### CHAIRMAN FLETCHER SOUNDS G. O. P. SLOGAN

Henry T. Fletcher of New York and Pennsylvania has accepted the New Deal of the Roosevelt administration as the issue in the fall election. Col. Fletcher in a nation-wide radio speech asserted the New Deal was a proposition "repudiated and overthrown by the Declaration of Independence." He threw down the gauntlet when he said the republican party accepts the issue of the New Deal." He called upon the American voters to cast their ballots for the election of republican congressmen to combat administration policies. He proclaimed the issue in the approaching election "the right of the people to govern themselves."

Col. Fletcher is a very able man. He is a very rich man. He is committed to the old order. He has not changedwith the hanging conditions of the times, economic or otherwise. He is for a battle at the polls in November for old order control of the house of representatives of the American congress. In the old order the many ddi the voting and the chosen few, who were not lawmakers or public servants, dictated the legislation for the American people and their government.

There are two great political parties in the republic. There is a free balolt. There is reeom of expression. There is freedom of action. There is no dictator. The free man is privileged to do his own voting. He is privileged to follow his own political standard. He has the power to throw the ins out and outs in. Col. Fletcher has behind him powerful newspapers and magazines. He has behind him the golden sinefs of war. He knows where to do the tapping for coin for campaign purposes. He has many of the most gifted writers of propaganda at his beck and call.

He says the ballot is the thing. All the people ask is a free ballot and a fair count. Then it will be for all the voters to bow to the wisdom of the majority. Ring out old liberty bell. The American people love its chimes.

It does seem that a lot of people are keeping as busy as a wind-mill trying to make politics the principal industry in this country. If they are not stopped they may succeed.

There are all kinds of merchandise for sale, but only one kind is offered you through the advertising columns of your newspaper-and that is the best kind.

A whole lot of clams in every city never open their shells to look around.

Some men should quit hunting faults in other people until they first correct their own faults.

### By Cowen Treasure Hunters Seeking Old Cache Of Mexican Gold

By United Press

HOUSTON, Tex.-Recovery of \$4,000,000 worth of Mexican gold bars said to have been resting in the quicksand at the bottom of Fish Hook lake for nearly 100 years is expected within the next few weeks, according to Henry C. Barnes of Houston who is directing the search.

Barnes said he and members of the searching party actually have felt the gold or some metalfic substance with prod poles. He said it was resting in the quicksand 22 feet below the surface. He said it would be necessary to

sink a plank enclosed shaft to it. Quicksand seeping in at the bottom of the shaft will be disposed of by pumping water and the quicksand out one side of the shaft, he explained.

Salvaging of the gold will mark the end of a search started 30 years ago when an injured Mexican gave Barnes a map drawn on a goat skin, supposed to show the exact location of the gold bars. The bars were said to have been thrown into the lake by the Mexican army about 10 days before the battle of San Jacinto.

The Mexican was dying, Barnes said, and was grateful for favors shown him by the American.

Barnes said the map showed the location of the gold but failed

### CHAIRMAN FLETCHER SOUNDS G. O. P. SLOGAN

Henry T. Fletcher of New York and Pennsylvania has accepted the New Deal of the Roosevelt administration as the issue in the fall election. Col. Fletcher in a nation-wide radio speech asserted the New Deal was a proposition "repudiated and overthrown by the Declaration of Independence." He threw down the gauntlet when he said the republican party accepts the issue of the New Deal." He called upon the American voters to cast their ballots for the election of republican congressmen to combat administration policies. He proclaimed the issue in the approaching election "the right of the people to govern themselves."

Col. Fletcher is a very able man. He is a very rich man. He is committed to the old order. He has not changedwith the hanging conditions of the times, economic or otherwise. He is for a battle at the polls in November for old order control of the house of representatives of the American congress. In the old order the many ddi the voting and the chosen few, who were not lawmakers or public servants, dictated the legislation for the American people and their government.

There are two great political parties in the republic. There is a free balolt. There is rfeeom of expression. There is freedom of action. There is no dictator. The free man is privileged to do his own voting. He is privileged to follow his own political standard. He has the power to throw the ins out and outs in. Col. Fletcher has behind him powerful newspapers and magazines. He has behind him the golden sinefs of war. He knows where to do the tapping a visitor calls, he requests his is going to help the "forgotten" don't know whether to order liver for coin for campaign purposes. He has many of the most gifted writers of propaganda at his beck and call.

He says the ballot is the thing. All the people ask is a free ballot and a fair count. Then it will be for all the voters to bow to the wisdom of the majority. Ring out old liberty bell. The American people love its chimes.

It does seem that a lot of people are keeping as busy as a wind-mill trying to make politics the principal industry in this country. If they are not stopped they may succeed.

There are all kinds of merchandise for sale, but only one kind is offered you through the advertising columns of your newspaper-and that is the best kind.

A whole lot of clams in every city never open their shells to look around.

Some men should quit hunting faults in other people until they first correct their own faults.

Amy. Unable to bear the sight
of Amy's happiness. Jane obtains
a job in a New York real estate
office.

In her desperate plight Jane turns to Amy for help. Howard is touring Germany and Amy comes to New York. She stays until the baby is born and then, horrified because Jane insists on giving her daughter away, agrees to take the child with the understanding that Jane never shall reclaim her.

When Amy returns to Marburg with the baby she worries over what Howard, still in Europe, will think of what she has done.

### Treasure Hunters Seeking Old Cache Of Mexican Gold

By United Press

HOUSTON, Tex.-Recovery of \$4,000,000 worth of Mexican gold bars said to have been resting in the quicksand at the bottom of Fish Hook lake for nearly 100 years is expected within the next few weeks, according to Henry C. Barnes of Houston who is directing the search.

Barnes said he and members of the searching party actually have felt the gold or some metalfic substance with prod poles. He said it was resting in the quicksand 22 feet below the surface. He said it would be necessary to sink a plank enclosed shaft to it. Quicksand seeping in at the bottom of the shaft will be dis-

posed of by pumping water and the quicksand out one side of the shaft, he explained.

Salvaging of the gold will mark the end of a search started 30 years ago when an injured Mexican gave Barnes a map drawn on goat skin, supposed to show the exact location of the gold bars. The bars were said to have been thrown into the lake by the Mexican army about 10 days before the battle of San Jacinto.

The Mexican was dying, Barnes said, and was grateful for favors shown him by the American.

Barnes said the map showed the location of the gold but failed to give the site of the lake, the the London Chamber. After leav- are neat metal affairs which, to chief clue to which was an anchor cut into a tree by the lakeside.
