## Burleson Makes Statement In Congress Re-Election Race

Mar Burleson, veteran congressman from the 17th district today pledged a vigorous, active campaign for the Democratic Primary nomination for re-election.

Burleson said he feels there are those other things for which the Government was designed and, of course, it costs money. "Such things as the conservation of our natural resources — caring for God's gifts to people that they may be preserved for future generations," he said.

Burleson also said that the individual, groups of individuals or local governmental entities are unable to cope with matters of flood control and, in many cases, an adequate water supply. "We have got to look to the future if our area progresses. For one thing, this means water is a priority concern."

"The Federal Government has assisted our area in numerous respects in coping with some of these problems. We have our share of flood control projects and our share of attention to those now in the planning stage. An example is the effort to find an answer to the flood threat in Abilene and several other places.

"An example of other Federal activity in our area is, of course our military installations new Post Office buildings and other Federal interests which are proper and needed."

Further, Burleson said that he "certainly subscribes to the idea that the Government should help the elderly and those people who are unable to help themselves."

Burleson has been an implacable foe of the constant encroachment of the Federal Government into the area of State and local affairs.

"As the Federal Government has grown to its colossal proportions, the threat of centralized power in Washington has increased," Burleson pointed out. "To this, I am opposed, as my actions have proved."

"Big Government and high taxes are the result of many activities of the Federal Government which should be reserved to the States. Big Government with its far-flung operations has created needless waste and extravagance."

Burleson stated he was proud of the "trust and the confidence placed in me by the people who send me to Congress — and to violate that trust in any respect would be unthinkable."

He urged residents of the 17th District not familiar with his background of service to investigate the record he has made — "And if you believe I have been faithful to duty and worthy of your continued support, then your active participation in my campaign will be greatly appreciated."

Well-known thorough Texas, Burleson is a native of the 17th District. He was born and raised on a farm between Anson and Stamford in Jones County. He attended rural school, and graduated from Anson High School.

Burleson is a former County Judge and County Judge of Jones County. He was appointed an FBI Agent, and served in a number of assignments over the U. S. He served in the Navy in World War II, duty in both the Atlantic and the Pacific.

Burleson has consistently returned to a sounder policy and the cutting of unnecessary and extravagant federal spending.

Burleson has tried to see that tax money is spent as wisely, and as judiciously, as would have been spent if it had been in my place," Burleson said. "The record will tell you that on many occasions I have found myself in the minority — especially on needless spending of taxpayers' money. I am proud that I have never failed to exercise the right to do as I thought."

"I have voted for expenditures below that recommended by the Executive Department, and far below that appropriated by the Congress, except in the field of national defense," Burleson said. "When it comes to the defense of this Country, I have

## Out of the Bowling Bag

**By RALPH SITLER**  
Believe it or not, we had another first place winner at the Stephenville singles tournament last weekend. Ray Harbin of Eastland and a member of the Volunteer Fire Department rolled a 1286 for six games including handicap.

Others who did good were Holman Bagwell with a 1203, Jerry Carter rolled 1149, J. D. Johnson rolled 1217, Bill Jordan rolled 1226, Benny Skinner rolled 1154, and Leo Gann rolled 1129.

Our housewives party was another success with 30 ladies joining in the fun. Mrs. Janie Swift was the lucky winner of the drawing prize, which was a blouse sponsored by the Mode O'Day Shop of Eastland. Other ladies won free games, etc., given by the Fiesta Bowl each week.

The Couples League met Thursday night at 7 p. m. to award trophies and to form a new summer league. By the way, more couples are needed for this league so if you are interested, call the Fiesta Bowl.

Final standings for the

couple's league are as follows: 1st place team, Mr. and Mrs. Mack Heart and Mr. and Mrs. Howard Langford; 2nd place, Mr. and Mrs. Holman Bagwell and Mr. and Mrs. Gene Bagwell; high individual for men, scratch, J. D. Johnson of Ranger rolled 246 for the season.

High handicap men's game for the season was Bill Beck of Ranger and the high game for the season was Sara Peel of Eastland with a score of 237. The high single game for the season was Peggy Beck of Ranger with 249. Howard Langford had a 620 scratch for the high series for men (season). Sara Peel had 587 scratch for the high series woman's game. Men's handicap series was 686 rolled by Mack Heart and in the women's handicap series Sara Peel bowled 659.

J. D. Johnson was awarded a gold belt buckle from the American Bowling Congress for being the most improved bowler of the men for the season with 18 pins over average. Mrs. Birt Stevens also was awarded a prize, a gold pin for being the most improved woman bowler of the season with an improvement of 13 pins over average.

## Little Moisture Recorded During Month Of March

Only two days in March brought rain to Eastland County, according to a report from Weather Observer James K. Smith. The .02 inch rain on March 28 plus the .09 inch rain that fell on March 29 left the land rather dry with a total of only .11 inches of precipitation for the entire month.

Average rainfall for March is 1.59 inches. This year, the county was shy 1.48 inches, the report shows, and last year, it was 1.05 under average with a total of .54 inch for March.

Rainfall during February of this year totaled 1.42 inches which was .04 inch over the average of 1.38 inches. In 1965, precipitation in February totaled 2.10 inches, .72 inch above average.

## TIDBITS...

(Continued from page 1) which could supply water.

E. E. McAlister, manager for the Upper Leon Soil Conservation District, recently had this to say in a prepared release on these projects:

"Texas-size progress is being made in the small watersheds program.

"This progress is possible only because of the teamwork by dedicated local people working through soil and water conservation districts, county commissioners courts and municipalities. Federal and State organizations can and do give considerable help but the real prime movers are the local people." Watershed planning is completed or under way on 95 Texas watersheds involving 13,800,000 acres, 8 per cent of the State's total land area.

"Almost a million acres of productive land subject to flooding will be protected, including urban and built-up areas.

"More than 1,060 floodwater retarding structures and 100 miles of channel improvement have been completed to date. The structures, in addition to reducing floods, provide opportunities for many other types of water management. For example almost 60 square miles of water surface provided by these structures are being used for public and private recreation. Fishing, picnicking, swimming, boating, water skiing, camping and other kinds of family recreation are available because of these structures.

"Many of these 20- to 70-acre lakes are located in sections which formerly had few if any such facilities.

"Towns and cities are making use of the impoundments for storage of present and future supplies of water for municipal and industrial use.

"Construction of these projects often means a real boost to the local economy. More than \$204,000,000 of Federal funds have been authorized to date for these projects.

"More than \$90,000,000 of these funds have been spent to date. Annual expenditures of Federal funds now average about \$11,000,000. Substantial expenditures of local watershed funds boost these figures and higher.

"Folks in all parts of the state realize these projects

# Did You Ever Think of Getting Your Easter Bonnet From A&P?

We don't sell Easter bonnets but...  
we suspect many an Easter hat  
has been paid for with money saved by shopping A&P.

Are we implying that A&P has the lowest prices  
on all items all the time?  
No!

There is no store that can make that claim.

What we are saying is:  
if you're interested in your total food bill,  
if you're looking for the best values  
for your food dollar, A&P is the store for you.

It's a little late for this year's Easter bonnet,  
but start shopping A&P this week, anyway.

It won't be long before  
somebody in the house will need a new pair of shoes.

Is this a good reason for shopping A&P? It's one of many.
