Reconfirmed Observations

America is democratic they say, "Never the Twain Shall meet," has more meaning than the simple words convey. It is an unwritten law that the person who mixes your coke shouldn't, under the guise of a guest mix the ingredients of your cocktail. The meaning of the statement is obvious. It is a fact that as one becomes older they, in a manner, desire to get closer to nature. In the spring and summer and when weather is permissible, can be observed sitting on their porches drinking and reveling in the majesty of nature's beauty. One of the tragedies of life we've read is that when one learns to play the game he is too old to do anything about it. Experiences reveal a person's mentality. There are persons who with a slight knowledge of psychology and general intelligence who can route the drift of conversation to a certain point, they being adept at repartee have the ability to talk for an hour or longer, all the while suggesting all subjects which are akin to the point of topic desired and suddenly arrive at his objective.

Localities

One unassuming young man is graduate of a leading university, has traveled in Europe and over the U. S. yet is perfectly at ease in any type of crowd. He seemingly adjusts himself to any crowd much like an automatic control, able to adjust itself to any change. Superstition still prevails. Recently one woman entered a cafe in Eastland, spied a black cat and refused to eat. Another instance, a dance promoter recently intended to present a dance on the 13th but when aware the date of the week fell on the 13th cancelled same until a later date.

Parallel Parking Is Compulsory in Certain Areas

Due to a city and state order, automobile owners now must park their cars parallel on highway between Seaman and Roswood streets and streets from Lamar to Daugherty.

Workmen Friday were employed on the above mentioned streets marking lines which designate space wherein cars must be parked.

SALEM, Ore.—Regulation and control of roosters was before the city council today following numerous letters of protest received from taxpayers. The city building inspector and sanitary officer were ordered to take whatever control measures might be necessary to eliminate disturbance caused by early rising chateleers.

Militia Halts Oklahoma Tax Sales

Enforcing his order by calling the national guard for the 10th time since he took office, Gov. "Alfalfa Bill" Murray has decreed that no land will be sold for delinquent taxes in Oklahoma. A scene duplicated in 10 other counties is the one above, with a militia squad lined up on the Garfield county courthouse steps at Enid as an officer reads Murray's order to County Treasurer E. N. Phelps.

Grand Jury Meets To Probe Slaying Of Mae Griffin

SHREVEPORT, April 20.—The Caddo Parish grand jury met in special session today to consider murder charges against Fred Lockhart, 38, confessed slayer of 16-year-old Mae Griffin, who was lured from her home and stabbed to death in the woods near here.

Plans call for the trial to start Monday in district court. Meanwhile National Guards maintained a vigil about the court house, scene of Tuesday night's riots, when a mob stormed the jail in an effort to seize Lockhart.

S. W. BOBO OF RANGER DIES AT AGE OF 73

S. W. Bobo, pioneer citizen of Eastland county, died at his home in Ranger Friday afternoon at 2 o'clock after a long illness. Funeral services are to be conducted at his home Sunday afternoon at 2:30 with interment in Evergreen cemetery following the services. The Masonic lodge will be in charge.

The decedent was born in Paducah county, Mississippi, Feb. 26, 1862, and came to Texas in 1873. He settled first in Wise county, later moving to Stephens county in 1891. He moved to Ranger in 1901 and had been a resident of the city since that date.

He was first associated with the Walker Bros. Hardware company, later buying the store, which was run under the name of Bobo Hardware company. He retired in 1925, though the business was continued by Charles Bobo.

He became associated with the Baptist church in early manhood and was married to Miss Selom Watson. They celebrated their fifty-first wedding anniversary last December.

He is survived by his widow and six children: Charles A. Bobo of Ranger, E. H. Bobo of Ranger, M. H. Bobo of Lacasa, Mrs. Susan Hunt of Ranfer, Mrs. Park Weaver of Fort Worth, and Mrs. Howard Cole of Pasadena, Calif.; two brothers, Zack Bobo of Rhomb, Texas, and Dr. Charles Bobo of Norman, Okla., and one sister, Mrs. Charles Poe of Fort Worth. All will likely be present at the funeral except Dr. Charles Bobo, who is past 82 years of age. He is survived by four grandchildren.

During his more than 30 years as a resident and merchant of Ranger he had become one of the best known and most beloved of the pioneer citizens of this section of the country and leaves a host of friends to mourn his passing.

Small Companies Urge Fair Play In Petroleum Circles

FORT WORTH, April 20.—Fair play for small companies under the NRA oil code was asked today by the Southwest Petroleum Institute in a letter to Harold Ickes.

The document set out that unless care is taken present tendencies in the code will promote monopolistic practices among integrated companies instead of thwarting them.

Such a condition is threatened, the communication said, especially in regard to market and purchase of oil.

TINY LIGHT PLANT

MINERVA, O.—Minerva's municipal electric power plant, one of the smallest of its kind in Ohio, is planning a \$25,000 improvement and extension program.

BELGIUM TO EXTEND 'STEEL WALL' TO SEA

PARIS, April 20.—Belgium has decided definitely to extend along the German frontier to the sea the "wall of steel" that France has built on her part of the border from Switzerland to Belgium, it was learned today.

It was understood the Belgians submitted the plan to the French, which made suggestion for further strengthening.

As plans are now, military engineers believe, with Germany on one side and France and Belgium on the other, there will be an invisible wall which no army can pass.

French circles said the Belgian wall probably would be completed within a year, when the two countries would lie behind fortifications of steel and concrete, really extending from the North sea to the Mediterranean sea, for France's system of force on the southeast extends from Switzerland to the sea.

Anti-Roosevelt Move Is Predicted Within 90 Days

FORT WORTH, Tex.—A political fight against President Roosevelt and his New Deal philosophy far in excess of that against former President Wilson will begin within the next 90 days, predicts Dr. Robert Montgomery, one of the South's leading economists.

"The fight against President Roosevelt will be even more bitter than the one staged against the late President Wilson, and it killed Wilson," the head of the University of Texas economics department said.

"The fight is inevitable. It will be eternal war between the Jeffersons and the Hamiltons, democracy and aristocracy, the new and the old."

Dr. Montgomery differs widely with those who accuse President Roosevelt with tearing down traditional American rules and laws.

"Mr. Roosevelt is doing nothing of the sort," he declared. "Those foundations already were torn down. No institution created by man is sacred. None can stand forever. Even labor unions will be hopelessly obsolete in 25 or 50 years."

"Were just on the verge of seeing democracy pass from the world. England and America are the last possible standards, and unless we're willing to make some drastic changes, our democracy will be gone."

Plans to Make Gold from Sand

T. C. Mitchell and wife of Marfa, Texas, were visitors this week in the home of Mrs. Mattie Matthews of Eastland, sister of Mrs. Mitchell. Accompanying Mr. Mitchell were two men, who, Mr. Mitchell, are interested in the experiment of extracting gold from sand.

One of the party has a plant in Kansas where experiments are being made to extract metals from various kinds of sand. Recently an experiment made there was successful in extracting \$150 worth of gold from a medium-sized shovelful of red sand, Mr. Matthews says.

These gentlemen say, according to Mrs. Matthews, that almost any kind of sand contains more or less mineral substance and that much of it is rather rich in iron, copper and gold.

One of the experimenters is a former government employe and has spent a lifetime in this kind of work.

Newspapers Are Scored By Johnson

WASHINGTON, April 20.—General Hugh S. Johnson today publicly reprimanded newspapers of this country for printing the charge that the national recovery administration had imposed a press censorship of any kind.

Johnson undertook to spank the press in a speech before the annual convention of the American Society of Newspaper Editors.

The general turned the session into a confessional, described his problems frankly and finally stood toe to toe in argument with a succession of editors who took exception to his speech.

Falfurrias Will Be Presbyterian Host

FALFURRIAS, Tex.—Presbyterians of West Texas will hold their semi-annual meeting here next fall. The city was selected at the recent meeting of the West Texas Presbytery in San Antonio.

Elder commissioners elected to the general assembly at Montreat, N. C., in May include Joe A. Sloan of San Benito, F. H. Doran of Del Rio and W. T. Miller of Gonzales.

BANK ROBBERY GANG BROKEN BY ARRESTS

BOONVILLE, Mo., April 20.—A well planned series of bank robberies in Missouri and Nebraska was cut short by the arrest of two of the three men who kidnaped State Trooper Chester Oliver, Col. Marvin Casteel, chief of the state highway patrol, said today.

Virgil Marks, Springfield police character, and James Dixon, Colorado ex-convict who previously gave the name of Clark, confessed, Casteel said, to kidnaping Oliver and unfolded a plan for terrorizing banks of the two states.

Oliver was kidnaped yesterday on a highway near Lincoln, Mo., when he stopped to watch the three men patching a tire on their automobile.

RANGER AND TWO PRISONERS ARE MISSING

AUSTIN, April 20.—The whereabouts of Ranger Captain D. E. Hamer, Floyd Hamilton and Steve Davis, brother and step-father of Raymond Hamilton, apparently remained unknown today.

District Judge J. D. Moore, by writ of habeas corpus, has ordered Adjutant General Henry Hutchings to deliver Hamilton and Davis in 98th district court here Saturday morning.

General Hutchings today maintained he did not know where either the ranger captain or his prisoners were.

He has declined to reveal what procedure will be taken when the habeas corpus writ is returnable tomorrow.

Barter An Aid to Two Communities

NEW ORLEANS.—Reverting to simple barter with scrip as a medium of exchange, two "economic self-help communities" have lifted 150 Louisianians from federal relief rolls to a stage of economic independence, Harry J. Early, state executive secretary of the emergency relief administration, has announced.

The associations, numbering 75 members each, are located at Baton Rouge and Covington. Since these two experiments have proved successful, Early said, their membership will be increased and other similar organizations launched with ERIA financial aid.

Each association maintains a trading post, a cannery factory, a needcraft department, and a woodworking department. It is planned to add other divisions as the need develops.

Members are paid in scrip at the trading post for products they raise or make. If there is a market, they receive the market price; otherwise, a fair appraisal is given. The post then offers these articles for sale for scrip. In addition to using scrip to buy articles at the post, members may pay "outside bills" with the token money.

In the latter case, the new holder buys at the post.

Both articles produced by members and merchandise manufactured otherwise are stocked at the exchange. If a surplus of association products accumulates, it is disposed of through the ERA, which needs a large amount of supplies for farm rehabilitation and transient divisions. A large amount of surplus foodstuffs is canned for winter use.

All banks and clearing houses in the state will be closed Saturday throughout the state.

NEW INSIGNIA TO HAVE 'CODE' UNDER EAGLE

WASHINGTON, April 20.—Recovery Administrator Hugh S. Johnson today called on employers to unite "to complete the work of recovery" as distribution of registered blue eagles May 1, to every industry member under a code was announced.

Display of the new insignia, he said, would inform the public the firm was "giving employees a square deal by paying code wages" and co-operating with the majority of other employers in stamping out unfair practices and competition.

The word "code" will replace the familiar "we do our part" under the blue eagle, accompanied by the trade or industry name of the employer displaying it and the individual registration number. These few businesses not yet codified may continue to use old blue eagles.

Blue eagles may be publicly withdrawn for failure to continue strict compliance with codes. The emblem will not be issued to anyone violating a code or agreement.

Tomato Harvesting Festival Is Planned

YOAKUM, Tex.—Yoakum's seventh annual tomato harvest festival, the Tom-Tom, will be held June 8 and 9.

Coronation of King and Queen Tom-Tom VII is one of the events scheduled by Meyer Handelman, chairman of the festival committee.

TROUP, Tex.—Larger tomato crops have been planted through East Texas this year due to good prices received last year and a decrease in cotton acreage, a survey here revealed.

Last year East Texas received about \$2,000,000 for its tomato crop. Favorable weather and the increased acreage gives promise of more revenue this year.

Declaring he had been too benevolent to Zion City, Ill., where he has ruled for 29 years, Wilbur Glenn Voliva, leading exponent of the flat world theory, closed his parochial schools when his public school board candidates were voted down, throwing a burden of 1300 pupils on the overcrowded public schools. Voliva is shown at his desk after his drastic act provoked a furor.

The Macon today will pass over Los Angeles and Riverside. At sunrise Saturday it was scheduled to be over Benson, Ariz.

Saturday it was to reach El Paso. It then will follow the Rio Grande, flying over Fort Hancock. The Saturday night schedule calls for the dirigible to pass in the vicinity of San Antonio and Galveston.

Meanwhile a photograph was mailed to Dr. John F. Condon, Lindbergh kidnap intermediary, and should arrive today at his home in New York.

The picture was that of Lardner, a man of many aliases who allegedly was acquainted with members of the Roger Touhy kidnap gang of Chicago. Lardner is now serving three years in the federal penitentiary at Leavenworth for passing a counterfeit \$1,000 bill.

OLDEN

Special Correspondent
Mrs. George Russell, who has been visiting in Baton Rouge, La., returned home Friday. She and her daughter-in-law, Mrs. A. W. Russell, who made the trip with her, were met in Fort Worth Friday by her son, A. W. Russell of Duncan, Okla., who brought her home from Fort Worth. Mr. and Mrs. A. W. Russell spent the weekend visiting the George Russell family here.

Mrs. A. B. Baker has recovered from her recent tonsil operation, which she underwent last week.

In last week's resume of the Olden news, this correspondent unintentionally omitted the name of Elzo Gullett in writing up the cast of the high school play, and wants to take this occasion to correct the omission. Elzo played the part of Johnnie Johnson and was exceptionally good in the part.

Supt. and Mrs. Henry Collins and family visited in Carbon Sunday.

May Day will be observed with a picturesque May Day fete with pupils of the school taking the various parts. A May Day queen and king and attendants will take part in the fete. Ruby Curry was elected May Day queen in popular vote at school Tuesday.

A baseball game will be played here on the Magnolia diamond Friday afternoon, April 20, between Olden and Eastland. This is a benefit game, all proceeds going to the junior class fund. Everyone is urged to come out and help make it a success.

In last Sunday's game at Strawn Olden was defeated by one score.

High point in the game was a home run by Wayne Howell, who has provided the thrills in the last two games in which Olden played. All of Olden's players are showing remarkable pep and plenty of speed this spring.

Eloise Morton was a Desdemona visitor Sunday.

Mr. and Mrs. Dixie Tate and Mr. and Mrs. Howard Chamberlain of Baird visited the Jack Stephens family here Friday night, April 13.

The junior-senior banquet will be held Thursday night, April 26, in the roof garden of the Connelley hotel in Eastland. Members of the senior class will be guests of the junior class that night. Curry were the freshmen's choice and Jean Adams and Howard Adams were elected to represent the sophomore class.

New Technique Is Saving Lives

By United Press
MOSCOW—A new technique for major abdominal operations, which its originator believes will save many lives, recently has been perfected by a Soviet surgeon, Prof. S. I. Spaso-Kukotsky. The surgeon, after years of practice, became convinced that many patients died from stomach operations because they were deprived of food for some hours before going under the knife. Consequently, he reasoned, vitality was exhausted and the formation of dangerous acids in the intestines was facilitated. In his earlier attempts to counteract this condition, Spaso-Kukotsky introduced into the intestines, following the operation, a "breakfast" of spirits, butter, eggs and milk. He estimated that half a liter of this concoction contained 4,000 calories. As a result of restoring the patient's vigor by this nutritious food, the surgeon estimated that he reduced fatalities from abdominal operations from 16 to 4.1 per cent. Lately, Spaso-Kukotsky even has gone further and has begun feeding patients a light but nutritious diet in advance of the operation. As a result, he contends that the patient is put in a condition to permit operations with local rather than general anesthetics. Spaso-Kukotsky's technique, it is understood, is being adopted by a number of other Soviet surgeons.

Harry Hartz Seeks To Chase Race Jinx

By United Press
WASHINGTON—In a comeback, Harry Hartz, 1926 automobile racing champion and now backed by nationally prominent drivers, hopes to restore his racing team to its 1930 pinnacle, according to the American Automobile association.

In a move to defeat the jinx that has pursued his team for two years, the Association revealed, Hartz signed Jean Marceac, famous French engineer and premier racing mechanic. Marceac, it was explained, designed the car Billy Arnold drove to victory at Indianapolis in 1930, and headed the crew of experts who groomed Fred Frame for his 1932 Grand Prix triumph.

Marceac's application for registration has been approved by the Contest Board of the A. A. A., governing body of automobile racing.

REVENUES REFLECT UPTURN

CLEVELAND—Business upturn is being reflected in Cleveland postal revenues, which have been steadily increasing during 1934, according to Postmaster Michael F. O'Donnell. Revenues during March ran 22 per cent above those in March of 1933, he said, though those of February and January over their corresponding months of last year were only 7 per cent up.

The clubhouse of the 21 Study

CLUB WAS BEAUTIFULLY DECORATED

with pot plants and cut flowers Tuesday when the Gorman Excelsior club came over and gave their annual exchange program. Pink and white are the Excelsior club colors and they were used in the decorations and refreshments. The program was on Texas Day and proved very interesting. Before the program there was a short business meeting of the 21 Study club and the president, Mrs. Roy Ashburn, extended the welcome to the Excelsior club. Mrs. Ed Sutton and each of Excelsior club members gave splendid papers and talks on Texas. Music was furnished by Mrs. M. Scales and her daughter, Mrs. Williams, the latter rendering a vocal solo, "A Brown Bird Singing," very beautifully. The 21 Study club hostesses were Mmes. Hugh Poe, A. C. Moore, Ralph Ludwick, David Parks and A. A. Anderson, and they served a very pretty refreshment plate of chicken salad, wafers, French pastry rosettes, squares of white cake and ice cream, in cups, decorated with pink and white. Thirty-five were present.

On Monday Mr. and Mrs. I. N. Williams drove over to Rising Star on business.

Mrs. W. E. Barron left Monday for Fort Worth to attend the annual meeting of the Central Texas Methodist conference missionary society. Mrs. Barron has served as secretary for the Cisco district for the past four years and has made a splendid record for the district.

On Friday night at the high school an evening of fun was enjoyed by a large crowd of people who came to see the "Womenless Style Show," sponsored by the 21 Study club. W. E. Barron was mistress of ceremonies, introducing himself as a French modiste but called by some "Maggie," the wife of "Jiggs." Between 15 and 20 men represented notable women of the present time and each one had his part splendidly. Be-

TWEEN ACTS NUMBERS WERE GIVEN

by the expression pupils of Mrs. J. C. Brewer of Gorman, who kindly brought over her pupils as well as a good crowd of the parents. Mrs. Aaron Henslee was pianist for the style show and also had some of her music pupils to play. An unusual number was a "Double Wedding" in which Miss Roma Lee Wright was dressed half as a bride and half as a groom and gave a clever impersonation. The work of getting up the entertainment was done by Mrs. W. H. Davis and Mrs. A. B. Henslee, assisted by Mr. and Mrs. Robert Dawley of Caddo.

Why is the swing to GAS refrigeration?

Because:

The GAS Refrigerator operates for 25c a week, or less—an operating cost much less than any other system of refrigeration. A saving that goes on day after day—year after year!

Because:

The GAS Refrigerator operates without motors or complicated machinery. A tiny gas flame circulates a simple sealed-in refrigerant. Ordinary air from your kitchen cools it. That's all!

Because:

The GAS Refrigerator is the most scientifically advanced. The absence of moving parts means freedom from expensive repairs. It is the simplest freezing method next to nature itself!

Because:

The GAS Refrigerator operates in absolute and permanent silence. It has no moving parts to make noise or become inefficient and cause vibration.

Because:

The GAS Refrigerator is the only system with a constant operation. There's no starting and stopping. Hence, a constant, uniform cold below 50 degrees is maintained regardless of any sudden rises in room temperature.

Because:

The GAS Refrigerator has been subjected to severe tests under all sorts of conditions by the American Gas Association, Good House-keeping Institute and your own gas company. These and the experiences of owners prove that the GAS Refrigerator will give you more years of care-free, dependable refrigeration at much less cost!

*STARGAS operates Electrolux, the gas refrigerator, in country homes or camps beyond the gas mains.
