LARGE CROWD HERE TO HEAR TOM BLANTON

Congressman Thomas L. Blanton, campaigning for re-election, addressed a large audience assembled on the south side of the Eastland county courthouse lawn Saturday night. He was introduced by J. Frank Sparks, Eastland attorney and president of the Eastland County Blanton-for-Congress

Mr. Blanton's speech here was the 58th he has delivered since he returned from Washington at the ing the week. As at other places over his dis-

trict Judge Blanton told of his record in Congress, emphasizing the waste he has been able to stop and the savings he has effected for the people by his systematic fight on bad bills.

He especially explained the banking measures, including the national bank guaranty law, which he assisted in passing, dwelled to some extent on the anti-crime law date for United States Senator oppassed by the last congress, and es will see the advantages (above), was the subject of an in- said that additional legislation posing Senator Tom Connally, will favorable to the masses was in address Eastland voters in the

AMBASSADOR DANIELS AND THE **GOLDEN RULE**

After three busy days in Texas Ambassador Josephus Daniels returned to his post in Mexico City. While in the Magic Valley he inspected irrigation, flood control and drainage works and conferred with the engineers. Senator Tom Connally was his guide and his companion. In a brief address at a banquet given by the citizens of Brownsville the ambassador made a vigorous appeal for a neighborly feeling between the peoples of the United States and the Mexican republic. He advised "that the people along the border can do much to build this friendly state." Mexico, he said, has regarded the United States in the past as the Colossus of the North, and then he added, "We will never get any place with any people unless Proceedings of we meet them on equal terms, and we should never ask Mexico for anything we would not be willing to do for them."

Senator Connally in a brief introduction of the ambassador to the leaders of Brownsville activities referred to the North Carolinian as "a truthful newspaperman, honest politician and sincere diplomat." In his introduc- district tion the junior senator discussed the water problem of the Magic Valley and bluntly stated that "the question of diversion of waters of the Rio Grande spells your prosperity or your destruction." It is well to use the naked truth at Louise Wyatt, Howard. times and Connally made the best of opportunity.

DALLAS GASOLINE PRICE WAR ENDED

Dallas has been enjoying "the forst gasoline price war in its history." All this was ended June 26 when all major companies and practically all independents boosted the price of East Texas or competitive gasoline from eight to nine cents retai levels to a 13-cent general level. Co-operation on the new price schedule was reported by K. F. Roundtree, president of the independent petroleum retail marketers association of Dallas. He sounded a warning that court action will be brought against concerns who do not live up to the price stabilization plan.

Hot oil runners have had their day. Prosecutors and scouts of the federal government are covering the East Texas fields. They are co-operating with the state forces. In addition to al this Chairman Coe and his investigators are coming to Texas in the early days of the month of July. Federal judges are adopting new tactics: They are for the enforcement of state proration orders and the federal petroleum code. Law is law and it should be upheld.

Gold and silver and monetary standards are causing many a heartache in various countries of the world.

STARTED SATURDAY, JULY 14th 8:30 A. M.

Sensational to say the least is this SALE of men's wearing apparel. Words cannot express the significance of our motive behind it. It is only for men to come and see for themselves what this sale really means to them. All former prices have ben thrown into discard, neglected and forgotten. "WHAT A SALE!" You'll say, and what a sick headache we may have to see such quality merchandise go at the price we are making. But what's the difference as long as you get the benefit. We'll take it with a smile. ALL SUMMER MERCHANDISE MUST GO! YOU SAVE, NO MATTER WHO TAKES THE

SINCLAIR

SINCLAIR AGENT RANGER

Figures from Ford V-8 owners show 272,815,970 miles of steady running, without a penny for repairs

HE true story of motor-car value is Written-on-the-Road. There a car reveals its character. There it

shows what it can do. Figures from 34,954 Ford V-8 owners show a total of 272,815,970 miles without a penny for repairs. Their letters are further proof of Ford V-8 economy and dependability.

"I transport school children," writes a Ford owner in Minnesota, "and see plenty of tough going. In three years and eight months I have never missed a trip nor have I been

"Never Been Late in the Ford V-8"

late. My Fords have all been honest cars." Another Ford V-8 owner writes:

"A friend of mine was planning on buying a new car but was considering another make. To prove to him the economy of the Ford V-8 we made a 59-mile run. The gas used was exactly three gallons, measured for the run. It is needless to tell you that my friend now owns a V-8."

A salesman writes: "I drive about 1500 miles a month. I have not spent five dollars for repairs on the five Ford cars I have used. In more than 100,000 miles I have had no motor trouble."

A police officer writes: "To date I have operated my Ford V-8 for seven months and have driven 15,000 miles - most of which

was done at speeds up to 88 miles per hour. I have not paid out one penny for repairs or replacements of any kind."

Fleet owner says Ford V-8 is "the most economical car to operate."
