That reminds me...

Don't know what the idea of going to bed Saturday night needing plenty of cover and then throwing it off before morning because of a sudden rise in temperature and then to and behold before night Sunday had to rush around hunting an overcoat again. Guess this Texas business of finding it necessary to carry an umbrella, overcoat and all those different things for sudden changes are exactly right, and no one can guess what it's all about, not even the weather man.

Which reminds us that the glorious city of Eastland is saturated with Piggly Wiggly operators from over the state today with a good sprinkling of special representatives from Cincinnati to make the big convention of Texas Piggly Wiggly operators complete.

Insull Was Only a Symbol Of Our Faith in Finance

The acquittal of Samuel Insull may provoke the cynical to new remarks about the difficulty of finding a million dollars guilty of anything; but its chief importance is its warning that we cannot blame the disasters of recent years on individuals.

In the years before the stock market went Democratic, Mr. Insull was up on a golden throne; and he would never have stayed there a minute if we had not assented to it. We looked upon him as one of our great men, we listened attentively to everything he had to say—not because we had any special reason to believe that he was a brilliant thinker, but simply because we were ready to give our highest honors to any man who possessed quantities of the long green.

Naturally enough, when the bottom fell out of everything, our ideas went into reverse. Instead of idolizing this utilities magnate, we tried to blame him for everything. A great many people lost a great deal of money in his companies—so we felt, in our wisdom, that the obvious remedy was to throw him in jail.

Now it should have been apparent that the obvious remedy was nothing of the kind. These unlucky investors were victimized, not by any one man, but by a combination of forces; by themselves, first of all, and by the temper of the times, secondarily.

How was this victimization made possible? Chiefly by the fact that we suspended our critical judgment in favor of a great desire to have all our problems solved by the power of finance.

We knew that many things were out of joint in our country. The life was being ground out of agriculture, labor was getting less than its share of things, the development of mass production and super-finance was piling up stupendous problems which we had not even tried to solve. But we were eager to forget all about those things—we simply refused to be bothered by them—in the hope that by piling stocks and bonds up high enough we could be floated over into a New Era without effort of our own.

Well—it didn't work. We should have known that it wouldn't work, but we never let ourselves ask questions. We have been sitting amid the wreckage for several years now; and our remedy is not to put this or that man in jail, but to change the psychological background against which these men operated. Insull's acquittal ought to be a timely reminder of this.

SISTER MARY'S KITCHEN

BY MARY E. DAGUE, NEA Service Staff Writer

THANKSGIVING over, we can go about the baking of the Christmas fruit cake and boiling the Yule plum pudding with a calm mind. The sooner we get them made the better they'll be because both need several weeks for blending and mellowing. Both cake and pudding make wonderful presents.

Rich Black Fruit Cake

One cup butter, 1 cup lard or other shortening, 1 cup light brown sugar, 10 eggs, 1 cup molasses, 1 cup liquid (sweet cider, brandy or sherry), 4 cups flour, 1 teaspoon soda, 1 tablespoon cinnamon, 2 teaspoons nutmeg, 1 teaspoon cloves, 2 teaspoons allspice, 3-4 cake bitter chocolate (optional), but it makes a blacker cake, 2 pounds seeded raisins, 1 pound seedless raisins, 1 pound currants, 1 pound citron, 1-2 pound candied pineapple, 1-4 pound each candied orange and lemon peels, 2 1-2 cups blanched and shredded almonds, 2 tablespoons vanilla, 1 teaspoon salt.

Prepare fruit and almonds. Cut cherries in halves and pineapple in thin slices. If you shred your citron and orange and lemon peels warm them well before cutting. Mix prepared fruits and sift one cup of flour over them. Stir with a fork until thoroughly coated. Cream shortening and gradually beat in sugar. Add prepared fruit and one cup of flour. Mix well and add eggs well beaten and beat this mixture hard. Add molasses, chocolate melted over hot water and liquid. Mix thoroughly. Mix and sift remaining flour with salt, soda and spices. Sift several times to be sure the soda is well mixed with the flour. Add to batter with nuts and stir until smooth and perfectly blended. Turn into cake pans lined with heavy parchment paper or into

Chop fruit and suet with flour. Add crumbs and mix well. Beat yolks of eggs until thick and lemon colored. Add to first mixture. "KISSING ROCK" AT WEST POINT IS SCENE OF GAYEST MUSICAL Generations of West Point graduates are likely to get a wave of nostalgia when they see "Flirtation Walk," the new First National musical romance which comes to the Lyric theatre today, with Dick Powell, Ruby Keeler and Pat O'Brien in the stellar roles. This new picture presents the "Kissing Rock" which is to be found on the bona fide Flirtation Walk, overlooking the Hudson river. The "Kissing Rock," according to West Point tradition, is the nestest of all prim maids, and will fall on and crush any girl who will not allow herself to be kissed by an ardent cadet. As the rock is still standing, it would seem that it has never had occasion to fall!

The Kissing Rock, in the new movie, forms the background for one of the spectacular musical numbers of the film. Led by Dick Powell and Ruby Keeler, scores of handsome cadets and beautiful girls parade down the length of Flirtation Walk where the cadets investigate the veracity of the Kissing Rock legend. "Flirtation Walk" is a thrilling romance of glorious youth. The action takes place in Hawaii and West Point. With contour ditches, Hal McCampbell, ranchman living near Hebronville in Jim Hogg county, is utilizing the waste water from his artesian well to irrigate land which he has sown to gain for winter pasture. Mr. McCampbell plans to plant and water 100 acres in this way.

From a garden subirrigated with old pipe, Mrs. W. J. Stoneman of the Anderson ranch in Baylor county gathered tomatoes from June to November. "We've had plenty all summer, picking from a gallon to two bushels daily. We have eaten them raw and canned them many ways," she says.

Sixty varieties of canned products in 650 containers, valued at \$142, are the sufficient barrier to keep the wolf from the door of Mr. and Mrs. Carl Kennedy at Inez this winter.

GROESBECK—A good mattress made at home for \$5.21 is the possession of Mrs. T. B. Morton of Limestone county, according to Miss Cora Kirkman, home demonstration agent. "I have a good mattress at a cost of \$5.21, and I would not take twice that much for it," Mrs. Morton says. "The mattress cost \$2.25 for 10 yards of feather mattress ticking, 10 cents for the cord to make the roll around the mattress, and \$2.51 on a 50-pound round bale remnant. The seed paid for the ginning."

BASTROP—"It is the nicest thing we have ever had," says Mrs. Oscar Anderson of Bastrop county in speaking of the clothes closet constructed by her daughter Gladys as a part of her work as wardrobe consultant for the Kyleberg 4-H club, according to Miss Dessie E. Hoerster, home demonstration agent. The closet is 12 feet high, 9 feet wide, and 26 inches deep, and has a rod that extends the length of the closet, shelves for storing folded garments, shoe rack, hat rack, and a large space for storing quilts and blankets. The entire cost was \$6.75.

Averaging four tons of hegarri per acre, Pecos county farmers are following the demonstration planting of this grain sorghum on the Webb farms in 1932. The price has been around \$18 a ton with a profit of about \$58 an acre on irrigated lands.

Bees have proved to be a good side line for E. Schokade of Shackelford county. Beginning with 20 hives the number has increased to 26 colonies which have harvested 90 gallons of honey, even in this dry year. The honey was gathered largely from mesquite blooms, it is estimated.

OLTON—A sink has been built for her kitchen from a part of the body of an old car and a drain board made from an old sheet iron sign board by Mrs. George Wallace of Lamb county, according to Miss Bernice Westbrook, home demonstration agent. Mrs. Wallace has also increased the size of her kitchen by taking in a small back porch. The kitchen has been ceiled with sheetrock, the ceiling and walls finished with a coat of caliche and a cabinet and woodwork finished with cream paint. The total cost of this improvement was \$3.50 which was spent for the sheetrock and a new glass for the kitchen door.

sweet manure when applied under sheep potatoes returned an increase of 14 bushels per acre for Otis Cox of Comanche county, according to J. A. Barton, farm demonstration agent. The potatoes sold at \$1 per bushel so the manure increased his profits by \$14 per acre.

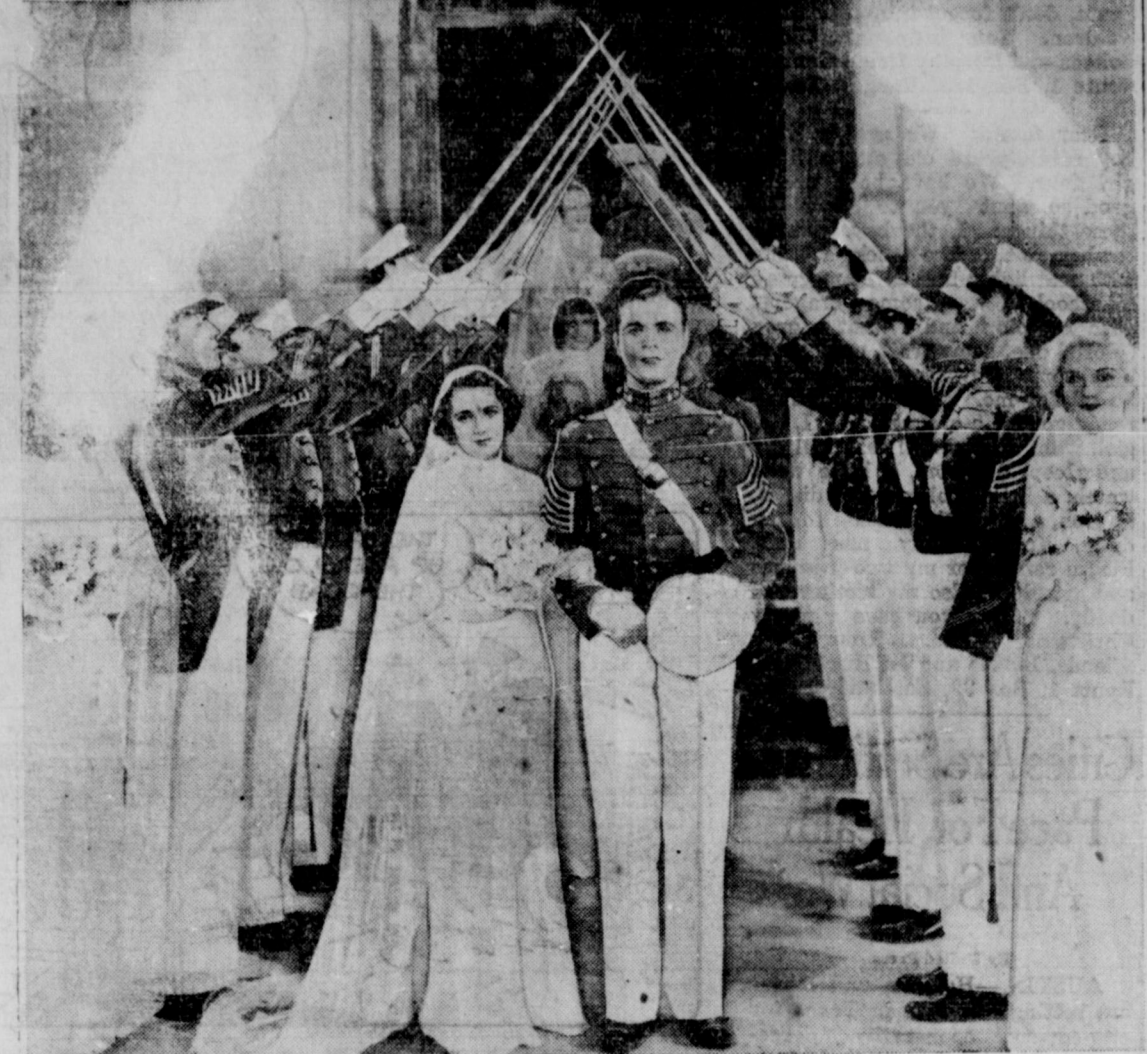

Mr. Cox stated that very little rain fell on his potatoes, but that he had prepared the land well, placed the sheep manure deep, and planted potatoes on a bed. In addition to the value to the crop this year, Mr. Cox figures that there will be an increased yield for the next four or five years.

JEFFERSON—"Very little attention is devoted to fruit in East Texas, but my pear orchard is a fine example of what a little work and attention will do toward making an orchard profitable," says A. I. Herren of Marion county, according to John H. Erickson, farm demonstration agent. Because of the long drought, all the field crops on the Herren farm yielded almost nothing, but the sale of more than 600 bushels of pears saved the day for the Herren family. More than \$400 was realized in this way.

LIPSCOMB—Ensilage made from Russian thistles is being fed to the dairy herd of G. A. Robbins and sons of Lipscomb county, according to C. M. Gay, farm demonstration agent. Mr. Robbins reports that Russian thistle ensilage is very palatable and that his production records compare favorably with records from past years for corresponding cows that were fed alfalfa and sorghum hay as roughage when these feeds were more plentiful.

Toledo "Last Man" Club Has Humor

TOLEDO, O.—For all their laughter, there was a grimace in the face of each of the dozen members of the Last Man Club as they sat in their first official meeting in the chamber of commerce. War veterans all, the members will continue their organization along lines of similar groups over the country. A bottle of liquor will be placed in the center of the table at each meeting. As death empties the chairs, they will be tilted forward. The last man may drink the contents of the bottle. There are 13 members in the club altogether. Whoever the last man in the

club may be, Milo J. Warner, national vice-president of the American Legion, won the honors at the first meeting. He arrived late and chose the 13th chair. The members drank a toast and chatted before their turkey luncheon was served. At times, when it appeared all were laughing, at least one face could generally be found solemn, its eyes searching the faces of the others.
