Leaves Miami On Journey Around The World 'Just For Fun'

SAN JUAN, Puerto Rico, June 1 (AP)—Amelia Earhart landed at San Juan at 1:30 p. m., Eastern Standard Time today on the first hop of her proposed "just for fun" flight around the world.

MIAMI, Fla., June 1 (AP)—Amelia Earhart took off for San Juan, Puerto Rico, at 4:57 a. m. CST, today on a second attempt to fly around the world "just for fun."

The slim aviatrix waved a bare arm in farewell and then gunned the big twin motored monoplane some 2,200 feet along the runway before she lifted it easily into the brilliant tropical dawn.

Just before the takeoff her husband, George Palmer Putnam, leaned into the cockpit to kiss her goodbye and shake hands with her navigator, Capt. Fred Noonan, who is to accompany her on the 28,000-mile west to east journey.

Putnam planned to remain in Miami until his wife reaches Natal, Brazil, her jumping off place for Africa. A commercial airline (Pan-American) will monitor her flight over its regular route to South America and expects to have reports on her progress.

Miss Earhart planned to cruise the 1,033 miles to San Juan at a leisurely 150 miles an hour to test her plane further and said she would return to Miami if anything went amiss.

She radioed at 6:40 "everything o. k." and that she was proceeding. Her position then was somewhere south of Miami but was not taken definitely.

Aboard the silver-colored craft were emergency food provisions, a rubber lifeboat and lifebells in case of a forced landing at sea. The tanks of the ship, a land plane, were equipped so they could be emptied quickly and would serve to keep it aloft.

Miss Earhart considered the 600 gallons of gasoline aboard as more than sufficient for the San Juan hop, although it was little more than half the 1,150 gallons capacity. The same plane crashed with her at Honolulu last March on her first globe-circling attempt when the landing gear collapsed under the weight of the heavy load of fuel.

Deputy Forces In Three Offices Reduced By Commissioners

An order by the commissioners court, aimed at curbing expenditures from the officers salary fund, into effect Tuesday as the deputy force in three offices was reduced by four persons.

A reduction of one left Mrs. Beulah Carnrike and Mrs. Ward R. Hall as deputies in the office of County Clerk B. L. Warren.

Two less in the office of Tax Collector J. F. Wolcott left Lee Porter and Carl Barker as the deputies, and from the sheriff's office B. F. "Bud" McKinney, Coahoma, was missing.

The order also required the abolition of the office of county trapper, held by Earl Brownrigg. The county commissioners court had previously served notice that it was stopping rental payments on the nursery quarters in the west part of town.

The entire move was calculated to save approximately \$475 a month.

While some of the officials affected were dubious that the work could be done with the amount of help remaining, they nevertheless buckled in with reduced forces to stay up with their schedules as far as possible.

## Knitted Edgings

By RUTH ORR Pattern No. 475

Are you one of those many people who admire lots of handwork, and still can't crochet it yourself? Then, here's a great help for you, because we've designed some knitted edgings and an insertion to match one of them. With these, you can adorn towels, runners, pillow cases and any number of articles. The top one is about two inches wide, and the others are three inches across. If you would like an especially wide finish, you could sew the edging, directly on the insertion. This pattern gives the "Illustrated Chart" method in knitting, so that you have no lengthy written directions to follow.

The pattern envelope contains complete, easy-to-understand illustrated directions, with diagrams to aid you; also what needles and what material and how much you will need.

To obtain this pattern, send for No. 475 and enclose 10 cents in stamps or coin (coin preferred) for cover service and postage. Address Big Spring Herald, Needlework Department, P. O. Box 172, Station D, New York, N. Y.

### THE BEST SHORT STORIES, 1937, by Edward J. O'Brien; (Houghton Mifflin; \$2.50).

The pope of the short story field, Edward J. O'Brien, has spoken again.

Yearly Mr. O'Brien speaks twice, as probably everybody in the literary world knows. Once is when in his book of selected American short pieces, he gives the western hemisphere the once over. The other time is when he does the same for the British output.

The volume under the hammer this morning in his American edition. It contains all the features of the other books—and the shelf of O'Brien books is already beginning to look a little like the Burns Mantle shelf of best plays. Mr. O'Brien tells all anybody could wish to know, even to the annual list of magazines you can sell stories to, if circumstances are right. With singular magnanimity, he even lists the best books of short stories.

"Then he makes his annual contribution of an idea. This time it is a plea for a literary form which is undeservedly neglected in this country... In Italy this form is called the novella and has been practiced for centuries. In Germany and Austria it is called the novelle and has been a favorite literary form for a century. In America it has been employed by Edith Wharton in 'Ethans Frome' and by Henry James in 'The Turn of the Screw.'"

This form is not the same as a novelette, which Mr. O'Brien understands as a skeleton novel. It is, rather, a major story of breadth and impact which, however, retains the short story unities, and he suggests that we had as well borrow the Italian word for it.

In any case, he reprints three of these, call them what you will. One of them ("Marching Orders," by L. V. Morris) he calls "the most noteworthy short story of the year, and one of the five or six most important American stories of our generation." It is possibly less than this, but it is a fine story nevertheless—the tale of what happened to the best tailor in Paris when an Argentine who couldn't pay his bill proposed that the tailor take an airplane instead.

Perhaps we were ripe for a few short stories. At any rate, this year's collection seems better than last.

Places were laid for Misses Helen Hurt, Charlene Estes, Vivian Ferguson, Patsy Ruth Saleup, Billie Mae Fahrkamp and the honoree.

## Glamour Gals Are Bad Copy Says Designer

HOLLYWOOD, June 1 (AP)—The so-called glamour girls of the screen are poor flats as beauty and style pace-setters, Milo Anderson, film fashion designer, warns today.

Women shouldn't ape them the clothes they wear or the beauty tricks they use in pictures or the effect is liable to be pretty awful.

"As a matter of fact," Anderson said courageously, "women would be much smarter to take their fashion and make-up ideas from anyone but the glamour girls in pictures, since the fads they introduce are often extreme and not all suitable for off-screen use."

Unfortunately, the most imitators are those of the "glamour" school, Anderson added, placing in this category Greta Garbo, Joan Crawford, Carole Lombard, Kay Francis and Marlene Dietrich. "Madge Evans, Olivia De Havilland, Gertrude Michael, Claudette Colbert—all these may be imitated safely, as a general rule, since their picture wardrobes are up-to-the-minute without being exaggerated."

A motorcycle speed of 137 miles an hour, established in 1906 by Glenn Curtiss, stood for 19 years as a record speed for all forms of locomotion.

Amerada Has Record Of 7 Wins, 2 Losses

By TOM BEASLEY

THE AMERADA Oilers of Monument, N. M., who play the Coeden Oilers here June 13, have come through their first nine games with a record of seven wins and two reverses.

THE AMERADA bunch have been very erratic. When their pitchers have been hot, the hitters have declared a holiday.

THE AMERADA infield, composed of Prather, Greer, Marsh and Barrett, has caught the eye of all who have seen them perform.

ALEX BLAIR and "Finley" Waldon give the visitors two fine receivers. Both are top notch at handling pitchers and throwing to the bases.

THE OILERS also have a nice assortment of pitchers in Weaver, Johnston, Gressett, Cope, and French.

IN THE Oiler outfield are Simpson, Simmons, Ramsey, and Walker, each of whom can hit, run and throw better than the average semi-pro player.

LEONARD JOERIS, Abilene high school's all-state tackle last year when the Eagles marched into the state high school quarter-final football race, has taken a job with a music company.

THREE EX-CHAMPS START PLAY IN THIRTY DISTRICTS

Prize Money Rolls In For Wilbur Shaw

PORT WORTH, June 1 (AP)—Dressed for rainy weather, the 28 contenders for the southwest's three places in the National Open golf tournament took off this morning for the 36-hole test at Colonial club.

There were two withdrawals, Larry Nabholz, Dallas professional, and Harry Schroeder, Dallas Country club amateur.

NEW YORK, June 1 (AP)—Three former champions, one of the vintage of 1916, another as recent as 1935, were in the lists today as 1,302 golfers from New England and Texas opened fire in the 36-hole sectional qualifying tests for the National Open championship.

At Chicago, which drew the second largest entry of the 30 districts with a field of 159, Chick Evans, winner of the open and amateur in 1916 and the amateur again four years later, was one of 53 amateur candidates for 15 places in the open.

At West Orange, N. J., where 108 players in the third largest entry, competed for the 12 berths allotted to the metropolitan New York area, one of the contenders was Willie MacFarlane, veteran Scottish pro who won the 1925 open at Worcester, Mass.

A member of the 78-man group battling for eight places at Pittsburgh was Sam Parks, Jr., seeking to qualify on the course where he won his 1935 title.

FLOOD KEEPS FEM GOLFERS IN CLUB HOUSE

By FELIX R. MCKNIGHT

SAN ANTONIO, June 1 (AP)—Rain-soaked fairways slowly drained off flood waters today but tournament officials kept 150 entrants in the Women's Trans-Mississippi golf tourney "marooned" in a club house a day behind schedule.

Officials said the 36-hole championship final, originally set for Saturday, would be played Sunday.

Women's tournament golf definitely is on the upgrade, said the master of all feminine shotflakers in the pitch and putt department.

"Back in other days when a woman decided to play the game of golf she went to the course and just started playing. Why they all laughed at me in Kansas City when I started golf by taking lessons."

Mrs. Hill, a favorite of all the younger stars, named Shirley Ann Johnson of Chicago; Betty Jamison, the Texas champion; Goldie Hateson of Milwaukee, Wisconsin state champion; Betty Berg, Dorothy Kirby, the new southern champion, and Marion Miley as "a few of the fine group of young players."

WILD RED BERRY BEATS NICHOLS FOR THE TITLE

TULSA, Okla., June 1 (AP)—A product of the Kansas oil fields, Ralph (Wild Red) Berry of Pittsburgh, Pa., held the National Wrestling association's world championship in the light heavyweight division today after he pinned High Nichols of Hollywood, Calif., in two straight falls last night.

Prize Money Rolls In For Wilbur Shaw

Dapper Young Hoosier Collects \$30,000 For Speedway Victory

INDIANAPOLIS, June 1 (AP)—Checks totaling more than \$30,000 were held today for Wilbur Shaw, a dapper young Hoosier who gambled on his tires and gasoline supply and won a 500-mile Indianapolis motor speedway race after seven attempts.

Shaw, along with other drivers in yesterday's race—the fastest, the closest in history—will attend the annual dinner for pilots tonight to get the money he and they won.

For Shaw there will be a \$20,000 check for winning the race. He will get others, amounting to \$5,500 for lap prize money, and some awarded by automobile accessory and gasoline companies.

Shaw, a native of Indianapolis, roared to victory in a car he designed, built and owned, with Ralph Hepburn, the Los Angeles veteran, only two seconds behind him.

At 409 miles Shaw seized the lead from Bob Swanson of Los Angeles who had been driving for Hepburn. Ralph got back in his own car and took out after the fast-flying Indianapolis boy.

At that time he was more than 2-1/2 laps back but he knew he was through with pit stops. With Shaw, it was a question of whether the gas supply and tires would last. Gradually Hepburn pulled up and at the finish he was slightly more than two seconds behind.

CONTINENTAL WINS LEAGUE TWIN BILL

FORSAN, June 1—After sweeping through to an 8-5 decision in the opening game of a Sandhills doubleheader here Sunday, the Continental Oilers had enough power left in the seven inning aftermath to eke out a 1-0 decision over the Co-Op Rebels of Big Spring despite the tight six-hit pitching of Melvin Boatman.

The Oilers had little trouble with the visitors in the first game after the first inning. They counted twice in the second, two more in the third and then topped the uprising with four runs in the fourth.

George Gentry accounted for the only run of the second inning when he came across on a ground ball by Cunningham.

CROWDS SWARM TO EPSOM DOWNS

EPSOM DOWNS, Eng., June 1 (AP)—Crowds swarmed to Epsom Downs rolling across today for the opening of the spring meeting, climaxed by tomorrow's renewal of the \$56,000 "Derby," the world's most trying and treacherous horse race.

There wasn't a standout colt among tomorrow's 21 probable starters, and there appeared to be at least six "probable" winners.

Lord Astor's Cash Book remained the new 13 to 2 favorite but chances were good that he would be supplanted by Le Kear of Solfo at the final Victoria club call over tonight.

SPORTS ROUNDUP

by EDDIE BRIETZ

NEW YORK, June 1 (AP)—Yep, Brooklyn is still in the league... Carl Hubbell adds: "And how!"... New York fans are disappointed that Bob Pastor didn't stop Bob Nestell, who has had only 12 pro fights.

James J. Braddock and Max Schmeling are advertised to fight "15 rounds or less" for the heavyweight title... About rounds "less" would be the doctor ordered... Since he swore off smoking for a month, Jimmy Dykes, manager of the White Sox, has been presented more than 300 cigars.

There is nothing quite like the rivalry between the Giants and the Dodgers... They stopped selling bleacher seats for yesterday's double header at 11 a. m... Some guys, particularly those who had their sweeties along, cheerfully paid \$10 for a pair of \$1.10 seats.

DAFFINESS BOYS END CARL HUBBELL'S VICTORY STREAK

"It Had To Come," Giant Twirler Comments... By SID FEDER... (Associated Press Sports Writer) It just had to be the Dodgers. It was in the cards that the daffiness boys from Brooklyn—the jinx outfit that has hoodooed the Giants more times than Bill Terry cares to remember—would be the club to catch up with Carl Hubbell's winning streak and smash his record making run.

But even though the Hub's 24-game string, longest in all baseball history over a two-season stretch, is ended, there's no one who can say old Squarepants isn't just as good a loser as he is a winner, and isn't still a pretty fair country flinger.

Knott swept a doubleheader in the Sand Belt baseball league Sunday, beating T. & P., 5-4 and 7-6. Fierro pitched for the Railroaders in the first game, fanning eleven and walking one. He gave up six hits.

Stacey Leads Cosden Batters

Pat Stacey's batting average dropped over 300 points last week but his six hits in twelve trips to the plate proved good enough to lead the Cosden sluggers, including Tommy Hutto, who has 12 bingles, and "Red" Jake Morgan, who have eleven each.

Oklahoma City Mar-Ala Carded With 'Rough-House' Pogi

Again Leads Texas League Lumberjack Hagen Is Matched With Bennett

Sheik Mar-Ala, straight from Persia, will tangle with "Rough-House" Gorilla Pogi tonight in the feature attraction at Herman Furrer's growl and scowl emporium.

The Oklahoma City team is back on top but only by the margin of one game, and what the next engagements will bring is what keeps the league on its toes and the fans cracking their tonics in the stands.

The Indians swept a doubleheader yesterday from the hapless Dallas Steers to replace Beaumont. The day before the Exporters had succeeded the Indians. San Antonio yesterday handed the lead back to Oklahoma City when the Missions beat Beaumont 7-5.

San Antonio staged a Garrison finish to beat out Beaumont. The Missions came from behind a 5-0 deficit to score two runs in the seventh and blast out four in the eighth. Rhein homered in the ninth for the other tally.

Galveston moved into a tie for third place with San Antonio with a 5-4 win over Houston. Eddie Cole rushed to the relief in the ninth to end a strong Houston threat. The Buffs spotted the Buc three runs in the first inning and were never able to catch up.

Fort Worth was shoved down the ladder through a double defeat at the hands of Tulsa, 5-2 and 6-2. Tulsa bunched timely hits and loose Cat fiddling was another contributing factor. Leo Twardy outpitched Ed Greer in the first, holding the Panthers to one hit off seven innings. In the afterpiece Dick Whitworth was the victim of scorchy Tulsa hits and erratic support.

### Protest

ish port city of Almeria, might take moves to precipitate action that would endanger the peace of Europe.

Despite the German government's assertion the attack of the Nazi warships on the ancient Mediterranean city had closed her quarrel with the Valencia government, observers feared the possibility of renewed conflict.

At least 20 persons were killed, including five women and a child, and upwards of 100 injured in the retaliation for the bombing of the German cruiser Deutschland by warplanes of the Spanish govern-

ment Saturday.

Valencia immediately protested to the league of nations declaring the attack on Almeria "an act of aggression."

What action Valencia might be planning to back its strongly worded note of protest was not disclosed, but observers in London considered the possibility it might take the form of a formal declaration of war against Germany.

**Hull Tells Envoys Of U.S. Hope For Peace**

WASHINGTON, June 1 (UP)—Secretary Hull has expressed to the German and Spanish ambassadors in Washington this government's earnest hope that their nations will be able to adjust amicably

their differences in the Spanish civil strife.

Invoking the good offices of this government in an attempt to ward off a serious crisis in Europe as a result of the German bombardment yesterday of the Spanish government port of Almeria, Hull conveyed his message in personal conversations with both envoys.

He first summoned German Ambassador Hans Dieckhoff to the privacy of his apartment yesterday and told the envoy informally of this government's urgent hope for a peaceful settlement of the Almeria incident.

The Spanish ambassador, Fernando De Los Rios, called at the state department today to express to the secretary of state his government's emphatic protest over what he termed Germany's violation of the non-intervention agreement and of international law in firing on Almeria.

In reply, Hull repeated to him virtually the same message he conveyed yesterday to Dieckhoff.

Elaborating at his press conference on his discussions with the two envoys, which were of a character most unusual in diplomatic procedure, Hull said that he called their attention to the fact that the U. S. constantly preaches and urges the maintenance of peace by all governments.

**ITALIAN MOVE**

ROME, June 1 (UP)—Italian warships have been ordered to prevent Russian vessels from supplying war materials to the Spanish government, authoritative sources disclosed tonight.

Italian ships in Spanish waters already have been withdrawn by Premier Mussolini from the international neutrality fleet, following Spanish government serial attacks on Italian and German warships.

stitution's needs.

Gas and electrical connections will be furnished, the group was told by Jas. A. Davis of the Empire Southern Service company, and Carl Blomsheld of the Texas Electric Service company.

Brief Filed by June 20

The city's brief, as well as that of all other bidders, must be filed with the state board of control by June 20. It will contain detailed description of the proposed site, as well as information on all water, utility, transportation and other requirements. It was considered probable that hearings on such brief will be conducted later by the board of control. Chamber of Commerce Manager Jim Greene will continue work started by W. T. Strange, his predecessor, in completing the brief.

Under terms of the legislative bill, \$317,000 is appropriated for construction of the hospital, to be located west of the 100th meridian at the outset, the institution will provide accommodations for 549 patients.

Dr. M. H. Bennett, chairman of general committee who conducted the Monday night meeting; Dr. G. T. Hall, B. Reagan and others pointed out that the institution would be a valuable asset to Big Spring, and all urged a united front in the city's bid.

**Americans Trek to Canada**

FORT ERIE, Ont. (UP)—A great increase in purchases of summer homes here by Americans is reported by border customs officials. The purchases, it is understood, have been stimulated by the provision in existing custom-excite regulations that allows Americans to bring in duty free all the furniture they need.

The proposal would allow only church executives or active pastors to participate in church government beyond their congregation.

Those disqualified could not vote in a Presbytery (district governing body), could not be elected delegates to a synodical (state) conference, and could not serve as commissioners in the assembly.

### Trade Figures Show Decline

#### P. O. Receipts Down, And New Car Sales Vol-ume Smaller

Slower business was reflected for the month of May in the reports from public agencies today. Building permits were slightly up from the preceding month but under May a year ago, postal receipts were down from April and only slightly above the May, 1936, total, and new car sales slumped.

Building permits amounted to \$16,908 for the month of May, well ahead of the April total of \$13,762, but under the \$18,000 for the month a year ago. The loss for the month cut the advantage for the first five months of this year over last year to \$17,902.

New car sales, after showing phenomenal gains the past two months, slumped in May to 97, well under the 117 for the same month a year ago and the 105 for April. However, five months of 1937 showed an advantage of 27 new cars over the same period a year ago.

Postal receipts were up slightly over May a year ago but down from April in showing \$4,963.52. In April a record total for the month had been reported with receipts of \$5,809.49. Advantage of 1937 through May over the same time a year ago totaled \$2,205.41.

#### FDR

**IT WOULD BE A DISGRACE** if the government's just due," Mr. Roosevelt included a letter from Secretary Morgenthau declaring eight devices were being used by wealthy individuals to escape income taxation. These ranged, he said, from the transfer of assets to personal holding companies in foreign countries to making artificial tax deductions for interest payments and losses.

Besides shutting these loopholes, Morgenthau asserted, congress should raise legislative barriers against three tax practices which specifically are authorized in the law but which he said permit individuals and corporations to escape their fair share of the tax burden.

He said these practices were deductions by oil and mining companies for the depletion of wells or mines, the splitting of income between husbands and wives in some states to take advantage of lower tax brackets, and the payment of only a 10 per cent tax by non-resident aliens on income from this country.

Outlining instances of "moral fraud" uncovered in the treasury investigation thus far, Morgenthau rected case after case in which he said rich individuals had cheated the government out of taxes.

He said preliminary findings in the inquiry, started after March income tax collections dropped 17 per cent below estimates, had disclosed "conditions so serious that immediate action is called for."

#### SUSPECT HELD

Officials here were holding George Beard, wanted in Roby to face a burglary indictment, Beard had been here under bond following a preliminary hearing, but was unable to make bond following the returning of an indictment on the county.

Harry Wilkinson, president of Continental National bank in Fort Worth, who spent the week-end at his ranch northwest of Big Spring, returned to Fort Worth Monday night.

#### BOB BURNS MARRIED TO HIS SECRETARY

**HOLLYWOOD, June 1 (UP)—**Bob Burns, the Arkansas actor who blew his way to fortune on a bazooka, honeymooned today with his secretary, who won't give up her job, even for matrimony.

Burns and Harriet Madella Foster, blonde and 28, flew to Las Vegas, Nev., yesterday and were married by Rev. Albert C. Melton at the minister's home. Born Robin Burns at Van Buren, Ark., 45 years ago, the bridegroom borrowed the name of his agent, Abe Lastvogel, in an unsuccessful effort to avoid publicity.

"It kinda hurt my pride, after all the trouble I took, to think someone beat me," he commented when a reporter recognized him at the Las Vegas airport. He had waited in a locker room at the Burbank field until shortly before time for the plane to leave. Miss Foster had previously gone aboard.

Hershel Winslett, nephew of A. B. Winslett is a house guest of Mr. and Mrs. Winslett.

Mrs. F. J. Gibson is visiting with Mr. Gibson in Odessa.

#### DAM BREAKS UNDER PRESSURE OF FLOOD

**DALHART, June 1 (UP)—**A section of the dam across the Rita Blanca creek southwest of here collapsed this morning under the pressure of flood waters, sending a torrent of water down the usually dry stream bed.

Fear was expressed for the safety of several ranch families who live along the creek between here and the Canadian river. There are no towns along Rita Blanca creek and the high water presented no danger to Dalhart.

This city was virtually cut off to highway travel and three nearby railroad bridges were washed out, crippling railroad communications.

#### MAN SUCCEUMBS OF 'BLACK' DISEASE

**SANTA ANA, Calif., June 1 (UP)—**Physicians pondered today the strange disease which was turning black the skin of William L. Morrison, 48, and yesterday caused his death.

An autopsy, authorized before his death by Morrison for the benefit of science, disclosed what surgeons described as a "surprising amount of black substance" in the bones and organs, particularly the liver, which was much enlarged. The brain also was coated by the dark substance but not penetrated by it.

## CORSICANA STORE SAFES ARE ROBBED

CORSICANA, June 1 (AP)—Safes in two downtown stores, K. Wolens and Golden Brothers, were robbed of \$700 to \$750 by a gang of knob-knockers sometime Monday night, city officers reported today. Entrance to the first building was made by climbing a telephone pole to the roof and cutting through the roof; the robbers then cut through a partition and entered an adjoining store. They failed to open one of the three safes attempted.

**His Term At Courthouse Has Been Uninterrupted For 18 Years; That's Hub Underwood, Caretaker-Diplomat**

"HUB" UNDERWOOD

Without the necessity of card passing and back slapping, J. H. "Hub" Underwood, one of the most polished diplomats of the bunch, finished his 18th year at the courthouse Wednesday.

His was one of the longest tenures on record, being exceeded only by the late J. I. Prithard.

Hub's job is not one in which he gets the people every business day, but one on which he must be friendly with officials every day. He is, and has been for nearly two decades, caretaker of the courthouse.

His good natured gruffness has helped him to outlast four county judges and as he says, "this far under the fifth sun."

Lots of things have happened at the courthouse in those 18 years, so much that Hub can't single out any one thing which was more exciting than another. However, growth of the town has made work a lot more difficult, he says.

"Where there's one then, there's five now," he observes. "That means just that much more to do."

Hub has his own ideas about things. For instance, he stands four square with some of the leaders today who believe courts could stand reforming.

**Not Enough Juries**

Thinking back to the time more than a decade ago, he remembers that "I used to put a jury to bed almost every night. Last term of court, six weeks it was, I put only one jury to bed."

To Hub it looks like a "bunch of foolery." He likes jury cases and it borders on breaking his heart to bring half a dozen prisoners over one morning and have them convicted and sentenced before noon. "It just blows up court the whole week," he complains.

Perhaps the closest observer the courts here have had for the past 18 years, he naturally has acquired a knack for predicting the outcome of cases. He has little trouble in arriving at his own conclusions of guilt or innocence, and back away from the courtroom Hub will tell you about those conclusions.

**Prichard The Politician**

While he has successfully held his job under different types of judges and commissioners, he doesn't regard himself as a politician in his own right. Rather he looks upon the late Mr. Prichard as "the slickest, smoothest and finest 'politician' I ever seen here or anywhere else."

He has seen him meet strangers in the hall, talk with them a minute and invite them out to supper and to stay all night. Nobody ever hung around the clerk's office five minutes without Mr. Prichard knowing him, and like as not asking him for supper.

Hub says that Prichard knew his voting strength, too. He recalls that during the severest test Prichard ever faced, the union block apparently had him badly beaten. Underwood was seeking to console him on his imminent defeat, but Prichard knew better.

"He told me what I never would believe that man would have said," relates Underwood. "He said, 'No, Hub, there's old No. 3 a siltin' back there. If you're a sporting man and want to bet on men, I'll loan you the money.'"

**He Won**

Hub says that "I was flabbergasted. I told him if he felt that strong I'd place a bet for him. But he wouldn't lay a nickel himself on any kind of betting. Well when No. 3 come in, Jim Prichard had 'em whipped down just like he said."

Few men are better pleased with their jobs than Underwood. He likes his work better now than the day when he walked through the broom-weed meadow that was his lawn and knew that it would take him a month of fighting before I'd see daylight." Somehow he seems perfectly happy that his butchering business did not hold up when he came here in 1917.

Now with 18 years behind him,

**Crude Output At Another New High**

TULSA, Okla., June 1 (AP)—The Oil and Gas Journal reported another new high today in the national production of crude oil, a daily average for the week ending May 29 of 3,585,800 barrels.

That figure was 33,571 barrels higher than the daily average of the previous high set just a week ago.

Oklahoma output increased 11,000 barrels for a daily average of 60,775, East Texas was up 2,636 barrels to 467,853 and total Texas climbed 8,467 barrels to 1,436,846.

Louisiana increased its production 5,872 barrels daily for an average of 248,302, while California production declined 500 barrels to a daily total of 658,500 and Kansas jumped 5,125 barrels to 202,675.

Eastern states including Michigan had an increase of 2,357 barrels to average 163,800 barrels daily.

The output of the Rocky Mountain area remained virtually stationary, decreasing 60 barrels to an average of 74,470.

**ONE DEAD, 15 HURT IN BUS-TRUCK CRASH**

SAN DIEGO, Calif., June 1 (AP) A Greyhound bus loaded with 33 navy men collided with a truck south of Del Mar early today, killing one passenger and seriously injuring 15.

The dead man was identified as H. J. Sandford, chief petty officer of the U. S. S. Monahan. Several of those hurt are in a critical condition, Deputy Coroner Dave Gordon said. Three navy ambulances transported them to the hospital here.

The accident occurred when the bus, driven by A. S. Storrs, of Los Angeles, was passing the truck on a hill one mile from Delmar.

The bus hit the trailer and plunged 135 feet off the road, the authorities reported. The truck driver, La Verne Keller, 42, Long Beach, was seriously injured.

The bus was bound from the Los Angeles area to the naval base at San Diego.

**Tourists Get Supply Of Gas**

MEXICO CITY, June 1 (AP)—The Mexican government came to the rescue of otherwise stranded United States motor tourists today and provided them with gasoline to get out of the country where a nationwide oil strike has slowed traffic almost to a standstill.

The habitual stream of automobile traffic on the International highway from Laredo virtually was dried up by the four-day-old walk-out of 18,000 workers in Mexico's \$400,000,000 oil industry.

In all of Mexico there was estimated to be only a scant score of visiting automobiles after the departure today of 40 American tourist cars, their fuel provided by the Mexican government.

Out of the reserves held for public service, about 25 gallons was doled out to a car. It was hoped the gasoline would get the tourists to Valles, half way point on the 760 miles trip to the border, where the automobile association had ample supplies stored.

The tourists paid only the pre-strike price of 16 cents a gallon but prices to residents of Mexico were sky rocketing, with the Railway Syndicate cooperating with the strikers to halt movement of oil and gasoline. Taxicab drivers asserted they were paying 53 cents a gallon and many cabs were forced to quit operating.

**Mexican Govt. Aids Them In Getting Out Of Country**

the mayor as "auxiliary police," patrolled the streets under command of Adjutant General Russell C. Charlton.

All automobiles were ordered from the streets and police warned residents to draw a supply of drinking water against the possibility mains would be broken. Lowland dwellers fled homes.

Three miles north of the city the Berendo river overflowed at 1:50 a. m., driving dozens of families from their homes along its banks. A group of sheriff's officers was dispatched to their aid.

A bridge across the Berendo was washed out and the river was reported running 28 feet deep.

No loss of life was reported.

Roswell residents, amply warned of the approaching crest, labored all night to combat the new menace. Merchants removed their stocks beyond the reach of possible floodwaters. Doors and windows were barricaded with sand bags.

**NAZI BOMBARDMENT CALLED ACT OF WAR**

BERLIN, June 1 (AP)—The German government today formally accused the Vatican of endangering normal relations with the Nazi Reich by failing to disavow the critical speech of George, Cardinal Mundelein, of Chicago.

A diplomatic note, handed the Holy See by Diego Von Bergen, the German ambassador to the Vatican, said:

"The Holy See must realize that its unexpected and incomprehensible attitude in this matter, so long as it remains unremedied, has removed the pre-conditions for the normal course of relations between the German government and the Roman curia."

(The Roman curia is the body of congregations, tribunals and offices through which the pope governs the church.)

The foreign office said the note did not mean that relations with the Vatican were now being broken off. Von Bergen, it was explained, left Rome on his usual summer vacation. But, it was stated, "he will not go back for some time."

**SAILORS SAY BOAT ATTACKED BY SUB**

TARRAGONA, Spain, June 1 (AP) A handful of wounded sailors made their way into this port today to relate a "large submarine" had torn their 214-ton sailboat to pieces with 20 shots off Cambrils.

One man of the crew of eight of the ship, the "Granada," was killed. The others, all wounded, reached here by lifeboat. The attack occurred late today.

The incident followed upon the reported torpedoing of the Spanish steamer city of Barcelona off Malaga Sunday.

(An insurgent broadcast said 110 of the crew of the City of Barcelona were lost when the ship struck "a mine." Catalanian authorities have charged an Italian submarine torpedoed the boat.)

**TO TARIFF BOARD**

WASHINGTON, June 1 (AP)—President Roosevelt nominated Raymond E. Stevens, of New Hampshire, today to the tariff commission.

**Flood Spreads Over N. Mex.**

ROSOWELL, N. M., June 1 (AP)—Rain-swollen streams spread flood waters over a wide area north of here early today and sleepless residents anxiously awaited the Hondo river crest which they feared would inundate the city itself for the second time in four days.

A wall of water even higher than that which caused a major flood last Saturday was reported sweeping down the Hondo from the west, bringing the menace of new destruction.
