EASTLAND, TEXAS, FRIDAY EVENING, MARCH 30, 1934

Colder weather was scheduled to hit Eastland Thursday night. It failed to materialize, however from weather reports the thing is on the way. It would be nice if we could be passed up this time but since we have been in the path of every week-end cold spell for the past several wesks and there guess we'll get it again.

Heard about a man that asked at the hotel about a bank. When told there wasn't any he was dumbfounded-in fact so much st cities and counties. that he came running over to the newspaper and asked what it was all about. Perhaps that man will go out and tell some good banker what a bet is being passed up in Eastland. That's the kind of stuff it takes to get a bank. Those who depositors of the defunct Texas State Bank have indicated that they would be in Eastland the coming week to go into further details regarding the matter. It should never be said any more crime and without doubt a down- farm stock where needed.

ST. LAWRENCE SEAWA YPACT TOSSED INTO THE DISCARD

10 six months

For many, many years the St. Lawrence seaway pact has been a proposal uppermost in the minds of millions of Americans. It had the backing of Alfred E. Smith and Franklin D. Roosevelt and H. H. Lehman as governors of many senators in the upper country from the Atlantic to the Pacific seaboard. Well the senate cracked down. Ratification was refused by a vote of 42 against the pact with Canada to 46 for it. A reminder that a two-thirds majority was required for approval.

Now is will bob up again. President Roosevelt has let it be known that he would resubmit and again ask that it be aproved. There are senators who voted against ratification who are said to be willing to vote for ratification of an amended pact if the pact included "provisions guaranteeing United tSates sovereignty over Lake Michigan and a pact with Canada on power development." It is not a partisan measure. The lines weer not drawn politically. There were republicans for it and against it. It is not a burning issue away down here in the Southwest. It may be at some future time.

'FIGHTING JIM' REED ON THE JOB

Fighting Jim Reed of Missouri is back on the job where he started his fighting career 40 years ago. He is the leader of the Kansas City democratic organization. There is a municipal election on. The big thing will take place Star, vs. Albert Gage, note. Tuesday. There is a citizens-fusionist ticket in the field. There is a Reed democratic ticket in the field. Reed is on the road again, so to speak. He is hurling dynamite bombs into "the camp of the enemy." He is 70. He is the warrior that he was many years ago. He is the battler that he was many years ago. He is the battler that he was as the representative of Missouri in the senate of the United States. If his ticket triumps at the coming election political prognositicators say that "Fighting Jim" will announce as a candidate for United States senator in the very near future and in 1935 may take a seat for a third term in the senate.

The problem of providing playgrounds for the children in the congested sections of our cities no doubt looks formidable, but it has been tackled with success in many cities. There is no reason why it should not be tackled with equal success in all cities.

Hot Springs, Ark., seems to be in the limelight as America's best known year around health resort. I suspect that much of the favorable attention it is receiving is due to the national advetrising done by the famous Arlington

CONNIE BENNETT PLAYS BOTH WIFE AND 'OTHER WOMAN' IN 'MOULIN ROUGE'

Haven't you often felt you vould like to know how your hus band would react if subjected to the intriguing smiles of another

charming woman? That is exactly the situation that Constance Bennett, in the dual role of a wife with stage aspirations and an attractive French diseuse, is faced with in "Moulin Rouge," her first picture for 20th Century which opens Monday at the Lyric theatre.

How the domineering husband who vetoes a stage career for the woman he married is forced to capitulate and concede her talent; now her masquerade as Another Personality almost wrecks her marriage in a fascinatingly dramatic and romantic tale that will bring tears to your eyes one instant and set you roaring with merriment the next.

This is the first time in her career that Miss Bennett has essaved a dual role, one of the most difficult feats in screen acting, and critics have been enthusiastic in heir commendation of her per-

reen star. Another Broadway star who appears with the eldest Bennett laughter in "Moulin Rouge" is ullio Carminati. Carminiti plays the role of Le Maire, a theatrical producer, who also falls for the wiles of the French Diseuse, Raquel, whom Connie impersonates. The Boswell Sisters and Russ Coumbo, crooning radio favorites are other attractive features of the parkling musical.

This is also the first time that Miss Bennett has been so definitefeatured as a singing star, and you don't believe that this oung lady can sing as well as act, ou'll be most agreeably surprised.

Two songs, which are quite liketo become hits of the season e sung by her in her role as the Parisian actress.

Seems like it is up to all of us wait until April 16 and in beveen time to see what is going happen next. There has been so nany different angles to the thing and practically every story that omes out is a different arrangenent. Eastland county has hundreds that are out of jobs and in need of relief. Reports are that usiness is to some extent on the apgrade but not fast enough in his county to absorb even a partial number of the unemployed. One good thing however is that is practically over and good pastime. This being without work can't last some people forever even at that. Times have got to change . . . and how.

GAS Refrigeration

The Simplest Freezing Method next to Nature's ... is the most economical

Electrolux, the gas refrigerator, employs a different freezing principle of operation than any other refrigerator. A tiny gas flame circulates a simple refrigerant. Ordinary air from your kitchen cools it.

Simple, isn't it? And this very simplicity is the thing that gives Electrolux its definite superiority. See this really modern refrigerator with the idea of cutting down your refrigeration costs.

- LOWEST OPERATING COSTS! Electrolux costs much less to run-a saving that goes on day after day-year after year!
- 2. PERMANENTLY SILENT! Electrolux has no machinery or motors to cause noise, or to wear and become noisy!
- 3. FREEDOM FROM REPAIRS! Electrolux has no moving parts to wear and need costly replacing.
- 4. OPERATES IN COUNTRY! In homes beyond the gas mains Electrolux operates with Stargas. 4
