### DEMANDS OF AMERICAN LIVESTOCK MEN

Livestock producers the country over urge the slaughter of 3,000,000 cattle. They bespeak a very low hide quota. They hope for a very drastic tariff act. Indeed, 100 cattlemen beef and dairy authorities and leaders of farm organizations "from all over the republic" held a conference in the city of Washington "to consider procedure with respect to production control and other provisions of the "AAA to meet the present acute crisis in the beef cattle and John Tarleton's dairy interests." Rep. Marvin Jones, chairman of the house agricultural committee, Rep. Richard M. Kleberg of the Corpus Christi district, Sen. Carey of Wyoming and Secy. of Agriculture Henry A. Wallace piloted the delegation to the White House where they discussed "the so-called plight of the dairy and beef cattle interests" with the President.

Washington is responsible for the news that "the delegation left the White House convinced that the New Deal President would back the \$200,000,000 program to aid the twin industries-meat and milk." All the cowmen advise the slaughter of 3,000,000 cattle by the government. Texas delegates were very much in evidence. Less than four years ago Herbert Hoover had poverty abolished, the breadline extinct and a continuous prosperity coming "just around the corner." He may have been a very conscientiqus statesman but he was about the rottenest guesser or prophet in American history.

### JOSEPH A. O'REILLY-ALWAYS A REAL CITIZEN

Joseph A. O'Reilly's final papers did not make him a real citizen. He has been a real citizen with all that the words carry for 50 years-under the skies of Texas. Papers or not, he is the same Joseph A, and Austin has ever been proud of him in the long years he has been on the firing line of civic endeavor in this Friendly City. He has always payed his pals. He has ever been proud of the city of his nativity and the state of his adoption. He has ever contributed his share of the cost of all humanitarian efforts, all movements for good government in community of his word, has ever been a builder and a practical idealist and these are the genuine tests of a real citizen here and elsewhere under the protecting folds of Old Glory.

A lot of people seem to swallow hook, line and sinker the propaganda sent out by a lot of politicians trying to fire and stared out of the window wasn't the least reason in the explain the high taxes now imposed on the American peo-

### A BIBLE THOUGHT FOR TODAY

A HEARTENING PROPHECY: Praise waiteth for thee, O God, in Zion: and unto thee, shall the vow be performed: O thou that heareth prayer, unto thee shall all flesh come.-Psalm 65: 1, 2.

### DEMANDS OF AMERICAN LIVESTOCK MEN

Livestock producers the country over urge the slaughter of 3,000,000 cattle. They bespeak a very low hide quota. They hope for a very drastic tariff act. Indeed, 100 cattlemen beef and dairy authorities and leaders of farm organizations "from all over the republic" held a conference in the city of Washington "to consider procedure with respect to production control and other provisions of the "AAA to meet the present acute crisis in the beef cattle and John Tarleton's dairy interests." Rep. Marvin Jones, chairman of the house agricultural committee, Rep. Richard M. Kleberg of the Corpus Christi district, Sen. Carey of Wyoming and Secy. of Agriculture Henry A. Wallace piloted the delegation to the White House where they discussed "the so-called plight of the dairy and beef cattle interests" with the President.

Washington is responsible for the news that "the delegation left the White House convinced that the New Deal President would back the \$200,000,000 program to aid the twin industries-meat and milk." All the cowmen advise the slaughter of 3,000,000 cattle by the government. Texas delegates were very much in evidence. Less than four years ago Herbert Hoover had poverty abolished, the breadline extinct and a continuous prosperity coming "just around the corner." He may have been a very conscientious statesman but he was about the rottenest guesser or prophet in American history.

### JOSEPH A. O'REILLY-ALWAYS A REAL CITIZEN

Joseph A. O'Reilly's final papers did not make him a real citizen. He has been a real citizen with all that the words carry for 50 years-under the skies of Texas. Papers or not, he is the same Joseph A, and Austin has ever been proud of him in the long years he has been on the firing line of civic endeavor in this Friendly City. He has always payed his pals. He has ever been proud of the city of his nativity and the state of his adoption. He has ever contributed his share of the cost of all humanitarian efforts, all movements for good government in community of his word, has ever been a builder and a practical idealist and these are the genuine tests of a real citizen here and elsewhere under the protecting folds of Old Glory.

A lot of people seem to swallow hook, line and sinker the propaganda sent out by a lot of politicians trying to explain the high taxes now imposed on the American peo-

The fad for designing the O., May 24. off-shoulder effect has heretofore proved merely decorative with no utilitarian thought in mind. smart Parisienne appearing practically all the gala functions of the holiday season has started something however. She had one of those very smart little frocks with a series of three little pockets about two inches deep extending down the arms from just over the tip of her shoulders. In the top one at each shoulder she had deposited a handkerchief (the dress was green and the kerchiefs were, one yellow and the other orange); in the other pockets her friends discovered that she had tucked away her powder puff, comb, rouge and lipstock! "Why not?" she says. "Just because a dress is ornamental is no reason why it cannot be useful, is there?" And who would say the lady nay? This useful and pretty idea goes

further. A certain little glove for evening is made with a tiny pocket in the palm of the left hand. In the little pocket is a little mirror and a little puff and a little daub of powder. By merely holding the left hand before the face the right hand applies the dusty perfume puff to the tip of the nose! If you do not use powder (what an incredible if!) then you might carry your carfare home in the same little pocket!

If you want to

. . . relieve constipation gently and safely

. . . take the exact dose suited to your need . . . avoid danger of bowel strain

-use a liquid laxative

Can constipation be safely re-lieved? "Yes!" say medical men. "Yes!" declare thousands who have followed their advice and

You are not apt to cure your constipation with salts, pills and tablets, or any habit-forming cathartic. But you can safely relieve this condition just by gentle regulation with a suitable liquid laxative.

### Why Hospitals use a liquid laxative

The dose of a liquid laxative can be measured. The action can thus be regulated to suit your individual need. It forms no habit; you need not take a "double dose" a day or two later. Nor will it irritate the kidneys. The right liquid laxative will

bring a perfect movement, with no discomfort at the time, or

The unwise use of strong cathartics may often do more harm than good.
