Frisco May Get **London Church**

By United Press

SAN FRANCISCO. -The deproposals that 19 condamned church in the city of London be removed to permit the A assertedly impoverished Church of England to obtain some \$25,000,-00 from sale of the sites, was rought up here today.

Captain Edward Page Gaston, R.G.S., an American antiquarian ng resident in England, advocated that one of the historical piles be dismantled and brought to San Francisco.

The church would be established here, under Gaston's plan, as a memorial to the landing of Sir Francis Drake and his party in 1579. Sir Francis and his party Co aboard the Golden Hind took possession of Novo Albion, now California, in the name of Queen Elizthe Golden Gate.

Consumption of Cotton Shows Big February Increase

AUSTIN, Tex .- Consumption of cotton in Texas mills during February totaled 6,043 bales, against 5,860 in January and 3,990 February, 1933, gains of 3 and 52 per cent respectively, according to the University of Texas Bureau of Business Research. A seasonal decline from January to February averaging nearly 6 per cent has occurred during the series of years in which records have been kept by

the Bureau. Production of cotton cloth amounted to 5,899,000 yards, compared with 5,945,000 in January, a decline of less than 1 per cent, and 4,299,000 in February. 1933, a gain of 37 per cent. The average decline for the past several years

has been 4.3 per cent. Sales of cloth at 6,515,000 yards were off 31 per cent from the 9,476,000 yards sold in January but 66 per cent above the 3,-931,000 yards of February last year. Normally there is a seasonal decline of 11 per cent between January and February.

Unfilled orders dropped nearly 5 per cent from January but with a back log of 16,653,000 yards were still 89 per cent above that of February, 1933.

The number of active spindles and of spindle hours also showed slight recessions from January to February, but were well above those of February last year.

French Navy Plan

By United Press PARIS-The French navy probably will be increased during 1934 by approximately 30,000 tons.

According to the report of Deber Commission on Naval Affairs, the government will be asked to provide immediate appropriation for the following units to be built by Dec. 31, 1934:

One line battleship (Dunkerque).

One destroyer. One cruising submarine One coastal submarine.

It is noted that this will comprise about 30,000 tons, which despite continuous building in recent years, is under the average gram started in 1922.
