## Col. and Mrs. Lindbergh Land at Natal, Brazil

What minds me...

...B. Tanner is dead. What for God. If angels cele-  
there is much cause for  
... Now there is added to  
... a clean, fine, honest  
... man that kept  
... straight while given  
... to stay his short  
... in this earth. We mourn  
... and in each heart of  
... of Eastland there  
... a reaction that feels an  
... gang such as those most  
... him feel at his moment.  
... no substitute for real  
... Nor is there any sub-  
... for a kind and loving  
... He was all these and

... his contacts with men  
... in all walks of life.  
... smile had its effect  
... children to the extent  
... unusual attraction to his  
... The dead take with  
... their grave only that in  
... fished fingers that which  
... given away. He has  
... many much. Service, money,  
... medical advice, but  
... those three the greatest  
... he possessed was the ob-  
... to serve, and he gave his  
... the service of mankind.  
... faithfully, almost to the  
... truly this tribute is mild  
... to its original value.

... was his pet. It was his  
... was his primary devo-  
... every civic organization in  
... If the walls had had re-  
... possibilities could each day  
... response to the vibrating  
... echo his advice, his  
... and his philosophy. His  
... would ring out, true to the  
... ideals, and true to the  
... of the occasion.

... ever gave any human the  
... to stay here and serve in  
... always. Someone must  
... place at some time. But  
... average there is much lost  
... in making the selection of  
... and many mistakes are  
... To find his successor will  
... an easy matter, because he  
... personality all of its own.  
... know that he would want  
... to carry out their own  
... in their own way, and be  
... nonment to their own en-  
... Dr. Tanner was not

... leaving behind children,  
... been brought up to real-  
... the standard of service is  
... in self-esteem, but  
... service towards their  
... men. In their chosen fields  
... they cannot nor will  
... the teachings of the  
... and his acts and deeds. In  
... there is a woman, who  
... with him, side by side,  
... died him in times of distress,  
... presided over his home  
... life, and with refreshed  
... died with him in his  
... empts. There is where the  
... always arises unawer-  
... ives, where is thy victory?"

... is one conclusion, and it  
... is the grief of many be-  
... is with God, waiting,  
... and full of that grace  
... only heaven can bestow, and  
... possibly beckoning, but  
... ready, to outstretch his  
... when the time comes, to em-  
... his loved ones and friends  
... that eternal and peaceful  
... world, where only those who  
... gone before are given the  
... of having known from  
... out. "What, where and  
... Dr. Tanner, you have done  
... You have planted a monu-  
... that all Eastland is proud of,

### CROWDS HEAR WOOLLEY TRIAL FOR MURDER

DALLAS, Dec. 6.—Trial of Toy G. Woolley, 28-year-old insurance adjuster, on charges of murder in connection with the shotgun killing of his second wife, continued here today with the courtroom again packed.  
Intimate details of a previous romance and marriage, told by Miss Mae Cantrell, the auditor's first wife, was the magnet that attracted a large courtroom crowd.  
Mrs. Dorothy Woolley, 20, was killed in the bedroom of her home Nov. 5 when her husband's shotgun discharged. Woolley, arrested four days later, said the gun discharged accidentally.  
Judge Robert Allen of the 116 district court, who granted Woolley a divorce from the first wife, lead the list of witnesses today. Judge Allen was put on the stand to substantiate the contention the auditor was not divorced from his first wife when he married a second time.

Conway will bring a soul-stirring address on the subject, "The Sinful Judge."

### THREE GUESSES

### MRS. MAY KING INDICTED ON MURDER COUNT

An indictment charging murder has been returned against Mrs. May King of Gorman by the 91st district court grand jury in session at Eastland. Mrs. King is alleged to have shot and killed Leon Robinson, Gorman night watchman, on the streets of Gorman on Nov. 13, last, and it was in this connection that she was indicted.

Mrs. King, herself wounded by a gunshot, is in a hospital at Gorman, according to officers.

Criminal District Attorney Grady Owen stated this morning that he would oppose Mrs. King being granted bail on the murder charge. District Clerk P. L. Crossley stated that bond had not been set in the case.

Mrs. King, unless bond is granted, will doubtless be removed from the hospital to the county jail here to await trial.

### Straw That Broke the Camel's Back

Assistant executor to national prohibition was Franklin S. Ritter, Salt Lake City attorney and delegate to Utah's repeal convention, shown here with the resolution he offered for his state's clinching ratification of the 21st, or repeal, amendment.

### SPEAKEASIES CLOSE UP AS DRY ERA ENDS

WASHINGTON, Dec. 6.—The dykes were opened for the legal entry into the United States of foreign liquor today as officials moved to carry out a pledge by President Roosevelt to turn the tide of prohibition repeal against the bootlegger and saloon to the objective of temperance, law and order.

The President made his pledge in a formal proclamation of repeal. He issued it last night an hour after Utah ended constitutional prohibition.

The proclamation contained a ponderous legal statement shifting part of the recovery taxes from business and appealed to the "good sense of the American people not to bring upon themselves the excessive use of intoxicating liquor."

"Such a course would be a living reproach to us all" and detrimental to the health, morals and social integrity of the nation," he said.

"I ask especially that no state shall by law or otherwise authorize the return of the saloon, either in its old form or some modern guise," he said.

"The objective we seek is the education of every citizen toward a greater temperance throughout the nation."

### Col. and Mrs. Lindbergh 16 HOURS IS TIME TAKEN FOR FLIGHT

NATAL, Brazil, Dec. 6.—Col. and Mrs. Charles A. Lindbergh, flying a true course for 1,870 miles arrived in their big seaplane in the Natal harbor at 12:55, eastern standard time, today, after a spectacular flight from Bathurst, British West Africa.

The Lindberghs had traversed the south Atlantic ocean in a straight airline, landing at 1 p. m., 16 hours out of Bathurst. The flight completed 19,000 miles of aerial touring since their departure from New York on July 9. They came down to a city that had declared an unofficial holiday in their honor. They were greeted by thousands.

All business had been suspended since noon and the entire population joined to make the reception the most notable ever given a visiting celebrity.

Natal is a seaport with a harbor of two square miles. Advice from South America said Pan-American Airways, for whom Colonel Lindbergh is technical adviser, had requested that the harbor be kept sufficiently clear of shipping to enable a safe landing. Landing places were also prepared at Recife (Pernambuco), 160 miles south of Natal, and at Fortaleza, in the state of Ceara, Brazil.

NATAL, Brazil, Dec. 6.—Col. and Mrs. Charles A. Lindbergh, flying a true course for 1,870 miles arrived in their big seaplane in the Natal harbor at 12:55, eastern standard time, today, after a spectacular flight from Bathurst, British West Africa.

Landing places were also prepared at Recife (Pernambuco), 160 miles south of Natal, and at Fortaleza, in the state of Ceara, Brazil.

Since heading over the Arctic route last summer for Europe, the Lindberghs have not missed a thorough inspection of any possible Atlantic airports.

Colonel Lindbergh's crossing of the South Atlantic is the home-ward link in a series of exploratory flights in the trans-Atlantic survey program for the Pan-American Airways system.

RETAIL AND WHOLESALE TRADE SHOWS INCREASES

Read a Thanksgiving word of cheer by way of Dallas: "An active demand for merchandise in both retail and wholesale channels of distribution," says the business review of the Federal Reserve bank of Dallas, "and a substantial reduction in bank and commercial indebtedness were important developments in the 11th federal reserve district during the past month."

Distribution of merchandise at wholesale was well sustained. Consumer buying in rural sections has continued in substantial volume. Collections showed large increases, representing payments on both current and carryover accounts. Thanksgiving is here, the closing day of the month of November. A warning to shoppers: Buy now. Shelves of the merchants are loaded with Christmas offerings.

20 STATES WHERE LIQUOR MAY BE SOLD

Dec. 5 has passed. On that day the 18th amendment departed this life. On that day approximately in 20 states the citizen with a thirst took his first legal drink of something stronger than 3.2 beer. In the 20 states there were varied types of liquor control laws or regulations. One and after repeal day a majority of these so-called wet states are expected to put a ban on their old saloon without delay.

Arizona has a very drastic law. After repeal sales of liquor will be legal with meals. Oregon will adopt a system of states-owned stores. In California a state liquor commission has control of liquors and wines. Nevada will place control in county liquor boards and municipal government. Indiana, which was one of the driest of states, has a control law, and the attorney general of the commonwealth has ruled that the state excise director may make rules he desires to handle liquor.

In Texas 3.2 beer is on sale everywhere. Texas has constitutional prohibition. Texas has the Dean enforcement act. All the control issues will be crowded into the campaign and primary elections of 1934. All of which is a reminder that it would be wise for the people, regardless of their lineups, to pay their poll tax or get their exemptions. A ballot in the box is worth all the gab in the world.

WESTERN RAILROADS CUT PASSENGER FARES

Western railroad inaugurated a six months' experiment of reduced passenger rates effective Dec. 1. The new schedule will apply west of Chicago and St. Louis, and rates of two, two and one-half, and three cents a mile. The two-cent rate will apply for day coach or chair car travel on a one-way ticket but will not be good on Pullman tickets. Pullman berth charges will be reduced one-third. This is a hint that rail chieftains are going to make competition exceedingly brisk for airway and passenger bus rivals in the transportation game. It had to come, just as Christmas is coming. DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

HENRY C. MacARTHUR, Editor of the Stockton (Calif.) Independent, says: "Newspaper advertising offers the only successful advertising medium for people that have something to sell. Results, of course, are obtained from other mediums, but long experience with the newspaper reveals the advertiser gets more for his money out of the newspaper than from any other source."

"The federal government has placed great trust in the newspaper, and has evinced its faith in the printed page by popularizing NRA through the press. It is up to the advertiser to maintain this faith through support which will bring not only the best returns to him, but also to the people at large."

"When recovery has been accomplished, the newspaper and the advertiser behind the paper will have had more part in it than any other one thing."

OUT OUR WAY

Wasted Gas Could Supply 10 Cities

HOUSTON. — Enough natural gas goes to waste each day in the East Texas oil field to supply fuel for the state's five largest cities and 10 cities the size of Galveston, oil men here estimate.

Estimates are that approximately 100,000,000 cubic feet of gas are burned daily in flares lighted near producing oil wells. The gas, after forcing the oil from the well, is piped off away from the well and burned as a safety and health measure.

Many wells are connected to a network of pipes that carry the gas to a central point where it burns in a continuous flame.

Approximations of a gas distributing company here are that the wasted gas would supply fuel for the average daily demand of a city of about 1,700,000 population.

Houston, Dallas, San Antonio, Fort Worth and El Paso have a combined population of 1,058,000. Thus, 10 cities the size of Galveston, could also be supplied gas from the wasted fuel from the East Texas fields.

At Beaumont, where approximately 2,000,000 cubic feet of gas burns daily in flares in the surrounding district, efforts have been made to have communities lay pipelines to the fields and bargain for the fuel.

PENN FARM OUTLOOK UP

HARRISBURG.—An optimistic note has been sounded for the farmer in Pennsylvania by the State Department of Agriculture. The agricultural products price level in October rose to 96, according to the department, and the buying power of the farmer's dollar was 83 cents.

ANSWERS TO TODAY'S THREE GUESSES

HERODOTUS is known as "The Father of History." MARY SHELLEY created the character Frankenstein. The Pilgrims landed at Plymouth Rock DECEMBER 1620.

Are jangled nerves making you a grouch? You are really another person when you are suffering from jangled nerves. You snap out sharp comments, make unreasonable criticisms that sting. Of course, you are sorry later—but you may have alienated your family, a loyal employee, or a good friend...

Watch your nerves. Get your full amount of sleep every night. Eat regularly and sensibly. Find time for recreation. And smoke Camels... for Camel's costlier tobaccos never get on your nerves.

COSTLIER TOBACCOS

Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand of cigarettes!

CAMELS — THEY NEVER GET ON YOUR NERVES

How are YOUR nerves?

TEST No. 12. A ruler with markings from 1 to 4 inches. Below the ruler is a box for drawing lines. Instructions: Hold your pencil about two inches above the point... Lift your wrist and arm so they don't touch the table... Place the point of the pencil on the first dot... Close your eyes and draw a line exactly four inches long... Repeat the process a second time, then a third time. See how nearly correct your lines are. A good score is within one-eighth of an inch for each line.

Hugo Johnson (Camel smoker), Paramount News cameraman, drew two perfect 4-inch lines and one line only 1/16 of an inch off on the first try.

# Three Centenary Plays Stand Out Over Southwest

Editor's Note—Following is the third and final article on the Centenary College football team.

**SHREVEPORT, La.**—Three players on the Centenary College football team share the spotlight this year as being among outstanding football men of the Southwest.

Each has developed from a mediocre high school football player by Coach Homer H. Norton. Southwest Conference coaches whose teams have played the Gents this year have rated the three—End Paul Geisler, Quarterback Manning Smith and Harry (Shorty) Oslin, 145 pound halfback—as the finest players their men have faced. Geisler, six feet, two inches tall and weighing 185 pounds was recognized as the best player on the Centenary team. He was named on the New York Sun second all-American team last year.

# Chance Meeting Made Blind Boy Famous Whistler

By United Press

**FORT WORTH.**—An interest aroused through a chance meeting while he attended the State Institute for Blind at Austin led to a stage career for Fred Lowrey.

The young whistler is known to Dallas and other Texas audiences. In 1923 a professional vaudeville whistler visited the school. He heard Lowrey whistling.

"Young man, keep at that. You've got something," he told the student.

Lowrey bought a portable phonograph and whistled with it for four hours every day for six years. When he was graduated from the institute in 1929, he began a whistling career.

He went to Chicago and made a recording of the "Indian Love Call" for a nationally known phonograph and recording company. Radio and theatre engagements followed.

Lowrey is partially blind. He attends movies seeing the picture from the balcony. He walks unescorted. His vision at close range is so impaired he cannot read books or newspapers.

# Political Bee Is Starting Humming

By United Press

**FORT WORTH.**—The political bee, set to buzzing by Congressman Joseph Weldon Bailey's announcement for the U. S. Senate, has started humming in Fort Worth and Tarrant county.

Announcement of J. C. Duvall, Fort Worth state representative, of his candidacy for lieutenant governor is said to be a matter of a few weeks at the most, throwing him in the race against Sen. Walter Woodul of Houston.

Duvall was chairman of the powerful House Revenue and Taxation committee in the last regular legislature. He was one of the most liberal members of the House fostering the horse-race betting bill and standing behind other liberal movements.

Second to interest in Duvall's state senator from Tarrant county. Senator Frank Rawlings, who ends his first term next year, probably will seek re-election. He was a strong supporter of the legislature of beer and race betting.

Frank Patterson, Jr., of Fort Worth, young floral representative from Tarrant and Denton counties, will oppose Rawlings, a supporter of liberal movements in the legislature.

Two others are known to be gazing at the senatorial seat—Frank Ogilvie, a former assistant district attorney and supporter of Ross Sterling in 1932 gubernatorial race, and Mack Taylor, Fort Worth attorney.

The earliest line of forts along the Texas frontier were: Fort Worth, Fort Graham, Fort Gates, Fort Grogan, Fort Mason, Fort Lincoln, Fort Ewell, Fort McIntosh.

WHILE LEWREY HANK IS DRAWING UP THE ADOPTION PAPERS FOR THE GRIMS, THINGS ARE HAPPENING OVER IN CRESCENT CITY. REMEMBER WHEN JOHN BAXTER DIED, HE MADE HIS FRIEND JIM TULLY, THE GUARDIAN OF HIS CHILD, WHO'S WHEREABOUTS WAS UNKNOWN.

I AM FROM HEADQUARTERS, MR. TULLY, INVESTIGATING A MRS. GRIM, WHO NUDGED THE LATE JOHN BAXTER. YOU WERE HIS FRIEND, I UNDERSTAND.

YES, AND I AM GUARDIAN OF HIS LITTLE BOY, WHOM I CANNOT LOCATE.

YOU SAY JOHN BAXTER LEFT HIS FORTUNE TO THE BOY AND THIS NUDDER—DID SHE KNOW ABOUT THE WILL?

WHY—AH—YES! SHE WAS AT HIS BEDSIDE WHEN BAXTER TOLD ME ABOUT HIS SON.

HUM, THAT'S INTERESTING. MR. TULLY, FOR THIS MRS. GRIM WANTS TO ADOPT A CERTAIN CHILD UP AT CEDAR-CREST—I HAVE A HUNCH YOU'D FIND SOMETHING TO INTEREST YOU, UP THERE—IT'S ONLY A HUNCH.

**THE GENTS** ended this year's season with a 7 to 6 victory over the University of Mississippi, playing two years without a defeat and were undefeated in 19 consecutive games.

Geisler was recognized as both an offensive and defensive star. Bill Jones, former West Point coach and now football coach at Louisiana State University, described him as "the greatest end he ever saw" including Dalrymple, all-American end of Tulane.

He played an unorthodox game, following the ball with sledge-hammer attacks. On the offensive, Geisler runs with the ball in end-around plays or from a backfield position. With big hands and feet, he isn't knocked off his feet. His teammates call him "Big Hoss," from the size of his feet.

Geisler had two years experience on the high school football team

# BABIES GET NEW MOTHER

By United Press

**CORVALLIS, Ore.**—Oregon State college's babies have new mothers. Ten girls who have cared for infants in each of two model homes maintained by the Home Economics Department, were replaced by others at end of a six-week period. The babies, provided by an orphan's home, thrive on their scientific care.

# Men Who Got Up Before Daylight

## ... guaranteed your heat for tonight

Gas does seem an impersonal thing when it turns on at a wall cock... just concentrated heat in a pipe... so easy and so silent one might think it came up under its own power, out of one's own backyard.

But there are hundreds of people working to supply the very heat that will warm your house this evening. Many reported on their jobs before sun-up. Some are on guard all night.

Since approximately one-half of all gas required in the home for the entire year is used during the three winter months of December, January and February, you can see why men have to get up before day during this season. Scores of these men are at the wells, at compressor stations, and walking the pipe lines, guarding your gas service step of the way to keep it dependable.

So your heat is not an impersonal thing. Through this care and attention it stays so dependable that 15 cents' worth a day is the around average household requirement for heating, cooking, refrigeration, and hot water.
