EASTLAND, TEXAS, MONDAY EVENING, JUNE 4, 1934

PRICE FIVE CENTS

No. 172

Deficiency Appropriation Bill Passes House

that reminds me...

opped this from the Industrial Review. DRAINING THE BLOOD FROM INDUSTRY: Any looks dubiously on the argument that taxes stand in the way of business recovery would do well to take a glance at the experience of the American industry during the few years. Here for example is what happened to a concern which has a gross income of \$220,000,000 a year. In a year of boom prosperity, it paid out 11.7 cents in taxes for each dollar it took in. In 1931 it paid out 13.14 cents. In 1932 conditions were extremely bad and it paid out 16.38 cents. And the proportion will probably be higher in 1934. That particular business is a big one—but the same is true of hundreds of other industries. Money is being hoarded in the same position. As a matter of fact they have had tougher sledding during depression than have ever concerns with great cash reserves—and have seen a rising proportion of hard earned dollars to the government. Money could have been used for expansion, for raising wages and opening hours for putting more to work—the tax collector Every worker and investor felt the adverse effects of the tax problem constantly greater. Honest tax reduction, that really reduces the burden of government and doesn't shift the burden by political sleight-of-hand, would be a real impetus to industrial expansion, to increased employment and general recovery. You can't get the financial blood from industry and expect it to go forward.

At this time with the State and with candidates for Congress and Governor and most of them have the item of taxes in their arguments for re-election and the tax to fund the government. We are wondering how much stock and faith in their arguments for re-election and the tax to fund the government. We are wondering how much stock and faith in their arguments for re-election and the tax to fund the government. We are wondering how much stock and faith in their arguments for re-election and the tax to fund the government.

present governor says that state will be out of red when he retires and turns the reins over to his successor. It has been the habit of the Ferguson in the state will be out of red when he retires and turns the reins over to his successor. It has been the habit of the Ferguson in the state will be out of red when he retires and turns the reins over to his successor.

WASHINGTON, June 4.—Americans are drinking less milk and cream, according to the U. S. Department report. The consumption in cities and towns last year was estimated at 3,629,000 gallons compared to 3,443,000 gallons in 1932, 3,445,000 gallons in 1931 and 2,042,000 gallons in 1930. Per capita consumption declined 40 gallons in 1931 and 1932 and 18 gallons last year. The declines occurred chiefly in the Atlantic states where about 10 percent less milk and cream was used than in 1932. Consumption decreased 3.5 percent in Central states, three percent in South Atlantic and about 10 percent in North Central. Consumers used about 75 percent more more and cream.

WORLD PULLS FOR QUINTUPLETS IN FIGHT FOR LIFE

With the world tensely watching, the mother and her quintuplets shown above are waging a gallant fight for life in their log cabin home at Corbeil, Ont., where the five children were born to Mrs. Olivia Dionne, 24, wife of Ernest Dionne, 31-year-old Canadian farmer. Physicians had declared that it would be a near-miracle if they lived a day, but they have gained steadily under the devoted care of the village doctor and nurses. Combined weight of the quintet at birth was 13 pounds 6 ounces. They have been named Cecile, Yvonne, Emily, Annette, and Marie. At right is shown the father with five of the six children born previously to the Dionnes—Pauline, 1, on his lap; Daniel, 2; Ernest, 7; Therese, 5; and Rose, 6.

MEAT PACKERS CALL STRIKE IN OKLAHOMA

By United Press
OKLAHOMA CITY, June 4.—Possibility of the Oklahoma City packing strike spreading to other centers was seen today in communications read to strikers by John Malone, Fort Worth, vice president of the International Meat Cutter and Butcher Workers. Malone immediately called a meeting at union headquarters and Jess Palmer, secretary of the local, read a telegram from James W. Daugherty, secretary of Local No. 208 in the Kansas City packing plant center.

L. C. Burr & Co. Store Burglarized

Burglars Saturday night entered the L. C. Burr department store in Eastland, knocked the knob off the safe and took \$500 in cash and at least \$100 in merchandise and made their escape. Entrance to the building was gained by cutting a hole large enough for a man to enter in the southwest corner of the roof. A brace and bit, chisel, hammer and perhaps a small saw, was used to cut the hole. A rope, which was left inside the building, as was the hammer, was used by the burglars to let themselves into the building. A large sledge hammer, used to knock the knob off the safe, was left on the safe and under it was a note which read as follows: "This was not done by Clyde Barrow and Bonnie Parker, but by their friends." The burglary was discovered Sunday morning by employees of the store. Officers were working on the case.

Oil Field Workers Seek Recognition

By United Press
FORT WORTH, June 4.—Members of the International Oil Field Gas Well and Refinery Workers of America expressed high hope here today of a change in attitude by employers to solve their biggest problem, union recognition. Optimism as to union recognition was expressed by Harvey Fremming, California, president of the union. A flood of telegrams, telephone calls and letters from oil company heads, eager to reach a settlement of workers' troubles, has poured into him since he arrived for the union's national convention, Fremming said. The convention opens today for five days. Fremming told union members he saw if the communications a gesture of peace on the part of employers.

DROUGHT GOES OVER NATIONS OF THE WORLD

By United Press
Drought of unprecedented proportions extended over much of the civilized world today, bringing in its wake wholesale crop ruination and loss of life to humans and animals. Unofficial estimates placed damage in the United States to date at more than \$1,000,000,000. Dried up crops in India, Russia, the Balkan States, and parts of Asia testified to the effect of the prolonged dry spell. Fields of Colorado and Nebraska and Montana soaked up as much as two inches of rain over the weekend—rain which arrived too late to aid scorched crops. States in the Great Lakes region remained dry and the record heat wave continued.

British Views On Debts Are Given To United States

By United Press
WASHINGTON, June 4.—A formal note from the British government setting forth its views on the debt problem has been received at the British embassy and is expected to be delivered to the state department some time today, it was stated authoritatively. The note will be delivered by the British ambassador. The next will be made public immediately. At the same time the text of the recent American debt note to Great Britain will be made public.

Wildcat Well In Rusk Comes In

By United Press
RUSK, Texas, June 4.—A "black gold" rush was in progress here today. Crude oil—12,000 barrels of it—flowed from a wildcat well which yesterday turned this normally quiet town into a scene of eager excitement and spirited activity. Lease prices reasonably near the well-soared to \$100 per acre today, with royalties at \$200 per acre. Even at those prices holders were reluctant to sell. The wildcat was brought in by the New Birmingham Development company.

Stork Brought Them Five Sisters

At right is shown the father with five of the six children born previously to the Dionnes—Pauline, 1, on his lap; Daniel, 2; Ernest, 7; Therese, 5; and Rose, 6.

Cotton Seed Mills Under Citation By Government

By United Press
WASHINGTON, June 4.—Three leading cotton seed crushers associations, representing almost all crushing mills in the industry, were under citation today by the federal trade commission charges of attempting to fix prices and hinder competition in purchasing cotton seed. The associations were the National Cotton Seed Products association, the Texas Cotton Seed Crushers association, the Oklahoma Cotton Seed Crushers association.

Sixteen Counties Get Drouth Relief

By United Press
AUSTIN, June 4.—Sixteen counties were designated for expenditure of special drouth and hurricane relief funds today by Director Harry Hopkins. The counties were in two groups 1, Dallam, Hartley, Moore, Oldham, Sherman, Potter and Deaf Smith; 2, Bailey, Hansford, Carson, Hutchinson, Ochiltree, Farmer, Lipscomb, Randall and Roberts.

Naval Conversation To Start June 15th

By United Press
WASHINGTON, June 4.—Preliminary international navy conversations to pave the way for the 1935 conference, will start in London about June 15, the state department announced today.

Sanity Hearing For Youth Who Killed Mother Is Planned

By United Press
LOS ANGELES, June 4.—Police today planned a sanity hearing for a St. Louis utility magnate's 20-year-old son who admitted murdering his mother and brother with an ax. Louis R. Payne, 20, his face white from fright, walked into Huntington Beach police station last night and confessed the brutal murders of his mother, Mrs. Carrie Payne, and his brother, Robert, 14.

Strike Conditions Appear Improved

By United Press
Strike conditions along the labor front appeared brighter Monday with the hope of settlement of all major controversies through combined effort of government, labor and capital. Heartened by settlement of the threatened textile strike, General Hugh Johnson continued to bring steel workers and companies into agreement. Executives of the iron and steel institute were called into conferences.

Economy Act Is Dealt Another Blow

By United Press
WASHINGTON, June 4.—The supreme court dealt President Roosevelt's economy act another blow today. The court ruled that the 1933 economy act, which clipped millions from the pension rolls, did not deprive war veterans of their beneficiaries under war risk insurance contracts of the right to sue for benefits.

TWO POINTS IN RATE CASE ARE IN ARGUMENT

By United Press
AUSTIN, June 4.—District Judge Charles Wheeler today asked arguments on two points in the state's suit to force reduction of natural gas rate rates in North Texas from 40 to 32 cents a thousand cubic feet. He deferred final ruling after hearing exceptions to the state's pleadings by the Lone Star Gas company. Decision on the two points, he said, would make it easy to pass on the remaining minor ones. Questions puzzling him are: 1. Has the state the right to ask a money judgment for benefit of consumers because of failure of the utility to obey the reduction order? 2. Has the state railroad commission the right to ask an injunction to enforce its orders in the absence of other complainants?

Thirty-One Filed For State Offices Subject to Primary

HOUSTON, June 4.—Thirty-one candidates have filed today with the State Democratic executive committee for places on the Democratic Primary ticket to be voted on July 28. Three candidates, two for governor and one for lieutenant governor, who already have announced, have not yet filed with the secretary of the executive committee, Miss Bertha Kunz. They are Edgar Witt, Waco, and E. K. Russell, Red River county, candidates for governor, and Walter Woodull of Houston, candidate for lieutenant governor. Miss Kunz said those who expect to be candidates on the Democratic ticket at the primary will (Continued on page 2)

Prospects For New Postoffice Here Are Brighter

Two new federal buildings for Eastland county, a postoffice for Eastland and one for Ranger, are included in an appropriation measure offered in the house and which democratic leaders hope to put through congress today. The following news dispatch carried under a Washington date line gives in part the buildings included in the bill: WASHINGTON, June 2.—Thirty-five public buildings in Texas on which no PWA funds have been allotted are listed for construction in the deficiency appropriation bill for which a total of \$65,000,000 is provided. The bill was reported favorably to the house Saturday by its appropriations committee. Twenty-nine of the buildings have been previously authorized by congress and six have been recommended by the treasury to the PWA for which no previous congressional authority existed. Authority for prosecutions of the 35 building projects is transferred in the bill from the PWA to the treasury and postoffice department. Estimates of cost of individual buildings have been reduced. The Texas buildings listed, with the proposed limit of cost, including administrative expenses, included Eastland, \$66,000, Ranger, \$80,000.

Eastland Rotary Club Endorses New Bank Plans

The Eastland Rotary club was given first hand information on the Boy Scouts of the county and their activities by scout executive Guy Quiri. The Eastland Rotary Club is sponsoring the local troop, Pay F. Earnest, scoutmaster, gave a brief and interesting talk on the scout activities. The feature of the day's program was the presentation to the club by County Judge C. L. Garrett the proposed bank plan for Eastland. He gave the club the details of the plan and expressed his views that it was one of the most important movements at this time. After hearing the plan explained the club went on record unanimously endorsing the plan, and extended the cooperation of the club to the depositors committee in getting the plans presented at Washington and before the state department of banking. H. C. Davis, secretary of the Eastland chamber of commerce, spoke in the interest of bringing the fireman's convention to Eastland in 1935 or 1936 and Dr. P. M. Kuykendall, president of the Ranger chamber of commerce offered the cooperation of his organization in furthering the bank plans and the plans for the convention. A committee composed of J. B. Johnson and Sam Gamble has been handling the project in the interest of the club, with both Cisco and Ranger expressing a willingness to join in cooperating.

HONESTY DOOR

By United Press
QUINCY, Mass.—An "honesty door" is an unusual feature of Albert S. Pierson's home on Riverbank Road. Since the house was built two years ago, it has had three doors, but only two are used. The third door will not be opened, says Pierson, until he discovers a person thoroughly honest in all his dealing and thoughts.

Edward K. Russell

Candidate for Governor, who will address Eastland county voters from the courthouse lawn in Eastland this evening at 8:30 o'clock.

Candidate For Governors Speaks At 8:30 Tonight

Edward K. Russell on Annona, Red River county, candidate for governor of Texas, will deliver an address in the interest of his candidacy from the lawn of the county courthouse at Eastland this evening at 8:30 o'clock. Mr. Russell is a native of Mississippi, but settled with his parents in Red River county, Texas, 40 years ago and has since made his home there. He has devoted his life to farming and kindred businesses. His Aims and Platform I am inspired to seek this office with only two thoughts in mind: 1st. To serve the people of Texas as at a time and under such stressed conditions when business experience, honesty, vision and courage are much needed in the personality of the Governor of our State in order that Texas may go forward socially, commercially and politically, in keeping with the spirit and ideals of Democracy, as is evidenced by the living example of our great President, Franklin D. Roosevelt; and 2nd. I would like to bring to the office of Governor of this State that dignity, respect and esteem that it deserves and must have for Texas and its people to maintain progress in the march of time. To the accomplishments of these aims, I dedicate the best that is in me. The many matters that must necessarily be solved, or some solution adopted towards that end, during the next two years cannot all be included in my platform. However, feeling that the people of Texas would like to know my position concerning some of the matters presently being discussed by them, I have submitted my position on some of them.

CARRIES FUND FOR RELIEF AND RECOVERY

Now Goes To Senate Where Fight To Boost Relief Is Foreseen.

By United Press
WASHINGTON, June 4.—The deficiency bill, carrying \$1,172,000,000 for relief and recovery, passed the house today, completing disposal of that chapter of the "must legislative list" as drawn several weeks ago. The vote was 309 to 45. The bill now goes to the senate, where a fight will be made to boost relief and public works appropriations to \$5,000,000,000. The measure, in addition to its direct appropriation, authorizes the president to use unobligated RFC and PWA balances, estimated at \$5,000,000,000 for relief purposes. The president could use this money for drought relief if he wished. The measure provides approximately \$900,000,000 for the president to use as he sees fit for relief programs. In addition it carries congressional earmarked funds of \$176,000,000 for public highways and public building construction.

Hairy Tribe of Wild Men Reported Near Vancouver

By United Press
VANCOUVER, B. C.—Reports that a tribe of wildmen known as "Sasquatch," a race of ferocious hairy giants, who dwell in caves in British Columbia years ago, still are roaming the rocky wild near Vancouver, have been revived here. The tribe was believed to have become extinct 30 years ago, but during the last year it frequently has been reported that survivors have been seen prowling near scattered settlements around Vancouver. The wildmen are described as "hairy giants, nine feet tall, with a ferocious appearance and demeanor." Seen by Woman Mrs. James Caulfield, living on a farm near Harrison, B. C., is the latest to report seeing one of the giants. Mrs. Caulfield relates that she was washing clothes in a river when she heard a buzzing sound similar to that made by a hummingbird. "I turned my head," she said, "but instead of a bird there stood the most terrible thing I ever saw in my life. I thought I'd die for the thing that made the funny noise was a big man covered with hair from head to foot. He was looking at me and I couldn't help looking at him. I guessed he was a Sasquatch so I covered my eyes with my hand, for the Indians say that if a Sasquatch catches your eye you are in his power. They hypnotize you. I felt faint and as I backed away to get to the house I tripped and fell. As he came nearer I screamed and fainted."

Screams Brought Husband

Mrs. Caulfield's screams brought her husband running out of the house just in time to see the giant run off into the bush. On another occasion two canoeists reported that the giant saw them paddling down a river and started hurling rocks at them.

Texans Graduate From Arkansas U.

By United Press
LITTLE ROCK, Ark.—Several Texas students who were among those who will be graduated from the University of Arkansas School of Medicine in exercises here June 6. They are Noel Akers, Dallas; Stanley Cox, Groesbeck, and Sam Ellis, Waco. Other members of the class will serve internships in Texas hospitals. They include Peel Allison, Conway, Ark., who will go to the Scott and White hospital, at Temple; William Thurman Inabnet, Wadley, Ark.; St. Paul's hospital, Dallas, and Robert E. Green, who will go to Memorial hospital, San Antonio.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

Advertising has paved the way to success for those concerns that are a success.

Newspaper advertising is highly regarded by the public. They appreciate its service because it is the kind of service that serves them well.

People are ever eager to know what local merchants have to sell. They read the advertising columns of local newspapers for full information, and when local merchants do not give full information they turn to mail order catalogues.

When the business of local people is invited by local advertising, people buy at home.

Many people buy from a catalogue, not knowing that local merchants can sell them better quality and better satisfaction.

People always have a genuine appreciation of the local merchants who advertise in local newspapers.

have until midnight, June 4, to file their intentions. Notice of a call meeting will be issued shortly after that date for an official meeting of the executive committee to meet in Austin on June 16. On that date the committee will prepare the primary for balloting. Five candidates already have filed for the governor. They are C. C. McDonald of Wichita Falls; Tom F. Hunter of Wichita Falls; Maury Hughes of Dallas; Clint Small of Amarillo, and James V. Allred of Wichita Falls. For lieutenant governor, four candidates have filed. They are R. M. Johnson, Palestine; Ben F. Berkeley, Alpine; John Hornsby, Austin, and James P. (Jimmie) Rogers of Houston. Four persons have filed with the secretary for the position of State Railroad commissioner. They are Lon A. Smith of Austin; John Pundt of Dallas; H. O. Johnson of Houston, and Jas. L. McNeese of Dallas county. Only one has filed for the place of superintendent of public instruction. He is L. A. Woods of Austin. Charley Lockhart will be unopposed on the ticket. Three names will appear on the ballot for the position of comptroller of public accounts. They are George H. Sheppard of Austin; J. J. Patterson of Dallas county, and Delph B. Tillison of Henderson county. The attorney general's office will be sought by four persons: Walter Woodward, Coleman; J. P. Hare, Bexar county; Clyde E. Smith, Woodville, and William McGraw, Dallas. Walter E. Jones, Gregg county, has been the only one to file for the office of general land commissioner. W. C. Morrow, Travis county, will be unopposed for the bench in the court of criminal appeals. Three have filed for United Senator. They are Jos. W. Bailey, Jr., of Dallas; Tom Connally of Marlin, and Guy B. Fisher. The position of associate justice of the supreme court will be sought by James W. McClendon, Travis county, and John H. Sharp, also of Travis county. Two men seek the office of commissioner of agriculture. They are Fred D. Davis, Travis county, and J. E. McDonald, also of Travis county. Other candidates may file before the closing deadline. Miss Kunz said, but she believed all who intended to file had done so, with the exception of Russell, Witt and Woodul. Filing fee of all candidates for state offices to be voted upon by qualified voters of the state is \$100 each.

FOUND

Experience of Camel smokers is now Explained

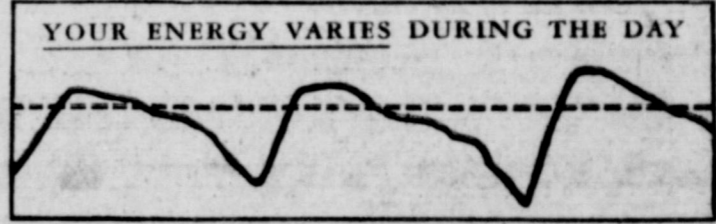

From a famous research laboratory in New York comes a basic discovery that throws new light on our past knowledge about cigarettes. It embodies an "energizing effect" ... a harmless restoration of the flow of natural body energy... a delightful relief from fatigue and irritability. When you smoke a Camel you enjoy an increase in your flow of energy. And this benefit you get from smoking Camels can be enjoyed all through the day... without upsetting your nerves.

WHO HASN'T FELT "dog-tired" after work... with a long evening ahead... and dinner time still an hour away? That's just one of the many, many times during the day when you will want to light up a Camel—for restoring your flow of healthful energy. You'll like Camels—a matchless blend of costlier tobaccos!

Copyright, 1934, R. J. Reynolds Tobacco Company

Important Facts for Smokers Discovered by Science!

Let CAMELS increase Your Flow of ENERGY

Tired? Light a Camel. And as you enjoy its cool, pleasing fragrance, you feel a new flow of energy... a cheering "lift"... a quick and delightful "energizing" effect.

IT'S YOUR OWN NATURAL ENERGY RELEASED AND CAMELS NEVER JANGLE YOUR NERVES!

You've probably noticed this yourself and have wondered why and how it happened. The "lift" you get from Camels is a release of your own natural energy... your latent energy made easily and harmlessly available. So when you're feeling run-down, tired, "all in," smoke a Camel and see what happens. That tired feeling slips away. You're ready again for work and fun. Camels have helped your own body to help itself and bring you back in "pep" and energy.

You can smoke just as many of these delightful Camels as you want. You can increase your flow of energy over and over again. And you need never worry about your nerves. For remember: Camel's costlier tobaccos never get on your nerves.

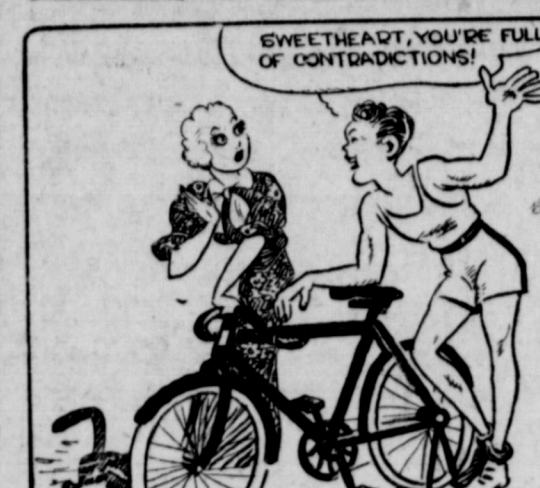

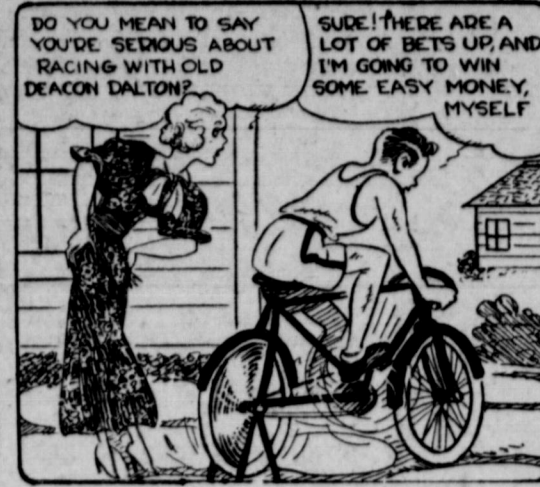

CAMEL'S Costlier Tobaccos never get on your Nerves

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

Get a LIFT with a Camel!

Booster Bible Class

The Booster Bible class was presented a marvelous lesson by Judge W. P. Leslie at their Sunday morning meeting in the Methodist church.

The session was opened by their president, Mrs. Ed F. Willman, with ensemble song service, "I Am Thine Oh Lord," and "In the Garden," led by Mr. Cecil Hibbert, with Mrs. Nell A. Moore as pianist.

Class prayer closed the session attended by Messrs and Misses Cecil Hibbert, Ed F. Willman, M. H. Kelly, J. Frank Sparks and son; Messrs. Neil A. Moore, Joe Kraemer Jr., Galand Poe, C. W. Price, Luther Belew, Claud Boles, L. Y. Morris and son; Misses Minnie Lay, Jessie Le Ligon, Valera Hargus; Messrs. T. J. Haley and Judge W. E. Leslie, guests formally presented, were Miss Akers and Miss Peggy Patterson of Plainview, house guests of Mrs. Joe Kraemer Jr., and Mrs. Joyce of Temple, house guest of Mrs. M. H. Kelly.

Martha Dorcas Class

The Martha Dorcas Bible class held their usual meeting Sunday morning in Methodist church, with Mrs. H. O. Satterwhite, president, in chair.

The session opened with the hymn, "Stand Up for Jesus," the Lord's Prayer in unison and hymn, "In the Garden."

The meeting closed with the class prayer. Personnel: Misses James A. Wiley, W. H. Mullings, T. J. German, C. L. Silvester, D. C. Hawley, C. H. McBee, W. L. Godfrey, W. A. Keith, Guy Patterson, Mack O'Neal, Frank Pierce, Fred Hale, Don McEachern, L. C. Walker, Jane Kinable, B. O. Harrell, Milton Newman, W. E. Leslie, H. C. Davis, J. L. Baper, L. A. Cook, J. F. Little, C. C. Ligon, E. M. Kenny, Noble Harkrider, W. B. Harris, W. E. Coleman, Oliv Stover, Guy Quinn, H. O. Satterwhite, Ed T. Cox Jr., and Miss Ila Mae Coleman.

Attending Board Meeting

Judge and Mrs. J. E. Hickman left for Fort Worth Sunday, and will return Tuesday.

Judge Hickman is there to attend a meeting of the Board of Trustees of Southern Methodist University.

Mr. Robey Improving

Mrs. Charles C. Robey has returned home from Greenville, where she had been at the bedside of her husband, who has been very ill, but had a turn for the better the first of the week, and is now thought to be slowly improving.

Mr. and Mrs. Brelsford House Guests

Mrs. H. P. Brelsford, Sr., of Fort Worth, and Mrs. Gates of Gorman, mother of Mrs. Brelsford Jr., arrived Friday to visit Mrs. Brelsford's son and wife over the week-end.

Eastland Personals

Miss Josephine Martin was a week-end visitor in Abilene.

The former Mrs. Curtis Corzelius, prominent in Eastland for some years, is now living in El Paso for the benefit of her health.

Mrs. Joe Kraemer, Jr., is entertaining Miss Akers and Miss Peggy Patterson of Plainview, who arrived Saturday for a two weeks visit.

Billy Gupton is here for a weeks stay with Mr. and Mrs. Walter I. Clark.

"GRANDDADDY" HOPPER CAUGHT IN MONTANA

By United Press
MISSOULA, Mont.—Two Missouri girls have captured what they believe to be the "granddaddy of all grasshoppers." They found a hopper atop Mount Sentinel near here which measured two inches in length—not counting antenna, wings and legs.

The Frogs Defeat Richland Springs In 10 Inning Battle

By CHAS. E. LAFON
The Eastland Horned Frogs again emerged victorious when they played Richland Springs 7 to 8 in a close ten inning battle Sunday at Welch field. The Frogs' slate is still clean in regard to defeats with all due respects to their adversaries. Pope scored the winning run on a passed ball to the catcher with two out in the tenth. There were some three or four hundred fans out at Welch Park to witness the hard fought game. Each side was retired in order the last four innings and it looked as though it would go for more than the one extra inning as both pitchers were getting better as the game progressed.

The game was replete with misuses and loose playing on both sides. Richland Springs making five errors and the Horned Frogs three, the errors responsible for the scoring in each instance.

Rather amusing characteristic or incident of the two clubs was the fact that Richland Springs had three Smith brothers on the same team and C. Smith for the Frogs making four should be some kind of record for the Smith family in

sports at any rate; but to top it all off Richland Springs had another brother act. W. Brown and B. Brown and as a climax take C. Wallace and L. Wallace of the Frogs, although they are not related.

Box Score				
Richland Springs	AB.	R.	H.	E.
W. Brown, rf	5	1	1	0
Hayes, ss	5	2	2	2
Parker, m	5	1	2	0

Norma Shearer In Feature at Lyric

Norma Shearer comes to the motion picture screen after an absence of some eighteen months as the glamorous heroine of "Riptide," her new Metro-Goldwyn-Mayer starring vehicle which

At Lyric Monday and Tuesday

Baby Marilyn Spinnert, Herbert Marshall, Norma Shearer in "Riptide."

opens today at the Lyric Theatre.

Familiar in daring sophistry to her famous characterizations in "The Divorcee," "A Free Soul" and "Strangers May Kiss," and "Strange Interlude," the new Shearer vehicle brings to the screen a romance smartly Continental in locale and sensational in triangular motivation.

This is Miss Shearer's first screen offering since "Smilin' Through," winner of the 1932 Photoplay Gold Medal Award. During her vacation Miss Shearer accompanied her husband, Irving G. Thalberg, on an extended visit to Europe. Thalberg, returning to his M-G-M executive post, pro-

duced "Riptide" as the first picture on his new program.

SEVEN CHURCHES OVER 100 BOSTON.—Boston has seven church buildings more than a century old. The oldest is Christ Church, built in 1723, and the others are Old South Meeting House, King's Chapel, St. Stephens Roman Catholic Church, West Church, Charles Street Meeting House and Park Street Church.

Twenty-five of President Roosevelt's 49 advisors, says the famous editor, Gene Howe, are "yes" men. Still, he won't deny that they're all "know" men.

Ross' Suspension Almost Laughable

By W. WINSTON COPELAND
United Press Staff Correspondent
FORT WORTH.—Important as it may seem on the surface, the National Boxing Association's suspension of Barney Ross is almost laughable.

The lightweight, junior welterweight and welterweight champion was suspended because he failed to keep his contract to meet Tony Herrera, the Mexican pride from El Paso, here April 21.

Parentetically, his lambasting of Jimmy McLarin indicated Tony may have had a "break" after all.

About the only thing of importance in the suspension was that the N. B. A. showed its willingness to co-operate with the Texas commission, which had demanded the suspension.

As far as keeping Ross out of the ring, the N. B. A. ruling will have about the same chance of doing that as a tailor has of selling a tuxedo in a nudist colony.

This, because the three principal

fighting areas of the U. S. do not recognize the N. B. A. York, Illinois and California have given the N. B. A. a verbal horse-laugh. Ross can figure out where else to fight in any of these states.

Had Ross lost to McLarin, he would have been in Texas. Promoter Dick had contemplated such a move.

But with three crowns on his raven locks, it is doubtful whether there is a city in that could afford to offer enough money to defend a

THE FORD DRAMA OF PROGRESS

The Story of Transportation Through the Ages

The Ford Motor Company invites you to visit its exposition at A Century of Progress, Chicago, where the absorbing story of Ford men, methods and ideals has been unfolded beneath a single roof.

THE Ford Exposition is dominated by a tower ten stories high, in the center of which is an open court. Through the top of the rotunda, the sun's rays pour down upon a twenty-foot rotating globe—its surface bearing in relief the myriad units of the Ford industries.

Grouped about the Ford globe is a pageant of transportation, from the earliest Egyptian chariot, crude ox-carts and covered wagons to automobiles of varied age, type and design. A "Roads of the World" exhibit faithfully reproduces the roads upon which these vehicles traveled, from the earliest dawn of history.

Around the walls of the tower, behind the display of vehicles, appears a photographic mural covering 12,000 square feet. In the south wing Henry Ford personally has prepared a display which centers about the humble shop in Detroit where he experimented forty-odd years ago and where the first Ford car was built. The car itself—the first of millions—is a part of the exhibit.

Surrounding the Ford workshop is a series of displays which sharply etch the advance from the cruder machinery of other days to the almost wholly automatic machine shop of today. It is the story of "a hundred years of mechanical progress."

In this story of advancement are imprints of Henry Ford's own career. Many devices in the display came into being through Mr. Ford's efforts, or through exigencies created by his insistent drive toward improvement and increased efficiency in every mechanical operation.

Beside the Ford Exposition Building stands the gray, weather-beaten barn in which Henry Ford worked and played as a Michigan farmer boy. Its presence is peculiarly significant, because it has been equipped with machinery to illustrate how the farmer may process raw materials for industrial uses and bring about a closer and mutually profitable relationship between industry and the farmer.

Suppliers Join Ford in Educational Exhibit

Twenty-one of the suppliers who manufacture Ford V-8 parts have joined with the Ford Motor Company in the industrial exhibits to make them complete and informative. Each exhibit begins and

The Grand Concourse of the Ford Building. Shown here is a priceless collection of vehicles of transportation of all time, from the ancient Egyptian chariot to the automobile of today.

ends upon the same two keys—the first that every part of the Ford car comes from the earth. The second is that each part, from the smallest bolt to the heaviest steel part, must pass individual tests to make sure it is up to Ford standards.

From Mine to Finished Automobile Parts

The sources of iron, steel, copper, aluminum, zinc, lead and other metals are graphically portrayed. Exhibits depicting the processes that are used in manufacturing parts from these metals are actually at work producing the finished parts.

A program of symphony orchestra music has been planned for the Ford Exposition to last throughout the summer months. Opening the musical program will be the Women's Symphony Orchestra of Chicago, directed by Miss Elba Sundstrom. The Women's Symphony will close a one-week program June 13th. An afternoon and evening concert will be given daily.

On June 16th the Detroit Symphony Orchestra will begin a series of daily concerts to continue for twelve weeks. Under the baton of Victor Kolar the Detroit Symphony will give a two-hour concert each afternoon and evening of the week.

The Ford Exposition Building is illuminated at night by hidden batteries of lights. These lights, playing upon the central tower exterior, produce an effect of great beauty. Straight up from the tower is a mighty beam of light furnished by searchlights with a combined strength of 600,000,000 candle-power. It is visible for many miles, and for hundreds of miles to airplanes.

PLAN TO SPEND AT LEAST ONE DAY AT THE FORD EXPOSITION
