FUN BEFORE HOME STRETCH—Howard County Junior College students had their fun during Pioneer Week, but they have laid it aside for exams, which are just around the corner, commencement, starting of summer school and other weighty activities. Upper left Robert Hobbs, Betty Gutte, Ray Nall and Colleen Davidson chat in front of the administration building. Upper right school goes on, but with a western touch with Dave Watt, John Stanley, Joyce Sewell and B. D. Mason riding herd on typewriters. Lower left, President E. C. Dodd, sporting a bandana, talks with R. L. Heath and Wesley Deats, who headed up arrangements as acting head of the student council. Lower right, Charles Reid, Dave Platt, Mickey Butts, council president, Ladd Smith, and Walter Eubanks engage in a little "corral" talk. With only one more week left before commencement activities, students aren't bothering about cowboy regalia. (Culver Photo).

DOWN THE HOMESTRETCH—

County Junior College Students Prepare For First Commencement

With Pioneer Week out of the way, Howard County Junior College is heading for the homestretch in anticipation of the school's first commencement on June 6.

Baccalaureate has been set for one week from today at 8 p.m. in the First Baptist church. The Rev. Lloyd H. Thompson, pastor of the First Christian church, is to deliver the sermon. Invocation will be by Dr. C. A. Long, pastor of the First Methodist church, and Dr. P. B. O'Brien, First Baptist minister. The college ensemble will sing under direction of Eddie Lou Haug. There are eight to graduate from college, 10 from the (high school) academy.

For the commencement at 8:30 p.m. on June 6 at the First Methodist church, Grady St. Claire, dean of the Corpus Christi Junior College, will be the speaker. The Rev. A. B. Cockrell, Coahoma Methodist pastor, will offer the invocation and the Rev. Lee Vaughn of the Knott Baptist church the benediction. Mrs. Omar Pitman will play the processional and recessional and E. C. Dodd, president, will recommend candidates to L. H. Thomas, president of the board.

Dodd, incidentally, recently was tendered a five-year contract by the board as head of the college. Besides exams and commencement, two other matters of concern are in the offing for the college. One is the opening of the first term of summer school on June 9. A full slate of subjects will be available. Interestingly, the college will be among the few in the nation that will offer an air-conditioned plant, having equipment installed when the building was a hospital area for the bombardier school.

The other matter affects the college no little, but outside its activities. That is the circulation of petitions for election by which voters in the county-wide district, if they so choose, could grant authority to increase the rate up to 50 cents.

College officials anticipate that the 250 enrollment for the first year, which was in excess of expectations, will be exceeded substantially in the autumn when the second year gets underway. Some \$10,000 of natural science laboratory equipment is in transit and about \$20,000 more on order to better equip the college for probable demands. These are financed out of a portion of the original land fund, \$150,000 of which may be used only for building.

Carry-Over Cotton Lowest Since 1929

Carry-over cotton in the United States August 1 is expected to be about 3,000,000 bales—80 per cent less than last year and the lowest since the 1929 carry-over of slightly over 2,250,000 bales—according to estimates received here by M. Weaver of the AAA office.

Total supply for the 1946-47 season is estimated at 16 1/2 million bales, equal to about 80 per cent of that available in 1945-46.

Tractors In County Get Severe Tests

Howard County farmers are putting their mechanized equipment to a severe test in the wake of recent rains, and in some cases the virtual "army" of farm tractors is being called upon for almost "round-the-clock" service.

Something less than half a dozen farms in the county are without tractors, and any reminiscing about the days before mechanized farm equipment is enough to make the farmer of today thankful for modern developments, especially in view of current agricultural conditions. The horse and mule may still have their respective places in the nation's agriculture, but their value is approaching the nadir in West Texas.

In fact, farmers in this area are finding their tractors and equipment hard put to stand the pace, not because of mechanical deficiencies but because of size, and current trends are toward larger tractors.

Estimates now place the total number of tractors in Howard county at more than 1,800. Most of the machines, however, provide two-row equipment, and there is a definite demand for larger machines that will accommodate four rows at a time.

A majority of the tractors in Howard county at present furnish an average of 20 h.p. each and consume approximately two gallons of fuel an hour when in operation.

Virtually all tractors are working at least 10 hours a day at present, according to reports during the past week, and many are working 15 to 18 hours out of every 24. In some cases where it is imperative that work be completed in the shortest possible time, the tractors are kept running through the night.

Nearly Cuts Off Hand To Spite Her Spouse

SANTA MONICA, May 24. (AP)—Police say this may have been the case of Mrs. Geraldine Gladys Le Vay, 35, nearly cutting off her

right hand to spite her spouse. During an altercation with her husband, they said she went around their house and punched out every window with her fist. She was treated at a hospital for multiple cuts.

WHICH HALF OF YOUR HOUSE IS INSURED?

Silly question? No indeed. Many folks today have little more than half the present value of their homes insured... values have increased so greatly. How about YOURS? We'll be glad to help you check. And while we're at it, let's investigate all your property insurance. Planalysis will give you the complete picture on one sheet. No charge. Come in or phone.

'Yen' Of Local Tailor For Emblem Pays Off

An inventive turn of mind, plus a "yen" for a distinctive badge of his trade, are beginning to pay off for a Big Springer.

He is G. C. Potts, who has patented, and is having manufactured for retail sales distribution, a novel type of the clip which is emblematic of the tailoring trade, a trade Potts learned 35 years ago.

The pendant-type clip features, at the bottom, a tailor's "goose" (heavy flatiron to you), which is supported by a pair of open scissors. The scissors in turn are topped by a pair of cleaner's spotting brushes, and these suspended from sections of simulated measuring tape, which arch up to fasten to the clip.

Potts says it is the only such emblem he knows of that is representative of the trades of tailor, cleaner, presser and alterations workman. People in the trades have "taken to it."

He began to think about such an emblem many years ago, when he first fashioned a tailor's goose out of a piece of brass and made a watch charm of it. The design of the present clip (the gadget is also being made as a watch chain emblem and a ladies' lapel pin emblem) came to him over a period of time.

He spent many long months in getting patent rights, going through the usual bureau red tape. He discovered that a button with tailoring emblems along the same lines had been designed back in 1868, but the patent on this had run out.

Potts finally got his patent five years ago—it's good for 14 years in the US, five in Canada—and

immediately ran into manufacturing difficulties because of the war. There were no metals, manufacturing jewelers did not have enough labor to take on new designs.

Some months ago, the Big Spring man made a manufacturing deal with a New York metal-fabricating company, and this firm has turned out for him attractive clips of Sterling, and gold-plated Sterling.

Potts so far has bought the manufactured clips outright, and has been selling them himself, to jewelry stores and direct to the tailoring trade. He is hopeful that he may make a connection with a

Exhibit Of 60 4-H Calves Now On Feed Set For Club Field Day

Some 60 4-H club calves now on feed in the county will be exhibited to the public in a group for the first time on June 11, when the Big Spring Junior chamber of commerce sponsors a club field day at City Park.

The event is scheduled to begin at 10 a. m. and continue until 4 p. m. The 4-H'ees will fetter the club boys and their parents at a barbecue in the park during the noon hour.

The club members will participate in several demonstrations at the field day, which will include a complete display of prize ribbons won during the 1946-47 livestock showing season. They will exhibit classified displays of grasses and various wool grades.

Two club boys will demonstrate correct preparation of calves for showing, and four others will demonstrate preparation of wool for competitive exhibition.

S. Jones To Run For Louisiana Governor

LAKE CHARLES, La., May 24. (AP)—Sam H. Jones, Lake Charles attorney who served as governor of Louisiana from 1940 until 1944, announced today that he will seek nomination to the governorship in the 1948 Democratic primary elections.

Jones led a reform ticket which swept the remnants of the Huey P. Long forces out of power in the 1940 primaries. A Louisiana governor cannot succeed himself directly, and he returned to private life when his term ended.

manufacturing jeweler who would make and distribute the pieces on a royalty basis.

Potts has done some advertising himself in tailoring trade journals, and says response has been very gratifying from all sections of the country. He has presented his clips to the president of the National Cleaners & Dyers association, and to the publisher of the trade's top magazine, National Cleaner and Dyer.

Potts has resided in Big Spring for a long time, where he was a long-time tailor. He apprenticed in that trade back in 1912.

Mass Burial For Unidentified Dead

HOUSTON, May 24. (AP)—Mass burial of the unidentified dead of the Texas City disaster has been set for Sunday, June 8, it was announced here today, following a meeting between Mayor Curtis Trahan of Texas City and the dead body commission.

The hour of services and other details have not been worked out, it was said.

Details will be worked out by the funeral committee of which R. Victor Landig of Houston is chairman.

Landig said that by the date of the funeral services it is believed that there will be no more than 60 unidentified. There are now 95 unidentified.

Mayor Trahan said a site is being sought northwest of Texas City for the memorial cemetery.

The Belgian Congo is the world's principal producer of industrial diamonds.

Negro Baptists To Get Chapel

One of the chapels at the Big Spring Bombardier School will go to the Mt. Bethel Negro Baptist church, it was learned Saturday.

Information on the disposition of the other chapel at the Big Spring Bombardier School was not available immediately.

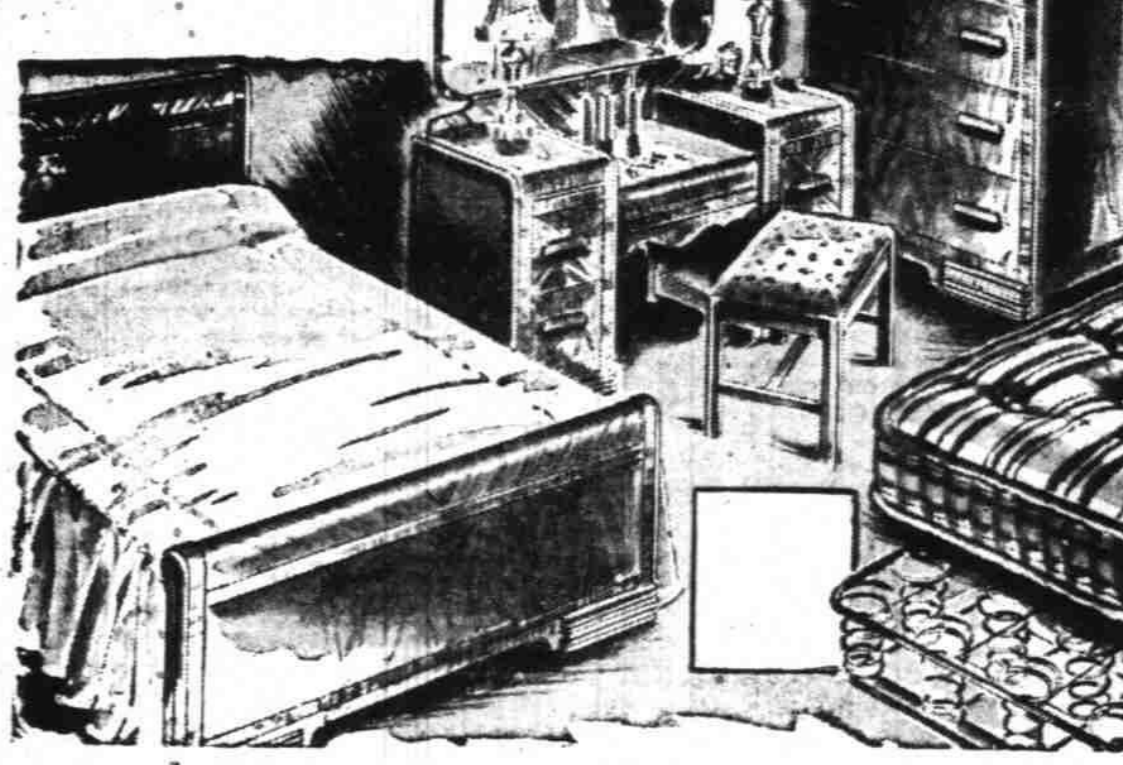

The Mt. Bethel church, which is without a building, was notified by the chief of the chaplain's corps, who has charge of disposition of the surplus chapel properties.

Officials of the church Saturday mailed a \$1,000 check in order to qualify for the purchase price in that amount. The chapel will be moved from the site to a location in the northwest part of the city. Church officials and an advisory committee of white churchmen likely will confer this week on moving plans. It was estimated 10 or more applications had been submitted for the two chapels.

50TH LEGISLATURE FADING—

Fast Action Planned To Keep Important Bills On Calendar

AUSTIN, May 24. (AP)—A last-minute effort to ram through the fading 50th legislature many important bills in danger of dying on the calendar will compete with final action on appropriations measures next week.

Comptroller George W. Shepard's new estimate of \$218,000,000 as the amount available for spending, as contrasted with about the same amount already spent or in prospect of being spent, brought appropriations and anticipated revenue into balance and apparently disposed of the big issue of spending versus taxation.

With most of their arguments swept away by the official estimate of increased revenue under present tax laws, the new-tax advocates were expected to protest bitterly. But they were not expected to get anywhere with either of the two tax bills pending.

Fierce competition among members carrying the ball on numerous such measures is expected to keep both House and Senate on the job long hours after what may be its last week-end recess of the session. This could also prolong the session another week beyond June 1.

The session's chief accomplishments thus far have been record-breaking appropriations for public education, including the \$55 per capita bill, the \$2,000 minimum teacher salary bill and the mammoth rural aid bill. Establishment of the Texas State University for Negroes and the A. and M. for Negroes and approval of submission of a constitutional amendment to give all the other state-supported schools a \$60,000,000 building program have been other top-flight legislation in the education field.

Outside education, the 50th session has concentrated on labor-

Former Ackerly Student To Get Masters Degree At Age Of 19

ACKERLY, May 14. (Sp) — Glenn Costin, former local resident and a graduate of the Ackerly high school, is scheduled to receive his master's degree at the early age of 19 when he completes his graduate work at Hardin-Simmons university in Abilene this summer.

He is the son of Mr. and Mrs. A. G. Costin, and was graduated from the Ackerly High school in 1943. At the age of 16 he entered H-SU, and in two years received his BA degree.

Costin is now taking four courses to complete his work for a master's degree in government and history, which he expects to receive in August. In addition, he teaches two government courses at the univer-

sity, and substitutes occasionally for Dean W. A. Stephenson. He holds a scholarship to Brown University in Providence, R. I., and plans to enter that school in September to work on his doctor's degree in political science.

While an undergraduate student at H-SU, Costin took an active part in several school activities. He played center on the 1944 varsity basketball team, which at that time was the only intercollegiate sport participated in by the school. In 1945 he was president of the senior class, and he served as vice-president of the student body until June when he entered the Naval Air Corps. He was released by the Navy in April, 1946, and placed on inactive duty status.

Costin is a member of the Alpha Chi Honor Society, and of the National Social Science Honor Society, Phi Gamma Mu. He was elected this year to Who's Who in American Colleges and Universities.

Reserve Crews Will Fly With Regular Airmen

A new Army Air Reserve Training program permits qualified B-29 reserve crews to fly with regular AAF crews, Lt. Col. Irvine H. Shearer, commanding officer of Hensley Field, Dallas, has announced.

The 707th squadron which is to be activated as part of the 309th bombardment wing will be made up of officers and enlisted reservists of the Lubbock area which have military specialties of B-29 crewmen. The reserve crews will participate in combined training activities of the 7th bomb group and the 309th bombardment wing between June 17 and July 1.

Rubber Recession 'Temporary'

PENANG, May 24. (AP)—Dr. Wallace E. Cate, an official of the United States Rubber Co. and assistant manager and director of Malayan American plantations, said today the present recession in the American market is only temporary and the outlook for rubber is not so gloomy as the present price slump indicates.

Cate is in Malaya on a visit in connection with rehabilitation of the M. A. P. estates, which were badly damaged during the war.

Cate said he did not feel pessimistic over the present price slump. It is true, he said, that a recession had set in but he did not think it would last long.

The development and improvement of synthetic rubber presented a challenge which the Malayan plantations must take up, Cate said, by raising the quality of natural rubber and thereby raising its desirability. He said the continued availability of synthetic rubber would prevent "runaway" prices for natural rubber in the future.

A similar optimistic note on rubber was sounded by H. E. Nixon, director of Batu Lintang Rubber Co. speaking at a meeting of the company today. He deplored the prevailing nervousness over the price drop and said all slumps are precipitated by scare headlines.

He advocated the restoration of the pre-war international rubber regulation scheme as a stabilizing factor.

Dr. Snider, Geology Professor, Succumbs

AUSTIN, Tex., May 24. (AP)—Dr. Luther Crocker Snider, 64, University of Texas professor of geology, died of a heart ailment at his home here early today.

He was prominent as a consulting geologist in the oil and gas industry from 1916 to 1941, when he joined the university faculty. His book, "Earth History," written in 1932, is now widely used in universities throughout the nation in connection with the study of geology.

FIRST ALL-NEGRO JURY—The first all-Negro jury in local court history Wednesday found Roy McKnight, 28, left, Abilene Negro, guilty of drunkenness and assessed his fine at \$20. George T. Thomas, acting as city attorney in absence of City Attorney Charles Sullivan, is shown questioning Officer Aaron while City Judge W. E. Greenlee presides. Members of the panel, which may have been the first of its kind in the state, were I. C. Sewell, Rogers Brown, Nathan Lankford, Oliver Reed, Tommie Biggs, and Hillery Brown. (Culver Photo).

Outpost Locations Staked In Mitchell

Two outpost locations while seven in Mitchell county while seven tests in the Coleman ranch pool of the northwest part of the county moved in various stages of completion.

In Howard county Stanolind No. 1 T. H. Gaskin, six miles southwest of Big Spring, projected for 12,300 to explore the Ellenburger, was reported unofficially below 4,000 feet. It is located in section 7-33-1s, T&P.

L. A. Gillespie, et al of Houston staked No. 1 R. A. May, a wildcat, in Mitchell county. It will be located 330 feet off of the northwest corner of the west half of the northwest quarter of section 66-27-1s, T&P, southwest of the Westbrook pool. Tobe Foster staked a north offset to this No. 1 R. S. Brenand, Sr., which is being completed as a clear Ford discovery two and a quarter miles west of the north end of the Westbrook pool and two miles south of the Coleman ranch pool. The test will be his No. 1 C. R. Womack and will be 350 feet from the south and 2310 feet from the west lines of section 22-26, H&TC.

Busiest spot was the Coleman ranch area. Butram et al No. 2-A Lucy Mildred Coleman cleaned out after shot at 2,610 feet to 2,644 feet and had 1,500 feet of oil in the hole; No. 3-A Coleman, acidized fifth 3,000 gallons from 2,660-2,711 feet and was steaming; No. 4-A Coleman logged pay from 2,796-2,844 and shot the section with 600 quarts; No. 5-A treated pay from 2,575-2,582 feet with 1,000 gallons of acid and was testing; No. 6-A Coleman injected 3,000 gallons of acid in pay from 2,600-2,705 feet. All tests are located in section 70-97, H&TC.

Doswell & Snowden No. 1 R. L. Solomon shot with 300 quarts from 2,680-2,880 feet after setting seven-inch string at 2,562. The 400 feet of fluid in the hole was increased to 1,000 following the shot, and operators prepared to test. Location was staked by Doswell & Snowden for R. L. Solomon No. 2, 590 feet north of No. 2 and 330 feet west of the east line of the lease, the southwest quarter of section 71.

C. W. Guthrie spudded his No. 1 Lucy Mildred Coleman in section 76-97, H&TC. Willbanks Bros. No. 1 Lucy Mildred Cole-

Phillips University Building Destroyed

ENID, Okla., May 24. (AP)—An early morning fire completely destroyed the three-story brick administration building of Phillips University here today, including science laboratories, a museum and college records.

The structure, built about 1907, was the oldest on the campus. No estimate of damage had been made.

President Eugene S. Briggs said the building will be replaced.

Ackerly Pupils Depart On Trip

ACKERLY, May 24 (Spl.) — Members of the junior and senior classes of Ackerly high school departed Saturday morning on the first of two scheduled trips for students at the school.

Accompanied by Superintendent C. L. Mitchell and Mr. and Mrs. K. J. Baggett, the juniors and seniors planned to visit points of historical interest in San Antonio and possibly other South Texas points.

Pupils of the sixth, seventh and eighth grades are to leave Monday for a two or three day trip to Chislov. Miss Mamie Clanton and Mrs. Bradley are faculty members who will make the latter trip.

Joseph Beane, 74 Succumbs Here

Joseph R. Beane, 74, a resident of Midland and an uncle of Roy Reeder of Big Spring, passed away in a local hospital after a week's illness at approximately 1 a. m. Saturday.

Services for the deceased will be conducted at the Ellis chapel in Midland at 3 p. m. today.

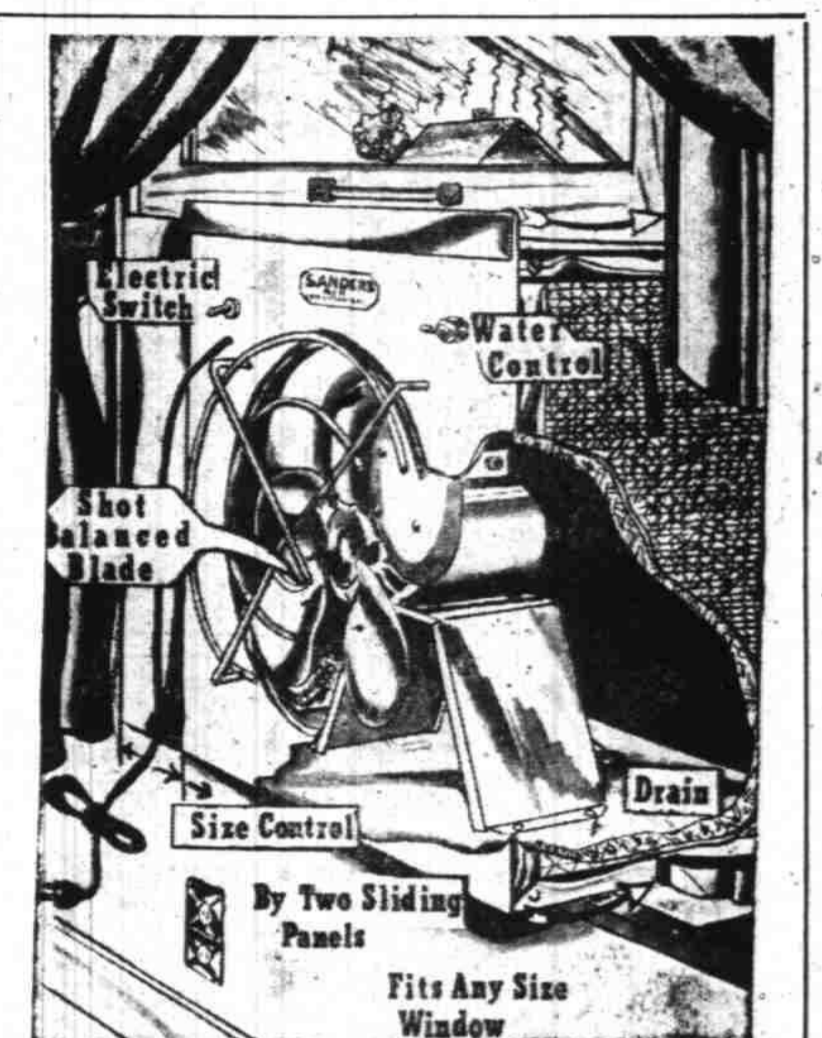

Beane was formerly in the grocery business in Midland. Survivors include his wife, one daughter, Mrs. Loyse Ann Hicks of Austin, and a son, Joe Beane, Midland.

The body was prepared for burial and transported overland by Eberley Funeral home of Big Spring.

Good way to keep a Honey Happy

THINK back to the days when your Buick stood proud, shiny and new at your door. A touch of your toe and that two tons of car romped away gentle as a breeze — and just as obediently glided to a soft, sure stop.

That's the kind of driving that's right in the heart and soul of Buicks. It's there for you to have for years and years — especially when your car gets the kind of care such a honey should have.

That doesn't mean just filling her up and seeing that the oil doesn't get low. Nor a periodic lube job done with "one-kind-for-all" lubricants. It means competent care by men familiar with every part of a Buick — by men who know Buicks best and have an interest in seeing that you get the greatest satisfaction from yours.

Every detail of our service is aimed at this goal. The men are specialists on Buicks.

They work with Buick-designed tools. They're backed up by a parts department stocked with Buick-engineered parts that are just made for Buick cars.

So you see the difference between ordinary service and Buick car care. It's the skilful, considerate care that keeps your Buick always a Buick. It's the kind of care which proves that next to you, we like your Buick best.

TIME TO REPOWER?

Suppose your Buick is crowding the big figures in high mileage. Suppose you don't want to wait for that new one.

Here's a happy answer.

If your Buick's any model year from 1937 through 1942, you can make it factory-fresh as far as power is concerned with the Buick Power Package.

This is all the major assembly of a new Buick Fireball engine except carburetion and electrical systems. It puts good-as-new zip and performance into high-mileage cars.

Changing over is handled in a single operation—takes less time and often costs less than a really thorough overhaul and replacement job. More satisfaction, too, because you'll have a new factory-built engine.

Easy payments if you wish. Come in and talk it over.

The Week

ably not the \$80 fine the jury assessed either.

Frank Loveless is having good results on his experiment with Austrian winter peas on his place near Coahoma. Despite steady grazing well into March, vines now are knee high. He plans to disc under mightily for green manure purposes.

Inquiries are still coming in to the city engineer's office about paving, but only three blocks have saped up for operations to date. The city is ready to go on any stretch of two or more blocks when it is all signed. It doesn't have to join existing paving.

1,000 Lbs. Butterfat Produced By Holstein

WACO, May 24. (AP)—The first Holstein cow in Texas ever to produce as much as 1,000 pounds of butter fat in one lactation period is L. Janice Corona Starlight No. 2,006,900, owned by the Neale Farms of Rt. 6, Waco. The Holstein recently completed her 365-day lactation at three

Waitress Hits Boss With Chocolate Pie

JACKSON, Miss., May 24. (AP)—A 30-year-old waitress, who obeyed an urge to massage her boss' face with a chocolate pie, was freed today of an assault charge filed by the boss. But there's a "waitress wanted" sign near the door of the Ritz cafe here.

The waitress, Diana Gaunce, was freed yesterday in city court when the boss, Chris Costas, failed to appear to press the charge. Costas said after the court action that "everything is forgiven." Miss Gaunce said she thought that her chocolate pie maneuver was justified and that she might do it again "if the same sort of situation arose."

She said she resented Costas' "attitude," but did not explain further. milkings daily to produce 27,408 pounds of milk and 1,097.3 pounds of butterfat. The figures were announced by J. W. Davis, of the A&M College Extension service. The same cow set a state record in the 305-day division last year and was placed on the national honor list as a result of her 1946 production.

Blast Furnace To Be Lit By Aug. 1

DALLAS, May 24. (AP)—Plans have been made by the Lone Star Steel company to light the blast furnace at Daingerfield by Aug. 1, Dr. George H. Anderson, vice-president, announced today.

E. B. Germany, trustee of the money received by Lone Star from the sale of common stock and debentures, on the authority of the executive committee, which met in Dallas yesterday afternoon, released \$1,250,000 into an operating account. This action allows the Daingerfield plant to begin operations without further delay, he said.

George D. Ramsay, vice-president and manager of operations, immediately took steps to put the coal mines in Oklahoma in full production and contracts were made for the purchase of supplemental coal from southwestern Oklahoma and Arkansas mines until coal begins to arrive in Daingerfield from the mines near McAlester, Okla., involved in Lone Star's lease-purchase from War Assets Administration. Ramsay estimated that the coke plant at Daingerfield will be in full production by July 1.

Simultaneously Ramsay announced the appointment of three top officials for Lone Star. Dewey G. Burns was named coke plant superintendent, Arthur B. Drescher, geologist, and Cam Bell Cameron will be resident engineer of the coal mines with headquarters in McAlester, Okla. Cameron arrived in Texas this week and Burns and Drescher are expected in Dallas within a week. All three are experts in their respective fields with many years experience in coal and iron ore developments.

New Instructor In English Named

Imogene Wells, of Carlsbad, N. M., has been appointed head of the English department at the Howard County Junior college, E. C. Dodd, president, announced Saturday. Miss Wells is scheduled to arrive here in time to assume her duties at the beginning of the first summer term on June 9. She holds both bachelor of arts and master of arts degrees from the North Texas State Teachers college, Denton, and has nine years of teaching experience and six years of business experience. Miss Wells will succeed Mrs. Ann Covey on the HCJC faculty.

WALL STREET May 24. (AP)—After its best recovery week since February, the stock market today turned in a narrowly irregular and sluggish performance with leading the slowest in three years. October and bond markets, as well as the exchange floor, were sparsely populated.

COTTON NEW YORK, May 24. (AP)—Cotton futures turned irregular today in moderately active dealings, closing 50 cents a bale lower to 75 cents higher.

Surplus Sale To Start On Monday

A variety of surplus materials, including hospital and dental supplies, office supplies and several miscellaneous items will be offered for sale in small lots beginning Monday at the Pyote Army Airfield, Capt. Waldo J. Bither, adjutant, has announced. Capt. Bither said the public could inspect the offerings between 8 a. m. and 4 p. m. on May 28-29 and June 2-3-4 in Salvage warehouse No. 6 at the Pyote field.

Courthouse Lawn Concert Set Monday

A concert on the courthouse lawn at 7:30 p. m. Monday will be played by the 75-piece White Oaks school band.

The band, representing a school eight miles from Longview, is due to arrive here at 5 p. m. Monday and will spend the night in Big Spring. Roy Swicegood is director of the unit and is in charge of the annual tour which climaxes a year's work for the young musicians. After touring Carlsbad Caverns and other points, the band will spend the night here June 2 on the return trip.

Services Scheduled For Still-Born Baby

Services will be held in Stanton today for the infant daughter of Mr. and Mrs. William O. Woods. The child was dead when born at 8:30 p. m. Saturday. Survivors include the parents; three brothers, Howard A. Woods, Harlan Woods, Kenneth D. Woods, Stanton; Mrs. Marion LaVelle Melton and Doris Jean Wood, Stanton. Nalley Funeral home is in charge of arrangements.

Knott-Line School Trustees Offer Bulk Of Present Plant For Sale

Trustees of the Knott County Line Independent School district Friday evening voted to offer six frame buildings for sale.

The structures, which represent the bulk of the present plant are being replaced by a modern, brick structure which will be ready for occupancy by Sept. 1. H. E. Barnes, superintendent, said the board reserved the right to accept or reject any and all bids. Offered for sale bids until 2 p. m. on June 14 at the office of County Superintendent Walker Bailey are one 5-room (high school) structure, three 2-room buildings (home economics and two grade structures), and two 3-room buildings (shop and grade school).

Buildings will be numbered for identification and opened for inspection next week. Bids will be on the basis for removal from site. Anticipating occupancy of the new building for the fall semester, the board Friday ordered \$5,000 of the latest type seats and class

Missionary To Talk At Baptist Service

The Rev. Gilbert W. Reid, South-west missionary for the American Association of Jewish Evangelism, will speak at both the morning and evening services at the North No-land Baptist church today. The Rev. Reid, who now makes headquarters at Tucson, Ariz., has been here for a series of meetings the past week and plans to be here for other appointments this week.

The Chiropractor and You

No. 9 of a series of articles published in the public interest to explain and illustrate the practice of Chiropractic. STOMACH TROUBLE. All forms of stomach trouble can be classed under two great divisions, namely, the organic and the neurotic. Organic disorders consist of those diseases which involve structural changes in the wall of the stomach. For example, ulcers of the stomach. Neurotic disorders are those conditions wherein the gastric juice is not normal in quality or in quantity. For example, nervous dyspepsia.

There is often a confusing similarity between the symptoms of many forms of stomach trouble. A correct diagnosis is difficult to obtain. That is why one practitioner will often diagnose your case as one thing and another diagnose it as an entirely different condition. However, Chiropractic does not depend for its success upon a diagnosis of the case. The Chiropractor does not concern himself with whether the patient is suffering from gastritis, peptic ulcer or nervous dyspepsia. He knows that something is wrong with the stomach; he knows that there are certain nerves supplying the stomach; and that these nerves branch out from the spine. He knows that these nerves must be trained to carry nerve energy from the brain to the stomach, and that

ALL CARS HAVE ENGINES

BUT IN THE LOWEST-PRICED FIELD

Only PLYMOUTH has a Floating Power Engine

Those who drive a Plymouth for the first time are amazed by its smooth, silent power. This is made possible by Plymouth's patented Floating Power Engine Mountings—scientifically located "cushions" which insulate the engine from the frame.

Here's only one of the many basic advantages which Plymouth offers exclusively in the lowest-priced field. Of 21 quality features found in most

high-priced cars, Plymouth has 20. Neither of the other two leading low-priced cars has half as many.

For graphic proof of the Extra Value you get when you own a Plymouth, see the new Quality Chart at your dealer's. Look at the facts—look at the car—and then you will see for yourself that there's a lot of difference in low-priced cars.

Graduating Class Of Colorado City Will Hear Sermon Today

COLORADO CITY, May 24. — Baccalaureate will be held at 8 p.m. today at the First Baptist church for the graduating class of Colorado City high school.

The Rev. Charles Abele, Big Spring, vicar of the All Saints Episcopal church here, will bring the senior sermon. Students, under direction of William Gardner, will have musical parts on the program. Tuesday students will be featured on the commencement program and Wednesday morning the class will leave in two special Pullman cars for a trip to New Orleans.

With an average of 94.4, Shirley Blum has been announced as valedictorian and Ivan Barber, less than a point behind, is salutatorian. Eighth grade promotion exercises are set for Monday evening with Maidell Lynch, Church of Christ minister, as the speaker, Supt. Ed Williams has announced.

Members of the graduating class are: Calvin Allmond, Ivan Barber, Jr., Tod Biggs, Harley Bolding, Jack Bourland, Thomas Conaway, Francis Crow, Charles Ezell, Eiley Fregia, Jack Gary, Dale Garner, Jackie Gentry, James Graham, J. R. Grissom, Glyn Hamilton, Billy Hammond, Eldon Henry, Jimmie Howell, Doyle House.

Darwin Huff, Rodney Lee, Shelton Miles, Ronald Clay Moore, Fred Nall, James Nowel, S. K. Palmer, I. J. Pierce, James Robertson, Noble Rogers, Charles Smith, Ed Snowden, Wann Sparks, Wortham Strain, Travis Turner, Wendell Turner, George Womack, and Cummins Wood.

Senior Girls: Geneva Beeman, Nell Bloodworth, Shirley Blum, Winnie Colbert, Elmer Dillard, Dalphene Edwards, Leatrice Fisher, Mercedes Fitzgerald, Joyce Frendenburg, Frances Gist, Amy Lou Graham, Floy Gunnels, Nancy Haines, Ray Anne Hamm, Geraldine House, Reba Jackson, Betty Jean Lloyd, Dorothy McCorle, Ilee McGee, Charis Mann, Jean Manning.

Yvonne Mikle, Frances Miles, Felice Nesbitt, Martha Jo Post, Doris Rapdie, Norma Richardson, Elsie Robertson, Gloria Roensch, Virginia Scott, Erma Sloan, Vivian Smith, Betty Stewart, Bobbie Ruth Stump, Clara Ann Taylor, Thelma Ruth Taylor, Charlou Thomas, Ernestine Venus, Billie Williams, Billie Jean Wingo, and Meredith Wood.

Summer School Starts June 2

Twelve subject fields, in addition to eighth grade review, will be offered in summer school, which starts at the high school at 8 a.m. on June 2.

Enrollment will begin at that time, said Letha Amerson, who is to be in charge of the summer session. Closing date will be Aug. 9, and the school will have morning sessions only.

Among fields to be offered are: Language arts one through eight; world history (3&4), American history (5&6), community civics, advanced government, commercial law, Texas history, general mathematics, algebra (1 through 4), plane geometry, commercial arithmetic, trigonometry; and the eighth grade review.

FIRST SUMMER SESSION OF COUNTY JUNIOR COLLEGE TO START JUNE 9

First summer session of the Howard County Junior college will begin June 9, E. C. Dodd, president of the college, announced Saturday.

Dodd, who was recently given a five-year contract by the college board of trustees, expressed satisfaction at the interest students have indicated toward the college's first summer term.

Summer instruction will be divided into two terms of six weeks each. The first term will end on July 18, and the second term will open on July 21 and conclude on Aug. 29. Students will have an opportunity to complete 12 semester hours of college work by attending both terms.

All regular day courses offered by the college will be available

during the summer session with exception of homemaking. Plans for evening school classes during the summer are indefinite, Dodd said. Definite arrangements for evening classes will depend upon demand.

The regular college faculty will teach the summer school courses.

35 Buildings For Sale At Avenger Airfield

Approximately 35 buildings, including barracks, huts, warehouses, a theatre, a hospital and a gymnasium, will be offered for sale for off-site use at Avenger Field, four miles west of Sweetwater, beginning May 30.

The sale will be conducted under supervision of the Grand Prairie regional office of the War Assets Administration. Priority holders will be given preference to June 9, after which non-priority bidders may participate.

Equalization Board Will Meet June 5

County commissioners court, sitting as a board of equalization, will hold their first hearing for oil and industrial property owners, the morning of June 5.

Preliminary reports from valuation engineers, Pritchett and Abbot, retained for more than a decade by the court, indicate that petroleum values may be increased slightly on the strength of price increases and additional development.

No date has been set for hearings on general valuations.

The U. S. federal park system covers more than 21,500,000 acres.

Sing a Song of Smartness!

... a grand old tune that's still popular today—a brand new car that's leading the Style Parade!

OLDSMOBILE SERVICE

KEEP YOUR CAR "IN TUNE"

Whether it's a smart new Oldsmobile... or the car you're driving till your Oldsmobile comes... it will run better and more economically after an Oldsmobile tune-up. Drive in at the Oldsmobile sign for the quality service an Oldsmobile car deserves!

*Optional at extra cost.

"What a thrill to take the wheel of a smart new Oldsmobile!"... You've probably heard these words on your radio. Sung to the tune of "In My Merry Oldsmobile," they form a theme song for thousands of smart owners of brand new Oldsmobile cars. And who wouldn't feel musical in an automobile like this!... the tune of power its engine hums... the rhythm of its coil-spring ride... the lilt of its smoothness of its Style-Leader line!

"You'll be fresh when you arrive, thanks to Hydra-Matic Drive".... No song about the new Oldsmobile would be complete if it didn't mention Hydra-Matic Drive*, the fully proved, fully automatic General Motors drive. There's no clutch pushing with Hydra-Matic Drive*—not even a clutch pedal in the car. And gears shift automatically through all four forward speeds!... See the smart new 1947 Oldsmobile and see for yourself why people say, "It's SMART to Own an Olds!"

FIRST GAME AT 2 P. M.

Dallas Railroaders Play Twin Bill Here Today

Originally scheduled to play one game, the Big Spring Motor company and Texas & Pacific contingent of Dallas will instead play a double-header softball exhibition at the city park this afternoon.

Leon Glenn Bredemeyer, pilot of the Big Springers, is fielding the strongest possible nine against the Railroaders, who drubbed the Cosden Oilers here last year, 13-3.

HAS MAKE MARK OF .480

Humberto Baez Paces Longhorn Circuit In Two Departments

Humberto Baez, Big Springs' versatile pitcher-infielder, is currently setting the pace among Longhorn baseball league hitters with a 15-game mark of .480.

LOOKING 'EM OVER

WITH TOMMY HART

Jose Traspuesto, the Big Spring Broncos' likeable right-hander, will probably be sent home to Cuba for an operation on his right arm.

Baez's mark is six points better than Stu Williams of Ballinger, last week's pace setter.

Baez is also the pitching leader along with Jose Cindan, a team mate. Each has four wins in as many tries.

Big Spring leads in team batting with a robust mark of .322, three points better than second-place Midland.

Satterwhite And Morgan Record 76's In Tourney

Jake Morgan and Bob Satterwhite are tied for medalist honors in the Cadden golf tournament, an event now in progress at the Big Spring country club.

Satterwhite came along Saturday to combine two rounds of 38 for an aggregate of 76, a day after Morgan had stitched together a 39 and 37.

Of the 16 players who had entered play Saturday, Morgan and Satterwhite were the only linksmen in the 70's. Sam Heffer was in third place with an 83 while J. T. Morgan and Marv Miller were deadlocked for fourth, each with an 89.

Other entries and their scores included Rayford Lyles 108, Bob Asbury 92, R. E. Dobbins 104, J. Y. Smith 118, Bill Sandridge 108, Jake Johnson 93, Rip Smith 108, George Zachariah 105, Joe Burrell 115, George Grimes 96 and Speedy Nugent 90.

At least 24 entries are expected to get in qualifying rounds before the deadline, May 31. Match play will get underway Sunday, June 1, and players will take part in at least one match a week. Flights will probably consist of eight players.

The event is being sponsored by Obie Bristow, who is arranging for appropriate prizes.

Broncs Beaten By Odessa, 7-4

ODESSA, May 24. — Losing streak of the Big Spring Broncos mounted to three games as the Odessa Oilers trimmed the Hosses here Friday night, 7-4.

Joe Embrey handuffed the Big Springers with seven hits but the outcome was in doubt until the eighth inning when the Refiners broke loose for four tallies.

Manager Howard McFarland, now playing regularly for Odessa, rapped Pat Patterson, Big Spring hurler, for four singles.

Scoreboard for Broncs vs Odessa game with columns for AB, R, H, PO, A, E.

Two-base hits—Stacey Pearce, Womack. Three-base hits—Traspuesto, Hartfield, Embrey. By Patterson 2, Embrey 2, Erroy, Moreno 2, Viamonte, Del Toro, McFarland, Embrey.

Muny Clubs Take Week's Recess

Muny softball league play will not be resumed until Monday night, June 2, due to the fact that the local professional baseball league team has returned for a home stand.

Legion plays Big Spring Motor and Forsan opposes ABClub in bouts June 2.

Standings table with columns for Team, W, L, Pct.

ROLL FOR A WINNING SCORE Here's healthful, enjoyable competition for indoor sportsmen! Bowl every time you have a chance: bowl here at least once a week, with family or friends.

WEST TEXAS Bowling Center 314 Runnels

DADO MARINO, 30-year-old Hawaiian, (above) goes after the world's flyweight boxing championship when he fights Jackie Peterson of Scotland, the present title-holder, at Glasgow June 11.

Dooley Tames Ponies, 13-2

Dillard White and Jake Turner gave Harry Dooley tremendous offensive support as the latter pitched the Big Spring Colored Sluggers to a 13-2 baseball victory over the Sweetwater Black Mustangs here Friday night.

White and Turner each collected four safeties in as many expeditions to the dish.

Dooley limited the visitors to a single blow. That came in the third round when the Ponies picked up both their runs.

LeRoy Modkins, skipper of the Sluggers, banged out three bingles while Clarence Pollard gathered two.

Dooley struck out 18 of the opposition and was never in trouble. Sweetwater 002 000—2 1 3. Big Spring 230 500 300—13 15 1.

Other scheduled bout of the evening, which would have pitted Big Spring Motor against Forsan, was postponed due to the shower.

Local Tennis Team Plays Here Today

Angelo Matches Start At 1 P. M.

A San Angelo tennis team captained by Raymond DeBerry will meet a picked team of Big Spring netters in a series of exhibitions at the city park courts beginning at 1 p. m. today.

Six singles and three doubles matches will comprise the program. Jack Wallace, former Hardin-Simmons university standout, will play No. One singles for the local contingent. Joe Elrod will be No. Two. Harry Jordan No. Three, J. W. Elrod No. Four, Dave Elrod No. Five and either John Malaise or Walter and Joe Elrod will team for doubles play as will Jordan and J. W. Elrod and Dave Elrod and the sixth man.

Local representatives will repay the visit in Angelo sometime during the summer. J. W. Elrod is the local captain.

Both main courts at the park have been reserved by the City especially for the matches.

Mushball Play Opens Tuesday

STANTON, May 24.—The 1947 Stanton softball season officially gets underway at 8:15 o'clock Tuesday evening when the Lions Club aggregation takes the field against a team sponsored by Jim Webb's grocery.

The recently-completed ball park, constructed with funds raised by the local American Legion post, and located near the high school football stadium, will be dedicated that night.

Four teams have entered teams into circuit play. Others besides the Lions and Webb's grocery include American Legion and Flanagan grocers of Courtney.

The schedule: May 27—Lions vs. Webb's grocery. May 28—Legion vs. Flanagan's grocery.

May 29—Legion vs. Lions. June 3—Flanagan vs. Webb. June 4—Flanagan vs. Lions. June 5—Legion vs. Webb. June 10—Legion vs. Webb. June 11—Flanagan vs. Lions. June 13—Flanagan vs. Webb. June 17—Legion vs. Flanagan. June 18—Legion vs. Flanagan. June 19—Webb vs. Lions.

A schedule for second half play will be drawn up at a later date.

Tigers Play Birds Today

Ynez Yancy's Big Spring baseball Tigers, a semi-pro club, take on the Abilene Brown Eagles in a 3:30 p. m. contest today on the North Ward diamond.

The Bengals split a two-game series with the Midland Colts in their only starts to date while the War Birds have been victors in four of five outings.

Alfredo Chavez, an importee from Monterrey, Mexico, will pitch for the Big Springers while Tom Fierro is assigned to do the catcher's regalia. Isa Mendosa will be ready to enter the fray in event Chavez falters.

Local Fishing Party To Possum Kingdom

A fishing party composed of Mr. and Mrs. Neel Barnaby and family and Tommy Hubbard departed for Possum Kingdom lake Friday.

The group was to take part in the Possum Kingdom fish rodeo, prize list for which has now reached \$50,000.

Two of the remaining 380 tagged fish in the bass lake are listed at more than \$1,000 each.

The Barnaby party is scheduled to return home today.

'DETERMINE YOUR GOAL'—

Error Is Better Than No Effort, Graduating Students Are Told

A series of "ifs" is attached to the promise of the world to youth. E. C. Dodd, president of Howard County Junior College, Friday evening told the 121 members of the 46th class to graduate from Big Spring high school.

Dodd told seniors that they must first of all determine a goal, engage in dispassionate self-analysis, have confidence, loyalty, honor and concern for others.

Reba Roberts, daughter of Mr. and Mrs. Tracy Roberts, was announced as valedictorian with a four-year average of over 93 points. Less than a point behind was Rosalyn Beale, daughter of Mr. and Mrs. R. L. Beale. Third ranking student and highest for boys was Charles Gomez, son of Mr. and Mrs. Fabian S. Gomez.

Less than three points separated the top 15 per cent of the class which made the national honor society, and so close was competition that the division line caught two others by a minor fraction of a point.

Valedictorian and salutatorian honors require three of the four high school years in Big Spring high school; the honor society four years in any high school.

Honor society students were announced by W. L. Reed, principal, as Rosalyn Beale, Frances Bigony, Bill Blalock, Bonnie Beyers, Betty Cawthon, Charles Gomez, Wanda Griffith, Gertrude Hill, Dorothy Hudgins, Minnyone Lomax, Dorothy Loudamy, Joyce Merritt, Reba Roberts, Erma Jean Slaughter, Edna Faye Stevenson, Rose Jo Taylor, Betty Underwood, Billie Jean Younger.

The Bosch-Lomb award for outstanding science student went to Billy Hammack, son of Mr. and Mrs. J. G. Hammack, who recently moved to Eden.

Student speakers gave a packed auditorium their views on opportunity. Edna Faye Stevenson said that training, sometime forgotten, equipped young people later to take advantage of opportunities. She stressed that it was necessary to come to grips with problems of life to have opportunity. Donald Webb had no patience with the theory that the golden day of opportunity was gone. Vast new areas of development during war years opened a vista of unequalled opportunity, he said.

In his address, Dodd told students on generation has a monopoly on independent thinking. He challenged graduates to have an unconquerable spirit, to remember that error is better than no effort, to seek to perpetuate their better self, that "if we dodge the crosses of life, we will forfeit the crowns."

An ensemble composed of Patty McCormick, Carolee Raines, Joyce Howard, Leslie Cathey, Jean Conley, Barbara Lytle, Jeanette Kinman, Frances Bigony and Donnie Roberts sang, and Leslie Cathey, accompanied by Mrs. Nell Frazier, sang Strauss' "Blue Danube." Reed recommended the candidates: W. C. Blankenship, superintendent, declared the class graduated, and Dr. J. E. Hogan, board member, distributed diplomas. Invocation was by Dr. C. A. Long, First Methodist church, benediction by Rev. Cecil Rhodes, West Side Baptist pastor; processional and recessional by Mrs. Aaron.

FIRST IN COUNTY—

Junior College Student Sworn Into New Naval Reserve As Shipfitter

First Howard county to be sworn into the new Naval Reserve—the standby force the US is building to be prepared in time of emergency—is Hubert C. Hodges, 504 Donley street and a student in Howard County Junior college.

Hodges, a navy veteran in the war, was sworn in with the rating of shipfitter, second class. Handling the ceremony was Joe W. Burrell, volunteer recruiting officer in Big Spring, and a naval lieutenant during the war.

Hodges' application was processed through the Lubbock recruiting office, which services this area.

Jas. B. Williams, yeoman 1-c, and David G. West, yeoman 2-c of the Lubbock office were in Big Spring for three days in connection with Naval Reserve work, and especially to promote Naval Reserve Week.

The navy men appeared before the Kiwanis club, the American Legion and the high school graduating class to outline the needs and advantages of membership in the Naval Reserve.

They will make regular Wednesday-Thursday visits to Big Spring, and on next Thursday night will show a naval combat film before the local American Legion.

Cotton Memorial Museum Planned

AUSTIN, May 24 (AP)—J. E. Morgan & Sons of El Paso today were awarded a contract at \$91,435 for construction of the Cotton Memorial Museum building at the College of Mines and Metallurgy, El Paso.

The contract was awarded by the board of regents of the University of Texas at which the College of Mines is a branch. The memorial museum is to be financed with funds from the Cotton estate which was bequeathed to the College of Mines.

THE MARCH OF SCIENCE—

Intensive Plastic Surgery Slated To Aid Disaster 'Facial Cripples'

NEW YORK, May 24 (AP)—Intensive plastic surgery to aid hundreds of "facial cripples" of the Texas City disaster is scheduled to begin by July.

The program, as announced by Dr. I. Daniel Shorell, well-known plastic surgeon of New York, calls for a volunteer team of a dozen specialists to operate on as many possible of the explosion and fire victims with scarred, burned, or mutilated faces.

So far as known, it will be the first such large scale plastic surgery treatment following a civilian disaster, said Dr. Shorell, who visited Texas City at the invitation of Mayor J. C. Trahan.

There are 350 persons in hospitals who need plastic surgery, he said, and perhaps 400 others who suffered some kind of disfiguring wound. Hospital cases include persons who lost part or all of a nose, ear, eye socket, chin, cheek, or jawbone.

People usually magnify even minor defects in their appearance, and some of those who suffered face wounds at Texas City already are developing psychological problems and worries, the surgeon said, feeling crippled by their injuries.

Plastic surgeons from cities in Texas and a half dozen from New York will co-operate in the reconstruction work, Dr. Shorell said. About three-quarters of the face wounds can be corrected as fully

as possible by one operation, he said, but others may need up to a dozen operations in slow stages. A major part of the surgery could be accomplished by a dozen specialists in five or six weeks, he added.

Surgery usually can correct extensive scars and burns, through skin grafts. Plastic surgery itself leave scars, but these are usually hairline type and almost imperceptible.

Rebuilding smashed or missing features is more difficult, but appearances can be greatly improved, he continued. New noses and ears can be built up from borrowed cartilage and skin. Bone can be grafted from the hip for other operations. Such bone transplantations will be made for one man who lost a cheek bone, and for another who lost his right eye, the eyesocket, and considerable surrounding tissue, Dr. Shorell said.

Operations will be started on hospital patients, with non-hospitalized persons urged to come to clinics.

Dalhartan On Trial For Wife's Death

DALHART, May 24 (AP)—Cecil Ryan, 38-year-old painter and longtime Dalhartan, will go to trial Monday before District Judge Harry Schultz. He is charged with murder with malice and for assault with intent to murder with malice. District Attorney Floyd H. Richards said.

Ryan is accused in connection with the stabbing of his 32-year-old wife the former Fyrn Greer, to death early in March; and with the slaying of the throat of Tommy Giles, her 14-year-old son by a former marriage. He has been held since the night of the stabbing in the Dalhart county jail without bond.

Defense counsel is King Fike who retired Jan. 1 as district attorney.

US-Russian Joint Report Is Delayed

SEOUL, May 24 (AP)—The United States-Soviet commission for setting up a provisional Korean government delayed until Monday a joint communique which was scheduled for today.

Sources indicated that both sides required more time for agreement on the wording of their progress report.

Streamers are able to ply 7,500 miles of the Congo river and its tributaries.

Over \$10,000 Spent To Aid Knott, Lenorah Storm Victims

Expenditures of over \$10,000 have been made by the American Red Cross in assisting, in medical care and property replacement, families of Howard and Martin counties who were victims of the May 11 tornado which swept the Lenorah and Knott areas.

A report on assistance to date was given by Mrs. Celeste Doad and Mrs. Frances Blackburn, who Saturday wound up their work in the area. Both came here shortly after the storm to represent the Red Cross in handling all required relief and rehabilitation work.

Sixteen families, 14 at Lenorah and two at Knott, were given Red

Cross aid. Of the 14 at Lenorah, eight were given food and clothing assistance in the amount of \$539.32; 10 were helped in replacing household furnishings, for a total of \$2,069.69; four were made grants for building and repairs in the amount of \$6,145; eight were given medical aid, involving \$858.90; and one family was aided with farm supplies in the amount of \$52.

Mrs. Blackburn said two of the 16 hurt at Lenorah remained in the Martin County Memorial hospital at Stanton, and that any required Red Cross assistance would be continued for these individuals.

Two families in the Knott area were given assistance, outlay for household furnishings running to \$375.33, and an expenditure for building and repairs amounting to \$280.15.

The grand total is \$10,320.39. Although several other families in the Knott area suffered property damage, they had insurance or were so situated that Red Cross aid was not required, Mrs. Bradshaw said.

The ARC representatives said every application was completely surveyed, and no requests were denied when need was shown. The rehabilitation program included restoration of houses, furnishings and personal goods to a pre-storm status, as nearly as possible, Mr. Bradshaw said. Families making such restoration made their own purchases at stores of their choice, and the Red Cross issued purchase orders to pay for the items. Payment was certified to the St. Louis ARC office for payment.

Since the Red Cross regarded the May 11 storm as a major disaster (more than five families affected), the regional office stepped in immediately to assume responsibility and expense.

The Red Cross aid was in addition to the many helpful acts performed by neighbors in the storm victims, who assisted in providing emergency food, shelter and salvage work.

YOUNG SALT . . . He's garbed in correct yachtsman attire, from his white ducks and open-throat shirt to his sleeveless wool slip-over sweater with V-neck.

Malaria Given Child By Blood Transfusion

PHILADELPHIA, May 24. (AP)—A seven-month-old Philadelphia boy has contracted tertian malaria from a blood transfusion given by a war veteran who served in the Pacific, the city health department reports.

Dr. Angelo M. Ferris, chief of the communicable diseases division, said the donor had no knowledge of having suffered from the disease. He asked doctors and hospitals not to accept transfusions from veterans who may have been stricken.

C-C Program Today To Feature Dialogue

Azerbaijan Prosecutor Hanged In Square

TEHRAN, Iran, May 24. (AP)—Feridoun Ibrahim, public prosecutor in the short-lived Azerbaijan "democratic government," was hanged yesterday in the main square of the Azerbaijan capital of Tabriz, an official announcement said today.

Ibrahim was convicted by a court martial of pronouncing "many death sentences on innocent people," the announcement said.

The Azerbaijan "democratic government" was a pro-Russian regime, which was overthrown by the Iranian Central Government after the withdrawal of Soviet troops from the northwestern Iranian province.

Red Cross Emblem Banned In Lahore

LAHORE, Punjab, May 24. (AP)—District Magistrate J. C. W. Eustace banned today the use of flags or emblems displaying the Red Cross because rioters in this strife-torn city have been using the symbol to facilitate acts of violence.

Eustace also banned for one month the use of Army surplus vehicles, including jeeps. He said that some of these vehicles carried the Red Cross emblem.

Farm And Ranch News

By WACIL McNAIR

Several farmers in the county have reported that they will be able to work out some of their early cotton, which is particularly desirable in view of the cottonseed shortage. There is much early cotton in the county, however, that probably cannot be worked out without heavy expense.

The weeds and grass gained better than an even break as a result of the rains, requiring an increasing amount of labor to clear the fields. Weeds have shot up rapidly during the past week, and it is quite a battle for the farmers to keep up with them.

However, reports indicate that the method shows promise.

Farmers of the state are being urged by the extension service to start control measures against millions of grasshoppers that are hatching now. Entomologists point out that poison bait put out now to kill the young hoppers can prevent much potential damage to row crops. The insects are young at this season and easy to kill. Most of them still are bunched in the edges of fields, and will require little bait for destruction.

Prospects appear bright for continuing the weekly sheep sales at the West Texas Livestock Auction company, according to reports this week. At the initial sale, which was held on May 15, only about 200 head went through the auction ring. However, receipts zoomed to 975 this week, and officials are confident that gains will continue before a leveling-off period.

The sheep market incidentally, held up well here this week, with most animals moving at steady prices despite weaker quotations at the major market centers.

Stocker cattle receipts have not gained since the rains at local markets, and most of the offerings have been snapped up by buyers from out of the county.

Cattlemen in the area will be afforded an opportunity to observe a new device for hoof trimming and branding at the 4-H club field day, scheduled for June 11 at City park. Details concerning the new equipment have not been revealed as yet, but it is reported to be different from anything developed here-to-fore.

Latest trick in South Plains agriculture is fertilizing cotton by airplane. Lubbock County Agent D. W. Sherrill, who believes there is something new happening every day in West Texas farming and ranching, reports that a demonstration was held recently in that county to see how airplane fertilization goes. About 50 people watched a plane dust a cotton field with 4-12-4 fertilizer. A stiff breeze interfered with operations a bit and the fertilizer did not settle as rapidly as anticipated.

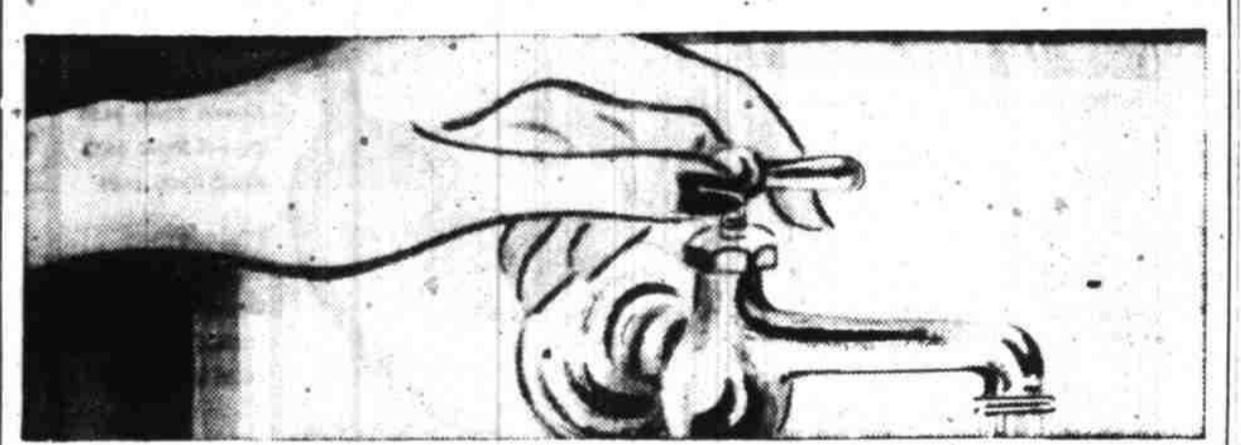

Local Building Lag Continues; Markets Steady

Local building figures continued at a comparatively low figure this week, as new construction projects lagged. The city issued 13 permits, but again most of them were for repair work. Total estimated cost of building for the week amounted to \$16,528, inching the year's aggregate forward to \$574,539.

The county clerk's office recorded 15 warranty deeds this week, which involved property valued at \$39,235. The warrants deed total for the year is \$1,157,095. The county tax assessor-collector's office registered four new automobiles and five new trucks during the week.

Cattle receipts for the week at local sales barns totalled approximately 1,700 head, and 975 head of sheep were sold at the second regularly scheduled sheep sale at the West Texas Livestock Auction company Thursday. Hog receipts totalled approximately 100 head. Markets generally were steady, with some classes of stocker cattle slightly stronger and hogs a trifle weaker.

Presenting the **Featured Performer Of Hot Water Magic . . .**

The Automatic GAS Water Heater

You don't wait for hot water when you have an **AUTOMATIC GAS WATER HEATER** — It is waiting for you in abundant quantity. You can depend on a continuous supply of hot water because gas heats it fast. A flick of the finger sets the thermostatic control at the temperature which suits the need of your house and family. Gas consumption is kept at a minimum by the automatic control which turns gas on and off only as needed. Insulation holds the heat inside the tank. Safety control shuts off gas completely if pilot light is extinguished.

GET FREE BOOKLET

Your gas company has for you a 24-page booklet filled with the latest word in washing and cleaning information for all sorts of fabrics and clothes, and a complete chart of instructions for removing most all stains. Ask for your free copy at the Empire Southern Gas Company office.

Bogart, Stanwyck In Mystery Drama Featured At Ritz

An exciting mystery melodrama with Humphrey Bogart, Barbara Stanwyck and Alexis Smith in the stellar roles is the Ritz theatre's offering for today and Monday. It's called "The Two Mrs. Carrolls," and is adapted from the stage success of the same name. Nigel Bruce, Isobel Elsom and Pat O'Moore are featured players in a suspenseful tale of the effects of one man's love for two women. Bogart appears as Geoffrey Carroll, an American artist living in England who falls in love with

Sally Morton (played by Miss Stanwyck). When she accidentally discovers that he is married, he explains that his wife is an invalid and that he is getting a divorce. Some two years later, his first wife dead, Geoffrey is married to Sally and living with her in an English country house with his (Ann Carter). They entertain Charles Pennington (Pat O'Moore), a former suitor of Sally's and two of his clients, Mrs. Latham (Isobel Elsom) and her attractive daughter, Cecily (Alexis Smith). Cecily is attracted to Geoffrey and asks him to paint her portrait.

Geoffrey begins being blackmailed by a chemist who sold him poison, shortly before his first wife's death. Distraught with the blackmailer, Geoffrey's problems become worse, when after seeing Cecily quite often they discover that they are in love. She tells Geoffrey that she wants him to go to Rio with her, since she will not continue the clandestine relationship they have been having. Geoffrey consents and sends his daughter off to a boarding school, just as he did prior to his wife's death. Sally, ill with a strange malady, is under the incompetent care of Dr. Tuttle (Nigel Bruce), and when she helps Beatrice pack for school she finds out many lies that Geoffrey has told her about his first wife. When she realizes, with growing terror, that Geoffrey is going insane and might do anything, the pulsating excitement will have you on the edge of your seat 'til the final fadeout.

Seed growers call flower plants "rogues" when they revert to earlier types and do not produce the type of blossoms expected of the variety.

IN RITZ DRAMA—Barbara Stanwyck receives rough treatment from Humphrey Bogart when she learns of his dangerous secret. In this scene from the Ritz theatre's Sunday-Monday feature, "The Two Mrs. Carrolls," adapted from the stage success, the story is a suspenseful drama dealing with a deranged man's love for two women.

WILD WEST ACTION—Here is one of the many tense scenes in the western action melodrama, "Wild Bill Hickok Rides," which is featured at the Lyric theatre today and Monday. Bruce Cabot and Constance Bennett have the principal roles.

The Week's Playbill

RITZ
SUN.-MON.—"The Two Mrs. Carrolls," with Humphrey Bogart and Barbara Stanwyck.

SAT. MAT.—"Tucson Raiders," with Bill Elliott.

Maugham Story, 'Razor's Edge' Plays At State

An impressive production that has been turned to the screen from one of the top fiction sellers—Somerset Maugham's "The Razor's Edge," is the featured attraction at the State theatre today and Monday. Tyrone Power, Gene Tierney, John Payne, Anne Baxter, Clifton Webb and Herbert Marshall are the principal players.

The story is filled with complexes of motives and action, and pits the lure of Miss Tierney's lithe beauty against the romanticism of Tyrone Power. The production itself goes for splendor to match its sex-and-society motif. The story bears the Maugham impress, following closely his delineation of characters and his development of human motivations.

If the plot could be packed into a paragraph it might be said that the story, laid in the boom-and-bust period after the first world war, gets going in Chicago with the love between the heiress beauty and the hero, just returned from combat and most consciously owing his life to a pal who died to save him in battle. That hero, played by Mr. Power, is torn between his love with its call of life-and-business-as-usual and the questionings of his own inner self. One almost said "soul" but that word never comes into the telling. He must first make peace with himself and orient himself with destiny, about which he has many questionings.

AT STATE—Comely Gene Tierney has one of her best roles in "The Razor's Edge," the film story of Somerset Maugham's best-selling novel which is at the State theatre today and Monday. Others in the cast are Tyrone Power, John Payne and Anne Baxter.

Raymond Massey In Radio Show, 'Ethan Frome'

Raymond Massey, Pauline Lord and Mary Anderson will be starred in The Theatre Guild on the Air production of "Ethan Frome," the absorbing drama based on Edith Wharton's distinguished novel of the same name when it is broadcast tonight at 9 o'clock over KBST.

In "Ethan Frome," a story dealing with the flowering of a tragic romance in a bleak, coldly unemotional New England family, playwrights Owen and Donald Davis found a theme admirably suited to their talents. To life progress of the love affair between Ethan and his wife's cousin, Mattie Silver, an unlikely pair of protagonists, they brought sympathy and understanding. All the drama inherent in the affair is fully realized and developed by an adroit blend of skillful characterization and logical incident.

In the broadcast, Miss Lord and Massey will re-create the roles they played in the stage version of the play when it was produced on Broadway in 1935. It was chosen one of the 10 best plays of that season.

'Best Years' Takes Lion's Share Of Academy Awards

Samuel Goldwyn, who has been in the movie industry since 1913, is not known as a man to go overboard on his expectations for any new film. Yet so certain was this veteran producer of the merits of his new production, "The Best Years of Our Lives," that he deliberately timed its release in order to qualify for the 1946 Academy Awards.

Mr. G. hit it on the nose, as the saying goes, for "Best Years" garnered no less than nine regular and special Academy Awards.

"Best Years" comes to the Lyric theatre in Big Spring on June 1, for a five-day run at advanced prices. It has been such a success that it is being handled under special release arrangements for the remainder of this year.

Among winners in the Goldwyn release are Fredric March, who had

copped the male star award once previously; Director William Wyler, who also had won before; and Harold Russell, the handless World War II veteran who steals audience sympathy and all but steals the show. Other special awards went for story, screen adaptation, etc.

"Best Years Of Our Lives," which deals in straight-forward fashion with the problems of post-war adjustment, has in the cast, in addition to March and Russell, Myrna Loy, Teresa Wright, Dana Andrews, Hoagy Carmichael and Cathy O'Donnell and Virginia Mayo.

The Texas Poll

Jester And Solons Holding Support

By The Texas Poll
AUSTIN, May 24.—Public confidence in Gov. Beauford Jester and the legislature remains at a high level, even though it dropped eleven points during the last two months.

Eight out of every ten adults with opinions think the governor is doing a good job, and two out of every three are satisfied with the legislature's handling of state affairs.

These findings by The Texas Poll are based on two statewide surveys in which these questions were asked:

- "In general, do you approve or disapprove of the way Beauford Jester is handling his job as Governor of Texas?"
- "In general, do you approve or disapprove of the way the legislature is handling its job in Austin?"

March Now
Approve 82% 81%
Disapprove 8 19

November, 1941, to 86 per cent in December, 1941.

Actions of the governor and the legislature have satisfied more women than men. Eighty-four per cent of the women, as compared with 79 per cent of the men, gave the governor a vote of confidence in the latest poll, while 72 per cent of the women and only 60 per cent of the men put their stamp of approval on the Legislature.

The drop in Gov. Jester's popularity during his third and fourth months in office follows what appears to be a normal pattern. Polls of public opinion often have shown that chief executives lose in public esteem when they begin acting officially on controversial matters. Even without legislative problems to contend with, Coke Stevenson lost eight points during his fourth month as governor. His popularity index fell from 94 in November, 1941, to 86 per cent in December, 1941.

Suspects Caught In Record Time

The Callahan county sheriff's department is probably ready to agree that its Howard county counterpart set some sort of speed record in taking into custody Thursday two men wanted in connection with the theft of some pipe there earlier in the week.

Deputy Tracy L. Kupper spotted their truck pulled up near a west end tourist camp and proceeded to place them under arrest. Sheriff S. S. Nichols of Baird came here to return the men to the Baird jail.

Color is associated with other senses. Most people flatly refuse to eat bread or mashed potatoes stained blue or purple, even though it is harmless and tasteless dye.

In the 14th century, fifty-million people died of the plague.

HELPING UNCLE SAM—

Howard Countians Loan Over 15 1/2 Million Buying Bonds

To help him finance a global war and the costs of reconversion after victory, Howard countians have put into Uncle Sam's till—on a loan basis by taking bonds in return—a total of over 15 and a half million dollars.

ty Bond Chairman Ira Thurman, from the Federal Reserve bank. The grand total of E, F and G bond purchases for that period was \$15,502,811.50.

over five and a half million, there is still a steady stream of investments. The total for the first four months of 1947 is over \$224,000.

More Ellenburger Prospects Loom

By JOHN B. BREWER SAN ANGELO, May 24. — Reported indications of possible Ellenburger production in a wildcat each in Crockett, Coke and Scurry counties highlighted West Texas oil development this week.

son, in the southwest corner of labor 18-895-State Capitol Lands, to explore the Clear Fork.

In this connection, Thurman announced Saturday that a nationwide promotion of the "Bond-a-Month" plan will begin in June and continue through July; and special appeals will be presented to citizens to go on a regular bond investment program.

Total bond investments in Howard county, by years, has been as follows:

Table with columns for Year, E, F&G, and Total. Rows for 1941, 1942, 1943, 1944, 1945, 1946, 1947.

Irrigated Pasture in Muleshoe Studied

A. J. Hughes of the Soil Conservation Service office here, accompanied by three Martin county rancher brothers, Edmund, Jim and Albert Tom, spent Thursday in Muleshoe studying irrigated pasture in that section.

FREE HEALTH EXAMINATION ONE WEEK ONLY! Starting Monday, June 2-3-4-5-6-7 BY SCIENTIFIC NEW DIAGNOSING INSTRUMENTS DURING THIS COMING WEEK THE ACE DETOXINATOR COMPANY WILL HAVE A CONSULTING AND EXAMINING DOCTOR SPECIALIZING IN THIS SYSTEM TO ASSIST ME AND HIS SERVICES ARE FREE TO YOU.

Amerada No. 1-CTA University in northeastern Crockett county was credited with encountering two zones, one approximately 40 feet thick, the other thicker, showing oil in the Ellenburger in drilling to 8,490 feet.

The prospect is on a 646.8-acre lease assigned to Amerada by Ross Williams of Midland, who paid a cash bonus of \$38,000 for it at the University Lands lease auction last December. The sale carried an 8,500-foot drilling obligation.

Union Oil Co. of California No. 1 Jim McCutchen, Coke county wildcat three miles east of Robert Lee being drilled "tight," was said to have recovered oil and gas-cut mud and about 100 feet of oil on a drillstem test from around 6,300-30 feet in the top of the Ellenburger.

Location is the C SW NW 444-1A-H&TC, about 20 miles southeast of the Jameson (Scurry) field near Silver in northwestern Coke county. Surf No. 2 Fred Jameson, south-southeast extension to the Jameson pool of more than one-half mile, became the largest of four wells when it flowed 278.56 barrels of oil through a quarter inch choke in 24 hours.

No. 1-C Neal is 660 feet out of the northeast corner of R. N. Miller survey 1, abstract 868, eleven miles west and slightly north of Rotan, Fisher county. Nearest Ellenburger production is in the Polar field in southwestern Kent county 21 miles west-northwest.

Stanolind started No. 1 Epple Gilmer Howard, proposed 5,300-foot rotary wildcat in Hockley county, 660 feet out of the northeast corner of labor 25-720-State Capitol Lands. Western Drilling Co. No. 1 D. B. Gregg, 1 1/4-mile north outpost to the northeast extension to the Levelland field, was drilling against a June 2 lease expiration. It is 660 feet out of the southeast corner of labor 25-731-State Capitol Lands.

Southern Minerals Corp. of Corpus Christi, headed by Maston Nixon, entered the West Texas play by staking No. 1 J. W. Heard, slated 7,200-foot wildcat in southeastern Hale county. Location is 660 feet out of the southwest corner of section 18-R-E&RR, three miles north and one mile west of Stanolind's opener of the Petersburg (Cisco) pool.

In southern Lamb county, Sunray will drill No. 1 Algin G. Gip-

Potential Of 192 More Pupils Seen

The Big Spring high school Friday had a potential of 192 more students as a result of promotion exercises Thursday evening for the eighth grade.

Justin Holmes, member of the board of trustees, challenged members of the promotion class to make the most of their preparations in high school. He congratulated them upon achievement of a milestone on the road to equipping themselves for vocations and for life.

\$75 Fine Levied

T. J. Stokes, picked up by members of the state highway patrol Thursday evening, entered a plea of guilty in county court Friday morning to the charge of driving while intoxicated and was fined \$75 plus costs.

INVITATIONS FOR BIDS—

Big Spring VA Hospital May Cost Seven Million

Date of issuing invitations for bids on the West Texas Veterans Administration hospital in Big Spring—a project that now carries estimates of up to \$7,000,000 in cost—is listed as June 15. In a service bulletin that has been distributed to various contractors and engineering firms.

buquerque, N. M., will handle the bid routine, and period of advertising for bids is expected to run 45 days. This would place date of awarding contracts around August 1.

The contractors' bulletin lists the following items in the project:
 (1) Main hospital building, consisting of six floors, partial basement and machine space for four elevators and four dumb waiters to the 7th and 8th floor areas. Cubic content of the building is listed at 2,800,000 cubic feet, and exterior design walls for light buff face brick with Texas Stone trim.
 (2) Boiler house to include three gas-fired boilers, water softening facilities and auxiliary equipment; cubic content 102,000 cubic feet.
 (3) Shop and garage building of masonry walls, cubic content 244,000 cubic feet.
 (4) Nurses' quarters, one-story masonry construction, 82,000 cubic feet content.

(5) Attendants' quarters, one-story masonry construction, 48,000 cubic feet content.
 (6) Managers' quarters, two-story wood frame construction, 38,500 cubic feet content.
 (7) Duplex-type quarters buildings, each of two-story wood frame construction and of 46,500 cubic content each (number of these structures not specified).
 (8) Elevated steel water tank, 100 feet high and of 250,000 gallon capacity.

The bulletin also lists miscellaneous construction as follows:
 Area grading and landscaping; distribution systems and service roads, walks and parking areas; irrigation and sprinkler systems; gas, water, sewage and electrical connections, and street lighting plans.

Bidders are notified through the bulletin that requests for plans and specifications should be received in the Albuquerque Engineer office by June 1, and that \$50 deposits per set are required.

The work is to be advertised in lots as follows:

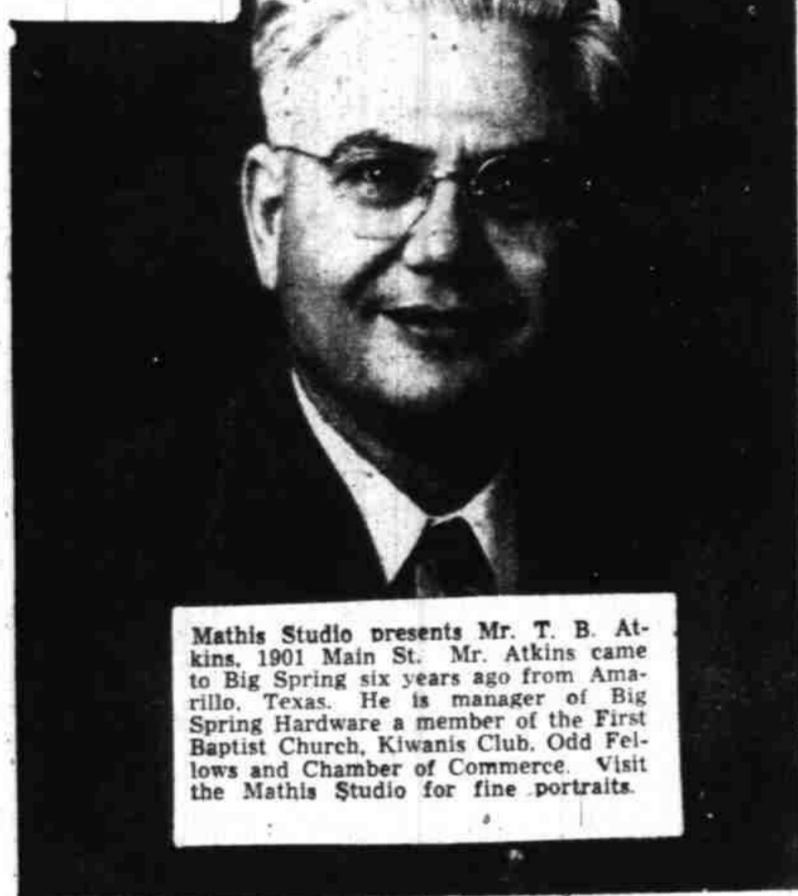

(a) Main hospital building—architectural; (b) Main hospital building—plumbing; (c) main hospital building—heating, ventilating, air conditioning and refrigeration; (d) main hospital building—interior electrical work; (e) main hospital building—elevators and dumb waiters; (f) auxiliary buildings (all except main building)—complete, including all inside utilities and facilities; (g) electrical distribution system; (h) outside utilities, including water, sewer, gas distribution systems, and building service connections; (i) site improvements, including roads and streets, site grading, sidewalks and landscaping; and (j) the complete project, including all work covered by the various lots listed above.

Improvement Of Dirt Streets Is Pressed

All available equipment has been pressed into service by the city street department in efforts to speed up improvement work on dirt streets. City Manager H. W. Whitney reported yesterday. Whitney said recent rains left most of the dirt streets in excellent condition for grading, and the street department hopes to get them in shape for summer as soon as possible.
