No. 202

TWO RELIEF COMMISSIONERS RESIGN

SAY THE BODY HAS DONE A TERRIBLE JOB

Reed Says All Should Hang Heads In Shame and Make Apologies.

AUSTIN, July 9.—Relief Commissioners Jack Reed and Ed Hussion today volunteered their resignations from the State Relief Commission, challenging other members to do likewise.

"We should hang our heads in shame and make apologies to the people of Texas for allowing politics to influence every action we take," Reed declared. He referred to all members of the commission. Their voluntary resignations were presented after Director Adam Johnson had waked out of the meeting in a huff. None of the actions taken today were official, however. A roll call showed no quorum present.

Reed and Hussion declared they would formally resign before the next meeting. "I regret having been a member of a commission," Reed declared, "that has allowed itself to get into such damn shambles as we've gotten into."

"The relief commission, as a whole, has done a terrible job. My intention is to resign before the next meeting. I challenge other members of this commission to do likewise. It will be the first material good we have done."

Commissioner Hussion at once accepted recognition from Gov. Miriam A. Ferguson, presiding. "For the welfare of the unfortunate in Texas, I, too, offer my resignation and ask other members to do likewise."

Their voluntary withdrawal from relief activities followed a blunt discussion of the failure of other members of the commission to attend the meeting today. Lack of a quorum prevented the commission hearing a significant report by the state board of control on relief purchases and a long delayed report on medical relief.

The only members present were Reed, Hussion and B. E. Qiesecke.

DALLAS, July 9.—Relief Commissioner W. A. Brooks of Dallas today agreed with Commissioners Reed and Hussion that the entire commission should resign.

Eastland Golfers Defeat Gorman

Eastland golfers Sunday playing Gorman linksters on their course won 7-5, marking Eastland golfers' second win from Gorman and their sixth straight win from other clubs in the Eastland county golf association.

Five of the Eastland golfers who in the majority of their matches usually end up in the win column this time were defeated. The five were Doug Jones, Homer Norton, Joe Stephen, J. Blankenship and J. E. Johnson.

Bob Sikes, young Eastland golfer, shot a 31 on his last round with Merrell, four below par, which golfers say tied for the course record on nine holes.

Individual scores: Doug Jones lost to J. A. Gishman 1 up 22 holes. Tim Barnett won from Z. O. Mahaffey 5 and 4. Bob Sikes won from Joe Merrell 6 and 4. James Harkrider won from R. Ross 6 and 5.

H. Norton lost to S. A. Ewalt 2 and 1. Joe Stephen lost to E. A. Davis 3 and 2. J. Blankenship lost to C. Kounce 3 and 2. J. B. Johnson lost to B. Ross 4 and 3. R. L. Perkins won from Frank Leazer 3 and 2.

R. A. P. Pool won from J. W. Cockrell 2 and 1. Ralph Mahon Jr., won from P. L. Ray 6 and 5. P. Castleberry won from W. Spear 8 and 7.

McCracken Wins Victory In Fight Against Sentence

WASHINGTON, July 9.—William P. McCracken, former assistant secretary of commerce, won a victory today against a 10-day jail sentence imposed by the senate when the district court of appeals ruled the senate lacked jurisdiction to inflict such a punishment. The senate imposed the sentence after McCracken failed to produce certain documents in connection with the aerial inquiry.

Pause Has Come In Rapid Events In German Crisis

Editors Note: In the following article, Webb Miller, United Press European News Manager, expresses the opinion that the exciting events of the last week in Germany are over for the present. Miller is one of the most experienced men in the foreign field. He has covered many wars and revolts.

Copyright, 1934, by United Press. Berlin, July 9.—A pause seemed today to have come in the rapid pace of events which in the last week have centered the eyes of the world on Germany. In that brief doze of foreign correspondents who sped to Berlin are leaving for London, Paris, Moscow and other points. In Berlin remains a hundred provocative questions—and no body can answer them.

There is the riddle of Adolf Hitler and why he, who has always been first to make a leader's declaration at the moment of crisis, has made no public statement since last Saturday.

Many people say there are factors in the investigation of the Schleicher-Roehm revolt which would be jeopardized if any public statement was made at the moment.

What will be the relative positions of Herman Goering, Hitler's "iron fist"; Vice Chancellor Franz von Papen and Minister of Propaganda Paul Joseph Goebbels and the Reichswehr in the tense weeks and months that lie ahead?

What, if brief, is the immediate future of the Nazi regime, which most observers believe will remain indefinitely in power?

This correspondent talked to officials, Nazis and non-Nazis, and no consistent picture is to be drawn from their opinions. Nobody will risk conclusions. It is as impossible to predict the near future in Germany as it is to rationalize the mental progress of Hitler himself. Yet these two things are bound together closely.

A highly psychic type, Hitler questionably is suffering from a torment of conflicting convictions.

What the best informed people this correspondent has talked to believe is that Hitler will put the unity of Germany above the interests of his party, and that if further decisive purging of the party is necessary to will proceed to do it.

As leader, it is Hitler's task to rise above the emotional shock of the past week and carry on the work of unification from the point where it was interrupted last Saturday.

He still is, to the masses of the people, the man who can do no wrong, the man who has suffered from the treachery of those whom he trusted. The propaganda ministry is preparing a statement giving details of the storm troop revolt, about which the public here is still almost totally uninformed. The brief opening up of official information last Saturday and Sunday gave the public a meagre insight into the significance of the events then transpiring. Those sources were sealed again and the public—its interests sharply aroused by more liberty of information than it had been shown in a year—is wondering "what next?"

Types of German Fighting Men

Men in uniform make up the picture of Germany today... (1) Typical Brown Shirt, one of the 400,000 "SA" storm troops of the Nazis, who helped lift Hitler to power... (2) A Reichswehr private, member of Germany's small but splendidly equipped and trained regular army... (3) A Berlin demonstration of Stahlhelm (Steel Helmets), war veterans' organization of somewhat older men, monarchistic and conservative in tone... (4) A member of the "SS", or Schutzstaffel troops, a picked Nazi bodyguard of some 20,000 men, wearing black rather than brown, carefully selected as the cream of Nazi civilian soldiers... (5) Regular police, under federal control and armed when necessary in military style to supplement troops.

CUT \$45,000 OFF BANKING DEPT. COSTS

AUSTIN, July 9.—Texas Banking Commissioner E. C. Brand announced here that he has cut \$45,730 off the payroll of the liquidating division of the state banking department in the past 10 months.

This resulted in a saving of \$3,810 per month. The cost of this division is borne out of the payments made by banks for supervision, so that the saving went back to depositors in the closed institutions in charge of the liquidating division.

Commissioner Brand's statement followed an appeal of John F. Maddox of Austin, former chief of the liquidating division, for a senate committee investigation when Maddox "resigned" from the department. Mr. Maddox said he didn't resign. Mr. Brand said his job would not be filled, because there was not sufficient work to require a separate official in the place.

Mr. Brand said that on July 12, 1933, there were 24 special agents receiving \$4,300 a year each, and 28 assistant employees, averaging \$2,315 each, with a field payroll of \$79,880 a year. On May 15, 1934, he had cut the force to 19 agents, on salaries of \$3,400, and 14 assistant employees averaging \$1,233, or a payroll rate of \$55,620 a year.

In July last year, there were 31 employees in the office of the liquidating division, getting \$50,830 a year. This May, the number was cut to 19 employees, and the payroll to \$28,860.

This represented a cut of 30 per cent in field force payroll, and 43 per cent in office payroll of the liquidating division, a monthly decrease for the division of \$3,810, and a yearly decrease of \$45,730 in the payroll.

City Commission To Consider New Gas Plan Tonight

The Eastland city commission meets tonight in what will be a continuation of the regular meeting Monday night of last week, which was recessed at that time until the following Tuesday night and at the Tuesday night meeting recessed until tonight.

At tonight's meeting the matter of granting a franchise to the Eastland Fuel Corporation, a Hickok subsidiary, which proposes to install a new and independent gas distributing system in Eastland, is to be taken up for consideration. Eastland is now served by the Community Natural Gas Company.

In the meantime the Cisco Gas Corporation, also a subsidiary of the Hickok Corporation, which proposes to install an independent gas distributing system in Cisco, now served by the Community Natural, on the same plan as that being proposed in Eastland, is going forward with their plans. The National Supply Company, which has the contract to install the Cisco plant, started a crew of men working this morning and the pipe for the plant arrived in Houston Saturday from Philadelphia and was enroute today to Cisco, according to Horace Conley of the Hickok Corporation.

Petitions circulated in Eastland during the past few days asking the Eastland city commission to adopt the plan being submitted by the Eastland Fuel Corporation, will be presented to the commission tonight, it is stated. These petitions, it is stated, bear more than 800 signatures of Eastland citizens.

THREE MEN ROB A FORT WORTH HOTEL TODAY

FORT WORTH, July 9.—Three men today robbed the Westbrook hotel in the heart of the downtown district of \$2,000, including cash and two diamonds owned by a guest.

Two young men, wearing dark goggles and carrying old-fashioned six-shooters, entered the hotel about 5 a. m., leaving a confederate in a black sedan at the entrance. One leaped over the clerk's desk and confronted Night Manager J. A. Wakefield. He ordered Wakefield to open the hotel safe.

The second bandit held an elevator operator and two negro bellboys at bay, forcing them into a washroom.

After opening the safe, Wakefield was forced to lie on the floor while the bandits dumped contents of the safe into a canvas sack. With a parting threat, they fled, joining the third man in the car.

Harriman Leaves To Start Sentence

NEW YORK, July 9.—Joseph W. Harriman, the one-time banking power whose attorneys said would never live through the ordeal of trial, stepped jauntily from a hospital today and into a car en route to Lewisburg penitentiary.

A broad smile wreathed the face of the 67-year-old former millionaire who twice had attempted suicide rather than face prosecution on charges involving about \$2,000,000 of the Harriman National Bank. He is scheduled to serve a four and a half year sentence.

Cotton Prices Up On New York Market

NEW YORK, July 9.—Cotton prices boomed \$2 a bale today in response to the government report of a reduced planted area. Most gains were held to the close, which was 34 to 39 points higher, with July futures at 12.25 cents and October at 12.39 to 12.41.

Wife Fears Husband Slain to Prevent Perfecting a Motor

HOUSTON, July 9.—Search was started by police today for Raymond Reynolds, 30 years old inventor, after his wife told police she feared he had been slain to prevent his perfecting a revolutionary marine motor.

The search was requested by Mrs. Reynolds, who reported her husband failed to return within a reasonable time after he left yesterday to demonstrate the motor to three men, two of whom respected themselves as federal inspectors.

The search was requested by Mrs. Reynolds, who reported her husband failed to return within a reasonable time after he left yesterday to demonstrate the motor to three men, two of whom respected themselves as federal inspectors.

BUSINESS HAS SHOWN STEADY UPWARD TREND

WASHINGTON, July 9.—American business, aided by billions of dollars from federal and state governments, appeared today to have pulled itself more than a third of the way out of the depression which began five years ago this month.

More than two years have passed since the absolute bottom of the depression was reached in July, 1932. Today both official and private business figures showed an irregular upward course since that time, interrupted temporarily 15 months ago by the banking shutdown.

Figures compiled by the federal reserve board showed today that industrial activity in the United States, after reaching its peak of 125 per cent of the 1923-25 average, in June, 1929, declined steadily to 58 per cent in July, 1932. The index rose thereafter and fell to a second bottom of 59 per cent in March, 1933.

After another setback following last July, activity began to rise slowly early this year to the current 85 per cent level.

Cotton Acreage Is Far Below Last Year's Crop

WASHINGTON, July 9.—This year's cotton acreage was estimated at 28,024,000 on July 1, or 31.4 per cent under that on the corresponding date in 1933, the agricultural department reported today.

The voluntary production control program and a restricting influence of the Bankhead act on planters who did not sign contracts, were responsible for the lower acreage.

Texas, on July 1, 1934, had in cultivation 10,914,000 acres as compared with 16,050,000 last July.

Balloon Ready For Highest Flight

RAPID CITY, S. D., July 9.—The largest free balloon ever built waited today for the weatherman's signal to start on its flight into the stratosphere. An altitude of 15 miles, never before reached, was the goal set by Major Kepner and Capt. A. W. Stevens, scientific observer.

They expected to start anytime after today when favorable weather conditions prevail in the vicinity of Rapid City and along the indicated eastward route of the flight.

Absentee Votes May Be Cast Now

Absentee voting began Sunday, at least Sunday was the first day for absentee voting, and July 25 is the last day for the July primary.

Qualified voters who are to be absent from their voting precinct on election day, may go to the office of the county clerk and cast an absentee ballot or they may secure the necessary ballots and blanks from the county clerk and send their ballots in by mail.

Senator Connally Spoke In Eastland

Senator Tom Connally arrived in Eastland at 2:00 p. m. this afternoon to deliver an address at 3:00 p. m. in the interest of his candidacy for re-election. He was greeted by a delegation of friends and supporters and escorted to the Connelley Hotel where an hour was spent greeting friends who called to see him.

Judge Milburn McCarty was in charge of arrangements for the speaking and Judge Scott W. Key was scheduled to introduce Mr. Connally.

The speaking engagement at Eastland, it was stated at Mr. Connally's headquarters, would be his only appearance in Eastland county.

From Eastland Senator Connally went to Brownwood where he speaks tonight.

Ballots for July Primary Printed

Democratic county chairman Earl Conner Jr., is on the job. Ballots for the July 28th primary in Eastland county, copy for which was prepared for the printer by Mr. Conner, have been delivered to him and he is now superintending their distribution to the proper election judges throughout the county.

GAME TODAY

Eastland Mechanics this afternoon at 6 play the Eastland Black Runaway Tigers, a colored team, on the old high school ground.

President Nearing Colombian Coast

ABOARD DESTROYER GILMER, July 9.—President Roosevelt voyaged southwest today on his way to Colombia, where he will land tomorrow in defiance of tradition that a president should not set foot on foreign soil.

STRIKES IN THREE CITIES STILL FEARED

General strikes in three cities, which would virtually affect the lives of nearly 1,500,000 persons, became a new threat today as battling labor unions reached out for added support.

In San Francisco, maritime workers sought to enlist other unions in a sympathy strike. The waterfront was under martial law. In Minneapolis and St. Paul, the truck drivers' union sought to win support of other labor groups. If successful, the food supply of the Twin Cities would be imperiled.

At the Seabrook farms, in New Jersey, strikers protesting wage cuts and discharge of temporary employees, attacked strike breakers and engaged in a riotous battle with police and guards.

Striking onion weeders in Ohio clashed with deputy sheriffs who attempted to protect strike breakers being sent to the fields by land-owners.

Housing Program To Go Into Effect Before Autumn

WASHINGTON, July 9.—The big drive to pump \$500,000,000 or more into the lagging construction industry before snow flies got underway today.

James A. Moffett, housing administrator, set up headquarters and started assembling his staff for a campaign which is one of the major recovery bets.

Moffett has \$1,000,000,000 with which to back his program. He hopes through several agencies, to finance construction and modernization plans of 5,000 homes.

His goal is to get half a billion dollars worth of projects underway by mid-autumn.

Blanton Speaking Dates for Week

Congressman Thomas L. Blanton, campaigning for re-election, filled speaking engagements at three places in Eastland county today, speaking at Rising Star this morning at 11 o'clock, at Carbon at 2 p. m. and at Gorman at 4 p. m., addressing splendid audiences at each place.

Following his address at Gorman, Judge Blanton went to DeLeon where he is to fill an engagement tonight.

Tuesday he is to speak at Proctor, Comanche, Gustine, Lamkin and Hamilton. Wednesday he will speak at Pottsville, Aleman, Carlton and Dublin. Thursday he will speak at Bluff Dale, Johnsonville, Alexander and Stephenville.

Street Car Men of Ft. Worth May Strike

FORT WORTH, July 9.—A strike of street car and bus operators seemed likely today when Union men started taking a vote on whether to walk out. The majority of 75 who had voted this afternoon voted in favor of a strike, it was announced.

Another group of workers, those on day shifts, will meet tonight to cast their votes.

What Reminds me...

After a trip to Austin to confer with the State Banking Commission the depositors committee reports that every consideration was shown them regarding plans for the new National Bank and the declaring of dividends per plans presented to depositors. Mr. E. C. Brand, commissioner, was courteous and kind and he was convinced that the bank was badly in need of a representative who will be in Washington immediately confer with the RFC and the controller of the currency to get the details necessary to the plan over. With the assurance of the cooperation of the department there is every reason to look upon results optimistically. The depositors committee have been giving their time efforts unselfishly through the past four months and are commended for their untiring work, and the citizenship depositors can well feel proud of their part in this wonderful work within another week when more definite should be made for the committee to More signatures are needed and depositors who have already signed are urged to

Mr. E. C. Brand, commissioner, has made a remarkable record in his inauguration in office. He has cut the operating expense of field and office force from \$45,730, which has been \$1,810 per month to revert back to the interest of the depositors of defunct banks. He has proven his ability only as an executive but also as one who has the qualifications necessary to conduct his office from the point of consistent economy at the same time perform the necessary upon the highest efficient basis. His appointment was well put and he deserves the confidence of the people of the State of Texas as well as his laborers and unselfish results.

Political leaders are admitting they are at a loss to determine who will be runners up in coming elections for Governor and State Comptroller. Surveys made from all over the state to the other side of nothing but dilemmas.

Those who are more venturesome in their remarks state that the candidates are not individuals. Small is showing condescension. As is Tom Hunter, McDonald is not being disguised. They are conceding Edgar Witt, Maury Hughes and Edward Russell are about out of the running. Of course that is political shop talk and has nothing to be authoritative. Suffice it to say that at some time to election usually just a week before there is in historical archives such a final "pushover" which explained that after the chief leaders have watched the progress of the candidates slowly taken notes of the reactions their activities, they begin to make deductions and additions as which they think is the strong candidate in the race and then are made to visit large titles where disruptions in local "machines" seem to be evidence and begin to "whip" in line for whom they consider is the strongest possible. This pressure has had effect

in 1930 when the field was cast with such men as Mayfield, Tom Love, Ferguson, Barry Miller, Hittinger and Clint Small as chief leaders and about four fringe ones in the race, this had to have happened. As the campaign there was disorganized because of the prominence of these names and Small were in the political arena. In the following, Mayfield, Barry Miller had South a shot in the bag. Small had Texas (and kept it) of course there was the old "money" candidate, Sterling was reported to have won the support dotted here there. First thing anybody should grab all second hand enough to put him in because the Ferguson target to get out of

"HERE IS THE SIGNIFICANT FACT"

Kenneth Collins of New York is one of the high aces in the army of retail advertising experts in America. He appeared before the newspaper advertising executives' association at the recent convention of the organization. Now advertising has ever been the life of trade—newspaper advertising. There has been a depression that began with the crash of 1929. Kenneth Collins reviewed the years of depression and the tremendous record made by the advertisers of America. This is what he said: An enormous burden has been placed on the force of paid publicity in the past five years. It has been asked to perform miracles. It has been asked to get blood out of stone. It has been asked to produce money from people's pockets which were empty.

And then he told of "the significant fact": "Throughout the depression retail advertising has produced about as great a volume of sales measured in units, not in dollars, as it did in the flush years of the 'Great Wind.' The records of countless retail establishments in America will verify this statement. It was not the fault of advertising that prices declined."

Jim Barrett, managing director of the Oklahoma Biltmore Hotel, tells me that the only true economy is paying less for equal quality. Paying less for lesser quality is not a saving and may prove very wasteful. He further says that by reading the advertisements in your newspaper you will find the goods advertised which are lowest in price and highest in quality.

DID YOU EVER STOP TO THINK?

By EDSON R. WAITE, Shawnee, Oklahoma

It is perhaps a bad thing for the country to have its attention concentrated all the time on the government and its activities. It increases the tendency in those who lack initiative to think that nothing can be done to increase prosperity without government assistance and direction.

The American spirit of self-help seems to be becoming submerged under the avalanche of government activities. There must be a change. We will have to again recreate the spirit of self-reliance and get our people to become hopeful and enthusiastic about what they can do to help themselves.

Rare individuals among us may be able to find some method of living whereby some spirit of exaltation over some of their political heroes supplanted by an inferior standard of comfort might satisfy them, but this country's progress will be achieved by the desire of the people to have as good a rich life as possible.

OUT OUR WAY

HEROES ARE MADE—NOT BORN. J.R. WILLIAMS

First Cotton Bale Of Season Raised In South Texas

RIO GRANDE CITY, Tex.—The world's first bale of 1934 cotton, produced as usual by the Lower Rio Grande Valley of Texas, will be displayed at the Century of Progress Exposition in Chicago.

L. R. C. Towles, Houston cotton man who purchased the first bale from Francisco Lozano and A. Vela, La Grulla cotton growers, has decided to ship the bale to Chicago, according to information received by the producers of the cotton.

The first bale was on display for several days at the Houston Cotton Exchange after arriving in Houston June 16. It was then shipped to the New York Cotton Exchange, where it was shown for several days.

According to information received here, the bale will go to Belgium to be made into cotton cloth.

Kingfish to Chop Wood Like Lincoln

BATON ROUGE, La.—When the Louisiana state legislature adjourns this month, U. S. Senator Huey P. Long plans to emulate Abraham Lincoln and chop wood. "Oh, just to get fit again," he explained. "I used to chop wood for a living, and I could chop five ricks a day."

A rick is a pile of stove wood four feet high and 18 feet long. "Wood-chopping is an art," the Kingfish said. "You have to give the ax a twist as you hit the block."

The chopping will be done on the old Long farm in Winn parish.

Grower Says Fatal Fruit Was Crabapple

NEW HAVEN, Conn.—Was it a crab-apple the serpent handed Eve in the Garden of Eden? Carl W. Clark, veteran fruit grower, declared the apple was unknown to the tropical climate of Paradise. "And even if it did exist," he added skeptically, "it would have been sour, crabby fruit that would not have tempted anyone."

Texas Declaration Of Independence Is Valued Possession

AUSTIN.—Texas' most prized possession is exposed daily to public view with no fear that it might be stolen. The original declaration of independence is in a shrine in the state capitol lobby. It is behind heavy glass and a grill, with an ingenious leaf-turning device. Hidden lights make it easily readable. The document's greatest security is that no one would dare offer it for sale, if they did succeed in taking it. But it might be "kidnaped" and held for ransom. It has been displayed in the capitol lobby since December, 1929, without any attempt to disturb it.

FRECKLES and HIS FRIENDS—By

YOU TOO can increase Vim and Energy...quickly

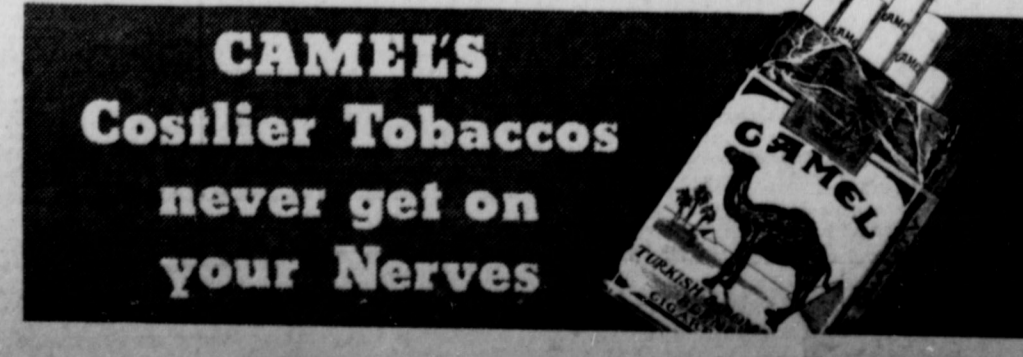

When you feel "used up"—smoke a Camel! Fatigue and irritability fade away. Your flow of natural energy snaps back to a higher level in a few minutes.

This experience is well known to millions of Camel smokers. It has been confirmed by a famous New York research laboratory.

Take for example Guy Bush. There's a lesson in what Guy has to say about the "energizing effect" in Camels:

"Bases full, one out, and a strike. I'm watching the bases and the batter, too. Now I've got to pitch. The *pitch*—and it's two strikes! Will he strike out? You think so...and yet you can't tell. Baseball is full of tough spots that take it out of a pitcher who works his regular turn and stands up to the grind for seven long months. Like most of the big-league pitchers, I smoke Camels. And when I come out of a game after a hard innings there's nothing that lifts up my energy like a Camel does. I feel freshened up in no time at all. I smoke a lot. Camels never interfere with my nerves!"

Learn to "get a lift with a Camel" whenever your energy runs low. Smoke as constantly as you like. The finer, MORE EXPENSIVE TOBACCOS in Camels never upset the nerves.

Camels are made from finer, MORE EXPENSIVE TOBACCOS — Turkish and Domestic — than any other popular brand.

"Get a LIFT with a Camel!"

OFFICE 681 TELEPHONES RESIDENCE 288

Graham-Cox

Mrs. Dell Cox announces the marriage of her daughter, Miss Virginia Cox, better known to her friends as Miss Patsy Cox, to Cotton E. Graham, on Wednesday, July 4, at high noon, in Mineral Wells.

The ceremony was performed by the pastor in the parsonage of the Methodist church.

The only attendant was the groom's sister, Miss Graham.

The bride wore a navy blue sheer ensemble, with white accessories, and white hat.

Immediately after the wedding Mr. and Mrs. Graham went to Dallas and later Fort Worth, and are now in Eastland, and have an apartment on Moss street.

Mr. Graham was formerly with the Gulf Production company and is now in charge of the Magnolia oil station. He has lived in Eastland about a year. The bride is the daughter of one of the pioneer families of this city and a granddaughter of Mrs. Virginia Bowles, for whom she was named.

Congratulations of friends are extended the happy couple.

Rev. and Mrs. L. R. Hogan Entertained

Rev. L. R. Hogan and wife were the guests of Eastland friends Sunday over today, entertained in the homes of Mr. and Mrs. James Horton, noon Sunday, at a delightful family dinner, and guests of Mr. and Mrs. C. W. Getts, for a 6 o'clock Sunday evening supper.

They were the house guests of Mr. and Mrs. J. LeRoy Arnold, after the church services Sunday evening, spending the night in this hospitable home and leaving for Fort Worth after their breakfast this morning.

Rev. Hogan was here to fill the pulpit of the Presbyterian church for the morning service, when he gave a great and inspirational message to his hearers, his theme being, that loyalty must be motivated by power that comes from spiritual strength.

Instead of an evening sermon, Rev. Hogan showed a moving picture of certain Presbyterian mission stations in Japan and other countries, that depicted the trend of the work carried on by the Presbyterian church.

This was Mrs. Hogan's first visit to Eastland, since the family left here several years ago.

Friends were delighted to meet her, and appreciated her coming.

Mrs. Taylor Announces Summer Recital

Mrs. A. F. Taylor announces the summer recital of her students, in piano, for Friday night of this week, at 8 o'clock in the Ranger Central Baptist church, when both Ranger and Eastland pupils will be presented.

Outing Supper and Swim

Miss Mary Frances Hunter and her brother, Osgood Hunter, entertained their house guests, Miss Jean Kitley of Traup, and Miss Susan Frances Schmidt of DeLeon, with as with Cisco dam, followed by supper, on Saturday evening.

Sunbeam Band

The Sunbeam band and Junior Girls auxiliary heard an interesting lesson and a program of stories, at their meeting Saturday morning at 9:30 o'clock in the Baptist church, opened by Mrs. Lee Bishop, director, and Mrs. S. A. Green, recently selected as assistant director to replace Mrs. S. C. Walker, who resigned.

The hour opened with the song by the children, "Jesus Bids Us Shine," followed with the first chapter of Genesis, scripture reading by Mrs. Green, who opened the sentence prayers, each little one taking up a sentence, and closed by Frances Laverne Darby.

The story of the "Four Reasons" was told by Mrs. Bishop, and a round-table discussion brought topics by Patsy Green, Lillian Bishop, Frances Laverne Darby, Myrl Bishop, Billy Green, Dale Bishop, and Juanita Bishop.

Sew Sew Club Entertained

Mrs. Gerald Crossley was a delightful hostess to the recent meeting of the Sew Sew club, held at her home on North Comeliee.

Needlework occupied the members and a 5 o'clock tea plate was served of sandwiches, small cakes, and iced tea.

Those present were Meses. Joe Niver, Babe Lanier, Steve Kidd, Jones, Raymond Webb, and hostess, Mrs. Crossley.

Men's 9:49 Bible Class

Judge J. E. Hickman brought a forcible lesson as teacher of the Men's 9:49 Bible class, at their Sunday morning session, held in Methodist church.

The division of the kingdom, the major subject, and a continuation of last Sunday's lesson, brought the statement by speaker, that nothing was wrong with the world today, that the world was the same as in the days of the Old Testament; but that the trouble was with the people, their greed and distrust.

The session was opened by D. J. Jobe, president, with ensemble singing followed with prayer by T. M. Johnson, and hymn. Frank Pierce was song leader and Mrs. T. J. Haley, pianist.

A special musical number, a duet, "Sweetest As the Years Go By," was pleasingly sung by Frank Pierce and E. R. Trimble.

A card of appreciation received from the family of Mr. and Mrs. Ed Sparr concerning the recent death of their son, Rob Roy Sparr, and their thanks for sympathy and flowers, was read.

Guests formally presented were Miss Nell Brown of Big Spring; C. B. Murray of Arkansas, and Mrs. R. N. Grisham of this city.

There were 57 members present.

Political Announcements

This paper is authorized to announce the following candidates for office, subject to the Democratic Primary Election, July 28, 1934:

For Representative, 106th District
GEORGE A. DAVISSON, Jr.
E. A. RINGOLD

For Representative, 107th District:
D. L. (Donald) KINNAIRD

For County Judge:
W. D. R. OWEN
CLYDE L. GARRETT

For Sheriff, Eastland County:
VIRGE FOSTER
B. B. (BRAD) POE.

For County Treasurer:
MRS. MAY MARRISON
 (Re-Election)
MRS. (FRANCES) THORNTON COOPER

For County School Superintendent
CLAIBORNE ELDRIDGE
T. C. WILLIAMS.

For Commissioner, Precinct No. 1:
V. V. COOPER

ROTHSCHILD'S TRIUMPH

Nathan Rothschild brings his enemy, Baron Ledrantz, to his knees. George Arliss and Boris Karloff in a tense scene from 20th Century's "The House of Rothschild," the feature attraction at the Lyric Theatre today.

TOOK 200 SCREEN TESTS FOR FILM

"It's useless—sheer waste!" You will say when you learn that a major Hollywood producing company recently spent thousands of dollars in making upward of 200 screen tests of the individual actors in the cast before the production of the picture actually started.

"What's the use of spending so much money on experiments? It's silly to go to so much expense!" But that's where you'll be wrong!

The big question is, "What'll it cost if they don't?"

And if you want actual authority for the wisdom of such a proceeding, just ask Al Werker, whose latest directorial opus, "The House of Rothschild," starring George Arliss, comes to the Lyric Theatre today.

Tests Showed Errors

"Preliminary tests on this picture proved exceptionally valuable," says Al. "For instance, we discovered that the beard worn by Mr. Arliss in the early sequences of the film, was too straight. It looked too well kept, and had to be curled up a bit to give it a more realistic appearance.

"Murray Kinnell, who plays the part of James Rothschild, the brother who went to Paris, usually faces the camera without make-up, but the tests showed that his customary method would be unsatisfactory in this instance, and consequently he was advised that light make-up would be necessary.

"We found that Helen Westley, as Gudula Rothschild, the mother of the famous brothers, had too many waves in her hair, and looked for all the world as if she had stepped out of a modern beauty parlor. That, of course, had to be corrected.

"Wrong Coat and Jewels

"Boris Karloff was tested in a green overcoat. It photographed several shades too light, and the color had to be changed as a result of the test.

"There is one scene where Loretta Young wears a band of jewels in her hair. The one originally chosen was of turquoise, but the stones proved to be so light in color that when they were photographed they offered no tonal contrast to her blonde hair, and hence could not be seen. That meant a selection of darker stones.

"And that is the way it goes!

But can you imagine how many scenes would have been ruined, and how much money expended in correcting these errors if we had not discovered them in the beginning?"

Al Werker is one of the most up-and-coming young directors in Hollywood. Back on one of the branches of his family tree you'll find the name of Johann Sebastian Bach, the eminent composer.

Werker entered the motion picture field via a modest job on the filming of D. W. Griffith's "Intolerance." The world gave him plenty of jolts up to 1928, but in 1933, when he joined forces with the new Joseph M. Schenck-Darryl F. Zanuck 20th Century company, which releases through United Artists, he was becoming one of the most sought after megaphone wielders in Hollywood.

Beneficiaries of Will Hogg Fight Inheritance Taxes

By United Press

AUSTIN.—Unrelated beneficiaries under the will of the late Will Hogg, Houston capitalist, who left a \$3,000,000 estate when he died at Baden Baden, Germany, in 1930, are trying to carry on their fight against inheritance taxes. They contend that the inheritance tax, in force at the time of Hogg's death, did not apply to legacies for unrelated persons to be used within the state.

The state claimed a 5 per cent tax under Classification E of the inheritance Tax law. The beneficiaries assert that this section applied to foreign legacies.

Disputed amount of the tax is \$10,000. Payment was made on other legacies.

Famous Ranch of Texas Changes Hands

By United Press

CARRIZO SPRINGS, Tex.—The Coleman pastures southwest of here, famous as a cattle grazing region ever since barbed wire brought an end to the open range, have been purchased by S. E. McKnight for stocking with Herefords. The pastures, well watered and highly productive of rich grass, comprise 6,000 acres.

TRY A WANT AD

That Reminds Me

(Continued from page 1)

the picture. The result of that "pushover" is well known and Sterling was elected. He failed to come back two years later at which time the issue from the start was "Fergusonism" and Ferguson was swept into office. It is reported that the large Hunter vote in 1932 was a so-called protest vote against both of them.

There is no telling what is going to happen this time. None of the candidates in the field are supposed to have "oodles" of money. If there is going to be a "pushover" there is no telling who it will be with the thing so scattered and the voters so silent as they are up to this writing. There seems to be a general opinion that this time "Jimmy" Allred is the target to get rid of. Political leaders will no doubt center on someone, but it will have to be at least a week before election to spread the word in the larger populated counties. Allred is conceded as the man who will poll the most votes in the first primary. The question is will he be able to muster in a single candidate in the field for governor in his behalf for the run-off which means that regardless of whether Allred polls a good substantial vote in the first primary, he will have "trough" slidding in the run-off no doubt unless he can pull some of the defeated candidates on his side to get out and stump the state for him.

The ballots have been printed for the election and are ready for distribution to the 27 precincts

at the proper time. From now on perhaps people will start doing more talking because they certainly have been doing a lot of thinking. All present candidates for Governor have been in Eastland county except Hunter and Maury Hughes.

But after all Eastland is still looking out for its major interests for the future. It takes every man, woman and child to do all the thinking they can on the subject. Full and wholehearted cooperation will do the trick. Many things are needed. Many things will be done. Its youth and our town. To support it means big dividends. To fall down on it simply means disaster for us all.

NEW AMPLIFIERS

By United Press

PHILADELPHIA.—New amplifying equipment has been installed at Robin Hood Dell for the fifth season of outdoor concerts by the Philadelphia Orchestra from July 5 to Aug. 29, inclusive. Forty of the 56 programs will be devoted to symphonic music while the other 16 nights grand opera will be presented.

College students have voted overwhelmingly in favor of President Roosevelt—thankful that he has taken many of their professors from the classrooms.

That nudist wedding held recently at the Chicago World's Fair was the easiest assignment the society reporters ever had. All they had to describe was the ring.

Installation Plan Is Inaugurated

By John Tarleton

STEPHENVILLE, Texas.—A plan for installment payments on college expenses has been announced by Dean J. Thomas Davis of John Tarleton Agricultural College for the 1934-35 session.

Tarleton's "new deal" will make it possible for students to enter college in the fall by making a down payment of between \$9 and \$28, to be followed by four like payments Oct. 1, Nov. 1, Dec. 1, and Jan. 1. Spring semester payments may be made in four installments.

These payments will cover fees, uniforms, books and other supplies, and, if the student stays on the campus, room and board. The variation depends chiefly on whether the student rooms and boards on the campus, and partly by the cost of uniforms and of school supplies.

To cover the amount due the college, students will be allowed to borrow as much as \$50 from the student loan, putting up a note as collateral. Hence it is necessary that those who wish to use the plan should file their applications not later than Aug. 18, or 30 days prior to the opening of the fall semester on Sept. 17.

2 WOMEN IN FAMILY OF 12

By United Press

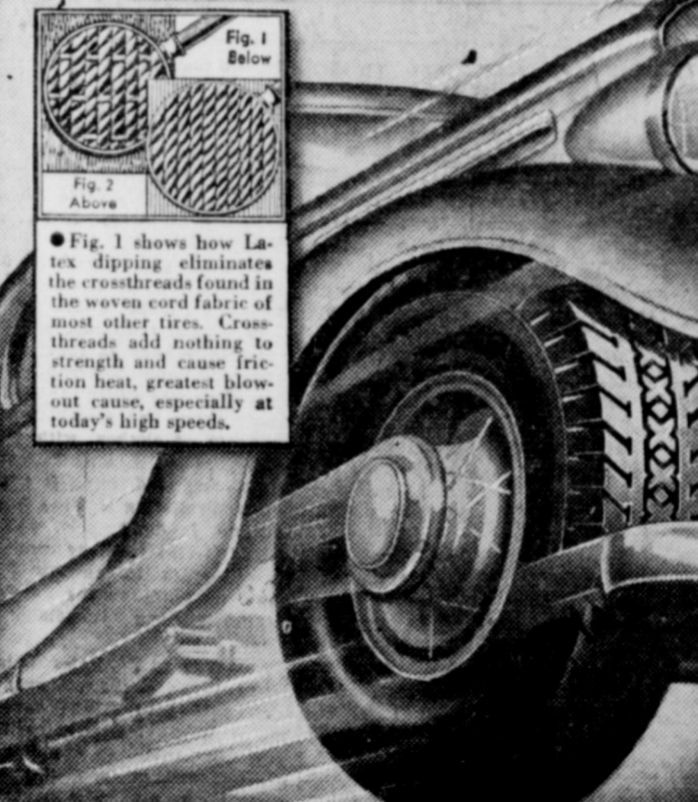

ST. LOUIS, Mo.—In a family of 12 here there are only two women, the mother and one daughter, youngest of the lot. The father is Ernst A. Winkelman, a druggist. The boys range in age from 34 to 16, while the daughter is 15.
