HOUR WAGE DISPUTE MOVES TO SHOWDOWN

WASHINGTON, March 9 .- The nours and wages dispute between

industry and the NRA today moved toward a showdown in which big business probably will have to choose between the 30hour week bill and flexible changes proposed by Administrator Hugh

Business is balking at the NRA plan for a 10 per cent wage increase and a 10 per cent work week reduction in as many industries as may stand it. At lastminute effort at compromise was made before Johnson proposed the hour-wage plan before a congress of industrialists.

The United Press was informed one group of leaders informally proposed that the plan be restricted to wage increases without changing the average 40-hour week. NRA then was unwilling to abandon its hour-wage program

OLD VIRGINIA REJECTS THE CHILD LABOR **AMENDMENT**

Old Virginia lawmakers rejected the child labor amendment. George Washington, Thomas Jefferson, Patrick Henry and many others listed as immortals were given to the American world by the Old Dominion commonwealth. The Texas senate refused to ratify the child labor amend-

President Emeritus A. Lawrence Lowell of Harvard University, one of the greatest educators of his period of activity, is said to have been responsible for the failure of the Massachusetts legislature to ratify the amendment. Addressing the National Committee for the Protection of the Child the aged scholar and publicist placed this in the record "We all want to stop the exploitation of children in factories, mines and industries of that nature I, for one, certainly do; but we do not want interference with the shome or the health and improving occupations of youth. Some people have no objections to conferring such a pow- the Declamation Elimination coner on the national government, trusting that it will not be test for precinct No. 1, announcjused. Some of us feel that to do so would be a mistake land High school auditorium. This that we might hereafter greatly regret." It was the con- is open to the public. tention of Dr. Lowell that the proposed amendment which stated "that congress shall have power to lmiit, regulate and prohibit the labor of persons under 18 years of age would allow military training for all boys if congress should also ordain. Where power is granted there is al- formation received by his relatives touch with librarians, trustees and petit jurors for the coming term Southern Pac "ways a tendency to use it."

Well, at last Virginia and Massachusetts have "crossed |: hands across the bloody chasm of years." Their lawmakers appear to be committed to the ancient dogma of the rights of the state to control its own domestic affairs. Where do we go from here?

BANK ROBBERS GIVING OKLAHOMA WIDE BERTH

In recent years bank robberies were numerous in Ok-Jahoma. Noted outlaws of the hills and mountain sectors of Bill Murray's state were ever in evidence. Then Uncle Sam turned loose his secret service forces and the attorney general of the United States placed his vigorous prosecutors on the job. Well, Oklahoma reports only two bank robberies since the beginning of the present year. Texas had two just as the month of February was going out and the March lion coming in. A Lancaster bank was shaken down one day and 48 hours later the bank at Mesquite was raided. There are many hideouts of the outlaws of the Southwest under the skies of Texas. Now the sheriff of Dallas county has asked that two rangers be placed on the trail of the pirates of the motor vehicle and machine gun terrors. There are large rewards hanging in the air for the pusuti and the captue of these outlaws of the Southwest-but the lawmakers advise to bring them alive and "not dead."

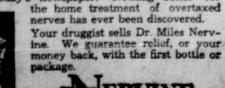

ANOTHER TARIFF CONFERENCE IN THE OFFING

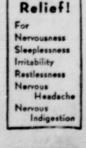

Gaston Doumergue is the prime minister of France. He has been made tariff dictator for France by the legislative department of his government. President Roosevelt has asked the congress to clothe him with authority to dicker with foreign nations along tariff lines-in other words to make trade pacts which would insure a freer and a better market for American farm staples and the products of mills and mines and factories. Really, economic history is in the making the wide world over.

When the worries, noise, confusion, high-tension work, or hectic pleasures of your waking hours "get on your nerves," here is a simple time-tested preparation that will bring a feeling of calm and relaxation and allow you to get a good night's sleep. Dr. Miles Nervine quiets your nerves. It is not abit-forming and does not depress the heart. Why take chances with dangerous habit-forming drugs? Why use narcotics that make you dull and de-

Millions have found relief, relaxation, sleep, by using Dr. Miles Nervine. Although first used more than fifty years ago, Dr. Miles Nervine is as up to date as today's newspaper. Nothing better

Science says Tod use a LIQUID Laxa

1. Regulate intestinal action gently-no"purging

2. Measure dose to suit your individual needs

3. Avoid Bowel Fatigue and the laxative habit

Here's Why:

Harsh laxatives often drain the system, weaken the bowel muscles, and in some cases even affect the liver and kidneys. A doctor will tell you that the unwise use of harsh laxatives often

does more harm than good. Fortunately, the public is fast returning to the use of laxatives in liquid form.

A properly prepared liquid laxative brings a perfect movement. There is no discomfort at the time and no weakness after. You don't have to take "a double dose" a day

In buying any laxative, always read the label. Not the claims, but the contents. If it contains doubtful drugs, don't take it.

or two later.
