

## HURRICANE IS NEARING TEXAS COAST

### 80-MILE WIND HAS REACHED SOME SECTORS

Storm Expected To Strike Near Corpus Christi This Afternoon.

WASHINGTON, July 25.—The storm whipping the Texas Gulf Coast will cross the coast line slightly north of Corpus Christi, warnings today said. Hurricane winds and high tides will accompany the storm.

AUSTIN, July 25.—Twenty-two highway patrolmen were concentrated along the Gulf Coast today, mobilized into the hurricane zone from throughout south-east Texas.

HOUSTON, July 25.—A Gulf hurricane swept toward the Texas coast today, threatening loss of life and property.

The full force of the storm was expected to strike the coast near Rockport in the afternoon. An 80-mile wind was reported blowing at Port O'Connor, indicating the storm was a severe one and had increased in intensity since morning.

Hurricane warnings were flying along the coast from Galveston to Corpus Christi, an area more than 200 miles long. Washington weather bureau advisories said the storm would strike near Corpus Christi.

Telephone lines to Freeport, Port O'Connor and Port Lavaca and other points in the storm area went down last night.

Residents at Corpus Christi, scene of a hurricane in 1919, began to grow panicky as the barometer there dropped to 29.24, lowest since the 1919 storm. The barometer had been falling all morning.

Concern was felt for 700 persons on Mustang Island between Rockport and Corpus Christi. They were marooned when storm conditions caused ferry service to the mainland to be discontinued. The island is a popular fishing and boating resort.

Houston and Galveston were believed to be out of the danger area.

### Jury Finds For Gas Company In Rate Cut Case

The Texas railroad commission order issued last fall cutting Lone Star Gas company rates 20 per cent, was declared to be unreasonable and unfair by a jury in Travis county district court at Austin July 21. Setting a precedent for a jury action in public utility rate matters, this verdict was the climax of the long litigation involving wholesale gas rates of the gas company in about 25 Texas towns and cities.

The jury was composed principally of farmers and city workers. After hearing testimony for 28 days, these men for three days studied the evidence on both sides. They concluded that the railroad commission was in error and that the 20 per cent reduction was not justified by either the company's operating revenues or its property valuation.

The case was the largest and longest public utility rate case on record in the southwest. It started when the railroad commission, as a result of agitation during the depression, ordered an investigation of the Lone Star Gas company rates Oct. 14, 1932. Eight months were required by the commission to hear evidence, and when the company appealed to the federal court from the order reducing the rate from 40 cents to 32 cents per thousand cubic feet, the attorney general had the case referred to the state court with a demand for a jury trial.

L. B. Denning, president of the gas company, made the following comment on the verdict: "I consider this decision very significant. It is notice to the financial world that Texas is a safe place for investment. It shows that there is no disposition on the part of the people, as represented by this Travis county jury, at the best of politicians, to penalize a utility which is always trying to do the right thing."

### Federal Agents Promoted After Dillinger Death

WASHINGTON, July 25.—Federal Agents Melvin Purvis and Samuel P. Cowley, who directed the raiding party that ended John Dillinger's career, have been rewarded with promotion and salary increases, J. Edgar Hoover of the justice department division of investigation, revealed today.

It was understood that promotion will be recommended for several others who did outstanding work in the Dillinger hunt and special recognition will be given the agents who fired the shots that brought him down.

The identity of this agent remains closely guarded. Hoover asserted it was not Purvis nor Cowley.

### WARDEN WAID NOT TO FIRE PRISON GUARDS

HUNTSVILLE, Texas, July 25. Warden W. W. Waid said today that there was little probability any prison system employes would be discharged as a result of the escape of three condemned killers from the death cells, although he indicated some of them may quit.

The prison board ended its investigation of the break by issuing a report that charged carelessness in the performance of duty by some employes and carelessness in not preventing the smuggling of arms into the prison.

What action was planned by prison officials in connection with the report had not been determined, Lee Simmons, prison manager, said.

### Elijah Stuart Is Indicted In Death of Young Daughter

HOUSTON, July 25.—Elijah Stuart, 28, was indicted today by a Harrison county grand jury for the murder of his five-year-old daughter, Dortha.

The grand jury found the girl died from choking and drowning. Six hours after the body of the girl was found partly submerged in a shallow, stagnant pool 20 miles north of here, Stuart confessed.

The case will be tried August 6, the district attorney said.

### Blanton Speaks To 2500 at Break

BRECKENRIDGE, Texas, July 25.—Congressman Thomas L. Blanton of Abilene, candidate for reelection from the 17th district, spoke here Monday night to a crowd of more than 2,500 people. He came here from Palo Pinto, where he spoke in the afternoon to a large crowd.

In Blanton's audience Monday night—which gave him a cordial greeting—were citizens from Abilene, Eastland and other places in his district.

Blanton was introduced by D. T. Bowles, chairman of the democratic executive committee of Stephens county. His speech, with only minor exceptions, covered the same subjects discussed by him in his speech at Eastland two weeks ago.

### Ex-Texas Ranger Dead at Ft. Worth

FORT WORTH, July 25.—William A. McDaniel, 77, who as a youth left home on a pony, later to become a Texas ranger, died here today at the home of his daughter, Miss Helen McDaniel.

Born in Keller, McDaniel moved with his family to Coleman county at the age of six. Attaining manhood he set out to seek adventure. In 1876 he joined the ranger forces and was with it for two years during some of the frontier clashes with outlaws, escaping death in one brush with a thief.

### \$1000 a Week For 7 Years, Shirley's Pay

Each week for the next seven years, five-year-old Shirley Temple, curly-haired baby actress of Hollywood, will find a \$1000 check in her pay envelope. For her parents, Mr. and Mrs. George F. Temple, have just signed a contract calling for that salary from the Fox studios, with \$150 more to Mrs. Temple for coaching the girl. Shirley is shown applying her pen to the contract.

### HEAT RELIEF IS EXPECTED BY THURSDAY

KANSAS CITY, Mo., July 25.—Relief from the blazing heat that has seared two-thirds of the country in the last two weeks seemed imminent today.

Forecast said there would be thundershowers tonight in most of the midwest states. The stagnant air that has held the country in a burning, death-dealing grip was pushed out by north winds. A disturbance off the coast of Texas also played a part in bringing relief closer.

The 14 days of plus 100-degree heat continued to take its toll in life and suffering. A survey showed the death toll at 602. The dead were scattered from Texas to Massachusetts.

### Mary O'Dare to Marry Hemilton

TYLER, July 25.—Mary O'Dare expects somehow and somewhere to marry Raymond Hamilton, she has admitted.

The pretty Wichita Falls brunette who divorced her husband for the love of Hamilton, told interviewers she would marry Hamilton, "if it is the last thing I do."

Meanwhile officers continued to question her about the escape of Hamilton and two other condemned men last Sunday.

### JUDGE RULED ON CONES

HOUSTON.—Double dip ice cream cones will remain double dips so far as Judge Roy Campbell is concerned. He recently overruled a plea for a temporary injunction against W. N. Blanton et al., chairman of the milk industries board, to compel that board to limit the amount of ice cream sold by dispensers of double dip cones. The injunction was asked by a number of druggists who claimed such sales were in violation of the code of fair practices under NRA.

### HAMLIN FLAYS BLANTON IN ADDRESS HERE

Asserting that the new district and the "New Deal" deserved a new dealer, Judge Carl O. Hamlin of Breckenridge, candidate for congress from the 17th district, Tuesday night brought his campaign to the attention of the voters of Eastland.

Speaking from the south courthouse steps where about two weeks ago Congressman Thomas L. Blanton, one of Hamlin's opponents, spoke to an audience of more than 2,000 people, the candidate addressed a crowd of approximately 200 seated in cars and on the lawn.

Judge Hamlin, who for 13 years has been judge of a district court at Breckenridge, was introduced by Judge B. W. Patterson of the 88th district court in Eastland.

"I am in favor of organized labor and some form of unemployment insurance," Hamlin said. He also said that he favored an embargo on arms for the purpose of preventing wars and general disarmament, but until other nations sincerely joined in a disarmament movement he was in favor of keeping our navies and armies up to just as high a standard as was necessary to protect our country.

The speaker said he was in favor of a federal oil control bill. Soon after beginning his speech Hamlin launched an attack on Congressman Thomas L. Blanton, calling him by name and asserting that Blanton mistated the facts regarding his (Hamlin's) war record and in regards to retired officers pay received by Hamlin while he was serving as district judge at Breckenridge. He criticized Blanton for what he termed misuse of the franking privilege and said that excerpts from the Congressional Record sent out by Blanton had cost the taxpayers more than \$17,000 whereas Blanton had said that he paid for the printing himself and that the mailing had cost the government nothing since all government employes handling it were paid annual salaries.

Hamlin made many sarcastic thrusts at Blanton's record in congress. Hamlin said that he was a great admirer of the late President Wilson and didn't like to admit that Wilson ever made a mistake, but that if Wilson ever did make a mistake it was when he refused to accept Congressman Blanton's services which Blanton said he tendered to the President when the World War broke out.

"Why, if Wilson had only accepted Blanton's services at that time millions of lives and millions of dollars would have been saved for no doubt Tom would have rushed right out to the German front and by a point of order and an objection, put an end to the whole war," Hamlin said.

### 75% Completion Marked Reached

The 75 per cent completion mark of the Eastland high school entrance topping project was reached this afternoon by Texas relief commission workers when the west entrance was finished.

The work is expected to be completed in two weeks by Work Superintendent William Sherriff and his workers, whose number has varied from 20 to 75.

### SMITH AND PERKINS SURVIVE 2ND DAY COLEMAN TOURNEY

James Smith, Ranger golfer, and R. L. Perkins, Eastland, carried Ranger and Eastland's banner into the quarterfinals in the championship flight and third flight in the Coleman Country Club tournament Monday.

Three of the Eastland golfers, Liles, Tully and Sikes, were crowded out of play in the first round of the championship flight while Houston Cole and James Smith won their initial events in the same flight. Cole in his next step up in the play met defeat at the hands of Schumaker of Dallas and I. To Smith went the unofficial honor of pulling the net, suspected in the second day of the meet, that of defeating Carnes Wilson of Abilene by 1 up.

R. L. Perkins Jr. of Eastland won his match in the first and second round of the third flight by default.

### Gasoline Tax Revenue Boosted In Past Six Months

AUSTIN.—Fewer gasoline bootleggers and more automobiles combined to boost state revenues from the gasoline tax for the first half of 1934. \$2,000,000 above the same period last year, the Texas Good Roads Association reported today.

This extra income will add \$2,250,000 to the state common school fund, \$625,000 to refund county bonds and \$1,250,000 to the highway fund.

Comptroller George H. Sheppard, scanning the reports of his 60-man field "army" provided by the 1933 law, reported an increase of \$445,261 in gas tax collections for that month exceeding \$3,000,000.

The comptroller predicted an even larger gain for June, totals for which are not yet complete. He also hailed a resounding court victory for the state last week in a test case on gas tax enforcement.

In that case the head of a refinery was convicted in Travis county district court of filling false reports on motor fuel sales, and sentenced by a jury to the maximum of two years in the penitentiary. He appealed. While numerous operators have been fined under the law, this was the first prison sentence yet meted out for tax evasion, and the comptroller feels it will be a deterrent to prospective violators.

As another factor in the gas tax gains, the road association pointed to the fact that 94,952 more motor vehicles had been licensed in Texas up to July 1 than were registered on the same date last year.

### Bank Bandits Spared Indiana

INDIANAPOLIS, Ind.—For the first time in many months, Indiana, home of John Dillinger and his gangster pals, occupies an enviable position so far as bank robberies are concerned, according to the Indiana State Bankers Association.

Indiana had no bank robberies during April and June. Neighboring states did not fare so well. Some of them had bank robberies during each of the two months. Virtually all had at least one robbery during the 60-day period.

Illinois led the list for the two months with eight robberies, four each month. Ohio had four in May and three in April. Arkansas had one in April and two in May. Iowa had one in April and another in May. Kentucky had one in each of the two months. So did Kansas. Oklahoma had three in April and two in May.

States which had robberies in April and none in May were Alabama, Colorado, Georgia, Louisiana, Minnesota, North Carolina, South Carolina, Virginia, all one each, and Texas, six.

States which had robberies in May and none in April were California, Kansas, Michigan, Mississippi, New Jersey, New York, and Pennsylvania, one each, and Missouri, three.

### Smith and Perkins Survive 2nd Day Coleman Tourney

James Smith, Ranger golfer, and R. L. Perkins, Eastland, carried Ranger and Eastland's banner into the quarterfinals in the championship flight and third flight in the Coleman Country Club tournament Monday.

Three of the Eastland golfers, Liles, Tully and Sikes, were crowded out of play in the first round of the championship flight while Houston Cole and James Smith won their initial events in the same flight. R. L. Perkins Jr. of Eastland won his match in the first and second round of the third flight by default.

### NAZIS SEIZE DOLFUSS AND HIS CABINET

VIENNA, Austria, July 25.—Austrian Nazis executed a bold coup today, captured Chancellor Dolfuss and members of his cabinet and apparently forced a compromise which may result in at least a temporary removal of Dolfuss as chancellor.

After the Nazis withstood a siege in the chancellery which they had captured, Major Emil Fey, director of security, announced that the ministers were free.

He asked government forces which were about to attack the building to hold off. The Nazis had threatened to harm the prisoners if attacked. It was understood Dolfuss had agreed to withdraw as chancellor.

The Nazis struck swiftly. Martial law was declared and the streets were filled with troops, police and guards with bayonets and machine guns. The Nazis in the chancellery threatened violence to the prisoners if attacked. It was reported Dolfuss and Fey had been wounded.

About noon, 300 disguised Nazis seized the Heimwehr barracks and equipped themselves with machine guns, rifles and ammunition. Police rushed the barracks but were too late to arrest all the raiders. The extent of casualties was estimated at 10 killed in street fighting.

### Chastain Speaks at Breckenridge

BRECKENRIDGE, July 25.—Speaking to what was designated as a "good crowd," Oscar P. Chastain, candidate for congress from the 17th district opposing Thomas L. Blanton of Abilene, present incumbent, and Judge Carl O. Hamlin of this city, brought his campaign to the voters of this section of Stephens county Tuesday night.

Chastain aimed some of his remarks at Congressman Blanton, who spoke here the night before to an audience of 2,500 people, and declared that he had been in congress he would not have voted to override the President's veto of the Independence Offices bill and thereby would not have voted to raise his own salary.

Declaring that he favored old age pensions, Chastain said that there was a man going about the district saying that he, too, favored old age pensions, but that this man had voted to deny old age pensions to the citizens of the District of Columbia, giving as his reason therefor that he didn't want the people of his district to pay taxes to pay old age pensions in the District of Columbia when they had no old age pensions themselves. As a matter of fact, the speaker said, the funds to pay old age pensions in the District of Columbia would have had to come from a tax on property in that district. The opponent of this bill, filibustered two days to kill it, he said.

"That filibuster cost \$14,000 per day—enough to have paid the pensions," he declared. "You don't need a point raiser and an objector—you need a red blooded man to fight the people's battles on the floor of congress and if you will send me I will be the friend of my colleagues and get something for the people of my district."

Chastain scoffed at the talk of seniority in congress. He was introduced by Judge C. J. O'Conner of Breckenridge.

### YOUTHS FOUND SUICIDE

KENT, O.—Three 11-year-old run-away boys discovered a suicide in the city jail when they were locked up for the night. Hardly had Sergeant Fred Hursell shown them their cell than piercing screams sent him hurrying back to investigate. Hursell found W. Mitchell, 11, Kent painter, strangling in his cell. Arrested on an intoxication charge, he had turned his shirt into an improvised rope.

### Will Hays Goes Smilin' Through

### Agents Protect "Woman In Red"

CHICAGO, July 25.—John Dillinger's "woman in red"—his companion when government agents killed him Sunday, was restored to federal protection today after a brief stay with city police.

Department of justice agents who took her from police hands refused to reveal her whereabouts or to discuss her part—if any—in Dillinger's death.

### Municipal Light Plant Proposal Is Voted Down

GAINESVILLE, Texas, July 25. Gainesville residents today had defeated a proposal for establishment of a municipal light plant. In an election yesterday they voted 754 to 629 against the project.

The proposal to establish the plant had the endorsement of three of the five members of the city council. It was defeated in all but one of the five wards in the city.

### Federal Cattle Buying Will Not Be Discontinued

Appraisal and execution of cattle condemned under the drought relief program will not be affected by the order stopping purchases, O. B. Martin, state drought relief director, announced today.

The order likewise will have no bearing on purchases of cattle for processing in Texas, Martin said.

SAN FRANCISCO STRIKE NOT ORDERED BY THE A. F. OF L.

William Green is the president of the American Federation of Labor. He is the authorized spokesman of an organized army of millions of wage workers. Viewing the strike at long distance from the City of Chicago, Green asserted that the general strike in the Golden Coast city was neither authorized by the American Federation of Labor and "has no national significance as far as organized labor is concerned."

"It is well. There should be a speedy and satisfactory settlement. Perhaps it is on the way."

Subsidies and loans by the government at their best are mere expedients. What we really need is a wide-spread revival of business and development of new markets for our products.

A whole lot of people in this world are always lamenting somebody's shortcomings and never think of their own.

SOPHIE KERR'S SUPERB LOVE STORY "STAY OUT OF MY LIFE!"

By Sophie Kerr

BEGIN HERE TODAY JANE TERRY comes to New York determined to show her home town...

When America enters the World War Howard decides to enlist in the service...

Besides this there was the good news that Howard, having won his wings, had promptly been made into an instructor...

"I wouldn't have believed," she told Mary, "that I could possibly be so happy with Howard away. But I am happy."

"And what does Howard say?" "I haven't told him and I'm not going to until he gets his first leave. I want to tell him myself, not put it in a letter."

"That's true. I'm being perfectly selfish. If anything should happen, and he didn't know—oh Mary, you don't believe anything could happen to Howard now, do you?"

urgue you—I suppose I really am urging you, though, but I would tell him. Write him a special letter that he can keep. He'd love that.

"I'll do it tonight," promised Amy. The answer was a long telegram, followed by a shock of letters written whenever he could find two minutes of leisure...

"No reason why not," said Mary Jackson. "It means another life, and a life that is wanted and welcomed."

MARY JACKSON, surprised, answered heartily: "She's more than pretty. She's unusual and interesting. I noticed the other day when those two little Marsh girls were here how she fairly shone between them."

"You and Howard are awfully sure of a boy." "We certainly are, and don't you begin prophesying a girl—or twins. Oh Mary, I'm so happy, it frightens me. It might change so suddenly, and so terribly."

vehemently. "Take all the happiness you can. Love it and live in it. It's like fine weather. You can't make it to order, but when you've got it you can enjoy it."

AFTER Mary had gone Amy went on with her music, but her thoughts were not on it. She was thinking of Howard and when he would come home.

When she was asked about him she began to cry and could not stop. She could not learn to knit and at gatherings of zealous feminine war-workers her white cheeks and great eyes were an irritating reproach to their enjoyment of their labors.
