythe leaves tomorrow for duty in the office of the chief of staff in Washington.

Outstanding Farmer In District

Willis Winters, center, is presented with a plaque in recognition of his selection as outstanding farmer in the Martin-Howard Soil Conservation District. The plaque was presented at the Lions Club's weekly luncheon Wednesday by R. R. McEwen Jr., left, president of the club. At right is Morris Patterson, chairman of the Martin-Howard Soil Conservation District board of supervisors.

Armed Forces Day Program Shaping Up

A crowded Armed Forces Week-end program will get underway at 7:30 p. m. Friday as Webb Air Force Base and Big Spring observe first anniversary of the activation of Webb and annual Armed Forces Day.

The big program will continue through Sunday afternoon when the Webb 509th AF Band stages a concert in the amphitheatre at City Park.

First event of the celebration, which is to include a downtown parade, "open base" at Webb, and flyover and ground exhibits, will be a band concert at the WAFB ball diamond starting at 7:30 p. m. Friday. Following the concert, the Webb Dusters will clash with Cook Appliance in a softball game at the field.

All day Saturday, Armed Forces Day, will be devoted to activities at Webb and downtown. The big parade, featuring 175 cadets, 900 airmen, and some 200 Boy Scouts, will wind through the downtown area at 9 a. m.

"Open base" will start at Webb at 9:30 a. m. and the public is invited to inspect all ground and flight facilities. Parking space will be provided for 2,000 automobiles.

An air show, featuring several types of aircraft, will start about 10 a. m.

Conducted tours and flyovers of

various types of planes will be held throughout the day.

Formal ceremonies observing first anniversary of dedication of Webb will be held at 2 p. m. Sunday at the base headquarters with Col. Ernest F. Wackwitz, base commander, and Major G. W. Dabney to make short talks. Mrs. Billa Webb, mother of James Webb for whom the base was named, will be introduced.

Health Records Completed For Ward Schools

All pupil health records for city elementary schools have been completed and 425 students in Junior High were given visual screening tests last month, according to a report from Louise Horton, school nurse.

Health records for Junior High will be completed as soon as the visual screening program is finished.

During visual screening tests in April, 38 students were referred to eye physicians for further examinations. Fourteen Junior High students have been fitted with glasses, while one student had the lens changed in her glasses.

In the elementary schools, 26 pupils have been given visual screening tests, six were referred for further study and eight pupils screened earlier were fitted with glasses.

Thirty letters were mailed to parents of Junior High students who had been found to have hearing loss after several tests were made. Three reports from otologists have been received and all three students are under treatment. One parent notified the nurse that his son was found to have a serious hearing impairment which was pointed out in the routine testing. He expressed appreciation for the service.

Among diseases and injuries noted during the past month at the schools were measles, mumps, allergies, insect bites, ear-ache, colds, headaches, infected foot, dislocated fingers, abrasions, foreign bodies in eyes, styes, heat rash, a stab wound with a pencil and a cut hand.

Rev. Carter Is Named Delegate To Philly Meet

Rev. Orton W. Carter of Big Spring has been named an official delegate to the World Methodist Convocation on Evangelism June 26-28 in Philadelphia, Pa.

The announcement was made by Dr. Joseph H. Edge, associate secretary of the Methodist Church's General Board of Evangelism, which has its national headquarters in Nashville, Tenn. He is registrar of the convocation.

The Philadelphia meeting will mark the opening of the American phase of Methodism's world-wide emphasis on evangelism this year, Dr. Edge said.

"We are selecting delegates from throughout the country to represent every phase of the Church—the ministry, laymen, church school teachers, the Woman's Society of Christian Service, youth fellowships and the Methodist Student Movement," he stated.

More than 5,000 delegates from outside the Philadelphia area will be in attendance, and arrangements are being made to seat 67,000 persons at a mass rally on Sunday, June 28, at Philadelphia's Franklin Field.

At least 1,000 persons will be received into the church at the rally, Dr. Edge said, signaling the first step toward a church-wide goal of 250,000 new members in Methodist evangelistic campaigns next fall.

Bishop W. Angle Smith, Oklahoma City, is general chairman of the convocation, and Bishop Fred P. Corson, Philadelphia, is vice chairman.

Program principals will include four eminent British Methodists: Dr. E. Benson Perkins, Dr. Maldwyn L. Edwards, Dr. Dorothy Farmer, and Dr. Harold Roberts.

Customs Officers Impound Records

SINGAPORE (UP)—Customs officers quickly impounded four records of Russian tangos which had been flown from London by a British doctor.

The doctor explained that they were Russian tangos popular 15 years ago. Grim-faced officers told him regulations demanded a thorough investigation by police of all films, books, newspapers, or records in a foreign language.

Red China's Farm Reform Program To Be Completed

By FRED HAMPSON
HONG KONG (UP)—Red China's farm reform program—the first all-out effort by the Communist government to make the Marxist suit fit the Oriental farmer—is supposed to be completed this spring.

Farmer Wang is going through a hopper which Red leader Mao Tse-tung hopes will make him into a Communist and what his appetite for state farms, collectives and service to the state.

How is Wang turning out? Terrible, says a report from a farm reform investigation committee. The report, carried by the Red New China News Agency, says the farmer is "ideologically confused" and is turning out to be a capitalist.

Land reform spread over China after the Reds took over in 1942. It is only the first step in the Communist conversion of the farmer who must be won over because China doesn't have enough industrial workers to make a safe foundation for a revolutionary government. Mao decided the 350 million peasants were needed.

After seizing the land, the Reds divided it. Where there were big landlord holdings the division worked fairly well, but it didn't

make revolutionaries out of the new owners.

It took five to get the farmer into co-operatives and mutual aid teams—a step toward pooling of resources to increase production for the state. The farmer made no secret of his fear and dislike of collectivism.

In areas where there were not many big landlords in the first place, the Red reform resulted in the displacement of one set of farmers by another larger set. In such areas the Communist reform was bloody and not too successful. It isn't easy to take land from a working farmer.

In these areas the Reds created farms that are uneconomically small. In Kwangtung province they announced they had distributed four million mow of land (a mow is one-sixth of an acre) to 4,800,000 peasants.

The result was that farm families had to take part-time jobs to live. There was much migration to the cities.

Faced with this situation, the farmer wouldn't work his land until assured it wouldn't be taken away from him. He shied away from co-operatives except as a means of buying cheap fertilizer.

'Extra' Maintenance Listed For Schools

All city school buildings will be included in routine summer maintenance work, while several larger projects designed to improve facilities have been planned, according to Pat Murphy, school business manager.

Listed as "extra" maintenance are the following projects:

Replacing of asphalt tile in hallways at North Ward and East Ward; new roof, new ceiling, weather stripping for windows and new lights for South Ward; repairs to sliding doors, repairs to "overhang" on roof and ditching for hedges at Washington school; repairs to sliding doors and repairs to "overhang" on roof at Park Hill school; installation of a drinking fountain at Lakeview school; interior painting of older building at Kati Morrison; installation of a bell system at Central Ward; repair to plaster work and construction of sidewalks at Senior High; remodeling of homemaking department and construction of an "all-purpose" room with small stage at Junior High; light sanding and sealing of floors at Junior High gymnasium; complete check of all stands and fences at football stadium; reroofing of school bus garage.

All buildings owned by the school system will get the following "routine" maintenance work during the summer:

Outside painting of screens and doors and playground equipment; inside retouching where needed; repairs to woodwork where needed; scrubbing, sealing and waxing for all floors, including 177 class-

rooms, halls, offices, rest rooms, complete check of all electrical, plumbing and heating installations; and general improvements to school grounds.

The largest project on the summer program calls for remodeling and enlarging the homemaking department at the Junior High school. Murphy said he plans to install five new work spaces in the department, complete with cabinets, sinks, ranges and refrigerators.

The Junior High homemaking department has experienced rapid growth during the past two years.

Trucker's Snooze Ties Up Traffic

ST. LOUIS (UP)—On his way to work recently Capt. William Clibulka of the police traffic division saw a 45-foot-long tractor-trailer parked and tying up traffic.

When he awakened the sleeping truck driver the latter protested: "I've got 45 minutes left for lunch, what do you want me to do?"

The captain told him, "You can't spend it here, move on."

Asians Check Reds

MANILA (UP)—Southeast Asian countries are succeeding in their efforts to prevent the spread of Communism, says Dr. Roland R. Renne, chief of the U. S. Mutual Security Agency mission in the Philippines. He says U. S. aid and improved living conditions are bolstering the resistance to Communism.

Fighters On Hunt For Enemy Food

KUALA LUMPUR, Malaya (UP)—Men of the 1st Battalion of the King's African Rifles are taking the campaign to wipe out the Communists' food supplies right into the depths of the Malayan jungle.

While police and home guards prevent food being taken out of towns and villages, the Askaris from Nyassaland strike into the jungles and wipe out Red vegetable plots. In Pahang state alone, where the Africans are operating, they have uprooted and burned 82 enemy gardens.

Tax Is Claimed On Army Garbage

NUERNBERG, Germany (UP)—West Germany's tax men are out to collect customs on U. S. Army garbage finding its way into German hog troughs. The tax collectors contend the swill originally was imported.

Their immediate targets are 14 local pig breeders who buy Army garbage. American sources say the Army picks up some \$35,000 a year in the Nuernberg area alone this way.

Supplies for Allied forces enter West Germany duty free, but items resold to the Germans normally are subject to customs.

DUB W. DAY

Dub W. Day, son of Mrs. D. W. Day, 110 East 15th Street, is now stationed at Fort Hood with the 1st Armored Division where he will receive basic training.

Day attended Big Spring High School and was active in football and baseball. The First Armored was reactivated in 1951 and is now undergoing combat training.

Col. Darrell G. Welch, son of G. O. Welch of Coahoma, is returning to the United States after a 27-month tour with the 13th Air Force in the Philippines.

Welch will be assigned to Headquarters, Air Force, in Washington, D. C. at the office of supply and services, deputy chief of staff for materiel.

Welch and his family are scheduled to arrive in San Francisco in late May. He has been stationed at Clark Air Force Base near Manila in the Philippines.

Welch began his military career in 1940 and served previous foreign assignments in Europe in 1942-43, Panama Canal Zone in 1945 and Japan in 1950.

He graduated from the University of Texas with a Bachelor's and Master's degree in business administration. He was a petroleum engineer for Gulf Oil Corporation in civilian life. He graduated from Command and General Staff School at Fort Leavenworth, Kan.

MRS. J. FRED WHITAKER
... for the bride's table

Mrs. Whitaker Enjoys Working With Youth

For someone who doesn't have any children of her own, helping plan a total of nine weddings is quite a record. But that is one of Mrs. J. Fred Whitaker's accomplishments.

"I have no children, but yet I have a dozen of them. We have so many nieces and young friends," she explains.

She is now getting her home and garden at 1804 State ready for the wedding of her niece the end of May and she is making a tablecloth for the reception.

Both Mrs. Whitaker and her husband, a contractor, have worked with young people in their church. For three summers she was a room mother and worship leader at the summer camp and Whitaker was inspiration leader.

He plays the violin and she plays the piano. Both like to sing. Mrs. Whitaker has taught intermediate girls in church school and she likes to write inspirational poetry.

Mrs. Whitaker also admits to mutilating newspapers by clipping out recipes.

She is president of the United Church Women of Big Spring and a member of the Modern Women's Forum.

Now that warm weather is here she is making good use of a method to freeze gelatin for summer salads in only an hour.

QUICK-FREEZING GELATIN SALAD

Ingredients:

- 1 package lemon or lime gelatin
- 1 cup hot water
- 1/4 cup cold water
- 1 to 2 tablespoons vinegar or lemon juice
- 1/4 cup real mayonnaise
- 1/4 teaspoon salt
- dash of pepper
- 1 to 2 1/2 cups vegetables, fruit, meat, poultry, fish cheese or eggs.

Method:

Dissolve gelatin in hot water. Add cold water, vinegar, mayonnaise, salt and pepper. Blend well with rotary beater. Pour into refrigerator freezing tray. Quick chill in freezing unit (without changing control) 15 to 20 minutes, or until firm about 1 inch from edge, but soft in center. Turn mixture into bowl and whip with rotary beater until fluffy. Fold in vegetables, fruit, meat, poultry, fish, cheese or eggs. Pour into one-quart mold or individual molds.

Chill until firm in refrigerator (not freezing unit) 30 to 60 minutes. Unmold and garnish with salad greens. Serve with additional mayonnaise if desired. Makes four to six servings. When making vegetable and meat salad, add one half one tablespoons finely chopped onion. When making fruit salads, omit pepper.

A favorite with the Whitakers is Waldorf Souffle Salad.

WALDORF SOUFFLE SALAD

Ingredients:

- 1 cup diced unpeeled apples
- 1/2 cup diced celery
- 1/2 cup chopped walnuts

Method:

Add these to the basic recipe and prepare as explained above. For grapefruit prune souffle salad, use 1 cup cooked prunes, 1 grapefruit, pared and diced, and 2 tablespoons grapefruit.

Other combinations are avocado, grapefruit and celery; cabbage, carrots and apples; orange, cottage cheese and nuts; hardcooked eggs, sardines, green pepper and celery; cold ham, crushed pineapple and celery.

Both raw and cooked vegetables may also be used.

Here Are Hints For Dad Who Fixes Own Breakfast

A recent survey has revealed what may be a new trend in American life. Dad prepared his own breakfast in a surprisingly high percentage of homes queried on this matter.

With this turn to Dad in the kitchen it might be wise for him to brush up on just what makes a good breakfast. For a working man, breakfast must be substantial to carry him through without that "mid-morning lag." A typical

Lemon Gives Delicate Tea Cake Flavor

A subtle touch for afternoon tea is to use a little lemon in the tea cakes. The flavor delicately emphasizes and blends with the lemon in the tea.

LEMON-MOLASSES TEA CAKES OR SQUARES

- 1/2 cup shortening
- 1/2 cup sugar
- 1 egg, well beaten
- 1/2 cup molasses
- 1 1/2 cups sifted flour
- 2 teaspoons baking powder
- 1/2 teaspoon soda
- 1/4 teaspoon salt
- 1 1/2 teaspoons cinnamon
- 1/2 cups whole-wheat flakes
- 1/2 cup milk
- 1 tablespoon grated lemon rind

Mash contents one can Gebhardt's Spiced Chili Beans. Spread on this slices of white bread from which crust has been removed. Roll and fasten with toothpick. Wrap roll in half strip of breakfast bacon. Broil, turning until bacon is crisp.

Chili Deep Dish

For unexpected guests, pour canned chili into a baking dish. Top with a package of cornbread mix made up according to directions on the package. Bake at 400 degrees F. for about 30 minutes. Add green salad and dessert and dinner is ready.

Hot Bean Salad

Slice salt pork thin and fry until crisp. When done, remove and break into bits. Chop medium sized onion and brown in pork fat, adding 2 tsp. prepared mustard. Mix onion, and salt pork with one can Gebhardt's Mexican Style spiced chili beans. Heat entire mixture and serve heated on lettuce.

Spring Is Season For Cool, Crisp Salads

Springtime always brings more fresh vegetables to the market at prices "the practical homemaker can afford." That means crisp green salads for the family.

"The perfect salad is crisp, cool and colorful," so keep the salad vegetables fresh by storing them in a covered container in the refrigerator.

If you are using cooked vegetables in the salad, don't cook them until they're soft but only until they are tender-crisp and still a bright, inviting color.

Preparing the raw vegetables takes care. Be sure to cut all vegetables symmetrically. Score cucumbers with a sharp tined fork before slicing; leave the peel on sometimes for its delightful green color and crisp texture. Partially peeled cucumber leaves attractive vertical strips of dark and pale green.

Arranging the vegetables should be done with an eye to color, whether you are doing a big salad bowl or individual salad plates.

For a salad bowl of fresh vegetables, arranged colorfully, try putting this dressing in a smaller bowl in the center:

EGG AND CHIVE MAYONNAISE

- 1 cup real mayonnaise
- 2 tablespoons egg vinegar
- 1 tablespoon chopped chives
- 1 hard-cooked egg (finely chopped)

Blend the mayonnaise and vinegar together. Mix in the chives and chopped egg. Serve in a small bowl with vegetable salad.

For those who like a little "bite" in their salad dressings, this blue cheese mayonnaise should be popular.

BLUE CHEESE MAYONNAISE

- 1 cup real mayonnaise
- 1/2 cup French dressing
- 2 tablespoons crumbled blue cheese

Blend mayonnaise and French

dressing together well. Mix in blue cheese.

Cheese gives distinction to many kinds of salads, but when added to a bowl of salad greens, the result is a main dish rather than an appetizer or accompaniment. For salads, the cheese may be shredded, cubed or cut into pencil strips. Select the type of cheese to suit the fancy. Whatever the choice, the cheese proves to be the intriguing ingredient.

Take crispy salad greens, zesty, full-flavored cheese, and savory French dressing to mingle and combine. There's a salad!

A substantial molded salad is a cool and inviting addition to any spring menu. When having guests it's particularly nice because a busy hostess can make it the day before. Every gracious hostess wants a repertoire of recipes for tasty dishes that are extra good made the day before a party.

MOLDED CHEESE SALAD

- 1 eight-ounce package cream cheese
- 1 five-ounce glass pimento cheese spread
- 1/2 pound pasteurized process American cheese, shredded
- 2 envelopes gelatin
- 1/4 cup cold water
- 1 pint hot milk
- 1/2 teaspoon dry mustard
- 1 teaspoon Worcestershire sauce
- Dash tabasco
- 1 teaspoon onion juice
- 1 cup whipping cream, whipped

Letting

Tomato wedges

Unpeeled scored cucumber slices

Mayonnaise

Blend the cream cheese and pimento cheese spread together. Add the American cheese and mix well. Soften the gelatin in cold water; add it to the hot milk and stir until dissolved. When cool, gradually blend it into the cheese mixture. Add the seasonings. As it be-

gins to thicken, fold in the whipped cream. Pour into a loaf pan and chill until firm.

Unmold on lettuce on a rectangular serving platter. On each corner of the platter place lettuce cups filled with tomato wedges and cucumber slices garnished with mayonnaise.

A tossed salad is good for spring meals, largely because you can toss into it almost anything you have in the way of fresh vegetables. Each time you serve it, it can be a little different. One good way to vary the salad is to use different greens instead of always relying on lettuce. Or you may want to change the dressing.

French dressing is one of the most popular for tossed salad. Here is a recipe you can make at home.

FRENCH DRESSING

- 1-3 cup vinegar
- 2-3 cup salad oil
- 1/2 teaspoon tabasco
- 1 teaspoon each of salt, paprika, dry mustard
- 1/2 teaspoon sugar

Combine all ingredients mix well. Shake or beat before serving. Makes 1 cup.

Plain cole slaw, a year round salad, can be perked up for spring by serving it on a separate salad plate surrounded by carrot slices to form a sun flower. Green onion stems form the flower stems.

SUNFLOWER SALAD

- 3 cups shredded cabbage
- 3 to 4 green onions, chopped (save some green tops for flower stems)
- Salt and pepper to taste.
- 1/2 to 3/4 cup mayonnaise
- 2 medium carrots

Combine cabbage, onion, seasonings and 1/2 cup mayonnaise. Chill. Meanwhile, cut carrots diagonally into thin slices to resemble petals. Arrange cabbage salad in mounds on individual plates, surrounded with carrot petals. Accent the flower center with mayonnaise and paprika or sliced olives if desired. Then add green onion stems. Makes four salads.

Old-fashioned carrot salad is one of the simplest to make. Once you have tried it, you won't need a recipe again. This is how you

Vegetables Ideal For Warm Weather Entrees

When it is spring, vegetables can easily get main dish ideas. And when you stop to look at the sliding prices on fresh vegetables at the market, it doesn't seem like a bad idea at all to let a vegetable be the entre at dinner. Or if one vegetable doesn't suit you, combine several.

Warm weather appetites will perk up and the budget will bulge when you plan dinner around vegetables occasionally.

STUFFED EGGPLANT

- 2 small eggplants, cut in half
- 1/4 cup diced green pepper
- 1/4 cup diced onion
- 1/4 cup diced celery
- 1 tablespoon salad oil
- 1 can condensed tomato soup
- 1 cup cooked rice
- 1/4 teaspoon salt
- Dash pepper
- Dash thyme
- 18 cheese crackers, finely rolled

Butter or margarine

Slimmer eggplants in salted-boiling water until almost tender (about 10 minutes). Sauté green pepper, onion and celery in oil until golden brown. Combine with tomato soup, rice, salt, pepper and thyme. Scoop out center of eggplant; leave 1/4-inch layer of pulp around edges. (Save pulp scooped out of eggplant and add to spaghetti sauce another day.) Sprinkle 2 tablespoons cheese cracker crumbs over bottom of each shell. Fill with rice mixture. Spread remaining crumbs over top; dot with butter or margarine. Bake in a moderate oven (375 degrees F.) 30 minutes. Serves four.

BROCCOLI WITH SOUFFLE SAUCE

- 1 bunch fresh broccoli or a frozen package
- 1 tablespoon minced onion
- 3 tablespoons butter
- 2 tablespoons flour
- 1/2 cup milk
- 1/2 cup grated cheese
- 2 egg yolks
- 2 egg whites

Cook broccoli in salted water, until just ready to tender. Com-

Raisin Nut Pie Is Springtime Dessert

Raisins plus orange juice, nuts and spices add up to a delectable springtime dessert when made into a lattice topped pie? Lard, that most economical of shortenings, makes the flakiest, tenderest and best tasting of pie crusts.

RAISIN NUT PIE

- 2 cups seedless raisins
- 1 cup brown sugar
- 3-tablespoons cornstarch
- 1 cup water
- 2 tablespoons butter
- 1/4 cup orange juice
- 1/4 teaspoon cloves
- 1/4 teaspoon cinnamon
- 2 tablespoons lemon juice
- 1/2 cup coarsely chopped nuts

Lard-made pastry

Combine first eight ingredients and cook until thickened. Add lemon juice and nuts. Pour into an 8-inch unbaked pie shell and top with strips of pastry to make a lattice topping. Bake at 425 F. 25 to 30 minutes. Cool and serve.

Toasted Bean Rolls

Mash contents one can Gebhardt's Spiced Chili Beans. Spread on this slices of white bread from which crust has been removed. Roll and fasten with toothpick. Wrap roll in half strip of breakfast bacon. Broil, turning until bacon is crisp.

Chili Deep Dish

For unexpected guests, pour canned chili into a baking dish. Top with a package of cornbread mix made up according to directions on the package. Bake at 400 degrees F. for about 30 minutes. Add green salad and dessert and dinner is ready.

make it. Just serve on salad greens.

OLD-FASHIONED CARROT SALAD

- 1/4 cup seedless raisins
- 1 1/2 cups coarsely grated carrot
- 1/4 cup sliced celery
- 1/4 cup chopped walnuts
- 1/4 teaspoon salt
- Dash cayenne pepper
- 1/4 cup mayonnaise

Letting

Rinse raisins in hot water, drain and chop coarsely. Combine with carrots, celery, nuts, salt and cayenne. Toss together lightly with mayonnaise. Serve on crisp lettuce. Serves 4.

Hearts of lettuce are a good salad any time of year and spring is no exception. If you have been serving it with French or Russian dressing during the winter months, here is a way to vary it for spring—hearts of lettuce with cottage cheese dressing.

COTTAGE CHEESE DRESSING

- 1 eight-ounce carton cream-style cottage cheese
- 1 medium-sized tomato
- 1/4 cup finely diced cucumber
- 1 teaspoon finely chopped chives
- 1/4 cup commercially prepared sour cream
- Salt and pepper
- 1 small head lettuce
- Paprika

Peel tomato, remove stem end, cut in half and scoop out seeds. Dice tomato fine; mix lightly into cheese with cucumber, chives, sour cream, salt, and pepper to taste. Makes about 1 1/4 cups. Cut lettuce in quarters and remove core; cut each section into quarters and arrange fan-fashion on four individual salad plates. Spoon dressing over lettuce and sprinkle with paprika. Makes four servings.

FRENCH DRESSING

- 1-3 cup vinegar
- 2-3 cup salad oil
- 1/2 teaspoon tabasco
- 1 teaspoon each of salt, paprika, dry mustard
- 1/2 teaspoon sugar

Combine all ingredients mix well. Shake or beat before serving. Makes 1 cup.

Plain cole slaw, a year round salad, can be perked up for spring by serving it on a separate salad plate surrounded by carrot slices to form a sun flower. Green onion stems form the flower stems.

SUNFLOWER SALAD

- 3 cups shredded cabbage
- 3 to 4 green onions, chopped (save some green tops for flower stems)
- Salt and pepper to taste.
- 1/2 to 3/4 cup mayonnaise
- 2 medium carrots

Combine cabbage, onion, seasonings and 1/2 cup mayonnaise. Chill. Meanwhile, cut carrots diagonally into thin slices to resemble petals. Arrange cabbage salad in mounds on individual plates, surrounded with carrot petals. Accent the flower center with mayonnaise and paprika or sliced olives if desired. Then add green onion stems. Makes four salads.

Old-fashioned carrot salad is one of the simplest to make. Once you have tried it, you won't need a recipe again. This is how you

Hot Tamales Ideal For Picnic Supper

If you are eating at the beach, the park, or at any away-from-home picnic spot, heat tamales at home, wrap them, steaming hot in several thicknesses of aluminum foil, fold the ends of foil tight and the tamales stay hot for an hour or more.

If they need to stay hot longer, bury them in the coals of the picnic fire until ready to serve. With corn chips, pickles, olives, cheese and crackers to go along, an icy cold beverage ready, there's no last minute preparation when the crowd is ready to eat.

COUNT ON... CH and Cane sugar

Your fine home preserving deserves it!

ONE POUND MEADOLAKE MARGARINE FREE!

Plus 10¢ Coupon Below

Mrs. Tucker, celebrating her 40th Anniversary Year, offers you this double bonus!

First, a saving of 10¢ on a pound of her Meadolake Margarine if you use the Free Coupon below.

Second, a FREE pound of Meadolake for a letter telling her why Meadolake is BETTER than Better. (Details in box at lower left.)

... for a letter telling me why MEADOLAKE MARGARINE IS BETTER Than Better

-- Mrs. Tucker

Here's All You Do

After you have tried the NEW and BETTER Meadolake... after you have compared it with other spreads, write a letter to Mrs. Tucker, Sherman, Texas, telling WHY you think Meadolake is BETTER in Freshness, Flavor, Spreadability, Nutrition — WHY it is BETTER than BETTER.

Enclose with your letter the Meadolake carton end-flap with Mrs. Tucker's picture on it, and Mrs. Tucker will promptly mail you a card good for another pound of Meadolake FREE at your Dealer's. We urge you to act without delay as this free offer is good only until June 30, 1953.

CLIP COUPON - USE TODAY!

10¢ WORTH 10¢

on Purchase of 1-lb. of MEADOLAKE

Dear Dealer: Mrs. Tucker will redeem this coupon for 10¢, plus 1¢ for handling, on the purchase of 1 lb. of Meadolake Margarine. Victim Needs Hope And Help To Take It

By AN ALCOHOLIC

In most illnesses, the patient realizes he is sick and is willing to do anything suggested to bring about recovery. Not so, however, with the usual run of alcoholics. They will test the patience of a saint and resist every effort to help them. This stubbornness is a part of their affliction. They have lost the ability to understand the seriousness of their condition.

The alcoholic, or threatened alcoholic, is floundering in darkness. He must have help if he is to survive. Experience has shown that some person outside the immediate family circle is a better prospect to work on the alcoholic victim.

The threats, pleas and promises which have come from the family in the past were in vain. The drinker resents these appeals and considers them as interference or nagging. Getting drunk or drunker is usually the way the vain approach ends.

A member of Alcoholics Anonymous, an interested and understanding physician, a friendly employer, a close friend, or a sympathetic, down-to-earth pastor may be able to rouse the drinker's concern as to his desperate situation and need for help.

The family will always make the big mistake of pitying their love against his love for alcohol, not realizing that the alcoholic's illness makes alcohol the most important thing in his life. He can't shut off the compulsion to drink as one would turn on or off the water faucet. It's not that simple. The very first approach to an alcoholic is an important one. It should be made by someone with kindness and understanding, but never without firmness.

Don't expect any miracle at the outset. It would be foolish to think that the rebuilding of the alcoholic's character (and this must be done) which has been years in developing badly, or rather going to pieces, can be done in a week, six weeks, or even six months.

Recovery for the alcoholic is a slow job and there are no short cuts. First of all, he must be persuaded, calmly and clearly, to accept his condition as he would if informed he were a victim of heart disease or tuberculosis. And he must realize that he can be helped.

The drinker should be convinced that he cannot recover alone. He has to be shown that he has a serious drinking problem, or will have one if some preventive action is not immediately employed. Once faced with these facts, he must decide to do something about it.

The alcoholic is an extremely selfish person. He thinks only in terms of self. Faced with an "either-or" ultimatum which would carry with it some kind of penalty were he not to try the treatment suggested, he might agree, though purely from a selfish motive to avoid the penalty.

Regardless of the insincerity of the victim's decision to try some program of help, progress can be made. There are numerous instances on record where such counter-ferret or phony intentions in the beginning blossomed into a sincere desire to recover.

Exposing these hard-shelled drinkers to some program of treatment is the important objective at the outset—and the sooner the better.

The alcoholic is a diehard at heart. His fierce ego will admit no defeat, especially where alcohol is the issue. The effective treatment of alcohol addiction is, of course, the treatment of that which causes it. With the alcoholic, it requires treatment of the ego.

He must find humility, and for him this means a complete surrender of self.

Before any problem drinker can be started on any treatment program designed to get at the root of the trouble, he must be physically straightened out. He has to feel well to grasp the mental medicine or therapy he needs. A physician or psychiatrist should completely check him for any serious ailments which may have been con-

tributing to the urge for drinking. Bodily ailments may have a serious effect on the mind. Any person who is just emerging from a prolonged drinking spree or bout should have medical attention, even hospitalization. Ordinarily, about five days of medical treatment will be sufficient to bring about fairly good physical well-being.

It is important that the alcoholic be convinced that recovery can be had and that it is worthwhile. The history of thousands of other alcoholics who have recovered from equally serious or worse drinking addiction is the conclusive proof that it can be done and is worth doing.

THE HELPING FORMULA

1. Don't shield or cover up anyone with drinking difficulties. Once detected, do something constructive about it. Be kind, but be firm.
2. Physical condition of drinker must be restored to par. Consult understanding physician.
3. Victims must be convinced that they are suffering from an illness requiring help. They can't help themselves.
4. Problem drinkers must be shown why they have needed alcohol for relief of emotional conflicts; why they feel guilty, insecure, inferior, not wanted, etc. Reality must be unveiled to them.
5. Patients must be encouraged to read some enlightening material on this affliction. (The book "Alcoholics Anonymous" is highly informing, interesting and helpful.)
6. Alcoholics must be convinced they will never be able to use alcohol in any quantity. Self-designed plans of control will not work.
7. New interests, new hobbies and new nondrinking companions are necessary.
8. Drinkers must be helped to recognize the signs of increasing tension, and told how to relax mentally and physically.

FOR INFORMATION:

- 1) See your family physician;
- 2) Get in touch with the nearest group of Alcoholics Anonymous (more than 150 in Texas);
- 3) Write for literature to the Texas Committee on Alcoholism, Inc., 505 Nalle Bldg., Austin.

Battalion Riddled

HONG KONG (AP)—A pro-Nationalist Chinese newspaper reported today that seaborne Nationalist guerrillas shot up a Communist battalion in a raid on Tungshan Island off the South China Coast Thursday.

Poland Reports Say Red Party Disintegrating

NEW YORK, May 13 (AP)—Official Polish Communist announcements just reaching this country tell of a steady disintegration of Poland's Communist party and a widening purge which has nettled Gen. Wacław Komar, old-time Moscow-trained Communist who once headed the regime's military intelligence.

These disclosures, as made in Nowe Drogi, official publication of the Polish Communist central committee, are reported by the National Committee for a Free Europe, sponsors of Radio Free Europe.

Franciszek Jozwiak-Witold, Warsaw's minister of state control and a Politburo member, made this announcement to the party's control commission:

"During 1952, there were 6,963 members expelled from the party. While the number of those expelled for alien activities and hostility decreased from 55 per cent to 38 per cent, the moral disintegration of the party is on the increase. The percentage of expellees, for deviation and moral disintegration has increased from 45 per cent to 62 per cent."

This refers to members expelled only for these reasons. Others likely have been thrown out for such offenses as sabotage and black marketing. Witold told the party many "alien elements" such as members of the wartime underground army, prewar professional officers and police and former government employees have infiltrated the party.

Confirmation of Gen. Komar's arrest, long rumored, came in a speech by Stanislaw Radkiewicz, minister of state security, Komar, 48, recently was quartermaster general on the Polish Army staff under the defense minister, Soviet Marshal Konstantin Rokossovsky.

TV Now Hurting Transit Business

CUMBERLAND, Md. (AP)—Television is helping to drive his firm out of business, says Adolf Blunk, president of the Cumberland and Westernport Transit Company.

He said the firm, which made \$20,000 in 1948, has lost money for the past four years—\$1,000 last year alone. And one of the reasons he said, is that television fans are not going out to movies and amusement centers at night.

Tennessee Milk Firm Takes Over Glenn's Assets

The Tennessee Milk Company today announced as the successor to the Russell Glenn Distributing Company dairy business here by Ray Weir, manager of the Big Spring firm. Weir said that all of the Russell Glenn assets have been taken over by the new company.

"We will continue the distribution of Tennessee Dairies milk and other famous Tennessee products and will work constantly to improve our service to our hundreds of customers in Big Spring," Weir reported.

He said that considerable growth is expected within the next twelve months and that plans already are being worked out to enlarge Tennessee Milk Company's facilities here.

The sale of Tennessee Dairy products will be handled both through stores and through home delivery. These products include Tennessee homogenized milk with vitamin D added, regular pasteurized milk, butter, milk, sweet cream butter, oleomargarine, whipping cream, coffee cream, whole milk chocolate, milk, orange drink,

Judge Is Robbed

BINGHAMTON, N. Y. (AP)—A burglar pried open a transistor to Judge Robert Ryan's office and took about \$200 from a desk drawer.

It has been found that X-rays of \$50,000,000 volts are no more damaging to living tissues than those of 2,000,000 volts, provided the total dosage is the same.

Indians Like Demo Adlai

NEW DELHI, India (AP)—U. S. Ambassador George V. Allen told former Democratic party presidential candidate Adlai Stevenson today that "if the 360 million Indians had been able to vote in our last election, there wouldn't have been any doubt of the outcome."

"Sir, you're in solid Democratic territory," added Allen, an appointee of Republican President Eisenhower, at a reception on the embassy lawn for Stevenson.

Some 500 embassy officials, employees and their families turned out to meet Stevenson, who is making an extensive tour of the Far East.

"The ambassador's remarks have confirmed the impression that I should have fun for office here," Stevenson quipped. "But I am loath to report that nobody in India suggested that."

Earlier today Stevenson laid a wreath on the site of the cremation of Mohandas K. Gandhi.

'Moll' Is Killed

KUALA LUMPUR, Malaysia (AP)—Yoke Ying, described as a "hard grenade moll" and a branch committee member of the Malayan Communist Party, was among five guerrillas killed yesterday by Gurkha troops, the government said today.

Policies OF SAFEWAY STORES

Many of the more fundamental policies, which govern the operation of Safeway stores, have been collected in booklet form, so new employees can learn and follow them.

For your information, page 6 of the policies booklet is quoted:

HONEST ADVERTISING AND MERCHANDISING POLICIES

It's Company policy to:

1. Be truthful in all advertising—never using phrases, prices, or markings that may mislead or be misunderstood by persons reading the ads.
2. Mark all prices plainly.
3. Have only one price for all customers.
4. Have ample supply of all advertised merchandise.
5. Give highest weight and full measure in every transaction.
6. Exchange merchandise willingly, or cheerfully refund the full purchase price, if a customer is dissatisfied with any purchase.

Inquiries regarding this policy should be addressed to:

Riding THE GRUB LINE

With Franklin Reynolds

O. H. McAllister, Big Spring Hereford breeder and owner of the Bar M Ranch, is offering 82 head of choice registered cattle at auction, Tuesday, May 28, at his ranch near Rhome.

Nine bulls and 73 cows are listed for the event.

This Bar M Ranch is located one mile west of Rhome on State Highway 214. Rhome is 23 miles northwest of Fort Worth on U. S. Highway 81. The auctioneers will be Col. G. H. Shaw and Col. Walter Britten, and the sale will be managed by O. R. (Pete) Peterson of the National Auction Company.

Frank Reeves and Harry Holtzer will serve as clerks.

The auction will feature the get of McAllister's fine bull battery including MW Larry Domino 19th; M Larry Domino 26th; G. Royal Domino, and Mixer Royal B-7.

The first named bull, MW Larry Domino 19th, is a seven-eighths brother to the \$160,000 bull, MW Larry Domino 19th. Daughters of this bull are hard to get since so few of them have been offered.

Sixteen of them, however, plus 37 of his granddaughters are listed to go through the ring at Rhome.

McAllister once sold an even dozen of MW Larry Domino 19th's daughters to a breeder at \$600 a head, was sorry he had let them go, and immediately tried to get them back at \$1,000 a head but was refused.

The Big Spring breeder has more than 100 of these daughters in his herd and not a single one of them could probably be bought at any price. They are uniformly described as good milkers, light in color, thick fleshed and are good brood cows.

The second bull listed as a reference sire is M Larry Domino 26th, regarded by McAllister and Herdsman Albert Haase, as well as many other Hereford authorities, as the best son of MW Larry Domino 19th. A number of the heifers being offered in this sale carry his service and some of his daughters, the first time any of them have been sold, are being offered.

G. Royal Domino, third bull on the reference list is a grandson of Real Domino 51st, a Register of Merit sire. McAllister says he hopes those attending the sale will pay particular attention to the quality of the daughters of G. Royal Domino that are being offered breeders who want to improve their herds.

The fourth bull with get featured in the Rhome auction is Mixer Royal B-7, a bull McAllister is using on daughters of MW Larry Domino 19th with mighty pleasing results. This bull was shown during the 1950-51 season and most of the time stood second to Greenhill Larry 6th, the champion at Fort Worth and the American Royal at Kansas City.

Dinner will be served late the morning of the sale date and the auction will start at 12:00 noon. The cattle being offered were selected from 250 head by Peterson and George Kleier of The Cattleman.

None of these females would probably be offered except for the drouth.

When Jack Halfen, the greatly publicized Houston character was pinched a few days ago and introduced to the inconveniences of Sheriff Jeff Slaughter's bull pen, the Houston Press announced the fact to the world in an eight-column headline across its front page saying: "Big Fix In Big Spring Jail."

Halfen, according to the Press, acquired his nickname of "Big Fix" through his activities as a mutual friend of Houston gamblers and former Houston law enforcement officers. He is to appear before the coming grand jury in the U. S. District Court at Austin next month, and the U. S. District Attorney says that "if Halfen will talk a bunch of Houstonites are going to the Penitentiary."

But what we started to tell was what else the Houston Press had to say about the Big Fix's arrest here for operating an unlicensed motor vehicle and at the same time doing it without an operator's license.

According to the Houston newspaper, Halfen is a pretty slick-tongued talker. But, says the Press, "when Halfen met up with Deputy Sheriff Dale Lane, he ran into an even slicker-tongued talker" and the slicker-tongued one fixed the Big Fix up in a helluva fix.

At least Jack Halfen can now tell his pals that whenever a Houston slicker undertakes to take a Howard County officer for one of "them dumb country cops" he's making a terrible mistake.

The Houston Press, however, doesn't appear to be able to recover from the shock of learning that there's a slicker-tongued talker than the Big Fix, who couldn't talk himself out of it here.

After a 10-year trial, C. J. Lowke, who farms in Midland County between Midland and Stanton, says he believes that a conservation program including terracing, contouring and the rotation of feed with cotton has increased his crop yields as much as 70 or 80 per cent.

He built his first terraces in 1942 and now expresses himself as being thoroughly convinced that the benefits of conservation practices, in co-operation with the SCD, greatly outweigh the extra trouble in planting and cultivation.

Another Midland Countian is planning on increasing the nitrogen content of the soil in his garden this year while at the same time growing some fresh vegetables, and this is a hint that all gardeners might do well to take.

He is W. N. Locklar, who has a farm southwest of Midland. He has gotten some legume inoculant for beans and peas, and this inoculant will provide bacteria to produce nitrogen-fixing nodules on the roots of the vegetables, since garden peas and beans will respond to this treatment like legumes in the fields.

Locklar is also mighty happy about 40 acres of Abuzzi rye and Vetch he had grown as a winter cover crop and which he plowed under just before the recent bad blowing. While wind erosion on other Midland County farming land was increasing 500 per cent this 40 acres didn't blow at all. Locklar used a rotary stalk cutter and tandem disk to cut the green crop into the soil.

He has another three acres of rye planted last fall on dryland which has furnished some grazing, is heading out now, and which provided excellent defense against the blowing.

Tornadoes Are Discussed At Lions Meeting

Characteristics of tornadoes and what people should do when one approaches were discussed by G. A. McGann at Thursday's luncheon meeting of the Lions Club.

The tornado is the most violent type of storm known, McGann said, and their behavior follows no set pattern.

However, he said that 61 per cent of the funnel-shaped storms follow a southwest to northeast direction, and the average ground speed is 45 miles per hour.

Consequently people in an automobile usually have a good chance of moving out of a tornado's path if they see it approaching in time.

McGann said people should get in a cellar or basement if possible when they know that a tornado is approaching. If that is impossible they should try to get in a well-constructed building, remaining in a hall, closet or any other small space that is available.

Large rooms, such as a gymnasium, should be avoided, he said.

The local Weather Bureau has a network of reporters who call in information to the bureau whenever a storm is sighted in this area, McGann said. Reports of dangerous storms are forwarded immediately to radio stations and broadcast to the public.

He urged people to refrain from telephoning the Weather Bureau when a storm is reported, since the telephone is needed by bureau personnel. All available information always is broadcast promptly, he said.

Funds Are Asked For Cypress Dam Project In Texas

WASHINGTON (AP)—A Texas delegation backing a proposed 18 million dollar dam on Cypress Creek near Jefferson asked a Senate Appropriations Subcommittee Wednesday for money to start construction.

They said the project would provide flood protection to a vast area in the Red River Valley in East Texas, Arkansas and Louisiana.

In addition to flood protection, they added, the dam would impound waters for industrial and municipal uses in such places as Daingerfield and its Lone Star Steel plant.

Sen. Daniel (D-Texas) also urged an appropriation.

Drainage Project Set In Manitoba

THE PAS, Man. (AP)—A large drainage project will give Northern Manitoba a belt of productive farmlands in territory long beset by floods.

An agreement was reached recently between the Manitoba and Federal governments whereby 100,000 acres in the forks of the Pasquia, Carrot and Saskatchewan Rivers, which flow together near here, is to be reclaimed through diking and interior drainage. The project will cost about \$1,350,000.

The reclaimed land will be sold at prices ranging from \$10 to \$30 an acre. At least one-half of the land must be sold to war veterans or persons from submarginal lands in drought areas.

Lawmaker Would Spur Movie-Makers

RIO DE JANEIRO (AP)—A Brazilian congressman wants foreign movie-makers to produce 10 per cent of all their films in Brazil, and says he will introduce a bill to that effect.

The plan was announced by Deputy Jose Pedrosa. He says his project would prohibit foreign producers from showing their films unless they could comply with the 10 per cent law.

Tachistoscope Aid To Reading Habits

HOUSTON (AP)—A wartime tachistoscope used to train troops in quick airplane identification is helping school children improve their reading speed.

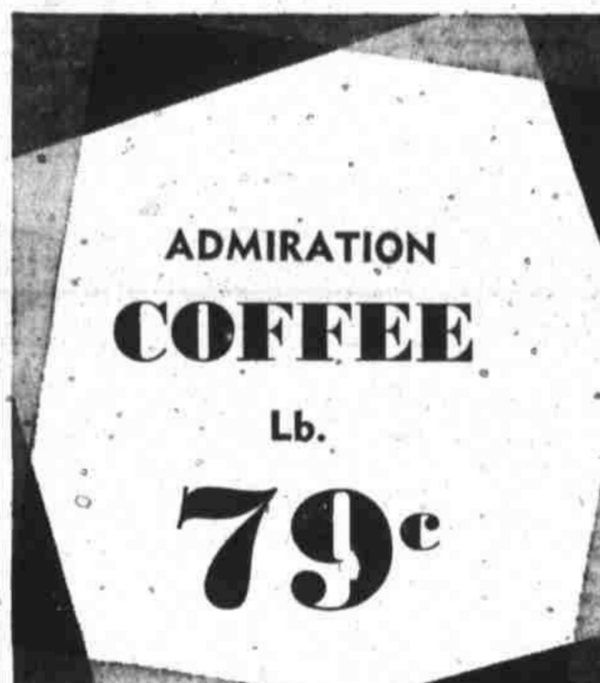

In a remedial reading class for seventh grade students at Jackson Junior High School, a series of phrases or numbers is flashed on a screen for a fraction of a second and the students drill in quick identification. The tachistoscope is helping increase the pupil's "eye span" so they can see several words at once.

THE SPRINGBOARD

News From Webb Air Force Base
By A-2C FERD BORSCH

AIR SAFETY

Despite many dust storms and high winds, Webb pilot instructors and students piled up a grand total of 10,803 hours in the air without an accident of any kind for the month of April. This was released by Captain Jessie C. Haynes, Flying-Safety Officer.

Those 10,803 accident-free hours represent 3,012,200 miles, or roughly 1,000 trans-continental flights from San Francisco to New York.

AIRMAN'S INSTITUTE

Twenty-four newly arrived airman at Webb were fully informed about the base and Big Spring area in a four-day program last week before being assigned to their respective duty sections.

The Airman's Institute, as the program is called, made its maiden appearance at the base. Its primary aim is to give all incoming airman a better idea of the base's mission and the part they play as individuals in its completion.

The program also suggests, however, the airman can spend his off duty hours.

The Airman's Institute is under the supervision of Lt. Col. William S. Smallwood, Personnel Staff Officer.

APS HONORED

Air Police awards for March and April were announced by the AP office last week.

S-Sgt. Thomas W. Taylor was named outstanding sergeant-of-the-guard for March and A-1C Raymond P. Gish received the AIF Policeman of the month award for the same period.

In April's selections S-Sgt. Samuel W. Hartness was top sergeant-of-the-guard and A-3C Francis W. Janzer the top Air Policeman.

GRADUATION

Thanks to high school GED tests and USAFI courses, both offered through Air Force educational programs, A-2C Manuel Herrera of Webb's Food-Service Squadron will

Mechanical Brain Solves Big Problem For New York Cops

By ARTHUR EVERETT

NEW YORK (AP)—Two federal Treasury agents walked into New York's traffic summons control bureau.

They had a problem. They were looking high and low for a man whose name they didn't even know. They did know he drove a blue Ford and they had learned he once got a parking ticket in front of a certain street address.

With nothing more than this, 47-year-old Saul J. Allen took less than 15 minutes to dig up the man's name, his home address and his business address.

"The agents bolted out of there so fast they didn't even have time to thank me," said Allen, who is director of the TSCB, a branch of New York City's Magistrate Court system.

Actually, it was just a simple little odd job the TSCB performed for the T-men.

It utilized a system the bureau has developed—a fantastic, part-human part-robot method of tracking down traffic violators in the world's largest city.

New York issues traffic violation summonses by the thousands. They are ignored by the thousands.

Three years ago, it was an almost hopeless problem to track down the 70,000 unpaid traffic tickets outstanding each year. It required matching thousands and thousands of summonses to obtain a single motorist's record of violations.

Then TSCB installed a mechanical brain, the first of its kind in the nation. Allen and his staff of 85 feed their problems to the brain and its answers have made this a tough town for a motorist who sins and then scoots.

"I would estimate the city has collected 1 1/2 million dollars a year in fines that it otherwise would have lost," Allen said.

With the brain in operation, Chief Magistrate John M. Murtagh launched a big crackdown on multiple traffic violators. It's still going on.

The most ignored of all summonses are those for illegal parking. So fines were boosted. They launched a big crackdown on multiple traffic violators. It's still going on.

The most ignored of all summonses are those for illegal parking. So fines were boosted. They launched a big crackdown on multiple traffic violators. It's still going on.

The data on a parking ticket is

Lessons In Ballet Are Interrupted

SCHENECTADY, N. Y. (AP)—Fannies Anonymous, a secret organization of wealthy women, interrupted their ballet lessons to help the police.

The law needed oversized evening gowns for a cerebral palsy benefit show.

Currency Discount Figured In Fine

MASSENA, N. Y. (AP)—"You're fined \$10 for speeding," Police Justice Robert La Plante told the Canadian motorist.

"What's the extra 10 cents for?" Alexander Smart of Cornwall, Ont., wanted to know.

"Discount on Canadian currency," replied La Plante.

Storage Eats Up Price Of Autos

DECATUR, Ill. (AP)—During the last year, city police collected 25 automobiles and one truck in the course of various investigations.

Unclaimed, they remained on the Decatur Auto Wrecking Company lot, operated by Charles Palmer.

At a public auction yesterday, the cars were sold, netting the city \$678.50.

But as city representatives left—cash in hand—Palmer presented them with a storage bill.

It was for \$1,939.25.

LOST 47 POUNDS

Here is a sensible home recipe for taking off extra fat without starvation diet. Just add your droplets for improved Barconate. Mix with grapefruit juice as directed on label. Then take two table-spoonfuls twice a day.

If the very first bottle doesn't show you the way to get rid of the extra pounds for your money here.

Mary E. Meyer, 705 E. Barton, Temple, Texas, states as follows:

"I wrote you in January that I had lost 47 pounds taking Barconate. Since then I have taken two more bottles and lost an additional 7 pounds, making a total of 54 pounds. I now wear a size 36 dress, instead of 44. When I started to take Barconate, I weighed 218 pounds. I now weigh 164."

graduate with his high school class May 20.

Airman Herrera enlisted in the Air Force in late spring of 1952 after completing his junior year at Pojoaque Valley school in Santa Fe, N. M.

Since enlisting in the Air Force, Herrera has taken the required courses and GED tests to gain his diploma.

He was invited to rejoin his class mates for commencement exercises.

And that he will do. Herrera departs Webb Friday and five days later he will be a bona fide graduate, sheepskin and the works.

SPORTS

Webb's Dusters divided a softball doubleheader with Kirtland AFB at Albuquerque, N. M., last week, winning the nightcap 5-2, after losing the opener 11-3.

Face-setting Air Base Headquarters maintained its one-game lead in the Squadron Softball League race last week by winning two more contests. This gives AB nine wins in ten outings.

Pilot Training's Tryhards trampled Supply, 4-0, to take over sole ownership of first place in Wednesday Bowling League standings.

Field Maintenance took over the top run in Central Bowling League firing by shutting out Air Base Headquarters, 4-0.

Cost-Of Bases In England Listed

LONDON, May 13 (AP)—Construction and maintenance of American air bases in Britain from July 1, 1951 through the 1953-54 fiscal year are costing American taxpayers \$82,740,000.

George Ward, undersecretary for air, gave the figures in response to a Laborite question in the House of Commons today.

Construction of the bases runs to \$117,600,000, of which America put up \$74,200,000 and Britain \$43,400,000.

Maintenance costs, paid entirely by America, amount to \$8,540,000.
